The College of Liberal Arts emphasizes the foundation of knowledge through critical thinking, imagination, curiosity, healthy doubt tempered by wisdom, tolerance, and a sense of humor.
The College of Liberal Arts emphasizes the foundations of knowledge and techniques of analysis and expression essential for lifelong learning. Critical thinking, imagination, curiosity, and healthy doubt tempered by wisdom, tolerance, and a sense of humor are attributes of the truly educated individual. The college is dedicated to accomplishing diversity through greater representation of minorities and women in the faculty, staff, and student population as well as through the integration of materials relating to cultural diversity in the curriculum. The college faculty is committed to the advancement of knowledge through scholarly research and other creative activities. Faculty are encouraged to develop interdisciplinary teaching agendas thus providing students with rich and varied instructional opportunities. The college’s vitality is maintained through the faculty’s commitment to their own research and teaching and dedication to University and community service.

Students are provided the opportunity to develop competence in a particular field of knowledge by learning its principles, history, and perspectives. Skills in written composition and oral communication through public speaking and persuasion are the backbone of the curriculum. Opportunities are provided for study in a wide variety of disciplines in the humanities and social sciences. The CLA offers programs leading to the bachelor of arts degree and a master’s of political advocacy and leadership.

**Admission**
See Policies and Procedures.

**College Honors**
At UMD, a maximum of 15 percent of the graduating class can graduate with college honors. In CLA, the top 3 percent of the graduating class is designated *summa cum laude*, the next 5 percent *magna cum laude*, and the next 7 percent *cum laude*.

At the beginning of each year, GPAs necessary to achieve these honors are posted in the CLA Student Affairs and Advising Center. The GPAs are based on the previous spring semester graduating class. In addition, those receiving honors must have a coefficient of course completion of at least 90 percent. The GPA and coefficient of completion are calculated for UMD coursework as well as for total undergraduate work, including that completed at other institutions. To be eligible for honors, students must earn at least 30 credits at UMD.

For more information, contact the CLA Student Affairs and Advising Center.

**Dean’s List of Academic Excellence**
Each semester, CLA students are recognized for high academic achievement by being placed on the CLA Dean’s List of Academic Excellence. A memo is placed on their transcript indicating this achievement. To be eligible for this honor, students must have a 3.50 minimum term GPA and 12 graded credits. Incompletes, N’s, and F’s disqualify a student from eligibility.

**Department Honors**
Honors are awarded to graduates who have successfully fulfilled the additional requirements of the special honors program in the department offering their major programs. For information, see American Indian studies, communication, English, foreign language and literature, geography, history, philosophy, political science, sociology-anthropology.

## Academic Standing

### Good Academic Standing
CLA students who have attempted 21 or more credits (including credits outside the University and credits by examination) must have a 2.00 minimum overall University GPA to be in good academic standing. Credits outside the University are not calculated into the University GPA. Students who have attempted 20 or fewer credits (at UMD or elsewhere) must have a 1.80 minimum overall GPA to be in good academic standing.

### Probation
Students with a cumulative GPA lower than that required for good academic standing are placed on academic probation. (Note that students with a first-term cumulative GPA below 1.00 are subject to immediate dismissal.) Once on academic probation, students have one semester of day school attendance to attain the required cumulative GPA and avoid dismissal. No credit load restrictions are imposed on students on academic probation. However, they should consider the possibility that a higher GPA might be more easily attained by carrying a lighter load and/or repeating courses in which a D or F was received. Students on probation are strongly encouraged to talk with their adviser or personnel in the CLA Student Affairs and Advising Center.

### Dismissal
Students with a first-term GPA below 1.00 are subject to immediate dismissal. Probationary readmission may be permitted only through contractual agreement with CLA Student Affairs and Advising Center. All other students are subject to dismissal after one semester of probation. The associate dean decides either to dismiss or to allow another semester of registration. Dismissed students are notified immediately and their day school registration for the next semester, financial aid, and on-campus housing contract are canceled.

## Readmission
Students who have been academically dismissed must present evidence of improved academic capability to the college to justify readmission. Petitions for readmission are considered at any time. However, readmission is not normally considered before one year has passed from the date of dismissal, unless circumstances clearly support a decision for early readmission. Readmission is granted whenever deficiencies are made up through Continuing Education (CE) or summer school. Registration through CE after being dismissed will be monitored through the CLA Student Affairs and Advising Center. Students will be allowed to register for seven credits maximum through CE. Petition forms and information about academic standing are available in the CLA Student Affairs and Advising Center. Students who withdraw voluntarily from school with a GPA below that required for good academic standing are subject to CLA’s guidelines for probation, dismissal, and readmission.

## CLA Student Affairs and Advising Center (CLA SAAC)
For information and advice on academic matters (such as academic standing; admission; advising; academic programs; change of major, college, or adviser; grievance and appeal procedures), contact the CLA SAAC. Forms and petitions are also available in this office.

The CLA SAAC offers help in exploring majors and assessing individual needs. The Center’s academic advisers advise first-year undecided majors as well as other students requiring additional help exploring majors, minors, and careers. The SAAC is home to the LINK, CLA’s academic major and career resource center, which houses numerous career publications and online resources. Stop by to schedule an appointment or to use printed resources.

## Preprofessional Programs
The college offers programs and special advising services for students who plan to enter professional schools in law (see Department of Political Science). In addition, some students who plan to attend medical school major in a
CLA program (see also Pre-Medicine in the College of Science and Engineering).

Variations in curriculum may be arranged upon agreement between the student, preprofessional adviser, and the office of admissions of the pertinent professional school. Students are encouraged to avoid narrow specialization during their undergraduate years.

American Indian studies offers coursework to promote understanding of tribal cultures. Its curriculum studies traditional cultural values, tribal language, tribal social structures, social and intellectual relations between Indians and Whites, and political-legal interactions between tribal nations and the federal government. Special attention is placed on American Indian sovereignty and tribal efforts to preserve the freedom of cultural beliefs, such as language and religion, that were once suppressed by the United States. It serves American Indian and non-Indian students and builds their knowledge of historical events and contemporary affairs.

American Indian studies maintains close relationships with other American Indian academic programs at the University, such as education, social work, and medicine. It also sponsors the Anishinabe Student Organization and participates on an Indian Elders Advisory Board to review new academic initiatives. The program maintains ongoing field activities with
Ojibwe tribal communities in the region and sponsors outreach programs to serve the Duluth American Indian community. Students majoring in American Indian studies are required to serve internships with selected agencies from this network.

Executive Administrative Specialist: Judy Salyards
Professors: Linda S. Belote, Michael D. Linn, Timothy G. Roufs; Assistant Professors: Jim Belote, Mitra Emad, Jennifer E. Jones, David M. Syring

B.A.
Anthropology is concerned with the study of diverse peoples and cultures with a central focus on what it means to be human. This understanding is developed using an integrative and comparative approach that examines the role of culture in human society. Areas of knowledge include
• specific ethnographic areas such as Central and South America, the Middle East, and Africa along with specific subfields of anthropology: archaeology, linguistics, and physical and applied anthropology.
• political, social, and environmental issues within the context of international and intranational diversity.
• major historical and contemporary theoretical perspectives.

To illustrate how anthropological knowledge is obtained, qualitative methodology is emphasized, including knowledge of the uses and limitations of standard methods, a strong ethical component concerning the study of humans, and the relationship between theory and method in qualitative fieldwork.

Honors Requirements
The department honors program recognizes majors who demonstrate outstanding academic performance, provides special educational opportunities for such students, and encourages the development of specialty areas within the major. Honors students participate in independent research, working closely with a faculty member. If students need to retake either of these courses, the department will accept the grade in the first retake only.

The Department of Composition is committed to teaching, research, and service in the areas of writing, rhetoric, and linguistics. The department’s primary responsibility is to provide instruction in and encourage the development of student competence in writing. Composition faculty also teach in the areas of linguistics, English, journalism, information design, and related fields in the liberal arts. Courses in the department develop students’ written communication skills. In addition to the required freshman composition courses, upper division writing courses are offered in the areas of business, language and literature, arts and letters, human services, social science, engineering, science, organizational writing, and document design and graphics. Students are required to complete these specialized courses during their junior or senior year. The department offers writing internships and independent study courses at the undergraduate and graduate levels along with graduate seminars in the teaching of writing and in topics relevant to written discourse. An individualized major through the Interdisciplinary Studies Program may be developed.

Composition Requirements

Comp 1120—College Writing (3 cr) or its equivalent must be completed during the first two semesters of attendance at UMD as part of the UMD liberal education program or Minnesota Transfer Curriculum. UMD also requires all students to take one upper division composition course. This requirement is clarified under each program’s description.

Entering freshmen who score a 3 or above on either of the Educational Testing Service Advanced Placement examinations in English: Literature and Composition or Language and Composition are granted 3 credits for Comp 1120. Credit for Comp 1120 is also granted for a score of 6 or 7 on the International Baccalaureate examination. Students scoring a 32 or above on the ACT English score are exempt from Comp 1120. Students must contact their Student Affairs Office for this exemption to be processed.

Examination for Credit—The Department of Composition offers a credit-by-examination option for Comp 1120 and Comp 3xxx once each semester (excluding summer term). Credits received from the exam count as degree credits. For more information, contact the Department of Composition.

Criminology

Department of Sociology and Anthropology

228 Cina Hall, 726-7551
Executive Administrative Specialist: Judy Salyards
Professors: John A. Arthur, William A. Fleischman (criminology coordinator), J. Clark Laundergan; Associate Professors: Sheryl J. Grané, John E. Hamlin, Janelle L. Wilson; Assistant Professors: Susan L. Janssen, Jeffrey R. Maahs, Daniel D. Martin, Deborah M. Plechner, Robert R. Weidner; Instructors: Gary R. Gasele, Bruce Mork

B.A.

Criminology is the study of crime and criminal behavior. The criminology program focuses on crime as a social phenomenon and the causes of criminal behavior. The major provides an
overview of institutions, issues and causes of crime, and social control; it also offers a strong foundation in liberal arts, a basic knowledge of behavioral sciences, and a strong professional growth potential for those pursuing a career in criminology or the criminal justice system. Many criminology majors enter law, law enforcement, corrections, and other social service careers or graduate school.

**Honors Requirements**

The department honors program recognizes majors who demonstrate outstanding academic performance, provides special educational opportunities for such students, and encourages the development of specialty areas within the major. Honors students participate in independent research, working closely with a faculty member. Qualified majors apply to the honors program before the end of the sixth week of the first semester of their senior year. See department or department Web site for further information.

**Degree Requirements**

Requirements for the B.A. in criminology (120 cr) include:

- Liberal education requirements
- Advanced writing requirement: Comp 31xx (3 cr)
- Major requirements (49 cr):
  - Lower division core courses with a grade of C or better in each course and an overall 2.50 GPA in these core courses. Any of the four core courses can be retaken only once.
  - Upper division core courses with a grade of C (or S) or better. Any of the three core courses can be retaken only once. Failure to successfully complete any of these courses would disqualify a student from graduating with a criminology major.
  - Eight required courses, one inequality in society course, four courses reflecting student career interests (e.g., corrections, law enforcement), two non-sociology courses (6 credits minimum) complementing the student’s focus in the major
  - A minor or second major from another area of study
  - CLA 1001 or SSP 1000 required (1 cr)
  - Elective credits to total 120 credits

*Note: Students majoring in both criminology and sociology complete 36 unduplicated credits beyond the total required for one of these majors (e.g., if a criminology major is completed for 50 credits, a student also majoring in sociology takes 36 additional credits that apply to the sociology major beyond those counted toward the criminology major).*

The cultural studies minor is an interdisciplinary program that focuses on how culture and power intersect in everyday life. Cultural studies work specializes in creating and practicing methods of critical thinking that can be applied to the study of popular culture. The program makes theory and scholarly research a participatory project with the ultimate goal of facilitating students’ civic engagement. Students develop expertise in critical cultural analysis, especially in the workings of gender, race, social class, different abilities, and sexual orientation in everyday life.

The environmental studies program (housed in the geography department) provides a sound interdisciplinary grounding in the natural sciences, social sciences, and the humanities, producing graduates who understand and think creatively about the complex issues of our natural, naturalized, and artificial environments. The curriculum encourages multidisciplinary thinking and problem-solving skills at the nexus of the sciences and social sciences. Coursework develops skills in research, writing, creative thinking, and sound policy making, as students draw upon a range of disciplines to understand and solve specific issues and problems.
The major encompasses 68-78 credits, with no minor requirement. Students who successfully complete 15 credits a semester at UMD and follow the requirements for the B.A. degree should graduate in four years. The program is divided into two-year segments

Honors Requirements
Candidates must be environmental studies majors with a 3.00 overall GPA and 3.30 in the major. Students must complete an honors project. The project is supervised by a faculty member and approved by the program director. In some cases the project may develop out of the environmental studies internship. Students must notify the director of their intent to participate in the honors program by the end of the first week of the semester of graduation and the completed project must be approved by the faculty adviser and the director at least 30 days before the end of the term. The project is presented orally or by exhibition.

Foreign Languages and Literatures
457 Humanities, 218-726-7951
Executive Administrative Specialist: Judy A. Brekke

Professors: Richard A. Seybolt, Eileen M. Zeitz; Associate Professors: Jonathan B. Conant, Yolande J. Jenny, Milan Kovacovic; Assistant Professors: Maureen Tobin Stanley, Gesa Zinn

The department offers majors and minors for the B.A. and B.A.A. degrees in French, German, and Spanish. Instruction in Russian, Italian, and other languages is offered when feasible. Instruction in Swedish is offered when feasible through the Study in Sweden Program.

Foreign Studies Minor Only
International Education Office and CLA Student Affairs and Advising Center (SAAC)

The foreign studies minor involves the study of countries and cultures beyond the borders of the United States with a large portion of the coursework taken while studying on site in at least one foreign country. Students combine specified UMD courses and a minimum of 12 credits completed while studying abroad to complete the minor. This minor both acknowledges and promotes the unique benefits of study abroad by informing students about world issues, international relations, and intercultural relationships, as well as developing a better understanding of the place of their own culture and country in the world community. Students who study abroad are highly desirable to employers who compete in the international marketplace, are more comfortable in the world community, and are better prepared to adapt to situations involving diverse peoples.

Students pursuing the foreign studies minor and either the international studies major/minor or a foreign language major/minor are allowed a maximum overlap of 9 common credits.

Requirements (28 cr)

Core Courses (4 cr)
FSt 2929—Orientation to Foreign Studies (2)
FSt 4949—Study Abroad Foreign Studies Synthesis (2)

Study Abroad Requirement (12 cr)
Students must complete at least 12 credits of FSt designated courses in addition to the core courses. These may be earned in a single term of study abroad or in a series of at least three short term study abroad programs. Extra FSt designated courses may apply towards the global perspective requirement.

Global Perspectives Requirement (12 cr)
Four courses, two lower division (1xxx-2xxx) and two upper division (3xxx and above) courses with a primary focus on international issues or world regions beyond the United States must be taken. Both lower division and upper division foreign language and literature courses relevant to the selected study abroad region may also be used. Courses selected to satisfy this requirement may need approval by CLA SAAC.

French Minor Only

Requirements (12-32 cr)

Students with previous language study may be exempt from some core requirements and should consult the department about placement. French minors are exempt from the international perspectives requirement.

German Studies

Department of Foreign Languages and Literature

457 Humanities, 218-726-7951
Executive Administrative Specialist: Judy A. Brekke
Associate Professor: Jonathan B. Conant; Assistant Professor: Gesa Zinn; Instructor: Michael J. Mullins

B.A.

This program introduces students to, and helps them explore in detail the culture of German speaking countries, with an emphasis on contemporary issues. The political and social background that produced this culture will be seen through literature, the arts, essays, film, and journalistic reportage. German, long the language of science and philosophy, now provides the window to Eastern Europe and its emerging new institutions and relationships. German is thus important in history, law, political science, economics, and business, and German Studies majors are encouraged to declare a second major in such a complementary field.

Honors Requirements

Students who complete an honors project during their senior year, and earn a GPA within the major of at least 3.30, receive departmental honors and are awarded a degree with distinction. The project is completed under the direction of one faculty member in the program and evaluated by all program faculty. Such projects carry credit under Ger 3591 — Independent Study (1-4). The honor is noted on the transcript.

Degree Requirements

Requirements for the B.A. in German Studies (120 cr) include:

- Liberal education requirements (35 cr)
- Students are encouraged to take Ling 1811 — Introduction to Language (Category 2), English 1907 — Introduction to Literature (Category 9). German majors and minors are exempt from the international perspectives requirement.
- Advanced writing requirement: Comp 3100 — Advanced Writing: Language and Literature (3 cr); a different advanced composition course may be substituted with the approval of the student’s adviser.
- Major requirements (24-44 cr)
- A minor or a second major from another area of study
- Oral proficiency exam
- Elective credits to total 120 credits

Note: Students pursuing both the B.A. and the B.A.A. degrees in German will need to satisfactorily complete 12 non-overlapping upper division credits of German electives over and above the requirements for both degrees.

The core program in language skills (listening, speaking, reading, and writing) is common to all German majors and minors, including the German Studies major. Students may be exempted from part of the core requirement if they have previously completed studies in German. Exemption is negotiated with the department and is based on acceptance of transfer credits and work done in secondary school. As a rule, for example, students with three years of high school German would enter the sequence at the Intermediate German level and thus be exempted from German 1101-1102.

Study abroad is encouraged for all students and the department makes every effort to facilitate such experiences in cooperation with the Office of International Education and through its own program, when feasible.

- Hist 3243—Europe in Crisis in the 20th Century (3)

B.A.
The study of history is vital to a liberal arts education because it provides a holistic approach to knowledge; it broadens students’ understanding of commonality and diversity, the development of cultures, and the drama of the human experience.

History touches on the whole range of the human heritage. While focusing on the past, it also helps students understand the present and provides a strong foundation for the future. It prepares students for careers that demand analytical and communication skills, critical thinking, and cultural breadth. These careers include law, business, journalism, teaching, government, and the ministry.

This program introduces students to major world cultures and provides experience in the critical use of historical literature and other source materials. It offers concentrations in ancient and medieval, Africa/Middle East/East Asia, the Western heritage, the United States, and the modern world.

Honors Requirements
Candidates must have a 3.00 overall GPA and a 3.30 in the major. An honors paper or project must be completed in a 5xxx course. Students who wish to have such work considered for honors must complete a departmental form the first semester of their senior year. Completed projects and papers must be approved by the sponsoring faculty member and one other member of the faculty.

Degree Requirements
Requirements for the B.A. in history (120 cr) include:
- Liberal education requirements
- Advanced writing requirement: Comp 3100 or 3110 or 3160
- Major requirements (38-40 cr)
- A minor or second major from another area of study

Interdisciplinary Studies

College of Liberal Arts

Director: CLA Associate Dean

B.A.

This program is for students whose educational objectives can best be met by integrating courses from three or more departments. The program provides the framework for study in selected interdisciplinary areas.

Admission Requirements

This major is unique because it is individually designed; students work with faculty advisers to create a field of study involving courses from several departments. It may encompass the natural sciences, social sciences, cultural studies, fine arts, technical and professional fields, or a combination of these.

The program admission application should be thought through carefully (contact the program director for referral to specific faculty who can consult on students’ proposed programs). Students who select this major must submit a statement of their educational objectives and a list of proposed courses to the committee for approval before they complete 70 credits with a cumulative GPA of 2.50. The list of courses for the major and a statement of purpose explains the student’s rationale for the proposed program.

Upon approval by the Interdisciplinary Studies Committee, it becomes an individualized program. A current transcript must be submitted with the application. Applications are available through the CLA dean’s office.

Students who wish to declare the French studies concentration must have a cumulative GPA of at least 2.50 and have completed fewer than 70 credits. The application and statement of purpose is not required. Students must formally declare to the CLA SAAC the interdisciplinary studies major with the French studies concentration. Students are encouraged to make an appointment with the director to discuss the program.

Note: Unlike many UMD majors, interdisciplinary studies is available only by formal application and committee approval. Students should not apply for a change of major until their program has been approved.
Degree Requirements

Requirements for the B.A. in interdisciplinary studies (120 credits) include:

• Advanced writing requirement: The appropriate Comp 31xx advanced writing course selected by the Interdisciplinary Studies Committee (3 cr)

B.A.
This program familiarizes students with the broad range of foundational theories that have arisen in the history of philosophy and helps students develop problem-solving skills using critical thinking. Beginning courses provide a comprehensive introduction to the methods and procedures of analytical reasoning by examining issues concerning logic, the nature of knowledge and reality, the existence of freedom, and the character of right and wrong. Political Science—Public Policy Concentration

B.A.

The public policy concentration offers political science majors the option of focusing on the study and analysis of policy decisions as applied to a wide variety of issues confronting our society. Students examine the values, institutions and processes involved in policy making, together with the conceptual tools and models used for analyzing policy outcomes. Students then design their own elective track around a core course on a key policy area.

The concentration introduces students to the contexts of policy making in the United States and abroad and the ways in which policy may be studied, before students specialize in a particular area of policy. It provides the practical skills required to play a role in policy making and helps develop the habits of thought and civic values essential to effective democratic citizenship.

Pre-Law
Because entrance requirements differ among law schools, prospective law students should obtain information from the law schools they expect to apply to as early as possible. Students should be aware that successful completion of the Law School Admission Test (LSAT) is required for admission to most law schools. The Department of Political Science and the Career Services office maintain files on law schools and provide LSAT materials to students. They also hold informational meetings during the year with representatives of law schools.

Admission to law school requires a bachelor of arts (B.A.) degree or its equivalent. Well-balanced bachelor of science and bachelor of business administration programs are accepted as the equivalent of the B.A. degree by most law schools.

Because law schools do not recommend any particular major, pre-law students may find a variety of majors useful, including economics, history, political science, philosophy, cultural studies, English, sociology, psychology, mathematics, physical sciences, anthropology, geography, journalism, communication, modern languages, international studies, and women’s studies.

Each student’s education should be as broad as possible. Electives should be chosen in areas outside the major field to develop and demonstrate multiple competencies in varying subject areas and methods.

Law schools attach special importance to training that helps students express themselves in the English language forcefully, effectively, and accurately. Whatever the specialty, a professional career in law requires the communication of ideas and information through words. Success in law school, as well as in subsequent professional practice, depends to a great extent on the capacity for effective writing and speaking. Therefore, students are encouraged to take courses that require considerable reading, writing, and analytical thinking, and they should develop through coursework or activities their capacity for expressing themselves orally. Knowledge of the principles of accounting is also helpful.

**Sociology**

**Department of Sociology and Anthropology**

228 Cina Hall, 218-726-7551
Executive Administrative Specialist: Judy Salyards

**B.A.**

Sociology focuses on the relationships between social structure and the dynamics of establishing, maintaining, and changing patterns of human social behavior. The program is built around a theoretical-methodological core with courses integrated to develop students' conceptual and research competence. These courses focus on social psychology, social organization, social change, and criminology. The major provides a background for careers in human services and business and preparation for related graduate and professional school study.

**Honors Requirements**

The department honors program recognizes majors who demonstrate outstanding academic performance, provides special educational opportunities for such students, and encourages the development of specialty areas within the major. Honors students participate in independent research, working closely with a faculty member. Qualified majors apply to the honors program before the end of the sixth week of the first semester of their senior year. See department or department Web site for further information.

B.A.
In this program, students gain a better understanding of varied cultures and their cultural manifestations and a broader world perspective; studying Spanish is also important as it becomes the second language of the United States. This major emphasizes communication skills, language proficiency, and the study of language, literature, and culture as they pertain to Spain, Spanish America, and the U.S. Latino population. It prepares students for graduate or professional school programs such as law, or for work in government or with agencies and businesses having international ties. It provides students with a traditional liberal education.
Honors Requirements
Students who complete an honors project during their senior year and earn a 3.30 GPA in the major receive department honors and receive a degree with distinction. This honor is noted on the transcript.

Degree Requirements
Requirements for the B.A. in Spanish (120 cr) include:

• Liberal education requirements
• Students are encouraged to take Engl 1907*—Introduction to Literature for liberal education credit (Category 9) and Ling 1811*—Introduction to Language (Category 2). Spanish majors and minors are exempt from the international perspectives requirement.

• Elective credits to total 120 credits

Women’s Studies
475 Humanities, 218-726-7953
Executive Administrative Specialist: Geraldine S. Hughes
Professor: Elizabeth A. Bartlett; Associate Professors: Margaret Njoki Kamau, Tineke Ritmeester

B.A.
Women’s studies is an interdisciplinary major focusing on three areas of knowledge:
• the study of women’s lives, experiences, achievements, and expression
• feminist analysis and transformation of knowledge and society
• the construction and intersection of gender, race, and class

The major emphasizes the diversity of women’s lives and provides a historical and contemporary examination of women of different races, ethnicities, nationalities, religions, classes, and sexual orientations. With liberation, justice, and equity issues as central concerns, women’s studies provides feminist analyses of the knowledge generated by other academic disciplines and of societal institutions and processes, and it explores the possibilities of feminist transformation of these. Women’s studies also examines the construction of gender, its intersections with race and class, and its implications for society. Finally, women’s studies actively engages students in the generation of new knowledge and areas of inquiry.

The mission of the Department of Women’s Studies is to provide a nurturing environment for the whole person—to help each student find her or his own strengths, gifts, and path, as well as to raise awareness about the way that path concerns and connects with others.
