University Policies

The University of Minnesota

The University of Minnesota, Morris (UMM) is one of the five campuses that make up the University of Minnesota. The other four campus locations are Crookston, Duluth, Rochester, and the Twin Cities. With more than 68,000 students enrolled across all five campuses, the University of Minnesota is one of the largest public universities in the United States. Founded in 1851 as a land grant institution, the University serves Minnesota’s families and businesses, while contributing knowledge and innovations to help build a healthier, sustainable world.

University Mission Statement

The University of Minnesota, founded in the belief that all people are enriched by understanding, is dedicated to the advancement of learning and the search for truth; to the sharing of this knowledge through education for a diverse community; and to the application of this knowledge to benefit the people of the state, the nation, and the world. The University’s mission, carried out on multiple campuses and throughout the state, is threefold:

- **Research and Discovery**—Generate and preserve knowledge, understanding, and creativity by conducting high-quality research, scholarship, and artistic activity that benefit students, scholars, and communities across the state, the nation, and the world.

- **Teaching and Learning**—Share that knowledge, understanding, and creativity by providing a broad range of educational programs in a strong and diverse community of learners and teachers, and prepare graduate, professional, and undergraduate students, as well as non-degree-seeking students interested in continuing education and lifelong learning, for active roles in a multicultural and global society.

- **Outreach and Public Service**—Extend, apply, and exchange knowledge between the University and society by applying scholarly expertise to community problems, by helping organizations and individuals respond to their changing environments, and by making the knowledge and resources created and preserved at the University accessible to the citizens of the state, the nation, and the world.

In all of its activities, the University strives to sustain an open exchange of ideas in an environment that embodies the values of academic freedom, responsibility, integrity, and cooperation; that provides an atmosphere of mutual respect, free from racism, sexism, and other forms of prejudice and intolerance; that assists individuals, institutions, and communities in responding to a continuously changing world; that is conscious of and responsive to the needs of the many communities it is committed to serving; that creates and supports partnerships within the University, with other educational systems and institutions, and with communities to achieve common goals; and that inspires, sets high expectations for, and empowers the individuals within its community.

Catalog Use

This catalog covers academic years 2013–14 and 2014–15. The Morris Catalog is in effect from fall 2013 through the end of summer session 2022. Students returning to Morris after an absence should contact the Office of the Registrar to determine which catalog will best fit their graduation plans.

This publication is available in alternative formats upon request. Please contact Disability Services, University of Minnesota, Morris, 362 Briggs Library, 600 East 4th Street, Morris, MN 56267-2132; 320-589-6178.

This catalog, produced by the Office of the Vice Chancellor for Academic Affairs and Dean, is also available in electronic format on the Internet and may be accessed at www.catalogs.umn.edu/morris.

Information about Morris’s summer term can be found at www.morris.umn.edu/academics/summerterm/. Summer course listings are featured at netfiles.umn.edu/umm/www/academics/summerterm/courses.pdf.

Information about Morris Online Learning can be found at onlinelearning.morris.umn.edu/. Online learning courses are featured at onlinelearning.morris.umn.edu/courses/.

Class Schedule—The Class Schedule lists course offerings with class times, rooms, instructors, credits, general education designators, and prerequisites. The Class Schedule is available as a PDF document and online at www.morris.umn.edu/registrar/.

Equal Opportunity

The University of Minnesota shall provide equal access to and opportunity in its programs, facilities, and employment without regard to race, color, creed, religion, national origin, gender, age, marital status, disability, public assistance status, veteran status, sexual orientation, gender identity, or gender expression.

Inquiries regarding compliance may be directed to the Director, Office of Equal Opportunity and Affirmative Action, University of Minnesota, 274 McNamara Alumni Center, 200 Oak Street S.E., Minneapolis, MN 55455; phone: 612-624-9547; email: eoaa@umn.edu or to the Director, Human Resources, University of Minnesota, Morris, 309 Behmler Hall, 600 East 4th Street, Morris, MN 56267; phone: 320-589-6024, email: mattsosj@morris.umn.edu.

This publication/material is available in alternative formats upon request. Please contact Disability Services, University
Immunization
All students born after 1956 who take more than one University class are required under Minnesota law to document their immunization history by submitting a Health History form provided in the New Student Guide at www.morris.umn.edu/services/hlth_serv/immunization.html. This form must be filled out and returned to the Health Service within 45 days after the beginning of the first term of enrollment in order for students to continue registering for classes at the University. Complete instructions accompany the form.

Extracurricular Events During the Study Day/Finals Week Period
It is University policy to prohibit classes, University-sponsored trips, or extracurricular events on study day and during the final examination period. Under certain rare circumstances, exceptions to the prohibition on trips or events are possible. Students who are unable to complete course requirements during final examination period as a result of the exemption shall be provided an alternative and timely means to do so. For more information, refer to the policy link at www.policy.umn.edu/Policies/Education/EXAM.html.

Smoke-Free Campus Policy
Smoking is prohibited in all buildings of the University of Minnesota, Morris campus.

Email
The University of Minnesota provides new students with a free email account. This account is available as long as the student remains active. University-assigned student email accounts are the official means of communication with all students. Students are responsible for all information sent to them via the University assigned email account. Students who choose to forward the University email account are still responsible for the information (including attachments) that is sent to any other email account.

The contact person on the Morris campus is the registrar. For current policy information see www.policy.umn.edu/Policies/Education/Student/EMAIL.html.

University of Minnesota Policy Library
Official administrative policies and procedures are retained and maintained in the University’s online policy library to guide and direct the University community (faculty, staff and students). For more information, visit the Uwide Policy Library at policy.umn.edu.
Morris Campus

Located on 160 acres in west central Minnesota, the University of Minnesota, Morris is the third educational institution on a campus that began in 1887. The campus was originally an American Indian boarding school, operated for 22 years, first by the Sisters of Mercy and then by the federal government. In 1909, as the federal government reduced the number of nonreservation boarding schools, the campus and facilities were deeded by Congress to the State of Minnesota on the condition “that Indian pupils shall at all times be admitted to such school free of charge for tuition and on terms of equality with white pupils.” Beginning in 1910 and for the next 53 years, the West Central School of Agriculture offered a boarding high school experience for rural young people under the auspices of the University of Minnesota’s Institute of Agriculture. To meet changing educational needs, as the School of Agriculture was being phased out, the Board of Regents in 1959 established the University of Minnesota, Morris (UMM).

Conceived at the outset as a four-year liberal arts college, Morris was to provide an educational opportunity for students throughout the state and region who sought a rigorous and focused undergraduate liberal education in a small public college setting. The guiding principles of selective admission, controlled growth, and academic excellence in a residential campus atmosphere have not changed for more than five decades.

With approximately 1,900 students and 125 teaching faculty, Morris combines the residential environment of the small liberal arts college with the advantages of being a campus of the University of Minnesota. The members of the faculty, representing more than 25 academic fields, are organized into four divisions: Education, Humanities, Science and Mathematics, and Social Sciences. A 15 to 1 student-faculty ratio and a strong institutional commitment to individual attention bring Morris students into frequent contact with faculty; undergraduates often collaborate with faculty in research activities and artistic performances.

The Morris student body is diverse and talented. The campus currently is the collegiate home for students from throughout Minnesota, approximately 30 other states, and 15 foreign countries. In 2012, 22 percent were students of color and 10 percent were international students. American Indian students comprise 15 percent of the student body, making Morris the only baccalaureate college in the Upper Midwest eligible for U.S. Department of Education designation as a Native American Serving Non-tribal Institution. Also, in 2012, 17 percent of entering freshmen ranked in the top 5 percent of their high school class; 32 percent were in the top 10 percent; and 60 percent were in the top 25 percent.

There are more than 90 student organizations, clubs, committees, and special interest groups at Morris. Throughout the year, the campus community and residents of the region enjoy a variety of cultural and co-curricular activities—theatre productions, concerts, recitals, music festivals, lectures, and athletic events.

Morris helped found the Council of Public Liberal Arts Colleges (COPLAC) in 1992. This national organization has 27 member colleges that share a common commitment to academic excellence and concern for undergraduate student development. The council sponsors professional development conferences for faculty in various disciplines and helps tell the public liberal arts story. The COPLAC website can be viewed at www.coplac.org.

University of Minnesota, Morris Mission

The University of Minnesota, Morris provides a rigorous undergraduate liberal arts education, preparing its students to be global citizens who value and pursue intellectual growth, civic engagement, intercultural competence, and environmental stewardship.

As a public land-grant institution, Morris is a center for education, culture, and research for the region, nation, and world. Morris is committed to outstanding teaching, dynamic learning, innovative faculty and student scholarship and creative activity, and public outreach. Our residential academic setting fosters collaboration, diversity, and a deep sense of community.

Accreditation

The University of Minnesota, Morris is accredited by the Higher Learning Commission of the North Central Association of Colleges and Schools. Professional accreditation for elementary and secondary teacher preparation has been granted by the National Council for Accreditation of Teacher Education and the Minnesota Board of Teaching.

Academic Programs

Morris’s academic programs offer preparation for most of the professions and several specialized occupational areas. Each student program includes studies in three broad areas of knowledge—the humanities, the natural sciences, and the social sciences.

Majors

Morris students may choose a four-year curriculum leading to the bachelor of arts degree with a major in any of the following fields:

- American Indian Studies
- Anthropology
- Art History
Individualized Majors
(“Areas of Concentration”)
Morris students may also work closely with faculty to design their own individualized program or “area of concentration.” Examples of previously approved areas of concentration include: actuarial science, American studies, animal behavior, art therapy, biostatistics, digital media studies, forensic science-biochemistry emphasis, forensic science-biology emphasis, forensic science-chemistry emphasis, international studies, and peace studies. To declare an individualized major, students must consult with a faculty adviser and develop their area of concentration. Students must complete the Area of Concentration Approval Form and request approval by a faculty adviser and the dean. Area of Concentration Forms are available online at www.morris.umn.edu/services/acad_affairs/aavarious.html. Changes to an approved area of concentration must go through the original approval process.

Preparation for Professional Degrees
Morris also offers students the opportunity to pursue coursework that prepares them for admission to a variety of professional schools offered at universities across the country. (See Preparation for Professional Degrees in Other Colleges on page 55.) This coursework is determined in consultation with faculty advisers and is intended to complement the general education and major requirements needed for the degree at Morris.

Honors Program
The Morris Honors Program offers a distinct, academically challenging, intellectual experience for motivated and high-achieving students. The Honors Program amplifies and complements the liberal arts mission of Morris by means of an interdisciplinary curriculum. Successful completion of the Honors Program provides students a Morris degree “with honors” as a recognition of their achievements and willingness to explore ideas beyond disciplinary boundaries. Graduation “with honors” is noted both on the transcript and on the diploma.

All honors students must enroll in IS 2001H—Traditions in Human Thought, a course that explores significant works from history, literature, philosophy, and science from an interdisciplinary perspective. Students may then choose from several elective offerings each semester that examine a particular topic from an interdisciplinary perspective. The courses are often team-taught by faculty from different Morris academic divisions. Students can also opt to pursue an Honors Co-curricular Independent Study (IS 3991H), an interdisciplinary project related to a co-curricular opportunity such as an internship, study abroad, etc. In addition, honors students must complete an honors capstone project: a substantial scholarly or creative interdisciplinary work designed by each student working cooperatively with a project adviser. Upon completion, the project is defended before a panel of faculty from different disciplines. In addition to these requirements, students in the Honors Program often volunteer for service-learning initiatives; attend public presentations, music, and theatrical performances; enjoy occasional field trips and outings; and mentor other students in the program.

All Morris students are eligible to participate in the Honors Program. Students normally apply to the program in the spring semester of their freshman year and begin coursework in their sophomore year. While everyone may apply, academic success in the fall semester, faculty recommendations, and a short essay may be used to limit the number to students with the proven motivation and likely ability to succeed in the program. A more detailed description of the Honors Program courses and requirements appears in the Programs and Course Descriptions section of this catalog.
Facilities

The Morris campus is situated on rolling prairie along the Pomme de Terre River in the rural community of Morris. The attractive, tree-shaded campus, with its 33 buildings, is located around a pedestrian mall. The campus recently completed a state-of-the-art Welcome Center and contemporary residence hall—the Green Prairie Community. The major buildings, including the Science and Math Complex, the Rodney A. Briggs Library, the Humanities Fine Arts Center, the Physical Education Center, the Student Center, the Dining Hall, and three of the residence halls, are modern in design and of relatively recent origin. They are blended with several older buildings of a gracious early 20th-century style, which recalls the campus’s early history, first as an American Indian boarding school, then as the University’s West Central School of Agriculture. All major instructional areas as well as most administrative space are accessible to persons with mobility limitations.

The Humanities Fine Arts Center received the prestigious First Design Award from Progressive Architecture magazine. It houses two theatres, a recital hall, a gallery, art studios, music rehearsal rooms, two television studios, and a variety of special purpose classrooms.

The Rodney A. Briggs Library provides resources 24/7 through the library’s website and online collections. The library is open 99 hours a week allowing students to access its print and media collections, research assistance, interlibrary loan service, and offering individual and group study space. The UMM Archives and the West Central Minnesota Historical Research Center are among the special collections available in the library. The library also houses the Office of Academic Success and Writing Room.

Morris has laboratory facilities for psychology and a simulation laboratory for political science students, as well as many laboratories for the natural sciences. Students also have access to several campus computer labs which provide services for instruction and research.

The Student Center opened in 1992. Intended as the community center for students, faculty, staff, alumni, and guests, the center contains meeting rooms, a café, a major auditorium, lounges, recreation rooms, study space, a banquet and ballroom, student activities and student organization offices, and the campus radio station.

In 2000, a new science building and renovated existing science facilities gave the campus a state-of-the-art science complex. The 60,000-square-foot science building houses laboratories and computer classrooms to support the science and mathematics curriculum.

The 40,000-square-foot Regional Fitness Center, a campus/community partnership, houses a walking/jogging track, low impact cardiovascular area, warm water pool and water slide, and multipurpose court areas. The nearby Physical Education Center houses three basketball courts in its main gymnium. Seating capacity for games is 4,000. It also features a large multipurpose gymnasium, an exercise therapy and weight room, handball courts, and classrooms. It has a spacious natatorium consisting of an official Olympic-size, eight-lane swimming pool, and a separate diving tank.

Morris has been in the forefront in adopting renewable energy technologies and achieving energy efficiency. The campus recently commissioned a new biomass heating and cooling plant which used over 800 tons of corn cobs in a recent year to heat and cool the campus.

Two wind turbines provide 60% of the campus annual electrical load and at times can produce more power than the campus needs.

Renovation of the Community Services building was completed in 2010. This project achieved LEED (Leadership in Energy Efficient Design) certification. The building was renamed “Welcome Center” and houses Admissions, External Relations, and the Center for Small Towns.

In December 2012, the campus started construction of the Green Prairie Living and Learning Community. This state-of-the-art residential facility will further enhance the campus’s energy and sustainability initiatives with both first-class residential space and a high quality learning environment suitable for student research and demonstration programs.
Admissions

Admission Requirements ................................................................. 12
Freshman Admission ...................................................................... 12
International Students ................................................................. 13
Transfer Student Admission ......................................................... 13
Deferred Admission ..................................................................... 15
Nonresidents and Reciprocity ....................................................... 15
Multi-Institutional Student ............................................................ 15
Special Admissions Status ............................................................. 15
Admissions

The Office of Admissions is the primary source of information about the University for prospective students. It provides college catalogs, brochures, and other printed materials regarding all phases of the institution and its policies and programs. In addition, the office arranges personal visits with admissions counselors or with University faculty to discuss programs in which a student is interested. For more information about admissions or to arrange a campus visit, call 1-888-866-3382. Persons with disabilities seeking accommodation during the admissions process may contact the disability services coordinator in Room 362, Rodney A. Briggs Library, 320-589-6178.

Admission Requirements

Persons seeking admission to the University of Minnesota, Morris on the basis of a high school diploma or through transfer from another college should check the admission requirements detailed on the following pages.

Applicants may obtain an application form from their high school principal or counselor, or may submit an application online at admissions.morris.umn.edu with a $25 nonrefundable fee. Each application submitted in hard copy must be accompanied by a nonrefundable fee of $35, payable by check or money order to the University of Minnesota, Morris. (Please do not send cash through the mail.)

Freshman Admission

Because of the nature of the curriculum, the standards of academic performance required, and the need to maintain the small size of the college, a selective admission policy is necessary. Morris currently enrolls approximately 400 first-year students in its fall semester class, most of whom graduate in the top 25 percent of their high school class. The current student body represents 27 states and 15 foreign countries; large and small, public and private high schools; and a variety of social, economic, and cultural backgrounds. Success with high school preparatory courses, class rank, ACT or SAT test scores, educational objectives, extracurricular activities, and other relevant information are all taken into consideration in the admission decision. If a student did not complete high school, a GED (General Equivalency Diploma) may be accepted in lieu of high school transcripts.

Applications for first-year applicants are reviewed on a rolling basis beginning September 15. Priority deadline for admission and competitive scholarships is December 15. Complete applications, including the Supplement for Competitive Scholarships, must be postmarked by December 15. Applications submitted by the priority deadline will be considered for admission, Morris Competitive Academic Scholarships, and Achievement Scholarship packages. The final deadline to apply is March 15. Applications received after December 15 will be automatically considered for admission and Achievement Scholarship packages.

All admitted applicants are required to confirm their acceptance with a $150 nonrefundable confirmation fee due on or before the national candidate’s reply date of May 1. The confirmation fee reserves space in the class, and the date of receipt of the student’s confirmation fee gives priority consideration for housing assignments and course registration. Students are encouraged to send their confirmation fees as soon as possible.

High School Preparation

Successful applicants to Morris must complete the following courses in high school:

1. **Four years of English**, with emphasis on writing, including instruction in reading and speaking skills, and literary understanding and appreciation.

2. For students seeking admission before fall 2015: **Three years of mathematics required**, consisting of two years of algebra, one of which must be intermediate or advanced algebra, and one year of geometry. For students seeking admission fall 2015 and thereafter: **Four years of mathematics required**, including two years of algebra, one of which must be intermediate or advanced algebra, and one year of geometry. Students who plan to enter the natural sciences, health sciences, or quantitative social sciences should have additional preparation beyond intermediate algebra. See the policy link for current information, policy.umn.edu/Policies/Education/Education/HIGHSCHOOLPREP.html.

3. **Three years of science**, including one year each of biological and physical science.

4. **Three years of social studies**, including U.S. history.

5. **Two years of a single foreign language**. American Indian languages and American Sign Language may be used to fulfill this requirement.

Applicants who are missing a specific requirement may not necessarily be denied admission if they are otherwise admissible.

Students are strongly urged to include visual arts, performing arts, and computer skills courses in their college preparation program.

Standardized Test Scores

Freshmen must submit scores from the American College Testing (ACT) Assessment Program or the College Board’s SAT Reasoning Test. As a basis for admission, applicants’ ACT/SAT scores should clearly indicate strength in their aptitude and preparation. Applicants should complete the ACT/SAT assessment during one of the national testing periods (preferably spring or summer of the applicant’s junior year of high school or fall of their senior year of high school) and have their assessment report sent to Morris.
Preparing for Transfer to Morris
Students currently enrolled in another college or university should discuss transfer plans with a Morris admissions counselor, at 320-589-6035 or 1-888-866-3382 and visit the Office of Admissions transfer website at admissions.morris.umn.edu/transfer/; • call or visit Morris. Students should request the following materials:
  — information on financial aid (how to apply and by what date);
  — information on Morris admission criteria and materials required for admission (e.g., transcripts, test scores).
Note that elementary education and secondary education programs require special admission in addition to general Morris admission. In these instances, admission to Morris does not guarantee admission to the program. These special admission requirements are listed under the respective majors in the Academic Division Structure and Program and Course Descriptions sections in this catalog;
  • make an appointment—after reviewing the above materials—to talk with the Office of Admissions transfer coordinator. Be sure to ask about course transfer and degree requirements.
For more information, visit the Office of the Registrar transfer website at www.morris.umn.edu/registrar/transfer/.

Applying for Transfer Admission to Morris
Applications submitted to Morris are reviewed on a rolling basis beginning September 1. The deadline for spring admission is November 1; the deadline for fall admission is May 1. Applicants may obtain a paper application from Morris or may apply online at admissions.morris.umn.edu. Each hard copy application submitted must be accompanied by a nonrefundable fee of $35 payable by check or money order to the University of Minnesota, Morris (please do not send cash through the mail). Online applicants must submit a nonrefundable fee of $25. A $150 confirmation fee is due by December 1st for spring enrollment, May 1st for fall enrollment, or within 30 days after notification of admission, whichever is later.
Applicants must submit the following:
  • a completed application for admission;
  • official transcripts from every previous institution attended, whether courses were completed satisfactorily or not.
Students with less than one year of college must include high school transcripts and ACT/SAT scores. In general, transfer students with credits from an accredited college or university who have maintained at least a 2.50 cumulative GPA in all credits attempted are considered for admission. After a student has applied for admission, her or his transcript is evaluated. An Academic Progress Audit System (APAS) report showing how the courses meet specific degree requirements will be made available to the student. If the student has questions about the evaluation, the student may contact the transfer evaluation coordinator in the Office of the Registrar.
Understanding How Transfer of Credit Works

• Credits and grades are assigned by the previous (source) college. Morris, as the target college, decides which credits meet Morris degree requirements and transfer.

• Morris accepts transfer coursework:
  — from institutions that are regionally accredited;
  — from institutions that provide courses that are intended for transfer to baccalaureate programs;
  — that is comparable in nature, content, and level to courses offered by Morris;
  — that is applicable to the bachelor of arts degree: “like” transfers to “like”;
  — with the grade of D or above, subject to the restrictions of Morris’s degree requirements.

• In addition to coursework from the traditional liberal arts disciplines, Morris may accept courses in teaching licensure that compare to Morris education courses.

• Morris does not accept transfer coursework from proprietary technical colleges, business colleges, and similar postsecondary schools that are not regionally accredited. However, credit for knowledge acquired in liberal arts coursework from these programs may be obtained by special examination.

• Courses that are technical or applied do not transfer to Morris.

• The University of Minnesota transcript lists the name of each source college with the number of credits accepted from each. Grades earned in transfer courses do not count toward the GPA on the University of Minnesota transcript or toward GPA-based degree honors.

• Transfer course titles appear on Academic Progress Audit System (APAS) reports. Transfer courses may qualify to fulfill general education requirements, major/minor requirements, and teaching licensure requirements.

• In lieu of regional accreditation, evidence must be provided that instruction is collegiate level and appropriate for Morris’s liberal arts mission before credit is awarded.

• Religious studies from regionally accredited colleges go through the normal transfer review. Religious studies from colleges that do not have regional accreditation go through a special review committee.

Rights as a Transfer Student

A transfer student is entitled to:

• a fair credit review and an explanation of why credits were or were not accepted; and

• a formal appeals process. Appeals steps are listed below.
  1. The transfer student provides supplemental information to the Office of the Registrar—a syllabus, course description, or reading list;
  2. The Office of the Registrar may ask the destination department(s) to review supplemental materials;
  3. The student receives an updated APAS showing the outcome of the appeal; and
  4. The student, if dissatisfied with the outcome, can make a further appeal to the Scholastic Committee.

Understanding Degree Requirements for Transfer Students

• Not everything that transfers will help the student graduate. Morris’s bachelor of arts degree requires coursework in several categories: general education, major/minor courses with their prerequisites, and electives. The key question in determining whether transfer courses will fulfill Morris requirements is, “Will the student’s credits fulfill requirements of the degree or program chosen?”

• The Minnesota Transfer Curriculum (MNTC) is an agreement for transferring general education requirements as a package from colleges within Minnesota State Colleges and Universities (MNSCU). MNTC will be honored for students who have fully completed that curriculum before transfer to Morris. The remaining Morris degree requirements are:
  — foreign language study, one year at the college level;
  — a total of 60 general education credits outside the discipline of the major;
  — a major or area of concentration;
  — 30 credits in residence; 15 of the last 30 credits must be from Morris;
  — 2.00 cumulative University of Minnesota GPA;
  — 120 credits (minimum) for the degree.

• Application of courses to Morris general education requirements for students who are transferring to Morris from within MNSCU but who have not completed the MNTC will be done on a course-by-course basis. Designation of courses from the source college’s version of the MNTC can be used as a general guide.

• If the student changes the career goal or major, it might not be possible to complete all degree requirements within the 120 minimum total credits required for graduation.

Adding Programs After Earning a Degree from Another Institution

Students transferring to Morris after earning a degree from another college should note the following information.

Teaching licensure

• Students must be admitted to both Morris and the education program.

• Students may earn a bachelor of arts degree that would be recorded on the University of Minnesota official academic transcript.

• Students may elect a “teaching licensure only” option without a degree notation on the official transcript.
Completing or adding a major

- Students must meet all bachelor of arts degree requirements at Morris; a major is one component of the degree.
- Catalogs are in effect at Morris for nine years from the first semester covered by the catalog.
- Students may use catalog requirements in effect at the time they enter Morris and later, but not catalogs in effect before their entrance date.
- The major, one of the components of the degree, is recorded with the Morris degree information on the official transcript.

Completing or adding a minor

- Students meet all bachelor of arts degree requirements at Morris; a minor is an optional component of the degree.
- All of the items listed under Adding a Major at Morris (see the previous section) also apply to adding a Morris minor to a degree earned at another college or university.

Transfer Within the University of Minnesota

A student who wishes to change from one college, school, or campus of the University of Minnesota to Morris must meet the Morris requirements for admission.

- Transfer applicants from other colleges within the University to Morris who have maintained at least a 2.50 GPA are considered for admission.
- Students with less than a year of college must submit a final high school transcript, meet the admission requirements for freshmen, and have at least a 2.50 GPA in their college coursework.
- Application for transfer within the University of Minnesota should be made at the Office of the Registrar on the campus where the student is currently enrolled or was last registered. The Application for Undergraduate Change of College, available at admissions.morris.umn.edu/transfer, serves as the application for admission.
- Students should apply as early as possible before their expected date of transfer.
- To receive a bachelor of arts degree, transfer students must also meet all Morris degree requirements.

Deferred Admission

Students choosing to delay their matriculation into Morris after being admitted may defer their admission. To seek deferred admission, students first complete all admissions procedures. Once admitted, they request deferred status; after deferment has been granted, the $150 nonrefundable confirmation fee will reserve space for up to one year.

Nonresidents and Reciprocity

Under reciprocity agreements, residents of North Dakota, South Dakota, Wisconsin, and Manitoba who attend Morris may pay a specially designated tuition rate. To obtain current figures and necessary forms, contact the student’s home state higher education services office, the Morris Office of Admissions, or the appropriate office listed below:

- **North Dakota residents**—Reciprocity Program, North Dakota Board of Higher Education, 10th Floor, State Capitol Building, Bismarck, ND 58501
- **South Dakota residents**—Reciprocity Program, South Dakota Board of Regents, Box 41, Brookings, SD 57007
- **Wisconsin residents**—Reciprocity Program, Wisconsin Higher Educational Aids Board, 137 East Wilson Street, Madison, WI 53707
- **Manitoba residents**—Office of Admissions, University of Minnesota, Morris, 600 East 4th Street, Morris, MN 56267

As part of its efforts to make a high quality Morris education available to students from across the country, the University of Minnesota, Morris does not charge nonresident tuition.

Multi-Institutional Student

A consortium agreement among the University of Minnesota campuses allows students planning to earn their degree at their home campus to enroll in courses offered by another University of Minnesota campus. This arrangement is available for only one term per academic year. Application forms and critical information about attending another campus are available in the Office of the Registrar and on its website, www.morris.umn.edu/registrar/multi/. Applications for financial aid and enrollment are processed through the Morris or home campus. Students are charged separate tuition rates and fees for classes taken on each campus.

Special Admissions Status

Returning Morris Students

Students who will not maintain continuous registration for any reason should consult with their adviser about whether to request a leave of absence. Morris students who fail to register for two consecutive semesters (excluding summer), and who have not been granted a leave of absence or whose leave of absence has expired will be placed on “inactive” status. Former Morris students are considered for readmission on the basis of their past performance as space is available. Former Morris students who transferred to another college must submit official transcripts from each institution with their application for readmission to the Office of Admissions. Once readmitted, the Office of the Registrar provides the information needed to register for classes. Forms and procedures related to this policy can be found at www.policy.umn.edu/Policies/Education/Education/READMISSIONLOA.html.

Non-Degree Students

Non-degree student enrollment is reserved for students, whether part- or full-time, who are not degree-seeking candidates, and who have access to courses if space is available. Non-degree student status is reserved for six
categories: 1) adults taking courses of special interest; 2) students with probationary admission status who will later become regular degree candidates; 3) Morris faculty and staff; 4) PSEO students taking courses for enrichment; 5) PSEO students carrying a part- or full-time Morris freshman course load on campus; and 6) students from other colleges or universities enrolled for a single term in the Global Student Teaching or English Language Teaching Assistant Program. PSEO high school students interested in on-campus attendance should contact the Office of Admissions directly for applications materials.

Senior Citizens

Minnesota residents age 62 years or older or at least 60 years old and receiving a railroad retirement annuity may be admitted to Morris classes at a minimal cost when space is available after tuition-paying students have been accommodated. Persons wishing to take a course without credit pay only materials or other special fees. Those seeking credit for a course pay $10 per credit as well as materials or other special fees. Further information is available from the Office of the Registrar.

Cost of Attendance, Fees, Financial Aid, and Scholarships

Cost of Attendance
The Cost of Attendance (COA) is an estimate of a student’s educational expenses at a modest but adequate standard of living for the period of enrollment and is used to award financial aid.

The COA budget components are determined by federal regulation and include tuition and fees, books, housing and meal plans, transportation, personal and miscellaneous educational expenses, and loan fees.

Information is collected from various sources and departments on an annual basis to determine the standard costs each year.

The University of Minnesota, Morris charges residents and non-residents the same tuition in an effort to make a high-quality education available to students from across the country. Morris has a 13+ credit tuition band; students taking 13+ credits are billed the 13-credit rate, students taking fewer than 13 credits per semester are billed on a per-credit basis.

Estimated Cost of Attendance

The estimated costs of attendance itemized in this section reflect those for a typical student in 2012-13. All Morris fees, deposits, and refund policies are subject to change without notice. Current information may be obtained from the Morris Business Office or online at www.morris.umn.edu/financialaid/costofattendance.

Per Year—The approximate yearly cost of attendance for a Morris student living on campus in 2012-13 is $20,874. This amount includes tuition and fees, room and board, and an estimate for textbooks and supplies. Not included are personal expenses such as clothing, travel, and recreation, which are best estimated by the individual student.

(Reciprocity tuition rates vary from state to state.)

Per Semester—A breakdown of the estimated cost of attendance per semester for a typical student in 2012-13 follows. Note: Minnesota residents and nonresidents pay the same tuition, room and board, and fees.

Tuition

Semester rates for students taking 13 or more credits:

| Resident and nonresident | $5,860 |

Per-credit-hour tuition for students taking fewer than 13 credits per semester:

| Resident and nonresident | $450.77 per credit |

The University of Minnesota, Morris is a national public liberal arts college and, in a commitment to make a high quality education available to all students, does not charge nonresident tuition.

Student Services Fees

Student Services Fees are mandatory assessments on each campus and provide non-instructional activities and services that make significant contributions to student development. For more information about Student Service Fees, visit www.morris.umn.edu/committees/AFRC/yourfees.htm#activities.

Activities Fee—A fee of $93.50 per semester is charged to all students registered for 6 or more credits. Those registered for fewer than 6 credits may elect to pay the fee to participate in the activities, events, and services it funds, which include cultural and social events sponsored by student organizations and other Morris units.

Intercollegiate Athletic Fee—A fee of $35 is charged to all students registered for 6 or more credits to support the athletic programs at Morris. This fee provides free admission for Morris students to all athletic events.

Health and Wellness Services Fee—A fee of $75 per semester is charged to all students registered for 6 or more credits. Those registered for fewer than 6 credits may elect to pay this fee in order to have access to the Health Service, which provides limited outpatient care (students must have adequate health insurance coverage to supplement this care).

RFC (Regional Fitness Center) Fee—A fee of $82 per semester is charged to all students registered for 6 or more credits for student memberships, granting access to the RFC facilities and programs.

Student Center Fee—A fee of $39 per semester is charged to all students to cover the operational, repair, and maintenance expenses for the Student Center.

Summer Activities Fee—A fee is charged to all summer students to participate in the activities, events, and services it funds, which include cultural and social events sponsored by student organizations and other Morris units.

International Student Fee—A fee of $150 per semester is charged to all international students. The fee supports international student orientation and other programs, activities, and events that support international students.

Special Course Fees (charged in addition to tuition)

Music Lesson Fee—A fee of $375 per credit is charged to students registered in Individual Performance Studies (Mus 1200 through 1223 and Mus 3200 through 3223), Class Piano (Mus 1044), Class Guitar (Mus 1045), and Functional Keyboard I-IV (Mus 1111, 1112, 2111, and 2112). Note:
Applied music instructors are not expected to make up sessions for unexcused student absences from scheduled lessons.

**Studio Art Materials Fee**—A materials fee is charged for supplies that are used by students who are registered in many of the Studio Art (ArtS) courses. The amount of the fee varies by the course being taken.

**Supplemental Fees**

**Application Fee**—A nonrefundable fee of $35 must be submitted with a paper application for admission to Morris. The online application fee is $25.

**Admissions Confirmation Fee**—A fee of $150 is necessary for admitted students to show their intent to enroll at Morris.

**Campus Fee**—A fee of $90 per semester is charged to all students registered for 6 or more credits. A fee of $45 is charged to those students with less than 6 credits and for summer term. This fee helps fund technological enhancements and infrastructure costs on campus that are of direct benefit to students and their educational programs.

**Credit by Examination Fee**—A fee of $50 per credit is charged to take special subject exams to demonstrate knowledge acquired outside specific courses offered at Morris. Special exams are given at the discretion of the discipline.

**Health Insurance Fee**—All Morris students who are registered for 6 credits or more are required to provide proof of health insurance. Students who are unable to provide such proof are required to carry insurance through a group plan provided by an outside agency contracted through the University of Minnesota at a fee of $930 per semester. Students from foreign countries are required to purchase the Morris group insurance or they may seek a waiver based on proof of equivalent coverage. For more information, call Health Services at 320-589-6070.

**Locker Fee**—A fee of $10 per year is charged for use of a locker and towel service in the Physical Education Center. Lockers also are available in the lower level of the Student Center and are accessible in two ways. Coin operated lockers are 25 cents per use and an unlimited use locker may be rented for $5 per year ($3 for the summer). These lockers are located on the west wall across from Louie’s Lower Level. Unlimited use lockers may be rented from the Information Center.

**Parking Fee**—A fee of $102 per academic year is charged for a permit to park in campus lots.

**Storage Container Fee**—A fee of $20 per academic year is charged for storing items with limited access. Contact the Office of Residential Life at 320-589-6472.

**Testing Service Fees**—Students are not assessed any testing fees for placement exams (foreign language and math) at Morris. Exams for national testing companies or agencies, i.e., for admissions, licensing, or CLEP (College Level Examination Program), are administered by the UMM Test Center and students register with and pay fees to the respective testing company. The UMM Test Center is located in the Student Counseling office, 235 Behmler Hall.

**Transcript Fees**—If a student has no financial holds on his/her record, official transcripts are issued for a fee of $12.00 each, which includes both printed and electronic documents. Transcripts are usually processed within one working day. Additional information, including how to request an official transcript, how to print an unofficial transcript, and about various service types and fees, is available at [www.morris.umn.edu/registrar/transcripts/](http://www.morris.umn.edu/registrar/transcripts/).

**U-Card Replacement Fee**—A fee of $25 is charged to replace a U-Card, the University’s identification card. This fee applies to registered Morris students who have lost or damaged their cards.

**Deposits**

**Housing**—A $50 first-time application fee and a $200 nonrefundable deposit must be paid by all newly admitted Morris students seeking on-campus housing.

**Key Return Deposit**—A $10 refundable deposit is charged for each key issued for an outside door of, or a room in, a campus building to ensure its return. A $20 refundable deposit is charged for Science Building keys.

**Payments**

Students must pay tuition, student services fees, special course fees, room and board, and other financial obligations by the due date shown on the billing statement. It is the student’s obligation to pay bills on time in order to avoid late fees.

For more information about billing and payment, visit [www.morris.umn.edu/services/business](http://www.morris.umn.edu/services/business).

**Installment Option**

Students may make installment payments for fall and spring semesters. Students may elect to pay by installments during the term by paying at least the minimum amount due listed on the bill by the due date. For students who elect to pay their bill in installments, a $35 installment/re-billing fee per semester will be added to the balance on their next bill. No application form is required to participate in the installment plan.

Non-degree students are not eligible for the installment plan.

The installment plan is not available for Summer Session.

**Late Payment Fees**

If a student pays less than the full amount by the due date, an installment/re-billing fee will be assessed on the next statement. Any time a student pays less than the minimum amount due by the due date, a $30 late payment fee, in addition to the $35 per semester installment/re-billing fee, will be assessed to the student’s account and a hold will be placed on the student’s record.
Late Registration Fees
To avoid late registration fees, students must register before the first day of the term. If a student registers during the first 10 days of the term, there will be a $50 charge for late registration ($25 for summer term and May session). After the first 10 days, students will be charged a $100 late registration fee to register ($50 for summer term and May session).

Financial Aid
The University of Minnesota, Morris financial aid staff is dedicated to providing students with the most comprehensive and simplified methods of financial aid delivery. The mission of the Financial Aid Office is to provide financial assistance to as many students as possible in an equitable and consistent manner. For more detailed information on financial aid, visit www.morris.umn.edu/financialaid.

Financial Aid Application
The Free Application for Federal Student Aid (FAFSA) is the only application needed to receive federal, state, or institutional financial aid at Morris. Students should complete the FAFSA as soon after January 1 as possible to be considered for all available funding.

Criteria for Awarding Federal, State, and Institutional Financial Aid Funds
Financial Aid is awarded based on financial need and/or the eligibility criteria of scholarship, grant, loan, and student employment programs. The Expected Family Contribution (EFC) and financial need are determined by federal methodology based on the information provided on the Free Application for Federal Student Aid (FAFSA). The EFC determines what the student/parent(s) can reasonably be expected to pay toward their educational costs. The University of Minnesota, Morris uses the EFC to determine financial need and the eligibility for financial aid based on federal, state, and institutional formulas, criteria, policy, regulations, and the availability of funds under the direction of the University of Minnesota administration.

Unusual Circumstances
Students should contact the financial aid office when/if a family’s financial situation changes after submitting the Free Application for Federal Student Aid (FAFSA), or a student/family feels that the results from the FAFSA don’t fully represent their family’s financial situation.

Death, separation, divorce, unemployment, loss of employment, military service, nursing home expenses, unusual medical care expenses, tuition costs for a dependent student’s parent attending college, tuition expenses for children attending a private elementary or high school, or loss of nontaxable income or benefits are all examples of unusual circumstances that may affect a student’s financial aid eligibility.

A financial aid administrator can help determine whether unusual circumstance adjustments should be made to the processed FAFSA by requesting the appropriate documentation.

Satisfactory Academic Progress (SAP)
Each term, the Financial Aid Office is required by federal and state regulations to determine if students receiving financial aid are making Satisfactory Academic Progress. For more information, visit www.morris.umn.edu/financialaid/academicprogress.

To maintain eligibility for federal, state, and institutional aid, students must meet University of Minnesota, Morris academic progress standards for financial aid recipients.

Scholarships and Waivers
For detailed information regarding scholarships, visit admissions.morris.umn.edu/scholarships.

Automatic Consideration
Admitted freshmen and transfer students will be automatically considered for these scholarships:

Achievement Scholarships—Based on information provided in the Application for Admission, admitted freshmen will be considered for Achievement Scholarship Packages, which range from $4,000 to $18,000 over four years ($1,000-$4,500 annually). Students will be notified of their award with their letter of acceptance.

National Merit Scholarships—Merit Scholar Finalists who choose Morris as their first-choice college will receive a full tuition scholarship, renewable for up to four years. Semi-Finalists and Commended Scholars are eligible for up to $4,000 disbursed evenly over four years, renewable for up to four years. Students must provide the Office of Admissions with documentation of their Commended or Semi-Finalist status to receive this award.

Transfer Scholarships—Students transferring to Morris from another college outside of the University of Minnesota system with 30 transferable credits earned after graduating high school and a 3.75 transfer GPA (calculated based on transferable credits) qualify for a $2,000 nonrenewable scholarship. Those with at least a 3.5 transfer GPA qualify for a $1,000 nonrenewable scholarship. These scholarships are distributed over the first year at Morris. Transfer students will receive notification of their award pending an official evaluation of their transfer credits, typically 2-3 weeks after admission.

Competitive Academic Scholarships
Additional Application/Essay Due December 15
Incoming first-year students are invited to compete for Morris’s top two scholarship packages. To be eligible, students must submit their application for admission, required materials, and the competitive scholarship essay and application by December 15. Recipients will be selected
during a competitive interview process held at Morris the first weekend in February.

**Prairie Scholars**—Prairie Scholars receive a scholarship package equivalent to full tuition, renewable for up to four years by maintaining a 2.5 GPA.

**Morris Scholars**—Morris Scholars receive a $24,000 scholarship package, disbursed evenly over four years, plus a one-time $2,500 scholarship stipend. The stipend may be used during the second, third, or fourth year at Morris to engage in an eligible scholarship experience (e.g., to study abroad, to participate in a research or artistic project, or to travel to academic conferences).

**Music Scholarship**—An additional application is due April 1.

**Clyde E. Johnson Music Scholarship**—Clyde E. Johnson Music Scholarships honor the memory of the late Clyde E. Johnson, professor emeritus of music, who served Morris from 1961 until 1999. The scholarships are awarded to talented Morris music majors to completely cover the fees for one year of weekly private, individual music lessons in the student’s major performance area (instrumental or voice).

Students who plan to enter Morris as music majors and who have demonstrated high music ability and performance should apply for this scholarship by completing the Clyde Johnson Music Scholarship Application by April 1. Awards are given based on the music faculty’s evaluation of a student’s audition, musical background, and goals.

**Other Institutional and Donor-Funded Scholarships**

**Various Requirements for Consideration**

Various other funds exist at Morris through institutional programs and the generosity of donors. These scholarships are awarded based on information provided in the Application for Admission and the Free Application for Federal Student Aid (FAFSA) and will be a part of the final scholarship package. Visit the Financial Aid Office for more information.

**Waivers**

For more information about waivers, visit www.morris.umn.edu/financialaid/scholarshipswaivers.

**American Indian Tuition Waiver**—In recognition of the Morris campus history as an Indian Boarding School in the 1800s, federal and state legislatures have mandated that American Indian students attending Morris are not required to pay tuition.

**Blind or Deaf Students Tuition Waiver/Assistance**—Minnesota resident students who are blind or deaf may be eligible for a tuition waiver or partial tuition assistance. To apply for either of these tuition assistance programs the student must complete the Tuition Waiver/Assistance for Blind or Deaf Students Application.

**Federal, State, and Institutional Programs**

**Student who have completed a Free Application for Federal Student Aid (FAFSA) and are admitted to Morris are considered for federal, state, and University funding. Awards are based on financial need (as determined by the FAFSA), any eligibility criteria specific to the programs, and availability of funds**

**Federal Programs**

**Federal Pell Grant**—The Federal Pell Grant is a federally funded grant for students who are pursuing their first undergraduate degree. The results of the Free Application for Federal Student Aid (FAFSA) will determine Federal Pell Grant eligibility. Students may receive a Pell Grant for three consecutive full-time semesters during the course of a single academic year.

**Federal Supplemental Educational Opportunity Grant (FSEOG)**—The Federal Supplemental Educational Opportunity Grant is a federally funded program for students who are pursuing their first undergraduate degree. The FSEOG amount is set by institution’s financial aid office criteria, availability of federal funds from the U.S. Department of Education and enrollment status.

**TEACH Grant Program**—The TEACH Grant is a federally funded gift program for full-time undergraduate students or students enrolled in a post-baccalaureate teacher credential program. Eligible undergraduate and post-baccalaureate students will receive up to $16,000 with this automatic $4,000 ($2,000 per enrolled semester) TEACH Grant.

**State of Minnesota Programs**

**Minnesota State Grant**—The Minnesota State Grant is a State of Minnesota funded gift program for students who are pursuing their first undergraduate degree, are Minnesota residents, and have not attended a post-secondary institution more than eight semesters at full-time status. Students may receive the Minnesota State Grant for three consecutive full-time semesters during the course of a single academic year. The award is based on availability of funds from the state of Minnesota and enrollment status.

**Minnesota Postsecondary Child Care Grant**—The Postsecondary Child Care Grant is a state of Minnesota funded gift program for students who are pursuing their first undergraduate degree, are Minnesota residents, have children 12 and under (14 and under if disabled), demonstrate financial need and have not attended a post-secondary institution more than eight semesters at full-time status. The amount of assistance will depend on the family size, annual income of the family, and the number of daycare hours necessary to cover education or work obligations.
Minnesota Public Safety Officer’s Survivor Grant—The Public Safety Officer’s Survivor Grant provides an educational benefit to dependent children under age 23 (age extended to 30 for those who served on active military duty for at least 181 consecutive days and were honorably discharged or released) and the spouses of public safety officers killed in the line of duty. Eligibility is determined by the Minnesota Department of Public Safety.

Minnesota GI Bill—The Minnesota GI Bill program was established in 2007 to provide postsecondary financial assistance to eligible Minnesota veterans who served on or after September 11, 2001. The Minnesota Office of Higher Education determines funding based on enrollment status.

Institutional Programs
University Grant—The University Grant is awarded to students who are pursuing their first undergraduate degree. The actual award amount is set by institutional financial aid office criteria, availability of funds, and the student’s enrollment status.

University of Minnesota Promise Scholarship—The University of Minnesota is committed to making a world-class education a great value for Minnesota families. The University of Minnesota Promise Scholarship (U Promise) has expanded the need-based programs to guarantee tuition aid for Minnesota resident undergraduates with a family income of up to $100,000.

Student Employment Program
There are three types of on-campus and off-campus student employment programs: Federal Work-Study (FWS), State Work-Study (SWS), and Institutional Student Employment (ISE). All student employment programs are handled in the same manner; however, eligibility requirements differ for each. Students must be enrolled in a degree-seeking program, pursuing their first undergraduate degree, and registered for a minimum of six credits per semester to maintain eligibility. Students must meet satisfactory academic progress requirements as well as financial aid eligibility guidelines for all student employment programs. For more information about student employment visit: www.morris.umn.edu/studentemployment.

Loan Programs
Student loans are sources of financial aid which must be repaid. Morris offers student loans as part of the financial aid package. Students must apply for federal aid after reviewing eligibility for grants, scholarships, and work-study. Students must complete a Free Application for Federal Student Aid (FAFSA) to be eligible for federal loans.

For more detailed information visit www.morris.umn.edu/financialaid/loans/.

Federal Loan Programs
Federal Perkins Loan—The Federal Perkins Loan is a low-interest (5 percent), need-based loan program available to students who have exceptional financial need (the lowest EFC). There is no origination fee and interest does not accrue while a student is enrolled at least half time.

Ford Federal Direct PLUS Loan—Parents of a dependent student may apply for a Ford Federal Direct Parent Loan for Undergraduate Students (PLUS) Loan, a non-need-based program that allows a parent to borrow any amount up to the cost of attendance minus other financial aid awarded.

Ford Federal Direct Subsidized Loan—The Ford Federal Direct Subsidized Loan is a need-based loan program subsidized by federal funds that allows students to borrow money interest-free while in school at least half-time.

Ford Federal Direct Unsubsidized Loan—The Ford Federal Direct Unsubsidized Loan is a non-need-based loan program. Students are charged interest on this loan, but have the option to defer paying the interest while in school at least half time.

Alternative Loan Programs
Morris recognizes that not all students and their families will be able to meet the financial burden of paying for an education, even with the assistance of traditional aid resources. Morris cannot recommend an alternative loan program since each student’s needs are unique; students should evaluate each loan program to determine the best loan for their educational plans.

American Indian Programs
For more information about American Indian programs, visit www.morris.umn.edu/financialaid/scholarshipswaivers/americanindian.

American Indian Tuition Waiver—In recognition of the Morris campus history as an Indian Boarding School in the 1800s, federal and state legislatures have mandated that American Indian students attending Morris are not required to pay tuition.

Minnesota Indian Scholarship Program (MISP)—Students who possess one-fourth or more Indian ancestry, are Minnesota residents, and have financial need should apply with the Minnesota Office of Higher Education. In order to qualify for this scholarship, students must be eligible to receive the Federal Pell or Minnesota State Grant. Recipients will receive an official notification of an award from the MISP.

Tribal (Bureau of Indian Affairs-BIA) Scholarship—Students who are enrolled with a state or federally recognized tribe are encouraged to apply for BIA funds by directly contacting their BIA Higher Education Program. The amount awarded is based on financial need and availability of funds through the BIA. Students are encouraged to apply with their tribe as early as possible. Recipients will receive an official notification of an award from the BIA.

Ethel M. Curry American Indian Scholarship—The Ethel M. Curry American Indian Scholarship is awarded to students who are admitted to the University of Minnesota, Morris as a first-year freshman. To be considered for the Ethel M.
Curry American Indian Scholarship students must complete the American Indian Tuition Waiver Application providing proof of American Indian heritage. Students will be given priority if they are one-fourth American Indian, enrolled in a federally-recognized tribe, and a Minnesota resident. Recipients will be notified by the Financial Aid Office.

**Shakopee Mdewakanton Sioux Community Endowed Scholarship**—The Shakopee Mdewakanton Sioux Community (SMSC) Endowed Scholarship was established in 2008 through a generous gift from the Shakopee Mdewakanton Sioux Community. The SMSC scholarship program is designed to recruit and retain talented American Indian students with demonstrated financial need to the University of Minnesota.

**Other Aid Programs**

**Morris Academic Partnership (MAP)**
Morris offers the Morris Academic Partnership (MAP) program in which faculty select academically talented, qualified third-year students to assist them in scholarly and creative projects. Selected MAP students undertake assignments intended to enhance their intellectual competence and increase their interest in graduate or professional study.

**Morris Student Administrative Fellows (MSAF)**
Morris offers the Morris Student Administrative Fellows (MSAF) Program, in which academic and administrative staff select academically talented, qualified students to assist them in administrative and managerial projects. Selected students undertake assignments intended to enhance their intellectual competence and increase their interest in graduate or professional study.

**Multicultural Mentorship Program (MMP)**
The Multicultural Mentorship Program (MMP) is an opportunity for second-year students from underrepresented backgrounds or students who are working on a project that focuses on social justice issues or intercultural competence. Students selected for MMP work with Morris faculty and/or staff on a year-long project and/or research endeavor. A yearly stipend of $1,000 (paid in two installments at the end of each semester) is awarded to selected students for work supervised by their mentors. Further information about the Multicultural Mentorship Program may be obtained from the Multi-Ethnic Student Program Office, 110 Multi-Ethnic Resource Center.

**Undergraduate Research Opportunities Program (UROP)**
The Undergraduate Research Opportunities Program (UROP) benefits students by allowing them to work with a faculty member on research, scholarly, or creative projects. Students develop detailed knowledge of research methods and have unique access to the faculty and facilities of the entire University of Minnesota system.

**Veterans Education Benefits**
Morris is approved by the Minnesota State Approving Agency to participate in all Veterans Education Assistance Programs. These programs include Veterans Administration (VA) benefits for those who have served on active duty and their eligible dependents, as well as members of the Reserve and National Guard.

**Minnesota War Orphans Tuition Waiver**
Students who have lost a parent through death as a result of a military service-related injury or disease may be eligible for a full-tuition waiver and assistance to help with other educational expenses at a Minnesota institution. Contact the director of financial aid for coordinated veterans’ services support at Morris.

**Vocational Rehabilitation**
Students may be eligible for vocational rehabilitation if they have a physical or mental disability that makes it difficult for them to find or keep a job. If a student is determined eligible for services, Minnesota’s vocational rehabilitation program considers the student’s eligibility for other financial aid and may fund some direct costs such as tuition, student service fees, books, supplies, and equipment.

Registration

Once a student is admitted to Morris, campus staff and faculty are available to assist the student in registering for courses and in getting oriented to the services, resources, and requirements of the University. Students are responsible for registering for classes each term. Registration and up-to-date registration publications and information are available on the Office of the Registrar website at www.morris.umn.edu/registrar/registration/.

Class Schedule—The online Class Schedule lists course offerings with class times, rooms, instructors, and prerequisites. The Class Schedule is available online at www.morris.umn.edu/registrar/registration/.

All students benefit from meeting with advisers every term prior to registration. To plan for registration, students should review their APAS report to see what degree requirements need to be completed and which courses satisfy them. After registering, students should review APAS again to see how their courses are counting toward graduation. Students register themselves online. Student may also register in-person at the Office of the Registrar, 212 Behmler Hall. Registration related information can be found on the Office of the Registrar website and on the Student One Stop website at onestop.morris.umn.edu/.

Maximum Credits for Registration

The maximum number of credits per semester for which a student will be allowed to enroll without approval is 20. Scholastic Committee approval is required for a student to enroll for 20.5 or more credits in a semester. The Registrar, on behalf of the Scholastic Committee, acts on petitions from students to register for more than 20 credits.

New Student Registration

Registration sessions are held on campus for entering first-year students and transfer students who plan to enroll fall semester. Faculty advisers assist new students with reading APAS reports, academic planning and course selection, and guide them through the process of online registration. New students should have official transcripts from all postsecondary institutions attended (including college credit earned while in high school) sent to the Office of Admissions at least two weeks prior to the assigned registration session. These will be incorporated into the APAS report and will assist advisers with recommending appropriate courses.

Morris offers a comprehensive new student orientation program that provides information on Morris’s educational opportunities, services, and resources. Returning students help new students find their niche in campus life. New Student Orientation is held just before the beginning of the academic year. Students entering Morris spring semester are provided with orientation information at the beginning of the semester.

Registration for Subsequent Semesters

Students are notified via email, the official form of communication, about registration each semester. All students with fewer than 60 completed credits must meet with their adviser and receive registration approval from them prior to registering. It is recommended that all students meet with their adviser to discuss registration every semester.

Students are encouraged to register early to secure a seat in a class. The registration queue allows seniors to register first, then juniors, sophomores, freshmen, and non-degree seeking students. Students who do not register prior to the first day of the term will be assessed a registration late fee.

Annual Planning

For all Morris students, long-range academic planning between students and their advisers occurs during the spring semester, prior to registration for the subsequent fall semester. This long-range planning or Annual Planning provides an opportunity for significant discussion of the breadth and quality of students’ liberal education; career objectives, interests, and plans; and technical details of degree requirements. Students who will be freshmen or sophomores in the fall plan their next year; those who will be juniors plan their two remaining years. Seniors are invited to attend “Senior Meetings” at the beginning of Fall Semester to plan their final year. For students with fewer than 60 semester credits (freshmen and sophomores), notification of the adviser’s approval of the Annual Plan is required in the Office of the Registrar before students may register for fall semester.

Holds on Students’ Records

Certain holds on students’ records will prevent them from registering. For example, these can result from failure to comply with academic regulations or financial obligations to the University. The registration system will not allow students to register until holds are cleared. For more information, see the University policy, available at www.policy.umn.edu/Policies/Education/Education/REGISTRATIONHOLD.html.

Change in Registration

The last day for students to make changes to their class registration is the 10th class day of fall or spring semester. This includes the last day to add a class, change grading basis for a class, or drop classes without the symbol “W” (for “withdraw”). The “essential deadlines” and details are published on the Office of the Registrar website at www.morris.umn.edu/registrar/.
Dropping Classes
The deadline to drop classes is included in the essential deadline information. Canceling classes after the deadline requires approval from the Scholastic Committee and will be granted only for extenuating nonacademic circumstances justifying late withdrawal. Petitions are available through the Office of the Registrar.
Students who receive any type of financial assistance are advised to check with the financial aid staff before canceling a class. The tuition and fees refund schedule is published on the Student One Stop website.

Withdrawals
Students may withdraw from classes without special permission through week nine of the semester (week four of half-term classes, week two of May session, week three of summer term). If a student withdraws from a course during the first two weeks of classes, that course registration is not recorded on the student’s transcript. If a student withdraws during week three through week nine, a symbol of W appears on the transcript. Detailed course cancellation deadlines are online at www.morris.umn.edu/registrar/calendar/canceladd/.
Withdrawal after the cancellation deadline requires approval from the Scholastic Committee and will be granted only for extenuating nonacademic reasons. The registrar, on behalf of the Scholastic Committee, acts on petitions from students to drop classes after the deadline.

Discretionary Course Cancellation—
One-time Drop
Students may drop a class after the deadline without proof of extenuating circumstances once during his/her career as an undergraduate student at the University. This “one-time-drop” must be processed at the Office of the Registrar and the petition must be submitted on or before the last day of class for that course. A student may not withdraw after completing the final examination or equivalent for a course. A symbol of “W” appears on the transcript. This rule is part of the University Grading and Transcript policy at www.policy.umn.edu/Policies/.

Canceling Out of College
Dropping all classes is a big decision. Detailed information, a list of offices to contact, recommended actions to be taken, and forms are available at www.morris.umn.edu/registrar/cancel/.
Until an official notice of cancellation is received in the Office of the Registrar, spaces in the classes are reserved, and tuition and fees charges continue to accrue regardless of nonattendance.

Refunds
In response to the federal Higher Education Amendments of 1992, the University of Minnesota has established a refund policy that follows federal regulations. Morris has a four-week refund period.
Week one of both fall and spring semesters ends the following week, on the same day of the week that classes began. This allows students whose first course meeting is the Monday of week two at least one day of class before a penalty for cancellation is imposed.
Students are entitled to a full or partial refund or credit of tuition, student services fees, and special course fees as follows. (Refund schedules, including May session and summer session, can also be found on the web at www.morris.umn.edu/services/business/refundschedules.html.)

<table>
<thead>
<tr>
<th>Refund Schedule</th>
</tr>

</tr>
<tr>
<td>25% through the 20th class day</td>
</tr>
<tr>
<td>0% after the 20th class day</td>
</tr>
</tbody>
</table>

The Office of Admissions, the Office of Financial Aid, the Business Office, and the Office of the Registrar work together to verify the date of cancellation. Any aid that has been received by the student is recovered first, as required by the aid programs involved. The Business Office cashier either processes a refund to, or collects the balance from, the student depending upon remaining funds and outstanding obligations to the University. Refund examples are available upon request by contacting the Office of Financial Aid.

Students participating in approved study abroad or student teaching, internships, or other individual projects at remote off-campus locations may be granted a waiver of the student services fees (with the exception of nonrefundable fees) for the period of their absence from the campus. Students should contact the Office of the Registrar for further information on student services fee waivers. Prorated room and board rebates are also available in many cases. See the Student Life Handbook for details at netfiles.umn.edu/umm/www/residentiallife/StudentLifeHandbook.pdf.

Re-Enrollment After an Absence
Students who will not maintain continuous registration for any reason should consult with their adviser about whether to request a leave of absence. Morris students who fail to register for two semesters and who have not been granted a leave of absence or whose leave of absence has expired will be placed on “inactive” status. Former Morris students are considered for readmission on the basis of their past performance as space is available. Former Morris students who transfer to another college must submit official transcripts from that institution with their application for readmission. Once readmitted, the Office of the Registrar
provides the information needed to register for classes. Forms and procedures related to this policy can be found at www.policy.umn.edu/Policies/Education/Education/READMISSIONLOA.html.

**Student Records Privacy**

Regents policy, federal law, and state law regulate release of student information to third parties. University policy regulates sharing of information within the University. Briefly, some student information is designated as directory information and is a matter of public record. This includes name, mailing address, email address, telephone number, dates of registration and registration status, major, adviser, college and class, academic awards received and degrees received.

A currently enrolled student has the right to suppress this information. To suppress directory information, go to www.morris.umn.edu/registrar/records/. Once a directory suppression is requested, it will remain active until the student requests its removal. For assistance, contact the Office of the Registrar, 212 Behmler Hall. Additional information is available at www.morris.umn.edu/registrar/records/.

Students have the right to review their educational records and to challenge the contents of those records. The Regents policy on student educational records is available for review online at www1.umn.edu/regents/policies/administrative/Student_Education_Records.pdf. Additional information is available from the Office of the Registrar.

Student Services and Opportunities

At Morris, students will find a wide range of activities and services that will enhance their education and enrich their personal experience. They will become members of a learning community that is continually changing and growing. Morris is a friendly campus where students will come to know many fellow students and staff members on a first-name basis. Each person is not just another student, but an individual responsible for making his or her own decisions and using the many resources of the campus to make the most of her or his education.

Many of the services and extracurricular opportunities available at Morris are described in the following pages. Campus services from Financial Aid to Health Service support students during their college experience. Varied social, educational, and recreational programs extend learning beyond the classroom and provide a full range of night and weekend activities. Opportunities include participation in more than 90 student clubs and organizations where students write for the campus newspaper, deejay on the student radio station, and pursue interests from theatre to international affairs. Intercollegiate athletics, intramurals, club sports, and personal fitness opportunities are available for women and men, teams and individuals. Each of these services and activities enhances the Morris college experience. For the most complete listing of resources and student services on the Morris campus, see the Morris website at www.morris.umn.edu/Current Students.

Academic and Information Resources

Briggs Library

Rodney A. Briggs Library occupies a position at the heart of the Morris campus from physical, virtual, and intellectual perspectives. Located just a few steps from the Student Center in the middle of campus, the library building houses more than 270,000 volumes, as well as journals, music scores, DVDs, CDs, and more. More than 50 networked computers are available, with wireless access throughout the building. The library is also a federal documents depository and maintains a collection of children's books and materials to support Morris's highly rated teacher education program. In addition to housing the UMM Archives and West Central Minnesota Historical Research Center, the library includes a growing number of additional special collections (print and digital) to support historical and other specialized research. Extensive online resources are provided via the library's website. This site serves as the gateway to the library's more than 150 subscription databases and 60,000 online journals, and provides links to other scholarly resources. The library's interlibrary loan service has a high success rate of obtaining materials not available locally. Open 99 hours a week (with extended hours during exam weeks), the library provides a variety of quiet study areas as well as group activity space. Briggs Library staff provide reference assistance in person, by phone, text, email, or instant message. The library also sponsors and co-sponsors a variety of events, discussion groups, and programs that are popular with both the Morris campus and greater Morris communities.

Computing Services

Computing Services supports Morris instructional, research, and administrative programs. It provides the Morris campus network, including wireless networks in all residence halls; central Internet, web, and email services; and student labs with Macintosh and Windows computers. Some computer labs are open 24 hours a day during the academic year. The Computing Services main office is located in Behmler Hall 10. The Helpdesk is in HFA 123.

Access to Morris computing facilities is free to all students. Software available on Computing Services’ lab computers includes Internet utilities for email, web browsing, and web page creation; word processing, spreadsheet, and other office productivity programs; and academic discipline-specific tools, such as statistical packages and geographic information systems. All Morris students are granted email accounts and students may retain their University of Minnesota email accounts after graduating from Morris. The UMM library's extensive online resources and student services are accessible directly from high-speed ResNet network connections in every Morris residence hall room. Students can also use wireless networks in most buildings on campus.

Additional information is available online at the Computing Services website, www.morris.umn.edu/technology.

Instructional and Media Technologies

Instructional and Media Technologies (IMT) supports the teaching and research mission of Morris by providing a wide range of instructional technology services. A complete range of resources is available including media production, instructional design, course management support, online course integration, classroom instructional technology, video conferencing, streaming video services, technology user support, and equipment checkout. For a complete list of services, go to the Technology at Morris website at www.morris.umn.edu/technology/. For any technical assistance or questions, stop by the IMT Helpdesk in HFA 123, call the Help Line at 320-589-6150, or via email at: ummhelp@morris.umn.edu.

IMT maintains the Technology Helpdesk to provide assistance with computer software and hardware issues. The Helpdesk can help students with any problem that may arise with their personal computers, phones, and other devices, as well being the primary contact for any issues with on-
campus facilities. The Helpdesk is also available to students for help and instruction in using online University of Minnesota systems, as well as training and instruction with assorted academic-related software. All of the services the Helpdesk offers are provided free of cost for current students. The Helpdesk can also assist students in purchasing software provided at academic discounted rates through the University of Minnesota.

All general purpose classrooms utilize standardized technology that is supported and maintained by IMT. The user-friendly technology in these classrooms is available for walk-in use by faculty and students and classrooms are equipped with computers, data projectors, screens, sound systems, and controlled by integrated touch control panels. The department provides a pool of equipment for instructional use that includes Mac and PC laptop computers, data projectors, digital still and video cameras, and portable video production equipment. Faculty and students may check out this equipment on a short-term basis—at no cost—for use with class presentations and individual media projects.

Instructional and Media Technologies manages the Morris Digital Media Lab, a 12-station computer lab located in the lower-level of the Humanities-Fine Arts Center (HFA 26) where students can create media-rich video and design projects for both academic and personal use. This lab is also a teaching lab for students in art, music, communication, and theatre disciplines in the use of Adobe Create Suite (Photoshop, InDesign, and Illustrator), Final Cut Pro Studio, Vectorworks, Microsoft Office, and many other software titles. Students who wish to edit high-definition video projects can take advantage of the lab’s robust EditShare storage server, offering secure management of large video projects. Students can also receive assistance converting video footage from a variety of video sources: cameras, DVDs, SD cards, and numerous video file formats for use in their academic or personal projects.

Individual accounts can be set up on the shared video server for storing and protecting large video files. The Technology for Teaching and Learning Lab, located in HFA 35, can help with class media projects. Lab personnel can provide assistance in understanding and using Moodle, blogging, creating presentations using digital media, or other technology-based tools. The lab is available for individual and small group instruction by the instructional technology specialist.

IMT supports and maintains interactive video conferencing systems for the campus that provide opportunities for faculty and students to connect with people and places around the world to expand beyond the physical classroom. ITV services include large, managed statewide systems in addition to personal, peer-to-peer desktop solutions. Costs for media assistance and production services, except for consumable materials, are not charged to academic units, student organizations, or registered students engaged in instructional activities.

**Office of the Registrar**

The mission of the Office of the Registrar is to provide a service-oriented environment that promotes and supports the academic goals of students, faculty, and staff in accordance with University and federal guidelines. The Office of the Registrar handles a wide variety of functions including degree clearance, transfer credit evaluation, registration, class scheduling, grades, transcripts, enrollment verification and certifications, and all updates to the Academic Progress Audit System (APAS). Assistance is available on a walk-in basis, via the web, by telephone, email, or by appointment. The office is located at 212 Behmler Hall, 320-589-6030. The Office of the Registrar has a comprehensive website that provides current information at [www.morris.umn.edu/registrar/](http://www.morris.umn.edu/registrar/).

**Health and Wellness Resources**

**Health Service**

Health Service is an outpatient healthcare clinic providing service to Morris students. It is located in Clayton A. Gay Hall.

All students registered for six credits or more may use Health Service through a mandatory student health service fee paid with each semester’s tuition and fees. Students have on-campus access to physicians and nursing staff, medical treatment, routine laboratory tests, immunizations, and some prescription drugs. All Health Service records are confidential. Students should report emergencies and illnesses requiring a physician’s care directly to Health Service.

The student health service fee does not pay for medical or surgical inpatient services at a hospital. Health insurance is required for students enrolled for six credits or more. The University of Minnesota offers an insurance policy for those students not covered by parents’ policies or alternate coverage obtained elsewhere. Health insurance coverage must be verified each semester with course registration or students are automatically enrolled in the University’s student health insurance program.

**Student Counseling**

Students face more than just academic challenges while attending college, including the passage into adulthood. Student Counseling at Morris helps students through this period of change on intellectual, physical, spiritual, emotional, occupational, and social levels. Counseling staff help students address potential problems, pitfalls, and opportunities during this exciting, challenging, and sometimes difficult transition in life.

Students are offered short-term, personal counseling for personal concerns, or help with academic major and career
decision-making. Many students use this service to share feelings and to discuss problems in a comfortable and confidential setting. All counseling services are provided free of charge.

Student Counseling works closely with student leaders in an advisory capacity, supporting Community Advisers and Peer Health Educators. Peer Health Educators (PHE) are volunteer students who provide information and programs about physical, emotional, and sexual health and wellness issues to their fellow students. PHE meets in the Wellness Center on the ground floor of Gay Hall, next to Health Service.

Student Counseling is Morris’s testing center for institutional placement exams (mathematics and language), exams for credit (CLEP and DSST), and national undergraduate and graduate school admission or licensing exams (ACT, GRE Subject, MAT, LSAT, PCAT), and the Minnesota Teacher Licensure Exam (MTLE). Questions regarding test registration and procedures can be answered by the staff. Student Counseling also provides clinical and personality testing inventories for Morris students.

Student Counseling staff also serve as a confidential resource for students who feel victimized by sexual, racial, or GLBT harassment. When students believe they have been harassed, they can speak to staff about their options in a confidential and safe environment.

Students With Disabilities

Morris is a small, student-centered college which makes this a suitable choice for students with disabilities. Students with disabilities receive personal attention and are accommodated on an individualized basis.

Morris’s Office for Academic Success located in 362 Briggs Library, includes Disability Services and the Academic Assistance Center. Disability Services provides support for students with physical and various learning, health related, autism/Asperger, cognitive and/or psychological disabilities. Disability Services staff work with students to ensure that they receive appropriate accommodations and learn self-advocacy skills.

The Morris campus is a mixture of old and new structures, and some of the older buildings on campus are only partially accessible. All teaching facilities and the library, student center, administration building, and food service building are accessible and have elevators.

Students requiring wheelchair access to inaccessible buildings are served by faculty and staff at alternate locations. There is accessible living space in both conventional residence halls and campus apartments.

Students with disabilities are responsible for providing documentation and requesting accommodation far enough in advance for accommodations to be made. Persons with disabilities seeking assistance or information should contact Disability Services in 362 Briggs Library, 320-589-6178, or dsaoac@morris.umn.edu. Visit the Office for Academic Success website for more information at www.morris.umn.edu/academicsuccess.

Diversity and Equity Resources

Office of Equity, Diversity, and Intercultural Programs

The Office of Equity, Diversity, and Intercultural Programs works collaboratively with campus and community partners to meet the needs of students, foster inclusive diversity, and promote intercultural competence. The office coordinates the International Student Program, Multi-Ethnic Student Program, and other resources for students on the campus.

International Student Programs

Morris provides a unique opportunity for international students by offering a rigorous, liberal arts experience with access to the research capabilities of one of the nation’s most comprehensive university systems. Faculty members make student learning and development their highest priority, giving students a chance to develop close, collaborative working and learning relationships with their professors. The International Student Programs Office (ISP) provides academic and social support and visa advising for students on campus.

There are a wide variety of activities and clubs available to students while they are on campus. The International Student Association, supported by the International Student Programs Office, is a great place to start getting involved. A week-long orientation program takes place before the beginning of each semester to help international students plan their academic program, get settled in their housing, and begin to understand the culture of American society and west central Minnesota. Students also have the opportunity to attend the Morris summer intensive English Program, STELLAR (Summer Transition for English Language and Liberal Arts Readiness).

Multi-Ethnic Student Program

The Multi-Ethnic Student Program (MSP) provides culturally relevant services to ensure a supportive environment for students of color and to promote equity and social justice. MSP staff connect students to resources like funding to support travel to educational conferences, institutes, and summits; the Multicultural Mentorship Program for second-year students; World Touch Cultural Heritage Week; leadership development and volunteer opportunities; and information about scholarships, career, internships, and graduate study.

MSP, located in the Multi-Ethnic Resource Center (MRC), is also a great place for students to socialize, relax, meet, and study. Throughout the year, students can explore cultural programs and events sponsored by MSP and various student-of-color organizations. MSP helps and guides students throughout their time at Morris.
Resource Center for Gender, Women, and Sexuality
The Resource Center for Gender, Women, and Sexuality, located in the lower level of the Multi-Ethnic Resource Center, is home to the Commission on Women, Queer Issues Committee, E-Quality, Morris Feminists, and Women of Color. The center is staffed on a volunteer basis by students, faculty, and staff. The center has a computer, equipment for PowerPoint and other presentations, a comfortable meeting space, and a lending library with books, videos, and pamphlets. The Queer Issues Committee, comprised of students, faculty, and staff, works to address systemic concerns of the gay, lesbian, bisexual, transgender (GLBT) community and provides a GLBT Ally training called Safe Zone. E-Quality, Morris’s GLBT and allied student organization, seeks to promote understanding of the GLBT community through social events, educational programs, and political activism. The group sponsors Coming Out Week in October and Pride Week in April, among other events and programs.

Commission on Women
The Commission on Women (CW) was founded in 1988 and seeks to strengthen the community by enriching women’s working and learning environments and creating a campus environment that is respectful, inclusive, and productive for all University employees and students. Over the years, the CW has acted as a catalyst for women’s equity and an advocate for fair treatment of women in academic and campus life. The CW partners with other campus programs and offices in promoting dialogue, challenging norms and values that demean or devalue women, and supporting constructive change. Notable achievements and activities include establishment of the Gender, Women, and Sexuality Studies major in 2001, annual Women’s Week keynote speakers, significant grant awards to faculty, staff, and students related to research and programming that support the CW mission, and a variety of advocacy actions including staff gender balance and pay equity, development and recommendation of consistent and supportive backfill policies, coordination and support of campus and community resources for student parents, and an annual luncheon celebrating the accomplishments of Morris women. In addition to these ongoing efforts, the coordinator for the Commission represents the CW in the campus governance system, holding ex-officio membership on three of Morris’s Campus Assembly committees. Additional information is available on the web at www.morris.umn.edu/comwomen.

Student Life, Activities, and Engagement

Residential Life
Living on campus at Morris means being part of an active living and learning community. Residence hall living gives students a unique opportunity to meet new friends and interact with a variety of people. Living on campus means being close to classes and facilities and encourages involvement in college activities. All residence hall rooms have direct, high-speed Morris computer network access—with one connection for each resident. Wireless access is available in residence halls and in many locations across campus. Visit www.morris.umn.edu/wireless.

Variety makes living on campus attractive. Morris has five residence halls, ranging from small, traditional settings to larger, contemporary settings. Apartment living is also available in furnished, two-bedroom units designed for four students. Residential life at Morris includes the following options.

Clayton A. Gay Hall accommodates over 200 students with 35 students living on each floor. There are two separate lounge areas and kitchenettes on every floor. Gay Hall is coeducational by wing, floor, or alternating rooms and has open visitation.

David C. Johnson Independence Hall (DCJI) accommodates 230 students in double rooms with 20–30 students living in each wing. There are lounges and kitchenettes on each floor. DCJI Hall is coeducational by either alternating rooms or wings and has open visitation.

Pine Hall, known for its unique, private location near the Humanities Fine Arts building, houses 80 students. A kitchen and game room are located on the ground floor. All floors have an open guest policy and are coeducational by alternating floors.

Spooner Hall is a traditional-style residence hall. Designed to accommodate 90 upper level students, it features large rooms and a comfortable atmosphere distinguished by the Inner Lounge, which is noted for its charm and warmth. Spooner Hall is coeducational by alternate floors and has open visitation.

The apartment complex at Morris offers facilities for 200 upper level students. The three-to-four-person apartments have two double bedrooms, a kitchen-living room, and a private bath. They provide the flexibility of apartment living arrangements with the convenience of being on campus.

The Green Prairie Community, Morris’s new residence hall, houses 70 students in suite-style housing. The facility features a first-year sustainability theme floor and green living for upper level students.

Students living in the residence halls may choose to have single rooms, if space is available, at a slightly higher rate than that for double rooms. The residence halls are served
by a central Dining Hall within easy walking distance. The apartments have cooking facilities in each unit.

For more information about on-campus housing, contact the Office of Residential Life, University of Minnesota, Morris, MN 56267-2134 or visit the Morris Housing website at www.morris.umn.edu/residentiallife.

Student Center
The Student Center serves as a community center for Morris students, faculty, staff, alumni, and guests. The Student Center includes three primary gathering places: the Turtle Mountain Cafe, a popular location for lunch, studying, socializing, and meetings; Oyate Hall, a large multipurpose room with a fireplace lounge and panoramic view of the mall; and Edson Auditorium, home to many campus performances and events. Highbies is home to the Information Center and campus coffee shop. In addition, the Student Center provides lounge and study space (including Louie’s Lower Level, a 24-hour student lounge, and a computer lab), offices and meeting places for student activities and organizations, the Academic Center for Enrichment, KUMM Radio, and other student focused programs and functions.

The facility is the center for co-curricular activity on the campus. The activities, events, and functions that take place in the Student Center—club meetings, concerts, conferences, forums, and world-class performances and lectures—enrich student life and are an integral part of the Morris experience.

Student Activities
The Office of Student Activities coordinates and supports Morris’s co-curricular social, educational, cultural, and recreational programs. It provides professional assistance to student organizations and is perhaps the single best source of information and technical expertise for individuals or groups of students who would like to get something done, see something happen on campus, or simply become involved. By participating in student organizations, Morris students develop leadership and organizational skills, meet new people, make a difference on campus, and have fun. Morris has more than 90 student organizations, clubs, committees, and special interest groups. These organizations provide opportunities for involvement in academic, social, cultural, religious, and recreational activities, as well as the opportunity to explore and discuss local, national, and international issues. At the beginning of each year, Morris sponsors an Activities Fair that serves as a showcase for the many student organizations. The Activities Fair provides new students with an opportunity to meet students active in a particular organization and learn about the group’s activities and events, gain an understanding of each organization’s purposes and goals, and join the organizations that match their interests.

A complete list of student organizations is available online at www.morris.umn.edu/webbin/StudentActivities.

Morris Campus Student Association
The Morris Campus Student Association (MCSA) exists to represent the interests of students on the Morris campus of the University of Minnesota. The central policy-making body of Morris, the Campus Assembly, consists of faculty, staff, and elected student representatives. These students, along with other elected or appointed student representatives, form the student government, the MCSA Forum. The Forum provides most of the recommendations for student membership on campus committees. It is the major source for expressing student opinion and initiating legislative action to promote and protect student interests. First-year students can become involved in the MCSA through the First-Year Council.

Campus Activities Council
The Campus Activities Council (CAC) is the major activities and events planning organization on the Morris campus. Through funds provided by the Activities Fee, CAC offers a wide variety of cultural, social, recreational, and educational programs. CAC events range from professional music, theatre, and dance performances to an annual lecture series, free films, stand-up comedy, live music, and community-building activities. Each year CAC works to “bring the world to Morris.”

Involvement in CAC may range from attending and enjoying a variety of events to becoming an active member of any of the five student committees: Concerts, Performing Arts, Homecoming and Traditions, Films, and Convocations (lectures). Each committee selects, organizes, and promotes events in its program area. Committees also work with other campus organizations to present special events.

Campus Media
KUMM—the U-90 Alternative (89.7 FM) and The University Register provide the campus community with campus news, information, student opinions, and entertainment. KUMM broadcasts alternative radio 7 days a week, 24 hours a day during the academic year. The student newspaper, The University Register, is published weekly throughout the academic year. KUMM and The University Register are student-run organizations staffed by dedicated volunteers. The North Star, a conservative student newspaper, began publishing in 2012-13.

Office of Community Engagement
The Office of Community Engagement provides students with many opportunities to get involved in the regional and broader community. Students interested in working with community members on projects that benefit the community can do so in a number of ways, from group to individual projects, one-time to ongoing projects, and work that incorporates everything from direct service to
community building to research. Office staff can help individual students, student organizations, athletic teams, and residence hall floors choose and develop opportunities that make the most sense given their interests, skills, goals, and majors/minors. The office also coordinates several programs to facilitate community engagement, including a Community ESL program, providing students with the opportunity to teach English to new immigrants; a TREC (Tutoring, Reading, and Enabling Children) program providing students with the opportunity to tutor and mentor preschool and elementary school children; a Soup and Substance dialogue series about ways to get involved in social issues affecting the community; a free community meal featuring homemade, locally-sourced foods that provides students with multiple service opportunities; and service-learning courses that incorporate community engagement into classes in multiple disciplines on campus.

Campus Events and Activities
In addition to the activities presented by the Campus Activities Council, a variety of other options for cultural enrichment and entertainment are available. A large number of student organizations and residence hall groups organize events and programs of their own. The Morris symphonic winds, choirs, jazz ensembles, and theatre also present outstanding performances. Zombie Prom, the Yule Ball, Asian Association talent show, and the UMMy’s annual film festival are a few popular annual events.

Several week-long themes are addressed through a variety of program activities on campus each year. Early in the fall, Homecoming activities include the traditional football game, the annual residence hall tug of war, a dance, and more. Black History Month and World Touch Cultural Heritage Week focus campus attention on the issues, accomplishments, culture, history, and art of U.S. people of color.

Fine Arts Programs
The Campus Activities Council (CAC) Performing Arts Series sponsors several performances by artists of national and international stature each year. In addition to the dance, music, and theatre series, CAC and the Morris Jazz Ensembles cosponsor the annual spring Jazz Festival featuring professional guest artists and jazz at its finest. The Morris studio art and art history faculty arrange regular exhibits in the Humanities Fine Arts (HFA) Gallery during the year. These exhibits include original works of artists from many periods and mediums, as well as paintings, drawings, prints, and sculptures by Morris students and faculty. University theatre students and faculty produce classical and contemporary plays each semester during the academic year. In addition, the Meiningens, a student group dedicated to providing theatre experience for its members, offers dramatic productions.

Concerts are scheduled throughout the year by the Morris Symphonic Winds, University Choir, Concert Choir, and Jazz Ensembles. Student and faculty recitals—vocal and instrumental—are scheduled frequently for student and community enjoyment.

Displays of rare books are exhibited in the library. Included are general and specialized exhibits of books ranging from the medieval period to modern times.

Sports and Recreation
Recreational activities and organized sports are important features of life at Morris. Intercollegiate and intramural athletic programs contribute to participants’ general education. Opportunities for personal fitness, recreation, and team competition include state of the art fitness facilities in the Regional Fitness Center, intercollegiate and club sports, intramural leagues, wellness and sports science courses, and indoor and outdoor recreation clubs. Through these athletic and recreational experiences, students have the opportunity to improve their level of personal fitness. The staff in sport studies and athletics, intramurals and recreation, and the Regional Fitness Center are dedicated to helping each individual participant realize this goal.

Intercollegiate Athletics—Morris is an NCAA Division III member of the Upper Midwest Athletic Conference. The Morris Cougars compete in eight sports for men and nine sports for women. Men’s varsity sports include cross country, soccer, football, golf, basketball, baseball, tennis, and track and field. Women’s varsity sports include soccer, cross country, volleyball, golf, baseball, softball, swimming and diving, tennis, and track and field.

Intramural Sports—Men’s, women’s, and coed intramural leagues are offered each semester in a variety of sports including flag football, basketball, volleyball, slow pitch softball, kickball, and badminton. Weekend tournaments and opportunities for individual competition typically include 3-on-3 basketball, disc golf, tennis, 4-on-4 basketball, and the annual Tinman Triathlon.

Sports Clubs—A number of sports clubs have been organized as a result of student-faculty interest. Men’s and women’s rugby, ultimate Frisbee, fencing, karate, and ground quidditch have many enthusiastic members. Many of the clubs travel to other colleges and host tournaments at Morris.

Regional Fitness Center—The Regional Fitness Center’s recreation and fitness facilities serve UMM students as well as Morris and Stevens County community members. Cardio and state-of-the-art strength machines, water and land group fitness classes, aerobics courses, court time, and a walking/running track offer year-round indoor recreation and fitness opportunities. Swimmers and divers of all levels can spend many hours in the regulation NCCA/AAU pool, diving tank, or warm water pool.
Morris students registered for six credits or more are members of the Regional Fitness Center through a student fee paid each semester with tuition and fees. Students, faculty, and staff are encouraged to use the Regional Fitness Center and Physical Education Center facilities.

Students in residence halls have access to recreation facilities, including sand volleyball courts, pool tables, and table tennis.

Finally, for outdoor enthusiasts, there are excellent recreational facilities for biking, hiking, fishing, hunting, boating, and skiing within a few miles of the Morris campus. An outdoor recreation club is active on campus.

Alumni Association
The Morris Alumni Association offers students opportunities for networking with alumni across the United States and around the world. Alumni often are willing to assist students in locating internships and jobs and to offer advice about the “real world.” Students and alumni can join the secure online network “Morris Connect” and network 24/7.

Morris students have access to the publication Profile, which is produced by the Morris Office of External Relations and sponsored by the Morris Alumni Association.

Students can visit the Morris Alumni Association at 106 Welcome Center, or on the web at www.morris.umn.edu/alumni.

Campus Safety and Security
Morris’s campus safety and security programs cover the academic buildings, residence halls, student life facilities, and campus grounds. Morris Campus Police emphasize crime prevention by minimizing crime opportunities and encouraging students and employees to be responsible for their own and others’ security. Campus safety programs include violence prevention programming, annual training on security measures and emergency/crisis management for residence life staff, regular lighting surveys of exterior campus lighting, and 24-hour access phones in public areas within campus buildings and parking areas.

Everyone on campus plays an important role in creating a safe community. Students, faculty, staff, and visitors are encouraged to contact Campus Police with any safety questions or concerns.

Morris publishes an annual Campus Safety and Security Report in compliance with federal legislation—the Jeanne Clery Disclosure of Campus Security Policy and Campus Crime Statistics Act. This legislation requires all public and private colleges receiving federal financial aid to provide annual information on campus safety services, crime reporting and the University’s response, data regarding crimes occurring on campus, and relevant policies and procedures. The report is available online at www.morris.umn.edu/police/.

1. There are two distinct grading systems on each campus of the University, A-B-C-D-F (with pluses and minuses as permitted) and S-N. The S-N system is a self-contained alternative to the A-F system and the two may not be combined for a particular student in a particular course. For undergraduates, an S grade is equivalent to a C- or better.

2. When both grading systems are available to a student, he or she must declare a choice of system as part of the initial registration for the course. The choice may not be changed after the end of the second week of classes (the first week in summer sessions).
3. Scholastic dishonesty. Scholastic dishonesty in any portion of the academic work for a course will be grounds for awarding a grade of F or N for the entire course, at the discretion of the instructor. If the instructor determines that a grade of F or N for the course should be awarded to a student because of scholastic dishonesty, the student cannot withdraw to avoid the F or N. (See Board of Regents Policy: Student Conduct Code at http://www1.umn.edu/regents/policies/academic/Student_Conduct_Code.pdf for a definition of scholastic dishonesty.)

Academic Transcript

The University’s official transcript, the chronological record of the student’s enrollment and academic performance, is released by the University only at the student’s request or in accord with state or federal statutes. Students must have met all financial obligations to the University before official transcripts can be released for any purpose.

Official transcripts are certified and signed by the University of Minnesota, Morris registrar. At the student’s request, official transcripts can be directly sent to the student or another recipient. The online request is the most convenient way to order an official transcript. Transcripts requested online are available in either printed or electronic (a secure, certified PDF) format. According to University policy, official transcripts will not be issued if the student has certain types of holds on his or her record. More information, including cost and instructions, are available at www.morris.umn.edu/registrar/transcripts/. The University of Minnesota campuses share a student records computing system, which includes course information from all of the University of Minnesota campuses the student has attended. Transfer work is noted with the name of colleges or universities attended and the total number of credits accepted in transfer by the University.

More information including cost, request forms, login and instructions are available on the web at www.morris.umn.edu/registrar/transcripts/.

Classes, Schedules, and Examinations

Class Attendance

Students must attend the first class meeting of every course in which they are registered, unless they obtain instructor approval before the first class meeting; without such prior approval, a student may lose his or her place in the class to another student. Students are required to attend the first class session to receive important information about the course from the instructor. Student presence at the first class session also allows the instructor to accurately gauge the number of students committed to taking the course.

If a student wishes to remain in a course from which he or she has been absent the first day without prior approval, the instructor should be contacted as soon as possible. In this circumstance, instructors have the right to deny admission to the class if other students have been admitted and the course is full. Instructors are encouraged, however, to take into account extenuating circumstances which may have prevented a student from attending the first class. Students must officially cancel any course for which they have enrolled and subsequently have been denied admission.

For the complete policy, see “Mandatory Attendance at the First Class Session and Consequences for Absence” and “Makeup Work for Legitimate Absences” in the Uwide Policy Library at www.policy.umn.edu/Policies/Education/index.htm#ctgeducation.

Regular class attendance is expected of all students. However, students will not be penalized for absence during the semester due to unavoidable or legitimate circumstances. Such circumstances include illness of the student or his or her dependent, participation in intercollegiate athletic events, subpoenas, jury duty, military service, bereavement, and religious observances. Such circumstances also include activities sponsored by the University if identified by the senior academic officer for the campus or his or her designee as the basis for excused absences. It is the responsibility of the student to notify faculty of such circumstances as far in advance as possible. The instructor has the right to request verification for absences and has the primary responsibility to decide if an absence is due to unavoidable or legitimate circumstances. In addition to officially sanctioned excuses, an instructor may excuse a student for any reason the instructor deems acceptable. Instructors have the responsibility of informing their classes of attendance policies.

Students should not be penalized for absences due to unavoidable or legitimate circumstances. Such circumstances include, but are not limited to, verified illness; participation in group activities sponsored by the University, including athletic events; serious family emergencies; subpoenas; jury duty; military service; and religious observances. It is the responsibility of the student to notify faculty of such circumstances as far in advance as possible and to obtain an official excuse.

At Morris, official excuses, which faculty are obligated to honor, are available from 1) the Health Service, in the case of verifiable illness, 2) the Office of the Vice Chancellor for Student Affairs, in the case of a personal and family emergency, or 3) the Office of the Vice Chancellor for Academic Affairs, when the student is performing a function in the interest of the University. In all cases students remain responsible for notifying faculty of their absence in a timely way and making up the work that they have missed. Faculty are responsible for making a reasonable effort to assist
students in completing work covered during excused absences.

Standard Class Schedule and Class Period
A standard class schedule at the University of Minnesota, Morris consists of 65-minute classes on Monday, Wednesday, Friday (MWF) or 100-minute classes on Tuesday, Thursday (TTh) with an appropriate change period between classes. Classes of longer than 65 or 100 minutes are permitted, subject to University policies governing the relationship between contact hours, credits, and student workload. See the Class Scheduling Policy at www.policy.umn.edu/Policies/Education/Education/CLASSSCHEDULING.html and Expected Student Academic Work per Credit Policy at www.policy.umn.edu/Policies/Education/Education/STUDENTWORK.html.

Overlapping Classes
To ensure students are actually able to attend the courses in which they enroll, students are not allowed to register for classes that overlap. Classes that have any common meeting time are considered to be overlapping.

Only under extenuating circumstances are petitions for overrides for such conflicts permitted; these petitions require the signatures of all faculty members involved. The decision to approve or disapprove such an override petition is entirely discretionary with each faculty member involved. The entire policy “Enrolling in Overlapping of Back-to-Back Classes” can be found at www.policy.umn.edu/Policies/Education/Education/OVERLAPPINGCLASSES.html. Class Time Conflict Approval (netfiles.umn.edu/umn/www/registrar/time_conflict.pdf) petitions must be submitted in person to the Office of the Registrar.

The online Class Schedule lists course offerings with class times, rooms, instructors, and prerequisites. The Class Schedule is available online at www.morris.umn.edu/services/registrar/register.html.

Examinations and Final Exams
The examination and final examination policy of the University of Minnesota includes greater detail on the policies discussed in this section. It can be found at www.policy.umn.edu/Policies/Education/Education/EXAM.html.

Examinations during the term (e.g., mid-terms) will normally be given only during the regular class sessions, except that make-up exams may be given at other times arranged to accommodate student class schedules. Any examinations outside of regular class time during the term must be approved by the vice chancellor for academic affairs and dean and must be listed in the class schedule. Take-home examinations are specifically exempted from this policy.

The final examination week is part of the regular school year and must be taken into account by students in planning for any other activities or work outside of school hours. The final examination schedule is on the registration website. Final examinations for summer session are scheduled during the regular meeting time of the course on the last day. Students are expected to know the times for their final examinations and to attend the examinations as scheduled. Students with final examination conflicts, or with three (or more) final examinations in one calendar day, will be expected to notify and provide documentation to instructors as soon as possible during the term. Instructors are expected to make appropriate accommodation to eliminate the conflict.

Instructors are not permitted to hold their final examinations ahead of the regularly scheduled time except under unusual circumstances and with approval of the appropriate division chairperson. These regulations, which require faculty to abide by the final examination schedule, are not, however, intended to prohibit faculty from accommodating the special needs of students by offering examinations at other times.

According to the Senate Committee on Educational Policy, the final exam is the last exam of the term, whether or not that exam is cumulative. The intent of the rule is to avoid having significant exams during the last week when out-of-class work would also normally be due. Faculty may not schedule an exam in the last week of class in lieu of an exam in the finals week. Thus, while a unit exam during the last week of class plus a cumulative final during final’s week is discouraged, it would be acceptable. Additionally, lab practicums may be given during the last week of classes. Term papers, take-home tests, and other out-of-class work that is assigned before the last week of class can be expected to be due the last day of the regular class. The rule also seeks to exclude take-home final exams being handed out and due during the last week—which, in effect, would be the same as having a final exam the last week. Ideally, faculty would accept out-of-class work on the day of the scheduled final exam, if no final exam is scheduled. It is University policy to prohibit classes, University-sponsored trips, or extracurricular events on study day and during the final examination period. Under certain rare circumstances, exceptions to the prohibition on trips or events are possible. An exemption granted pursuant to this policy shall be honored and students who are unable to complete course requirements during final examination period as a result of the exemption shall be provided an alternative and timely means to do so. For more information on the process of requesting an exemption, refer to www.policy.umn.edu/Policies/Education/Education/EXAM.html or contact the Scholastic Committee at ext. 6011 or 204 Behmler Hall.

Repeating a Course
Students may repeat a course once. However, students who receive a grade of S, C, or better may repeat a course only if
Special Ways to Earn Credit or Demonstrate Proficiency

Examinations for Credit
Departments may wish to have a means of allowing students to demonstrate existing proficiency in a subject without requiring the student to complete coursework. On the Morris campus, the Scholastic Committee serves in the role of the academic department and has all related responsibilities. Current information, forms and procedures are in the policy “Departmental Exams for Proficiency or Credit for Undergraduate Students” at policy.umn.edu/Policies/Education/Education/DEPTCREDITEXAM.html.

Portfolio Evaluation
This method of evaluation involves faculty review of a portfolio in which the student translates prior learning experiences into educational outcomes and documents those experiences for academic credit. A special fee is required.

Placement and Proficiency Examinations
Placement examinations in math, French, German, and Spanish are administered by the UMM Test Center, require no fee, and yield no credit or grade. These examinations may be taken by appointment. Proficiency examinations in French, German, and Spanish are administered by the UMM Test Center.

Nationally Administered Examinations for Credit
The Scholastic Committee, with the concurrence of the appropriate discipline, recognizes and awards credits based on nationally administered examinations that are taken as part of the Advanced Placement (AP) Program, the College Level Examination Program (CLEP), and the International Baccalaureate (IB) Program. Qualifying scores are established by the Scholastic Committee based on all-University policy. The national examinations are reviewed every five years. The Scholastic Committee has approved the use of AP, CLEP, and IB credits in the General Education Requirements; faculty have approved the use of CLEP, IB, and AP credits in specific majors. Review the current qualifying scores at www.morris.umn.edu/committees/scholastic/creditbyexam.

Advanced Placement Examinations
Entering freshmen may receive credit in more than 30 subjects for qualifying scores of 3 or higher on Advanced Placement examinations. Nonresident credit is awarded when Morris processes an official report from the AP Program. Students who have taken AP examinations should request that an official transcript of their scores be sent to the Admissions Office.

CLEP
Registered students are awarded credit for obtaining satisfactory scores on the nationally standardized CLEP general examinations. These credits may be counted toward the 60-credit liberal arts requirement and the 120 credits required for graduation. CLEP credits do not satisfy the residency requirement. Four of the CLEP general examinations may be taken for credit: Humanities, Mathematics, Natural Sciences, and Social Science. To earn credit, a student must attain national qualifying scores. The CLEP general examinations are available to freshmen during freshman orientation week and by arrangement. Students may sign up for examinations by contacting the UMM Test Center. A fee is charged.

Students may also earn credit by successfully passing the CLEP subject examinations, which measure achievement in specific college courses. There are more than 30 CLEP subject examinations covering the content of a variety of courses ranging from Spanish to psychology. Morris allows credit for most. A special fee is charged. To earn credit a student must attain the national qualifying score, based on a norm group of college students who have already passed the course for which the examination is intended.

If a student has earned or is registered for college credits in the area of the examination before taking it, he or she receives only the difference between these credits and the credit maximum permitted. If a student has previously earned and/or is registered for more credits than the area of the examination awards, no credit is given for successful completion of the test. However, a student is permitted to receive credit for courses taken after successful completion of a CLEP examination in a particular subject area.

Students who have taken CLEP examinations elsewhere should request that an official transcript of their scores be sent to the Office of the Registrar, to be processed for appropriate credit allocation. Students are notified of scores received and credit granted.

International Baccalaureate
Students who complete an International Baccalaureate (IB) diploma with a score of 30 or higher and have no examination scores lower than 4 are awarded 8 credits for each of three higher-level examinations, plus 2 credits for each of three subsidiary exams, for a total of 30 credits. No credit is given for subsidiary-level exams other than those...
included as part of the IB diploma, but students may receive credit for any higher-level exams with a score of 5 or higher. The Scholastic Committee has approved use of IB credits to meet specific general education requirements. Use of IB credits in the major is determined through discussions between students and faculty in each major. To receive credit, students who have completed IB examinations should provide an official record of their scores to the Office of Admissions.

Military Service School Experience

Morris does not grant college credit for military service. The Scholastic Committee does, however, grant credit for military service school experience when formal training courses have substantial liberal arts content and have counterparts in the normal liberal arts curriculum. In evaluating such training, the Scholastic Committee uses the Guide to the Evaluation of Educational Experiences in the Armed Forces published by the Commission on Accreditation of Service Experiences of the American Council on Education. To obtain credit, a student must verify successful completion of the work for which credit is requested.

Organizational Sponsored Instruction

The University of Minnesota, Morris may grant credit for formal educational programs and courses sponsored by noncollegiate organizations if they have substantial liberal arts content and have counterparts in the normal liberal arts curriculum. In evaluating such training, the Scholastic Committee uses the Guide to Educational Programs in Non-Collegiate Organizations of the American Council on Education. To obtain credit, a student must verify the service school attendance as well as successful completion of the work for which credit is requested.

Academic Progress Requirements

The minimum academic progress requirements are based on two measures: the cumulative GPA measures performance over time; the term GPA measures performance within the term. The authority for administering the requirements and taking necessary action rests with the Scholastic Committee. (The Financial Aid Office monitors separate financial aid Satisfactory Academic Progress [SAP] requirements. For more information, see www.morris.umn.edu/financialaid/academicprogress.)

All students must maintain both a 2.000 cumulative GPA and a 2.000 term GPA to be in good standing.

University of Minnesota Probation and Suspension Policy

For current information, see policy.umn.edu/Policies/Education/Education/ACADPROBATION.html.

Probation

- A student will be placed on probation (and will remain on probation) if either the term or the cumulative GPA is below 2.000. A student on probation will have a hold placed on his or her record and must see an adviser in order to register. While on probation, a student may not enroll in more than 16 credits without Scholastic Committee approval.

- Academic contract. Colleges may develop contracts specifying additional requirements that students enrolled in that college must meet to be removed from probation or to register for classes while on probation. The academic contract may include GPA expectations more rigorous than the 2.000 term and cumulative GPA minimum standard, where programmatically warranted and where clearly communicated to the student. If the student meets the conditions of the contract, and the term and cumulative GPA are at least 2.000, the student will be removed from probation. Even if the contract conditions are met, the student must still meet the minimum GPA requirements of this policy. If the conditions of the contract are not met, the student will be suspended.

Students on probation return to good standing by earning a term GPA and cumulative GPA of 2.000.

Suspension

A student is suspended if:

- at the end of the probation term (semester), both the term and the cumulative GPA are below 2.000, or
- the conditions of an academic contract are not fulfilled.

The suspension is effective immediately.

Consequences of suspension—When suspended, a student is no longer in the program and cannot register for any University courses for at least one full academic year. All colleges and campuses at the University must recognize the probationary holds and will not allow students, including non-degree seeking students, with these holds to register without the approval of the college placing the hold.

Appealing suspension decisions—Students may appeal suspension decisions or petition for re-admission in writing to the college’s Student Scholastic Standing Committee (SSSC) according to a defined collegiate petition process.

Re-admission after suspension—Re-admission after a period of suspension is not automatic. To be re-admitted, a student must show evidence of changes in circumstances that demonstrate that he or she will succeed in an academic program.

Returning to the college or a different college after suspension—Upon return to the college after petitioning to reenter, students will be placed on probation, and all colleges will use a probation hold and contract for the purpose of monitoring the student’s performance. If the student does not successfully complete the contract, he or she will be
suspended again, but then will be required to reapply for admission to a college, rather than petition to reenter.

**Appeal to Return After One Semester**—Suspected students may appeal to the Student Scholastic Standing Committee using the online appeal form at [www.morris.umn.edu/Scholastic/AppealForm/](http://www.morris.umn.edu/Scholastic/AppealForm/). The appeal is due by June 30, and should include an academic plan for improvement, evidence of successful completion of evening, summer, or transfer work; and/or evidence that personal difficulties are being addressed.

If the student wishes to have the Counseling Office, Academic Assistance, or Disability Services provide input on an appeal, they must have written approval (with the student’s signature) prior to the hearing of the appeal. Without this approval, their input cannot be considered. Decisions on appeals are made in July.

If the appeal is approved, the Committee determines the conditions that must be met during the semester the student returns. If those conditions are not met, the original suspension is reinstated at the end of the term.

**Students with an approved appeal remain on probation**—The Student Scholastic Standing Committee prescribes special conditions in an effort to improve the student’s chance for success. Students and their advisers are notified of these conditions. For example, students may be required to complete a specified number of credits and to earn a prescribed GPA during the single semester of their approved return.

**Morris Academic Alert**

Morris Academic Alert provides communication, resources, and broad based support for student success. The Academic Alert program is coordinated by UMM Academic Affairs, Student Affairs, and the Scholastic Committee. Morris Academic Alert is designed to provide students who are not doing well in a course or courses and may be academically at risk with early information coupled with assistance to support the successful completion of their classes.

Faculty are encouraged to submit an academic alert when a student is earning below a C in a course, is missing class, failing tests or quizzes, or experiencing other difficulty with classes. Staff are also encouraged to submit alerts when students are having difficulty with other campus responsibilities such as missing work. Students and their advisers are notified when alerts are received, with information on resources for support. The Morris Academic Alert Team coordinates additional support for students as needed, particularly when students are at risk in more than one course.

University of Minnesota policy requires instructors to provide mid-term alerts for all 1xxx-level courses for students who, on the basis of performance to date, appear in danger of receiving a grade of D, F, or N. Such notification will be provided no later than the seventh week of the class, and earlier if possible, to allow students to improve their classroom performance or withdraw by the eighth week. Instructors are encouraged to provide mid-term alerts for all other courses.

Morris Academic Alert allows faculty and staff to provide alerts at multiple times throughout the semester for greater support for students.

Academic alerts are not recorded on transcripts. The provision of academic alerts is a courtesy to the student. Failure to receive an alert does not create the right for a student to contest a grade in a course.

More information on Morris Academic Alert is available at [www.morris.umn.edu/academicalert/](http://www.morris.umn.edu/academicalert/).

The University of Minnesota mid-term alert policy is available at [www.policy.umn.edu/Policies/Education/Education/MIDTERMACADPERFORMANCE.html](http://www.policy.umn.edu/Policies/Education/Education/MIDTERMACADPERFORMANCE.html).

**Exemption From Regulations**

Students having difficulty meeting academic regulations should contact the Advising Office, 320-589-6178, for information regarding petitioning the Scholastic Committee.

The Scholastic Committee acts on exceptions to requirements in the General Education Requirements (GER) and to policies governing grading, cancel/add, and credit limits. For exceptions in the major, students should consult discipline faculty.

**Academic Grievance Procedures**

Students with complaints about an instructor or criticisms about course content, procedures, or grading should, in almost all instances, bring the matter directly to the instructor. Where this is clearly inappropriate or when such action does not bring about a mutually satisfactory solution, the student should take the problem to the chairperson of the division administratively responsible for the course (see the [Academic Division Structure](#) section). The chairperson will attempt to resolve the matter informally. Grievances involving an instructor’s judgment in assigning a grade based on academic performance may be resolved only through this informal resolution procedure. Student academic complaints regarding the University’s provision of education and academic services affecting their role as students must be based on a claimed violation of a University rule, policy, or established practice and should first involve an attempt to resolve the matter informally. Decisions of the division chairperson can be appealed to the vice chancellor for academic affairs and dean. There will be no appeals beyond the vice chancellor for academic affairs.

Students may bring academic complaints regarding the University’s provision of education and academic services affecting their role as students. Such complaints must be based on a claim that there has been a violation of a University rule, policy, or established practice. Morris
procedures for handling student academic complaints are available through the Morris Office of the Vice Chancellor for Academic Affairs and Dean. Resolution of complaints under this policy may include reinstatement or corrective action for the benefit of the student, including refunds, but may not award monetary damages or direct disciplinary action against any employee of the University. Other issues, such as concerns related to University employment and University admissions decisions, do not fall under the student academic complaints policy. This policy does not limit the University’s right to change rules, policies, or practices related to the provision of academic services and education.

Equal Opportunity
The University of Minnesota shall provide equal access to and opportunity in its programs, facilities, and employment without regard to race, color, creed, religion, national origin, gender, age, marital status, disability, public assistance status, veteran status, sexual orientation, gender identity, or gender expression.

Inquiries regarding compliance may be directed to:

- **U of M Office of Equal Opportunity and Affirmative Action**
  274 McNamara Alumni Center, 200 Oak Street S.E.
  Minneapolis, MN 55455
  612-624-9547
  Website: [www.eoaffact.umn.edu](http://www.eoaffact.umn.edu)

- **Morris Office of Human Resources/Equal Opportunity and Affirmative Action**
  306 Behmler Hall, 600 East 4th Street
  Morris, MN 56267
  320-589-6024
  Website: [www.morris.umn.edu/services/hr/EqualOpportunity.html](http://www.morris.umn.edu/services/hr/EqualOpportunity.html)

Students may seek confidential assistance from student counseling:

- **Student Counseling**
  235 Behmler Hall, 600 East 4th Street
  Morris, MN 56267
  320-589-6060

Faculty and staff may seek confidential assistance from the Employee Assistance Program:

- **Steven’s Community Medical Center**
  Behavioral Medicine
  400 East 1st Street,
  Morris, MN 56267
  320-589-1313

Please contact Morris Campus Police immediately if a crime has been committed at 320-589-6000.

Disability Accommodation
Student disability accommodations are coordinated through Disability Services in the Office for Academic Success, see page 49.

For faculty, staff, and other disability accommodations or to request these materials in alternative formats, please contact Morris Office of Human Resources/Equal Opportunity and Affirmative Action, 306 Behmler Hall, 600 East 4th Street, Morris, MN 56267, 320-589-6024.

The Director of the Office for Academic Success/Disability Services Director serves as UMM’s Americans With Disabilities Act (ADA) Compliance Officer, 362 Briggs Library, 320-589-6178 or dsoaac@morris.umn.edu.

Bias Incidents
Members of the University of Minnesota community have the right to be free from discrimination by any agent or organization of the University for reasons of actual or perceived race, color, creed, religion, national origin, gender, age, marital status, disability, public assistance status, veteran status, sexual orientation, and/or gender identity or gender expression. The University of Minnesota, Morris does not tolerate such incidents and will seek resolution of such matters.

Any student, acquaintance of a student, or group within the University community who has experienced bias, discrimination, or hostility, should report it by completing the University Bias/Discrimination/Harassment Reporting form at [www.eoaffact.umn.edu/services/biasreportform.html](http://www.eoaffact.umn.edu/services/biasreportform.html).

Title IX Compliance
Title IX is a federal law* that states: “No person in the United States shall, on the basis of sex, be excluded from participation in, be denied the benefits of, or be subjected to discrimination under any education program or activity receiving federal financial assistance.”

- Title IX forbids sex discrimination in access to or delivery of any university student service or academic and non-academic program.
- Title IX forbids sex discrimination in all recruitment and employment decisions and actions.
- Title IX protects all students from sexual harassment connected to any university program, service or activity regardless of location and/or by any university employee, another student or a non-employee third party.

Services, programs and activities include, but are not limited to, admissions, financial aid, academic advising, housing, athletics, recreational services, extracurricular opportunities, classroom assignments, grading, discipline, and co-curricular offerings.

The Morris Title IX Compliance Officer is the Director of Human Resources/EOO Officer, 306 Behmler Hall, 600 East 4th Street, Morris, MN 56267, 320-589-6024.

*The federal law prohibiting sex discrimination in educational institutions is Title IX of the Educational Amendments Act of 1972 (amending the Higher Education Act of 1965). This act is codified as Title 20, United States Code, Chapter 38, Sections 1681-1686. The
act was also amended by the Civil Rights Restoration Act of 1987 ("Title IX").

Student Code of Conduct, Academic Integrity, and Disciplinary Procedures
The Board of Regents has adopted a University-wide Student Conduct Code that specifically prohibits scholastic dishonesty; disruption of the academic environment; falsification; refusal to identify and comply; attempt to injure or defraud; harm to person; bullying; sexual assault; disorderly conduct; illegal or unauthorized possession or use of weapons; illegal or unauthorized possession or use of drugs or alcohol; providing alcohol to minors; unauthorized use of University facilities and services; theft, property damage, or vandalism; unauthorized access; disruptive behavior; hazing; rioting; violation of University rules; violation of federal or state law; and persistent violations.

The Student Conduct Code is available through the University Policy Library at www.umn.edu/regents/policies/academic/Student_Conduct_Code.html.

The Morris Campus Assembly has enacted procedures for the Morris campus, governed by the Committee on Academic Integrity and Student Behavior Committee.

Student Behavior Committee
Disciplinary Action
On the Morris campus, formal disciplinary action is the responsibility of a faculty-student committee of the Campus Assembly. The constitution of the University of Minnesota, Morris makes explicit the role of the Student Services Committee in oversight, consistent with the regents policy, of student conduct processes on the Morris campus. To meet these responsibilities, each year the chair of the Student Services Committee appoints a Student Behavior Committee consisting of three students and three faculty. One of the three faculty serves as a voting chair. A nonvoting administrative secretary is appointed by the chancellor.

Administrative Disciplinary Action
It is desirable that some instances of student misconduct be settled directly within the appropriate administrative unit. These persons and agencies investigate allegations of misconduct and work with the concerned parties to reach an administrative resolution of the dispute whenever possible. If at any time the accused party requests a formal hearing process, the issue can be referred to the Student Behavior Committee. Where disciplinary action taken by administrative units is involved, the student can appeal decisions to the Student Behavior Committee.

Student Academic Integrity
Scholastic honesty is of fundamental importance to the functioning of any community of scholars. Although the pursuit of knowledge is always a communal project, individual academic achievement must be the result of a person’s own efforts and abilities. Members of an academic community are responsible for their own personal and academic development and for fostering an academic climate in which all members draw from and give back to the community. The University is charged with implementing those policies that will help bring about such an academic climate. However, the ultimate responsibility for creating a community of scholars, in which mutual self-respect flourishes, lies with the individual members of the community. Each member must, therefore, act according to the highest standards of academic honesty.

Academic honesty entails producing original work, accurately attributing authorship, and acknowledging the work of others, including the work of collaborators, when appropriate. Academic honesty extends to behavior that supports the academic honesty of others. The integrity of an academic community demands that students and faculty alike display honesty, trust, fairness, respect, and responsibility.

The maintenance of academic integrity is a joint student and faculty responsibility. The procedures in the link below apply to all academic work pursued at the University, including work submitted to fulfill course requirements (both in-and out-of-class work), as well as independent academic endeavors. These include but are not limited to in-class examinations, quizzes, tests, laboratory tests, reports, laboratory reports, “take-home” examinations, research projects, papers, art work, internships, and assistantships. It is incumbent upon course instructors assigning work to be submitted in fulfillment of course requirements to explain, either verbally or in the course syllabus, what constitutes academic dishonesty and plagiarism. Any special conventions regarding quotation, paraphrasing, footnoting, use of outside materials, collaboration, and related matters shall be carefully explained by the instructor.

Procedures for academic integrity violations are available at policy.umn.edu/Policies/Education/Student/STUDENTCONDUCTCODE_PROC03.html.

**Academic Information**

Morris is committed to providing as many learning opportunities for students as possible. The faculty are dedicated not only to teaching, but also to research, writing, creative work, and involvement in state, regional, national, and international professional organizations. Many encourage student collaboration on research projects, and Morris students may have opportunities to coauthor scholarly articles or papers with faculty. Morris offers 33 majors as well as areas of concentration (self-designed majors), interdisciplinary, and preprofessional programs. Programs and courses in education, the humanities and fine arts, the social sciences, and science and mathematics provide an excellent background for any major. Students can complement their coursework through the Honors Program, study abroad, internships, field trips, and directed studies. In addition, many lectures, concerts, films, and special programs are offered on campus to enhance the educational experience. Helping students make the most of their education is Morris's primary goal. Morris's programs challenge students to think critically, make decisions wisely, develop their creativity, and increase their awareness of the world around them.

**Program Planning**

Students are responsible for planning programs that will satisfy their own educational and professional goals. Academic advisers, faculty, Career Center, Student Counseling, and Academic Advising staff are available to assist with program planning, and students should seek this assistance to assure well-organized and balanced programs of study as well as to avoid planning errors. In preparing their programs, students should use both this version of this catalog in conjunction with the online planning materials available on the Academic Advising website at [www.morris.umn.edu/registrar/](http://www.morris.umn.edu/registrar/).

This catalog was published in March 2013. Links to the most current information about major requirements and courses can be found in the online catalog at [www.catalogs.umn.edu/morris](http://www.catalogs.umn.edu/morris).

**Credits**

Information on workload expectations assists students in understanding the necessary time to allocate for their courses. Outlining workload expectations also allows for greater consistency across the curriculum, as well as identifies areas where the expectations are not necessarily applicable due to the nature of the course being taught. This is outlined in the University policy, "Instructional Time per Course Credit" at [www.policy.umn.edu/Policies/Education/Education/INSTRUCTIONALTIME.html](http://www.policy.umn.edu/Policies/Education/Education/INSTRUCTIONALTIME.html).

Each credit represents an average of three hours a week of a student’s time and effort, with one hour in class, two hours of preparation, or three hours of laboratory work, for example.

A student with fewer than 30 completed credits is classified as a freshman; 30 to 59 completed credits, a sophomore; 60 to 89 completed credits, a junior; 90 completed credits or more, a senior.

At least 120 credits are required for graduation. Students must complete at least 15 credits per semester on average to graduate within four years. The University expects most undergraduate students to complete their degree within four years.

**Maximum Credits for Registration**

The maximum number of credits per semester for which a student is allowed to enroll without approval is 20. Scholastic Committee approval is required for a student to enroll for 20.5 or more credits in a semester. The registrar, on behalf of the Scholastic Committee, acts on petitions from students to register for more than 20 credits.

**APAS—Academic Progress Audit System**

The Academic Progress Audit System (APAS) is a tool for both students and advisers. The report provides progress information towards general education requirements, majors or major/minor requirements, and degree completion. Students cannot graduate until all degree requirements listed on APAS are completed. APAS is the “Document of Record” used to certify completion of the degree. Students are encouraged to review their APAS online:

- prior to registering to review which requirements need to be completed
- after registering to confirm that new classes meet requirements
- when grades are posted to review courses counting toward graduation
- to explore majors by using the “what if” option
- regularly to confirm graduation requirements are completed, especially during the senior year

APAS reports and information on how to read them are available online at [www.morris.umn.edu/registrar/apas/](http://www.morris.umn.edu/registrar/apas/).

**Graduation Planner**

Graduation Planner is an online academic planning tool that allows students to explore degree requirements, plan courses, and create customized plans that help them stay on track for graduation. Advisers are able to view student plans using “My Active Advisees” and provide feedback. The goal of Graduation Planner is to simplify the degree planning process and stimulate meaningful interaction with advisers. The Graduation Planner works together with APAS to help students plan for graduation in a timely manner and to explore a variety of majors, minors, and/or licensure
programs. Information about the Graduation Planner can be found at plan.umn.edu/. Advisers may view Graduation Plans and APAS reports for their advisees using “My Active Advisees.”

Schedule Builder
A new program called Schedule Builder is available to create customized class schedules for use during registration. The program takes into account desired courses, personal preferences, and a target number of credits.

Student Academic Support
The Student Academic Support offices and services at Morris are dedicated to promoting academic development, enrichment, and success for Morris students beginning when students commit to Morris and continuing beyond graduation. The coalition of offices are physically located near each other to encourage student interaction with each. These offices include:

- The Office for Academic Success, which includes the Academic Assistance Center and Disability Services;
- Academic Advising, Retention, and Academic Center for Enrichment (ACE)
- Career Services

Office for Academic Success
362 Briggs Library
320-589-6178
The Office for Academic Success includes both Disability Services and Academic Assistance Center services for students seeking academic assistance; tutoring; and accommodations for students with physical and various learning, health related, autism/Asperger, cognitive and/or psychological disabilities.

Academic Assistance Center
The services provided by Morris’s Academic Assistance Center (AAC) help students achieve their academic goals, whatever they might be. AAC programs are available free of charge to all students at Morris. The AAC collaborates with various disciplines to provide peer tutors for many courses offered at Morris. The AAC also offers drop-in study rooms, appointment based tutoring, Peer Assisted Learning study groups, academic consultation and counseling, and academic skills courses. Staff also instruct the Mastering Skills for College Success course, which teaches academic strategies. Students can receive academic counseling on specific topics, such as time management and reading efficiency. Students who are not native English speakers also can receive assistance and support at the AAC.
Visit the AAC website at www.morris.umn.edu/academicsuccess.

Disability Services
Students with disabilities receive personal attention and are accommodated on an individualized basis to best serve their academic needs. Disability Services provides support for students with physical and various learning, health related, cognitive, autism/Asperger, and/or psychological disabilities. Disability Services staff work with students to ensure that they receive appropriate accommodations and learn self-advocacy skills.

Students with disabilities are accommodated through a variety of means such as alternate print formats, alternate testing, note-takers, building orientation, classroom relocation, technology, priority registration, sign language interpreters, and books in audio format.

Students with disabilities are responsible for providing documentation and requesting accommodation far enough in advance for accommodations to be made. Visit the Disability Services web page for more information at www.morris.umn.edu/academicsuccess.

Academic Advising, Retention, and Career Services
10 Student Center
320-589-6010

Academic Advising
The mission of the Academic Advising program is to promote and support student learning by providing opportunities for personal and academic growth through quality activities and resources for both students and faculty. Advising by faculty is considered an integral part of Morris’s central mission. Connections between students and faculty outside the classroom contribute to a successful educational experience.

Academic Advising is responsible for coordinating the advising program. Adviser assignments are based on students’ particular needs and academic interests. Faculty advisers help with academic planning, encouraging students to pursue their interests within the liberal arts. First- and second-year students are required to discuss their course selections with their advisers each semester. Students must prepare an academic plan: freshmen for their sophomore year and sophomores for their final two years. Advisers can help students enhance their college experience by clarifying academic goals, talking through ways to meet requirements, and considering the effects of their choices on preparing for a career or graduate school. Students also work with advisers to plan academic enhancement opportunities such as study abroad, internships, and research projects. For more information, visit www.morris.umn.edu/academic/advising.

Advisers have expertise in helping students plan their general education requirements and courses for the major.
They can provide important information about career preparation or further study. Students are encouraged to change advisers as their interests change. Contact Academic Advising any time to arrange to have a different adviser assigned.

It is not uncommon for students to begin college undecided about their major or to change majors after they begin. Assistance to students who are deciding on a major is available through individual appointments, Academic Advising’s online program, Career Services resources, and interest inventories available through Student Counseling. Students are encouraged to work with their advisers to consider options and how they relate to careers.

**Retention**

10 Student Center
320-589-6048

The Retention Office works with various offices, faculty, and students creating partnerships to instill and facilitate a culture of retaining and graduating students. Among other duties, the retention coordinator facilitates Academic Alert, works with internal surveys and national data, conducts student exit interviews and surveys, and intervenes with individual students. The retention coordinator is a resource for faculty concerned about students who may be having trouble finishing graduation requirements, thinking about transferring or dropping out of college, or other issues that may impact success.

**Career Services**

110 Library
320-589-6065

Career Services offers a variety of career planning, field experience education, and job and graduate/professional school transition services. These services are available to both current students and alumni who need assistance in establishing career planning and job search strategies.

Career planning activities offer the opportunity to evaluate skills, values, and interests that affect career decision making. Career planning may include personal counseling, exploring the Career Resource Library, occupational testing, and participation in life/work planning, career fairs, and outreach groups.

Field experience education at Morris is offered through an internship program. Internships provide the opportunity to earn credit for study and work in one’s chosen field. Morris has established internships in business, counseling, public relations, television and radio production, social work, public administration, computer programming, education, scientific research, and many other fields.

Career transition services assist students and alumni in seeking employment or admission to graduate or professional schools. These services include providing information about job vacancies in education, government, business, and industry; arranging on- and off-campus interviews between employers and candidates; collecting and maintaining current information about salary and employment trends; and offering assistance with résumé and letter writing, job search, and interviewing techniques.

For more information, visit [www.morris.umn.edu/services/career](http://www.morris.umn.edu/services/career).

**The Academic Center for Enrichment**

5 Student Center
320-589-7014

The Academic Center for Enrichment (ACE) offers guidance and information for students interested in expanding their academic and intellectual experiences beyond the traditional classroom. The ACE office coordinates the following enrichment programs: study abroad, honors, national scholarships, National Student Exchange, and many of Morris’s undergraduate research opportunities. All Morris students are eligible to participate in these academic enrichment activities and the ACE office works to increase student awareness of these opportunities. Students who are Morris Scholars work with the ACE staff to explore opportunities that are supported by their stipends. The ACE office is staffed by faculty advisers who are available to answer student questions and help students identify which enrichment programs fit their interests. For more information on any of the programs below, visit the ACE website at [www.morris.umn.edu/ACE](http://www.morris.umn.edu/ACE).

**Honors Program**

The Honors Program is an opportunity for Morris students to pursue an interdisciplinary curriculum and work toward graduation “with honors.” All Morris students are eligible to participate in the Honors Program. Typically, students apply to the program in the spring semester of their freshman year and begin coursework in their sophomore year, but other timetables are possible. While everyone may apply, academic success in the fall semester, faculty recommendations, and a short essay may be used to limit admission to those students with the proven motivation and likely ability to succeed in the program. Applications are available at the Academic Center for Enrichment, 5 Student Center. Students wishing to register for an honors course must be enrolled in the Honors Program. If seats remain in an honors course at the end of registration, non-honors students may enroll with the permission of the instructor. To graduate with honors, participants must 1) complete IS 2001H—Honors: Traditions in Human Thought, usually in the fall of their sophomore year; 2) complete 8 elective credits in the Honors Program at Morris; 3) successfully complete an interdisciplinary honors capstone project; and 4) have an overall Morris GPA of 3.50 or higher upon graduation. To qualify for a degree with honors, a student must have completed 60 or more semester credits at the University. One Honors course may be taken S-N with pre-
approval from the Director of Honors. A student may petition the Director of Honors to transfer up to two honors credits earned at another institution as elective credits in the Morris Honors Program.

Honors courses are limited to a class size of 18. The elective courses examine a particular topic from an interdisciplinary perspective. The courses are often team-taught by faculty from different Morris academic divisions and concern subjects of special interest to the faculty who design them. Two of the 8 required honors elective credits may be earned through an Honors Co-Curricular Independent Project (IS 3991H). This is an interdisciplinary, independent project related to a unique co-curricular opportunity such as study abroad, an internship, or mentored research. Students pursuing this option must secure pre-approval from the Director of Honors and the Dean before embarking upon the proposed project.

The honors capstone project is a substantial scholarly or creative work that demonstrates students’ intellectual engagement and their ability to articulate and defend their choices regarding methodology and subject matter before a panel of three faculty members from different disciplines, including the project’s adviser. It is the responsibility of the student to secure a project adviser, identify two other faculty panelists in consultation with the project adviser, and register for at least two credits of IS 4994H—Honors Capstone Project. The project defense must occur before the end of the last week of classes in a given semester.

National Scholarships
Morris encourages eligible students to apply for prestigious national scholarships, including the Rhodes, Fulbright, Truman, Marshall, Mellon, National Security Educational Program (NSEP), Gates-Cambridge, Jack Kent Cook, Udall, and others. These academic scholarships cover a wide range of fields and assist in the pursuit of graduate and/or professional study as well as career development. They also typically carry a generous stipend or financial award. Public information sessions are periodically held on campus for students to learn more about these scholarships, including eligibility requirements and application procedures. A team of faculty and staff advisers mentors students in the complex and highly competitive application process.

National Student Exchange
Morris is a member of the National Student Exchange (NSE). NSE is an undergraduate exchange program within the United States and Canada. With more than 175 colleges and universities participating in NSE, students have a wide variety of courses, programs, facilities, and environments to meet diverse academic and personal needs and interests. Students may participate in an exchange with another NSE college or university for a semester or a year.

Study Abroad
Morris is committed to preparing students to become global citizens and to deepening their understanding of world issues. Because firsthand knowledge of other societies and cultures builds international awareness, Morris encourages students to study abroad as part of their academic program.

The ACE office and study abroad adviser provide international study, work, and travel information for students. In addition to consulting with ACE advisers and reviewing guides on foreign study and travel, students are encouraged to meet with the study abroad faculty adviser in their major to discuss study abroad options relevant to specific disciplines.

As a part of the University system, Morris students have access to an especially broad range of programs all over the world. These programs are offered by Morris, other campuses of the University, and other colleges and universities nationwide. Most Morris federal and state financial aid is available for study abroad and scholarships are offered by the University and nationally specifically targeted for study abroad.

Undergraduate Research Opportunities Program (UROP)
The Undergraduate Research Opportunities Program (UROP) is a competitive, merit-based program throughout the University of Minnesota that offers financial awards to undergraduates for research, scholarly, or creative projects undertaken in partnership with a faculty member. Students may apply for awards twice a year. UROP awards include stipends (up to $1,400) and expense allowances (up to $300). All full-time undergraduates at Morris are eligible to apply. All Morris faculty may serve as UROP sponsors.

Undergraduate Research Symposium
The Morris Undergraduate Symposium (URS) is a one-day, all-campus conference held each spring during which students from across the campus are invited to present their original research, creative and scholarly work for their peers and the wider community. All Morris students are eligible to participate and acceptance into the symposium is competitive.

Morris Academic Partners (MAP)
Morris has established a program for advanced students called Morris Academic Partners (MAP). Receiving a stipend, Morris Academic Partners undertake assignments that enhance their intellectual competence and increase their interest in graduate or professional study. Projects involve assisting faculty and professional staff in their research and/or teaching and are more complex than typical work-study assignments. Students entering their third year of study are nominated by faculty for a Morris Academic
Partnership and are named by the appropriate division chairperson with the concurrence of the dean. Further information about the MAP program may be obtained from the Office of the Vice Chancellor for Academic Affairs and Dean, 315 Behmler Hall; online at www.morris.umn.edu/services/acad_affairs/mapguide.html.

Morris Student Administrative Fellows
The Morris Student Administrative Fellows program is designed to enable academically talented, qualified students to assist administrative or faculty offices with administrative and managerial projects. Students undertake assignments intended to enhance their intellectual competence and increase their interest in graduate or professional study. The program pays a stipend directly to the student’s financial aid account. Further information about the Morris Student Administrative Fellows program may be obtained from the Office of the Vice Chancellor for Academic Affairs and Dean, 315 Behmler Hall; or online at www.morris.umn.edu/services/acad_affairs/MSAPP_Guidelines.html.

Multicultural Mentorship Program
The Multicultural Mentorship Program is an opportunity for second-year students from underrepresented backgrounds or students who are working on a project that focuses on social justice issues or intercultural competence. Students selected for MMP work with Morris faculty and/or staff on a year-long project and/or research endeavor. A yearly stipend of $1,000 (paid in two installments at the end of each semester) is awarded to selected students for work supervised by their mentors. Further information about the Multicultural Mentorship Program may be obtained from the Multi-Ethnic Student Program Office, 110 Multi-Ethnic Resource Center.

Directed Study and Internships
The term “directed study” refers to those on- or off-campus learning experiences individually arranged between a student and a faculty member for academic credit in areas not covered in the regular curriculum. Directed study courses (with 1993, 2993, 3993, or 4993 course numbers) should be arranged before the term begins, but may be added to the registration later up to and including the last day of classes. While registration can occur later in the term, note that the financial aid deadline for awarding aid based upon enrolled credits is the 10th class day of the term. Morris sets the maximum credit limit per student for directed studies at 10 credits. An “internship” is a supervised opportunity to apply academic learning at a field site. It is arranged between a student, an on-site supervisor, and a University faculty member. Morris sets the maximum credit limit per student for internships at 32 credits. For more information about finding an internship, contact the Career Center at 320-589-6065. Directed study and internship offerings include the following courses:

- **Discipline Directed Study**—1993, 2993, 3993, 4993 (1–5 cr per semester)
- **Interdisciplinary Directed Study**—IS 1993, 2993, 3993, 4993 (1–5 cr per semester)
- **Helping Profession Internship**—IS 3796 (1–16 cr per semester)
- **Interdisciplinary Internship**—IS 3996 (1–16 cr per semester)
- **Prior Learning Directed Study**—IS 3893 (1–4 cr per semester)
- **Prior Learning Internship**—IS 3896 (1–16 cr per semester)

A special Directed Study Approval form or Internship Approval form and Learning Contract are required for registration. These forms, available at the division offices or online, essentially establish a contract between the student and the supervising faculty member. The contract includes a statement of the objectives of the project, the methods to be employed, and the procedures for evaluating the project.

In addition to faculty evaluation, student evaluation of the project is mandatory. When the work of the project is completed, the faculty member will provide the student with an evaluation questionnaire, which is part of the approval form. The student completes the questionnaire and delivers it to the Office of the Vice Chancellor for Academic Affairs and Dean. The faculty member may not submit a grade until the student’s evaluation of the project has been completed.

May Session
May session is a three-week term—scheduled after spring semester ends—that is part of the larger summer term at Morris. It is designed to offer unique courses especially suited to a short, intense time frame. Courses include, but are not limited to, short-term domestic and international study programs; topics that are innovative, experimental, interdisciplinary, and examined in greater depth; or special internships. Course offerings and enrollment requirements are determined by the Morris Summer Session Office.

 Majors Offered
The University of Minnesota, Morris offers the following majors:

- American Indian Studies
- Anthropology
- Art History
- Biology
- Chemistry
- Communication, Media, and Rhetoric
- Computer Science
- Economics
- Elementary Education
- English
Environmental Science
Environmental Studies
French

Specific requirements for Morris majors are listed in the Academic Division Structure and Program and Course Descriptions sections of this catalog. Completion of a given major, however, usually involves fulfillment of more than the minimum requirements. Once a student has selected a major, she or he should seek the counsel of a faculty member in the discipline to plan a well-organized and balanced program.

Often students enter college undecided about their major. General education requirements, many of which are completed during the first two years, introduce students to disciplines from which they choose a major.

Individualized Majors ("Areas of Concentration")

Students may choose to complete an area of concentration. This is an individualized, often interdisciplinary, group of courses that meets the requirements for a major. Examples of previously approved areas of concentration include: actuarial science, American studies, animal behavior, art therapy, biostatistics, digital media studies, forensic science-biochemistry emphasis, forensic science-biology emphasis, forensic science-chemistry emphasis, international studies, world languages, and peace studies. Students must fill out the appropriate forms and request final approval. Area of concentration forms are available online at www.morris.umn.edu/services/acad_affairs/aavarious.html#area concentration.

Teacher Education

The requirements for teacher education programs are listed in the Academic Division Structure and Program and Course Descriptions sections of this catalog. These programs are selective. An admission process must be completed for entry into either the elementary or secondary education programs.

Students who intend to pursue licensure as an elementary or secondary school teacher should contact the Division of Education as early as possible in their college career.

Both education programs are state and nationally accredited. They follow a model in which students progress through coursework and field experiences as a cohort. Programs are highly interactive and reflective. They emphasize the integration of theory and practice, leadership, diversity, and technology. State and national standards are met through developmental, constructive, and collaborative programs.

Preparation for Professional Degrees in Other Colleges

Undergraduate liberal arts coursework is required for admission to professional schools in fields such as engineering, pharmacy, law, and medicine. Students on the Morris campus have the opportunity to complete a broad range of liberal arts courses that prepares them to apply for admission to various professional schools at the University of Minnesota and other prestigious universities across the nation.

Morris advisers work with students on a regular basis to plan an academic program that supports the student’s academic interests and goals. The Academic Advising Office provides detailed guides to preparatory coursework at Morris that is recommended by the University of Minnesota professional schools. In addition, professional school catalogs, the best source of information about requirements, are available online at www.catalogs.umn.edu.

It is recommended that students who intend to apply for professional programs at the bachelor’s degree level complete the Morris degree requirements. Many students change their educational objectives during the course of study in preparation for a professional school, in which case the credits earned can be applied toward Morris graduation requirements. Admission to professional programs is highly competitive and applicants may be competing against others who have already earned bachelor’s degrees or have at least three years of preparation before they apply. Simply completing the minimum preparation requirements does not guarantee admission.

Students are urged to consult the catalog of the professional school they plan to attend for information about the admission requirements, application deadlines, and procedures. Most professional schools require a minimum GPA, a satisfactory score on a standardized aptitude test, and letters of recommendation. Online and self-study courses related to the health sciences offered
through the University of Minnesota, Twin Cities are also available to Morris students. Morris offers preparatory coursework, either as the full program of the bachelor of arts degree or as preliminary courses, for the following professional schools of the University of Minnesota:

- Dentistry
- Engineering
- Law
- Medicine
- Nursing
- Pharmacy
- Physical Therapy
- Veterinary Medicine
- Dentistry

**Dentistry**

Students planning to earn the doctor of dental surgery degree at the School of Dentistry on the Twin Cities campus must complete a minimum of 87 semester credits in a liberal arts curriculum emphasizing biology, chemistry, organic chemistry, biochemistry, mathematics, physics, and applied psychology for admission to the professional program. The majority of students entering the program have completed four or more years of college and a bachelor's degree. Admission is very competitive. The average entering GPA for the 2011 class was 3.6 (overall) and 3.54 (science-based courses). Specific requirements can be viewed at [www.dentistry.umn.edu/](http://www.dentistry.umn.edu/).

Students seeking admission to the School of Dentistry must apply through the Associated American Dental Schools Application Service (AADSAS) by December 1. Information and registration for the Dental Admission Test (DAT) are available online at [www.ada.org](http://www.ada.org). Scores from the DAT are required as part of the application and must be submitted to the School of Dentistry by December 1 of the academic year preceding the fall term in which enrollment is sought. The supplemental School of Dentistry application deadline is also December 1 and the application is available in early June. Applications are considered on a rolling basis, so students are encouraged to apply early by September 1.

**Engineering**

Students at Morris can pursue the study of engineering programs including aerospace and mechanics, biomedical, biobased products and bioystems, chemical, civil, computer, electrical, geological, industrial and systems, materials science and engineering, and mechanical engineering through any of three established paths. 1) A dual-degree program, formally arranged with the University of Minnesota, Twin Cities (UMTC), provides the opportunity for students to earn a bachelor of arts from Morris and a bachelor of science degree from the UMTC. 2) A pre-engineering curriculum option allows students to attend Morris for two years, taking the mathematics, chemistry, physics, computer science, and composition courses required in engineering programs and then transfer to UMTC. 3) Students considering an advanced degree in engineering can complete a bachelor of arts degree in one of the sciences at Morris and then enroll in a graduate engineering program at UMTC or elsewhere. Each of these options is described below.

**Dual-Degree Program**

Students in the dual-degree program take courses for three years at Morris and two years from the College of Science and Engineering (CSE) on the Twin Cities campus. While at Morris, students can major in mathematics, physics, chemistry, or statistics; choose electives; and complete the Morris general education requirements. Students then apply for transfer to CSE. Admission is based on completion of appropriate courses and the student's technical GPA which is calculated from grades in math, chemistry, computer science, calculus-based physics and calculus-based statistics. Most successful applicants to CSE have a 3.2 GPA or higher. Each student should work closely with a faculty adviser to identify which Morris major and CSE engineering program best fit together to match the student's interests and specific program requirements. Students who successfully complete the program earn a bachelor of arts degree from Morris and a bachelor of science degree from CSE.

**Pre-Engineering Program**

The pre-engineering program is a well-articulated arrangement with the University of Minnesota College of Science and Engineering in which students attend Morris for two years, taking the core mathematics, physics, chemistry, computer science, and composition courses that are the standard preparatory courses for the CSE engineering programs. Since the course requirements do vary slightly from one engineering program to another, each student should work closely with a faculty adviser in the selection of both required and elective courses. (Many students choose electives that satisfy the general education requirements of both Morris and CSE so that they have the option of graduating from Morris rather than transferring.) After two years at Morris, students can transfer to CSE. Most successful applicants have a technical GPA of 3.2 or higher. Secondary factors include cumulative GPA and grade trends. Students can complete a bachelor of science in engineering within two to three years after their transfer.

**B.A./Graduate Degree Program**

A bachelor of arts degree in one of the basic sciences is excellent preparation for a graduate degree in engineering. It is not necessary to have an undergraduate degree in engineering to enroll in an engineering graduate program either at the University of Minnesota or elsewhere. At the University of Minnesota, a student with a bachelor of arts in one of the basic sciences can usually complete a master of science in engineering in two years. A doctorate degree takes several more years.
Law
A bachelor’s degree is required for admission to law school, but no specific preparatory program or major is prescribed. Students are advised to plan a rigorous liberal arts bachelor’s program that provides a broad background in the humanities, mathematics, sciences, and social sciences. Students should select an academic major based on their special area of interest and abilities to ensure a depth and breadth of knowledge in one field. They are also encouraged to take courses that require independent thought and writing, including work in other languages, and to develop effective skills in oral and written expression through coursework or activities.

The University of Minnesota Law School is noted for its exceptional and accessible faculty and a highly competitive admissions process that results in highly credentialed students. A strong scholastic record and scores from the Law School Admission Test (LSAT) are key factors for admission. Various factors such as work experience; career goals; positions of leadership; racial, ethnic, or economic backgrounds; and public service are also considered.

All applicants must first register online with the Credential Assembly Service (CAS). The service acts as a repository for the student’s application, academic transcripts, LSAT test scores, and letters of recommendation. Other required materials include a personal statement, a resume highlighting extracurricular activities and community service, and an application fee.

Applicants should register with the CAS and take the LSAT at least six weeks before the April 1 application deadline. Students are encouraged to apply as early as September 1; admission is on a rolling basis. Normally applicants take the LSAT in December of their senior year in college. LSAT/CAS information and applications are available in Student Counseling and online at www.lsac.org.

Medicine
Students planning to enter a school of medicine must complete a bachelor’s degree before admission. Required premedical courses in the bachelor’s degree program include biology, chemistry, physics, psychology, and sociology. The three Minnesota medical schools are the University of Minnesota Medical School in Minneapolis, the University of Minnesota Medical School in Duluth, and the Mayo Medical School in Rochester. Requirements of the various medical schools vary and change frequently.

Admission is extremely competitive. First-year Morris premedical students should check the websites of the schools they are interested in and work closely with their faculty adviser and the Morris pre-medicine advising committee. Students who wish to enter medical school directly after graduating should begin application procedures for medical school during their junior year.

All three Minnesota medical schools use the American Medical College Application Service (AMCAS). The AMCAS application should be submitted online during the summer of the year of application.

Medical school applicants are required to take the Medical College Admission Test (MCAT). Students must take the MCAT no later than September 30 of the year they wish to apply. Registration materials and more information about MCAT can be found at www.aamc.org/students/applying/mcat/ and at Student Counseling.

Nursing
Students at Morris who are interested in a career in nursing have several options to consider when planning their academic programs. Both options are highly competitive and require careful planning to insure that they take the prerequisite courses necessary to meet admission requirements.

Pre-Nursing
Students planning to apply for transfer into a bachelor of science in nursing (BSN) program at any of the several universities in Minnesota that offer the degree need to first complete required courses in biology, chemistry, composition, nutrition, psychology, and statistics. Because these requirements vary, it is important for students to consult early with the admissions offices at the specific schools to which they plan to apply. The Morris community provides numerous opportunities to gain work experience in the healthcare field and this may be important in the admissions process. The length of BSN programs varies from two to three years following completion of the prerequisite coursework. Because admission to these programs is very competitive, students are encouraged to apply to multiple programs.

B.A./Graduate Degree Program
For greater flexibility, students may also consider finishing their bachelor of arts degree in a non-nursing major, such as biology, chemistry, or psychology at Morris, then applying to the master of nursing program at the University of Minnesota, Twin Cities. This 16-month program gives the student eligibility to become a licensed registered nurse (RN). Successful applicants have completed prerequisite courses in chemistry, human anatomy and pathology, microbiology, lifespan psychology, and statistics, combined with a strong liberal arts background. Admission is highly competitive. Most successful applicants have work experience beyond their bachelor’s degree. For more information, students should contact the University of Minnesota School of Nursing. In addition, many other universities offer post-bachelor nursing programs and master’s programs in nursing and students are encouraged to look beyond the University of Minnesota, Twin Cities for additional opportunities in this field.
Pharmacy
Students planning to apply to the University of Minnesota College of Pharmacy (Twin Cities or Duluth) must complete specific general education coursework, including composition, biology, chemistry, mathematics, physics, economics, behavioral sciences, philosophy/ethics, and public speaking. A completed bachelor’s degree is preferred (less than 20% of accepted students do not have a degree). Applicants who have a PharmCAS GPA* of 3.0 or 3.2 over the most recent 60 credits earned or 70% composite PCAT score are eligible to apply. (*See www.pharmcas.org for specific GPA requirements.) Students must also take the Pharmacy College Admission Test (PCAT) no later than January in the year they apply for admission. More information about the PCAT exam can be found at www.pcatweb.info and at Student Counseling.

The criteria used to evaluate and select applicants for admission include the student’s previous coursework and GPA, PCAT scores, diversity factors, work experience, demonstrated leadership, oral and written communication skills, and letters of recommendation. Highly qualified candidates are then invited to campus for an interview prior to the admission decision.

Applicants to the program on either the Duluth or Twin Cities campuses must submit materials through the PharmCAS and allow at least six weeks processing time. The PharmCAS national service is a repository for all application materials including transcripts, letters of reference, and PCAT scores. The supplemental application deadline is March 1. Admission to the College of Pharmacy is selective and on a rolling basis. Priority is given to students who apply early because the class may fill much earlier than the supplemental application deadline.

Physical Therapy
Students must complete a bachelor’s degree (no major preferred) to be eligible for admission to the graduate level physical therapy program at the University of Minnesota, Twin Cities. While at Morris, students are encouraged to complete a strong liberal arts program. Required undergraduate coursework includes biology courses with labs, human anatomy, human physiology, chemistry with labs, physics with labs, general psychology, abnormal psychology, calculus, and statistics (including ANOVA and regression analysis). Past students also have found that biochemistry and human/animal biology classes have been helpful preparation. Students are also expected to be skillful with word processing applications and spreadsheets. Exposure to a physical therapy setting through volunteer work or employment (minimum 100 hours) is also an important prerequisite.

Admission is very competitive. Primary standards require a minimum GPA of 3.00 and all courses must be taken A-F grading. Students must take the GRE general exam and can find details online at www.gre.org. For more information, see www.physther.umn.edu or contact Student Counseling.

Veterinary Medicine
Admission to the College of Veterinary Medicine is highly competitive. Approximately 90 students are admitted each fall semester and are selected through an evaluation process including: 1) academic measures, such as GPA and VMCAS score; 2) non-academic measures, such as animal experience; and 3) a personal interview.

To qualify for admission to the College of Veterinary Medicine, students must complete required courses including English composition, biology, chemistry, mathematics, physics, and a strong liberal arts background. Most students complete their bachelor’s degree before entering veterinary school but may seek admission during the academic year in which their pre-veterinary requirements are complete. Consultation with a Morris adviser is essential for proper course planning.

The University of Minnesota uses the national Veterinary Medical College Application Service (VMCAS) available online at portal.vmcas.org/. The deadline for submitting the VMCAS application is October 2 and includes three letters of recommendation. The Graduate Record Examination (GRE) is also required for admission and the results must be received by the October 2 deadline. Successful applicants for the Fall 2012 class had a mean GPA of 3.63 and 100 students were admitted from the 948 applicant pool.

An early admission program to the College of Veterinary Medicine is available to qualified Morris freshmen interested in food animal medicine. Students should consult their adviser for details. Instructions and applications for VMCAS are available online at www.cvm.umn.edu/education and at Student Counseling.

Honors and Awards
Honors and awards recognize exceptional scholarship and related achievements within the student body. Such scholarship can be demonstrated in a variety of ways. General academic excellence, as traditionally measured by the grade point average (GPA), is one way. Exceptional scholarship, however, may not always be reflected by the GPA. For this reason, Morris also recognizes creative scholarship as demonstrated in a particular discipline.

University Honors
Graduation with Distinction or High Distinction
To qualify for a degree with distinction or high distinction, a student must have completed 60 or more semester credits at the University. For the purposes of meeting the grade point average standards, only University coursework will be counted. To graduate “with distinction,” a student must have a cumulative GPA of 3.750 or higher at the time the student graduates. To graduate “with high distinction,” a student must have a cumulative GPA of 3.900 or higher. The
GPA alone will be used in determining the granting of degrees “with distinction” or “with high distinction.”

Graduation With Honors
Students graduating with honors are those who have successfully completed the Morris Honors Program. (See Honors Program above for detailed program requirements.)

Chancellor’s Award
This award is presented to outstanding students on the basis of academic excellence and contribution to campus life. The Executive Committee of the Morris Campus Student Association and student members of the Campus Assembly nominate students for this award. Nominees are endorsed by the Functions and Awards Committee. Morris's chancellor makes the final selection.

Dean’s List
The Dean’s List recognizes students who have achieved an outstanding academic record during a given semester. To qualify, students must have completed all credits for which they were registered during that semester, registered for a minimum of 12 credits of which two-thirds must be on the A-F grading system, and earned a minimum term GPA of 3.666. The Dean’s List is announced each semester by the vice chancellor for academic affairs and dean; a notation is put on the student’s transcript, and a certificate is sent to each student named on the list.

There are instances in which coursework may extend beyond a single academic semester or a serious illness or justifiable emergency may make it impossible for work to be completed by the end of a semester. In such cases, students who meet all other Dean’s List criteria stated above may petition the Functions and Awards Committee in writing for an exception; petitions must be filed within two weeks after the beginning of the next semester for which students register. Students who seek such exceptions should consult with the Office of the Registrar for more information.

Scholar of the College Award
This award is presented annually to students who have demonstrated distinguished scholarly work by making valuable contributions in one or more of the academic disciplines. Nominations are made by the faculty, reviewed by the Functions and Awards Committee, and approved by the Campus Assembly.

In addition to the above scholastic honors, the University of Minnesota, Morris recognizes campus-wide student leadership through the following awards:

Campuswide Awards
John Brian Becker ‘97 Memorial Student Activist Award
Established by friends of the late John Becker ‘97, this award is meant to honor and to thank a student identified as being a progressive thinking individual whose activism has made an impact on campus or beyond by raising public awareness and promoting social change. John majored in English and theatre arts while at UMM and was actively involved in the Student DFL, KUMM, and Women’s Resource Center.

Bos Research Award
This award is presented annually to enhance the successful undergraduate research experiences of Morris students. The funds may be used to cover costs associated with the pursuit of undergraduate research opportunities, including travel and conference registration. All Morris students are eligible to participate. Funds are awarded by the dean, with the amount of dollars distributed and the number of recipients to be determined each year according to the dean’s discretion and the amount of funding available. The award is in honor of Angela Bos ’01, a distinguished alumna of Morris.

Owen and Frances Tate Award
This award provides matching dollars to cover travel expenses for students presenting scholarly work at symposia and professional meetings, engaging in artistic activities, conducting research projects, or performing outside of the Morris campus community. It was established by the Tate family to honor the memories of Owen and Frances Tate, lifelong residents of Big Stone County, and to support Morris student learning activities that do not have other funding sources available.

American Indian Salt Springs Award
This award is presented to outstanding American Indian students on the basis of academic excellence and contribution to the Indian and campus community. To be eligible, the student must return to Morris the following year.

Allen W. Edson Award
This award is presented annually in recognition of a student’s total contribution to campus life. Selection is made by the Executive Board of the Morris Campus Student Association, student members of the Campus Assembly, and the faculty. Allen Edson was superintendent of the University of Minnesota West Central School of Agriculture (WCSA) and Experiment Station on the Morris campus from 1947 to 1958. He joined the WCSA staff in 1921.

Edith Rodgers Farrell Memorial Award for Undergraduate Research
This annual award is granted to a graduating senior whose research is judged to be excellent by a jury of faculty. This award was established by the family, students, and friends of the late Edith Rodgers Farrell, a professor of French and advocate of undergraduate research.

Matthew Ian Helgesen Memorial Award
Established by Tim and Jean Helgesen in memory of their son, Matthew ’06, this award is given to the Captain of the Bad Movie Club. Matt was one of the first students to start
the club during his freshman year at UMM. The award honors the values of UMM and reflects student initiative and creativity in leadership, and serves to encourage the Captain to keep the club going by doing "all the extras that always need to be done."

Arnold Henjum Scholar-Athlete Award
This award is presented to a senior male athlete on the basis of academic and athletic excellence and integrity. This award honors the late Arnold Henjum, professor of education from 1964 to 1992, who made innumerable contributions to Minnesota public education.

Women’s Honors Athlete Award and Men’s Honor Athlete Award
Recipients of this award are selected by a committee of coaches on the basis of academic and athletic achievement. Nominees have a grade point average of 3.00 or higher.

Willis Kelly Award
This award is presented annually to a senior female athlete who most exemplifies the spirit of competition in women’s athletics at Morris. The award is in memory of Willis Kelly, a physical education coach and athletic director at Morris for more than 20 years. She became the first director of women’s athletics in 1975 and served as director of men’s and women’s athletics from 1982 until her retirement in 1987.

Curtis H. Larson Award
This award is conferred upon the graduate chosen as senior class speaker. The selection is made by the faculty and graduating seniors. Established in memory of the late Curtis H. Larson, Morris’s first class speaker in 1964, who died in an accident while serving as a Peace Corps volunteer in Ecuador.

Student Leadership Award
This award is presented annually to recognize student achievements in the life of the campus. These awards recognize students who are leaders of student organizations, committees, and special groups whose activities or programs are coordinated with or administered by Student Activities or Residential Life.

Mary Martelle Memorial Award
Presented annually to a student and to a staff member deemed to have made outstanding contributions to the quality of UMM campus life, this award perpetuates the memory of Mary Martelle, senior secretary in the Office of Student Activities from 1965 until her death in 1976. Nominations are made by the entire campus community and the recipients are determined by the Functions and Awards Committee.

David Minge Internship Award
This award supports students seeking Washington, D.C., internships—educational opportunities that former Congressman David Minge values as important and insightful components in learning about public policy process at the federal level. Preference is given to internship participants who integrate the study of peace, justice, conservation, the environment, rural affairs, or similar issues.

Discipline-Based Honors
In addition to the above scholastic honors, the University of Minnesota, Morris recognizes campuswide student leadership in the academic disciplines. Discipline-based honors can be found at www.morris.umn.edu/services/acad_affairs/DisciplineHonors.html.

Degree Completion

Bachelor of Arts Degree

Degrees from the University of Minnesota are granted by the Board of Regents upon the recommendation of the faculty of the University school or college, in this case the Morris campus, in which the student is enrolled. Requirements vary among the undergraduate colleges of the University, and students must meet all course, credit, and grade point average requirements of the college in which they are enrolled. The Morris Catalog is in effect for nine years; this catalog is in effect from fall 2013 through the end of summer session 2022. However, students may choose to use the catalog in effect their first term and year at Morris (provided it has not expired) or any subsequent catalog.

The General Education requirements completed under any previous catalog, including expired catalogs, may be used to complete the bachelor of arts degree. Permission to use the major requirements from an expired catalog must be obtained from the faculty. If a degree application is on file with accompanying documentation that defines requirements to be completed, reasonable effort will be made to allow students to graduate based on that agreement. All other degree requirements—total credits, residency, GPA calculation, etc.—follow semester standards and policies in place at the time the degree is awarded.

Students in elementary education and secondary education licensure must complete licensure requirements and apply for licensure within seven years from the time of admission to the licensure program.

Students must apply to graduate by the 10th class day of spring semester. There is a commencement ceremony in May of each academic year.

Degree Requirements

Requirements for the bachelor of arts (B.A.) degree at Morris consist of two parts: general education and the major. General education consists of three parts: Intellectual Community, Skills for the Liberal Arts, and Expanding Perspectives. Students in their first semester at Morris are expected to enroll in an Intellectual Community (IC) course.

Students should also attempt to complete the Writing for the Liberal Arts (WLA) requirement in their first year at Morris. Transfer students who have completed 12 credit hours or more of courses at a college or university after receiving their high school diploma are exempt from the IC requirement, and, if those 12 or more post-high school matriculation credit hours include at least four credits of writing instruction and fulfill the writing requirement at their previous institution, are also exempt from the WLA requirement. * Regardless, all students are strongly encouraged to complete WLA. All students must also meet the other requirements listed in Skills for the Liberal Arts and in Expanding Perspectives. The major is a field of specialization with requirements specified by faculty in that discipline or academic area.

The Skills component of general education helps students acquire the intellectual and communication skills needed for successful advanced work. The Expanding Perspectives component helps students gain enough understanding of the principal areas of human endeavor to continue learning and to have a sense of the limits of their knowledge. Work in the major helps students learn in depth and makes them reasonably expert in one area.

In order to lay the foundation for learning early, students are expected to complete a significant part of the Skills component during their first and second years of college. The emphasis is on establishing an intellectual framework for future work—a framework consisting of writing, linguistic reasoning, and artistic skills. Students continue to develop these skills in advanced courses. It should be noted that in most Skills categories, the requirements may also be met through assessment of prior learning, transfer of credit, individual projects, testing, and other means. These methods may be especially helpful in the case of nontraditional students.

The Expanding Perspectives component aims to produce liberally educated people who are able to understand how knowledge is acquired in many different fields. These people usually have broad interests and know where to obtain information on almost any subject. They can solve problems because they bring ideas and techniques from one field to bear on another in innovative ways. In a world of diverse peoples, activities, and value systems, all of which are increasingly interrelated, it is especially important that college graduates have breadth as well as depth in their education and that they expand the horizons of their knowledge.

Expanding Perspectives is divided into two parts. One consists of a traditional core of liberal studies roughly organized around the subjects of history, social sciences, humanities, fine arts, and the biological and physical sciences. The other addresses contemporary themes, which are grouped under the heading, The Global Village. The goal is to expand students’ perspectives on human diversity, people and the environment, the international scene, and issues of ethical and civic responsibility. In some cases, students may also satisfy Expanding Perspectives

*This language was passed by Campus Assembly on April 29, 2014. It is effective immediately.
requirements through independent study, transfer credit, internships, study abroad, special examinations, and other means. Students gradually fulfill the Expanding Perspectives requirements throughout their college career. During the freshman year, students should explore possible majors or fields of specialization, keeping in mind that, in a liberal arts degree program, the major is more of an intellectual “home base” than preparation for a specific occupation.

Transfer students with degrees from other colleges must complete the Morris degree requirements in order to have a major or minor appear on the Morris transcript. Majors and minors do not appear on the transcript unless they are part of a degree program. Licensure graduates from other colleges who wish to add a teaching major or minor do not need to complete the Morris degree program.

Courses taken to complete general education requirements may also apply to requirements in the major. However, all students must complete 60 credits of general education that are not drawn from the discipline of the major.

**Specific Provisions**

**1. General Education Requirements (60 credits)**

**Goals of the General Education Requirements**

I. **Intellectual Community**: To foster development of a liberal arts intellectual community through the introduction of intellectual and practical skills and through active student-faculty engagement in course material.

II. A. **Writing for the Liberal Arts**: To foster development of a collaborative writing community, to improve academic writing skills, and to practice the writing process, with emphasis on substantive revision; to develop information literacy particularly in relation to resources on the Morris campus, and to strengthen the foundation for advanced writing conventions specific to individual disciplines and for research processes generally expected in upper-level Morris courses.

B. **Foreign Language**: To develop proficiency in a single language other than English at the level equivalent to the first full year of college language study.

C. **Mathematical/Symbolic Reasoning**: To strengthen students’ ability to formulate abstractions, construct proofs, and utilize symbols in formal systems.

D. **Artistic Performance**: To introduce an understanding of the creative process through individual performance, and demonstrate skill in such activities as composition, theater, dance, studio art, and music.

III. A. **Historical Perspectives**: To increase students’ understanding of the past, the complexity of human affairs, the ways in which various forces—economic, cultural, religious, political, scientific—influence efforts to control events, and the ways historians verify and interpret their findings.

B. **Human Behavior, Social Processes, and Institutions**: To increase students’ systematic understanding of themselves as functioning humans, their individual similarities to and differences from others, their awareness of the nature and significance of their conscious experience, and the forces that shape their interpersonal attachments and interactions; or to increase students’ understanding of methods of analyzing modern society or some significant legal, political, economic, religious, social, or scientific component of it.

C. **Communication, Language, Literature, and Philosophy**: To expand students’ capacity to understand, analyze, discuss, and evaluate discourse concerning the complexity of the human condition through the study of languages and works of thought and imagination.

D. **Fine Arts**: To develop students’ understanding, analysis, and appreciation of the arts.

E. **Physical and Biological Sciences**: To increase students’ understanding of the structure and dynamics of the physical and biological worlds, and of the scientific method.

F. **The Global Village**: To increase students’ understanding of the growing interdependence among nations, peoples, and the natural world.

1. **Human Diversity**: To increase students’ understanding of individual and group differences (e.g., race, gender, class) and their knowledge of the traditions and values of various groups in the United States.

2. **People and the Environment**: To increase students’ understanding of the interrelatedness of human society and the natural world.

3. **International Perspective**: To increase students’ systematic understanding of national cultures substantially different from those in which they received their prior schooling.

4. **Ethical and Civic Responsibility**: To broaden and develop students’ capacity to question and reflect upon their own and society’s values and critical responsibilities, and to understand forces, such as technology, that cause them to modify these views and often mandate creation of new ways to resolve legal, social, and scientific issues.

**Provision i**

Morris courses designated as appropriate for meeting general education requirements are those which, if passed
It is effective immediately.

Students are required to complete a minimum of 60 credits of general education coursework outside the discipline of the major and must meet the requirements listed below. The requirements may be met not only through Morris courses, but also by transfer of credit, examinations for proficiency or credit, assessment of prior learning, individual projects, and other means. For details, students should consult with their advisers.

In some instances the specific general education requirements may be met using fewer than 60 Morris credits. If this occurs, then introductory or advanced elective courses from any discipline outside the major—with the exception of courses in elementary or secondary education, wellness and sport science, or accounting courses in management—may be used to fulfill the remaining credits of the 60-credit general education requirement.

Note: The designation following each category below, e.g., "IC," for Intellectual Community, appears at the beginning of the parenthetical information for each course that is appropriate for that category.

I. Intellectual Community (IC) — One two-credit course.

II. Skills for the Liberal Arts — One to five courses.

   These requirements emphasize the development of the intellectual skills, the communication skills, and the framework for learning needed for successful advanced work. Because new students need this foundation early, they are expected to complete many of these requirements during their first and second years.

   A. Writing for the Liberal Arts (WLA) — One four-credit course. Within a liberal arts education, writing is the primary way we develop and test our thinking. Writing is a skill that can always be improved, and learning to write is a process that is never finished. This requirement thus benefits all students, regardless of the writing skills, experiences, or coursework they bring with them to UMM.*

   B. Foreign Language (FL) — Proficiency in a single language other than English at the level equivalent to the first full year of college language study. This requirement can be met in one of the following ways:

      • by successfully completing a beginning language II course;
      • by successfully completing a 2xxx or 3xxx level language course;
      • by passing a proctored proficiency exam;
      • by achieving appropriate AP, CLEP, or IB examination scores; or
      • through the Scholastic Committee if English is not the student’s first language.

Placement tests in selected languages are given by Morris language disciplines to determine the level of pre-college proficiency of a student with prior coursework. Students who plan to study at Morris in the same language that they studied in high school must take the placement examination and abide by the placement recommendation. If after initial exposure to the recommended course the placement is not appropriate to the student’s level, students may consult their language instructors as to the proper course level of study.

Students who wish to “test out” of a second language based on prior learning in French, German, or Spanish must pass a proctored proficiency exam. The initial online Morris placement examination does not fulfill this requirement.

Students who studied a second language other than German, French, or Spanish may contact the Scholastic Committee for further information.

C. Mathematical/Symbolic Reasoning (M/SR) — One course.

D. Artistic Performance (ArtP) — One course.

III. Expanding Perspectives — Eight courses of at least two credits each.

   A. Historical Perspectives (Hist) — One course.
   B. Human Behavior, Social Processes, and Institutions (SS) — One course.
   C. Communication, Language, Literature, and Philosophy (Hum) — One course.
   D. Fine Arts (FA) — One course.
   E. Physical and Biological Sciences (Sci—without lab; Sci-L—with lab) — Two courses, at least one with lab.
   F. The Global Village — Two courses, one from each of two areas.

      1. Human Diversity (HDiv)
      2. People and the Environment (Envt)
      3. International Perspective (IP)
      4. Ethical and Civic Responsibility (E/CR)

Provisions ii through v

Provision ii — Goals will be used to match courses to general education requirements.

Provision iii — Only courses of two or more credits will satisfy an Expanding Perspectives requirement.

Provision iv — A course can satisfy only one of the general education categories.

Provision v — Writing for the Liberal Arts is required of all new first-year students. Those who have 12 or more post-high school matriculation credit hours are exempt from the WLA requirement only if the credits include at least four credits of writing instruction that fulfill the

---

*This language was passed by Campus Assembly on April 29, 2014. It is effective immediately.
It is effective immediately.

Each major can provide students with a statement about how a student majoring in that area will formally acquire the major.

2. Major or Area of Concentration

The Major—The major at Morris is defined as an intensive and coherent program of study reflecting the structure of one or more fields of knowledge. The major complements the essential skills and the broad base of knowledge provided by general education.

The purpose of the major is to ensure that each student pursues a particular field of knowledge in depth, investigates advanced theories and schools of thought, and becomes competent in using the language and methods of inquiry of the field. It is through such concentrated study that a student begins to master a body of knowledge and comes to understand the nature of expertise in the chosen field, including both its power and its limitations.

Students complete a major by fulfilling the requirements as specified elsewhere in this catalog. Virtually all academic majors include a capstone experience appropriate to the discipline. Faculty members in the discipline determine the shape and form of the experience. Capstone experiences are credit bearing and usually are assigned as part of a required course.

Transfer students with degrees from other colleges must complete Morris degree requirements in order to have a major appear on the University transcript. Majors do not appear on the transcript unless they are part of a degree program. Transfer students with degrees from other colleges can receive licensure endorsement which is sent to the Minnesota Department of Education from the Division of Education.

Area of Concentration—Some students may choose to complete an area of concentration instead of a major. An area of concentration is an individualized, often interdisciplinary, group of courses that meets the requirement of study in depth of a specific field of knowledge. (Students who wish to complete an area of concentration must have the program approved by appropriate faculty advisers, division chairs, and the vice chancellor for academic affairs and dean. A copy of the approved program must be filed with the Office of the Registrar. Detailed procedures and forms are available from the Office of the Vice Chancellor for Academic Affairs and Dean or online at www.morris.umn.edu/services/acad_affairs/aa_various.html.

3. Minor or Area of Emphasis

The Minor—The minor shares the essential characteristics of the major but differs from it quantitatively. It indicates a special interest and expertise beyond general education and provides sufficient skills and knowledge of the field to form a basis for further study. The requirements for minors are listed in this catalog under the appropriate academic discipline.

A minor is not required for graduation.

Transfer students with degrees from other colleges must complete the Morris degree requirements in order to have a minor appear on the Morris transcript. Minors do not appear on the transcript unless they are part of a degree program.

Area of Emphasis—Students may choose to complete an area of emphasis, a self-designed minor, instead of a minor by following the same procedures used to define an area of concentration.

4. Minimum Required Credits

(120 credits)

A student can fulfill the course requirements for graduation in most programs within the 120-credit minimum, but some combinations of general education courses, major, and teacher education licensure programs may require more than 120 credits. The 120 credits required must include a minimum of 60 credits of general education outside the discipline of the major.

No major or program may require students to take more than 40 of the 120 credits required for graduation in any one discipline.*

Any course that carries credit in one University of Minnesota college will carry credit in all other University colleges, at least as an elective. Some courses that carry University credit may not count toward college or program degree requirements, or may, if a student changes programs, exceed the credit limits from the areas identified in the following paragraph and thus not count toward the degree.

No more than 8 credits in Music Ensembles (Mus 1300 through Mus 1340); no more than 4 credits in SSA 12xx skills courses; no more than 4 credits in Varsity Athletics (SSA 1401 through SSA 1412); no more than 32 credits from internship (IS 3796, 3896, 3996); and no more than 4 credits in Psychology Field Experience (Psy 4896) may be applied to the 120-credit degree requirement. The use of the grade of D in the major may be restricted by the discipline.

*For the purpose of this policy all secondary education methods courses are considered to belong to the secondary education discipline. Writing for the Liberal Arts credits do not count toward the 40-credit maximum in English. Introductory foreign language courses do not count toward the 40-credit maximum in the

*This language was passed by Campus Assembly on April 29, 2014. It is effective immediately.
language disciplines. Introduction to public speaking courses do not count toward the 40-credit maximum in speech communication. Credits earned through the CLEP general examination in the mathematics do not count toward the 40-credit maximum in the mathematics discipline.

5. Quality of Work
The cumulative GPA required for graduation is 2.000. A minimum GPA of 2.000 (or higher if indicated by the discipline) is required in the major or area of concentration and in the minor or area of emphasis in order to graduate. Both the cumulative GPA and the major/minor GPA include all, and only, University of Minnesota coursework. The maximum number of S/N credits allowed to a student is 25% of University credits counted toward the degree (from any campus).

6. Credits from Graduating Campus (Residency)
Current information is available at www.policy.umn.edu/Policies/Education/Education/DEGREEREQUIREMENT.html. Students must complete the following minimum number of credits at the campus from which they expect to graduate before a degree will be granted.

I. To be eligible for a University undergraduate degree, a student must complete at least 30 semester credits awarded by the University campus from which he or she is seeking to graduate.

II. At least 15 credits of the last 30 credits earned prior to the awarding of a University degree, must be awarded by the University campus from which a student is seeking to graduate.

III. Students must complete at least half of upper-division major work (3xxx courses or higher) on the campus from which they are seeking to graduate. Study-abroad credits earned through programs sponsored by the University are considered resident credit.

IV. In order to have a minor recorded on a University transcript, a student must take at least three upper division credits in the minor field at the campus from which he or she will receive the degree.
Academic Division Structure

Division of Education.......................................................................................... 66
Division of the Humanities ................................................................................. 66
Division of Science and Mathematics .............................................................. 67
Division of the Social Sciences ......................................................................... 67
Interdisciplinary Programs.................................................................................. 68
Academic Division Structure

Disciplines (i.e., departments or fields such as English, physics, or psychology) are grouped administratively into four divisions—Education, Humanities, Science and Mathematics, and Social Sciences—to help integrate the various areas of study into a liberal arts curriculum, provide a forum for faculty discussion of common programs and interests, and encourage the planning of interdisciplinary academic programs. In addition, there are interdisciplinary courses, internships, and majors that cross divisional lines; these are found under Interdisciplinary Studies and fall under the direct responsibility of the vice chancellor for academic affairs and dean.

Courses are listed alphabetically by discipline. Each discipline description includes, as appropriate, requirements for the major and/or the minor. Teacher education licensure requirements can be found in the Education, Elementary and Education, Secondary sections.

Division of Education

Education (page 99)
Education, Elementary (page 100)
Education, Secondary (page 104)
Sport Management (page 187)
Sport Studies and Athletics (page 189)

In education programs, students can study education and its role in society; complete a major and teaching licensure in elementary education with an optional preprimary or middle level specialty; prepare to teach one or more liberal arts subjects at the secondary school level; and/or prepare for graduate study in education.

Intercolligate athletics, lifetime physical activity classes, coaching endorsement, and courses addressing sports management and various wellness issues are offered in the sport studies and athletics discipline.

Many students enrolled at Morris, no matter what their area of study, participate in intercollegiate athletic competition, which is directed by the sport studies and athletics faculty.

Division of Education programs are enhanced through faculty commitment to personalized instruction, use of current instructional technologies, student research, and opportunities for student and faculty participation in multicultural and international educational experiences.

Division of the Humanities

American Sign Language (page 75)
Art History (page 78)
Art, Studio (page 80)
Chinese (page 89)
Communication, Media, and Rhetoric (page 89)
Dance (page 95)
English (page 111)

French (page 123)
German Studies (page 132)
Humanities (page 143)
Italian (page 147)
Language (page 148)
Latin (page 148)
Music (page 163)
Philosophy (page 167)
Spanish (page 184)
Theatre Arts (page 193)

The Division of the Humanities is composed of 10 disciplines offering a major, as well as supplementary courses in dance and the humanities, e.g., the literature and thought of the non-English-speaking world in translation.

Since the time of the ancient Greeks and Romans, the disciplines in the humanities have been central to the meaning of a liberal education. These disciplines investigate important questions about the nature of human beings and their cultures, and examine alternative views concerning the meaning and direction of life.

In addition to its curricular programs, the Division of the Humanities sponsors and directs a varied program of co-curricular activities, organizations, and events for the campus and surrounding communities, including:

- Student art exhibitions, an active student Art Club, and Art Gallery exhibits of works by professional artists
- Scheduled poetry readings; the Prairie Gate Press; Prairie Gate Literary Festival; foreign and American films; the Writing Room to help students develop creative and expository writing skills; lectures on literary and language subjects; French, German, and Spanish student clubs with a variety of projects; opportunities for language students to travel and study abroad
- A varied program of musical events, including symphonic winds, orchestra, jazz ensemble, and choir concerts, as well as recitals by students and faculty; opportunities to work with well-known composers and artists in residence; tours.
- A philosophy colloquium in which internationally distinguished philosophers participate; an active Philosophy Club run by students which meets every week; easily reachable regional undergraduate conferences where students present their papers.
- A number of opportunities in communication, media, and rhetoric, including sponsorship of speakers and discussion groups, student attendance at conferences, and participation in the student organization Communication Club, as well as the Morris Intercollegiate Speech Team, which competes at several meets each year.
opportunities to participate in the varied curricular and co-
curricular programs described above. Through participation
in these programs either as employees or volunteers, scores
of students each year discover for themselves the meaning
and value of a liberal education.

Finally, the Division of the Humanities offers its students one
of Morris’s most beautiful and useful facilities, the
Humanities Fine Arts Center—a building to which
Progressive Architecture granted its First Design Award with
the following citation:

“It gives architectural form to a powerful new direction in
education—the school being integrated into the
community. This project shows how the school can be a
model for community development.”

Division of Science and Mathematics

Biology (page 83)
Chemistry (page 86)
Computer Science (page 92)
Environmental Science (page 116)
Geology (page 130)
Mathematics (page 161)
Natural Science (page 167)
Physics (page 169)
Statistics (page 1914)

Whether interested in biology, chemistry, computer science,
environmental science, geology, mathematics, physics, or
statistics, students find that programs in Morris’s Division of
Science and Mathematics offer excellent preparation for
employment in a related field, graduate study, or teaching
in junior or senior high school. Courses leading to
Minnesota secondary education licensure are offered in
chemistry, physics, life science, earth and space science, and
mathematics. The sciences form an integral part of Morris’s
preprofessional programs in the health, medical, and
engineering fields and contribute to general education
studies.

Students have many opportunities to work closely with their
professors. Students have conducted research on human-
computer interaction, program optimization, and
evolutionary computation. They have helped develop a
variety of methods for the analysis of statistical data, such as
a loglinear model of educational data and the
representation of three-dimensional copulas in terms of
two-dimensional marginals. Students have also collaborated
with faculty in developing mathematical models that are
crucial in solving large-scale optimization problems and they
have worked on solving open questions in theoretical
mathematics and graph theory. Students researched the
physics of highly excited atoms, studied emissions of
astronomical masers, performed observational optical
astronomy, and modeled the behavior of materials with
computers. They have investigated the role of fire in
prairies, invasive species in forests, macroinvertebrate
communities in prairie pothole lakes, regulation of cell
cycles and bioluminescence, genetics of endangered
species, microbial resistance to antibiotics, vertebrate
embryogenesis, and effects of changing climate and
atmosphere on forest trees. They have studied the geology
of glacial deposits in Minnesota, analyzed the fossils and
sediments of the Cretaceous Seaway in South Dakota, and
contributed to faculty field research in the Rocky Mountains
of Colorado and Idaho. They have conducted research on
the breakdown of pesticides, the preparation of novel
chemical compounds, and the development of new
chemical reactions both at Morris and in universities and
laboratories across the country. Students have published
results of their research with faculty or have given
presentations of their findings at conferences or seminars.
Many students at some time serve as teaching assistants,
earning a financial stipend while assisting professors in tasks
such as helping with laboratory courses, tutoring beginning
students, assisting with greenhouse maintenance, and
operating the Morris telescope.

Over the past several years, awards of external funds from
granting agencies such as the National Science Foundation
and the Howard Hughes Medical Institute have enabled the
Division of Science and Mathematics to support more
extensive research collaboration among its students and
faculty.

In geology and biology, field trips are an integral part of the
learning process. Students and faculty have traveled to the
Florida Keys, to central and coastal Belize, to the volcanoes
of Hawaii, to the deserts of Arizona and New Mexico, to
western Canada and Alaska, and throughout Minnesota and
surrounding regions of the Upper Midwest, in seeking a
better understanding of Earth’s natural environments,
landforms, and processes.

Students will find other ways to enhance their studies in the
sciences. The Geology, Math, ACM Computer Science,
Biology, ACS Chemistry, and Physics and Engineering Clubs
provide an opportunity for students and faculty who share
mutual interests to meet informally and participate in
related activities. In addition, visiting scientists frequently
come to campus to discuss current scientific problems and
topics with Morris faculty and students.
Division of the Social Sciences

Anthropology (page 75)
Economics (page 96)
Gender, Women, and Sexuality Studies (page 126)
Geography (page 130)
History (page 136)
Liberal Arts for the Human Services (page 151)
Management (page 157)
Political Science (page 171)
Psychology (page 174)
Social Science Major (page 178)
Sociology (page 182)

The social sciences consist of the branches of study dealing with the structure of society and the activities of its members. The Division of the Social Sciences includes the disciplines of anthropology, economics, geography, history, management, political science, psychology, and sociology. In addition, its courses are incorporated into the interdisciplinary programs in American Indian studies, environmental studies, Latin American area studies, and European studies.

It also offers majors in gender, women, and sexuality studies and liberal arts for the human services; and a social science major for teacher licensure. The social sciences coursework is oriented toward liberal education studies that prepare students to broadly understand human behavior, the institutions created by humans, and the resulting interactions.

Many of the social science disciplines encourage various kinds of fieldwork. Students intern on the local as well as state and national levels.

A hallmark of the social sciences at Morris is undergraduate research. Students author or coauthor research papers and projects with faculty and present papers at professional conferences. Many students serve as research and teaching assistants. They go beyond the boundaries of a strict “classroom” education to explore and gain firsthand experience with the professional tools of their field.

Morris’s Division of the Social Sciences has many resources that lend themselves well to establishing individual and group learning experiences. These include a wide variety of service learning opportunities, internships, and field studies programs.

Close student-faculty rapport is an important aspect of social sciences study. Individualized attention is emphasized and faculty members encourage students to work with them on a one-to-one basis in order to create programs and access opportunities that best suit students’ needs and interests.

Interdisciplinary Programs

African American Studies (page 71)
American Indian Studies (page 72)
Environmental Studies (page 119)
Honors Program (page 141)
Interdisciplinary Studies (page 144)
Latin American Area Studies (page 148)

Morris offers interdisciplinary majors and/or minors—whose educational objectives are realized through the integration of courses from two or more disciplines—in African American studies, American Indian studies, environmental studies, Latin American area studies, liberal arts for the human services, and gender, women, and sexuality studies. Interdisciplinary course offerings not associated with an interdisciplinary major or minor involve in-depth material of two or more traditional academic disciplines or divisions, and some include subject material of a very broad nature that cannot properly be regarded as a part of a traditional discipline or division.

Programs and courses in this catalog are current as of February 12, 2013. For up-to-date information, see www.catalogs.umn.edu/morris.
Major and Minor Programs and Course Descriptions

Course Numbers and Designators
Course numbers reflect the level of difficulty of a course. Generally, courses numbered 1xxx are for undergraduates in their first year of study, courses numbered 2xxx are for undergraduates in their second year of study, courses numbered 3xxx are for undergraduates in their third year of study, and courses numbered 4xxx are for undergraduates in their fourth year of study. Some courses require prerequisite coursework or advanced class status for entrance while others do not. Students should plan their programs carefully to complete courses in the proper sequence. Students who have not successfully completed the prerequisite course(s) may be administratively dropped from a course.

The current Class Schedule contains information on course prerequisites hours and days and room assignments.

In connection with course numbers, disciplines and programs are identified by a two-, three-, or four-letter designator prefix (e.g., Ed for Education, Pol for Political Science, LAAS for Latin American Area Studies).

Symbols, Abbreviations, and Punctuation
The following symbols, abbreviations, and punctuation are used throughout the course descriptions in lieu of page footnotes:

1201-1202-1203........ A hyphen between course numbers indicates a sequence of courses that must be taken in the order listed. The first course in the sequence is a prerequisite for the second course, and the second course in the sequence is a prerequisite for the third course.

1201, 1202, 1203....... A comma between course numbers indicates a series of courses that may be entered any semester.

Honors ...................... “Honors:” at the beginning of a course title indicates an Honors course.

Sci-L .......................... Courses that meet specific general education requirements are designated as IC, WLA, FL, M/SR, ArtP, Hist, SS, Hum, FA, Sci, Sci-L, HDiv, Envt, IP, E/CR. (See page 61 for more information about general education requirements.)

#.............................. Approval of the instructor is required for registration.

prereq....................... Before enrolling in some courses, students must have successfully completed certain other courses, or possess some particular qualification or class standing, known as a “prerequisite” (prereq). Students taking one or more courses as a prerequisite for a second course may register for the second course only after they have successfully completed the prerequisite course(s). If no prerequisites are listed, there are none for the course. A prerequisite listed by number only (e.g., prereq 3105) is in the same discipline as the course being described.

coreq .......................... Students must be enrolled in the corequisite (coreq) course(s) at the same time. If no corequisites are listed, there are none for the course. A corequisite course listed by number only (e.g., coreq 3105) is in the same discipline as the course being described.

prereq or coreq ........... Students must either successfully complete the prerequisite course, OR may enroll in the pre/corequisite course concurrently.

,.............................. In prerequisite and corequisite listings, a comma means “and.”

#.............................. Credit will not be granted if credit has been received for the course listed after this symbol (e.g., =[Soc 3602]).

%.............................. Approval of the discipline offering the course is required for registration.

@.............................. Approval at the college level (i.e., a form with appropriate signatures) is required for registration.

Same as .......................... “Same as” courses meet three qualifications: 1) have content sufficient in two (or more) identified disciplines to count in each; 2) have identical course descriptions, published in each associated discipline; 3) are taught at the same time, in the same classroom, by the same instructor.

Cluster .......................... Some courses are grouped into “clusters” because they have common themes or fulfill common requirements. Most clusters are headed by a paragraph identifying the shared elements of the courses.

Programs and courses listed in this PDF are current as of fall 2013. The most current version of all Morris course descriptions can be found online at onestop2.umn.edu/courses/mo/designators.jsp.
African American Studies (AfAm)
Interdisciplinary Studies—Academic Affairs

African American experience and culture are central to American experience and culture. The African American studies minor allows students of all racial and ethnic identities to concentrate on African American issues and to integrate their understanding of those issues into the broader context of American and African history and culture. The minor offers an interdisciplinary and interdivisional curriculum that enables students to explore a variety of intellectual approaches and to make methodological and thematic connections and comparisons among those several approaches.

Objectives—The objectives of the African American studies minor are to:

* familiarize students with the variety, depth, and significance of African Americans' contributions to American culture;
* enable students to see and appreciate the many African American points of view of history, society, politics, literature, art, and music;
* help students connect the African American experience to the broader context of Africa and the African diaspora;
* develop students' understanding of the nature of race and the dynamics of race and racism, particularly in the United States; and
* give students a grasp of some of the methodological and intellectual approaches to a broad and multifaceted area of study.

African American Studies Minor

Courses for the minor may not be taken S-N unless offered S-N only. No grades below C- are allowed.

A minimum GPA of 2.00 is required in the minor to graduate. The GPA includes all, and only, University of Minnesota coursework. Grades of "F" are included in GPA calculation until they are replaced.

Students must take a minimum of 24 credits in at least three different disciplines. At least 16 of the 24 credits must be devoted to primarily African American content.

Courses with PRIMARILY African American content

Take 16 or more credits from the following:

- ARTH 3241 - African American Art [FA] (4 cr)
- ENGL 2041 - Introduction to African American Literature [HDIV] (4 cr)
- ENGL 3331 - African American Literature [HDIV] (4 cr)
- ENGL 3332 - African American Women Writers [HDIV] (4 cr)
- ENGL 3522 - Harlem Renaissance [HDIV] (4 cr)
- ENGL 4033 - Research Seminar: Ralph Ellison, Richard Wright, and J. Saunders Redding [HDIV] (4 cr)
- HIST 3356 - Civil Rights Movement, 1954-1974 [HIST] (4 cr)
- SOC 3251 - African Americans [HDIV] (4 cr)

Courses with PARTIAL African American content

Take at most 8 credits from the following:

- ENGL 3301 - U.S. Multicultural Literature [HDIV] (4 cr)
- ENGL 4017 - Research Seminar: Tricksters-Conjurers in American Indian and African American Literature [HDIV] (4 cr)
- FREN 1311 - Sub-Saharan Francophone Cinema [IP] (4 cr)
- FREN 3602 - Francophone Studies: Francophone Worlds [IP] (4 cr)
- FREN 3603 - Francophone Studies: Contes francophones [IP] (4 cr)
- FREN 3605 - Francophone Studies: Le Cinema du Maghreb [IP] (4 cr)
- FREN 3606 - Francophone Studies: Sub-Saharan Francophone Cinema [IP] (4 cr)
- GWSS 3001 - Troubling Genders in African Cinema [HUM] (4 cr)
- HIST 2352 - The U.S. 1960s [HIST] (4 cr)
- HIST 3304 - Race, Class, and Gender in African History [HDIV] (4 cr)
- HIST 3358 - Civil War and Reconstruction [HIST] (4 cr)
- SOC 2101 - Systems of Oppression [HDIV] (4 cr)
- SOC 3121 - Sociology of Gender and Sexuality [HDIV] (4 cr)
- SOC 3124 - Sociology of Law [SS] (4 cr)
- SOC 3141 - Sociology of Deviance [ECR] (4 cr)

African American Studies Course Descriptions

- ARTH 3241. African American Art. (FA; 4 cr; prereq any 1xxx ArtH course or jr status or #; fall, even years)
  Survey of African American art from colonial times to the present, focusing on social context and aesthetic and biographical issues.
- ENGL 2041. Introduction to African American Literature. (HDIV; 4 cr; prereq 1601 (or 1011) or equiv; spring, offered periodically)
  Introduction to issues and themes in African American literature and culture, with emphasis on historical and cultural context.
- ENGL 3301. U.S. Multicultural Literature. (HDIV; 4 cr; prereq 2501 (or 1131), two from 2201, 2202, 2211, 2212, or #; spring, offered periodically)
  Examination of literatures by African American, American Indian, Asian American, Chicana/o, U.S. Latino/a, and other under-represented peoples.
- ENGL 3331. African American Literature. (HDIV; 4 cr; prereq 2501 (or 1131), two from 2201, 2202, 2211, 2212; fall, spring, offered periodically)
  Study of African American literature. Particular attention given to issues of gender, class, power, "passing," and the racialized body.
- ENGL 3332. African American Women Writers. (HDIV; 4 cr; prereq 1601 (or 1011) or equiv or #; fall, offered periodically)
  If African Americans sought to achieve equality and recognition in the racist United States, the situation was even more difficult for African American women, who had to contend with the sexism in both the white and black communities. This course examines the writings of prominent African American women.
- ENGL 3522. Harlem Renaissance. (HDIV; 4 cr; prereq 2501 (or 1131), two from 2201, 2202, 2211, 2212; fall, even years)
  During the 1920s, there was a major aesthetic outpouring in the African American community. This course will examine African American art, and read poetry, short stories, novels and essays from Harlem Renaissance writers.
- ENGL 4017. Research Seminar: Tricksters-Conjurers in American Indian and African American Literature. (HDIV; 4 cr; prereq two from 31xx-35xx, #; spring, offered periodically)
  Study of tricksters and conjurers in American Indian and African American literature, in particular their ability to maintain traditional practices and subvert the dominant culture and imposed cultural norms. Special attention given to cultural and historical contexts and questions of power, identity, cultural difference, and assimilation.
- ENGL 4033. Research Seminar: Ralph Ellison, Richard Wright, and J. Saunders Redding. (HDIV; 4 cr; prereq two from 31xx-35xx, #; spring, offered periodically)
  From the 1940s through the 1960s, Ellison, Wright, and Redding produced some of the most probing, original, and influential works of literature in the United States. Examine how these three writers responded to each other as they formulated their particular approaches to literature and life.
- FREN 1311. Sub-Saharan Francophone Cinema. (IP; 4 cr; does not count toward the Fren minor; fall, spring, offered periodically)
  Introduction to the history of cinema in French-speaking West Africa. Students learn to read African films, to recognize and analyze political themes in the films, and to become sensitive to issues facing many African nations in the postcolonial world. All films have English subtitles. Taught in English. Meets Francophone Studies (FRS) requirement for the French major.
- FREN 3602. Francophone Studies: Francophone Worlds. (IP; 4 cr; prereq or coreq 3011 or #; no credit for students who have received cr for Fren 3041; fall, spring, offered periodically)
  Readings in a variety of cultural and literary texts from among French-language writers of Africa, the Caribbean, Asia, North America, and Europe; study of issues of national identity, race, gender, and postcolonial consciousness. Meets Francophone Studies (FRS) requirement in French major.
- FREN 3603. Francophone Studies: Contes francophones. (IP; 4 cr; prereq or coreq 3011 or #; no credit for students who have received cr for Fren 3042; fall, spring, offered periodically)
  Study of the oral tale in African and Caribbean cultures. Examination of the form of these tales, their thematic structure, and how these
A study of Algerian, Tunisian, and Moroccan history and culture as presented through the art of cinema. Examination of films produced in the francophone Maghreb thematically, focusing on topics such as colonialism, gender, Islam, childhood, and immigration. An important goal is to learn to analyze and discuss film academically. Meets Francophone Studies (FRS) requirement in French major.

FREN 3605. Francophone Studies: Le Cinema du Maghreb. (IP; 4 cr; prereq or coreq 3011 or #; fall, spring, offered periodically) Introduction to the history of cinema in French-speaking West Africa. Students learn to read African films, to recognize and analyze political themes in the films, and to become sensitive to issues facing many African nations in the postcolonial world. Meets Francophone Studies (FRS) requirement in French major.

GWSS 3001. Troubling Genders in African Cinema. (HUM; 4 cr; fall, spring, offered periodically) This course explores the ways in which Sub-Saharan African film directors have used cinematic arts to challenge and envision paradigms of feminine, masculine and queer identity. Students will study African models of womanist thought and how they work with and against various "Western" models of gender. All films have English subtitles.

HIST 2352. The U.S. 1960s. (HIST; 4 cr; fall, even years) History of the United States in the 1960s. Backgrounds to the 1960s: political and cultural issues of the decade; the Kennedy promise, civil rights and other movements, Vietnam war, counterculture, conservative backlash, and legacy.

HIST 3304. Race, Class, and Gender in American History. (HDIV; 4 cr; fall, spring, offered periodically) The themes of race, class, and gender are explored in-depth throughout the semester. Students gain a new awareness about historiography and theories that highlight this growing subfield of American history. Prominent topics covered in lecture and readings include corporation and slavery, suffrage, immigration, sovereignty, labor, ghettoization, art, literature, culture, and the rise of self-determination. Study the intersection of race, class, and gender relations through multiple perspectives of region, ideology, political-economy, and religion.

HIST 3356. Civil Rights Movement, 1954-1974. (HIST; 4 cr; fall, spring, offered periodically) Background of the Civil Rights movement, emergence of the theory and practice of nonviolence, various Civil Rights groups, role of women, legislative and other accomplishments of the movement, its aftermath and influence.

HIST 3358. Civil War and Reconstruction. (HIST; 4 cr; fall, spring, offered periodically) Origin, context, and significance of the Civil War and Reconstruction.

SOC 2101. Systems of Oppression. (HDIV; 4 cr; prereq 1101 or Anth 1111 or #; fall, every year) The student is introduced to the sociological study of gender and sexuality, focusing on gender difference and gender inequality. The course assumes law is embodied in the social structure of society; hence, it examines the role of law in maintaining and reproducing social order, class, race, and gender inequalities. The course is interdisciplinary and comparative in its scope and integrates jurisprudence and various social science theories.

SOC 3141. Sociology of Deviance. (E/CR; 4 cr; prereq 1101 or #; fall, even years) Introduces students to the sociological study of deviance. Explores the social reality of deviance within contemporary society and examines the social construction of deviant categories. Focuses on images of deviance as social constructs, rather than as intrinsic elements of human behavior. Investigates the complex relationships between individual behavior and social structure, with a focus on power, inequality, and oppression. Also examines the socio-cultural definitions of morality and behavior.

SOC 3251. African Americans. (HDIV; 4 cr; prereq 1101 or Anth 1111; fall, spring, offered periodically) Examination of African American religious, economic, political, family, and kinship institutions in the context of the greater American society. Struggles to overcome problems and the degree of success or failure of these struggles are examined and placed in historical context.

**American Indian Studies (AmIn)**

**Interdisciplinary Studies—Academic Affairs**

This is an interdisciplinary major under the authority of the vice chancellor for academic affairs and dean. The program is administered by the coordinator(s) of American Indian Studies.

The American Indian Studies major is designed to enhance a student's awareness and his or her overall knowledge about sovereignty and the diversity of Indigenous cultures throughout all of Native North America. Majors are required to engage and learn American Indian history, policies, culture, literature, language, arts, sciences, and other creative endeavors within a globalized context. American Indian Studies promotes critical thinking, writing, and communication skills that are also rooted in Indigenous knowledge systems and community involvement. The curriculum emphasizes the role of the student as an active learner and participant within a growing and vibrant intertribal campus community.

**American Indian Studies Major**

Students develop a coherent program of study in consultation with their major adviser. American Indian Studies students are especially encouraged to take an American indigenous language, such as Anishinaabe and Dakota.

Up to 4 credits of coursework with a grade of D or D+ may be used to meet the major requirements. Courses may not be taken S-N unless offered S-N only.

A minimum GPA of 2.00 is required in the major to graduate. The GPA includes all, and only, University of Minnesota coursework. Grades of “F” are included in GPA calculation until they are replaced.

**Required Courses**

With approval of the American Indian Studies coordinator(s), a capstone course in a different major may be substituted for AMIN 4901 if it contains primary American Indian content (e.g., ENGL 4017—Research Seminar: Tricksters-Conjurers in American Indian and African American Literature).

**AMIN 1101** - Introduction to American Indian Studies (HDIV) (4 cr)
**AMIN 1701** - Global Indigenous History (IP) (4 cr)
**HIST 1701** - Global Indigenous History (IP) (4 cr)
**AMIN 4901** - Senior Project in American Indian Studies (4 cr)
**ANTH 3402** - Representations from the Field: American Indian Ethnography and Ethnohistory (HDIV) (4 cr)
**HIST 3402** - Representations from the Field: American Indian Ethnography and Ethnohistory (HDIV) (4 cr)
**ENGL 3311** - American Indian Literature (HDIV) (4 cr)
**ENGL 3312** - World Indigenous Literature and Film (IP) (4 cr)
**HIST 2251** - American Indians and the United States: A History (HDIV) (4 cr)
HIST 3359 - Native Strategies for Survival, 1880-1920 [HDIV] (4 cr)
or HIST 3381 - History of American Indian Nationalism and Red
Power, 1920-Present [HIST] (4 cr)
or ENGL 2411 - Representations of American Indians in Popular and
Academic Culture [HDIV] (4 cr)

**Elective Courses**

Students must complete at least 12 credits from the electives listed
below, subject to the following restrictions:
1. Courses are exclusive of any used to complete the required
courses.
2. At least 8 credits must be from Primary American Indian Studies.
3. No more than 4 credits of directed studies (X993) may be applied
to the major.
4. No more than 3 credits of ARTS 1050 may be applied to the major.
5. No more than 8 credits of American indigenous languages may be
applied to the major.

*Take 12 or more credits from the following:*

**Primary American Indian Studies Electives**

*Take 8 or more credits from the following:*

- AMIN 1801 - American Indian Song and Dance [IC] (2 cr)
- AMIN 2993 - Directed Study (1-5 cr)
- AMIN 3452 - American Indian Women [HDIV] (4 cr)
- AMIN 3990 - Directed Study (1-5 cr)
- ANTH 3455 - North American Archaeology [SS] (4 cr)
- ENGL 2411 - Representations of American Indians in Popular and
Academic Culture [HDIV] (4 cr)
- ENGL 4017 - Research Seminar: Tricksters-Conjurers in American
Indian and African American Literature [HDIV] (4 cr)
- AMIN 3993 - Directed Study (1-5 cr)
- HIST 3381 - History of American Indian Nationalism and Red
Power, 1920-Present [HIST] (4 cr)
- HIST 3359 - Native Strategies for Survival, 1880-1920 [HDIV] (4 cr)
- HIST 3381 - History of American Indian Nationalism and Red
Power, 1920-Present [HIST] (4 cr)
- HIST 3614 - Race and Ethnicity in Latin America [HDIV] (4 cr)

**Indigenous Languages**

*Take at most 8 credits from the following:*

- AMIN 1001 - Beginning Dakota Language I (4 cr)
- AMIN 1002 - Beginning Dakota Language II [FL] (4 cr)
- AMIN 1011 - Beginning Anishinaabe Language I (4 cr)
- AMIN 1012 - Beginning Anishinaabe Language II [FL] (4 cr)
- AMIN 2011 - Intermediate Anishinaabe Language I [HUM] (4 cr)
- AMIN 2012 - Intermediate Anishinaabe Language II [HUM] (4 cr)

**Related American Indian Studies**

*Take at most 4 credits from the following:*

- ARTS 1050 - Beginning Ceramics [ART/P] (3 cr)
- CMR 3411 - Intercultural Communication Theory and Research
[HDIV] (4 cr)
- ENGL 3301 - U.S. Multicultural Literature [HDIV] (4 cr)
- HIST 2451 - The American West [HIST] (4 cr)
- POL 3234 - Race, Class, and Power: Social Movements and
Interest Groups in U.S. Politics [HDIV] (4 cr)
- PSY 3542 - Multicultural Psychology [HDIV] (4 cr)
- SOC 2101 - Systems of Oppression [HDIV] (4 cr)
- SOC 3121 - Sociology of Gender and Sexuality [HDIV] (4 cr)

**Other Elective Courses**

Directed studies and interdisciplinary internships, with appropriate
subject matter, may be used to meet the elective requirements.

**American Indian Studies Minor**

American Indian Studies students are especially encouraged
to take an American indigenous language, such as
Anishinaabe and Dakota.

Up to 4 credits of coursework with a grade of D or D+ may be
used to meet the minor requirements. Courses may not be taken
S-N unless S-N only.

A minimum GPA of 2.00 is required in the minor to graduate. The
GPA includes all, and only, University of Minnesota coursework.
Grades of "F" are included in GPA calculation until they are
replaced.
AMIN 1701. Global Indigenous History. (IP; 4 cr; = [HIST 1813, HIST 1701]; fall, offered periodically)
Same as Hist 1701. Modern technology has transformed our world and encouraged global nations to become increasingly connected. These international connections contain a unique and exciting history that complicates and enriches our worldview. The movement to gain recognition in the United Nations has prompted Indigenous peoples into a new political awareness of Intertribalism. Acquire an introductory knowledge about Indigenous histories beyond the borders of the United States. Navigating the globe, learn about the Maori of New Zealand, Aboriginal rights in Australia, the great Polynesian, Asian, and African Empires. Debate complex issues of colonization, gender, sustainability, urbanization, science, law, economics, race, and nationalism. Also investigate contemporary political movements, activism, and art forms employed by Indigenous communities to maintain their life-ways and sovereignty.

AMIN 1801. American Indian Song and Dance. (IC; 2 cr; prerequisite new college student in the first semester of enrollment at UMM; fall, offered periodically)
An academic and active exploration of song and dance traditions from American Indian tribes.

AMIN 2011. Intermediate Anishinaabe Language I. (HUM; 4 cr; prerequisite 1012 or placement or #; fall, offered periodically)
Review of the essential structural patterns of the Anishinaabe language; continued development of oral, aural, reading, and writing skills based on cultural and literary texts appropriate to this level.

AMIN 2012. Intermediate Anishinaabe Language II. (HUM; 4 cr; prerequisite 2011 or placement or #; spring, offered periodically)
Review of the essential structural patterns of the Anishinaabe language; continued development of oral, aural, reading, and writing skills based on cultural and literary texts appropriate to this level.

AMIN 2993. Directed Study. (1-5 cr [max 10 cr]; prerequisite approved directed study form; fall, spring, summer, every year)
An on- or off-campus learning experience individually arranged between a student and a faculty member for academic credit in areas not covered in the regular curriculum.

AMIN 3452. American Indian Women. (HDIV; 4 cr; = [ANTH 3452, SOC 3452]; fall, offered periodically)
The role of Indian and mixed-blood women in a variety of North American cultures, both traditional and contemporary, using ethnography, autobiography, life history, biography, and fiction. The interaction of Indian women and their cultures with the colonizing cultures of Western Europe and the United States.

AMIN 3993. Directed Study. (1-5 cr [max 10 cr]; prerequisite approved directed study form; fall, spring, summer, every year)
An on- or off-campus learning experience individually arranged between a student and a faculty member for academic credit in areas not covered in the regular curriculum.

AMIN 4901. Senior Project in American Indian Studies. (4 cr; prerequisite 1101, AmIn major; #; fall, every year)
A culminating research project in American Indian Studies.

ANTH 3402. Representations from the Field: American Indian Ethnography and Ethnohistory. (HDIV; 4 cr; = [HIST 3402]; fall, offered periodically)
Same as Hist 3402. An analysis of ethnographic and ethnohistoric materials focusing on specific American Indian cultures.

ANTH 3455. North American Archaeology. (SS; 4 cr; prerequisite 1111 or 2103; fall, spring, offered periodically)
The archaeology of the societies located in the current United States and Canada prior to European colonization. Includes the earliest human colonization of North America (circa 12,000 years ago), early hunting and gathering societies, the development of agriculture, and the formation of complex chiefdoms. Emphasis on the diversity of cultures, languages, economies, and environments found throughout precontact North America.

ANTH 3993. Directed Study. (1-5 cr [max 10 cr]; prerequisite approved directed study form; fall, spring, every year)
Individualized on- or off-campus research project or other learning activity not covered in the regular anthropology curriculum. Topic determined by the student and instructor.

ARTS 1050. Beginning Ceramics. (ART/P; 3 cr [max 6 cr]; fall, every year)
Personal expression through the medium of clay. Topics include forming methods using stoneware and porcelain (hand building and wheel techniques), glazing, the nature of clay, glaze chemistry, firing, and kilns.

CMR 3411. Intercultural Communication Theory and Research. (HDIV; 4 cr; prerequisite 1101 or #; fall, offered periodically)
Study of intercultural communication from an interpersonal and group perspective.

ENGL 2411. Representations of American Indians in Popular and Academic Culture. (HDIV; 4 cr; prerequisite 1801 or (1011) or equiv; fall, offered periodically)
Study of representations of American Indians in academic culture, including literature, films, and sports. Particular attention given to how Indian identity, history, and cultures are represented in pop culture by non-Indians and, more recently, Indians themselves.

ENGL 3301. U.S. Multicultural Literature. (HDIV; 4 cr; prerequisite 2501 or (1131), two from 2201, 2202, 2211, 2212, or #; spring, offered periodically)
Examination of literatures by African American, American Indian, Asian American, Chicana/o, U.S. Latino/a, and other underrepresented peoples.

ENGL 3311. American Indian Literature. (HDIV; 4 cr; prerequisite 2501 or (1131), two from 2201, 2202, 2211, 2212, or #; fall, spring, offered periodically)
Study of American Indian literature written in English. Particular attention given to language, identity, land, and sovereignty.

ENGL 3312. World Indigenous Literature and Film. (IP; 4 cr; prerequisite 2501, two from 2201, 2202, 2211, 2212, or #, or AmIn major; spring, even years)
Comparative study of indigenous literature and film from North America, New Zealand, and Australia with particular emphasis given to issues of political and cultural sovereignty, cultural appropriation, self-representation, and colonial nostalgia.

ENGL 4017. Research Seminar: Tricksters-Conjurers in American Indian and African American Literature. (HDIV; 4 cr; prerequisite two from 31xx-35xx, #; fall, spring, offered periodically)
Study of tricksters and conjurers in American Indian and African American literature, in particular their ability to maintain traditional practices and subvert the dominant culture and imposed cultural norms. Special attention given to cultural and historical contexts and questions of power, identity, cultural difference, and assimilation.

HIST 1701. Global Indigenous History. (IP; 4 cr; = [HIST 1813, AMIN 1701]; fall, offered periodically)
Same as Amin 1701. Modern technology has transformed our world and has encouraged global nations to become increasingly connected. These international connections contain a unique and exciting history that complicates and enriches our worldview. The movement to gain recognition in the United Nations has prompted Indigenous peoples into a new political awareness of Intertribalism. Acquire an introductory knowledge about Indigenous histories beyond the borders of the United States. Navigating the globe, learn about the Maori of New Zealand, Aboriginal rights in Australia, the great Polynesian, Asian, and African Empires. Debate complex issues of colonization, gender, sustainability, urbanization, science, law, economics, race, and nationalism. Also investigate contemporary political movements, activism, and art forms employed by Indigenous communities to maintain their life-ways and sovereignty.

HIST 2251. American Indians and the United States: A History. (HDIV; 4 cr; spring, every year)
The experience of the original Americans and their interaction with later immigrants.

HIST 2451. The American West. (HIST; 4 cr; = [HIST 3451]; fall, every year)
Overview of the history of the American West up to the 21st century. While many scholars have argued that the "West" was merely a necessary process of national expansion, others argue that it is a very significant region—the most culturally and ecologically diverse region in the country. Discussion of these major historical interpretations of the American West and examination of how people have understood this vast region as a cultural icon of national identity.
Work through various definitions of the West and identify how political issues of the environment, international borders, and gender and race relations have significantly influenced the United States for many generations. Through lectures, readings, and discussion, examine Western history chronologically while also covering other major themes including federalism, the mythic West, tourism, ranching and agriculture, urban and suburban areas, film, and religion.

**HIST 3304. Race, Class, and Gender in American History.** (HDIV; 4 cr; fall, spring, offered periodically)
The themes of race, class, and gender are explored in-depth throughout the semester. Students gain a new awareness about historiography and theories that highlight this growing subfield of American history. Prominent topics covered in lecture and readings include colonization, slavery, suffrage, immigration, sovereignty, labor, ghettoization, art, literature, culture, and the rise of self-determination. Study the intersection of race, class, and gender relations through multiple perspectives of region, ideology, political-economy, and religion.

### American Sign Language (ASL)
#### Division of the Humanities
**HIST 3359. Native Strategies for Survival, 1880-1920.** (HDIV; 4 cr; fall, odd years)
Exploration of the events and policies that sought to eliminate American Indian communities and cultures and the strategies that American Indians developed to survive. Students gain insight into a pivotal time for the "incorporation" of the United States and ongoing tensions between unity and diversity that characterize the nation's political economy and social structure. Paradoxes under scrutiny include the degree to which policies claiming to emancipate actually imprisoned and crimes became homelands.

**HIST 3381. History of American Indian Nationalism and Red Power, 1920-Present.** (HIST; 4 cr; A-F only; spring, even years)
Documents the history of American Indian Nationalism and the origins of the Red Power Movement in the late 1960s. Explores the rise of the Society of American Indians, the Indian Defense Association, National Congress of American Indians, and the rise of the Red Power Movement. Students learn about the changing nature of how the U.S. Government and Native Nations developed into a globalized transnational and intertribal political debate in the 20th century. Provides students with a critical overview of the peoples, places, and events that have impacted Tribal and U.S. relations.

**HIST 3402. Representations from the Field: American Indian Ethnography and Ethnohistory.** (HDIV; 4 cr; =ANTH 3402; fall, offered periodically)
Same as Anth 3402. An analysis of ethnographic and ethnohistoric materials focusing on specific American Indian cultures.

**HIST 3614. Race and Ethnicity in Latin America.** (HDIV; 4 cr; fall, spring, offered periodically)
Explore issues of race and ethnicity in Latin America from a historical perspective. Covering the colonial and national periods, examine how ideas of race and ethnicity have intersected with political, economic, and socio-cultural developments in the region. Consider the ways in which race, class, and gender have intersected in Latin America.

**POL 3234. Race, Class, and Power: Social Movements and Interest Groups in U.S. Politics.** (HDIV; 4 cr; prerequisite 1201; fall, even years)
A broad overview of social movements and interest groups. Using a case study approach, the class considers the question of when and why social movements and interest groups in American politics arise and what makes them more or less successful.

**Psychology (PSY)**
**PSY 3542. Multicultural Psychology.** (HDIV; 4 cr; =PSY 3541; prerequisite 1051; fall, every year)
Theoretical and methodological approaches to multicultural psychology. Multicultural psychology is the systematic study of behavior, cognition, and affect settings where people of different backgrounds interact. Exploration of these interactions both within and outside of the United States. Topics may include worldviews, communication styles, acculturation, prejudice, white privilege, identity development, physical and mental health, and multicultural competencies.

**Sociology (SOC)**
**SOC 2101. Systems of Oppression.** (HDIV; 4 cr; prerequisite 1101 or Anth 1111 or #; fall, every year)
Patterns of group dominance, exploitation, and hate in the United States and globally. Emphasis on sexism, racism, and classism with some attention to other systems of oppression such as heterosexism and ageism.

**SOC 3121. Sociology of Gender and Sexuality.** (HDIV; 4 cr; prerequisite 1101 or Anth 1111 or #; fall, every year)
Introduces students to the sociological study of gender and sexuality. Focuses on gender difference and gender inequality. Analyzes the changing roles, opportunities, and expectations of women and men as their societies (and subsequently, gender relations and power) undergo change in today's world. Following a theoretical overview, examines how gender and sexuality affect everyday experiences.

### American Sign Language Course Descriptions

**ASL 1001. Beginning American Sign Language I.** (4 cr; credit will not be granted if credit has been received for Ed 1011; fall, every year)
Students develop a working vocabulary of conceptually based signs. Emphasis is on receptive abilities. Students develop an awareness of the history of sign language and explore various signing systems, their most common uses, and the cultural rules and values of American Deaf culture.

**ASL 1002. Beginning American Sign Language II.** (FL; 4 cr; prerequisite 1001 or placement or #; credit will not be granted if credit has been received for Ed 1012; spring, offered periodically)
Continuation of the sequence beginning with 1001. Students develop a working vocabulary of conceptually based signs, receptive ability, and an awareness of the history of sign language. They also explore various signing systems, their most common uses, and the cultural rules and values of American Deaf culture.

### Anthropology (Anth)
#### Division of the Social Sciences
The anthropology curriculum, with support from sociology courses, focuses on providing a comparative understanding of the range of human cultures and societies throughout the world in both humanistic and social scientific terms. Anthropology applies this understanding to problems faced by different groups of people in the flux of the modern world. Courses meet the needs of liberal arts students and students planning to pursue anthropology at the graduate level.

**Objectives—**Anthropology courses are designed to provide an understanding of human beings and human society with respect to both biology and culture. Students are exposed to a broad historical and comparative framework within which to view the variety of human cultures. Coursework deals with concepts, techniques, and substantive knowledge of the branches of the field, e.g., physical anthropology, social and cultural anthropology, ethnology, archaeology, linguistics, and applied anthropology. (See Sociology for more information.)
Anthropology Major

Students develop a coherent program of study in consultation with their major adviser generally no later than the spring semester of their sophomore year.

Up to four credits of D+ or D may be used to meet the major requirements if offset by a sufficient number of higher grades to meet the minimum requirement of a cumulative GPA of 2.00 in all courses in the major. Courses may not be taken S-N unless offered S-N only.

The GPA includes all, and only, University of Minnesota coursework. Grades of "F" are included in GPA calculation until they are replaced.

Required Courses
- ANTH 1111 - Introductory Cultural Anthropology [SS] (4 cr)
- ANTH 2101 - Physical Anthropology [SCI-L] (4 cr)
- ANTH 2103 - Archaeology [SS] (4 cr)
- ANTH 4411 - Seminar in Anthropological Methodology [E/CR] (4 cr)
- ANTH 4901 - Seminar in Anthropological Theory (4 cr)

Elective Courses

An additional 16 credits in anthropology and sociology courses, 12 of which must be in courses 3xxx or above. No more than 8 credits can be from SOC courses.

Take at most 4 credits from the following:
- ANTH 1811 - Contemporary Chinese Culture and Society [IC] (4 cr)
- ANTH 1812 - Human Societies: Past and Present, Fact and Fiction [IC] (4 cr)
- ANTH 2202 - Men and Masculinities [SS] (4 cr)
- ANTH 2604 - China in the Era of Globalization [IP] (4 cr)
- ANTH 2605 - Anthropology of Globalization [SS] (4 cr)
- ANTH 2608 - Representations from the Field: American Indian Ethnography and Ethnohistory [HDIV] (4 cr)

Take 12 or more credits from the following:
- AMIN 3452 - American Indian Women [HDIV] (4 cr)
- ANTH 3204 - Culture, Food, and Agriculture [ENVT] (4 cr)
- ANTH 3206 - Ecological Anthropology [ENVT] (4 cr)
- ANTH 3352 - Representation and Power in Contemporary China [SS] (4 cr)
- ANTH 3402 - Representations from the Field: American Indian Ethnography and Ethnohistory [HDIV] (4 cr)
- ANTH 3455 - North American Archaeology [SS] (4 cr)
- ANTH 3601 - Social Justice and Human Rights in Latin America [IP] (4 cr)
- ANTH 3602 - Women in Latin America [IP] (4 cr)
- ANTH 3603 - Latin American Archaeology [SS] (4 cr)
- ANTH 3701 - Forensic Anthropology [SCI-L] (4 cr)
- ANTH 4501 - Archaeological Fieldschool [SS] (4 cr)
- HIST 3402 - Representations from the Field: American Indian Ethnography and Ethnohistory [HDIV] (4 cr)

Anthropology Minor

Up to four credits of D+ or D may be used to meet the minor requirements if offset by a sufficient number of higher grades to meet the minimum cumulative GPA of 2.00 in all courses included in the minor. Courses may not be taken S-N unless offered S-N only.

The GPA includes all, and only, University of Minnesota course work. Grades of "F" are included in GPA calculation until they are replaced.

Required Courses
- ANTH 1111 - Introductory Cultural Anthropology [SS] (4 cr)
- ANTH 2101 - Physical Anthropology [SCI-L] (4 cr)
- ANTH 2103 - Archaeology [SS] (4 cr)
- ANTH 4411 - Seminar in Anthropological Methodology [E/CR] (4 cr)

Elective Courses

An additional 8 credits in anthropology and sociology courses, 4 of which must be in courses 2xxx or above. No more than 4 credits can be from SOC courses.

Take at most 4 credits from the following:
- ANTH 1811 - Contemporary Chinese Culture and Society [IC] (4 cr)
- ANTH 1812 - Human Societies: Past and Present, Fact and Fiction [IC] (4 cr)
- ANTH 2202 - Men and Masculinities [SS] (4 cr)
- ANTH 2604 - China in the Era of Globalization [IP] (4 cr)
- ANTH 2605 - Anthropology of Globalization [SS] (4 cr)
- SOC 1101 - Introductory Sociology [SS] (4 cr)
- SOC 1811 - Global Sociology: Migration, Economic Globalization, Class, and Gender Inequality [IC] (2 cr)
- SOC 1812 - Human Rights in the Age of Globalization [IC] (2 cr)
- SOC 1813 - Political Economy of "Natural" Disaster [IC] (2 cr)
- SOC 1817 - Political Economy of "Natural" Disaster [IC] (2 cr)
- SOC 1818 - Human Rights in the Age of Globalization [IC] (2 cr)
- SOC 2101 - Systems of Oppression [HDIV] (4 cr)
- ANTH 1xxx, 2xxx
- SOC 1xxx, 2xxx

Take 4 or more credits from the following:
- AMIN 3452 - American Indian Women [HDIV] (4 cr)
- ANTH 3204 - Culture, Food, and Agriculture [ENVT] (4 cr)
- ANTH 3206 - Ecological Anthropology [ENVT] (4 cr)
- ANTH 3352 - Representation and Power in Contemporary China [SS] (4 cr)
- ANTH 3402 - Representations from the Field: American Indian Ethnography and Ethnohistory [HDIV] (4 cr)
- ANTH 3455 - North American Archaeology [SS] (4 cr)
- ANTH 3601 - Social Justice and Human Rights in Latin America [IP] (4 cr)
- ANTH 3602 - Women in Latin America [IP] (4 cr)
- ANTH 3603 - Latin American Archaeology [SS] (4 cr)
- ANTH 3701 - Forensic Anthropology [SCI-L] (4 cr)
- ANTH 4501 - Archaeological Fieldschool [SS] (4 cr)
- HIST 3402 - Representations from the Field: American Indian Ethnography and Ethnohistory [HDIV] (4 cr)
- SOC 2101 - Systems of Oppression [HDIV] (4 cr)
- SOC 3103 - Research Methodology in Sociology [SS] (4 cr)
- SOC 3111 - Sociology of Modernization [IP] (4 cr)
- SOC 3112 - Sociology of the Environment and Social Development [ENVT] (4 cr)
- SOC 3121 - Sociology of Gender and Sexuality [HDIV] (4 cr)
- SOC 3122 - Sociology of Childhoods [HDIV] (4 cr)
- SOC 3123 - Sociology of Aging [HDIV] (4 cr)
- SOC 3124 - Sociology of Law [SS] (4 cr)
- SOC 3131 - World Population [ENVT] (4 cr)
- SOC 3141 - Sociology of Deviance [E/CR] (4 cr)
- SOC 3204 - Culture, Food, and Agriculture [ENVT] (4 cr)
- SOC 3251 - African Americans [HDIV] (4 cr)
- SOC 3252 - Women in Muslim Society [IP] (4 cr)
- SOC 3403 - Sociological Theory [SS] (4 cr)
- SOC 3601 - Social Justice and Human Rights in Latin America [IP] (4 cr)
- SOC 3602 - Women in Latin America [IP] (4 cr)
- ANTH 3xxx, 4xxx
- SOC 2xxx, 3xxx, 4xxx
Teacher Preparation Requirements
Students seeking teaching licensure in social studies 5–12 should refer to the Education, Secondary (SeEd) section of this catalog.

Anthropology Course Descriptions

ANTH 1111. Introductory Cultural Anthropology. (SS; 4 cr; fall, spring, every year)
Varieties and range of human behavior as revealed through the comparative study of cultures throughout the world. Concepts developed by anthropologists to explain both the unity and diversity of humankind.

ANTH 1811. Contemporary Chinese Culture and Society. (IC; 4 cr; prereq new college student in their first semester of enrollment at UMM; fall, offered periodically)
Overview of the cultural unity and diversity of contemporary Chinese society in relation to globalization and modernization. Focus is largely on the social changes and everyday life in the post-reform era (1978 to the present). Topics include Chinese politics, economic development, labor migration, family life, marriage, religion, ethnicity, and popular culture. Also, examination of the globalizing forces that help produce cross-cultural imageries of China.

ANTH 1812. Human Societies: Past and Present, Fact and Fiction. (IC; 4 cr; prereq new college student in their first semester of enrollment at UMM; fall, offered periodically)
Consider fictional representations of human societies in the fantasy, science fiction, and alternate history genres. Compare these to ethnographic and archaeological readings, exploring the diversity of human societies all around the world, from our earliest human ancestors through the modern era, with particular focus on social/political structures, gender roles, religion, and ethnicity. Consider what factors most strongly affect the structure of human societies, how these are or are not reflected in fiction, and how fiction reflects the authors' beliefs of what constitute the fundamental aspects of humankind, human personalities, and human societies.

ANTH 1993. Directed Study. (1-5 cr; max 10 cr; prereq approved directed study form; fall, spring, every year)
Individualized on- or off-campus research project or other learning activity not covered in the regular Anthropology curriculum. Topic determined by the student and instructor.

ANTH 2101. Physical Anthropology. (SCI-L; 4 cr; A-F only; spring, every year)

ANTH 2103. Archaeology. (SS; 4 cr; fall, every year)
Survey of prehistoric and early historic cultures from around the world. Covers the development of hunting and gathering societies, origins of agriculture, and growth of urbanization and state-level societies. (two 65-minute lectures, one 120-minute lab session)

ANTH 2202. Men and Masculinities. (SS; 4 cr; prereq some academic background or knowledge about gender and sexuality is recommended; fall, offered periodically)
Introduction to the field of men and masculinity. Examines cultural construction of masculinity in sports, family, work, media, and other social realms, with a focus on contemporary American, Chinese, Mexican, and Japanese societies. Highlights the multiple masculinities that exist, showing which are privileged and what effects this hierarchy of masculinities has. Topics include men's movements and networks, men's socialization, male sexuality and fertility, male aggression and violence, the idea of machismo, intimacy and friendship among males, fatherhood, men's experiences with sports and work, media representations of boys and men, and the social construction of masculinities in different historical and cultural contexts. Helps students understand how masculinity as a social concept affects their relationships with the people in their lives, approaching gender problems in a rational way, and developing cultural sensitivity toward masculinity issues.

ANTH 2604. China in the Era of Globalization. (IP; 4 cr; spring, offered periodically)
A seminar exploring the multifaceted nature of contemporary globalization and the transnational forces that have greatly contributed to the social, cultural, political, and economic changes in post-reform (1978-present) China and the diasporic Chinese communities. Examines the key concepts and theoretical frameworks of globalization, transnationalism, and economic development. Major topics include the interconnected relationship between the global economy and China's domestic labor migration; increasing social stratification and gender inequality in mainland China; the rise of consumerism and the emergence of a global market for Chinese cultural media; cross-cultural romance, marriages, and families; nationalism and collective identity in China and the Chinese diaspora, and so on. Offers important bases for a critical evaluation of the significant roles that contemporary Chinese economy and society play in the era of globalization.

ANTH 2605. Anthropology of Globalization. (SS; 4 cr; prereq knowledge about or background in anthropology or behavioral sciences is recommended; spring, offered periodically)
Globalization is one of the fundamental keywords of contemporary human life, yet there is a substantial debate about its nature, impact, trajectory, and future. Explore some of the most important aspects of globalization and seek to understand how various peoples around the world have experienced the process of globalization. Introduction to three interconnected frameworks on globalization: 1) take an initial economic approach to globalization, and examine how globalization reshapes local, regional, and national economies; 2) explore how globalization is also a cultural process, affecting ideas of citizenship and identity; 3) look into the impact of globalization on other areas of social, political, and ecological life and explore alternative approaches to large-scale development and globalization.

ANTH 2993. Directed Study. (1-5 cr; max 10 cr; prereq approved directed study form; fall, spring, every year)
Individualized on- or off-campus research project or other learning activity not covered in the regular Anthropology curriculum. Topic determined by the student and instructor.

ANTH 3204. Culture, Food, and Agriculture. (ENVT; 4 cr; =SOC 3204; fall and spring, every year)
Same as Soc 3204. Examines the globalization of food systems utilizing a political ecology perspective to understand global and local dimensions of production, marketing, and consumption. Emphasis on connections between food production and national identity, relations of power, genetic engineering, environmental destruction, the politics of world hunger, and local efforts to achieve sustainability.

ANTH 3206. Ecological Anthropology. (ENVT; 4 cr; prereq 1111 or 2101 or 2103; fall, every year)
Exploration of human ecology and the causes and effects of environmental change, using data from archaeology, biological anthropology, and cultural anthropology. Emphasis on understanding the social and economic context of human adaptations to the environment. Examination of cultures worldwide and through time that have (or have failed to) live sustainably.

ANTH 3352. Representation and Power in Contemporary China. (SS; 4 cr; prereq some background or knowledge about Chinese history and Chinese society is recommended; spring, offered periodically)
Look into contemporary Chinese society and culture, along with recent debates in social theory and theories of representation. Critically examine the categories and assumptions we bring to the study of contemporary China and how we might rethink them. Explore a wide range of topics, including the "birth" of middle-class subjectivity, the varied modes of nostalgia about the socialist past, the discourse of "quality" (suzhi) as a marker of modernity, the constitution of gendered identities, the signifying economy of the everyday, the commodification of the body, and so on. Overall, study the complicated politics of representation in relation to China's consistent pursuit of modernity and drastic social transformation in the past few decades.

ANTH 3402. Representations from the Field: American Indian Ethnography and Ethnhistory. (HDIV; 4 cr; =HIST 3402; fall, offered periodically)
Same as Hist 3402. An analysis of ethnographic and ethnohistoric materials focusing on specific American Indian cultures.

ANTH 3455. North American Archaeology. (SS; 4 cr; prereq 1111 or 2103; fall, spring, offered periodically)
The archaeology of the societies located in the current United States and Canada prior to European colonization. Includes the earliest human colonization of North America (circa 12,000 years ago), early hunting and gathering societies, the development of agriculture, and the formation of complex chiefdoms. Emphasis on the diversity of
cultures, languages, economies, and environments found throughout precontact North America.

**ANTH 3601. Social Justice and Human Rights in Latin America.** (IP; 4 cr; [SOC 3601]; prereq 1111 or Soc 1101 or #; fall, every year) Same as Soc 3601. Examination of social, economic, and political transformations in Latin America with an emphasis on social justice and human rights. Critical approaches to understand U.S.-Latin American relations, labor struggles, rebellions to define alternative development, indigenous resistance to encroachment on resources and ways of life, civil war and genocide, and efforts to create a more environmentally and socially sustainable development.

**ANTH 3602. Women in Latin America.** (IP; 4 cr; =SOC 3602; prereq 1111 or Soc 1101 or #; spring, every year) Same as Soc 3602. Study of the social, economic, and political positions of women in Latin American countries. Topics include class and ethnic differences, women in the labor force, and women's participation in political movements through the lens of feminist theory.

**ANTH 3603. Latin American Archaeology.** (SS; 4 cr; prereq 1111 or 2103; fall, spring, offered periodically) Latin America from the earliest human colonization to European contact. Includes societies from northern Mexico through Tierra del Fuego, as well as the Caribbean. Covers early hunting gathering societies, origins of agriculture, the rise of powerful states and empires, and their influence on later Colonial-period societies.

**ANTH 3701. Forensic Anthropology.** (SCI-L; 4 cr; prereq 2101 or Biol 2102; fall, odd years) Recovery, identification, and analysis of human skeletal remains, including investigation techniques, identification of age, sex, ancestry, and cause of death. Two 65-min lectures and one 2-hour lab weekly.

**ANTH 3993. Directed Study.** (1-5 cr [max 10 cr]; prereq approved directed study form; fall, spring, every year) Individualized on- or off-campus research project or other learning activity not covered in the regular anthropology curriculum. Topic determined by the student and instructor.

**ANTH 4411. Seminar in Anthropological Methodology.** (E/CR; 4 cr; A-F only; prereq 1111 or Soc 1101, 4 addtl cr in Anth or Soc; fall, every year) Exploration and evaluation of methods used in cultural anthropology; qualitative methods; research ethics; and design of qualitative research project.

**ANTH 4501. Archaeological Fieldschool.** (SS; 4 cr [max 8 cr]; prereq #; summer, offered periodically) Experience in archaeological fieldwork, including excavation, survey, artifact processing, and living under field conditions.

**ANTH 4901. Seminar in Anthropological Theory.** (4 cr; A-F only; prereq 1111 or Soc 1101, 4 addtl cr in Anth or Soc; spring, every year) Examines the historical development of anthropological theory, influences that shaped historical and contemporary anthropological theories, and major debates regarding their interpretation.

**ANTH 4993. Directed Study.** (1-5 cr [max 10 cr]; prereq approved directed study form; fall, spring, every year) Individualized on- or off-campus research project or other learning activity not covered in the regular anthropology curriculum. Topic determined by the student and instructor.

## Art History Major

No grades below C- are allowed. Courses may not be taken S-N unless offered S-N only.

A minimum GPA of 2.00 is required in the major to graduate. The GPA includes all, and only, University of Minnesota coursework. Grades of "F" are included in GPA calculation until they are replaced.

### Required Courses

- **ARTH 1101 - Principles of Art [FA] (4 cr)**
- **ARTH 1111 - Ancient to Medieval Art [FA] (4 cr)**
- **ARTH 1121 - Renaissance to Modern Art [FA] (4 cr)**
- **ARTH 4901 - Capstone Assessment of Student Experience in Art History (1 cr)**

### Basic Studio or Two Courses in 2 different media

Basic Studio is preparation for advanced work in studio art. The three related parts must be taken concurrently and in sequence. Two 1xxx ARTS courses, in two different media, may substitute for the Basic Studio sequence.

### First Term of Basic Studio

- **ARTS 1101 - Basic Studio Drawing [ART/P] (2 cr)**
- **ARTS 1103 - Basic Studio 2-D Design [ART/P] (2 cr)**
- **ARTS 1105 - Basic Studio Discussion I [ART/P] (1 cr)**

### -and- Second Term of Basic Studio

- **ARTS 1102 - Basic Studio Drawing II [ART/P] (2 cr)**
- **ARTS 1104 - Basic Studio 3-D Design [ART/P] (2 cr)**
- **ARTS 1106 - Basic Studio Discussion II [ART/P] (1 cr)**

**or 1xxx-level ARTS Courses (in 2 different media)**

Take exactly 2 course(s) totaling 6 or more credits from the following:

- **ARTS 1001 - Visual Studies for Non-Majors: Drawing [ART/P] (3 cr)**
- **ARTS 1002 - Visual Studies for Non-Majors: Digitally Assisted Design [ART/P] (3 cr)**
- **ARTS 1003 - Visual Studies for Non-Majors: Beginning Painting [ART/P] (3 cr)**
- **ARTS 1004 - Visual Studies for Non-Majors: Printmaking [ART/P] (3 cr)**
- **ARTS 1005 - Visual Studies for Non-Majors: Photography [ART/P] (3 cr)**
- **ARTS 1050 - Beginning Ceramics [ART/P] (3 cr)**
- **ARTS 1300 - Watercolor Painting [ART/P] (3 cr)**

### Elective Courses

Take 24 or more credits from the following:

- **ARTH 3101 - Art and Archaeology of Ancient Greece [FA] (4 cr)**
- **ARTH 3111 - Art and Archaeology of Ancient Rome [FA] (4 cr)**
- **ARTH 3112 - Art and the Byzantine Empire [FA] (4 cr)**
- **ARTH 3113 - Islamic Art and Culture [FA] (4 cr)**
- **ARTH 3133 - Boundaries and Transitions in Medieval Art [FA] (4 cr)**
- **ARTH 3142 - Art of the Italian Renaissance, 1300-1520 [FA] (4 cr)**
- **ARTH 3161 - 16th-Century Italian Art [FA] (4 cr)**
- **ARTH 3171 - Baroque Art [FA] (4 cr)**
- **ARTH 3191 - American Art to 1900 [FA] (4 cr)**
- **ARTH 3201 - 19th-Century European Art through Post-Impressionism [FA] (4 cr)**
- **ARTH 3211 - Early Modernist Art: Symbolism to Surrealism [FA] (4 cr)**
- **ARTH 3221 - American Art from the End of Modernism to the Postmodern Present [FA] (4 cr)**
- **ARTH 3231 - History of Photography [FA] (4 cr)**
- **ARTH 3241 - African American Art [FA] (4 cr)**
- **ARTH 3261 - Chinese Art [FA] (4 cr)**
- **ARTH 3281 - Women and Art [FA] (4 cr)**
- **ARTH 3291 - Facing the Past: Portraiture and Social History [FA] (4 cr)**
- **ARTH 3311 - Italian Renaissance and Baroque Art in Context (1 cr)**
- **ARTH 3xxx - 3xxx**

## Art History Minor

No grades below C- are allowed. Courses may not be taken S-N, unless offered S-N only.

A minimum GPA of 2.00 is required in the minor to graduate. The GPA includes all, and only, University of Minnesota coursework.
coursework. Grades of "F" are included in GPA calculation until they are replaced.

**Required Courses**
- ARTH 1101 - Principles of Art [FA] (4 cr)
- ARTH 1111 - Ancient to Medieval Art [FA] (4 cr)
- ARTH 1121 - Renaissance to Modern Art [FA] (4 cr)

**Elective Courses**
*Take 12 or more credits from the following:*
- ARTH 3101 - Art and Archaeology of Ancient Greece [FA] (4 cr)
- ARTH 3111 - Art and Archaeology of Ancient Rome [FA] (4 cr)
- ARTH 3112 - Art and the Byzantine Empire [FA] (4 cr)
- ARTH 3113 - Islamic Art and Culture [FA] (4 cr)
- ARTH 3133 - Boundaries and Transitions in Medieval Art [FA] (4 cr)
- ARTH 3142 - Art of the Italian Renaissance, 1300-1520 [FA] (4 cr)
- ARTH 3161 - 16th-Century Italian Art [FA] (4 cr)
- ARTH 3171 - Baroque Art [FA] (4 cr)
- ARTH 3191 - American Art to 1900 [FA] (4 cr)
- ARTH 3201 - 19th-Century European Art through Post-Impressionism [FA] (4 cr)
- ARTH 3211 - Early Modernist Art: Symbolism to Surrealism [FA] (4 cr)
- ARTH 3221 - American Art from the End of Modernism to the Present [FA] (4 cr)
- ARTH 3231 - History of Photography [FA] (4 cr)
- ARTH 3241 - African American Art [FA] (4 cr)
- ARTH 3261 - Chinese Art [FA] (4 cr)
- ARTH 3281 - Women and Art [FA] (4 cr)
- ARTH 3291 - Facing the Past: Portraiture and Social History [FA] (4 cr)
- ARTH 3311 - Italian Renaissance and Baroque Art in Context (1 cr)

**Art History Course Descriptions**

**ARTH 1101. Principles of Art.** (FA; 4 cr; fall, spring, every year)
An introduction to the theories, methods, and vocabulary of art history. Involves development of basic skills of research, analysis, and interpretation of individual works of art. Helps the student to understand the intrinsic as well as the historical-cultural meanings of works of art.

**ARTH 1111. Ancient to Medieval Art.** (FA; 4 cr; fall, every year)
Survey of the major works of art of western Europe from its origins in the Paleolithic period through to the full development of the Gothic era. Includes the monuments of ancient Mesopotamia, Egypt, Greece, and Rome as well as those of the Early Christian and Romanesque periods. Also includes some treatment of non-Western traditions in this era.

**ARTH 1121. Renaissance to Modern Art.** (FA; 4 cr; spring, every year)
Survey of the major works of art of western Europe and the United States from 1400 to the present.

**ARTH 1801. Memorials and Memorialization.** (IC; 2 cr; prereq new college student in their first semester of enrollment at UMM; fall, offered periodically)
In what ways have cultures throughout time sought to commemorate life and death through visual form? And why has memorialization become so potent in recent decades? Consider various forms of memorials, including monuments, tombstones, quilts, and tattoos, and examine how these visual media express that which may elude words.

**ARTH 3101. Art and Archaeology of Ancient Greece.** (FA; 4 cr; prereq any 1xxx ArtH course or jr status or #; fall, odd years)
Beginning with the Bronze Age civilizations of the Aegean (Minoan, Cycladic, and Mycenaean), this course follows the development of the painting, sculpture, and architecture of ancient Greece, concentrating on the classical period in Athens and the Hellenistic period in the Mediterranean.

**ARTH 3111. Art and Archaeology of Ancient Rome.** (FA; 4 cr; prereq any 1xxx ArtH course or jr status or #; spring, odd years)
In-depth study of Roman art and archaeology beginning with the Villanovans and Etruscans who preceded the Romans and ending with the rise of Early Christian art. Concentration on the public and political art of the various emperors.

**ARTH 3112. Art and the Byzantine Empire.** (FA; 4 cr; prereq any 1xxx ArtH course or jr status or #; fall, even years)
A chronological and socio-political exploration of the development of art within the Byzantine Empire. The various roles that this art took within and beyond the borders of Byzantium.

**ARTH 3113. Islamic Art and Culture.** (FA; 4 cr; prereq any 1xxx ArtH course or jr status or #; spring, even years)
An investigation of Islamic art and architecture in both the secular and religious realm. Examination of these works in the context of the cultures and historical periods that produced them. Begins with the birth of Islamic art and continues up until today.

**ARTH 3132. Castles and Cathedrals.** (FA; 4 cr; prereq any 1xxx ArtH course or jr status or #; spring, odd years)
An investigation of the two major forms of architectural construction in the Middle Ages. Exploration of the development of the cathedral and castle as architectural forms and examination of the circumstances surrounding their evolution through the medieval period. Examples are drawn from continental Europe, the British Isles, and the Levant.

**ARTH 3133. Boundaries and Transitions in Medieval Art.** (FA; 4 cr; prereq any 1xxx ArtH course or jr status or #; spring, even years)
A thematic look at medieval art and architecture beyond the traditional focuses of inquiry such as Constantinople, Rome, and Paris. An examination of the art and architecture of the periods and areas of transition that are typically ignored or glossed over as derivative such as Late Antique, Crusader, and Ottoman.

**ARTH 3142. Art of the Italian Renaissance, 1300-1520.** (FA; 4 cr; prereq any 1xxx ArtH course or jr status or #; spring, odd years)
A variety of methods (including stylistic, gender, and contextual theories) are used to explore the painting and sculpture of such artists as Giotto, Donatello, Leonardo, Raphael, and Michelangelo.

**ARTH 3143. Medieval Art in the Mediterranean: Cross-Cultural Exchanges and Interactions.** (FA; 4 cr; prereq any 1xxx ArtH course or jr status or #; offered, periodically)
A chronological examination of Byzantine, Islamic, and Western medieval art in the Mediterranean basin between the 4th and 15th centuries. Introduction to the interactions and exchanges between different visual and material cultures. Topics include devotional art, the rise of Islam, court culture, pilgrimage, relics, and crusades.

**ARTH 3161. 16th-Century Italian Art.** (FA; 4 cr; prereq any 1xxx ArtH course or jr status or #; fall, odd years)
An investigation of the fascinating trends of Mannerist and Venetian Renaissance art, considered through the lenses of art theory, biography, social history, and style.

**ARTH 3171. Baroque Art.** (FA; 4 cr; prereq any 1xxx ArtH course or jr status or #; spring, odd years)
A sociohistorical consideration of the stylistic and thematic diversity present in the works of such 17th-century masters as Caravaggio, Bernini, Velazquez, Rembrandt, and Vermeer.

**ARTH 3191. American Art to 1900.** (FA; 4 cr; prereq any 1xxx ArtH course or jr status or #; fall, odd years)
A thematic exploration of the role of painting, sculpture, and the decorative arts in American society, from colonial times to 1900. Topics include the landscape and Manifest Destiny, American icons, folk art, and the representation of American Indians, African Americans, and women.

**ARTH 3201. 19th-Century European Art through Post-Impressionism.** (FA; 4 cr; prereq any 1xxx ArtH course or jr status or #; fall, odd years)
Survey of major movements from Neoclassicism through Romanticism, Realism, and Impressionism to Post-Impressionism. Attention is given to iconographical and formal analysis as well as to the social conditions in which artists lived and worked.

**ARTH 3211. Early Modernist Art: Symbolism to Surrealism.** (FA; 4 cr; prereq any 1xxx ArtH course or jr status or #; spring, odd years)
Survey of the major early modernist movements from Symbolism through Cubism, Futurism, Expressionism, Constructivism, De Stijl, and the Bauhaus to Surrealism. Attention is given to theories of modern art as well as to formal and iconographical analyses and to the social conditions in which modern art was created and experienced.
An examination of selected artists and movements from the 1940s postmodernist aesthetic and critical thought. An individualized, hands-on, guided study of the process of teaching art, working in relation to the Art Gallery program, or travel and study. An opportunity to view and interpret art of the Renaissance and Baroque periods (c. 1400-1700) in its original contexts in Italy and to secondary school teaching.

**Art, Studio (ArtS)**

**Division of the Humanities**

Studio art includes studies in the traditional areas of the visual arts, as well as in contemporary concerns and techniques. Students are introduced to the skills of critical analysis of works of art and to a variety of media and approaches to their use. In addition, the discipline supports co-curricular activities, including the UMM Student Art Club, student exhibitions, and guest speakers. Objectives—The goal of the studio art curriculum is to introduce students to the technical, conceptual, and communication skills necessary for activities in the visual arts and to help students understand the major traditions and the cultural significance of the visual arts. Studio courses serve the needs of students planning to pursue graduate studies in art, students interested in exploring their own creative potential as part of their general education, and students preparing for secondary school teaching.

**Art, Studio Major**

Studio courses are assessed an individual lab fee. No grades below C- are allowed. Courses may not be taken S-N, unless offered S-N only. A minimum GPA of 2.00 is required in the major to graduate. The GPA includes all, and only, University of Minnesota coursework. Grades of "F" are included in GPA calculation until they are replaced.

**Required Courses**

Basic studio is preparation for advanced work in studio art. The three related parts must be taken concurrently and in sequence during the first year. One 1xxx art history course is also recommended during the first year.

**First Term of Basic Studio**

- **ARTS 1101** - Basic Studio Drawing I [ART/P] (2 cr) with ARTS 1103 - Basic Studio 2-D Design [ART/P] (2 cr)
- **ARTS 1105** - Basic Studio Discussion I [ART/P] (1 cr)

**Second Term of Basic Studio**

- **ARTS 1102** - Basic Studio Drawing II [ART/P] (2 cr) with ARTS 1104 - Basic Studio 3-D Design [ART/P] (2 cr)
- **ARTS 1106** - Basic Studio Discussion II [ART/P] (1 cr)

**Second Year Drawing**

- **ARTS 2101** - Drawing From Life I [ART/P] (3 cr)
- **ARTS 2102** - Drawing From Life II [ART/P] (3 cr)

Second Year Portfolio Review

**Senior Thesis Project**

- **ARTS 4902** - Senior Thesis Project I (2 cr)
- **ARTS 4903** - Senior Thesis Project II (1 cr)

**Concentrated Studio Art Courses—First Medium**

**Printmaking**

- **complete 12 credits**
  - **ARTS 3200** - Printmaking Studio I [ART/P] (3 cr)
  - **ARTS 3210** - Printmaking Studio II [ART/P] (3 cr)

**Painting**

- **complete 12 credits**
  - **ARTS 3300** - Painting Studio I [ART/P] (3 cr)
  - **ARTS 3310** - Painting Studio II [ART/P] (3 cr)

**Sculpture**

- **complete 12 credits**
  - **ARTS 3400** - Sculpture Studio I [ART/P] (3 cr)
  - **ARTS 3410** - Sculpture Studio II [ART/P] (3 cr)

**Ceramics**

- **complete 12 credits**
  - **ARTS 1050** - Beginning Ceramics [ART/P] (3 cr)
  - **ARTS 3650** - Advanced Ceramics [ART/P] (3 cr)
or Drawing
complete 12 credits
ARTS 3100 - Advanced Drawing I [ART/P] (3 cr)
ARTS 3110 - Advanced Drawing II [ART/P] (3 cr)

or Photography/Digital Imaging
complete 12 credits
ARTS 3500 - Photographic and Digital Processes I [ART/P] (3 cr)
ARTS 3510 - Photographic and Digital Processes II [ART/P] (3 cr)

Concentrated Studio Art Courses – Second Medium
The medium chosen must be different from first medium

Printmaking
complete 6 credits
ARTS 3200 - Printmaking Studio I [ART/P] (3 cr)
ARTS 3210 - Printmaking Studio II [ART/P] (3 cr)

Painting
complete 6 credits
ARTS 3300 - Painting Studio I [ART/P] (3 cr)
ARTS 3310 - Painting Studio II [ART/P] (3 cr)

Sculpture
complete 6 credits
ARTS 3400 - Sculpture Studio I [ART/P] (3 cr)
ARTS 3410 - Sculpture Studio II [ART/P] (3 cr)

Ceramics
complete 6 credits
ARTS 1050 - Beginning Ceramics [ART/P] (3 cr)
ARTS 3650 - Advanced Ceramics [ART/P] (3 cr)

Drawing
complete 6 credits
ARTS 3100 - Advanced Drawing I [ART/P] (3 cr)
ARTS 3110 - Advanced Drawing II [ART/P] (3 cr)

Photography/Digital Imaging
complete 6 credits
ARTS 3500 - Photographic and Digital Processes I [ART/P] (3 cr)
ARTS 3510 - Photographic and Digital Processes II [ART/P] (3 cr)

Elective Courses
An additional 15 credits in art, studio (exclusive of those used to meet required courses) and art history. Art, studio electives can be selected from any medium above or the following:

Art Studio Electives
Take 3 or more credits from the following:
ARTS 3002 - Media Studies: Artist's Books [ART/P] (3 cr)
ARTS 3004 - Media Studies: Mural Project and Public Art [ART/P] (3 cr)
ARTS 3006 - Media Studies: Feminist Art: A Studio Perspective [ART/P] (3 cr)
ARTS 3007 - Media Studies: Printmaking [ART/P] (3 cr)
ARTS 3012 - Media Studies: Ceramics [ART/P] (3 cr)
ARTS 3013 - Media Studies: Painting [ART/P] (3 cr)
ARTS 3xxx, 3xxx, 4xxx

Art History Electives
Take 12 or more credits from the following:
ARTH 1101 - Principles of Art [FA] (4 cr)
ARTH 1111 - Ancient to Medieval Art [FA] (4 cr)
ARTH 1121 - Renaissance to Modern Art [FA] (4 cr)
ARTH 3101 - Art and Archaeology of Ancient Greece [FA] (4 cr)
ARTH 3111 - Art and Archaeology of Ancient Rome [FA] (4 cr)
ARTH 3112 - Art and the Byzantine Empire [FA] (4 cr)
ARTH 3113 - Islamic Art and Culture [FA] (4 cr)
ARTH 3142 - Art of the Italian Renaissance, 1300-1520 [FA] (4 cr)
ARTH 3161 - 16th-Century Italian Art [FA] (4 cr)
ARTH 3171 - Baroque Art [FA] (4 cr)
ARTH 3191 - American Art to 1900 [FA] (4 cr)
ARTH 3201 - 19th-Century European Art through Post-Impressionism [FA] (4 cr)
ARTH 3211 - Early Modernist Art: Symbolism to Surrealism [FA] (4 cr)
ARTH 3221 - American Art from the End of Modernism to the Postmodern Present [FA] (4 cr)
ARTH 3231 - History of Photography [FA] (4 cr)
ARTH 3241 - African American Art [FA] (4 cr)
ARTH 3261 - Chinese Art [FA] (4 cr)
ARTH 3281 - Women and Art [FA] (4 cr)
ARTH 3291 - Facing the Past: Portraiture and Social History [FA] (4 cr)
ARTH 3311 - Italian Renaissance and Baroque Art in Context (1 cr)

Studio Art Minor
Studio courses are assessed an individual lab fee.
No grades below C- are allowed. Courses may not be taken S-N, unless offered S-N only.
A minimum GPA of 2.00 is required in the minor to graduate. The GPA includes all, and only, University of Minnesota coursework. Grades of “F” are included in GPA calculation until they are replaced.

Required Courses
Basic studio is preparation for advanced work in studio art. The three related parts must be taken concurrently and in sequence during the first year. One 1xxx art history course is also recommended during the first year.

First Term of Basic Studio
ARTH 1101 - Basic Studio Drawing I [ART/P] (2 cr)
with ARTH 1103 - Basic Studio 2-D Design [ART/P] (2 cr)
with ARTH 1105 - Basic Studio Discussion I [ART/P] (1 cr)

Second Term of Basic Studio
ARTH 1102 - Basic Studio Drawing II [ART/P] (2 cr)
with ARTH 1104 - Basic Studio 3-D Design [ART/P] (2 cr)
with ARTH 1106 - Basic Studio Discussion II [ART/P] (1 cr)

Drawing
ARTS 2101 - Drawing From Life I [ART/P] (3 cr)
ARTS 2102 - Drawing From Life II [ART/P] (3 cr)

Concentrated Studio Art Courses
Complete one 12-credit sequence in one major medium or two 6-credit sequences in different media.

A Single 12-Credit Sequence

Printmaking
Take exactly 12 credits from the following:
ARTS 3200 - Printmaking Studio I [ART/P] (3 cr)
ARTS 3210 - Printmaking Studio II [ART/P] (3 cr)

Painting
Take exactly 12 credits from the following:
ARTS 3300 - Painting Studio I [ART/P] (3 cr)
ARTS 3310 - Painting Studio II [ART/P] (3 cr)

Sculpture
Take exactly 12 credits from the following:
ARTS 3400 - Sculpture Studio I [ART/P] (3 cr)
ARTS 3410 - Sculpture Studio II [ART/P] (3 cr)

Ceramics
Take exactly 12 credits from the following:
ARTS 3xxx, 3xxx, 4xxx

Two 6-Credit Sequences
Take 2 or more sub-requirements from the following:

Printmaking
Take exactly 6 credits from the following:
ARTS 3200 - Printmaking Studio I [ART/P] (3 cr)
ARTS 3210 - Printmaking Studio II [ART/P] (3 cr)

Painting
Take exactly 6 credits from the following:
ARTS 3300 - Painting Studio I [ART/P] (3 cr)
ARTS 3310 - Painting Studio II [ART/P] (3 cr)

81
Sculpture
Take exactly 6 credits from the following:
ARTS 3400 - Sculpture Studio I [ART/P] (3 cr)
ARTS 3410 - Sculpture Studio II [ART/P] (3 cr)

Ceramics
Take exactly 6 credits from the following:
ARTS 1050 - Beginning Ceramics [ART/P] (3 cr)
ARTS 3650 - Advanced Ceramics [ART/P] (3 cr)

Drawing
Take exactly 6 credits from the following:
ARTS 3100 - Advanced Drawing I [ART/P] (3 cr)
ARTS 3110 - Advanced Drawing II [ART/P] (3 cr)

Photography/Digital Imaging
Take exactly 6 credits from the following:
ARTS 3500 - Photographic and Digital Processes I [ART/P] (3 cr)
ARTS 3510 - Photographic and Digital Processes II [ART/P] (3 cr)

Teacher Preparation Requirements
Students seeking teaching licensure in visual arts K–12 should refer to the Education, Secondary (SeEd) section of this catalog.

Art, Studio Course Descriptions

ARTS 1001. Visual Studies for Non-Majors: Drawing. (ART/P; 3 cr [max 6 cr]; ARTS 1080, ARTS 1070; no elective cr for Arts majors or minors; fall, spring, offered periodically)
For nonmajors with little or no experience in drawing. Exploration of observational drawing skills through line work in contour and gesture, continuing with studies in value, texture, and space. Contemporary and traditional modes of drawing explored using a variety of materials.

ARTS 1002. Visual Studies for Non-Majors: Digitally Assisted Design. (ART/P; 3 cr [max 6 cr]; no elective cr for Arts majors or minors; fall, spring, offered periodically)
Development of skills necessary to produce digital imagery, including fundamental aesthetic concerns (composition, color theory, marking, etc.) and knowledge of digital media with emphasis on the technical, conceptual, aesthetic, and ethical aspects of digital imaging as an artistic medium.

ARTS 1003. Visual Studies for Non-Majors: Beginning Painting. (ART/P; 3 cr; max 6 cr; no elective cr for Arts majors or minors; fall, spring, offered periodically)
The development of painting as a means of artistic expression including basic technical, material, and formal compositional problems. For nonmajors with little or no previous experience in painting.

ARTS 1004. Visual Studies for Non-Majors: Printmaking. (ART/P; 3 cr; max 6 cr; no elective cr for Arts majors or minors; fall, spring, offered periodically)
Development of skills necessary to produce imagery using printmaking as a means of expression, including the development of fundamental aesthetic concerns (composition, color theory, marking, etc.). For nonmajors with little or no studio experience.

ARTS 1005. Visual Studies for Non-Majors: Photography. (ART/P; 3 cr; max 6 cr; no elective cr for Arts majors or minors; fall, spring, offered periodically)
Development of skills necessary to produce imagery using black and white photography as a means of expression, including an introduction to processes, materials, brief history, and critical skills to evaluate photographs. Students must provide their own 35 mm cameras. For nonmajors with little or no studio experience.

ARTS 1050. Beginning Ceramics. (ART/P; 3 cr; max 6 cr; fall, every year)
Personal expression through the medium of clay. Topics include forming methods using stoneware and porcelain (hand building and wheel techniques), glazing, the nature of clay, glaze chemistry, firing, and kilns.

ARTS 1101. Basic Studio Drawing I. (ART/P; 2 cr; coreq 1103, 1105; one 1xxx ArtH course recommended during the same year; fall, every year)
Preparation for advanced work in studio art. Basic exercises of drawing, use and exploration of materials and methods in line and form development, problems of spatial representation.

ARTS 1102. Basic Studio Drawing II. (ART/P; 2 cr; prereq 1101, coreq 1104, 1106; one 1xxx ArtH course recommended during the same year; spring, every year)
Preparation for advanced work in studio art. Basic exercises of drawing, use and exploration of materials and methods in line and form development, problems of spatial representation.

ARTS 1103. Basic Studio 2-D Design. (ART/P; 2 cr; coreq 1101, 1105; one 1xxx ArtH course recommended during the same year; fall, every year)
Preparation for advanced work in studio art. Elements of two-dimensional design and color theory, introduction to painting and printmaking.

ARTS 1104. Basic Studio 3-D Design. (ART/P; 2 cr; prereq 1103, coreq 1102, 1106; one 1xxx ArtH course recommended during the same year; spring, every year)
Preparation for advanced work in studio art. Elements of three-dimensional design, introduction to sculpture.

ARTS 1105. Basic Studio Discussion I. (ART/P; 1 cr; coreq 1101, 1103; one 1xxx ArtH course recommended during the same year; fall, every year)
Preparation for advanced work in studio art. Theories, philosophy, history of visual arts, contemporary trends in art, selected readings.

ARTS 1106. Basic Studio Discussion II. (ART/P; 1 cr; prereq 1105, coreq 1102, 1104; one 1xxx ArtH course recommended during the same year; spring, every year)
Preparation for advanced work in studio art. Theories, philosophy, history of visual arts, contemporary trends in art, selected readings.

ARTS 1300. Watercolor Painting. (ART/P; 3 cr; fall, spring, offered periodically)
An introduction to various painting techniques in watercolor.

ARTS 1801. Mural Project and Public Art. (IC: 2 cr; prereq new college student in their first semester of enrollment at UMM; fall, offered periodically)
Understanding and exploration of contemporary mural art through reading, writing, and production of art. Collaborative production of a large-scale painted mural in a public setting. Designed for students who have a working knowledge of the basic principles and skills of art such as drawing, 2D and 3D design, composition, and color theory.

ARTS 1802. 2D Studies in Printmaking. (IC: 2 cr; prereq new college student in their first semester of enrollment at UMM; fall, offered periodically)
Introduces two-dimensional design concerns through the study of traditional printmaking techniques. Referencing the rich history of socially engaged printmaking as a guide for their own creative process, students learn how to visually express their own ideas related to contemporary social, political, and environmental concerns.

ARTS 2101. Drawing From Life I. (ART/P; 3 cr; prereq major or minor or #; fall, every year)
Via the study of human anatomy, the course increases and improves students' knowledge and skill in drawing as a traditional art form and as a preparation for work in other media.

ARTS 2102. Drawing From Life II. (ART/P; 3 cr; prereq 2101 recommended; spring, every year)
Allows students to use skills previously gained that relate to drawing the human form in a more individual way, integrates those skills with new ideas, and explores experimental drawing directions.

ARTS 3002. Media Studies: Artist's Books. (ART/P; 3 cr [max 9 cr]; prereq major or minor or #; fall, spring, offered periodically)
Personal expression through artist's books. Designed for students who have a working knowledge of the basic principles and skills of art such as drawing, 2D and 3D design, composition, and color theory.

ARTS 3004. Media Studies: Mural Project and Public Art. (ART/P; 3 cr [max 9 cr]; prereq major or minor or #; fall, spring, offered periodically)
Understanding and exploration of contemporary mural art through reading, writing, and production of art. Collaborative production of a large-scale painted mural in a public setting. Designed for students who have a working knowledge of the basic principles and skills of art such as drawing, 2D and 3D design, composition, and color theory.
ARTS 3006. Media Studies: Feminist Art: A Studio Perspective. (ART/P; 3 cr [max 9 cr]; prereq major or minor or #; fall, spring, offered periodically)
The impact of the women’s movement of the 1970s on contemporary art. Exploration of the notion of “women’s work” as a studio practice; the materials, methods, and issues that define feminist work.

ARTS 3007. Media Studies: Printmaking. (ART/P; 3 cr [max 9 cr]; prereq major or minor or #; fall, spring, offered periodically)
Study of and practice in various contemporary methods of printmaking: application of drawing skills, color, composition, and personal expression to alternative printmaking techniques.

ARTS 3012. Media Studies: Ceramics. (ART/P; 3 cr [max 9 cr]; prereq major or minor in Arts; fall, spring, offered periodically)
Study of and practice in specialized methods and techniques in ceramics not covered under the regular curriculum.

ARTS 3013. Media Studies: Painting. (ART/P; 3 cr [max 9 cr]; prereq ArtS major or minor; fall, spring, offered periodically)
Study of and practice in various contemporary methods in painting: application of drawing skills, color, composition, and personal expression to alternative painting techniques.

ARTS 3014. Media Studies: Fabric as Form. (ART/P; 3 cr [max 9 cr]; prereq major or minor or #; fall, spring, summer, offered periodically)
Focus on the possibilities of fabric as the primary medium in art-making. Topics include surface manipulation via hand and mechanical processes and using fabric to construct independent forms.

ARTS 3100. Advanced Drawing I. (ART/P; 3 cr [max 9 cr]; prereq 2101, 2102 recommended; fall, every year)
Continued development of the skills and understandings required by traditional problems of drawing.

ARTS 3110. Advanced Drawing II. (ART/P; 3 cr [max 9 cr]; prereq 2101, 2102; 3100 recommended; spring, every year)
Emphasizes self-direction, experimental approaches and materials, and study of contemporary concepts.

ARTS 3200. Printmaking Studio I. (ART/P; 3 cr [max 9 cr]; prereq major or minor or # for nonmajor jrs and srs; fall, every year)
Study of and practice in various methods of printmaking: application of drawing skills, color, composition, and personal expression to printmaking techniques.

ARTS 3210. Printmaking Studio II. (ART/P; 3 cr [max 9 cr]; prereq major or minor or # for nonmajor jrs and srs; spring, every year)
Study of and practice in various methods of printmaking: application of drawing skills, color, composition, and personal expression to printmaking techniques.

ARTS 3300. Painting Studio I. (ART/P; 3 cr [max 9 cr]; prereq major or minor or # for nonmajor jrs and srs; fall, every year)
The development of painting as a means of artistic expression including basic technical, material, and formal compositional problems.

ARTS 3310. Painting Studio II. (ART/P; 3 cr [max 9 cr]; prereq major or minor or # for nonmajor jrs and srs; spring, every year)
The development of painting as a means of artistic expression including basic technical, material, and formal compositional problems.

ARTS 3400. Sculpture Studio I. (ART/P; 3 cr [max 9 cr]; prereq major or minor or # for nonmajor jrs and srs; fall, every year)
Exploration of sculpture as a means of artistic expression, including an introduction to the planning and construction of three-dimensional forms using both traditional and contemporary techniques.

ARTS 3410. Sculpture Studio II. (ART/P; 3 cr [max 9 cr]; prereq major or minor or # for nonmajor jrs and srs; spring, every year)
Exploration of sculpture as a means of artistic expression, including an introduction to the planning and construction of three-dimensional forms using both traditional and contemporary techniques.

ARTS 3500. Photographic and Digital Processes I. (ART/P; 3 cr [max 9 cr]; prereq major or minor or #; fall, every year)
The development of photographic and digital processes as a means of artistic expression including basic technical, material, and formal compositional problems.

ARTS 3510. Photographic and Digital Processes II. (ART/P; 3 cr [max 9 cr]; prereq major or minor or #; spring, every year)
The development of photographic and digital processes as a means of artistic expression including basic technical, material, and formal compositional problems.

ARTS 3650. Advanced Ceramics. (ART/P; 3 cr [max 9 cr]; prereq 1050 or #; fall, spring, offered periodically)
For students who have a working knowledge of basic forming and glazing techniques. Emphasis on advanced hand building and wheel techniques, critiques, glaze experiments, and firing. Assigned projects for the course may vary from semester to semester.

ARTS 3993. Directed Study. (1-5 cr [max 10 cr]; prereq approved directed study form; fall, spring, every year)
An on- or off-campus learning experience individually arranged between a student and a faculty member for academic credit in areas not covered in the regular curriculum.

ARTS 4902. Senior Thesis Project I. (2 cr; A-F only; prereq senior ArtS major, completion of Second Year Portfolio Review; fall, every year)
A two-semester sequential capstone course for majors, with a focus on the planning and preparation of a senior exhibit and the investigation of other professional skills. Students continue to develop and refine the thesis, slide lecture, and install work in the HFA Gallery during the spring semester. Students participate in a portfolio review by the studio art and art history faculty, concentrating on work from the major medium and other work completed since the Second-Year Portfolio Review. Time of the review is arranged through the discipline coordinator.

ARTS 4903. Senior Thesis Project II. (1 cr; A-F only; prereq 4902; spring, every year)
A two-semester sequential capstone course for majors, with a focus on the planning and preparation of a senior exhibit and investigation of other professional skills. Students continue to develop and refine the thesis, slide lecture, and install work in the HFA Gallery during the spring semester for the Senior Exhibit.

ARTS 4993. Directed Study. (1-5 cr [max 10 cr]; prereq approved directed study form; fall, spring, every year)
An on- or off-campus learning experience individually arranged between a student and a faculty member for academic credit in areas not covered in the regular curriculum.

Biology (Biol)
Division of Science and Mathematics

The biology curriculum is designed to provide students with biological knowledge and to develop scientific skills as part of their liberal arts education. Included in those skills are the abilities to conduct and interpret scientific research and to successfully communicate scientific information both verbally and in writing. The faculty believe these objectives can best be attained through a balanced core curriculum in biology and a diverse array of elective coursework, both of which include active lab and field experiences. The biology major prepares students for graduate or professional programs and for careers such as secondary biology education, government service, or private sector employment. The biology discipline also offers a variety of 10XX courses that are designed specifically for students seeking to fulfill general education requirements in science.

Biology Major

Courses may not be taken S-N unless offered S-N only. Up to 5 credits of coursework with a grade of D or D+ may be used to meet the major requirements if offset by an equivalent number of credits of A or B in the major. A minimum GPA of 2.00 is required in the major in order to graduate. The GPA includes all, and only, University of Minnesota coursework. Grades of “F” are included in GPA calculation until they are replaced.
Biology majors are advised to complete their chemistry and mathematics requirements as early as possible. All majors should have their programs approved by a biology adviser by the beginning of their junior year.

**Required Courses**

- BIOL 1111 - Fundamentals of Genetics, Evolution, and Development [SCI] (3 cr)
- BIOL 2101 - Evolution of Biodiversity [SCI-L] (4 cr)
- BIOL 2111 - Cell Biology [SCI-L] (4 cr)
- BIOL 3121 - Molecular Biology [SCI-L] (5 cr)
- BIOL 3131 - Ecology [SCI-L] (4 cr)
- BIOL 3700 - Biological Communication I (1 cr)
- BIOL 3701 - Biological Communication II (1 cr)
- BIOL 4901 - Senior Seminar (1 cr)
- CHEM 1101 - General Chemistry I [SCI-L] (4 cr)
- CHEM 1102 - General Chemistry II [SCI-L] (4 cr)
- CHEM 2001 - Organic Chemistry I [SCI] (4 cr)
- CHEM 2311 - Organic Chemistry Lab I (1 cr)
- MATH 1021 - Survey of Calculus [M/SR] (4 cr) or MATH 1101 - Calculus I [M/SR] (5 cr)
- STAT 1601 - Introduction to Statistics [M/SR] (4 cr) or STAT 2601 - Statistical Methods [M/SR] (4 cr)

**Elective Courses**

- **Organismal Electives**
  
  Take 1 or more course(s) from the following:
  
  - BIOL 4071 - Flora of Minnesota (4 cr)
  - BIOL 4111 - Microbiology (4 cr)
  - BIOL 4121 - Herpetology (4 cr)
  - BIOL 4131 - Vertebrate Natural History (4 cr)
  - BIOL 4151 - Entomology (4 cr)
  - BIOL 4161 - Evolution (4 cr)
  - BIOL 4172 - Plant Systematics (4 cr)
  - BIOL 4301 - Plant Biology (4 cr)
  - GEOL 3111 - Introduction to Paleontology [SCI-L] (4 cr)

- **Non-Organismal Electives**
  
  Take 0 or more course(s) from the following:
  
  - BIOL 4003 - Neurobiology (4 cr)
  - BIOL 4103 - Cancer Biology (4 cr)
  - BIOL 4122 - Virology (4 cr)
  - BIOL 4181 - Developmental Biology (4 cr)
  - BIOL 4191 - Freshwater Biology (4 cr)
  - BIOL 4192 - Biochemistry (4 cr)
  - BIOL 4311 - Conservation Genetics (4 cr)
  - BIOL 4312 - Genetics (4 cr)
  - BIOL 4321 - Animal Physiology (4 cr)
  - BIOL 4331 - Global Change Ecology (4 cr)
  - BIOL 4351 - Conservation Biology (4 cr)
  - BIOL 4611 - Biochemistry Lab (1 cr)

- **Other Electives**
  
  Take 0–1 course from the following:
  
  - PSY 3211 - Biological Psychology [SCI-L] (5 cr)
  - PSY 3201 - Comparative Psychology [SCI-L] (4 cr)

**Biology Minor**

Courses required for the minor may not be taken S-N. Up to 5 credits of coursework with a grade of D or D+ may be used to meet the minor requirements if offset by an equivalent number of credits of A or B in the minor. The GPA in these courses must be at least 2.00.

**Minor Core Curriculum**

- BIOL 1111 - Fundamentals of Genetics, Evolution, and Development [SCI] (3 cr)
- BIOL 2101 - Evolution of Biodiversity [SCI-L] (4 cr)
- BIOL 2111 - Cell Biology [SCI-L] (4 cr)
- CHEM 1101 - General Chemistry I [SCI-L] (4 cr)
- CHEM 1102 - General Chemistry II [SCI-L] (4 cr)

**Elective Courses**

Take 2 or more course(s) from the following:

- BIOL 3121 - Molecular Biology [SCI-L] (5 cr)

**Teacher Preparation Requirements**

Students seeking teaching licensure in life science 9–12 should refer to the Education, Secondary (SeEd) section of this catalog.

**Biology Course Descriptions**

**BIOL 1002. Human Nutrition.** (SCI; 3 cr; no elective cr for biology majors or minors; fall, every year)

**BIOL 1051. Wildlife Biology.** (SCI-L; 4 cr; = BIOL 1801; no elective cr for biology majors or minors; fall, spring, offered periodically)

- Biological principles and practices illustrated through studies of North American wildlife. Wildlife taxonomy, identification, migration and dispersal, ecological relationships, contemporary problems associated with human activities. (two 65-min lect, one 120-180 min lab/field study)

**BIOL 1052. Introduction to Conservation Biology.** (SCI-L; 4 cr; no elective cr for biology majors or minors; spring, offered periodically)

- Survey of topics in conservation biology, with emphasis on topics that have created controversy and debate: loss of biodiversity; endangered species preservation and management, habitat conservation, environmental degradation, and sustainable development. (two 65-min lect, one 120- or 180-min lab or field study)

**BIOL 1053. Introduction to Insect Biology.** (SCI-L; 4 cr; no elective cr for biology majors or minors; summer, offered periodically)

- Basic concepts in insect biology including evolutionary history, life-cycles, classification, and ecology; examination of how insects and other arthropods interact with human society including insects as vectors of human disease, forensic entomology, insects in agriculture, beneficial uses of insects in the production of food and fiber, and insect-inspired art and literature. (one all-day field trip required in addition to labs)

**BIOL 1071. Plants of Minnesota.** (SCI-L; 4 cr; no elective cr for biology majors or minors; summer, offered periodically)

- Introduction to plant structure and function, especially those found in Minnesota: ecology; physiology; evolution and conservation. Labs emphasize plant identification and anatomy.

**BIOL 1111. Fundamentals of Genetics, Evolution, and Development.** (SCI; 3 cr; prereq: biology major/minor or any health sciences preprofessional program or ElEd or SeEd major with middle school science specialties or; fall, spring, every year)

- Introduction to scientific methods and the history of biology, with an emphasis on mechanisms of inheritance, development, and descent with modification. Overview of pre-Darwinian scientific thought; the theory of evolution; a qualitative introduction to genetics and molecular biology, and a summary of developmental biology. (two 75-min lect)
University of Minnesota Morris 2013-15 Catalog

Biol 1801. The Animals Around Us: Wildlife of Minnesota. (IC; 4 cr; =Biol 1051; prereq new college student in their first semester of enrollment at UMM; fall, offered periodically)
Discussion and examination of basic biological principles illustrated through studies of North American wildlife. Topics include movements and migration, behavior, conservation, and ecological relationships. Students research and discuss wildlife-related issues, and work together to learn how to identify species found in Minnesota. At least one field trip to observe local wildlife; additional field trips, time and weather permitting. (two 65-min lab, one 180-min lab or field study)

Biol 2101. Evolution of Biodiversity. (SCI-L; 4 cr; prereq 1101 or 1111 or #; spring, every year)
Analysis of evolutionary trends using historical and contemporary evidence. Principles of classification and phylogenetic reconstruction. Includes laboratory survey of the major groups of organisms. (two 65-min lab, one 180-min lab)

Biol 2102. Human Anatomy. (3 cr; =Ssa 2102; prereq soph; no elective cr for biology majors or minors; fall, every year)
Same as Ssa 2102. Structure of human systems at their organ and cellular level. (two 65-min lab, one 120-min lab)

Biol 2103. Introduction to Human Physiology. (SCI; 4 cr; prereq 2102 or Ssa 2102 or #; no elective cr for biology majors or minors; spring, every year)
Function of human systems at organ, cell, and molecular levels. (three 65-min lect)

Biol 2111. Cell Biology. (SCI-L; 4 cr; prereq 1101 or 1111, Chem 1102 or #; fall, every year)
Cell structure and function. Includes topics pertaining to the chemistry, physiology, structure, and reproduction of plant and animal cells. (three 65-min lect and one 120-min lab)

Biol 3121. Molecular Biology. (SCI-L; 5 cr; prereq 2111, Chem 2301 or #; spring, every year)
Principles and mechanisms of DNA function, protein synthesis, and gene regulation in prokaryotes and eukaryotes. Genetic engineering and evolution at the molecular level. (two 100-min lab, 180-min lab, additional lab time arranged)

Biol 3131. Ecology. (SCI-L; 4 cr; prereq Biol 2101 or EnSt 2101 or #; fall, every year)
Basic principles and models of population biology, community structure and function, and ecosystem dynamics. Lab exercises emphasize field work, techniques for characterizing local plant and animal communities, and experimental investigation of topics such as competition and behavioral ecology. (two 65-min lab and field study; weekend field trip required)

Biol 3700. Biological Communication I. (1 cr; prereq Biol 2101, 2111; fall, spring, every year)
Finding and utilizing sources of biological information. Modern techniques for searching the biological literature, as well as reading and interpreting those sources. Principles of technical written and oral communication in biology.

Biol 3701. Biological Communication II. (1 cr; prereq 3700, #; fall, spring, every year)
Writing, editing, and revising an extensive review paper on a biological topic under the mentorship of a faculty member. Multiple drafts and revisions are expected.

Biol 4003. Neurobiology. (4 cr; prereq 2111; fall, offered periodically)
Survey of general principles of neuronal function and formation. Emphasis on comparative aspects of simple nervous systems.

Biol 4071. Flora of Minnesota. (4 cr; prereq Biol 2101; summer, offered periodically)
Identification, ecology, and conservation of vascular plants found in Minnesota. Labs and field trips emphasize plant identification and anatomy.

Biol 4103. Cancer Biology. (4 cr; A-F only; prereq 2111; spring, offered periodically)
Examining cancer processes from a genetic, molecular, and developmental perspective, identifying the cellular events behind uncontrolled growth and metastasis, cell cycle control, apoptosis, and cell signaling and signal transduction. Exploring genetic and environmental factors that can induce cancers.

Biol 4111. Microbiology. (4 cr; prereq 2111, prereq or coreq 3121 or #; spring, every year)
The biology of pathogenesis and the treatment and prevention of infectious disease. Emphasis on prokaryotic microbes and viruses. (two 65-min lect, one 180-min lab)

Biol 4121. Herpetology. (4 cr; prereq Biol 2101 or EnSt 2101 or #; spring, even years)
Survey of amphibians and reptiles, including their evolution, systematics, identification, behavior, ecological relationships, and contemporary problems associated with human activities. (two 65-min lab, one 180-min lab or field study)

Biol 4122. Virology. (4 cr; prereq 3121 or #; spring, even years)
An overview of virus biology. Consider evolutionary origins of viruses and compare structure, genome organization, replication strategies, and other features of common and unique viruses. (two 100-min lect)

Biol 4131. Vertebrate Natural History. (4 cr; prereq Biol 2101 or EnSt 2101 or #; spring, odd years)
Survey of vertebrates, including their evolution, systematics, and ecological relationships. (two 65-min lab, one 180-min lab or field study)

Biol 4151. Entomology. (4 cr; prereq Biol 2101 or EnSt 2101 or #; fall, even years)
Structure, life histories, habits, and classification of common families of insects, including their economic significance. (two 65-min lect, 180-min lab)

Biol 4161. Evolution. (4 cr; prereq Biol 2101, 2111 or #; spring, even years)
Survey of the history, evidence, and mechanisms of organic evolution. (three 65-min lect)

Biol 4172. Plant Systematics. (4 cr; prereq Biol 2101 or EnSt 2101 or #; spring, odd years)
Survey of vascular plant taxa, with an emphasis on the flowering plant families and their evolutionary relationships. Lab emphasizes use of keys for identification of Midwestern plant families and genera. (two 65-min lab, 180-min lab)

Biol 4181. Developmental Biology. (4 cr; prereq 2111; 4312 recommended; fall, spring, offered periodically)
Survey of general concepts in developmental biology, emphasizing molecular mechanisms of positional information, pattern formation, and cellular interactions. Stresses comparative aspects of developmental processes, and the role of development in evolution. (two 65-min lectures, one 180-min lab)

Biol 4191. Freshwater Biology. (4 cr; prereq Biol 2101 or EnSt 2101, 2111 or #; fall, odd years)
Structure, function, and biota of freshwater ecosystems, including lakes, streams, and wetlands. Lab emphasizes independent research and field study in local habitats. (two 65-min lab, one 180-min lab; all day field trip required)

Biol 4211. Biochemistry. (4 cr; prereq 3121, Chem 2302 or Chem 2304 or #; fall, every year)
Structures, functions, and biochemical transformations of proteins, carbohydrates, and lipids. (three 65-min lect) Optional lab offered. See Biol 4611.

Biol 4301. Plant Biology. (4 cr; prereq Biol 2101, 2111 or #; fall, even years)
Descriptive and experimental study of plants. Anatomy, development, physiology, secondary compounds, evolution, human uses of plants. (two 65-min lect, one 180-min lab)

Biol 4311. Conservation Genetics. (4 cr; prereq Biol 2101 or #; Stat 1601 or 2601 recommended; fall, offered periodically)
Introduction to theory of population differentiation and gene flow; applications to managing and recovering rare species. Adaptive and neutral models, linkage disequilibria, effective population size, inbreeding depression, population genetic structure. Labs use computers to model genetic changes in populations and analyze genetic structure. (two 100-min lect, one 120-min lab)

Biol 4312. Genetics. (4 cr; Biol 3101; prereq 2111 or #; spring, every year)
Principles and mechanics of inheritance and variation, including cytological, organismal, and population genetics; mechanisms of evolution; and the genetic problems of humans. (two 65-min lect, 180-min lab)
students and faculty on undergraduate research projects, complete summer research internships at university and industrial sites, and design courses in chemistry/biochemistry that complement the major; and

- prepare students for postgraduate work in a variety of fields and/or for careers in industrial or clinical settings or for careers in secondary education.

**Chemistry Major**

Courses may not be taken S-N. Up to 8 credits of coursework with a grade of D or D+ may be used to meet the major requirements if offset by an equivalent number of credits of A or B. A minimum GPA of 2.00 is required in the major to graduate. The GPA includes all, and only, University of Minnesota coursework. Grades of "F" are included in GPA calculation until they are replaced. Students should consult members of the chemistry faculty to plan programs of study appropriate to their interests and postgraduate goals.

General Physics (Phys 1101, 1102) is required, but Principles of Physics (Phys 1091, 1092) will be considered for substitution on a case-by-case basis via petition to the Discipline.

Students may complete a major in chemistry through one of two tracks—the standard chemistry major or the chemistry major with a biochemistry subfield.

Program Sub-plans
Students are required to complete one of the following sub-plans. (Note: The honors sub-plan does not meet this requirement. Honors students are required to complete one sub-plan plus the honors sub-plan. Please see an adviser if no honors sub-plan is listed for the program.)

Chemistry, Standard Sub-plan

Standard Chemistry Required Courses
CHEM 3502 - Physical Chemistry II [SCI] (4 cr)
CHEM 3511 - Physical Chemistry Lab (1 cr)

Standard Chemistry Elective Courses
Take 2 or more course(s) from the following:
CHEM 4111 - Instrumental Analysis (5 cr)
CHEM 3301 - The Chemistry of Sustainable Energy [SCI] (4 cr)
CHEM 3401 - Polymer Chemistry and the Environment [SCI] (4 cr)
CHEM 4701 - Inorganic Chemistry (4 cr)
CHEM 3801 - History of Chemistry [SCI] (4 cr)
CHEM 4352 - Synthesis (4 cr)
CHEM 4551 - Theoretical Chemistry (4 cr)
CHEM 4751 - Advanced Inorganic Chemistry (4 cr)

CHEM 1101 - General Chemistry I [SCI-L] (4 cr)
CHEM 1102 - General Chemistry II [SCI-L] (4 cr)
CHEM 2301 - Organic Chemistry I [SCI] (4 cr)
CHEM 2302 - Organic Chemistry II [SCI] (4 cr)

or

If CHEM 3101 is not taken:
CHEM 3501 - Physical Chemistry I [SCI] (4 cr)

CHEM 4111 - Instrumental Analysis (5 cr)
CHEM 3301 - The Chemistry of Sustainable Energy [SCI] (4 cr)
CHEM 3401 - Polymer Chemistry and the Environment [SCI] (4 cr)
CHEM 3501 - Physical Chemistry I [SCI] (4 cr)

CHEM 3502 - Physical Chemistry II [SCI] (4 cr)
CHEM 4701 - Inorganic Chemistry (4 cr)
CHEM 3801 - History of Chemistry [SCI] (4 cr)
CHEM 4351 - Bioorganic Chemistry (4 cr)
CHEM 4751 - Advanced Inorganic Chemistry (4 cr)
CHEM 2302 - Organic Chemistry II [SCI] (4 cr)
or
CHEM 2304 - Organic Chemistry II with a Biological Emphasis [SCI] (4 cr)

Chemistry, Subfield Biochemistry Sub-plan

Biochemistry Required Courses
BIOL 1111 - Fundamentals of Genetics, Evolution, and Development [SCI] (3 cr) BIOL 2111 - Cell Biology [SCI-L] (4 cr)
BIOL 3121 - Molecular Biology [SCI-L] (5 cr) BIOL 4211 - Biochemistry (4 cr)
CHEM 4351 - Bioorganic Chemistry (4 cr)
CHEM 4711 - Inorganic Chemistry Lab (1 cr)

Biochemistry Electives
For students planning to go to graduate school in biochemistry, it is recommended that they also take BIOL 4111--Microbiology and BIOL 4312--Genetics.

Take 1 or more course(s) from the following:
CHEM 4111 - Instrumental Analysis (5 cr)
CHEM 3301 - The Chemistry of Sustainable Energy [SCI] (4 cr)
CHEM 3401 - Polymer Chemistry and the Environment [SCI] (4 cr)
CHEM 3502 - Physical Chemistry II [SCI] (4 cr)
CHEM 4701 - Inorganic Chemistry (4 cr)
CHEM 3801 - History of Chemistry [SCI] (4 cr)
CHEM 4352 - Synthesis (4 cr)
CHEM 4551 - Theoretical Chemistry (4 cr)
CHEM 4552 - Molecular Spectroscopy (3 cr)
CHEM 4751 - Advanced Inorganic Chemistry (4 cr)

Chemistry Minor

Courses may not be taken S-N except where noted. Up to 8 credits of coursework with a grade of D or D+ may be used to meet the minor requirements if offset by an equivalent number of credits of coursework with a grade of A or B. The GPA in the minor courses must be at least 2.00.

Required Courses
CHEM 1101 - General Chemistry I [SCI-L] (4 cr)
CHEM 1102 - General Chemistry II [SCI-L] (4 cr)
CHEM 2301 - Organic Chemistry I [SCI] (4 cr)
CHEM 2311 - Organic Chemistry Lab I (1 cr)

Elective Courses
Three elective courses are required. Students must take either CHEM 3101 or 3501. Two additional courses are also required. If CHEM 3101 is not taken, one of the two courses must include lab or have an additional concurrent lab registration.

If CHEM 3101 is taken:
CHEM 3011 - Analytical Chemistry [SCI-L] (4 cr)
Take 2 or more course(s) totaling 6 or more credits from the following:
BIOL 4211 - Biochemistry (4 cr)
CHEM 4111 - Instrumental Analysis (5 cr)
CHEM 3301 - The Chemistry of Sustainable Energy [SCI] (4 cr)
CHEM 3401 - Polymer Chemistry and the Environment [SCI] (4 cr)
CHEM 3501 - Physical Chemistry I [SCI] (4 cr)

CHEM 3502 - Physical Chemistry II [SCI] (4 cr)
CHEM 4701 - Inorganic Chemistry (4 cr)
CHEM 3801 - History of Chemistry [SCI] (4 cr)
CHEM 4351 - Bioorganic Chemistry (4 cr)
CHEM 4352 - Synthesis (4 cr)
CHEM 4551 - Theoretical Chemistry (4 cr)
CHEM 4552 - Molecular Spectroscopy (3 cr)
CHEM 4751 - Advanced Inorganic Chemistry (4 cr)
CHEM 2302 - Organic Chemistry II [SCI] (4 cr)
or
CHEM 2304 - Organic Chemistry II with a Biological Emphasis [SCI] (4 cr)

Teacher Preparation Requirements
Students seeking teaching licensure in chemistry 9–12 should refer to the Education, Secondary (SeEd) section of this catalog.

Chemistry Course Descriptions

CHEM 1001. Chemistry for the Curious Citizen: The Role of Chemistry in the Environment and Everyday Life. [SCI-L; 4 cr; =CHEM 1801]; may not count toward chem major or minor; summer, offered periodically)
The central nature and relevance of chemistry to the environment and everyday life. Air quality, the ozone layer, global warming, energy resources, acid rain, and nutrition. Discussion and debate of current events related to these topics. Select readings on significant historical chemical discoveries in these areas that still resonate today. Basic chemistry lab principles and techniques. This course is intended for non-science majors.

CHEM 1101. General Chemistry I. (SCI-L; 4 cr; prereq Math 0901 or placement beyond Math 0901 using ACT/placement exam score; fall, every year)
Scientific method, measurements, nomenclature, stoichiometry, atomic and molecular structure, thermochemistry, chemical periodicity, introduction to chemical bonding, and properties of common elements and ions. Development of scientific reasoning and problem-solving skills. Laboratory exercises concomitant with these topics. (3 hrs lect, 3 hrs lab)

CHEM 1102. General Chemistry II. (SCI-L; 4 cr; prereq 1101; spring, every year)
Continuation of Chem 1101. Chemical bonding, states of matter, solutions, acid-base chemistry, chemical equilibrium, oxidation-reduction reactions, kinetics, thermodynamics, quantum theory,
nuclear chemistry, organic chemistry, and biochemistry. Lab exercises concomitant with these topics. (3 hrs lect, 3 hrs lab)

**CHEM 1801. Science Savvy in Our Modern World.** (IC; 2 cr; =CHEM 1001; prereq new college student in their first semester of enrollment at UMM; fall, offered periodically)

If students and chemistry were in a Facebook relationship, the status would be "It's complicated." Some students love science and some love to hate it. "America's Finest News Source," The Onion, has repeatedly reported that "science is hard" but are they right? Chemistry is too important in our modern world to be ignored simply because it's complicated or perceived to be hard. Some science is hard but just because a science topic is complex doesn't mean that it can only be understood by rocket scientists. Through written reflections and discussions based on mainstream science books and current event articles, students explore the connections between science and society. The course helps students to understand the role of experts and bias in the reporting. The course also helps students to become more science literate about the green and sustainable activities on campus. Ultimately, this course fosters a relationship where students both need and want to be engaged with chemistry.

**CHEM 1993. Directed Study.** (1-5 cr; max 10 cr; prereq approved directed study form; fall, spring, every year)

An on- or off-campus learning experience individually arranged between a student and a faculty member for academic credit in areas not covered in the regular curriculum.

**CHEM 1994. Directed Research.** (1-5 cr; max 10 cr; prereq approved directed research form; fall, spring, every year)

An on- or off-campus undergraduate research experience individually arranged between a student and a faculty member for academic credit in areas not covered in the regular curriculum.

**CHEM 2301. Organic Chemistry I.** (SCI; 4 cr; prereq 1102; fall, every year)

Introduction to the structure and reactivity of organic molecules; nomenclature and functional groups; stereochemistry; mechanisms of substitution and elimination pathways; physical organic chemistry; introduction to synthetic strategy; fundamentals of spectroscopic techniques.

**CHEM 2302. Organic Chemistry II.** (SCI; 4 cr; =CHEM 2304; prereq C or better in 2301, coreq 2321 or # for chem majors; spring, every year)

Continuation of topics from Chem 2301; spectroscopy; chemistry of polyenes, aromatic systems, and amines; enol and enolate chemistry; free-radical chemistry; retrosynthetic analysis; special topics.

**CHEM 2304. Organic Chemistry II with a Biological Emphasis.** (SCI; 4 cr; =CHEM 2302; prereq C or better in 2301, Biol 2111 or #; spring, offered periodically)

Continuation of topics from Chem 2301, with an emphasis on compounds and reactions of biological interest. Topics include spectroscopy, structure and reactivity of aromatic compounds, phosphoryl and acyl group transfer, nucleophilic carbonyl addition, reactions involving enolate and enamine intermediates, coenzyme chemistry, electrophilic addition, beta elimination, oxidation and reduction of organic compounds, and reactions involving free radical intermediates.

**CHEM 2311. Organic Chemistry Lab I.** (1 cr; coreq 2301 or #; fall, every year)

Development of lab techniques in organic chemistry; experimental problem-solving. (3 hrs lab)

**CHEM 2312. Organic Chemistry Lab II.** (1 cr; prereq 2311, coreq 2302 or 2304 or #; spring, offered periodically)

Laboratory work in organic synthesis, experimental design, and spectroscopic analysis with an emphasis on reactions of biological interest. (3 hrs lab)

**CHEM 2321. Introduction to Research I.** (1 cr; prereq 2311, coreq 2302 or 2304 or #; spring, every year)

Interdisciplinary approach to experiment design and analysis of data. Synthesis of organic, organometallic, and/or inorganic compounds, with emphasis on purification and characterization using advanced techniques and instrumental methods. Instruction in use of the scientific literature and scientific communication. Begin research project with faculty mentor. (6 hrs lab)

**CHEM 2322. Introduction to Research II.** (1 cr; prereq 2321, coreq 2302 or 2304 or #; spring, every year)

Continue research with faculty mentor. Experiment design and analysis of data. Instruction in the use of the scientific literature and oral and written scientific communication. (6 hrs lab)

**CHEM 2993. Directed Study.** (1-5 cr; max 10 cr; prereq approved directed study form; fall, spring, every year)

An on- or off-campus learning experience individually arranged between a student and a faculty member for academic credit in areas not covered in the regular curriculum.

**CHEM 2994. Directed Research.** (1-5 cr; max 10 cr; prereq approved directed research form; fall, spring, every year)

An on- or off-campus undergraduate research experience individually arranged between a student and a faculty member for academic credit in areas not covered in the regular curriculum.

**CHEM 3101 Analytical Chemistry** (SCI-L; 4 cr; prereq 1102; fall, every year)

The application of chemical equilibria to chemical analysis with emphasis on the fundamental quantitative aspects of analytical chemistry. Acid-base, oxidation-reduction, and complexometric titrations, introduction to electrochemical and spectrophotometric analyses and separations. (3 hrs lect, 3 hrs lab)

**CHEM 3101. Analytical Chemistry.** (SCI-L; 4 cr; prereq 1102; fall, every year)

The application of chemical equilibria to chemical analysis with emphasis on the fundamental quantitative aspects of analytical chemistry. Acid-base, oxidation-reduction, and complexometric titrations, introduction to electrochemical and spectrophotometric analyses and separations. (3 hrs lect, 3 hrs lab)

**CHEM 3301. The Chemistry of Sustainable Energy.** (SCI; 4 cr; =ESCI 3301; prereq 2302 or 2304 or #; fall, every year)

The fundamental chemical concepts underlying energy sources. Topics include: energy basics, fossil fuels, sustainable energy sources, biomass, solar voltaics, hydrogen fuel cells, and nuclear energy.

**CHEM 3401. Polymer Chemistry and the Environment.** (SCI; 4 cr; =ESCI 3401; prereq 2302 or 2304 or #; spring, even years)

Same as ESci 3401. Introduction to many traditional topics in polymer chemistry including those with a connection to elements of the environment and environmental science such as the preparation of polymers from renewable feedstocks, polymers in renewable energy, green syntheses of polymers, and environmental impacts of polymers.

**CHEM 3411. Polymer Chemistry Lab.** (1 cr; prereq 2322, coreq 3401 or ESci 3401 or #; spring, even years)

Synthesis, characterization, and physical properties of polymers with an emphasis on sustainable polymer chemistry. (3 hrs lab)

**CHEM 3501. Physical Chemistry I.** (SCI; 4 cr; prereq 1102, Phys 101, Math 1102 or #; fall, every year)

**CHEM 3502. Physical Chemistry II.** (SCI; 4 cr; prereq 3501, coreq 3511 or # for chem majors; spring, every year)

**CHEM 3511. Physical Chemistry Lab.** (1 cr; coreq 3502; spring, every year)

Lab experiments to illustrate physico-chemical principles and to develop skills in data collection, analysis and interpretation, and in report writing. (3 hrs lab)

**CHEM 3801. History of Chemistry.** (SCI; 4 cr; prereq 2301 or #; fall, odd years)

CHEM 3901. Chemistry Seminar I. (0.5 cr; A-F only; prereq 2321; required of all chem majors; may not count toward chem minor; spring, every year)
Presentations by faculty, guest speakers, and students on topics of current research interest. Students are required to present one seminar for the Chem 3901-4901 sequence.

CHEM 3993. Directed Study. (1-5 cr [max 10 cr]; prereq approved directed study form; fall, spring, every year)
An on- or off-campus learning experience individually arranged between a student and a faculty member for academic credit in areas not covered in the regular curriculum.

CHEM 3994. Directed Research. (1-5 cr [max 10 cr]; prereq approved directed research form; fall, spring, every year)
An on- or off-campus undergraduate research experience individually arranged between a student and a faculty member for academic credit in areas not covered in the regular curriculum.

CHEM 4111. Instrumental Analysis. (5 cr; prereq 3101; spring, odd years)
Principles of chemical instrumentation and instrumental methods of analysis; extensive lab work using chromatographic, spectrophotometric, and electrochemical methods of analysis. (3 hrs lect, 6 hrs lab)

CHEM 4251. Bioorganic Chemistry. (4 cr; prereq 2302 or 2304, Biol 4211; spring, every year)
Discussion of the theory of enzyme catalysis and catalytic antibodies, experimental determination of catalytic mechanisms for a variety of organic reactions in biological systems, and elucidation of biosynthetic pathways. Involves extensive reading in the primary literature.

CHEM 4352. Synthesis. (4 cr; prereq 2302 or 2304; fall, odd years)
Study of the preparation of biologically active molecules, emphasizing the application of transition metal chemistry to modern synthetic methods.

CHEM 4353. Synthesis Laboratory. (1 cr; prereq 4352 or #; fall, spring, offered periodically)
Modern organometallic synthetic methods applied to the preparation of small organic molecules. Preparation, purification, analysis, and identification of synthetic products. Scientific record-keeping and literature searching. (3 hrs lab)

CHEM 4551. Theoretical Chemistry. (4 cr; prereq or coreq 3502 or #; spring, offered periodically)
Quantum theory of molecules. Statistical thermodynamics; Gibbsonian ensembles; applications.

CHEM 4552. Molecular Spectroscopy. (3 cr; prereq 2302 or 2304, 3101 or #; spring, even years)

CHEM 4701. Inorganic Chemistry. (4 cr; prereq 3501 or #; spring, odd years)
The periodic table; models of structure and bonding of main group elements and transition metals, nomenclature, symmetry, and bonding theory of coordination compounds.

CHEM 4711. Inorganic Chemistry Lab. (1 cr; prereq 2322, coreq 4701 or #; spring, odd years)
Lab experiments in inorganic/organometallic chemistry illustrating synthetic and spectroscopic techniques. (3 hrs lab)

CHEM 4751. Advanced Inorganic Chemistry. (4 cr; prereq 3701 or #; fall, spring, offered periodically)
Structure and reactions of coordination compounds, inorganic cages and clusters, lanthanide and actinide series.

CHEM 4901. Chemistry Seminar II. (0.5 cr; A-F only; prereq 3901; required of all chem majors; may not count toward chem minor; full-year course begins fall semester; fall, every year)
Continuation of Chemistry Seminar I. This is a full-year course. Students must attend year round and present one of the seminars.

CHEM 4903. Directed Study. (1-5 cr [max 10 cr]; prereq approved directed study form; fall, spring, every year)
An on- or off-campus learning experience individually arranged between a student and a faculty member for academic credit in areas not covered in the regular curriculum.

CHEM 4994. Directed Research. (1-5 cr [max 10 cr]; prereq approved directed research form; fall, spring, every year)
An on- or off-campus undergraduate research experience individually arranged between a student and a faculty member for academic credit in areas not covered in the regular curriculum.

Chinese (Chn)

Division of the Humanities

The Chinese discipline introduces students to the study of the language, literature and culture of China. The courses satisfy foreign language and other general education requirements.

Objectives—The Chinese discipline is designed to help students develop a number of skills in Chinese, including comprehension and speaking, reading, and writing, in order to communicate effectively in Chinese on a broad range of topics. The courses are designed to help students develop critical insight into the philosophy and values of another culture as they increase their competence in a second language.

Study Abroad

In light of today’s increasingly interdependent world, the UMM Chinese discipline endorses study abroad as the most effective means by which to
• improve language abilities
• broaden academic horizons
• globalize one’s world view
• expand career opportunities
• advance cross-cultural and problem solving skills
• gain confidence in oneself personally and professionally

Chinese Course Descriptions

CHN 1001. Beginning Modern Chinese I. (4 cr; fall, every year)
First semester of a two-semester sequence in first-year modern standard Chinese (Mandarin) for students who have no previous exposure to the Chinese language. Introduction to the sounds of Mandarin, basic grammar, vocabulary, and the Chinese writing system.

CHN 1002. Beginning Modern Chinese II. (FL; 4 cr; prereq 1001 or #; spring, every year)
Second semester of the two-semester sequence in first-year Chinese. Designed for those who have completed first-semester Chinese or who have equivalent preparation. Introduction to additional modern standard Chinese (Mandarin) grammar, vocabulary, and sentence structures. By the end of the semester, students should be able to recognize some of the Chinese characters, write about part of them from memory, conduct simple conversations, and read simple Chinese texts on general topics.

Communication, Media, and Rhetoric (CMR)

Division of the Humanities

This discipline is in the Division of the Humanities. The mission of the Communication, Media, and Rhetoric (CMR) discipline is to provide an introduction to the breadth of scholarship in communication history, communication theory, and communication contexts. UMM students in the CMR major study the multidimensional nature of various types of communication processes, the activities of message production, and the analysis and evaluation of personal, public, and mass communication. Students develop skills for lifelong learning and refine capabilities for active involvement in a participatory democracy.

Objectives—The curriculum is designed to ensure that students:
• develop a historical and theoretical understanding of the three areas of communication, media, and rhetoric
Grades of "F" are included in GPA calculation until they are replaced.

### Communication, Media, and Rhetoric Course Descriptions

**CMR 1042. Public Speaking and Analysis.** (E/CR; 4 cr; summer, offered periodically)
Public address theories, practices, and analysis.

**CMR 1052. Introduction to Public Speaking.** (E/CR; 2 cr; fall, spring, every year)
Activities, assignments, and exercises related to public address/public speaking in a variety of speech settings.

**CMR 1062. Introduction to Interpersonal and Group Communication.** (HUM; 4 cr; fall, every year)
Activities, assignments, and exercises related to interpersonal and group communication in private and public settings including dating, family, and work.

**CMR 1101. Introduction to Theories of Communication, Media, and Rhetoric.** (HUM; 4 cr; spring, every year)
A survey of the field of study. Students learn the history, theories, and contexts of communication study that prepare them for upper-division courses.

**CMR 1388. College Newspaper Experience.** (1 cr [max 2 cr]; prereq #: fall, spring, every year)
Supervised experience of selected learning activities to be done in conjunction with an appointment working at the campus newspaper.

**CMR 1389. College Radio Experience.** (1 cr [max 2 cr]; prereq #: fall, spring, every year)
Supervised experience of selected learning activities to be done in conjunction with an appointment working at the campus radio station.

**CMR 1801. Legal Argument and Free Speech: Ready to Become a Supreme Court Justice?.** (IC; 4 cr; prereq new college student in their first semester of enrollment at UMM; fall, offered periodically)
Examination of the development of legal argument in Supreme Court decisions dealing with free speech. Read Supreme Court cases, write
opinions, speak to a mock Supreme Court, listen to arguments, and analyze the issues that define the ability to communicate in this country.

CMR 1802. Interpersonal and Intercultural Conflict Communication. (IC: 2 cr; prereq new college student in their first semester of enrollment at UMM; fall, offered periodically)

An IC course in conflict communication. Students come to understand common sources of conflict, roles of culture in the perceptions of interpersonal conflict, and more successful approaches to addressing conflict through communication in order to sustain valued interpersonal and professional relationships with members of diverse cultures.

CMR 2311. Media History and Society. (SS: 4 cr; fall, spring, offered periodically)

Examines the historical and on-going development of the relationship of media, culture, and the public. Traces and explores the developments of various communication technologies, their impacts and consequences, and their relationships to notions of “the public.”

CMR 2321. Digital Media Production. (HUM: 4 cr; fall, spring, offered periodically)

Basic theories and practice: equipment, procedures, and skills associated with planning, writing for, and producing mediated messages. Lectures, studio projects, class critiques.

CMR 2411. Health Communication . (HUM: 4 cr; fall, offered periodically)

A survey of the critical role communication plays in health promotion, specifically in the area of doctor-patient interaction and health campaigns. Communicative issues include the social construction of health, the role of culture in health and healing, and social support.

CMR 2421. Business and Professional Communication. (E/CR: 4 cr; prereq 1052, 1062 or #; spring, offered periodically)

Developing proficiency in communication skills in business and professional contexts. Preparing, selecting, organizing, designing, and delivering messages in business situations. Analyzing meeting/group facilitation, interviewing, and professional presentations.

CMR 3101. Rhetorical History and Theories: Pre-Socratic to Modern Periods. (IP: 4 cr; prereq 1101 or #; fall, every year)

Rhetoric from the classical theories of the older Sophists, Aristotle, and Cicero to the modern theories of Blair, Campbell, and Whately.

CMR 3111. Contemporary Rhetorical Theory and Criticism. (HUM: 4 cr; prereq 1101 or #; fall, spring, offered periodically)

Detailed study of the development of contemporary rhetorical theory, with particular emphasis placed on the use of those theories in the development of rhetorical criticism.

CMR 3123. Rhetorical Criticism and Speeches that Changed the World. (HUM: 4 cr; prereq 1101 or #; spring, offered periodically)

Human beings create and maintain their cultures through rhetoric, the art of being persuasive. This course explores the rhetorical nature of the speeches that have changed the world from Moses and Mohammed to Elie Wiesel and George W. Bush.

CMR 3202. Rhetoric of Presidential Inaugurals. (HUM: 4 cr; prereq 1101 or #; fall, spring, offered periodically)

Study of the rhetorical dimensions of the genre of presidential inaugurals. Students will complete a variety of rhetorical criticisms concerning an assigned presidential inaugural.

CMR 3251. Rhetorical Criticism and Free Speech Discourse. (E/CR: 4 cr; prereq 1101 or #; fall, spring, offered periodically)

Analysis and evaluation of Supreme Court opinions establishing the contours of First Amendment protection for freedom of speech. Particular attention is devoted to the nature of “communication” revealed by the decisions studied.

CMR 3301. Media Theory, Criticism, and Problems. (SS: 4 cr; prereq 1101 or #; spring, every year)

Theories, research studies, current trends, and various critical approaches to examine and explain the reflexive relationships between media and society.

CMR 3312. Media Literacy . (HUM: 4 cr; prereq 1101 or #; fall, offered periodically)

Examining ways people decode media images and messages. Topics include principles of literacy, media content/industries, media and identity, and media effects.

CMR 3342. Visual Journalism. (HUM: 4 cr; This course may have a maximum of 12 students. (We are limited by the number of computer workstations and software licenses in the HFA Digital Media Studio.); spring, offered periodically)

Both a theoretical and a hands-on course that immerses students in all aspects of the visual side of journalism, as well as in design principles and techniques for the web and print.

CMR 3401. Communication Theory. (SS: 4 cr; prereq 1101 or #; fall, every year)

Detailed study of the theoretical tradition of human communication. Focuses on social scientific and humanities theories used to explain social interaction. Provides general foundation on various traditions of inquiry as well as qualitative and quantitative methods.

CMR 3411. Intercultural Communication Theory and Research. (HDIV: 4 cr; prereq 1101 or #; fall, offered periodically)

Study of intercultural communication from an interpersonal and group perspective.

CMR 3421. Organizational Communication Theory and Research. (SS: 4 cr; prereq 1101 or #; spring, offered periodically)

Study of organizational communication, including small group perspectives.

CMR 3432. Communication Research Methods . (HUM: 4 cr; prereq 1101 or #; fall, offered periodically)

Elements/methods of communication research. Use of quantitative/qualitative research methodologies, basic research design, and data collection methods to inform decision making.

CMR 3993. Directed Study. (-1,5 cr [max 10 cr]; prereq approved directed study form; fall, spring, every year)

An on- or off-campus learning experience individually arranged between a student and a faculty member for academic credit in areas not covered in the regular curriculum.

CMR 4122. Rhetoric of Picture Books, Prose and Picture. (HUM: 4 cr; prereq 1101 or #; fall, offered periodically)

Explore and analyze picture books for intended and unintended messages. Examine the rhetorical construction of pictures and the rhetorical impact of the intersection between picture and prose. Gain a deeper sensitivity to the formerly unseen rhetorical dimensions of the symbols that surround them.

CMR 4152. Advanced Public Speaking. (HUM: 4 cr; prereq 1052 or #; fall, every year)

A study of rhetorical argument design and evaluation. Students analyze and critique arguments, as well as plan and present formal speeches.

CMR 4341. New Media Technologies . (HUM: 2 cr; prereq 1101 or #; spring, offered periodically)

Examination of the impact of "new media" on current/future cultures; the structure/processes of media and global society in a comparative context; ways new media change how people communicate, distribute, and process information.

CMR 4411. Advanced Interpersonal Communication. (4 cr; prereq 1101 or #; spring, offered periodically)

Applying a variety of approaches to understanding interpersonal communication.

CMR 4800. Directed Experience in Teaching Communication, Media, and Rhetoric. (-1,-4 cr [max 8 cr]; S-N only; prereq #; fall, spring, every year)

Practice as facilitators in the introductory-level communication, media, and rhetoric courses; weekly seminar sessions focus on method, planning, and problems in communication, media, and rhetoric instruction.

CMR 4900. Communication, Media, and Rhetoric Seminar I. (1 cr; A-F only; prereq 1052, 1062, 1101 or #; fall, every year)

Familiarizes students with the literature of the field, including ethical and social implications of communication studies. Students analyze various articles and similarly published works, synthesize contents, and construct a research proposal for a project to be completed as a senior capstone experience.

CMR 4901. Communication, Media, and Rhetoric Seminar II. (HUM: 3 cr; A-F only; prereq 4900, or sr status in the major, #; spring, every year)

Completion of capstone experience for majors. Students conduct a project of original study and present their findings in written and oral form.
**Computer Science (CSci) Division of Science and Mathematics**

The computer science curriculum is designed to not only provide a solid background in fundamentals, but also to continuously respond to rapid changes in the field of computing by equipping our students with modern tools, approaches, and cutting-edge concepts and technologies. Coursework in computer science spans three core areas of computing, including theory, software development, and systems. Beginning computer science courses are open to non-majors and satisfy the mathematical and symbolic reasoning component of the general education requirements. All computer science majors must complete a senior seminar capstone experience, and the discipline prides itself on the high quality of students' papers and presentations in this course. The program also includes mathematics or statistics in the required coursework.

Computer science majors develop software, explore hardware systems, and apply theoretical concepts. Reflecting the collaborative nature of today's world, team work is heavily integrated into computer science coursework. Students are encouraged to use and supplement their formal education through research opportunities, internship experiences, programming and robotics competitions, and student and professional organizations. Many students take advantage of the opportunity to collaborate with computer science faculty on research projects, presenting the results at international, national, and regional conferences, as well as at UMM's Undergraduate Research Symposium.

Study in computer science is required for management and math majors at UMM, as well as for students pursuing a variety of pre-engineering programs. Many UMM computer science majors enter the job market upon graduation, primarily in the computing industry. Others pursue postgraduate work toward a masters or doctoral degree in computing, business, library science, or a variety of other fields.

**Objectives**—the computer science discipline is designed to

* serve students from other disciplines requiring knowledge of computer science;
* advance student learning in computer science at a depth and breadth appropriate to undergraduates;
* advance student competence in research in computer science;
* advance student writing and presentation skills appropriate for the field;
* advance student teamwork and collaboration skills; and
* prepare students for careers in industrial settings and/or postgraduate work in computing.

**Computer Science Major**

Grades of D or D+ in CSCI 1201, 1301, 1302, and 2101 may not be used to meet the major requirements.

No more than one course with a grade of D or D+, offset by an equivalent number of credits of A or B grades, may be used to meet the requirements for a computer science major. Courses may not be taken S-N unless offered S-N only. A minimum GPA of 2.00 is required in the major to graduate. The GPA includes all, and only, University of Minnesota coursework. Grades of "F" are included in GPA calculation until they are replaced.

Elective courses: computer science major electives are divided into three areas: systems courses (CSCI 44xx), theory courses (CSCI 45xx), and programming and languages courses (CSCI 46xx). The discipline offers an array of courses in each area. The courses listed are representative of the courses offered.

New courses are continually developed and added to keep up with changes in the field.

**Required Courses**

- CSCI 1302 - Foundations of Computer Science [M/SR] (4 cr)
- CSCI 2101 - Data Structures [M/SR] (5 cr)
- CSCI 3501 - Algorithms and Computability [M/SR] (5 cr)
- CSCI 3601 - Software Design and Development [M/SR] (5 cr)
- CSCI 4901 - Senior Seminar (1 cr)
- IS 1091 - Ethical and Social Implications of Technology [E/CR] (2 cr)

Take one of the following:

- CSCI 1201 - Introduction to Digital Media Computation [M/SR] (4 cr)
- or CSCI 1301 - Problem Solving and Algorithm Development [M/SR] (4 cr)

**Elective Courses**

Take 10 or more credits including exactly 3 sub-requirements from the following:

**Computing Systems Courses (44xx):**

* Take 2– 4 credits from the following:
  - CSCI 4403 - Systems: Data Mining (2 cr)
  - CSCI 4406 - Systems: Wireless Data Networks (2 cr)
  - CSCI 4408 - Systems: Computer Forensics (2 cr)
  - CSCI 4409 - Systems: Programming for Parallel Architecture (2 cr)
  - CSCI 4451 - Systems: Distributed Systems (4 cr)
  - CSCI 4452 - Systems: Computer Networks (4 cr)
  - CSCI 4453 - Systems: Database Systems (4 cr)
  - CSCI 4454 - Systems: Robotics (4 cr)
  - CSCI 4456 - Systems: Advanced Operating Systems (4 cr)

**Theory Courses (45xx):**

* Take 2– 4 credits from the following:
  - CSCI 4506 - Theory: Fuzzy Logic and Fuzzy Sets (2 cr)
  - CSCI 4507 - Theory: Data Compression (2 cr)
  - CSCI 4552 - Theory: Advanced Algorithms (4 cr)
  - CSCI 4553 - Theory: Evolutionary Computation and Artificial Intelligence (4 cr)
  - CSCI 4554 - Theory: Cryptography (4 cr)
  - CSCI 4555 - Theory: Neural Networks and Machine Learning (4 cr)
  - CSCI 4556 - Theory: Computer Graphics (4 cr)

**Programming and Languages Courses (46xx):**

* Take 2– 4 credits from the following:
  - CSCI 4604 - Programming and Languages: Graphical User Interfaces (2 cr)
  - CSCI 4605 - Programming and Languages: Refactoring (2 cr)
  - CSCI 4651 - Programming and Languages: Programming Languages (4 cr)
  - CSCI 4652 - Programming and Languages: Compilers (4 cr)
  - CSCI 4653 - Programming and Languages: Software Engineering (4 cr)
  - CSCI 4654 - Programming and Languages: Modern Functional Programming (4 cr)
  - CSCI 4655 - Programming and Languages: Software Design and Development (4 cr)
  - CSCI 4656 - Programming and Languages: Human-Computer Interaction and Interface Design (4 cr)
  - CSCI 4657 - Programming and Languages: Programming Languages for Client-Server Systems (4 cr)

**Math and Statistics Electives**

MATH 1101 and above, excluding MATH 2211, or STAT 2xxx and above.

* Take 12 or more credits including exactly 3 sub-requirements from the following:
  - MATH 1101 - Calculus I [M/SR] (5 cr)
  - MATH 1102 - Calculus II [M/SR] (5 cr)
  - MATH 2101 - Calculus III [M/SR] (4 cr)
University of Minnesota Morris 2013-15 Catalog

MATH 2111 - Linear Algebra [M/SR] (4 cr)
MATH 2202 - Mathematical Perspectives [M/SR] (4 cr)
MATH 2401 - Differential Equations [M/SR] (4 cr)
MATH 2501 - Probability and Stochastic Processes [M/SR] (4 cr)
MATH 3xxx, 4xxx
STAT 2xxx, 3xxx, 4xxx

Computer Science Minor
No more than two courses with a grade of D or D+, offset by an equivalent number of credits of A or B grades, may be used to meet the requirements for a computer science minor. Non-elective courses taken S-N may not be counted towards the minor. A minimum GPA of 2.00 is required in the minor in order to graduate. The GPA includes all, and only, University of Minnesota coursework. Grades of "F" are included in GPA calculation until they are replaced.

Minor Required Courses
CSCI 1201 - Introduction to Digital Media Computation [M/SR] (4 cr) or CSCI 1301 - Problem Solving and Algorithm Development [M/SR] (4 cr)
CSCI 1302 - Foundations of Computer Science [M/SR] (4 cr)
CSCI 2101 - Data Structures [M/SR] (5 cr)

Take 1 or more courses from the following:
CSCI 3401 - Models of Computing Systems [M/SR] (5 cr)
CSCI 3501 - Algorithms and Computability [M/SR] (5 cr)
CSCI 3601 - Software Design and Development [M/SR] (5 cr)

Take 4 or more credits from the following:
CSCI 3xxx, 4xxx

Minor Elective Courses
Take 4 or more credits from the following:
MATH 1021 - Survey of Calculus [M/SR] (4 cr)
MATH 1101 - Calculus I [M/SR] (5 cr)
MATH 1102 - Calculus II [M/SR] (5 cr)
MATH 2101 - Calculus III [M/SR] (4 cr)
MATH 2111 - Linear Algebra [M/SR] (4 cr)
MATH 2202 - Mathematical Perspectives [M/SR] (4 cr)
MATH 2401 - Differential Equations [M/SR] (4 cr)
MATH 2501 - Probability and Stochastic Processes [M/SR] (4 cr)
MATH 3xxx, 4xxx
STAT 1xxx, 2xxx, 3xxx, 4xxx

Computer Science Course Descriptions
CSCI 1001. Introduction to the Computing World. (M/SR; 2 cr; no elective cr for CSCI majors or minors; fall, offered periodically) Basic hardware and software concepts, elementary data representation, problem solving techniques, algorithm development, introduction to web development, and methods for separation of content and presentation (such as HTML and CSS).

CSCI 1101. Dynamic Web Programming. (M/SR; 2 cr; prereq 1001 or equiv experience with #: no elective cr for CSCI majors or minors; spring, offered periodically) Basics of dynamic Web design; programming and problem solving using Web languages, such as PHP and HTML, and languages for data storage and manipulation, such as SQL and XML; introduction to client/server model; aspects of online privacy and security. Hands-on experience with creating and maintaining interactive Web pages.

CSCI 1201. Introduction to Digital Media Computation. (M/SR; 4 cr; spring, every year) Using images, sounds, and movies to introduce problem solving, data representation, data manipulation, and programming principles including recursion. Introduction to basic ideas in hardware, software, and computing.

CSCI 1251. Computational Data Management and Manipulation. (M/SR; 4 cr; no elective credit for CSCI majors or minors; spring, every year) Introduction to principles and practices of computational data management such as using advanced spreadsheet operations, designing and implementing algorithms to summarize and transform data sets, understanding organization of databases, writing and executing simple database queries, and creating effective data visualizations. Topics include basic issues of information security and introduction to modern technologies that support collaboration.

CSCI 1301. Problem Solving and Algorithm Development. (M/SR; 4 cr; fall, every year) Introduction to different problem solving approaches, major programming paradigms, hardware, software, and data representations. Study of the functional programming paradigm, concentrating on recursion and inductively-defined data structures. Simple searching and sorting algorithms.

CSCI 1302. Foundations of Computer Science. (M/SR; 4 cr; spring, every year) Basic proof techniques, propositional and predicate logic, induction and invariants, program correctness proofs, simple Big-Oh analysis of algorithms, set theory, introductory graph theory, and basic summations.

CSCI 1801. The Design of Everyday Technologies. (IC; 2 cr; prereq new college student in their first semester of enrollment at UMM; requires attending two activities outside of class, a poster session, and a presentation; fall, offered periodically) Discussion and examination of examples of everyday things, issues surrounding the design of technologies for people, and the impacts of new technology and tools on people in society. Discussion of how values and ethics are manifested in design. Study of design techniques and approaches with an emphasis on promoting design literacy. Includes discussion, readings, presentations, and a project. Requires attending two activities outside of class, a poster session, and a presentation.

CSCI 1993. Directed Study. (1-5 cr [max 10 cr]; prereq approved directed study form; fall, spring, every year) An on- or off-campus learning experience individually arranged between a student and a faculty member for academic credit in areas not covered in the regular curriculum.

CSCI 2101. Data Structures. (M/SR; 5 cr; prereq 1201 or 1301 or #: fall, every year) Introduction to data structures, including stacks, queues, trees, and graphs; implementation of abstract data types and introduction to software testing, using object-oriented techniques and reusable libraries. (4 hrs lect, 2 hrs lab)

CSCI 2993. Directed Study. (1-5 cr [max 10 cr]; prereq approved directed study form; fall, spring, every year) An on- or off-campus learning experience individually arranged between a student and a faculty member for academic credit in areas not covered in the regular curriculum.

CSCI 3401. Models of Computing Systems. (M/SR; 5 cr; prereq 1302, 2101 or #: fall, every year) Models-based study of computing systems, operating systems, and networks. Discussion of modularity and organization, protection and security, performance, memory management and data storage, deadlock, and inter-process and inter-computer communication. (4 hrs lect, 2 hrs lab)

CSCI 3501. Algorithms and Computability. (M/SR; 5 cr; prereq 1302, 2101 or #: fall, every year) Models of computation (such as Turing machines, deterministic and non-deterministic machines); approaches to the design of algorithms, determining correctness and efficiency of algorithms; complexity classes, NP-completeness, approximation algorithms. (4 hrs lect, 2 hrs lab)

CSCI 3601. Software Design and Development. (M/SR; 5 cr; prereq 1302, grade of at least C- in 2101, or #: spring, every year) Design and implementation of medium- and large-scale software systems. Principles of organizing and managing such designs and implementations throughout their lifetime. Designing for modularity and software reuse; use of libraries. Dynamics of working in groups. Group work on a substantial software project. (4 hrs lect, 2 hrs lab)

CSCI 3993. Directed Study. (1-5 cr [max 10 cr]; prereq approved directed study form; fall, spring, every year) An on- or off-campus learning experience individually arranged between a student and a faculty member for academic credit in areas not covered in the regular curriculum.

CSCI 4403. Systems: Data Mining. (2 cr; prereq 2101 or #: fall, spring, offered periodically) An introduction to a new field which tries to solve the problem of how to store (warehouse) and how to extract (mine) valid, useful, and
CSCI 4406. Systems: Wireless Data Networks. (2 cr; prereq 3401 or #; fall, spring, offered periodically)

CSCI 4408. Systems: Computer Forensics. (2 cr; prereq 3401 or #; spring, offered periodically)
The study of tools and procedures to identify and prosecute computer crime. Topics include electronic discovery, preserving computer evidence, data hiding methods, current forensic and security tools, guidelines for searching and seizing computer equipment.

CSCI 4409. Systems: Programming for Parallel Architecture. (2 cr; prereq 3401; spring, offered periodically)
Study of programming models, languages, and approaches for parallel computing. Topics include introduction to parallel computing and parallel architectures, approaches to program parallelization, mechanisms for communication and synchronization between tasks, and study of programming language support for parallel computation.

CSCI 4411. Systems: Distributed Systems. (4 cr; prereq 3401 or #; fall, spring, offered periodically)
An introduction to distributed systems/computation. Topics include processes and threads, physical vs. logical clocks, interprocess communication and coordination, election algorithms, synchronization, distributed task scheduling, distributed shared memory, distributed file systems, and replicated data management.

CSCI 4452. Systems: Computer Networks. (4 cr; prereq 3401 or #; fall, spring, offered periodically)

CSCI 4453. Systems: Database Systems. (4 cr; prereq 2101 or #; fall, spring, offered periodically)
Introduction to relational, object-relational, and object database systems. Topics include the relational model, SQL and related query languages, JDBC and database applications programming, database design, query processing and optimization, indexing techniques, and transaction management.

CSCI 4454. Systems: Robotics. (4 cr; prereq 2101 or #; fall, spring, offered periodically)
An introduction to robotic systems including robot mechanics, algorithms in robotics, and sensor interfaces for autonomous mobile and arm robots. Concepts of kinematics and coordinate systems, real-time programming, embedded systems, pattern recognition, algorithms, simulation environments, and subsumption architecture within the context of robotics applications are explored.

CSCI 4456. Systems: Advanced Operating Systems. (4 cr; prereq 3401 or #; fall, spring, offered periodically)
Broad exposure to advanced operating systems topics such as process communication, protection, security, memory management, operating system kernels, network operating systems, synchronization, naming, and distributed systems.

CSCI 4457. Systems: Ubiquitous Computing. (4 cr; prereq 3401 or #; fall, spring, offered periodically)
Study of the mechanisms and environments of ubiquitous computing. Topics may include computer and network architectures for ubiquitous computing, mobile computing mechanisms, multimodal interaction, pervasive software systems, location mechanisms, techniques for security and user- authentication, and experimental ubiquitous computing systems.

CSCI 4458. Systems: Bioinformatic Systems. (4 cr; prereq 3401 or #; fall, spring, offered periodically)
Introduction to bioinformatics with an emphasis on computer systems. Possible topics include: utilizing software for genetic sequencing, large-scale data management using databases, algorithms for construction of phylogenetic trees, bioinformatic scripting, and other tools for bioinformatics.

CSCI 4506. Theory: Fuzzy Logic and Fuzzy Sets. (2 cr; prereq 3501 or #; fall, spring, offered periodically)
Fuzzy logic and fuzzy sets are used in expert systems, controllers, pattern recognition, databases, decision making, robotics, and economics. The basic theory of fuzzy sets and fuzzy logic along with a brief survey of some of the current research. May include presentations and/or a project.

CSCI 4507. Theory: Data Compression. (2 cr; prereq 3501 or #; fall, spring, offered periodically)
Introduction to data compression (including lossy and lossless compression techniques), wavelets, differential encoding techniques (including pulse code and delta modulation), and subband coding with applications to speech, audio, and images. Compression standards such as the CCITT international standard and MPEG audio compression standard.

CSCI 4508. Theory: Algorithm Design. (2 cr; prereq 3501 or #; fall, spring, offered periodically)
Approaches to the design of efficient algorithms for solving a variety of practical problems such as string matching or those that can be modeled on a tree or graph. Techniques studied include dynamic programming, divide and conquer, greedy methods, backtracking, and approximation algorithms.

CSCI 4511. Theory: Artificial Life. (2 cr; prereq 2101 or #; fall, spring, offered periodically)
Introduction to the field of Artificial Life and the phenomena of living systems, with an emphasis on computational approaches to understanding the logic of living systems in artificial environments. Techniques and tools used to better understand the complex information processing that defines living systems, such as agent-based systems, evolutionary computation, cellular automata, and digital simulations.

CSCI 4552. Theory: Advanced Algorithms. (4 cr; prereq 3501 or #; fall, spring, offered periodically)
Techniques for designing and analyzing efficient algorithms to solve a variety of practical problems. Some algorithmic techniques include dynamic programming, greedy methods, and amortized analysis. Other topics include graph algorithms, string matching, approximation algorithms, and NP- Completeness.

CSCI 4553. Theory: Evolutionary Computation and Artificial Intelligence. (4 cr; prereq 2101 or #; fall, spring, offered periodically)
Introduction to Evolutionary Computation as an Artificial Intelligence tool for developing solutions to problems that are difficult to describe precisely or solve formally, as well as comparisons with other AI techniques. Includes discussions of theoretical background and tools, implementation issues, and applications.

CSCI 4554. Theory: Cryptography. (4 cr; prereq 1302, 2101 or #; fall, spring, offered periodically)
Theory and applications of cryptography. Overview of necessary mathematical concepts. Discussion of algorithms and protocols including public and private key encryption, authentication, and zero knowledge proofs.

CSCI 4555. Theory: Neural Networks and Machine Learning. (4 cr; prereq 1302, 2101 or #; fall, spring, offered periodically)
Study of the underlying theory, structure, and behavior of neural networks and of how neural networks compare to and can be used to supplement other methods of machine learning. Methods such as decision tree learning, inductive learning, reinforcement learning, supervised learning, and explanation- based learning are examined. Analysis of the strengths and weaknesses of various approaches to machine learning. Includes an implementation project.

CSCI 4556. Theory: Computer Graphics. (4 cr; prereq 1302, 2101 or #; fall, spring, offered periodically)
Introduction to basic concepts and algorithms in computer graphics, including three-dimensional geometry and various approaches to modeling three-dimensional scenes. An introduction to transformation and viewing, lighting, shading, texture, and color. Advanced topics may include ray tracing, radiosity, and animation. Students complete several significant projects.
CSCI 4604. Programming and Languages: Graphical User Interfaces. (2 cr; prereq 3601 or #; fall, spring, offered periodically) An exploration into designing Graphical User Interfaces. Aspects of human-computer interaction are discussed along with how to design good user interfaces. Students complete a project using Java’s Swing.

CSCI 4605. Programming and Languages: Refactoring. (2 cr; prereq 3601 or #; fall, spring, offered periodically) Introduction to methodologies for the long-term development and maintenance of software systems. Discussion of methods of fixing errors and extending functionality in a controlled manner that builds on and improves the underlying system design, as well as tools for regression testing to help catch introduced errors. There is a significant programming component as well as change documentation and classroom presentations.

CSCI 4651. Programming and Languages: Programming Languages. (4 cr; prereq 2101 or #; fall, spring, offered periodically) History of programming languages, formal specification of syntax and semantics of programming languages from a variety of paradigms (procedural, functional, logic-programming, object-oriented, and parallel paradigms), modern language features.

CSCI 4652. Programming and Languages: Compilers. (4 cr; prereq 3501, 3601 or #; fall, spring, offered periodically) Program translations from a variety of paradigms. Lexical analysis and parsing techniques, intermediate representations, type checking, code generation, error detection and recovery, optimization.

CSCI 4653. Programming and Languages: Software Engineering. (4 cr; prereq 3601 or #; fall, spring, offered periodically) Examination of software engineering techniques and methodologies. Topics include software life cycle models, analytical and software tools used in software engineering, software metrics, testing techniques, design techniques, planning and estimation methodologies, and issues related to the reusability, portability, and interoperability of software systems. Emphasis on the application of these techniques and methodologies to real world problems. Includes a team-based software development project.

CSCI 4654. Programming and Languages: Modern Functional Programming. (4 cr; prereq 1302, 2101 or #; fall, spring, offered periodically) Survey of concepts, tools, and techniques from the realm of functional programming. Topics include higher order functions, currying, type systems, concurrency models, mechanisms for managing state, and methods of compilation and evaluation such as graph reduction and term rewriting.

CSCI 4655. Programming and Languages: Software Design and Development II. (4 cr; prereq 3601 or #; summer, offered periodically) Design and implementation of a medium-scale software system in an intensive, full-time lab setting where teams use object-oriented tools and agile development processes. Emphasis on the creation, evolution, and maintenance of system design.

CSCI 4656. Programming and Languages: Human-Computer Interaction and Interface Design. (4 cr; prereq 2101 or #; fall, spring, offered periodically) Introduction to the design, evaluation, and implementation of interactive computing systems for human use with a particular emphasis on user interfaces. Possible domains include usability issues for desktop applications, embedded systems, and Web design. Student projects include evaluative studies and sample implementations.

CSCI 4658. Programming and Languages: Usability, Design, and Mobile Technologies. (4 cr; prereq 3601 or #; fall, offered periodically) Design, evaluation, and use of innovative handheld, mobile, and wearable technologies. Topics include needs and issues unique to mobile users, as well as social and organizational impacts of mobile technologies. The course consists of a mix of lectures and seminar-style discussions, with projects incorporating important aspects of design, implementation, and evaluation.

CSCI 4901. Senior Seminar. (1 cr; S-N only; prereq IS 1091 or #, jr or sr; fall, spring, every year) In-depth survey of literature in a specific computer-related field of the student’s choice. Students analyze various articles or similarly published works, synthesize their contents, and present their work formally in a conference setting. Multiple writing and speaking experiences reviewed by faculty and classmates. Requires attendance and presentation at a student conference near the end of the semester in addition to regular class meetings.

CSCI 4993. Directed Study. (1-5 cr [max 10 cr]; prereq approved directed study form; fall, spring, every year) An on- or off-campus learning experience individually arranged between a student and a faculty member for academic credit in areas not covered in the regular curriculum.

Dance (DNCE) Division of the Humanities

The program explores dance as a performance art form and cultural expression of various societies throughout the world. It is enhanced by performance opportunities, guest choreographers, conference participation, and other activities sponsored by the UMM Dance Ensemble student organization.

Objectives—The dance program helps students develop a working knowledge and a conceptual understanding of dance as an art form. Students are introduced to the cultural roots of dance, the traditions of training for dance performance, and the skills necessary for dance performance. Students interested in pursuing dance may create an area of concentration or emphasis by combining these courses with courses from other disciplines.

Dance Course Descriptions

DNCE 1321. Introduction to Modern Dance and Ballet. (ART/P; 1 cr [max 2 cr]; S-N only; fall, every year) Practice in the fundamental movement vocabulary and steps of dance with an emphasis on traditional ballet techniques and modern dance interpretations. Exploration of body awareness through improvisational exercises and compositional studies. Discussion of the cultural origins of style in dance and the role of dance in contemporary life.

DNCE 1322. Introduction to Jazz and Modern Dance. (ART/P; 1 cr [max 2 cr]; S-N only; spring, every year) Fundamental movement vocabulary and steps of dance from the unique perspective of American Jazz combined with modern dance. Explores body awareness through improvisational exercises and composed studies. Discussion of dance in contemporary life, individual style, and the cultural origins of jazz music and movement.

DNCE 1323. Introduction to Tap Dance. (ART/P; 1 cr [max 2 cr]; S-N only; Tap shoes required; fall, every year) Practice in footwork and introduction to vocabulary that forms the basis of the percussive dance form. Discussion of origins of the dance form, different styles, and relationship to musical structures. Practice in improvisational Tap skills.

DNCE 1331. Ballet I. (ART/P; 1 cr [max 2 cr]; prereq 1321 or #; fall, spring, every year) A basic study of ballet including its vocabulary, technique, and history. Appropriate for beginning-level students or students who have completed Dncc 1321 or 1322.
DNCE 1302. Modern Dance I. (ART/P; 1 cr [max 2 cr]; prereq 1321 or #; fall, every year)
A basic study of modern dance including alignment, technique, and history. Appropriate for beginning-level students or students who have completed Once 1321 or 1322.

DNCE 1333. Modern Dance II. (ART/P; 1 cr [max 2 cr]; prereq 1321 or 1322 or #; spring, every year)
A basic study of modern dance including alignment, technique, and history. Appropriate for beginning-level students or students who have completed Dncse 1321 or 1322.

DNCE 1334. Tap Dance I. (ART/P; 1 cr [max 2 cr]; prereq 1323 or #; Tap shoes required; spring, every year)
Practice in footwork and advanced beginning vocabulary of this percussive dance form, including opportunities for improvisation. Learn about the origins of the dance form, different styles and how they evolved, and the dance form’s relationship to musical structures. Learn and compose Tap dance choreography.

DNCE 2011. Dance in Society. (HDIV/ 2 cr; spring, odd years)
Through a broad, cross-cultural survey of the different ways in which dance functions in the modern world, students gain an appreciation of the way this art form reflects social and historical experiences. Includes lectures, readings, and opportunities to see dance through videos, observations, and live performances.

DNCE 2301. Practicum in Dance. (ART/P; 1 cr; #; spring, every year)
Directed projects in performance and production aspects of dance for the stage. Projects can be focused on either choreography or technical theatre for dance.

DNCE 2311. Dance Composition. (ART/P; 2 cr [max 8 cr]; fall, spring, offered periodically)
Introduction to the basic elements of choreography, including the use of space, time, energy, abstraction, motif and development, and the selection of music. Using improvisation and assigned movement problems to learn the process of crafting solo and group choreography.

DNCE 2331. Ballet II. (ART/P; 1 cr [max 2 cr]; prereq 1331 or #; ballet slippers required; fall, every year)
A low intermediate-level study of classical ballet. Emphasis on advancing technical skill through conditioning and performance of ballet steps and combinations.

DNCE 2332. Jazz Dance II. (ART/P; 1 cr [max 2 cr]; prereq 1332 or #; spring, every year)
Builds upon basic dance vocabulary with movement exercises drawn from traditional schools of modern dance technique (Wigman/Holm, Graham, Humphrey/Limon, Horton, Cunningham). Emphasis is on advancing technical skills through conditioning, improvisation, and movement combinations. Includes a performance experience.

DNCE 2333. Modern Dance II. (ART/P; 1 cr [max 2 cr]; prereq 1333 or #; fall, every year)
Builds upon basic dance vocabulary with movement exercises drawn from traditional schools of modern dance technique (Wigman/Holm, Graham, Humphrey/Limon, Horton, Cunningham). Emphasis is on advancing technical skills through conditioning, improvisation, and movement combinations. Includes a performance experience.

DNCE 2993. Directed Study. (1-5 cr [max 10 cr]; prereq approved directed study form; fall, spring, summer, every year)
A learning experience individually arranged between a student and a faculty member for academic credit in areas not covered in the regular curriculum such as dance history, choreography and directing, dance education for children.

DNCE 3993. Directed Study. (1-5 cr [max 10 cr]; prereq approved directed study form; fall, spring, summer, every year)
A learning experience individually arranged between a student and a faculty member for academic credit in areas not covered in the regular curriculum such as dance history, choreography and directing, dance education for children.

Economics (Econ)
Division of the Social Sciences

Objectives—The economics curriculum is designed to ensure that students

* understand the nature and functioning of the market system;
* are able to define criteria for assessing efficiency in the provision of goods and services;
* investigate and assess the operation of economic institutions;
* are able to evaluate alternative policies intended to enhance economic outcomes;
* develop competence in quantitative methods and computing methods;
* are able to conceptualize and analyze problems using the tools of economic theory, and communicate the results;
* are competent in oral and written communication; and
* are adequately prepared for graduate or professional school.

Economics Major
Grades of D or D+ in ECON 1111-1112, MATH 1101, and STAT 1601 or 2601 may not be used to meet the major requirements. Up to 4 credits of other economics coursework with a grade of D or D+ may be used to meet the major requirements if offset by an equivalent number of credits of A or B.

Courses may not be taken S-N unless offered S-N only. A minimum GPA of 2.00 is required in the major to graduate. The GPA includes all, and only, University of Minnesota coursework. Grades of "F" are included in GPA calculation until they are replaced.

Required Courses
Students should complete the following during their first two years:

ECON 1111 - Principles of Microeconomics [SS] (4 cr)
ECON 1112 - Principles of Macroeconomics [SS] (4 cr)
MATH 1101 - Calculus I [M/SR] (5 cr)
STAT 1601 - Introduction to Statistics [M/SR] (4 cr)
or STAT 2601 - Statistical Methods [M/SR] (4 cr)

Students should complete the following before their senior year:

ECON 3201 - Microeconomic Theory [SS] (4 cr)
ECON 3202 - Macroeconomic Theory [SS] (4 cr)
ECON 3501 - Introduction to Econometrics [M/SR] (4 cr)

4xxx Level Courses
Take 4 or more credits from the following:

ECON 4101 - Labor Economics I [HDIV] (2 cr)
ECON 4102 - Labor Economics II (2 cr)
ECON 4111 - Mathematical Economics I (2 cr)
ECON 4112 - Mathematical Economics II (2 cr)
ECON 4121 - International Trade Theory (2 cr)
ECON 4131 - International Finance (2 cr)
ECON 4501 - Senior Research Seminar in Economics and Management (2 cr)
ECON 4993 - Directed Study (1-5 cr)

Elector Courses
No more than 4 credits from each of the following can be applied to the major:

ECON x993– Senior Research Seminar in Economics and Management

Take 14 or more credits from the following:

ECON 3005 - Experimental and Behavioral Economics I [SS] (2 cr)
ECON 3006 - Experimental and Behavioral Economics II [SS] (2 cr)
ECON 3007 - Environmental and Natural Resource Economics I [ENVT] (2 cr)
ECON 3008 - Environmental and Natural Resource Economics II [ENVT] (2 cr)
ECON 3009 - Political Economy [SS] (4 cr)
ECON 3014 - Game Theory: The Theory of Strategic Behavior I [SS] (2 cr)
ECON 3015 - Game Theory: The Theory of Strategic Behavior II [SS] (2 cr)
ECON 3113 - Money, Banking, and Financial Markets [SS] (4 cr)
ECON 3121 - Public Economics I [SS] (2 cr)
ECON 3122 - Public Economics II [SS] (2 cr)
ECON 3131 - Comparative Economic Systems [IP] (2 cr)
ECON 3133 - Economics of China [IP] (2 cr)
ECON 3134 - Cooperative Business Model [SS] (2 cr)
ECON 3141 - Economic Development and Growth I [IP] (2 cr)
ECON 3142 - Economic Development and Growth II [IP] (2 cr)
ECON 3153 - Contemporary Global Economic Issues [IP] (2 cr)
ECON 3211 - History of Economic Thought I [HIST] (2 cr)
ECON 3212 - History of Economic Thought II [HIST] (2 cr)
ECON 3351 - Globalization: Examining India’s Social and Economic Development [IP] (4 cr)
ECON 3993 - Directed Study (1-5 cr)
ECON 3xxx

Economics Minor

Grades of D or D+ in ECON 1111-1112, MATH 1101, and STAT 1601 or 2601 may not be used to meet minor requirements.

Courses may not be taken S-N unless offered S-N only.

A minimum GPA of 2.00 is required in the minor to graduate.

The GPA includes all, and only, University of Minnesota coursework. Grades of "F" are included in GPA calculation until they are replaced.

Required Courses

ECON 1111 - Principles of Microeconomics [SS] (4 cr)
ECON 1112 - Principles of Macroeconomics [SS] (4 cr)
ECON 3201 - Microeconomic Theory [SS] (4 cr)
ECON 3202 - Macroeconomic Theory [SS] (4 cr)
MATH 1101 - Calculus I [M/ SR] (5 cr)
STAT 1601 - Introduction to Statistics [M/ SR] (4 cr)

Elective Courses

No more than 4 credits from each of the following can be applied to the major:

ECON x993 - Directed Study
ECON 4501 - Senior Research Seminar in Economics and Management

Take 6 or more credits from the following:

ECON 3005 - Experimental and Behavioral Economics I [SS] (2 cr)
ECON 3006 - Experimental and Behavioral Economics II [SS] (2 cr)
ECON 3007 - Environmental and Natural Resource Economics I [ENVT] (2 cr)
ECON 3008 - Environmental and Natural Resource Economics II [ENVT] (2 cr)
ECON 3009 - Political Economy [SS] (4 cr)
ECON 3014 - Game Theory: The Theory of Strategic Behavior I [SS] (2 cr)
ECON 3015 - Game Theory: The Theory of Strategic Behavior II [SS] (2 cr)
ECON 3113 - Money, Banking, and Financial Markets [SS] (4 cr)
ECON 3121 - Public Economics I [SS] (2 cr)
ECON 3122 - Public Economics II [SS] (2 cr)
ECON 3131 - Comparative Economic Systems [IP] (2 cr)
ECON 3133 - Economics of China [IP] (2 cr)
ECON 3134 - Cooperative Business Model [SS] (2 cr)
ECON 3141 - Economic Development and Growth I [IP] (2 cr)
ECON 3142 - Economic Development and Growth II [IP] (2 cr)
ECON 3153 - Contemporary Global Economic Issues [IP] (2 cr)
ECON 3211 - History of Economic Thought I [HIST] (2 cr)
ECON 3212 - History of Economic Thought II [HIST] (2 cr)
ECON 3351 - Globalization: Examining India’s Social and Economic Development [IP] (4 cr)
ECON 3501 - Introduction to Econometrics [M/ SR] (4 cr)
ECON 3993 - Directed Study (1-5 cr)
ECON 4101 - Labor Economics I [HDI V] (2 cr)
ECON 4102 - Labor Economics II (2 cr)
ECON 4111 - Mathematical Economics I (2 cr)
ECON 4112 - Mathematical Economics II (2 cr)
ECON 4121 - International Trade Theory (2 cr)
ECON 4131 - International Finance (2 cr)
ECON 4501 - Senior Research Seminar in Economics and Management (2 cr)
ECON 4993 - Directed Study (1-5 cr)
ECON 3xxx, 4xxx

Teacher Preparation Requirements

Students seeking teaching licensure in social studies 5–12 should refer to the Education, Secondary (SeEd) section of this catalog.

Economics Course Descriptions

ECON 1111. Principles of Microeconomics. (SS; 4 cr; prerequisite high school algebra or #; fall, spring, every year)

ECON 1112. Principles of Macroeconomics. (SS; 4 cr; prerequisite high school algebra or #; fall, spring, every year)

Introduction to basic economic problems, concepts, and theoretical models. U.S. economic institutions and the economic organization of society. The role of markets in the production and distribution of societal resources. Measurement of economic performance; national income, inflation, and unemployment; competing macroeconomic theories and stabilization policies.

ECON 1993. Directed Study. (1-5 cr [max 10 cr]; prerequisite approved directed study form; fall, spring, summer, every year)

An on- or off-campus learning experience individually arranged between a student and a faculty member for academic credit in areas not covered in the regular curriculum.

ECON 2993. Directed Study. (1-5 cr [max 10 cr]; prerequisite approved directed study form; fall, spring, summer, every year)

An on- or off-campus learning experience individually arranged between a student and a faculty member for academic credit in areas not covered in the regular curriculum.

ECON 3005. Experimental and Behavioral Economics I. (SS; 2 cr; prerequisite 1111, 1112, Math 1101 or #; fall, spring, offered periodically)

Introduction to economic experiments as controlled tests of microeconomic and game-theoretic behavioral predictions. In-class economic experiments, elements of non-cooperative game theory, results of market and social preference experiments, and empirical applications.

ECON 3006. Experimental and Behavioral Economics II. (SS; 2 cr; prerequisite 3005 or #; fall, spring, offered periodically)

Advanced concepts and applications in experimental and behavioral economics.

ECON 3007. Environmental and Natural Resource Economics I. (ENVT; 2 cr; prerequisite 1111 or #; fall, spring, offered periodically)

An overview of "brown" pollution and "green" sustainability issues in environmental and natural resource economics. Emphasis on the role of market failures in causing environmental problems and on the design of market mechanisms and incentive regulations to solve those problems. Analysis of current federal policy in the areas of water and air pollution.

ECON 3008. Environmental and Natural Resource Economics II. (ENVT; 2 cr; prerequisite 3007 or #; fall, spring, offered periodically)

The economic analysis of sustainability, focusing on market designs to discourage over-exploitation of both renewable and exhaustible natural resources. Topics include markets for water, fisheries, and energy.

ECON 3009. Political Economy. (SS; 4 cr; prerequisite 3004, ECON 3003; prerequisite 1111, 1112 or #; fall, spring, offered periodically)

The historical evolution, methodological relevance, and basic structure of the modern capitalist economy, including the dynamics of capital accumulation, economic crisis, transformation and regulating mechanism of contemporary capitalism, and hegemonic tendency of economy over polity and other aspects of life in contemporary society.
ECON 3011. Cost-Benefit Analysis. (ENVT; 4 cr; prereq 1111; spring, offered periodically) Cost-Benefit Analysis is a widely used method for comparing the benefits and costs of competing alternatives a decision-maker is considering. Derive best methods for conducting Cost-Benefit Analysis, building upon a solid understanding of the theory underlying it. Successful completion of this course allows students to apply the techniques of Cost-Benefit Analysis, and understand the strengths and weaknesses of CBA, including valuation and discounting.

ECON 3014. Game Theory: The Theory of Strategic Behavior I. (SS; 2 cr; prereq 1111 or #; credit will not be granted if credit has been received for IS 3206H; spring, even years) The analytic approach to strategic interaction. Strategic interaction takes place among people when the payoffs to each person depend on the choices of all the others, and each person knows this fact in choosing their behavior. Development of the basic concepts of the theory of strategic interaction, including the definition of a strategy, extensive form and strategic form representations of the same game, and the solution concepts of Nash equilibrium and rollback equilibrium. A selection of applications of economic interest are covered, such as market entry deterrence and social dilemma games.

ECON 3015. Game Theory: The Theory of Strategic Behavior II. (SS; 2 cr; prereq 3014 or #; spring, even years) Extensions to the basic analytic theory of strategic interaction that widen its applicability, including topics such as repeated games, asymmetric information, and refinements to basic solution concepts. A selection of applications of economic interest, such as screening, signaling, and brinkmanship.

ECON 3113. Money, Banking, and Financial Markets. (SS; 4 cr; prereq 1111, 1112 or #; fall, every year) Nature and function of money; role of commercial banks and other financial institutions; structure and function of Federal Reserve system; monetary policies for stabilization and growth; and a survey and synthesis of major theories on the value of money.

ECON 3121. Public Economics I. (SS; 2 cr; prereq 1111, 1112 or #; spring, offered periodically) Analysis of the economics of public expenditures.

ECON 3122. Public Economics II. (SS; 2 cr; prereq 1111, 1112 or #; spring, offered periodically) Analysis of the economics of taxation.

ECON 3131. Comparative Economic Systems. (IP; 2 cr; prereq 1111, 1112 or #; fall, spring, offered periodically) Comparison of the theory and functioning of the major economic systems of the world; economic reform in capitalist and socialist economies.

ECON 3133. Economics of China. (IP; 2 cr; prereq 1111, 1112; fall, spring, offered periodically) Examine the sources of economic growth in China, one of the world's largest and fastest-growing economies. Analyze the restructuring and reforms made to the economy, including the opening of the economy to world trade.

ECON 3134. Cooperative Business Model. (SS; 2 cr; =MGMT 3134; prereq 1111 or #; spring, even years) Same as Mgmt 3134. In the northern plains of the United States, cooperative businesses, including consumer, producer, and worker cooperatives, have made significant contributions to economic growth and development. Identify the unique economic, legal, and organizational characteristics of these firms and their role in the economy. Special attention is given to the potential role of cooperative business organizations in community development.

ECON 3141. Economic Development and Growth I. (IP; 2 cr; prereq 1111, 1112 or #; fall, every year) Nature and meaning of economic development. Theories of economic growth and the historical experience of now developed countries. General development problems facing developing countries.

ECON 3142. Economic Development and Growth II. (IP; 2 cr; prereq 3141 or #; fall, every year) Current development problems and policies in developing countries; the possibilities and prospects for future development. Case studies examining the development progress of these countries.

ECON 3153. Contemporary Global Economic Issues. (IP; 2 cr; prereq 1111, 1112, Stat 1601, or #; spring, offered periodically) Many of the most important global issues are economic in nature. Questions of population growth and aging, economic and political stability, security, terrorism, trade policy, poverty, development, the environment, energy, technology transfer, and even public health and education, in a global context can only be properly understood with some knowledge of economic principles. Gain knowledge of economic ideas necessary to understand and to criticize professional economic advice about global affairs. Strong emphasis on argumentation, rhetoric, and ability to debate economic ideas in a given framework.

ECON 3201. Microeconomic Theory. (SS; 4 cr; prereq 1111, Math 1101 or #; fall, every year) Analytical approach to decision making by individual economic units in the output and input markets, under perfect and imperfect market conditions. Externalities and role of government.

ECON 3202. Macroeconomic Theory. (SS; 4 cr; prereq 1112, Math 1101 or #; spring, every year) The theory of national income determination; inflation, unemployment, and economic growth in alternative models of the national economy.

ECON 3211. History of Economic Thought I. (HIST; 2 cr; prereq 1111, 1112; fall, every year) The origin and development of economic thought from Mercantilism through the classical school. Among others, Adam Smith and Karl Marx are featured. Nature of economics as a social science through the study of its historical development.

ECON 3212. History of Economic Thought II. (HIST; 2 cr; prereq 3211 or #; fall, every year) The development of economic thought from Marx and the end of the classical school, through the development of more modern approaches. In addition to the demise of classical thought, a selection from the thinkers who contributed to the foundations of modern microeconomics and/or macroeconomics is covered. Nature of economics as a social science, through the study of its historical development.

ECON 3351. Globalization: Examining India's Social and Economic Development. (IP; 4 cr; =MGMT 3351; prereq 1111 or 1112 or #; spring, offered periodically) Same as Mgmt 3351. Observe and study the impact of globalization on the Indian economy. Examine the growing class divide between the middle and upper middle class and the lower class. Study the problem of mass poverty in India and its various ramifications such as child labor, lack of education and basic health care, and the inherent gender bias. Examine sustainable grass roots efforts to combat some of these problems.

ECON 3501. Introduction to Econometrics. (M/SR; 4 cr; prereq 3201 or 3202, Stat 1601; spring, every year) Designing empirical models in economics. Simple and multiple regression analysis. Violations of classical assumptions in regression analysis. Logit and probit models; simultaneous equation models and lag models. Emphasis on application techniques to economic issues.

ECON 3993. Directed Study. (1-5 cr [max 10 cr]; prereq approved directed study form; fall, spring, every year) An on- or off-campus learning experience individually arranged between a student and a faculty member for academic credit in areas not covered in the regular curriculum.

ECON 4101. Labor Economics I. (HDIV; 2 cr; prereq 3201 or #; fall, every year) Wage and employment determination. Distribution of earnings and earnings inequality by race and sex. Labor supply applications.

ECON 4102. Labor Economics II. (2 cr; prereq 3201 or #; fall, every year) Functioning and performance of the labor market. Heterodox explanations of labor market behavior. Labor demand applications.

ECON 4111. Mathematical Economics I. (2 cr; prereq 3201, 3202 or #; fall, spring, offered periodically) Application of mathematical methods to economic analysis. Mathematical formulations and solution of optimizing models pertaining to households and firms and of adjustments to disturbances.
ECON 4112. Mathematical Economics II. (2 cr; prereq 3201, 3202 or #; fall, spring, offered periodically) Topics include linear modeling, input-output analysis and linear programming, efficiency and exchange, comparative static analysis, and dynamic microeconomic and macroeconomic models.

ECON 4121. International Trade Theory. (2 cr; prereq 3201 or #; spring, every year) Overview of why trade occurs, pattern of trade and international factor movement. Effect of trade and trade policy on the economy. Current topics in trade theory.

ECON 4131. International Finance. (2 cr; prereq 3202 or #; spring, every year) Foreign exchange markets; theories of exchange rate determination; fixed vs. flexible rate systems; theories of balance of payments adjustments; international quantity of money theory; international reserves; international monetary system (past, present, and future); internal and external balance, international economic policy coordination, international debt problem; effect of international sector on domestic growth and stability.

ECON 4501. Senior Research Seminar in Economics and Management. (2 cr [max 4 cr]; prereq sr or 3501 or #; full year course begins in fall sem: fall, every year) Seminar on selected topics in economics and management. Guided research sessions familiarize students with literature in the field. Students are required to make a formal presentation on their research topic and attend presentations by their peers.

ECON 4993. Directed Study. (1-5 cr [max 10 cr]; prereq approved directed study form; fall, spring, every year) An on- or off-campus learning experience individually arranged between a student and a faculty member for academic credit in areas not covered in the regular curriculum.

Education Programs

Division of Education

(See Education; Education, Elementary; Education, Secondary; Sport Management, and Sport Studies and Athletics.) UMM offers all students the opportunity to study education and its role in society. Most courses with the "Ed" designator meet general education requirements, and enrollment in these courses is open and not limited to students pursuing teaching licensure.

The Division of Education offers a major and teaching license in elementary education (K–6) with optional endorsement areas in preprimary (age 3–grade 3); and middle level (grades 5–8) communication arts and literature, mathematics, science, and social studies. Licensure of secondary school teachers is offered in chemistry (9–12), communication arts and literature (5–12), earth and space science (9–12), French (K–12), general science (5–8), instrumental music (K–12), life science (9–12), mathematics (5–12), physics (9–12), social studies (5–12), Spanish (K–12), visual arts (K–12), and vocal music (K–12). Students may elect to complete coursework leading to endorsement for head varsity coaches in Minnesota. See Sport Studies and Athletics (SSA) discipline for course listings.

Teacher education at UMM is part of the lifelong development of an effective teacher. It is based on a belief that a successful teacher is one who reflects on teaching and makes instructional decisions that ensure student learning. Teacher education at UMM uses personalized instruction and provides opportunities for a variety of rural, urban, and suburban placements in Minnesota, other states, and other countries. Teacher candidates are prepared to employ human, technological, and other resources in the effective instruction of diverse populations of learners. The program introduces prospective teachers to the teaching profession and prepares them to demonstrate:

1. **Knowledge** of themselves and of learners; liberal arts disciplines; diverse cultures, social organizations, and societies; human growth and development; communication and language; problem solving; and effective teaching and learning;

2. **Skill** in all aspects of teaching including setting goals and objectives; selecting appropriate content, activities, and materials; implementing effective lessons; assessing student learning; and evaluating oneself with the goal of continuous improvement;

3. **Dispositions** associated with effective teaching, including collaboration; ethics and integrity; equity and respect; efficacy and commitment to learning; responsibility; and enthusiasm and openness;

4. **Leadership** when addressing educational issues developed and demonstrated through issue-oriented readings and research; topic presentations; expert groups; peer teaching; senior presentations; and participation in University clubs, organizations, committees, and research programs with UMM faculty.

Admission requirements must be met and admission granted before students can enroll in courses in either the elementary or secondary teacher education programs. These admission requirements are set by UMM and the state of Minnesota. They are described under Admission to the Major in the Education, Elementary (ElEd) section of this catalog.

Education (Ed)

Division of Education

This discipline is designed to meet general education requirements and is not limited to students pursuing teaching licensure.

Objectives—These courses are designed to offer students the opportunity to study education and its role in society.

Education Course Descriptions

ED 1801. Critical Issues in K-12 Education. (IC; 2 cr; prereq new college student in their first semester of enrollment at UMM; fall, spring, offered periodically) The education of K-12 students is reported on and discussed in the media on a daily basis and federal programs such as No Child Left Behind and Race to the Top influence the functioning of schools and the education of the K-12 student. State regulations and initiatives are also an important factor in how students learn and how teachers are prepared to teach. How can the average citizen make sense of all this information? Delve into some of the critical issues facing the education of K-12 students. Topics may include issues such as the achievement gap, assessments, bullying, inclusion and equity, and opportunity.

ED 1993. Directed Study. (1-5 cr [max 10 cr]; prereq approved directed study form; fall, spring, every year) An on- or off-campus learning experience individually arranged between a student and a faculty member for academic credit in areas not covered in the regular curriculum.

ED 2111. Tutor-Aide Practicum. (1 cr; S-N only; prereq & 2121; fall, spring, summer, every year) Students complete 30 hours of preprofessional field experience in the schools.

ED 2121. Introduction to Education. (SS; 3 cr; A-F only; prereq coreq 2111; fall, spring, summer, every year) History, philosophy, and purposes of American education; classroom practices and effective teaching; instructional technology; and certification requirements in education.
impacted by such institutions as schooling and the media. Students analyze power relationships and how they impact and are represented in literary and film texts. Additionally, a survey of key concepts in diversity research (including power, moral and cultural values, using literature in the grade 5-12 classroom, and reader response theory and pedagogy. Students read, respond to, and evaluate young adult literature.

ED 2201. Perspectives on Young Adult Literature: Schooling, Society, and Culture. (HUM; 4 cr; summer, offered periodically) Exposure to multiple genres of young adult literature and brief introduction to various types of response to literature. Special emphasis on multicultural literature, the role of literature in forming moral and cultural values, using literature in the grade 5-12 classroom, and reader response theory and pedagogy. Students read, respond to, and evaluate young adult literature.

ED 2211. Issues and Current Trends in Literacy and Language Education. (HUM; 4 cr; no cr for students who have received cr for Ed 4101; summer, offered periodically) Study of themes, issues, and current trends surrounding literacy education including historical foundations of current reading practices, changing definitions of literacy, ideologies that influence understanding and implementation of reading practices, and consideration of complexities of addressing societal literacy concerns.

ED 2221. Diversity and Identity in Literature and Film. (HDIV; 4 cr; spring, offered periodically) A survey of key concepts in diversity research (including power, prejudice, social justice, institutionalized discrimination, tolerance) as well as identity representation in literary and film texts. Additionally, students analyze power relationships and how they impact and are impacted by such institutions as schooling and the media.

ED 2301. Environmental Science and Place-Based Education. (ENVT; 4 cr; A-F only; summer, every year) Study of the topics, issues, and concepts of environmental science and place-based education while working with environmental specialists and interacting with elementary students at a wetland learning center.

ED 2993. Directed Study. (1-5 cr [max 10 cr]; prereq approved directed study form; fall, spring, every year) An on- or off-campus learning experience individually arranged between a student and a faculty member for academic credit in areas not covered in the regular curriculum.

ED 3993. Directed Study. (1-5 cr [max 10 cr]; prereq approved directed study form; fall, spring, every year) An on- or off-campus learning experience individually arranged between a student and a faculty member for academic credit in areas not covered in the regular curriculum.

ED 4121. Strategies for Inclusive Schooling. (2 cr; A-F only; prereq EIEd 3101, 3102, 3103, 3111 or admission to the secondary education program; fall, every year) Strategies and techniques for developing inclusive learning environments. Discussion of the differences in strategies in accommodations and modifications. Emphasizes adaptations for students with mild, moderate, and severe disabilities. Introduction to various methods of identifying students with disabilities and follow-up interventions.

ED 4901. The Teacher and Professional Development. (1 cr; A-F only; prereq EIEd or SeEd 4201 or 4204 or #; spring, every year) Capstone experience. Professional development issues and philosophy of education are included as topics of study.

ED 4903. Kindergarten Education. (4 cr; A-F only; summer, every year) Study of kindergarten education. Topics include: historical foundations, philosophy, current issues and trends, developmental characteristics and organizational needs of kindergarten children, and developmentally appropriate practices and instruction in the classroom.

ED 4911. Kindergarten Practicum. (1 cr; S-N only; prereq coreq 4903; summer, every year) Field experience with kindergarten children.

ED 4993. Directed Study. (1-5 cr [max 10 cr]; prereq approved directed study form; fall, spring, every year) An on- or off-campus learning experience individually arranged between a student and a faculty member for academic credit in areas not covered in the regular curriculum.

Elementary Education (EIEd)

Division of Education

A separate admissions process must be completed and admission granted before students enroll in this program.

The elementary education major leads to Minnesota licensure as a teacher of grades K-6. Students obtaining a K-6 license may also pursue an optional endorsement in one of the following five areas: 1) preprimary, 2) middle level communication arts and literature, 3) middle level mathematics, 4) middle level science, and 5) middle level social studies.

Objectives—Course work in elementary education is designed to meet standards of effective practice required for licensure and provide prospective teachers with opportunities to understand central concepts, tools of inquiry, and structures of disciplines taught in the elementary school; understand child and adolescent development theory, individual and group motivation and diversity among learners; create instructional opportunities adapted to learners of diverse cultural backgrounds and abilities; use instructional strategies and technologies that reflect personal knowledge of effective verbal, nonverbal, and media communication techniques; encourage development of critical thinking, problem solving, and performance skills; understand and use formal and informal methods of student assessment; and collaborate with parents/guardians, families, school colleagues, and the community in an ethical manner.

Students pursuing Minnesota teaching licensure at the elementary K-6 level and optional endorsement areas must have successfully completed licensure requirements in the elementary teacher education program and passed state and federally mandated examinations for new teachers. A minimum GPA of 2.50 overall with 2.75 minimum GPA in elementary education major and licensure area(s) is required. All courses that fulfill requirements for teaching licensure in elementary education (discipline, professional education, or other courses) must be completed with a grade of C- or better. Required courses must be taken A-F unless they are offered S-N only.

Admission

Students must complete 60 credits before admission to the program.

A GPA of 2.75 or above is preferred for students:

• already admitted to Morris
• transferring from another University of Minnesota college
• transferring from outside the University

For admission to the major’s two-year course sequence which begins each fall, students must follow the application procedure. Information sessions are held periodically to provide an overview of admissions and program requirements.

Students transferring from other schools must be admitted to UMM before admission to the elementary education program can be offered. Transfer students should seek academic planning advice from the education faculty in advance of application to the program.
Requirements:
1. Completion of the Minnesota Teacher Licensure Examinations: Basic Skills.
2. Minimum GPA of 2.50 overall with 2.75 minimum GPA in ElEd major and licensure area(s). No grade below C- will be accepted in these courses.
3. Approximately 60 credits completed by the end of the sophomore year.
4. Approval of the faculty based on an interview, recommendations, assessment of prior experience (especially with children and other cultures), and progress toward degree.
5. Admission to UMM.

For information about University of Minnesota admission requirements, visit the Office of Admissions website.

Courses Required for Admission
ED 2111 - Tutor-Aide Practicum (1 cr)
ED 2121 - Introduction to Education [SS] (3 cr)
ED 2131 - Foundations of Reading [HUM] (2 cr)

Take the following course or course pair: PSY 1051 is a prerequisite.
PSY 1061 - Introduction to the Development of the Child and Adolescent [SS] (4 cr)
  or PSY 3401 - Developmental Psychology I: Child Psychology [SS] (4 cr)
  and PSY 3402 - Developmental Psychology II: Adolescence [SS] (2 cr)

Elementary Education Major
All courses required for a major in elementary education must be completed with a grade of C- or better. Required courses must be taken A-F unless they are offered S-N only. A minimum GPA of 2.75 is required in the major to graduate. The GPA includes all course work. Grades of "F" are included in GPA calculation until they are replaced. Successful completion of course assignments, elementary education course grades of C- or better, satisfactory completion of field experiences, and minimum GPA of 2.50 overall with 2.75 minimum GPA in the elementary education major and licensure area(s) are required at the end of each semester for continued eligibility in the program.

Students seeking a non-education major or minor should see requirements for the area of interest.

Major Requirements--Program Year One
ELED 3101 - Teaching and Learning Strategies (3 cr)
ELED 3102 - Reading Methods: Literacy and Language Instruction in the Elementary School (4 cr)
ELED 3103 - Mathematics in the Elementary School (4 cr)
ELED 3111 - Practicum I: Field Experience in the Elementary Classroom (1 cr)
ELED 3201 - Preprimary Theory: Three-, Four-, and Five-Year-Olds in School (1 cr)
ELED 3202 - Middle Level Theory (1 cr)

Practicum II: Field Experience in a Preprimary or Middle Level Setting
ELED 3211 - Practicum II: Field Experience in a Preprimary Setting (1 cr)
or
  ELED 3212 - Practicum II: Field Experience in a Middle Level Setting (1 cr)

Major Requirements--Program Year Two
ED 4121 - Strategies for Inclusive Schooling (2 cr)
ED 4901 - The Teacher and Professional Development (1 cr)
ELED 4102 - Social Studies in the Elementary School (2 cr)
ELED 4103 - Science in the Elementary School (2 cr)
ELED 4104 - Language Arts and Literature in the Elementary School (3 cr)
ELED 4107 - Health and Physical Education in the Elementary School (1 cr)
ELED 4111 - Practicum III: Beginning Student Teaching (2 cr)

ELED 4112 - Practicum IV: Cross-Cultural Experience in the Elementary School (1 cr)

Student Teaching Requirements
1. Passing scores on MTLE Basic Skills or faculty approved remediation plan.
2. Approval of elementary education faculty.
3. Minimum GPA of 2.50 overall with 2.75 minimum GPA in ElEd major and licensure area(s).

Directed Student Teaching
ELED 4201 - Directed Student Teaching in Primary and Intermediate Grades [HDIV] (12 cr)
or
  ELED 4204 - Directed Student Teaching in International School at the Primary and Intermediate Level [IP] (12 cr)

Program Sub-plans
A sub-plan is not required for this program.

Elementary Education Minnesota Licensure Requirements
Students planning to teach in Minnesota elementary schools must meet the licensure requirements of the Minnesota Board of Teaching (BOT). The following program is designed to meet these requirements which are subject to change when the BOT implements new licensure rules.

Note: Students must complete licensure requirements and apply for licensure within seven years from time of admission to the program. After seven years, all education courses previously taken are void and must be retaken.

1. ElEd Major Requirement
   - All requirements for an elementary education major must be complete in order to be licensed.

2. Communication Arts and Literature
   - Students must also complete the general education requirements for writing and foreign language. ENGL 3021 is recommended. In the listing below, 2xxx is equivalent to 2xxx or above.
   ENGL 2xxx
   or
   ENGL 3021 - Grammar and Language [HUM] (4 cr)
   CMR 1052 - Introduction to Public Speaking [E/CR] (2 cr)
   or
   CMR 1042 - Public Speaking and Analysis [E/CR] (4 cr)

3. Mathematics and Statistics
   MATH 1001 - Survey of Math [M/SR] (4 cr)
   STAT 1601 - Introduction to Statistics [M/SR] (4 cr)
   or
   STAT 2601 - Statistical Methods [M/SR] (4 cr)
   or
   STAT 2611 - Mathematical Statistics [M/SR] (4 cr)

4. Visual and Performing Arts
   - Students must complete two courses from two different disciplines.
   - Students are required to complete a sub-plan in at least one of the following areas:
     Visual and Performing Arts Subgroups
     - In the listings below, 1xxx is equivalent to 1xxx or above.
     - Take 2 or more courses including 2 or more sub-requirements from the following:
       ARTH 1101 - Principles of Art [FA] (4 cr)
       or
       ARTH 1xxx
       or
       ARTS 1050 - Beginning Ceramics [ART/P] (3 cr)
       or
       ARTS 1xxx
       or
       DNCE 1xxx
       or
       DNCE 2xxx
       or
       MUS 1041 - Introduction to Music [FA] (4 cr)
       or
       MUS 1042 - Fundamentals of Music [FA] (4 cr)
       or
       MUS 1xxx
       TH 1101 - The Theatre Experience: An Introduction [FA] (4 cr)
       or
       TH 1xxx
       or
       TH 2111 - Creative Drama with Children [ART/P] (4 cr)

5. Social Studies
   - Students must complete two courses from two different disciplines.
   - In the listing below, 1xxx is equivalent to 1xxx or above.
   Take 2 or more courses including 2 or more sub-requirements from the following:
   Sub-requirement 1: Anthropology
   ANTH 1111 - Introductory Cultural Anthropology [SS] (4 cr)
   or
   ANTH 1xxx
Sub-requirement 2: Economics
ECON 1111 - Principles of Microeconomics [SS] (4 cr)
or ECON 1112 - Principles of Macroeconomics [SS] (4 cr)
or ECON 1xxx

Sub-requirement 3: Geography
GEOG 1xxx
or GEOG 2001 - Problems in Geography [ENVT] (4 cr)

Sub-requirement 4: History
HIST 1301 - Introduction to U.S. History [HIST] (4 cr)
or HIST 1xxx

Sub-requirement 5: Political Science
POLS 1201 - American Government and Politics [E/CR] (4 cr)
or POLS 1xxx

Sub-requirement 6: Sociology
SOC 1101 - Introductory Sociology [SS] (4 cr)
or SOC 1xxx
or SOC 3122 - Sociology of Childhoods [HDIV] (4 cr)

6. Science
Students must complete two courses from two different disciplines, at least one with lab (SCI-L). In the listing below, 1xxx is equivalent to 1xxx or above.

Take 2 or more courses including 2 or more sub-requirements from the following:

Sub-requirement 1: Biology
BIOL 1xxx
or ED 2301 - Environmental Science and Place-Based Education [ENVT] (4 cr)
or ENST 2101 - Environmental Biology [SCI-L] (4 cr)

Sub-requirement 2: Chemistry
CHEM 1xxx

Sub-requirement 3: Geology
GEOL 1001 - Environmental Geology: Geology in Daily Life [SCI] (4 cr)
or GEOL 1101 - Physical Geology [SCI-L] (4 cr)
or GEOL 1xxx

Sub-requirement 4: Physics
PHYS 1052 - The Solar System [SCI-L] (5 cr)
or PHYS 1xxx

7. Psychology
PSY 2581 - Drugs and Human Behavior [SS] (2 cr)

8. Cross-cultural Field Experience
Students must successfully complete a cross-cultural field experience.

9. Additional Licensure Requirements
GPA Requirements:
  a) Minimum GPA of 2.50 overall with 2.75 minimum GPA in ElEd major and licensure area(s)
  b) No grade below C- will be accepted.

MLTE Basic Skills:
Passing scores on MLTE Basic Skills or faculty approved remediation plan.

Discipline Approval:
Approval of elementary education faculty.

1. Preprimary Education Endorsement Sub-plan (age 3 to grade 3)
Students planning to complete this sub-plan must also complete the requirements for elementary K-6 licensure. Students planning to complete this sub-plan should take ElEd 3201, ElEd 3211 in addition to the following courses:

Required Courses
- ELED 3203 - Preprimary Methods: Curriculum and Instruction for Three-, Four-, and Five-Year-Olds (3 cr)
- ELED 4207 - Directed Student Teaching in Preprimary Classroom [HDIV] (4 cr)
- PSY 3401 - Developmental Psychology I: Child Psychology [SS] (4 cr)
- SOC 1101 - Introductory Sociology [SS] (4 cr)

Additional Courses
Take 3 or more courses from the following:
- ED 4903 - Kindergarten Education (4 cr)
- PSY 3112 - Cognition [SS] (4 cr)
- PSY 3302 - Personality [SS] (4 cr)
- PSY 3315 - Parenting and Family Therapy [SS] (4 cr)
- PSY 3404 - Culture and Human Development [HDIV] (4 cr)
- PSY 3501 - Social Psychology [SS] (4 cr)
- SOC 3122 - Sociology of Childhoods [HDIV] (4 cr)
- TH 2111 - Creative Drama with Children [ART/P] (4 cr)

2. Middle Level Education Endorsement Sub-plan—Communication Arts and Literature (grades 5-8)
Students planning to complete this sub-plan must also complete the requirements for elementary K-6 licensure.

Required Courses
In addition to the required courses listed below, a minor in English is strongly recommended. Students planning to complete this sub-plan should take ElEd 3202 and ElEd 3212 in addition to the following courses:

- ENGL 2501 - Literary Studies [HUM] (4 cr)
- ENGE 4121 - Methods of Teaching Communication Arts and Literature in the Middle and Secondary School (4 cr)
- ELED 4207 - Directed Student Teaching in Middle Level Classroom [HDIV] (4 cr)
- CMR 1042 - Public Speaking and Analysis [E/CR] (4 cr)
or CMR 1052 - Introduction to Public Speaking [E/CR] (2 cr)

Additional Courses
- ENGL 3021 is recommended. In the listing below, 2xxx is equivalent to 2xxx or above.
  Take 3 or more course(s) from the following:
  - ED 2201 - Perspectives on Young Adult Literature: Schooling, Society, and Culture [HUM] (4 cr)
  - ENGL 2xxx
  - ENGL 3021 - Grammar and Language [HUM] (4 cr)

3. Middle Level Education Endorsement—Mathematics Sub-plan (grades 5-8)
Students planning to complete this sub-plan must also complete the requirements for elementary K-6 licensure.

Required Courses
In addition to the required courses listed below, a minor in mathematics is strongly recommended. Students planning to complete this sub-plan should take ElEd 3202 and ElEd 3212 in addition to the following courses:

- MTHE 4121 - Methods of Teaching Mathematics in the Middle and Secondary School (4 cr)
- MATH 1101 - Calculus I [M/SR] (5 cr)
- MATH 1102 - Calculus II [M/SR] (5 cr)
- ELED 4207 - Directed Student Teaching in Middle Level Classroom [HDIV] (4 cr)
- STAT 1601 - Introduction to Statistics [M/SR] (4 cr)
or STAT 2601 - Statistical Methods [M/SR] (4 cr)
or STAT 2611 - Mathematical Statistics [M/SR] (4 cr)

Additional Courses
- MATH 2111 is recommended. In the listing below, 2xxx is equivalent to 2xxx or above.
  Take 2 or more course(s) from the following:
  - MATH 2111 - Linear Algebra [M/SR] (4 cr)
  - MATH 2xxx

4. Middle Level Education Endorsement—Social Studies Sub-plan (grades 5-8)
Students planning to complete this sub-plan must also complete the requirements for elementary K-6 licensure.

Required Courses
In addition to the required courses listed below, a minor in anthropology, economics, history, political science, or sociology is strongly recommended. Students planning to complete this sub-plan should take ElEd 3202 and ElEd 3212 in addition to the following courses:

- SSCP 4121 - Methods of Teaching Social Science in the Middle and Secondary School (4 cr)
- ELED 4207 - Directed Student Teaching in Middle Level Classroom [HDIV] (4 cr)
- ECON 1112 - Principles of Macroeconomics [SS] (4 cr)
- HIST 1301 - Introduction to U.S. History [HIST] (4 cr)
ELED 3101. Teaching and Learning Strategies. (3 cr; A-F only; prereq admission to the elementary teacher education program; fall, every year)

Elementary school teaching and learning. Planning for instruction, learning theory, multicultural education, classroom management, use of technology in the classroom.

ELED 3102. Reading Methods: Literacy and Language Instruction in the Elementary School. (4 cr; A-F only; prereq admission to elementary teacher education program; fall, every year)

Beginning and advanced reading instruction in the elementary grades. Includes study of theory, issues, literacy frameworks, assessment, materials, organization, and instructional strategies to scaffold children's literacy development.

ELED 3103. Mathematics in the Elementary School. (4 cr; A-F only; prereq admission to the elementary teacher education program; fall, every year)

Standards, curriculum, assessment, and methodology for teaching mathematics in the elementary school. Includes the theoretical basis of methodology in mathematics and its application, measurement and evaluation, selection and use of instructional media and computer software, and meeting the needs of culturally diverse and special needs students.

ELED 3111. Practicum I: Field Experience in the Elementary Classroom. (1 cr; S-N only; prereq admission to the elementary teacher education program; fall, every year)

Field experience in the elementary classroom.

ELED 3201. Preprimary Theory: Three-, Four-, and Five-Year-Olds in School. (1 cr; A-F only; prereq 3101, 3102, 3103, 3111; spring, every year)

Overview of preprimary education including historical and social foundations, theories, current issues and trends, contemporary programs, and developmentally appropriate practices for three-, four-, and five-year-olds.

ELED 3202. Middle Level Theory. (1 cr; A-F only; prereq 3101, 3102, 3103, 3111; spring, every year)

Developmental characteristics, organizational and instructional needs of pre-adolescent and adolescent level classrooms. Characteristics of effective middle level teachers.

ELED 3203. Preprimary Methods: Curriculum and Instruction for Three-, Four-, and Five-Year-Olds. (3 cr; A-F only; prereq 3101, 3102, 3103, 3111; spring, every year)

Content and methods for planning developmentally appropriate activities and environments designed to enhance preprimary children's cognitive, social, emotional, physical, and creative development; methods of child guidance, anti-bias curriculum, and working with families. Required for student pursuing preprimary endorsement.

ELED 3211. Practicum II: Field Experience in a Preprimary Setting. (1 cr; S-N only; prereq 3101, 3102, 3103, 3111; spring, every year)

Field experience in preprimary or kindergarten setting.

ELED 3212. Practicum II: Field Experience in a Middle Level Setting. (1 cr; S-N only; prereq 3101, 3102, 3103, 3111; spring, every year)

Field experience in the middle level classroom.

ELED 3993. Directed Study. (1-5 cr; max 10 cr; prereq approved directed study form; fall, spring, every year)

An on- or off-campus learning experience individually arranged between a student and a faculty member for academic credit in areas not covered in the regular curriculum.

ELED 4102. Social Studies in the Elementary School. (2 cr; A-F only; prereq 3201, 3202, (3211 or 3212); fall, every year)

Outcomes, content, integration strategies, and assessment of social studies instruction in the elementary curriculum.

ELED 4103. Science in the Elementary School. (2 cr; A-F only; prereq 3201, 3202, (3211 or 3212); fall, every year)

Standards, curriculum, and assessment of elementary school science. Includes theoretical basis of methodology and its application, assessment, selection and use of instructional media and computer software, and meeting the needs of cultural diverse and special needs students.

ELED 4104. Language Arts and Literature in the Elementary School. (3 cr; A-F only; prereq 3201, 3202, (3211 or 3212); fall, every year)

Theory, content, assessment, and strategies that support identification, selection, and use of materials and practices in the language arts and children's literature that foster children's language development and growth in reading, writing, speaking, listening, viewing, and visually representing.

ELED 4107. Health and Physical Education in the Elementary School. (1 cr; A-F only; prereq 3201, 3202, (3211 or 3212); fall, every year)

Scope, sequence, and related activities in elementary health and physical education.

ELED 4111. Practicum III: Beginning Student Teaching. (2 cr; S-N only; prereq 3201, 3202, (3211 or 3212); fall, every year)

Participation in in-service, teaching, and teaching-related activities in preparation for student teaching.

ELED 4112. Practicum IV: Cross-Cultural Experience in the Elementary School. (1 cr [max 2 cr]; S-N only; prereq 3201, 3202, (3211 or 3212); fall, every year)

Field experience in the elementary classroom.

ELED 4201. Directed Student Teaching in Primary and Intermediate Grades. (HDIV; 12 cr; S-N only; prereq 4102, 4103, 4104, 4111, 4112, passing scores on MTLE Basic Skills or #; spring, every year)

Students teach for a period of 10 to 12 weeks demonstrating application of approaches to teaching and learning in primary and intermediate grades under the guidance of a cooperating teacher and University supervisor.

ELED 4202. Directed Student Teaching in Primary and Intermediate Grades. (1-16 cr; S-N only; prereq passing scores on MTLE Basic Skills or #; fall, spring, every year)

For students who need alternative or additional student teaching experience. Students demonstrate application of approaches to...
teaching and learning in primary and intermediate grades under guidance of a cooperating teacher and University supervisor.

ELED 4204. Directed Student Teaching in International School at the Primary and Intermediate Level. (IP; 12 cr; S-N only; prereq 4102, 4103, 4104, 4111, 4112, passing scores on MTLE Basic Skills or #; spring, every year) Students teach for a period of 10 to 12 weeks demonstrating application of approaches to teaching and learning in primary and intermediate grades under the guidance of a cooperating teacher and University supervisor.

ELED 4205. Directed Student Teaching in the Elementary School. (1-16 cr; A-F only; prereq passing scores on MTLE basic skills or #; fall, spring, summer, every year) For students from colleges that require A-F grading for student teaching through the Global Student Teaching Program.

ELED 4206. Directed Student Teaching in Preprimary Classroom. (HDIV; 4 cr; S-N only; prereq 3201, 3203, 3211, passing scores on MTLE basic skills or #; spring, every year) Students teach for a period of 4 weeks demonstrating application of approaches to teaching and learning in preprimary grades under the guidance of a cooperating teacher and University supervisor.

ELED 4207. Directed Student Teaching in Middle Level Classroom. (HDIV; 4 cr; S-N only; prereq 3202, 3212, appropriate methods course, passing scores on MTLE basic skills or #; spring, every year) Students teach for a period of 4 weeks demonstrating application of approaches to teaching and learning in middle level grades under the guidance of a cooperating teacher and University supervisor.

ELED 4993. Directed Study. (1-5 cr [max 10 cr]; prereq approved directed study form; fall, spring, every year) An on- or off-campus learning experience individually arranged between a student and a faculty member for academic credit in areas not covered in the regular curriculum.

Education, Secondary (SeEd)

Division of Education

A separate admissions process must be completed and admission granted before students can enroll in this program.

The secondary education program leads to Minnesota licensure as a teacher in specified liberal arts disciplines.

Objectives—Coursework in secondary education is designed to meet standards of effective practice required for licensure and provide prospective teachers with opportunities to:

* understand central concepts, tools of inquiry, and structures of disciplines taught in the middle and secondary school;
* understand adolescent development theory, individual and group motivation, and diversity among learners;
* create instructional opportunities adapted to learners from diverse cultural backgrounds and with exceptionalities use instructional strategies that reflect personal knowledge of effective verbal and nonverbal communication techniques;
* encourage development of critical thinking, problem solving, and performance skills;
* understand and use formal and informal methods of student assessment;
* plan and manage instruction;
* engage in reflection and self-assessment; and
* collaborate with parents/guardians, families, school colleagues, and the community in an ethical manner.

To obtain a teaching license, an individual must have completed a major, a bachelor's degree, and licensure requirements in the area(s) in which licensure is sought. UMM is approved to recommend teaching licensure in the following fields: chemistry (9-12), communication arts and literature (5-12), earth and space science (9-12), French (K-12), general science (5-8), instrumental music (K-12), life science (9-12), mathematics (5-12), physics (9-12), social studies (5-12), Spanish (K-12), visual arts (K-12), and vocal music (K-12).

Coursework required for licensure, in most cases, is not equivalent to a major. Consult an adviser in the discipline to determine major requirements.

Students planning to seek Minnesota teaching licensure at the secondary school level must complete licensure requirements in the discipline(s) of the subject(s) they intend to teach, the secondary teacher education program, and state and federally mandated examinations for new teachers. A minimum GPA of 2.75 is required in licensure area(s) and in education prerequisite courses. A minimum GPA of 2.50 is required overall. The GPA includes all course work. Grades of "F" are included in GPA calculation until they are replaced. All courses required for teaching licensure in secondary education (discipline, professional education, or other courses) must be completed with a grade of C- or better. Required courses must be taken A-F unless they are offered S-N only.

Admission

Students must complete 90 credits before admission to the program.

A GPA of 2.75 or above is preferred for students:

* already admitted to Morris
* transferring from another University of Minnesota college
* transferring from outside the University

For admission to the one-year program which begins each fall, students must apply in the fall of the preceding year. Admissions decisions are made in early spring.

Transfer students must be admitted to UMM before admission to the secondary program can be offered. Transfer students should seek academic planning advice from the secondary education faculty before application to the program.

Requirements

1. Completion of the Minnesota Teacher Licensure Examinations: Basic Skills.
2. A minimum GPA of 2.75 is required in licensure area(s) and in education prerequisite courses and 2.50 overall. No grade below C- will be accepted in these courses.
3. Approximately 90 credits completed by the end of the junior year including demonstration of satisfactory progress in each licensure area.
4. Approval of the faculty based on an interview, recommendations, assessment of prior experience (especially with young people and other cultures), and progress toward a degree.
5. Admission to UMM.

For information about University of Minnesota admission requirements, visit the Office of Admissions website.

Courses Required for Admission

ED 2121—Introduction to Education [SS] (3 cr)
ED 2111—Tutor-Aide Practicum (1 cr)

Child Development

Take the following course or course pair. PSY 1051 is a prerequisite.

PSY 1061—Introduction to the Development of the Child and Adolescent [SS] (4 cr)
or PSY 3401—Developmental Psychology I: Child Psychology [SS] (4 cr)
and PSY 3402—Developmental Psychology II: Adolescence [SS] (2 cr)

PSY 2581 and CMR 1052 or 1042

These are required for licensure and are recommended to be completed before beginning the program.

Licensure Area Requirements

Student Teaching Requirements

1. Successful completion of:
   SEED courses
   SEED 4102—Teaching and Learning Strategies (2 cr)
SEED 4103– Practicum Experience in the Middle and Secondary School (4 cr)
SEED 4104– Teaching Diverse Learners [HDIV] (2 cr)
SEED 4105– Reading and Literacy in the Content Areas (2 cr)
ED 4121– Strategies for Inclusive Schooling (2 cr)

2. Successful completion of licensure area methods course(s).
These courses focus on the objectives, curricula, special methods, materials, and evaluation appropriate for teaching the various subject matter areas in the middle and secondary school. Students must complete methods course(s) in their licensure area(s).
ARTE 4123– Methods of Teaching Art K-12 (4 cr)
or ENGE 4121– Methods of Teaching Engineering (4 cr)
or LANE 4123– Methods of Teaching Foreign Language K-12 (4 cr)
or MTHE 4121– Methods of Teaching Mathematics in the Middle and Secondary School (4 cr)
SEED 4115– Advanced Content Reading [HUM] (2 cr)
or LANE 4123– Methods of Teaching Foreign Language K-12 (4 cr)
or MTHE 4121– Methods of Teaching Mathematics in the Middle and Secondary School (4 cr)
SEED 4115– Advanced Content Reading [HUM] (2 cr)
or SCIE 4121– Methods of Teaching Science in the Middle and Secondary School (4 cr)
SEED 4115– Advanced Content Reading [HUM] (2 cr)
or SCSE 4121– Methods of Teaching Social Science in the Middle and Secondary School (4 cr)
SEED 4115– Advanced Content Reading [HUM] (2 cr)

3. Satisfactory completion of tutor-aid and practicum experiences.

4. CMR 1052-Introduction to Public Speaking or CMR 1042- Public Speaking and Analysis.
CMR 1052– Introduction to Public Speaking [E/CR] (2 cr)
or CMR 1042– Public Speaking and Analysis [E/CR] (4 cr). Please note that this course is actually offered in the summer.

5. GPA and grade requirements
2.75 minimum GPA required in licensure area(s) and education prerequisite courses and 2.5 overall.
No grade below C- will be accepted.

6. Passing scores on MTLE Basic Skills or faculty approved remediation plan

7. Approval of SeEd faculty based on recommendations from faculty in the student’s discipline.

Middle and Secondary School Licensure Requirements

Students planning to teach in Minnesota middle and secondary schools must meet the licensure requirements of the Minnesota Board of Teaching (BOT). The following program is designed to meet these requirements and they are subject to change when the BOT implements new rules. Note: Students must complete licensure requirements and apply for licensure within seven years from time of admission to the program. After seven years, all education courses previously taken are void and must be retaken.

1. Professional education courses:
   ED 2121 - Introduction to Education and ED 2111-Tutor-Aide Practicum
   SEED 4102, 4103, 4104, 4105, 4115, and Ed 4121
   Student Teaching
   SEED 4201– Directed Student Teaching in the Middle and Secondary School [HDIV] (12 cr)
or SEED 4204– Directed Student Teaching in International School at the Middle and Secondary Level [IP] (12 cr)
   ED 4901– The Teacher and Professional Development (1 cr)

2. Successful completion of licensure area methods course(s).

3. PSY 1061-Intro. to the Development of the Child & Adolescent and PSY 2581-Drugs & Human Behavior.
PSY 1061 - Introduction to the Development of the Child and Adolescent [SS] (4 cr)
PSY 2581 - Drugs and Human Behavior [SS] (2 cr)

4. CMR 1052-Introduction to Public Speaking or CMR 1042- Public Speaking and Analysis.
CMR 1052 - Introduction to Public Speaking [E/CR] (2 cr)
or CMR 1042 – Public Speaking and Analysis [E/CR] (4 cr)

5. GPA and Grade Requirements
2.75 minimum GPA required in licensure area(s) and education prerequisite courses and 2.5 overall.
No grade below C- will be accepted.

6. Approval of SeEd faculty based on recommendations from faculty in the student’s discipline.

7. Passing scores on MN Teacher Licensure Exam in Basic Skills, the licensure area(s), and pedagogy.

Program Sub-plans

Students are required to complete one of the following sub-plans. (Note: The honors sub-plan does not meet this requirement. Honors students are required to complete one sub-plan plus the honors sub-plan.

Chemistry 9-12 Sub-plan

Required Courses for the Sub-plan
BIOI 1111 is a prerequisite course for BIOI 2111.
CHEM 1101– General Chemistry I [SCI-L] (4 cr)
CHEM 1102– General Chemistry II [SCI-L] (4 cr)
CHEM 2301– Organic Chemistry I [SCI] (4 cr)
CHEM 2311– Organic Chemistry Lab I (1 cr)
CHEM 2321– Introduction to Research I (1 cr)
CHEM 2322– Introduction to Research II (1 cr)
CHEM 3101– Analytical Chemistry [SCI-L] (4 cr)
CHEM 3501– Physical Chemistry I [SCI] (4 cr)
BIOI 2111– Cell Biology [SCI-L] (4 cr)
MATH 1010– Calculus I [M/SR] (5 cr)
PHYS 1101– General Physics I [SCI-L] (5 cr)
CHEM 2302– Organic Chemistry II [SCI-L] (4 cr)
or CHEM 2304– Organic Chemistry II with a Biological Emphasis [SCI] (4 cr)

Communication Arts and Literature 5-12 Sub-plan

Required Courses for the Sub-plan
CMR 1052– Introduction to Public Speaking [E/CR] (2 cr)
CMR 1062– Introduction to Interpersonal and Group Communication [HUM] (4 cr)
CMR 1101– Introduction to Theories of Communication, Media, and Rhetoric [HUM] (4 cr)
CMR 4152– Advanced Public Speaking [HUM] (4 cr)
ENGL 2501– Literary Studies [HUM] (4 cr)
ENGL 3021– Grammar and Language [HUM] (4 cr)
ENGL 3005– Understanding Writing: Theories and Practices [HUM] (4 cr)
or ENGL 3032– Creative Nonfiction Writing [ART/P] (4 cr)
ENGL 3519-Shakespeare is not required but is strongly recommended.
ENGL 3301– U.S. Multicultural Literature [HDIV] (4 cr)
or ED 2201– Perspectives on Young Adult Literature: Schooling, Society, and Culture [HUM] (4 cr)
or TH 2211– Oral Interpretation [ART/P] (4 cr)
or TH 2111– Creative Drama with Children [ART/P] (4 cr)
or TH 2221– Readers’ Theatre [ART/P] (4 cr)

Earth and Space Science 9-12 Sub-plan

Required Courses for the Sub-plan
GEOL 1001– Environmental Geology: Geology in Daily Life [SCI] (4 cr)
GEOL 1101– Physical Geography [SCI-L] (4 cr)
GEOL 2101– Mineralogy and Crystallography [SCI-L] (4 cr)
GEOL 2111– Igneous and Metamorphic Petrology [SCI-L] (4 cr)
GEOL 2121– Sedimentology and Stratigraphy [SCI-L] (4 cr)
GEOL 2141– Glacial and Quaternary Geology [SCI] (4 cr)
GEOL 2151– Historical Geology: Earth History and Changing Scientific Perspectives [SCI-L] (4 cr)
GEOL 3101– Structural Geology [SCI-L] (4 cr)
GEOL 4901– Geology Senior Seminar (1 cr)
GEOL 4902– Geology Senior Seminar Presentations (1 cr)
PHYS 1052– The Solar System [SCI-L] (5 cr)
PHYS 1053– Introduction to Stars, Galaxies, and Cosmology [SCI] (4 cr)
MATH 1101– Calculus I [M/SR] (5 cr)
or MATH 1021– Survey of Calculus [M/SR] (4 cr)

French K-12 Sub-plan
Required Courses for the Sub-plan
One cross-listed French course taught in English (such as FREN 1027, 1031, 1302, 1311, or 1312) may be counted towards the French licensure, provided that students complete written work for the class in French.
FREN 3001– Conversation and Composition [IP] (4 cr)
FREN 3011– Reading and Analysis of Texts [HUM] (4 cr)
FREN 3112– Advanced Language Studies: Introduction to French Phonetics [HUM] (4 cr)
FREN 3113– Advanced Language Studies: Theme et Version [HUM] (4 cr)
or FREN 3114– Advanced Language Studies: Advanced French Grammar [HUM] (4 cr)
One course from Early Modern Studies Cluster:
FREN 3402– Early Modern Studies: Pre-Enlightenment Culture in France [HIST] (4 cr)
One course from Modern Studies Cluster:
FREN 1051– Modern Studies: The Modern Body in France [SS] (4 cr)
or FREN 1302– French Cinema [IP] (4 cr)
or  FREN 3502– Modern Studies: Revolution, Romanticism, Modernity [HUM] (4 cr)
or FREN 3503– Modern Studies: Avant-Garde, Existentialism, Experimentation [HUM] (4 cr)
or FREN 3501– Modern Studies: The Old Regime and New Ideas: The French Enlightenment [HIST] (4 cr)
One course from Francophone Studies Cluster:
FREN 1311– Sub-Saharan Francophone Cinema [IP] (4 cr)
or FREN 3132– Morocco: History, Story, Myth [IP] (4 cr)
or FREN 3602– Francophone Studies: Francophone Worlds [IP] (4 cr)
or FREN 3603– Francophone Studies: Contes francophones [IP] (4 cr)
or FREN 3604– Francophone Studies: L’Amerique francophone [HUM] (4 cr)
or FREN 3606– Francophone Studies: Sub-Saharan Francophone Cinema [IP] (4 cr)
Study abroad is strongly encouraged.

General Science 5-8 Sub-plan
Required Courses for the Sub-plan
BIOL 1111– Fundamentals of Genetics, Evolution, and Development [SCI] (3 cr)
BIOL 2101– Evolution of Biodiversity [SCI-L] (4 cr)
CHEM 1101– General Chemistry I [SCI-L] (4 cr)
CHEM 1101– General Chemistry I [SCIC] (4 cr)
PHYS 1052– The Solar System [SCI-L] (5 cr)
PHYS 1091– Principles of Physics I [SCI-L] (5 cr)
PHYS 1092– Principles of Physics II [SCI-L] (5 cr)
or PHYS 1101– General Physics I [SCI-L] (5 cr)
and PHYS 1102– General Physics II [SCI-L] (5 cr)

Instrumental Music K-12 Sub-plan
Required Courses for the Sub-plan
MUS 1101– Core Studies I: Music Theory I [M/MSR] (4 cr)
MUS 1102– Core Studies I: Music Theory II [M/MSR] (4 cr)
MUS 1300– UMM Symphonic Winds [ART/PP] (1 cr)
MUS 2101– Core Studies II: Music Theory III [HUM] (4 cr)
MUS 2102– Core Studies II: Music Theory IV [HUM] (4 cr)
MUS 3101– Core Studies III: Medieval, Renaissance, and Baroque Music [HIST] (4 cr)
MUS 3102– Core Studies III: Classical, Romantic, and 20th-Century Music [FA] (4 cr)
MUS 3161– Introduction to World Music [IP] (4 cr)
MUS 2301– Instrumental Techniques—Woodwind (1 cr)
MUS 2302– Instrumental Techniques—Brass (1 cr)
MUS 2303– Instrumental Techniques—Strings (1 cr)
MUS 2304– Vocal Techniques (1 cr)
MUS 3311– Conducting Techniques (2 cr)
MUS 3321– Instrumental Conducting and Materials (2 cr)
MUS 3351– Instrumental Arranging [ART/IP] (2 cr)
MUS 4901– Senior Project and Portfolio (1 cr)
MUS 3200–3223-Advanced Individual Performance Studies in wind, string, percussion, or keyboard (consult with music faculty to determine performance studies requirements)

Concert Attendance
Seven successful completions of MUS 1000-Concert Attendance

Piano Proficiency
Music theory courses (1101, 1102, 2101, 2102) are taken concurrently with piano lessons or functional keyboard for the Music Major, Mus 1111, 1112, 2111, 2112 until the piano proficiency test is passed.

Instrument Repair Clinic
Successful completion of the instrument repair clinic

Life Science 9-12 Sub-plan
Required Courses for the Sub-plan
BIOL 1111– Fundamentals of Genetics, Evolution, and Development [SCI] (3 cr)
BIOL 2101– Evolution of Biodiversity [SCI-L] (4 cr)
BIOL 2111– Cell Biology [SCI-L] (4 cr)
BIOL 3121– Molecular Biology [SCI-L] (5 cr)
BIOL 3131– Ecology [SCI-L] (4 cr)
BIOL 3701– Biological Communication II (1 cr)
BIOL 4312– Genetics [SCI-L] (4 cr)
BIOL 4901– Senior Seminar (1 cr)
CHEM 1101– General Chemistry I [SCI-L] (4 cr)
MATH 1021– Survey of Calculus [M/MSR] (4 cr)
or MATH 1101– Calculus I [M/MSR] (5 cr)
STAT 1601– Introduction to Statistics [M/MSR] (4 cr)
or STAT 2601– Statistical Methods [M/MSR] (4 cr)

Mathematics 5-12 Sub-plan
Required Courses for the Sub-plan
MATH 1101– Calculus I [M/MSR] (5 cr)
MATH 1102– Calculus II [M/MSR] (5 cr)
MATH 2101– Calculus III [M/MSR] (4 cr)
MATH 2111– Linear Algebra [M/MSR] (4 cr)
MATH 2202– Mathematical Perspectives [M/MSR] (4 cr)
MATH 2211– History of Mathematics (4 cr)
MATH 3211– Geometry [M/MSR] (4 cr)
MATH 3231– Abstract Algebra I [M/MSR] (4 cr)
MATH 3411– Discrete and Combinatorial Mathematics [M/MSR] (4 cr)
STAT 2611– Mathematical Statistics [M/MSR] (4 cr)

Physics 9-12 Sub-plan
Required Courses for the Sub-plan
Also recommended (required for physics major): MATH 2101-Calculus III, MATH 2401-Differential Equations
MATH 1101– Calculus I [MSR] (5 cr)
MATH 1102– Calculus II [MSR] (5 cr)
MATH 2101– Calculus III [MSR] (5 cr)
MATH 2111– Linear Algebra [MSR] (4 cr)
MATH 2202– Mathematical Perspectives [MSR] (4 cr)
MATH 2211– History of Mathematics (4 cr)
MATH 3211– Geometry [MSR] (4 cr)
MATH 3231– Abstract Algebra I [MSR] (4 cr)
MATH 3411– Discrete and Combinatorial Mathematics [MSR] (4 cr)
PHYS 2201– Circuits and Electronic Devices [SCI-L] (4 cr)
PHYS 2401– Optics [SCI-L] (4 cr)
PHYS 3501– Statistical Physics [SCI-L] (4 cr)
PHYS 4101– Electromagnetism (4 cr)
PHYS 4201– Quantum Mechanics (4 cr)
Research
Other research experience (e.g., UROP, internship) can be substituted with discipline approval.
Take 1 or more sub-requirement(s) from the following:
· Senior Thesis
· PHYS 4901– Senior Thesis I (1 cr)
· PHYS 4902– Senior Thesis II (1 cr)
· Directed Research
· PHYS 1993– Directed Study (1-5 cr)
or PHYS 2993– Directed Study (1-5 cr)
or PHYS 3993– Directed Study (1-5 cr)
or PHYS 4993– Directed Study (1-5 cr)
Social Studies 5-12 Sub-plan
Required Courses for the Sub-plan
(fulfills requirements for a social science major)
ANTH 1111– Introductory Cultural Anthropology [SS] (4 cr)
ECON 1111– Principles of Microeconomics [SS] (4 cr)
ECON 1112– Principles of Macroeconomics [SS] (4 cr)
GEOG 2001– Problems in Geography [ENVT] (4 cr)
HIST 1301– Introduction to U.S. History [HIST] (4 cr)
POL 1201– American Government and Politics [E/CR] (4 cr)
PSY 1051– Introduction to Psychology [SS] (4 cr)
SOC 1101– Introductory Sociology [SS] (4 cr)
STAT 1601– Statistical Methods [M/SR] (4 cr)
or Equivalent proficiency in statistics approved by the divisional committee for the social science major.

Area of Focus:
Students work closely with their advisers to plan a program that satisfies the required competencies in a chosen sub-plan and in the social science disciplines. The sub-plan must often be demonstrated by completing the minor in that discipline. Program plans must be on file with the Social Sciences Division Office by the completion of a student’s junior year.

Students are required to complete one of the following course groups.

Anthropology Focus
Required Courses
ANTH 2101– Physical Anthropology [SCI-L] (4 cr)
ANTH 2103– Archaeology [SS] (4 cr)
ANTH 4411– Seminar in Anthropological Methodology [E/CR] (4 cr)
An additional 8 credits (exclusive of those used to complete required courses) in anthropology and sociology; 4 of which must be in courses above 1xxx. No more than 4 credits can be from SOC courses.
Take at most 4 credits(s) from the following:
ANTH 1xxx
SOC 1xxx

Take 4 or more credits(s) from the following:

Anthropology Electives
· Take 4 or more credits(s) from the following:
  · ANTH 2604– China in the Era of Globalization [IP] (4 cr)
  · ANTH 3204– Culture, Food, and Agriculture [ENVT] (4 cr)
  · ANTH 3206– Ecological Anthropology [ENVT] (4 cr)
  · ANTH 3402– Representations from the Field: American Indian Ethnography and Ethnohistory [HDIV] (4 cr)
  · ANTH 3455– North American Archaeology [SS] (4 cr)
  · ANTH 3601– Social Justice and Human Rights in Latin America [IP] (4 cr)
  · ANTH 3602– Women in Latin America [IP] (4 cr)
  · ANTH 3603– Latin American Archaeology [SS] (4 cr)
  · ANTH 3701– Forensic Anthropology [SCI-L] (4 cr)
  · ANTH 2xxx, 3xxx, 4xxx

· Sociology Electives
  · Take at most 4 credits(s) from the following:
    · SOC 2101– Systems of Oppression [HDIV] (4 cr)
    · SOC 3103– Research Methodology in Sociology [SS] (4 cr)
    · SOC 3111– Sociology of Modernization [IP] (4 cr)
    · SOC 3112– Sociology of the Environment and Social Development [ENVT] (4 cr)
    · SOC 3121– Sociology of Gender and Sexuality [HDIV] (4 cr)
    · SOC 3122– Sociology of Childhoods [HDIV] (4 cr)
    · SOC 3123– Sociology of Aging [HDIV] (4 cr)
    · SOC 3124– Sociology of Law [SS] (4 cr)
    · SOC 3131– World Population [ENVT] (4 cr)
    · SOC 3141– Sociology of Deviance [E/CR] (4 cr)
    · SOC 3204– Culture, Food, and Agriculture [ENVT] (4 cr)
    · SOC 3251– African Americans [HDIV] (4 cr)
    · SOC 3252– Women in Muslim Society [IP] (4 cr)
    · SOC 3403– Sociological Theory [SS] (4 cr)
    · SOC 3601– Social Justice and Human Rights in Latin America [IP] (4 cr)
    · SOC 3602– Women in Latin America [IP] (4 cr)
    · SOC 2xxx, 3xxx, 4xxx

Economics Focus
Required Courses
ECON 3201– Microeconomic Theory [SS] (4 cr)
ECON 3202– Macroeconomic Theory [SS] (4 cr)
MATH 1101– Calculus I [M/CR] (5 cr)
No more than 4 cr from each of the following can be applied to the sub-plan: ECON 3993, ECON 4501

Economics Electives
Take 6 or more credits(s) from the following:
· ECON 3005– Experimental and Behavioral Economics I [SS] (2 cr)
· ECON 3006– Experimental and Behavioral Economics II [SS] (2 cr)
· ECON 3007– Environmental and Natural Resources Economics I [ENVT] (2 cr)
· ECON 3008– Environmental and Natural Resource Economics II [ENVT] (2 cr)
· ECON 3009– Political Economy [SS] (4 cr)
· ECON 3014– Game Theory: The Theory of Strategic Behavior I [SS] (2 cr)
· ECON 3015– Game Theory: The Theory of Strategic Behavior II [SS] (2 cr)
· ECON 3113– Money, Banking, and Financial Markets [SS] (4 cr)
· ECON 3121– Public Economics I [SS] (2 cr)
· ECON 3122– Public Economics II [SS] (2 cr)
· ECON 3131– Comparative Economic Systems [IP] (2 cr)
· ECON 3133– Economics of China [IP] (2 cr)
· ECON 3134– Cooperative Business Model [SS] (2 cr)
· ECON 3141– Economic Development and Growth I [IP] (2 cr)
· ECON 3142– Economic Development and Growth II [IP] (2 cr)
· ECON 3153– Contemporary Global Economic Issues [IP] (2 cr)
· ECON 3211– History of Economic Thought I [HIST] (2 cr)
· ECON 3212– History of Economic Thought II [HIST] (2 cr)
· ECON 3351– Globalization: Examining India’s Social and Economic Development [IP] (4 cr)
· ECON 3501– Introduction to Econometrics [M/SR] (4 cr)
· ECON 3993– Directed Study (1-5 cr)
· ECON 4101– Labor Economics I [HDIV] (2 cr)
· ECON 4102– Labor Economics II [SS] (2 cr)
· ECON 4111– Mathematical Economics I [M/CR] (2 cr)
· ECON 4112– Mathematical Economics II [M/SR] (2 cr)
· ECON 4121– International Trade Theory [SS] (2 cr)
· ECON 4131– International Finance [SS] (2 cr)
· ECON 4501– Senior Research Seminar in Economics and Management [SS] (2 cr)
· ECON 4993– Directed Study (1-5 cr)
· ECON 3xxx, 4xxx

or

History Focus
Required Courses
HIST 1111– Introduction to World History [HIST] (4 cr)
An additional 16 credits in history of which 12 credits are at 2xxx or above. There should be course work in at least two geographic areas, with at least one of these in a non-Western area.
Take at most 4 credits(s) from the following:
· HIST 1402– Gender, Women, and Sexuality in American History [HDIV] (4 cr)
· HIST 1501– Introduction to East Asian History: China, Japan, and Korea before 1800. [HIST] (4 cr)
· HIST 1601– Latin American History: A Basic Introduction [IP] (4 cr)
· HIST 1xxx
Take 12 or more credits(s) from the following:
· HIST 3181– The Study of History: Schools, Rules, and Tools [HIST] (4 cr)
· HIST 3008– The Making of the Islamic World [HDIV] (4 cr)
· HIST 3101– Renaissance and Reformation [HIST] (4 cr)
· HIST 3102– Early Modern Europe [HIST] (4 cr)
· HIST 2103– Medieval Europe [HIST] (4 cr)
· HIST 2151– Modern Europe [HIST] (4 cr)
· HIST 3161– The Enlightenment [HIST] (4 cr)
· HIST 3204– Nazi Germany [HIST] (4 cr)
· HIST 3207– The Crusades [IP] (4 cr)
· HIST 3209– Modern Germany [HIST] (4 cr)
- or -

Political Science Focus

An additional 16 credits (exclusive of those used to complete required courses): 8 of which must be in courses above 2xxx.

Take at most 8 credits(s) from the following:
- POL 1101 – Introduction to Political Theory [E/CR] (4 cr)
- POL 1401 – World Politics [IP] (4 cr)
- POL 1xxx, 2xxx

Take 8 or more credits(s) from the following:
- POL 3201 – Legislative Process [SS] (4 cr)
- POL 3211 – The American Presidency [SS] (4 cr)
- POL 3233 – Civil Liberties and American Politics [ECR] (4 cr)
- POL 3234 – Race, Class, and Power: Social Movements and Interest Groups in U.S. Politics [HDIV] (4 cr)
- POL 3261 – State and Local Politics [SS] (4 cr)
- POL 3263 – Political Psychology [SS] (4 cr)
- POL 3272 – Making Environmental Public Policy [ENV] (4 cr)
- POL 3351 – Ancient and Medieval Political Thought [HUM] (4 cr)
- POL 3352 – Modern Political Thought [HUM] (4 cr)
- POL 3354 – Political Ethics [E/CR] (4 cr)
- POL 3355 – Environmental Political Theory [ENV] (4 cr)
- POL 3401 – U.S. Foreign Policy [SS] (4 cr)
- POL 3411 – International Law [E/CR] (4 cr)
- POL 3461 – Diplomatic Negotiation [IP] (4 cr)
- POL 3475 – International Human Rights [IP] (4 cr)
- POL 3501 – Government and Politics of Asia [SS] (4 cr)
- POL 3503 – Women in Politics Worldwide [IP] (4 cr)
- POL 3504 – Latin American Politics [IP] (4 cr)
- POL 3996 – Field Study in Political Science (1.0-16.0 cr)
- POL 4251 – Political Participation and Voting Behavior [SS] (4 cr)

- POL 4451 – Comparative Foreign Policy (4 cr)
- POL 4452 – International Relations (4 cr)
- POL 3xxx, 4xxx

- or -

Psychology Focus

In addition to PSY 201, students must complete at least one course from four of the five areas. One must be a designated lab course.

PSY 2001 – Research Methods in Psychology [SS] (4 cr)

Learning and Cognition

Take 0 or more course(s) from the following:
- PSY 3101 – Learning Theory and Behavior Modification [SS] (4 cr)
- PSY 3111 – Sensation and Perception [SS] (4 cr)
- PSY 3112 – Cognition [SS] (4 cr)

Biological and Comparative Psychology

Take 0 or more course(s) from the following:
- PSY 3201 – Comparative Psychology [SCI-L] (4 cr)
- PSY 3211 – Biological Psychology [SCI-L] (5 cr)
- PSY 3221 – Behavioral Biology of Women [SCI] (4 cr)
- PSY 3521 – Health Psychology [SS] (4 cr)

Personality and Clinical Psychology

Take 0 or more course(s) from the following:
- PSY 3302 – Personality [SS] (4 cr)
- PSY 3313 – Psychopathology [SS] (4 cr)
- PSY 4101 – Helping Relationships (4 cr)
- PSY 4301 – Clinical Assessment and Therapeutic Interventions (4 cr)

Developmental Psychology

Take 0 or more course(s) from the following:
- PSY 2411 – Introduction to Lifespan Developmental Psychology [SS] (4 cr)
- PSY 3051 – The Psychology of Women and Gender [HDIV] (4 cr)
- PSY 3401 – Developmental Psychology I: Child Psychology [SS] (4 cr)
- PSY 3402 – Developmental Psychology II: Adolescence [SS] (2 cr)
- PSY 3404 – Culture and Human Development [HDIV] (4 cr)

Social and Applied Psychology

Take 0 or more course(s) from the following:
- PSY 3501 – Social Psychology [SS] (4 cr)
- PSY 3502 – Psychology and Law [SS] (4 cr)
- PSY 3503 – Consumer Psychology [SS] (4 cr)
- PSY 3504 – Educational Psychology [SS] (4 cr)
- PSY 3513 – Negotiation [SS] (4 cr)
- PSY 3542 – Multicultural Psychology [HDIV] (4 cr)
- PSY 3701 – Organizational Behavior [SS] (4 cr)

Additional elective credits to total at least 22 credits in the psychology sub-plan (including required courses). Electives may be selected from any category above and the following:

Take 0 or more course(s) from the following:
- IS 3800 – Practicum in Social Sciences (1-2 cr)
- POL 2963 – Political Psychology [SS] (4 cr)
- PSY 2993 – Directed Study (1-5 cr)
- PSY 3315 – Parenting and Family Therapy [SS] (4 cr)
- PSY 3611 – History and Philosophy of Psychology [HIST] (4 cr)
- PSY 3800 – Research Practicum (1.0-12.0 cr)
- PSY 3993 – Directed Study (1-5 cr)
- PSY 4102 – Intro to Prof Conduct, Legal Constraints, Ethics in Human Services [E/CR] (2 cr)
- PSY 4470 – Empirical Investigations in Psychology (1.0-6.0 cr)
- PSY 4496 – Field Experiences in Psychology (1.0-4.0 cr)
- PSY 4905 – Directed Study (1-5 cr)
- STAT 3601 – Data Analysis [M/SR] (4 cr)
- STAT 3611 – Multivariate Statistical Analysis [M/SR] (4 cr)

- or -

Sociology Focus

SOC 3103 – Research Methodology in Sociology [SS] (4 cr)
SOC 3403 – Sociological Theory [SS] (4 cr)

No more than 4 credits of the 12 elective credits required for the sub-plan can be from ANTH courses. SOC 4991 is strongly recommended.

Take at most 4 credits(s) from the following:
- ANTH 2101 – Physical Anthropology [SCI-L] (4 cr)
· ANTH 2103—Archaeology [SS] (4 cr)
· ANTH 3204—Culture, Food, and Agriculture [ENVT] (4 cr)
· ANTH 3206—Ecological Anthropology [ENVT] (4 cr)
· ANTH 3402—Representations from the Field: American Indian Ethnography and Ethnohistory [HDIV] (4 cr)
· ANTH 4411—Seminar in Anthropological Methodology [E/CR] (4 cr)
· ANTH 3455—North American Archaeology [SS] (4 cr)
· ANTH 3601—Social Justice and Human Rights in Latin America [IP] (4 cr)
· ANTH 3602—Women in Latin America [IP] (4 cr)
· ANTH 3603—Latin American Archaeology [SS] (4 cr)
· ANTH 3701—Forensic Anthropology [SCI-L] (4 cr)
· ANTH 4901—Seminar in Anthropological Theory (4 cr)
· ANTH 2xxx, 3xxx, 4xxx

Take 8 or more credits(s) from the following:
· SOC 2101—Systems of Oppression [HDIV] (4 cr)
· SOC 3111—Sociology of Modernization [IP] (4 cr)
· SOC 3112—Sociology of the Environment and Social Development [ENVT] (4 cr)
· SOC 3121—Sociology of Gender and Sexuality [HDIV] (4 cr)
· SOC 3122—Sociology of Childhoods [HDIV] (4 cr)
· SOC 3123—Sociology of Aging [HDIV] (4 cr)
· SOC 3124—Sociology of Law [SS] (4 cr)
· SOC 3131—World Population [ENVT] (4 cr)
· SOC 3141—Sociology of Deviance [E/CR] (4 cr)
· SOC 3204—Culture, Food, and Agriculture [ENVT] (4 cr)
· SOC 3251—African Americans [HDIV] (4 cr)
· SOC 3252—Women in Muslim Society [IP] (4 cr)
· SOC 3601—Social Justice and Human Rights in Latin America [IP] (4 cr)
· SOC 3602—Women in Latin America [IP] (4 cr)
· SOC 4991—Sociology Independent Project Seminar (4 cr)
· SOC 2xxx, 3xxx, 4xxx

Spanish K-12 Sub-plan

Required Courses for the Sub-plan
SPAN 2001—Intermediate Spanish I [IP] (4 cr)
SPAN 2002—Intermediate Spanish II [IP] (4 cr)
SPAN 3011—Conversation, Composition, and Culture [IP] (2 cr)
SPAN 3012—Spanish Grammar in Practice [IP] (2 cr)
SPAN 3111—Readings in Spanish I [HUM] (2 cr)
SPAN 3112—Readings in Spanish II [HUM] (2 cr)
SPAN 3211—Literature and Culture of Latin America [HUM] (4 cr)
SPAN 3212—Literature and Culture of Spain [HUM] (4 cr)

3 additional courses at 3xxx level (12 cr)

Study abroad is strongly encouraged.

Visual Arts K-12 Sub-plan

Required Courses for the Sub-plan
ARTH 1101—Principles of Art [FA] (4 cr)
ARTH 1111—Ancient to Medieval Art [FA] (4 cr)
ARTH 1121—Renaissance to Modern Art [FA] (4 cr)
ARTH 1105—Basic Studio Drawing I [ART/P] (2 cr)
ARTH 1102—Basic Studio Drawing II [ART/P] (2 cr)
ARTH 1103—Basic Studio 2-D Design [ART/P] (2 cr)
ARTH 1104—Basic Studio 3-D Design [ART/P] (2 cr)
ARTH 1105—Basic Studio Discussion I [ART/P] (1 cr)
ARTH 1106—Basic Studio Discussion II [ART/P] (1 cr)
ARTH 3500—Photographic and Digital Processes I [ART/P] (3 cr)
or ARTS 3510—Photographic and Digital Processes II [ART/P] (3 cr)
or ARTS 3002—Media Studies: Artist's Books [ART/P] (3 cr)
or ARTS 3003—Media Studies: Feminist Art: A Studio Perspective [ART/P] (3 cr)

Minimum 12 cr in one of the following media plus 6 cr in another and 3 cr in the third media:

First Media
Complete 12 credits

Printmaking
ArtS 3210 repeat to 12 cr
ARTS 3200—Printmaking Studio I [ART/P] (3 cr)
ARTS 3210—Printmaking Studio II [ART/P] (3 cr)
or Painting
ArtS 3310 repeat to 12 cr
ARTS 3300—Painting Studio I [ART/P] (3 cr)
ARTS 3310—Painting Studio II [ART/P] (3 cr)
or Sculpture
ArtS 3410 repeat to 12 cr
ARTS 3400—Sculpture Studio I [ART/P] (3 cr)
ARTS 3410—Sculpture Studio II [ART/P] (3 cr)
or Ceramics
ARTS 3650 repeat to 12 cr
ARTS 1050—Beginning Ceramics [ART/P] (3 cr)
ARTS 3650—Advanced Ceramics [ART/P] (3 cr)
or Drawing
ARTS 3110 repeat to 12 cr
ARTS 3100—Advanced Drawing I [ART/P] (3 cr)
ARTS 3110—Advanced Drawing II [ART/P] (3 cr)
or Photography/Digital Imaging
ARTS 3510 repeat to 12 cr
ARTS 3500—Photographic and Digital Processes I [ART/P] (3 cr)

Second Media
complete 6 credits (must be different from first media)

Printmaking
ARTS 3200—Printmaking Studio I [ART/P] (3 cr)
ARTS 3210—Printmaking Studio II [ART/P] (3 cr)
or Painting
ARTS 3300—Painting Studio I [ART/P] (3 cr)
ARTS 3310—Painting Studio II [ART/P] (3 cr)
or Sculpture
ARTS 3400—Sculpture Studio I [ART/P] (3 cr)
ARTS 3410—Sculpture Studio II [ART/P] (3 cr)
or Ceramics
ARTS 1050—Beginning Ceramics [ART/P] (3 cr)
ARTS 3650—Advanced Ceramics [ART/P] (3 cr)
or Drawing
ARTS 3100—Advanced Drawing I [ART/P] (3 cr)
ARTS 3110—Advanced Drawing II [ART/P] (3 cr)
or Photography/Digital Imaging
ARTS 3500—Photographic and Digital Processes I [ART/P] (3 cr)

Third Media
complete 3 credits (must be different from the first and second media)

ARTS 1050—Beginning Ceramics [ART/P] (3 cr)
or ARTS 3100—Advanced Drawing I [ART/P] (3 cr)
or ARTS 3200—Printmaking Studio I [ART/P] (3 cr)
or ARTS 3300—Painting Studio I [ART/P] (3 cr)
or ARTS 3400—Sculpture Studio I [ART/P] (3 cr)
or ARTS 3500—Photographic and Digital Processes I [ART/P] (3 cr)

Vocal Music K-12 Sub-plan

Required Courses for the Sub-plan
MUS 1101—Core Studies I: Music Theory I [M/ISR] (4 cr)
MUS 1102—Core Studies I: Music Theory II [M/ISR] (4 cr)
MUS 1320—Concert Choir [ART/P] (1 cr)
MUS 1401—English, Italian, German, and French Diction for Singers [ART/P] (1 cr)
MUS 2101—Core Studies II: Music Theory III [HUM] (4 cr)
MUS 2102—Core Studies II: Music Theory IV [HUM] (4 cr)
MUS 3101—Core Studies III: Medieval, Renaissance, and Baroque Music [HIST] (4 cr)
MUS 3102—Core Studies III: Classical, Romantic, and 20th-Century Music [FA] (4 cr)
MUS 3161—Introduction to World Music [IP] (4 cr)
MUS 2301—Instrumental Techniques—Woodwind (1 cr)
MUS 2302—Instrumental Techniques—Brass (1 cr)
MUS 2303—Instrumental Techniques—Strings (1 cr)
MUS 2304—Vocal Techniques (1 cr)
MUS 3311—Conducting Techniques (2 cr)
MUS 3331—Choral Conducting and Materials (2 cr)
MUS 3352—Choral Arranging [ART/P] (2 cr)
MUS 4901—Senior Project and Portfolio (1 cr)
MUS 1200-1223. Individual Performance Studies (consult with music faculty to determine performance studies requirements)
MUS 3200-3223. Advanced Individual Performance Studies in voice or guitar (consult with music faculty to determine performance studies requirements)

Concert Attendance
Seven successful completions of MUS 1000-Concert Attendance

Piano Proficiency
Music theory courses (1101, 1102, 2101, 2102) are taken concurrently with piano lessons or functional keyboard for the Music Major. Mus 1111, 1112, 2111, 2112 until the piano proficiency test is passed.

Secondary Performance
Secondary performance competence on another family (wind, string, percussion, or keyboard)

Education, Secondary Course Descriptions

SEED 3993. Directed Study. (1-5 cr [max 10 cr]; prereq approved directed study form; fall, spring, every year)
An on- or off-campus learning experience individually arranged between a student and a faculty member for academic credit in areas not covered in the regular curriculum.

SEED 4102. Teaching and Learning Strategies. (2 cr; A-F only; prereq admission to the secondary teacher education program; coreq 4103, 4104, 4105, methods; fall, every year)
Provides greater depth in previously taught concepts and skills, including teaching and learning strategies for middle and secondary classrooms, planning for lesson and unit instruction and assessment, learning theory, use of technology in the classroom, discipline, and classroom management.

SEED 4103. Practicum Experience in the Middle and Secondary School. (4 cr; S-N only; prereq admission to the secondary teacher education program; coreq 4102, 4104, 4105, methods; fall, every year)
Field experience in the middle and secondary school.

SEED 4104. Teaching Diverse Learners. (HDIV; 2 cr; A-F only; prereq admission to the secondary teacher education program; coreq 4102, 4103, 4104, 4105, methods; fall, every year)
Study of teaching/learning in diverse settings. Topics include multiple intelligences/learning styles; multicultural education; race, gender, sexual orientation, disability, culture, and class; effects of inequity on schooling; preventing and responding to prejudice and discrimination; and intercultural communication.

SEED 4105. Reading and Literacy in the Content Areas. (2 cr; A-F only; prereq admission to the secondary teacher education program; coreq 4102, 4103, 4104, methods; fall, every year)
Study of how teachers in the various academic disciplines can support reading and literacy in their classrooms and use reading and literacy to enhance learning in the disciplines. Topics include theory and instructional strategies in the areas of reading comprehension, fluency, and vocabulary development.

SEED 4115. Advanced Content Reading. (HUM; 2 cr; A-F only; prereq 4105; fall, spring, every year)
Study of how teachers in the various academic disciplines can support reading and literacy in their classrooms and use reading and literacy to enhance learning in the disciplines. Topics include subject-specific theories, strategies, and projects.

SEED 4201. Directed Student Teaching in the Middle and Secondary School. (HDIV; 12 cr; S-N only; prereq 4102, 4103, 4104, 4105, methods, CMR 1042 or CMR 1052, passing scores on MTLE basic skills or #; spring, every year)
Students teach for a period of 10 to 12 weeks demonstrating application of approaches to teaching and learning in the middle and secondary grades under the guidance of a cooperating teacher and University supervisor.

SEED 4202. Directed Student Teaching in the Middle and Secondary School. (1-16 cr; S-N only; prereq passing scores on MTLE basic skills or #; fall, spring, every year)
For students who need alternative or additional student teaching experience. Students demonstrate application of approaches to teaching and learning in middle and secondary grades under the guidance of a cooperating teacher and University supervisor.

SEED 4204. Directed Student Teaching in International School at the Middle and Secondary Level. (IP; 12 cr; S-N only; prereq 4102, 4103, 4104, 4105, methods, CMR 1042 or CMR 1052, passing scores on MTLE basic skills or #; spring, every year)
Students teach for a period of 10 to 12 weeks demonstrating application of approaches to teaching and learning in the middle and secondary grades under the guidance of a cooperating teacher and University supervisor.

SEED 4205. Directed Student Teaching in the Secondary School. (1-16 cr; A-F only; prereq passing scores on MTLE basic skills or #; fall, spring, summer, every year)
For students from colleges that require A-F grading for student teaching through the Global Student Teaching Program.

SEED 4993. Directed Study. (1-5 cr [max 10 cr]; prereq approved directed study form; fall, spring, every year)
An on- or off-campus learning experience individually arranged between a student and a faculty member for academic credit in areas not covered in the regular curriculum.

Middle and Secondary Education Methods Courses

These courses focus on the objectives, curricula, special methods, materials, and evaluation appropriate for teaching the various subject matter areas in the middle and secondary school. Students must complete methods course(s) in their licensure area(s). Methods courses are taken concurrently with secondary education block courses—SeEd 4102, 4103, 4104, 4105—and must be successfully completed before student teaching in a specific field.

ARTE 4123. Methods of Teaching Art K-12. (4 cr; A-F only; prereq admission to the secondary teacher education program, coreq SeEd 4102, SeEd 4103, SeEd 4104, SeEd 4105; fall, every year)
Objectives, curricula, special methods, materials, and evaluation appropriate for teaching art in K-12.

ENGE 4121. Methods of Teaching Communication Arts and Literature in the Middle and Secondary School. (4 cr; A-F only; prereq admission to the secondary teacher education program, coreq SeEd 4102, SeEd 4103, SeEd 4104, SeEd 4105; fall, every year)
Objectives, curricula, special methods, materials, and evaluation appropriate for teaching communication arts and literature in the middle and secondary school.

ENGE 4122. Methods of Teaching Communication Arts and Literature in the Middle School. (1 cr; A-F only; spring, every year)
Objectives, curricula, special methods, materials, and evaluation appropriate for teaching communication arts and literature in the middle and secondary school.

LANE 4123. Methods of Teaching Foreign Language K-12. (4 cr; A-F only; prereq admission to the SeEd or EIEd teacher education program; coreq SeEd 4102, SeEd 4103, SeEd 4104, SeEd 4105 or prereq EIEd 3202, EIEd 3212; fall, every year)
Objectives, curricula, special methods, materials, and evaluation appropriate for teaching foreign language in K-12.

MTHE 4121. Methods of Teaching Mathematics in the Middle and Secondary School. (4 cr; A-F only; prereq admission to the secondary teacher education program, coreq SeEd 4102, SeEd 4103, SeEd 4104, SeEd 4105; fall, every year)
Objectives, curricula, special methods, materials, and evaluation appropriate for teaching mathematics in the middle and secondary school.

MTHE 4122. Methods of Teaching Mathematics in the Middle School. (1 cr; A-F only; spring, every year)
Objectives, curricula, special methods, materials, and evaluation appropriate for teaching mathematics in the middle school.

MUSE 4123. Methods of Teaching Music K-12. (4 cr; A-F only; prereq admission to the secondary teacher education program, coreq SeEd 4102, SeEd 4103, SeEd 4104, SeEd 4105; fall, every year)
Objectives, curricula, special methods, materials, and evaluation appropriate for teaching music in K-12.
SCIE 4121. Methods of Teaching Science in the Middle and Secondary School. (4 cr; A-F only; prereq admission to the secondary teacher education program, coreq SeEd 4102, SeEd 4103, SeEd 4104, SeEd 4105; fall, every year)
Objectives, curricula, special methods, materials, and evaluation appropriate for teaching science in the middle and secondary school.

SCIE 4122. Methods of Teaching Science in the Middle School. (1 cr; A-F only; spring, every year)
Objectives, curricula, special methods, materials, and evaluation appropriate for teaching science in the middle school.

SSCE 4121. Methods of Teaching Social Science in the Middle and Secondary School. (4 cr; A-F only; prereq admission to the secondary teacher education program, coreq SeEd 4102, SeEd 4103, SeEd 4104, SeEd 4105; fall, every year)
Objectives, curricula, special methods, materials, and evaluation appropriate for teaching social science in the middle and secondary school.

SSCE 4122. Methods of Teaching Social Science in the Middle School. (1 cr; A-F only; spring, every year)
Objectives, curricula, special methods, materials, and evaluation appropriate for teaching social science in the middle school.

English (Engl)
Division of the Humanities

In English, students study literature and language, including its development over time and contemporary significance. Courses for both majors and non-majors offer a wide range of approaches and topics. Some courses focus on single authors, genres, or historical periods; others emphasize social contexts of literature, investigate representations of race or gender, or explore literary perceptions of the environment; still others cover film, creative writing, and contemporary popular literature.

Objectives—The curriculum introduces students to the main literary genres and important historical periods and movements in English; to representative works of British, American, and Anglophone literature; and to methods of critical interpretation. The major is designed to meet the needs of students with various goals, including those seeking a foundation for work in fields related to English (e.g., education, communications, editing and publishing, law, theater); those who want a humanistic base in reading, thinking, and writing for a liberal arts education; and those who intend to pursue graduate study in the field. Students engage in critical reading, oral and written analysis of texts, formal argumentation, and research. English classes tend to be small and conversational. Students collaborate with one another by discussing subtle and complex texts while discovering their own interpretive voices by writing clear and persuasive essays.

English Major

Courses for Admission

Prerequisite Courses
ENGL 1601 or equivalent satisfies the Writing for the Liberal Arts/freshman composition requirement and is a prerequisite for admission to the major.
ENGL 1601 – Writing for the Liberal Arts [WLA] (4 cr) or equivalent

Program Requirements

Up to 4 credits of coursework with a grade of D or D+ may be used to meet the major requirements. Courses may not be taken S-N unless offered S-N only.

A minimum GPA of 2.00 is required in the major to graduate. The GPA includes all, and only, University of Minnesota coursework. Grades of "F" are included in GPA calculation until they are replaced.

Required Courses
ENGL 2501 - Literary Studies [HUM] (4 cr)
Take exactly 12 credits from the following:
ENGL 2201 - Survey of British Literature to the 18th Century [HUM] (4 cr)
ENGL 2202 - Survey of British Literature from the 18th Century Forward [HUM] (4 cr)
ENGL 2211 - Survey of American Literature to the Civil War [HUM] (4 cr)
ENGL 2212 - Survey of American Literature from the Civil War Forward [HUM] (4 cr)

Research Seminar
A research-based study of a literary subject that forms a capstone experience for majors. 40xx courses are offered in rotation.
Take 4 or more credits from the following:
ENGL 4004 - Research Seminar: Old English Literature and Language [HUM] (4 cr)
ENGL 4012 - Research Seminar: Imagining the Earth [HUM] (4 cr)
ENGL 4017 - Research Seminar: Tricksters-Conjurers in American Indian and African American Literature [HDIV] (4 cr)
ENGL 4023 - Research Seminar: Nationalism and Irish Literature [HUM] (4 cr)
ENGL 4024 - Research Seminar: Poet's Choice: The Book as the 25th Poem [HUM] (4 cr)
ENGL 4029 - Research Seminar: Perspectives on Literacy [HUM] (4 cr)
ENGL 4031 - Research Seminar: Renaissance Romance [HUM] (4 cr)
ENGL 4033 - Research Seminar: Ralph Ellison, Richard Wright, and J. Saunders Redding [HDIV] (4 cr)
ENGL 4034 - Research Seminar: The Adventure Novel in American and British Literature [HUM] (4 cr)

Lower Level Elective Courses

Take 4 or more credits from the following:
ENGL 2014 - Introduction to Popular Literature: Science Fiction and Fantasy [HUM] (4 cr)
ENGL 2022 - Introduction to Film Studies [HUM] (4 cr)
ENGL 2031 - Introduction to Popular Literature: Detection and Espionage in Fiction and Film [HUM] (4 cr)
ENGL 2061 - Introduction to Popular Literature: Detection and Espionage in Fiction and Film [HUM] (4 cr)
ENGL 2081 - Topics in Writing: The Environmental Imagination: Reading and Writing about the Natural World [ENVT] (4 cr)
ENGL 2121 - Topics in Writing: Introduction to Creative Writing [ART/P] (4 cr)
ENGL 2201 - Survey of British Literature to the 18th Century [HUM] (4 cr)
ENGL 2202 - Survey of British Literature from the 18th Century Forward [HUM] (4 cr)
ENGL 2211 - Survey of American Literature to the Civil War [HUM] (4 cr)
ENGL 2212 - Survey of American Literature from the Civil War Forward [HUM] (4 cr)
ENGL 2411 - Representations of American Indians in Popular and Academic Culture [HUM] (4 cr)
ENGL 2xxx 2xxx 3xxx 4xxx

Upper Level Elective Courses

Take 4 or more credits from the following:
ENGL 2301 - Advanced Fiction Writing [ART/P] (4 cr)
ENGL 3015 - Writing Poetry for the 21st Century [ART/P] (4 cr)
ENGL 3016 - Innovations on the Page [ART/P] (4 cr)
ENGL 3017 - Book Publishing: History and Contemporary Trends [HUM] (4 cr)
ENGL 3032 - Creative Nonfiction Writing [ART/P] (4 cr)
ENGL 3142 - The Rise of the Novel [HUM] (4 cr)
ENGL 3153 - Gothic Literature [HUM] (4 cr)
ENGL 3154 - 19th-Century British Fiction [HUM] (4 cr)
ENGL 3155 - 20th-Century British Fiction [HUM] (4 cr)
ENGL 3156 - Modern Irish Literature [HUM] (4 cr)
ENGL 3157 - English Renaissance Drama [HUM] (4 cr)
ENGL 3159 - Shakespeare: Studies in the Bard [HUM] (4 cr)
ENGL 3161 - Medieval Literature [HUM] (4 cr)
ENGL 3163 - Life in a Medieval City: Literature and Culture in York, 700-1500 [HUM] (4 cr)
ENGL 3165 - English Renaissance Poetry and Prose [HUM] (4 cr)
ENGL 3166 - Postcolonial Literature [HUM] (4 cr)
ENGL 3168 - Victorian Literature and Culture [HUM] (4 cr)
ENGL 3169 - The Construction of Nature in British Literature [ENVT] (4 cr)
ENGL 3253 - Modern and Postmodern Love in the Novel [HUM] (4 cr)
ENGL 3261 - Modern British and American Poetry [HUM] (4 cr)
ENGL 3262 - 20th-Century American Poetry: From Modern to Contemporary [HUM] (4 cr)
ENGL 3281 - The Literature of Slavery [HDIV] (4 cr)
ENGL 3301 - U.S. Multicultural Literature [HDIV] (4 cr)
ENGL 3311 - American Indian Literature [HDIV] (4 cr)
ENGL 3312 - World Indigenous Literature and Film [IP] (4 cr)
ENGL 3331 - African American Literature [HDIV] (4 cr)
ENGL 3332 - African American Women Writers [HDIV] (4 cr)
ENGL 3414 - Feminist Theory [HDIV] (4 cr)
ENGL 3522 - Harlem Renaissance [HDIV] (4 cr)
ENGL 3993 - Directed Study (1-5 cr)
ENGL 4993 - Directed Study (1-5 cr)
ENGL 3xxx, 4xxx

Advanced Skills Courses

Take at most 4 credits from the following:
ENGL 3005 - Understanding Writing: Theories and Practices [HUM] (4 cr)
ENGL 3021 - Grammar and Language [HUM] (4 cr)
ENGL 3411 - Critical Approaches to Literature [HUM] (4 cr)

English Minor

Courses for Admission
ENGL 1601 or equivalent satisfies the Writing for the Liberal Arts/freshman composition requirement and is a prerequisite for admission to the major.
ENGL 1601 - Writing for the Liberal Arts [WLA] (4 cr) or equivalent

Minor Requirements

Up to 4 credits of coursework with a grade of D or D+ may be used to meet the minor requirements. Courses may not be taken S-N unless offered S-N only.

A minimum GPA of 2.00 is required in the minor to graduate. The GPA includes all, and only, University of Minnesota coursework. Grades of "F" are included in GPA calculation until they are replaced.

Required Courses
ENGL 2501 - Literary Studies [HUM] (4 cr)

Take at least 4 credits from the following:
ENGL 2201 - Survey of British Literature to the 18th Century [HUM] (4 cr)
ENGL 2015 - Introduction to Film Studies [HUM] (4 cr)
ENGL 2022 - Sports Literature and Writing [ART/P] (4 cr)
ENGL 2031 - Gender in Literature and Culture [HDIV] (4 cr)
ENGL 2041 - Introduction to African American Literature [HDIV] (4 cr)
ENGL 2059 - Introduction to Shakespeare [HUM] (4 cr)
ENGL 2061 - Introduction to Popular Literature: Detection and Espionage in Fiction and Film [HUM] (4 cr)
ENGL 2106 - Topics in Writing: The Environmental Imagination: Reading and Writing about the Natural World [ENVT] (4 cr)
ENGL 2121 - Topics in Writing: Introduction to Creative Writing [ART/P] (4 cr)
ENGL 2201 - Survey of British Literature to the 18th Century [HUM] (4 cr)
ENGL 2202 - Survey of British Literature from the 18th Century Forward [HUM] (4 cr)
ENGL 2211 - Survey of American Literature to the Civil War [HUM] (4 cr)
ENGL 2212 - Survey of American Literature from the Civil War Forward [HUM] (4 cr)
ENGL 2411 - Representations of American Indians in Popular and Academic Culture [HDIV] (4 cr)
ENGL 2xxx

Take at most 4 credits from the following:
ENGL 3005 - Understanding Writing: Theories and Practices [HUM] (4 cr)
ENGL 3012 - Advanced Fiction Writing [ART/P] (4 cr)
ENGL 3015 - Writing Poetry for the 21st Century [ART/P] (4 cr)
ENGL 3016 - Innovations on the Page [ART/P] (4 cr)
ENGL 3017 - Book Publishing: History and Contemporary Trends [HUM] (4 cr)
ENGL 3021 - Grammar and Language [HUM] (4 cr)
ENGL 3032 - Creative Nonfiction Writing [ART/P] (4 cr)
ENGL 3142 - The Rise of the Novel [HUM] (4 cr)
ENGL 3153 - Gothic Literature [HUM] (4 cr)
ENGL 3154 - 19th-Century British Fiction [HUM] (4 cr)
ENGL 3155 - 20th-Century British Fiction [HUM] (4 cr)
ENGL 3156 - Modern Irish Literature [HUM] (4 cr)
ENGL 3157 - English Renaissance Drama [HUM] (4 cr)
ENGL 3159 - Shakespeare: Studies in the Bard [HUM] (4 cr)
ENGL 3161 - Medieval Literature [HUM] (4 cr)
ENGL 3163 - Life in a Medieval City: Literature and Culture in York, 700-1500 [HUM] (4 cr)
ENGL 3165 - English Renaissance Poetry and Prose [HUM] (4 cr)
ENGL 3166 - Postcolonial Literature [HUM] (4 cr)
ENGL 3168 - Victorian Literature and Culture [HUM] (4 cr)
ENGL 3169 - The Construction of Nature in British Literature [ENVT] (4 cr)
ENGL 3253 - Modern and Postmodern Love in the Novel [HUM] (4 cr)
ENGL 3261 - Modern British and American Poetry [HUM] (4 cr)
ENGL 3262 - 20th-Century American Poetry: From Modern to Contemporary [HUM] (4 cr)
ENGL 3281 - The Literature of Slavery [HDIV] (4 cr)
ENGL 3301 - U.S. Multicultural Literature [HDIV] (4 cr)
ENGL 3311 - American Indian Literature [HDIV] (4 cr)
ENGL 3312 - World Indigenous Literature and Film [IP] (4 cr)
ENGL 3331 - African American Literature [HDIV] (4 cr)
ENGL 3332 - African American Women Writers [HDIV] (4 cr)
ENGL 3411 - Critical Approaches to Literature [HUM] (4 cr)
ENGL 3414 - Feminist Theory [HDIV] (4 cr)
ENGL 3522 - Harlem Renaissance [HDIV] (4 cr)
ENGL 3993 - Directed Study (1-5 cr)
ENGL 4993 - Directed Study (1-5 cr)

Elective Courses

4 of the 20 credits in the minor must have an HDIV designator at 2xxx or above. No more than 4 credits of 2xxx courses, other than the required surveys, may count in the major. A survey course, not used previously, may count as an elective.
ENGL 4033 - Research Seminar: Ralph Ellison, Richard Wright, and J. Saunders Redding [HDIV] (4 cr)
ENGL 4034 - Research Seminar: The Adventure Novel in American and British Literature [HUM] (4 cr)
ENGL 3xxx, 4xxx

Teacher Preparation Requirements
Students seeking teaching licensure in communication arts and literature S-12 should refer to the Education, Secondary (SeEd) section of this catalog. Students completing the course requirements for licensure in Communication Arts/Literature are strongly encouraged to earn an English major. The licensure requirements alone will not yield a major.

English Course Descriptions
ENGL 1001. Fundamentals of Writing. (4 cr; does not fulfill the Writing for the Liberal Arts (WLA) requirement; fall, every year)
Intensive practice in the fundamentals of writing. Students learn and apply strategies for generating, organizing, revising, and editing their writing.

ENGL 1011. College Writing. (4 cr; does not fulfill the Writing for the Liberal Arts (WLA) requirement; offered periodically)
Practice in academic writing, with special emphasis on argumentation, reading closely and critically for the purposes of scholarly analysis, responding to and making use of the work of others, and drafting and revising texts.

ENGL 1601. Writing for the Liberal Arts. (WLA; 4 cr; fall, spring, every year)
Improve academic writing skills—analysis, argument, research, scholarly conversation, clarity—with emphasis on writing processes, especially substantive revision. Develop information literacy: identify, locate, evaluate, cite, and use electronic and print resources available on the Morris campus. Workshops and extensive feedback in small classes.

ENGL 1993. Directed Study. (1-5 cr [max 10 cr]; prereq approved directed study form; fall, spring, every year)
An on- or off-campus learning experience individually arranged between a student and a faculty member for academic credit in areas not covered in the regular curriculum.

ENGL 2014. Introduction to Popular Literature: Science Fiction. (HUM; 4 cr; prereq 1601 (or 1011) or equiv; fall, offered periodically)
Introduction to popular literature in a variety of styles and forms with emphasis on analysis and context.

ENGL 2015. Introduction to Film Studies. (HUM; 4 cr; prereq 1601 (or 1011) or equiv; weekly lab required for viewing films; spring, offered periodically)
Develops students’ abilities to view films critically and to deepen their understanding of the film experience. Begins with critical analysis skills and terminology, then takes up the study of genres and styles, including documentaries and foreign films.

ENGL 2022. Sports Literature and Writing. (ART/P; 4 cr; prereq 1601 (or 1011) or equiv; offered periodically)
Introduction to sports literature and sports writing, including exploration of rhetorical modes and techniques.

ENGL 2031. Gender in Literature and Culture. (HDIV; 4 cr; prereq 1601 (or 1011) or equiv; fall, spring, offered periodically)
Introduction to literary and cultural representations of gender. Emphasis on the intersections between power and the social relations of gender, race, class, and sexuality.

ENGL 2033. The Bible and Literature. (HUM; 4 cr; prereq 1601 (or 1011) or equiv; fall, offered periodically)
Introduction to the role of the English Bible in the western literary tradition. Readings include key Biblical narratives, as well as English and American literary texts that are either deeply influenced by these stories or attempt to re-write them.

ENGL 2041. Introduction to African American Literature. (HDIV; 4 cr; prereq 1601 (or 1011) or equiv; spring, offered periodically)
Introduction to issues and themes in African American literature and culture, with emphasis on historical and cultural context.

ENGL 2059. Introduction to Shakespeare. (HUM; 4 cr; prereq 1601 (or 1011) or equiv; spring, odd years)
A careful reading of a representative selection of Shakespeare’s poetry and plays (including histories, comedies, tragedies, and romances). Consideration of generic and dramatic conventions, cultural contexts, literary elements, and performance choices on stage and in film. Serves non-majors as well as majors.

ENGL 2061. Introduction to Popular Literature: Detection and Espionage in Fiction and Film. (HUM; 4 cr; prereq 1601 (or 1011) or equiv; fall, every year)
Examination of the detective and espionage genres in relation to 20th-century social and geopolitical pressures.

ENGL 2106. Topics in Writing: The Environmental Imagination: Reading and Writing about the Natural World. (ENV'T; 4 cr; prereq 1601 (or 1011) or equiv; fall, spring, offered periodically)
Writing about the environment. Students learn to use the rich possibilities of language to express their responses to nature and convey to others the importance of close contact with the natural world. Readings in poetry and prose, discussion of technique, and experimentation with a variety of styles and literary forms.

ENGL 2121. Topics in Writing: Introduction to Creative Writing. (ART/P; 4 cr; prereq 1601 (or 1011) or equiv; fall, every year)
Introduction to the basic elements of creative writing, including exploration of poetry, story, and journal writing. Practice with techniques such as dialogue, description, voice, and style.

ENGL 2171. Topics in Writing: Editing and Proofreading. (HUM; 4 cr; prereq 1601 (or 1011) or equiv; spring, offered periodically)
Students learn and practice the techniques of developmental editing, copyediting, and proofreading, while exploring career applications for these skills.

ENGL 2201. Survey of British Literature to the 18th Century. (HUM; 4 cr; prereq 1601 (or 1011) or equiv; fall, every year)
Readings in English poetry, prose, and/or drama from the beginnings to the 18th century. Specific authors vary.

ENGL 2202. Survey of British Literature from the 18th Century Forward. (HUM; 4 cr; prereq 1601 (or 1011) or equiv; spring, every year)
Readings in English poetry, prose, and/or drama from the 18th century to the present. Specific authors vary.

ENGL 2211. Survey of American Literature to the Civil War. (HUM; 4 cr; prereq 1601 (or 1011) or equiv; fall, spring, offered periodically)
Study of important texts, canonical and non-canonical, and important periods and movements that define the colonial and U.S. experience up to 1865.

ENGL 2212. Survey of American Literature from the Civil War Forward. (HUM; 4 cr; prereq 1601 (or 1011) or equiv; fall, spring, offered periodically)
Study of selected historical and literary texts in U.S. literature, canonical and non-canonical, from 1865 to the present.

ENGL 2411. Representations of American Indians in Popular and Academic Culture. (HDIV; 4 cr; prereq 1601 (or 1011) or equiv; fall, offered periodically)
Study of representations of American Indians in American popular and academic culture including literature, films, and sports. Particular attention given to how Indian identity, history, and cultures are represented in pop culture by non-Indians and, more recently, Indians themselves.

ENGL 2421. Understanding Moby-Dick. (HUM; 4 cr; prereq 1601 (or 1011) or equiv; fall, offered periodically)
A chapter-by-chapter analysis of Moby-Dick. Emphasis on important critical trends.

ENGL 2501. Literary Studies. (HUM; 4 cr; prereq 1601 (or 1011) or equiv; credit will not be granted if credit has been received for Engl 1131; fall, spring, every year)
An introduction to the tools and methods of literary analysis, including the vocabulary of criticism, the techniques of close reading, and the conventions of literary argumentation. Primarily for English majors and minors. A prerequisite to advanced courses in English.

ENGL 2993. Directed Study. (1-5 cr [max 10 cr]; prereq approved directed study form; fall, spring, every year)
An on- or off-campus learning experience individually arranged between a student and a faculty member for academic credit in areas not covered in the regular curriculum.
ENGL 3005. Understanding Writing: Theories and Practices. (HUM; 4 cr; prereq 2501 (or 1131), two from 2201, 2202, 2211, 2212; fall, every year) Introduction to composition theory; generating, composing, revising, and responding to writing; conventions across disciplines; strategies for teaching and tutoring writing. Weekly short assignments; three formal papers, written and revised in stages; oral presentation of research. Required for first-semester Writing Room staff.

ENGL 3012. Advanced Fiction Writing. (ART/P; 4 cr; prereq #; fall, spring, offered periodically) For experienced writers. Focus on developing skills and mastering creative and technical elements of writing fiction.

ENGL 3015. Writing Poetry for the 21st Century. (ART/P; 4 cr; prereq 1601 (or 1011) or equiv; spring, offered periodically) A creative writing class. Practice with the different elements of poetry—sound, rhythm, imagery, voice, line—and exploration of the ways contemporary poets use and transform traditional forms and techniques.

ENGL 3016. Innovations on the Page. (ART/P; 4 cr; prereq 2121; spring, offered periodically) In this creative writing course, students explore new models in literary publishing, literary fiction, nonfiction, and poetry while writing and learning about sudden fiction, the lyric essay, the collage novel, linked short stories, and other innovative forms and movements. (or 1011) or equiv; spring, offered periodically)

ENGL 3017. Book Publishing: History and Contemporary Trends. (HUM; 4 cr; prereq 1601 (or 1011) or equiv; spring, offered periodically) Consider the history of the book, the role of publishing in cultural production, and the implications of the shift toward digital publishing, and an overview of the tasks involved in contemporary publishing, including acquisitions, editing, design, production, sales, and marketing.

ENGL 3021. Grammar and Language. (HUM; 4 cr; fall, every year) Study of the English language. Historical development and current structure. Includes language variation and change, social history of language, phonology, syntax, semantics, development of English grammar, prescriptive versus descriptive grammar, and contemporary theories of grammar.

ENGL 3032. Creative Nonfiction Writing. (ART/P; 4 cr; prereq 1601 (or 1011) or equiv; spring, offered periodically) For experienced writers. Focus on understanding and practicing the rhetorical and stylistic choices available to writers of creative nonfiction, especially decisions about structure, pacing, language, style, tone, detail, description, and narrative voice.

ENGL 3142. The Rise of the Novel. (HUM; 4 cr; prereq 2501 (or 1131), two from 2201, 2202, 2211, 2212; spring, offered periodically) The 18th-century origins of the British novel: experiments with the new form, influence of earlier genres, evolution of formal realism. Authors may include Austen, Burney, Fielding, Richardson, and Sterne.

ENGL 3153. Gothic Literature. (HUM; 4 cr; prereq 2501 (or 1131), two from 2201, 2202, 2211, 2212; fall, offered periodically) The cultural origins of gothic literature in tension with the neoclassical values of 18th-century Britain and its persistent influence over the next two centuries (including its relationship to modern horror fiction and film). Emphasis on the ways gothic tales encode cultural anxieties about gender, class, and power.

ENGL 3154. 19th-Century British Fiction. (HUM; 4 cr; prereq 2501 (or 1131), two from 2201, 2202, 2211, 2212; fall, spring, offered periodically) The rise of the novel to respectability and prominence in Britain from the Romantics to the Victorians.

ENGL 3155. 20th-Century British Fiction. (HUM; 4 cr; prereq 2501 (or 1131), two from 2201, 2202, 2211, 2212; fall, spring, offered periodically) Major novels from the Modernist period and after, focusing on the historical context of the new challenges to literary tradition.

ENGL 3156. Modern Irish Literature. (HUM; 4 cr; prereq 2501 (or 1131), two from 2201, 2202, 2211, 2212; spring, offered periodically) The poetry, fiction, and drama of Irish writers from 1890-1927, with attention to the ways that literature shaped a national identity.

ENGL 3157. English Renaissance Drama. (HUM; 4 cr; prereq 2501 (or 1131), two from 2201, 2202, 2211, 2212; fall, offered periodically) A thorough study of the early modern English theater, including readings of 16th- and 17th-century plays and consideration of the literary and cultural contexts that informed them. Special attention is given to the works of Shakespeare's contemporaries, such as Marlowe, Jonson, Cary, Middleton, and Webster.

ENGL 3159. Shakespeare: Studies in the Bard. (HUM; 4 cr; prereq 2501 (or 1131), two from 2201, 2202, 2211, 2212; spring, even years) A topics-based study of Shakespeare's works and other pertinent texts. Sample topics include Shakespeare's Women, "Dangerous Rhetoric in Shakespeare," and "Shakespeare and His Sources." Attention is given to historical and literary contexts, and students are asked to consider Shakespeare's work as it is read as well as performed.

ENGL 3161. Medieval Literature. (HUM; 4 cr; prereq 2501 (or 1131), two from 2201, 2202, 2211, 2212; fall, spring, offered periodically) Early and later medieval prose, poetry, and drama produced and/or widely read in England from about 700-1500.

ENGL 3163. Life in a Medieval City: Literature and Culture in York, 700-1500. (HUM; 4 cr; prereq 2501 (or 1131), two from 2201, 2202, 2211, 2212 or #; summer, offered periodically) Travel to York, England, to study the literature and history of the city from Anglo-Saxon times to the end of the Middle Ages. Focus on the role that York played as the second city of medieval England, emphasizing the diverse cultural influences on the city. Day trips to historically significant sites in the vicinity of York.

ENGL 3165. English Renaissance Poetry and Prose. (HUM; 4 cr; prereq 2501 (or 1131), two from 2201, 2202, 2211, 2212; fall, offered periodically) An examination of the poetry and prose of early modern England, with special attention to the work of Philip Sidney, John Donne, Mary Wroth, George Herbert, Margaret Cavendish, and John Milton.

ENGL 3166. Postcolonial Literature. (HUM; 4 cr; prereq 2501 (or 1131), two from 2201, 2202, 2211, 2212; fall, spring, offered periodically) Study of literature as site of cultural conflict during and after imperial encounters, from the perspectives of both colonizers and colonized peoples. Particular focus on Britain and its former colonies.

ENGL 3167. Studies in Contemporary British and Anglophone Literature. (IP; 4 cr; prereq 2501 (or 1131), two from 2201, 2202, 2211, 2212; fall, spring, offered periodically) Exploration of topics in Contemporary British and Anglophone fiction and poetry, including migration, nationalism, globalization, diaspora, and postmodernity.

ENGL 3168. Victorian Literature and Culture. (HUM; 4 cr; prereq 2501, two from 2201, 2202, 2211, 2212 or #; spring, every year) Studies an array of 19th-century literary forms, including fiction, poetry, drama, and prose, in their social and political contexts.

ENGL 3169. The Construction of Nature in British Literature. (ENVT; 4 cr; prereq 2501, two from 2201, 2202, 2211, 2212, or #; fall, odd years) Surveys changing representations of nature and the natural in British literature and culture from the Romantics forward, including cultural responses to industrialism and evolutionary science.

ENGL 3171. The Literature of Creative Nonfiction. (HUM; 4 cr; prereq 2501 (or 1131); summer, offered periodically) Explore the genre of creative nonfiction as a literary tradition and help to articulate what creative nonfiction is (as well as what it isn't). Students collaborate in creating working definitions for the genre and prepare projects in which they curate and present a list of readings in the genre.

ENGL 3253. Modern and Postmodern Love in the Novel. (HUM; 4 cr; prereq 2501 (or 1131), two from 2201, 2202, 2211, 2212; fall, even years) Modernists and postmodernists are famous for casting an ironic glance on God and Truth. But are they as cynical and skeptical about love? In this course, students work through the writings of prominent 20th-century novelists who struggled to define love.
ENGL 3261. Modern British and American Poetry. (HUM; 4 cr; prereq 2501 or 1131), two from 2201, 2202, 2211, 2212; fall, offered periodically

A study of the continuities and break with traditions in 20th-century poetry. Focus on innovations and experiments in form and theme.

ENGL 3262. 20th-Century American Poetry: From Modern to Contemporary. (HUM; 4 cr; prereq 2501 or 1131), two from 2201, 2202, 2211, 2212; fall, offered periodically

Study of the radical shifts in poetry and poetics in 20th-century America. Exploration of the ways that poets such as Robert Lowell, Adrienne Rich, Frank O'Hara, Denise Levertov, Allen Ginsburg, James Wright, and Sylvia Plath broke with modernist conventions and New Critical aesthetics and opened the field for the poetry of the late 20th and early 21st centuries.

ENGL 3281. The Literature of Slavery. (HIDV; 4 cr; prereq 2501 or 1131), two from 2201, 2202, 2211, 2212; fall, offered periodically

Study of fictional and non-fictional writing about chattel slavery in the United States. Readings include 19th-century works written to oppose or support slavery and 20th-century works written to understand slavery and its effects.

ENGL 3301. U.S. Multicultural Literature. (HIDV; 4 cr; prereq 2501 or 1131), two from 2201, 2202, 2211, 2212, or #; spring, offered periodically

Examination of literatures by African American, American Indian, Asian American, Chicana/o, U.S. Latino/a, and other under-represented peoples.

ENGL 3311. American Indian Literature. (HIDV; 4 cr; prereq 2501 or 1131), two from 2201, 2202, 2211, 2212, or #; fall, spring, offered periodically

Study of American Indian literature written in English. Particular attention given to language, identity, land, and sovereignty.

ENGL 3312. World Indigenous Literature and Film. (IP; 4 cr; prereq 2501, two from 2201, 2202, 2211, 2212, or #, or Amin major; spring, even years)

Comparative study of indigenous literature and film from North America, New Zealand, and Australia with particular emphasis given to issues of political and cultural sovereignty, cultural appropriation, self-representation, and colonial nostalgia.

ENGL 3331. African American Literature. (HIDV; 4 cr; prereq 2501 or 1131), two from 2201, 2202, 2211, 2212; fall, spring, offered periodically

Study of African American literature. Particular attention given to issues of gender, class, power, “passing,” and the racialized body.

ENGL 3332. African American Women Writers. (HIDV; 4 cr; prereq 1601 or 1011) or equiv or #; fall, offered periodically

If African Americans struggled to achieve equality and recognition in the racist United States, the situation was even more difficult for African American women, who had to contend with the sexism in both the white and black communities. This course examines the writings of prominent African American women.

ENGL 3411. Critical Approaches to Literature. (HUM; 4 cr; prereq 2501 or 1131), two from 2201, 2202, 2211, 2212; fall, offered periodically

An introduction to the major schools of literary theory and cultural analysis; particular attention to the ways in which the dialogue and debate between these approaches define the discipline of literary criticism.

ENGL 3414. Feminist Theory. (HIDV; 4 cr; =GWSS 3414); prereq [2501 or 1131], two from 2201, 2202, 2211, 2212) or [GWSS 1101]; fall, spring, offered periodically

Same as GWSS 3414. Engages students in a critical examination of several influential works participating in the elaboration of feminist theories. Readings and discussions focus on a series of themes and issues—gender, sexuality, race, class, language, bodies, etc.—and how these issues bear upon society.

ENGL 3444. Holocaust Literature and Film. (IP; 4 cr; prereq 1601 or 1011) or equiv; fall, even years

Survey of Holocaust literature and film, focusing on works that clarify the political ideology that led so many to participate in the murder of two-thirds of Europe’s Jews and that articulated what Jews suffered during the Nazi era.

ENGL 3522. Harlem Renaissance. (HIDV; 4 cr; prereq 2501 or 1131), two from 2201, 2202, 2211, 2212; fall, even years

During the 1920s, there was a major aesthetic outpouring in the African American community. Listen to jazz, examine African American art and read poetry, short stories, novels and essays from Harlem Renaissance writers.

ENGL 3993. Directed Study. (1-5 cr [max 10 cr]; prereq approved directed study form; fall, spring, every year)

An on- or off-campus learning experience individually arranged between a student and a faculty member for academic credit in areas not covered in the regular curriculum.

ENGL 4004. Research Seminar: Old English Literature and Language. (HUM; 4 cr; prereq two from 31xx-35xx, #; fall, spring, offered periodically)

Study of imaginative writing (poetry and prose) about the earth, and an examination of the ways that language transforms or shapes our perceptions of the natural world. In addition to the primary literary works, students read selections about our understanding of the natural world from science, philosophy, and ecocriticism.

ENGL 4017. Research Seminar: Tricksters-Conjurers in American Indian and African American Literature. (HIDV; 4 cr; prereq two from 31xx-35xx, #; fall, spring, offered periodically)

Study of tricksters and conjurers in American Indian and African American literature, in particular their ability to maintain traditional practices and subvert the dominant culture and imposed cultural norms. Special attention given to cultural and historical contexts and questions of power, identity, cultural difference, and assimilation.

ENGL 4023. Research Seminar: Nationalism and Irish Literature. (HUM; 4 cr; prereq two from 31xx-35xx, #; fall, spring, offered periodically)

Examination of 20th-century Irish literature through the lens of cultural nationalism. How questions of language, race, culture, and colonial history make the idea of Ireland problematic. Exploration of a diverse host of writers interested in Irish myths, ideals, and identities with research from Irish and postcolonial studies.

ENGL 4024. Research Seminar: Poet's Choice: The Book as the 25th Poem. (HUM; 4 cr; prereq two from 31xx-35xx, #; spring, offered periodically)

"If you have a book of twenty-four poems, the book itself should be the twenty-fifth," claims poet James Wright. Study of single volumes of poetry, examination of the book as a whole, and consideration of the sequence of poems and recurring images and themes. Exploration of key movements of the 20th century, placing each volume in its literary context.

ENGL 4028. Research Seminar: Inventing a Nation: Early American National Literature. (HUM; 4 cr; prereq two from 31xx-35xx, #; spring, offered periodically)

At the end of the Revolution, Americans set out to create a literature that would define the new nation. Writers adapted old forms and invented new ones in an effort to make American writing distinct and somehow reflective of the nation’s values. This course explores those efforts, including drama, novels, magazine writing, and their contexts.

ENGL 4029. Research Seminar: Perspectives on Literacy. (HUM; 4 cr; prereq two from 31xx-35xx, #; spring, even years)

Study of literacies and literate practices, both print and digital; the history and politics of defining literacy; and the role of technologies in literate activities.

ENGL 4031. Research Seminar: Renaissance Romance. (HUM; 4 cr; prereq two from 31xx-35xx, #; fall, offered periodically)

ENGL 4032. Research Seminar: Transnational Theory and Literatures. (HUM; 4 cr; prereq two from 31xx-35xx, #; spring, offered periodically) An intensive study of transnational literature and theory from the turn of the 20th century to the present, emphasizing the movement of marginalized subjects to the center of cultural expression, the intertwining of cultures in contact zones, and the forms of identity emerging from these modern, hybrid cultures.

ENGL 4033. Research Seminar: Ralph Ellison, Richard Wright, and J. Saunders Redding. (HDIV; 4 cr; prereq two from 31xx-35xx, #; spring, offered periodically) From the 1940s through the 1960s, Ellison, Wright, and Redding produced some of the most probing, original, and influential works of literature in the United States. Examine how these three writers responded to each other as they formulated their particular approaches to literature and life.

ENGL 4034. Research Seminar: The Adventure Novel in American and British Literature. (HUM; 4 cr; prereq two from 31xx-35xx, #; fall, odd years) Survey of adventure fiction in the Anglo-American tradition from Walter Scott through the mid 20th century, paying particular attention to themes that shaped this tradition, including imperialism and revisions of masculine identity.

ENGL 4993. Directed Study. (1-5 cr [max 10 cr]; prereq approved directed study form; fall, spring, every year) An on- or off-campus learning experience individually arranged between a student and a faculty member for academic credit in areas not covered in the regular curriculum.

Environmental Science (ESci)

Division of Science and Mathematics

This major is for students interested in an interdisciplinary science education that prepares them to deal with environmental challenges. The basic natural resources of land, air, and water are studied in the context of protecting and sustaining the environment. Students become knowledgeable about environmental issues and applied environmental science. The environmental science curriculum draws courses predominantly from the disciplines of the Division of Science and Mathematics.

Environmental Science Major

Students are encouraged to fulfill distribution requirements with courses that complement the environmental science major (e.g., ECON 1111–Microeconomics, ECON 3007–Environmental and Natural Resource Economics I, and ECON 3008–Environmental and Natural Resource Economics II).

Selection of electives must be done in consultation with an environmental science adviser. By the beginning of their junior year, students should submit a clearly articulated educational plan and a list of selected electives, to be reviewed and approved by the Environmental Science Advisory Group.

Courses in the Division of Science and Math, other than those listed below, may be used to fulfill the "Elective Science Courses" with the prior approval of the Environmental Science Advisory Group.

Required courses may not be taken S-N unless offered S-N only.

Up to 4 credits of coursework with a grade of D or D+ may be used to meet the major requirements. A minimum GPA of 2.00 is required in the major to graduate. The GPA includes all, and only, University of Minnesota coursework. Grades of F are included in GPA calculation until they are replaced.

Required Courses

Required Practice

Completion of an applied educational experience in environmental science. An approved educational experience in a work, research, and/or field setting that provides a practical complement to the student's classroom learning experiences. Educational experiences are approved by the Environmental Science Advisory Group. A wide variety of experiences are possible. ESCI 3196–Environmental Science Field Camp is one example. ESCI 3196 - Environmental Science Field Camp [SCI] (2-4 cr) or Completion of an applied educational experience in environmental science.

Elective Science Courses

Courses from at least two disciplines must be included. No more than 8 credits from 2xxx courses may be used to meet this requirement. If a second major is sought in the Division Science and Mathematics, at least 12 elective credits for the environmental science major must come from a discipline outside the second major (e.g., a geology major cannot apply more than 8 GEOL elective credits toward the environmental science major).

Take 20 or more credits from the following:

Environmental Science Course Descriptions

BIOL 1111. Fundamentals of Genetics, Evolution, and Development. (SCI; 3 cr; prereq biol major/minor or chem major or any health sciences preprofessional program or EIEd or SEEd major with middle school science specialties or #; fall, spring, even years) Introduction to scientific methods and the history of biology, with an emphasis on mechanisms of inheritance, development, and descent with modification. Overview of pre-Darwinian scientific thought; the theory of evolution; a qualitative introduction to genetics and molecular biology; and a summary of developmental biology. (two 75-min lect)

BIOL 2101. Evolution of Biodiversity. (SCI-L; 4 cr; prereq 1101 or 1111 or #; spring, every year) Analysis of evolutionary trends using historical and contemporary evidence. Principles of classification and phylogenetic reconstruction. Includes laboratory survey of the major groups of organisms. (two 65-min lect, one 180-min lab)

BIOL 3131. Ecology. (SCI-L; 4 cr; prereq Biol 2101 or EnSt 2101 or #; fall, every year) Basic principles and models of population biology, community structure and function, and ecosystem dynamics. Lab exercises emphasize field work, techniques for characterizing local plant and animal communities, and experimental investigation of topics such as competition and behavioral ecology. (two 65-min lect, one 180-min lab and field study; weekend field trip required)

BIOL 4121. Herpetology. (4 cr; prereq Biol 2101 or EnSt 2101 or #; spring, even years) Survey of amphibians and reptiles, including their evolution, systematics, identification, behavior, ecological relationships, and contemporary problems associated with human activities. (two 65-min lect, one 180-min lab or field study)

BIOL 4131. Vertebrate Natural History. (4 cr; prereq Biol 2101 or EnSt 2101 or #; spring, odd years) Survey of vertebrates, including their evolution, systematics, and ecological relationships. (two 65-min lect, one 180-min lab or field study)

BIOL 4151. Entomology. (4 cr; prereq Biol 2101 or EnSt 2101 or #; fall, even years) Structure, life histories, habits, and classification of common families of insects, including their economic significance. (two 65-min lect, 180-min lab)

BIOL 4172. Plant Systematics. (4 cr; prereq 2101 or EnSt 2101 or #; spring, odd years) Survey of vascular plant taxa, with an emphasis on the flowering plant families and their evolutionary relationships. Lab emphasizes independent research and field study in local habitats. (two 65-min lect, one 180-min lab; all day field trip required)

BIOL 4191. Freshwater Biology. (4 cr; prereq Biol 2101 or EnSt 2101, 2111 or #; fall, odd years) Structure, function, and biota of freshwater ecosystems, including lakes, streams, and wetlands. Lab emphasizes independent research and field study in local habitats. (two 65-min lect, one 180-min lab; all day field trip required)

BIOL 4301. Plant Biology. (4 cr; prereq Biol 2101, 2111 or #; fall, even years) Descriptive and experimental study of plants. Anatomy, development, physiology, secondary compounds, evolution, human uses of plants. (two 65-min lect, one 180-min lab)

BIOL 4331. Global Change Ecology. (4 cr; prereq 3131 or #; spring, odd years) Global cycles of carbon, water, and nutrients. Advanced consideration of community and ecosystem structure and function. Analysis of natural and human drivers of change in biological systems, including use of quantitative methods and computer models. (three 65-min lect)

BIOL 4351. Conservation Biology. (4 cr; prereq Biol 2101 or EnSt 2101, coreq or prereq Biol 3131 or #; fall, odd years) Application of demographic and genetic models to protect biodiversity, including planning for uncertainty. Population viability, inbreeding depression, contemporary evolution, design and management of reserves, and invasive species. Lab exercises include field trips and computer modeling of endangered species. (two 65-min lect, one 180-min lab)

CHEM 1101. General Chemistry I. (SCI-L; 4 cr; prereq Math 0901 or placement beyond Math 0901 using ACT/placement exam score; fall, every year) Scientific method, measurements, nomenclature, stoichiometry, atomic and molecular structure, thermochemistry, chemical periodicity, introduction to chemical bonding, and properties of common elements and ions. Development of scientific reasoning and problem-solving skills. Laboratory exercises concomitant with these topics. (3 hrs lect, 3 hrs lab)

CHEM 1102. General Chemistry II. (SCI-L; 4 cr; prereq 1101; spring, every year) Continuation of Chem 1101. Chemical bonding, states of matter, solutions, acid-base chemistry, chemical equilibrium, oxidation-reduction reactions, kinetics, thermodynamics, quantum theory, nuclear chemistry, organic chemistry, and biochemistry. Lab exercises concomitant with these topics. (3 hrs lect, 3 hrs lab)

CHEM 2301. Organic Chemistry I. (SCI; 4 cr; prereq 1102; fall, every year) Introduction to the structure and reactivity of organic molecules; nomenclature and functional groups; stereochemistry; mechanisms of substitution and elimination pathways; physical organic chemistry; introduction to synthetic strategy; fundamentals of spectroscopic techniques.

CHEM 2302. Organic Chemistry II. (SCI; 4 cr; =CHEM 2304; prereq C or better in 2301, coreq 2321 or # for chem majors; spring, every year) Continuation of topics from Chem 2301; spectroscopy; chemistry of polyenes, aromatic systems, and amines; enol and enolate chemistry; free-radical chemistry; retrosynthetic analysis; special topics.

CHEM 2304. Organic Chemistry II with a Biological Emphasis. (SCI; 4 cr; =CHEM 2302; prereq C or better in 2301, Biol 2111 or #; spring, offered periodically) Continuation of topics from Chem 2301, with an emphasis on compounds and reactions of biological interest. Topics include spectroscopy, structure and reactivity of aromatic compounds, phosphoryl and acyl group transfer, nucleophilic carbonyl addition, reactions involving enolate and enamine intermediates, coenzyme chemistry, electrophilic addition, beta elimination, oxidation and reduction of organic compounds, and reactions involving free radical intermediates.

CHEM 3101. Analytical Chemistry. (SCI-L; 4 cr; prereq 1102; fall, every year) The application of chemical equilibria to chemical analysis with emphasis on the fundamental quantitative aspects of analytical chemistry. Acid-base, oxidation-reduction, and complexometric titrations, introduction to electrochemical and spectrophotometric analyses and separations. (3 hrs lect, 3 hrs lab)

CHEM 3301. The Chemistry of Sustainable Energy. (SCI; 4 cr; =ESCI 3301); prereq 2302 or 2304 or #; fall, even years) The fundamental chemical concepts underlying energy sources. Topics include: energy basics, fossil fuels, “sustainable” energy sources, biomass, solar voltaics, hydrogen fuel cells, and nuclear energy.

CHEM 3401. Polymer Chemistry and the Environment. (SCI; 4 cr; =ESCI 3401); prereq 2302 or 2304 or #; spring, even years) Same as ESci 3401. Introduction to many traditional topics in polymer chemistry including those with a connection to elements of the environment and environmental science such as the preparation of polymers from renewable feedstocks, polymers in renewable energy, green syntheses of polymers, and environmental impacts of polymers.

ENVT 1101. Environmental Problems and Policy. (ENV; 4 cr; fall, spring, every year) An introduction to the ways in which state, national, and international political systems deal with environmental issues and goals. The development of environmental governance, the regulatory and
ECON 1101. Environmental Policy and Regulation. (SCLI-L, 4 cr; credit will not be granted if credit has been received for Biol 2101; fall, even years) Introduction to concepts in biodiversity, evolution, and ecology. Includes basic chemistry and concepts from cell biology, molecular biology, and genetics. A one-course gateway into upper division Biology courses normally requiring the Biol 1111-2101 sequence. (two 65-min lectures, one 180-min lab)

ESCI 1131. Renewable Energy With Biomass Gasification. (SCI-L, 3 cr; prerequisite Math 0901 or placement beyond Math 0901 using ACT/placement exam or #; summer, every year) Principles of biomass gasification with a focus on chemical, biological, and economic considerations of biomass energy production. Features hands-on training in chemistry and biomass with classroom and lab activities.

ESCI 2201. Field Experience in Environmental Challenges of the Italian Alps. (ENV'T; 4 cr; summer, odd years) Study of the impact of geologic processes such as tectonism, mass movement, and flooding; understanding climate change through the observation of vegetation changes and glacier fluctuations; soil and water resources and the archaeological record of the nature of human settlements in the Alps.

ESCI 3111. Evolution of the Minnesota Prairie. (SCLI-L; 4 cr; prerequisite Geol 101 or EnSt 2101 3 cr; fall, odd years) Interpretation of the geologic, geochemical, climatologic, and paleontological records of western Minnesota to reconstruct the origin and history of the landscape, flora, and fauna during the last 15,000 years. Topics include: climate, deglaciation, large lakes, vegetation changes, late Pleistocene mammals, peopling of the upper Midwest, and extraterrestrial impact events in the upper Midwest. (3 hrs lect, 3 hrs lab, and field trip)

ESCI 3196. Environmental Science Field Camp. (SCI; 2-4 cr; prerequisite jr status, %; fall, spring, summer, every year) An educational experience in a field or internship setting focusing on identification and solution of environmental science problems in an environmental field, including environmental geology, hydrology, environmental chemistry or environmental biology. A course syllabus or written plan of work must be approved by the Environmental Science Advisory Committee before registration.

ESCI 3301. The Chemistry of Sustainable Energy. (SCI; 3 cr; = [CHEM 3301]; prerequisite Chem 2302 or #; fall, even years) The fundamental chemical concepts underlying energy sources. Topics include: energy basics, fossil fuels, "sustainable" energy sources, biomass, solar voltaics, hydrogen fuel cells, and nuclear energy.

ESCI 3401. Polymer Chemistry and the Environment. (SCI; 4 cr; = [CHEM 3401]; prerequisite Chem 2302 or 2304 or #; spring, even years) Same as Chem 3401. Introduction to many traditional topics in polymer chemistry including those with a connection to elements of the environment and environmental science such as the preparation of polymers from renewable feedstocks, polymers in renewable energy, green syntheses of polymers, and environmental impacts of polymers.

ESCI 4901. Environmental Science Senior Seminar I. (1 cr; A-F only; prerequisite #; fall, every year) Capstone experience in environmental science. Identification and selection of individual research topics and related bibliographic resources; development of skills in the reading of environmental science literature (assessing data, recognizing gaps in the research findings, identifying problems in research conclusions). Discussion of selected topics of environmental interest.

ESCI 4902. Environmental Science Senior Seminar II. (1 cr; A-F only; prerequisite 4901; #; spring, every year) Capstone experience in environmental science. Completion of research, assessment of information or data, and formulation of conclusions on the research topic selected. Presentations of research projects.

GEOL 1101. Physical Geology. (SCLI-L; 4 cr; fall, spring, every year) Introduction to the materials that make up the Earth and the structures, surface features, and geologic processes involved in its origin and development. Lab work includes study of the major constituents of the Earth's crust, including the important rocks and minerals; study of surface and geologic features using aerial photographs, topographic maps, and satellite imagery. (3 hrs lect, 3 hrs lab)

GEOL 2001. Natural and Unnatural Geologic Hazards. (ENV'T; 4 cr; spring, offered periodically) Examination of the more significant interactions between humans and geologic environments and processes. Earthquake and volcanic hazards, river flooding, mass movements and slope stability, coastal hazards, and water resources and pollution. Lectures and problems sets emphasize the quantitative approaches used to determine the likelihood and frequency of natural hazards, assess associated risks, and mitigate damage.

GEOL 2121. Sedimentology and Stratigraphy. (SCI-L; 4 cr; prerequisite 2101; fall, even years) Processes of sedimentation, including origin, transportation, and deposition of sediments; interpretation of sedimentary environments. Principles of stratigraphy and their applications. Lab work includes sedimentary particle analysis; stratigraphic sections; and interpretation of ancient sedimentary environments based on stratified sequences of sedimentary rock. (3 hrs lect, 3 hrs lab and field trips)

GEOL 2131. Geomorphology. (SCI; 4 cr; prerequisite 1101; fall, even years) Study of the Earth's surface and surficial processes; weathering, erosion, and deposition, and the resulting landforms and products; the history of the study of landforms in the United States. (3 hrs lect, 3 hrs lab and field trips)

GEOL 2141. Glacial and Quaternary Geology. (SCI; 4 cr; prerequisite 1101; spring, odd years) Glaciers, glaciology, glacial deposition, glacial erosion; climatic change and the growth and advance of ice sheets; effect of glaciations on flora and fauna. (3 hrs lect, 3 hrs lab and field trips)

GEOL 2161. GIS and Remote Sensing. (SCI; 4 cr; prerequisite 1101 or Biol 1111 or Biol 1111 or #; spring, every year) Introduction to design, development, and application of Geographic Information Systems (GIS); overview of acquisition and utility of satellite data and imagery; emphasis on applications in Earth and environmental sciences; lab component focuses on practical aspects of GIS development and use and involves original semester projects designed and implemented by individual students.

GEOL 3111. Introduction to Paleontology. (SCI-L; 4 cr; prerequisite 2151 or Biol 2101 or EnSt 2101 or #; fall, even years) An introduction to the study of the evolutionary history of life on earth as revealed in the fossil and geologic record. Laboratory focuses on study of the classification, morphology, and paleoecology of invertebrate fossils. (two 65-min lect, one 3-hr lab, and weekend collecting trip required)

GEOL 3501. Hydrology. (SCI; 4 cr; prerequisite Math 1101 or #; fall, every year) An examination of the hydrological cycle; evapotranspiration and precipitation; processes of infiltration; rainfall-runoff relationships and the generation of overland flow; response of the drainage basin to storm events; flood-frequency analysis; elements of groundwater flow and evaluation of aquifer characteristics; water quality, contamination, and contaminant transport. (4 hrs lect)

GEOL 3502. Groundwater. (ENV'T; 4 cr; prerequisite 1101 or #; spring, odd years) The origin, occurrence, and availability of groundwater, aquifer geology and groundwater resources, chemical character of groundwater and groundwater pollution, groundwater wells and well design, and groundwater as a geologic agent. (3 hrs lect, 3 hrs lab and field trips)

MATH 1021. Survey of Calculus. (M/SIR; 4 cr; prerequisite 1012 or placement; spring, every year) Short course for students in social sciences, biological sciences, and other areas requiring a minimal amount of calculus. Topics include basic concepts of functions, derivatives and integrals, exponential and logarithmic functions, maxima and minima, partial derivatives; applications.

MATH 1101. Calculus I. (M/SIR; 5 cr; prerequisite 1012, 1013 or placement; fall, spring, every year) Limits and continuity; the concepts, properties, and some techniques of differentiation, antidifferentiation, and definite integration and their connection by the Fundamental Theorem. Partial differentiation.
Some applications. Students learn the basics of a computer algebra system.

**PHYS 1091. Principles of Physics I.** (SCI-L; 5 cr; prereq high school higher algebra; fall, every year)
Introduction to physics without the use of calculus. Vectors, kinematics, Newton's laws of motion, work and energy, momentum, torque, fluids, thermal physics, laws of thermodynamics, oscillations and waves. (4 hrs lect, 2 hrs lab)

**PHYS 1101. General Physics I.** (SCI-L; 5 cr; prereq Math 1101 or #: spring, every year)
Vectors, kinematics, laws of motion, circular motion, work-energy theorem, conservation principles, rotational motion, gravitation, simple harmonic oscillations, wave phenomena, fluid mechanics, thermal properties of matter, kinetic theory, laws of thermodynamics. (4 hrs lect and rec, 2 hrs lab)

**PHYS 2301. Atmospheric Physics.** (ENVT; 4 cr; prereq 1092 or 1102, Math 1102; fall, odd years)
Introduction to atmospheric physics with an emphasis on thermodynamics. Atmospheric thermodynamics including gas laws, phase transitions, laws of thermodynamics, two-component systems, atmospheric stability; radiative transfer including atmospheric optics and remote sensing; some aspects of atmospheric chemistry such as aerosols, chemical cycles, traces gases; cloud microphysics including nucleation and growth; and atmospheric dynamics including equations of motion for fluid flow; applications to weather systems. (4 hrs lect)

**STAT 1601. Introduction to Statistics.** (M/SR; 4 cr; prereq high school higher algebra; fall, spring, every year)
Scope, nature, tools, language, and interpretation of elementary statistics. Descriptive statistics: graphical and numerical representation of information; measures of location, dispersion, position, and dependence; exploratory data analysis. Elementary probability theory, discrete and continuous probability models. Inferential statistics, point and interval estimation, tests of statistical hypotheses. Inferences involving one and two populations, ANOVA, regression analysis, and chi-squared tests; use of statistical computer packages.

**STAT 2601. Statistical Methods.** (M/SR; 4 cr; prereq Math 1101 or Math 1021; fall, every year)
Descriptive statistics, elementary probability theory; laws of probability, random variables, discrete and continuous probability models, functions of random variables, mathematical expectation. Statistical inference; point estimation, interval estimation, tests of hypotheses. Other statistical methods; linear regression and correlation, ANOVA, nonparametric statistics, statistical quality control, use of statistical computer packages.

**STAT 4601. Biostatistics.** (4 cr; prereq 1601 or 2601 or 2611 or #: spring, offered periodically)
Design and analysis of biological studies: biological assays, case-control studies, randomized clinical trials, factorial designs, repeated measures designs, observational studies, and infectious disease data. Analysis of survival data: basic concepts in survival analysis, group comparisons, and Cox regression model. Use of statistical computer packages.

**Environmental Studies (EnSt)**

Interdisciplinary Studies—Academic Affairs

This is an interdisciplinary major under the authority of the vice chancellor for academic affairs and dean. The program is administered by the environmental studies program coordinator.

The environmental studies major is designed to serve those interested in a broad knowledge of the natural environment and the role of humans in it. Students acquire a foundation of knowledge in economics, policy, science, humanities, and statistics. Carefully chosen electives, a required practical internship or research experience, and a capstone seminar provide depth of experience and help students prepare for graduate and professional programs, as well as for careers in education, government service, and the private sector.

**Environmental Studies Major**

Requirements for the major include successful completion of two elements: Element 1: The Environmental Studies Core
Element 2: The Environmental Studies Elective Block

Selection of electives must be intentional and done in close consultation with an environmental studies adviser. Students must submit an elective plan (preferably by the end of sophomore year), to be approved by the environmental studies program coordinator. Elective plans must be designed to ensure that there is sufficient depth of coverage in the chosen ENST electives. For many students, a second major (or minor) in a closely related discipline is desirable. Electives often can be selected in such a way that they also count toward the second major. Elective courses, other than those listed below, may be appropriate to add depth and provide more theoretical context for the environmentally focused coursework. Approval of alternative electives requires written consent of the course instructor and the program coordinator.

No grades below C- are allowed. Courses may not be taken S-N unless offered S-N only.

A minimum GPA of 2.00 is required in the major to graduate. The GPA includes all, and only, University of Minnesota coursework. Grades of "P" are included in GPA calculation until they are replaced.

**Element 1: The Environmental Studies Core**

Students must successfully complete each of the following eight courses in order to satisfy this element of the major.

- **ECON 1111 - Principles of Microeconomics** [SS] (4 cr)
- **ENGL 2106 - Topics in Writing: The Environmental Imagination:** Reading and Writing about the Natural World [ENVT] (4 cr) or **PHIL 2114 - Environmental Ethics** [ENVT] (4 cr)
- **ENST 1101 - Environmental Problems and Policy** [ENVT] (4 cr)
- **ENST 2101 - Environmental Biology** [SCI-L] (4 cr) or **BIOL 1111 - Fundamentals of Genetics, Evolution, and Development** [SCI] (3 cr)
- **BIOL 2101 - Evolution of Biodiversity** [SCI-L] (4 cr)
- **ENST 4901 - Senior Capstone Experience** (4 cr)
- **ENST 3988 - Environmental Studies Pre-Internship Seminar** (1 cr)
- **ENST 3989 - Environmental Studies Post-Internship Seminar** (1 cr)
- **GEOL 1101 - Physical Geology** [SCI-L] (4 cr)
- **STAT 1601 - Introduction to Statistics** [M/SR] (4 cr) or **STAT 2601 - Statistical Methods** [M/SR] (4 cr)

**Element 2: Environmental Studies Elective Block**

Students must successfully complete at least 24 credits from the electives listed below, subject to the following restrictions:

1. Courses used to satisfy this element are exclusive of any used to complete the Core element.
2. At least 16 credits must come from the Upper Division Electives Block.
3. At least 4 credits of the Upper Division Electives must come from Category A.
4. At least 4 credits of the Upper Division Electives must come from Category B.

**Lower Division Electives**

Take at most 8 credits from the following:

- **ANTH 2101 - Physical Anthropology** [SCI-L] (4 cr)
- **CHEM 1101 - General Chemistry I** [SCI-L] (4 cr)
- **CHEM 1102 - General Chemistry II** [SCI-L] (4 cr)
- **ED 2301 - Environmental Science and Place-Based Education** [ENVT] (4 cr)
- **ENGL 2106 - Topics in Writing: The Environmental Imagination:** Reading and Writing about the Natural World [ENVT] (4 cr) or **GEOL 2001 - Natural and Unnatural Geologic Hazards** [ENVT] (4 cr)
- **HIST 1701 - Global Indigenous History** [IP] (4 cr)
- **HIST 1812 - FIRE!: An introductory Seminar to American Environmental History** [IC] (4 cr)

119
Upper Division Elective Courses
Take 16 or more credits from the following:

Category A: Science and Mathematics Electives
Take 4 or more credits from the following:
- BIOL 3131 - Ecology [SCI-L] (4 cr)
- BIOL 4071 - Flora of Minnesota (4 cr)
- BIOL 4131 - Vertebrate Natural History (4 cr)
- BIOL 4151 - Entomology (4 cr)
- BIOL 4172 - Plant Systematics (4 cr)
- BIOL 4191 - Freshwater Biology (4 cr)
- BIOL 4331 - Global Change Ecology (4 cr)
- BIOL 4351 - Conservation Biology (4 cr)
- CHEM 3101 - Analytical Chemistry [SCI-L] (4 cr)
- GEOL 3501 - Hydrology [SCI] (4 cr)

Category B: Social Science Electives
Take 4 or more credits from the following:
- ANTH 3204 - Ecology [ENVT] (4 cr)
- EVOL 3060 - Evolutionary History of Biodiversity [ENVT] (4 cr)
- ECON 3007 - Environmental and Natural Resources Economics I [ENVT] (2 cr)
- ECON 3008 - Environmental and Natural Resources Economics II [ENVT] (2 cr)
- ENST 3001 - Water Resources Policy [ENVT] (4 cr)
- ENST 3101 - Industrial Ecology (4 cr)
- GEOL 3501 - Geographic Information Systems [ENVT] (4 cr)
- HIST 3361 - An American and Geographical History of the United States [ENVT] (4 cr)
- HIST 3381 - History of American Indian Nationalism and Red Power, 1920-Present [HIST] (4 cr)
- POL 3272 - Making Environmental Public Policy [ENVT] (4 cr)
- POL 3355 - Environmental Political Theory [ENVT] (4 cr)
- POL 3514 - Pyramids and Politics on the Nile [IP] (4 cr)
- SOC 3112 - Sociology of the Environment and Social Development [ENVT] (4 cr)
- SOC 3131 - World Population [ENVT] (4 cr)
- SOC 3204 - Culture, Food, and Agriculture [ENVT] (4 cr)

Category C: Humanities Electives
Take 0 or more credits from the following:
- ENGL 3191 - The Construction of Nature in British Literature [ENVT] (4 cr)
- ENGL 4012 - Research Seminar: Imagining the Earth [HUM] (4 cr)
-SPAN 3623 - Seminar: Ecology and Nature in Latin American Literature [ENVT] (4 cr)

Environmental Studies Course Descriptions

ANTH 2101. Physical Anthropology. (SCI-L; 4 cr; A-F only; spring, every year)
The fossil record linking anatomically modern humans with our earliest hominoid ancestors. Human and other primate evolution and genetics. Includes a 90-minute lab session.

ANTH 3204. Culture, Food, and Agriculture. (ENVT; 4 cr; =SOC 3204); prereq 1111 or Soc 1101 or #; spring, every year)
Same as Soc 3204. Examines the globalization of food systems utilizing a political ecology perspective to understand global and local dimensions of production, marketing, and consumption. Emphasis on connections between food production and national identity, relations of power, genetic engineering, environmental destruction, the politics of world hunger, and local efforts to achieve sustainability.

ANTH 3206. Ecological Anthropology. (ENVT; 4 cr; prerequisite 1111 or 2101 or 2103; fall, every year)
Exploration of human ecology and the causes and effects of environmental change, using data from archaeology, biological anthropology, and cultural anthropology. Emphasis on understanding the social and economic context of human adaptations to the environment. Examination of cultures worldwide and through time that have (or have failed to) live sustainably.

BIOL 1111. Fundamentals of Genetics, Evolution, and Development. (SCI; 3 cr; prerequisite major/minor or chem major or any health sciences preprofessional program or ElEd or SeEd major with middle school science specialties or #; fall, spring, every year)
Introduction to scientific methods and the history of biology, with an emphasis on mechanisms of inheritance, development, and descent with modification. Overview of pre-Darwinian scientific thought; the theory of evolution; a qualitative introduction to genetics and molecular biology; and a summary of developmental biology. (two 75-min lecture)

BIOL 2101. Evolution of Biodiversity. (SCI-L; 4 cr; prerequisite 1101 or 1111 or #; spring, every year)
Analysis of evolutionary trends using historical and contemporary evidence. Principles of classification and phylogenetic reconstruction. Includes laboratory survey of the major groups of organisms. (two 65-min lecture, one 180-min lab)

BIOL 3131. Ecology. (SCI-L; 4 cr; prerequisite BIOL 2101 or EnST 2101 or #; fall, every year)
Basic principles and models of population biology, community structure and function, and ecosystem dynamics. Lab exercises emphasize field work, techniques for characterizing local plant and animal communities, and experimental investigation of topics such as competition and behavioral ecology. (two 65-min lecture, one 180-min lab and field study; weekend field trip required)

BIOL 4071. Flora of Minnesota. (4 cr; prerequisite BIOL 2101; summer, offered periodically)
Identification, ecology, and conservation of vascular plants found in Minnesota. Labs and field trips emphasize plant identification and anatomy.

BIOL 4131. Vertebrate Natural History. (4 cr; prerequisite BIOL 2101 or EnST 2101 or #; spring, odd years)
Survey of vertebrates, including their evolution, systematics, and ecological relationships. (two 65-min lecture, one 180-min lab or field study)

BIOL 4151. Entomology. (4 cr; prerequisite BIOL 2101 or EnST 2101 or #; fall, even years)
Structure, life histories, habits, and classification of common families of insects, including their economic significance. (two 65-min lecture, 180-min lab)

BIOL 4172. Plant Systematics. (4 cr; prerequisite BIOL 2101 or EnST 2101 or #; spring, odd years)
Survey of vascular plant taxa, with an emphasis on the flowering plant families and their evolutionary relationships. Lab emphasizes use of keys for identification of Midwestern plant families and genera. (two 65-min lecture, 180-min lab)

BIOL 4191. Freshwater Biology. (4 cr; prerequisite BIOL 2101 or EnST 2101, 2111 or #; fall, odd years)
Structure, function, and biota of freshwater ecosystems, including lakes, streams, and wetlands. Lab emphasizes independent research and field study in local habitats. (two 65-min lecture, one 180-min lab; all day field trip required)

BIOL 4331. Global Change Ecology. (4 cr; prerequisite 3131 or #; spring, odd years)
Global cycles of carbon, water, and nutrients. Advanced consideration of community and ecosystem structure and function. Analysis of natural and human drivers of change in biological systems, including use of quantitative methods and computer models. (three 65-min lecture)

BIOL 4351. Conservation Biology. (4 cr; prerequisite BIOL 2101 or EnST 2101, coreq or prerequisite BIOL 3131 or #; fall, odd years)
Application of demographic and genetic models to protect biodiversity, including planning for uncertainty. Population viability, inbreeding depression, contemporary evolution, design and management of reserves, and invasive species. Lab exercises include field trips and computer modeling of endangered species. (two 65-min lecture, one 180-min lab)

CHEM 1101. General Chemistry I. (SCI-L; 4 cr; prerequisite Math 0901 or placement beyond Math 0901 using ACT/placement exam score; fall, every year)
Scientific method, measurements, nomenclature, stoichiometry, atomic and molecular structure, thermochemistry, chemical periodicity, introduction to chemical bonding, and properties of common elements and ions. Development of scientific reasoning and
CHEM 1102. General Chemistry II. (SCI-L; 4 cr; prereq 1101; spring, every year) Continuation of Chem 1101. Chemical bonding, states of matter, solutions, acid-base chemistry, chemical equilibrium, oxidation-reduction reactions, kinetics, thermodynamics, quantum theory, nuclear chemistry, organic chemistry, and biochemistry. Lab exercises concomitant with these topics. (3 hrs lect, 3 hrs lab)

CHEM 3101. Analytical Chemistry. (SCI-L; 4 cr; prereq 1102; fall, every year) The application of chemical equilibria to chemical analysis with emphasis on the fundamental quantitative aspects of analytical chemistry. Acid-base, oxidation-reduction, and complexometric titrations, introduction to electrochemical and spectrophotometric analyses and separations. (3 hrs lect, 3 hrs lab)

ECON 1111. Principles of Microeconomics. (SS; 4 cr; prereq high school algebra or #; fall, spring, every year) Study of scarce resource allocation in a market economy. Supply and demand, consumer theory, theory of the firm, market structure, pricing of factors of production, income distribution and the role of government.

ECON 3007. Environmental and Natural Resource Economics I. (ENV; 2 cr; prereq 1111 or #; fall, spring, offered periodically) An overview of "brown" pollution and "green" sustainability issues in environmental and natural resource economics. Emphasis on the role of market failures in causing environmental problems and on the design of market mechanisms and incentive regulations to solve those problems. Analysis of current federal policy in the areas of water and air pollution.

ECON 3008. Environmental and Natural Resource Economics II. (ENV; 2 cr; prereq 3007 or #; fall, spring, offered periodically) The economic analysis of sustainability, focusing on market designs to discourage over-exploitation of both renewable and exhaustible natural resources. Topics include markets for water, fisheries, and energy.

ED 2301. Environmental Science and Place-Based Education. (ENV; 4 cr; A-F only; summer, every year) Study of the topics, issues, and concepts of environmental science and place-based education while working with environmental specialists and interacting with elementary students at a wetland learning center.

ENGL 2106. Topics in Writing: The Environmental Imagination: Reading and Writing about the Natural World. (ENV; 4 cr; prereq 1601 or #10111; or equiv; fall, spring, offered periodically) Writing about the environment. Students learn to use the rich possibilities of language to express their responses to nature and convey to others the importance of close contact with the natural world. Readings in poetry and prose, discussion of technique, and experimentation with a variety of styles and literary forms.

ENGL 3169. The Construction of Nature in British Literature. (ENV; 4 cr; prereq 2501, two from 2201, 2202, 2211, 2212, or #; fall, odd years) Surveys changing representations of nature and the natural in British literature and culture from the Romantics forward, including cultural responses to industrialism and evolutionary science.

ENGL 4012. Research Seminar: Imagining the Earth. (Hum; 4 cr; prereq two from 31xx-35xx, #; fall, spring, offered periodically) Study of imaginative writing (poetry and prose) about the earth, and an examination of the ways that language transforms or shapes our perceptions of the natural world. In addition to the primary literary works, students read selections about our understanding of the natural world from science, philosophy, and ecocriticism.

ENST 1101. Environmental Problems and Policy. (ENV; 4 cr; fall, spring, every year) An introduction to the ways in which state, national, and international political systems deal with environmental issues and goals. The development of environmental governance, the regulatory and economic tools of environmental policy, and the impact of institutions, culture, social movements, and historical development.

ENST 1201. Mapping the Environment. (ENVT; 4 cr; no elective cr for EnST majors if credit has been received for Geol 2161; summer, offered periodically) An intense immersion into the world of geographic information systems (GIS), with an emphasis on providing a foundation upon which future coursework and projects can be built. The first half of the course focuses on basic skills and functions; the second half is devoted to an environment-related mapping project.

ENST 2101. Environmental Biology. (SCI-L; 4 cr; credit will not be granted if credit has been received for Biol 2101; fall, every year) Introduction to concepts in biodiversity, evolution, and ecology. Includes basic chemistry and concepts from cell biology, molecular biology, and genetics. A one-course gateway into upper division Biology courses normally requiring the Biol 1111-2101 sequence. (two 65-min lectures, one 180-min lab)

ENST 3001. Water Resources Policy. (ENV; 4 cr; prereq 1101 or Pol 1201 or Pol 1401 or #; fall, odd years) An examination of fundamental contemporary water resource challenges. Units on water quality (e.g., drinking water) and quantity (e.g., irrigated agriculture) encourage critical evaluation of local, national, and international water resources policy in the contexts of environmental quality, human health, and technology. (two 100 min discussions)

ENST 3101. Industrial Ecology. (4 cr; prereq 1101, 2101, Econ 1111, Geol 1101, Stat 1601, or #; no credit for students who have received cr for EnST 4101; fall, even years) Systems thinking in the context of industrial/environmental issues. Methods or frameworks including life cycle analysis and design for disassembly, guide an examination of product design, material choice, and flows of energy and resources into, through, and from industrial cycles.

ENST 3988. Environmental Studies Pre-Internship Seminar. (1 cr; S-N only; prereq 1101; fall, every year) Preparation for the environmental studies internship, including attending and writing reflections on presentations by post-internship students, and developing ideas and opportunities for the EnST internship. Students should enroll in this course in fall of sophomore or junior year prior to completing the EnST internship.

ENST 3999. Environmental Studies Post-Internship Seminar. (1 cr; A-F only; prereq 3988 or #; fall, every year) Culmination of the environmental studies internship. Includes preparing a final paper and delivering a public presentation on the internship experience. Assessment is based on the quality of the final products and on class participation.

ENST 3996. Internship/Field Experience in Environmental Studies. (2-4 cr; S-N only; prereq jr status or #; approved internship proposal; fall, spring, summer, every year) An educational experience in a work, research, and/or field setting that provides practical application of the student’s theoretical classroom learning experiences. A written plan of work must be approved by the Environmental Studies Internship Coordinator before registration.

ENST 4901. Senior Capstone Experience. (4 cr; A-F only; prereq 3989 or 3996, sr status or #; spring, every year) Students engage in an individual and/or group problem solving project on a multidisciplinary topic germane to Environmental Studies and present results in a public forum.

GEOG 3501. Geographic Information Systems. (ENV; 4 cr; prereq any 1xxx course in social or natural sciences; fall, spring, offered periodically) The theory and practice of Geographic Information Systems. Topics include data models, spatial statistics, and cartographic modeling. Special emphasis on social and environmental applications. (two 65-minute lectures, one 120-minute lab session per week)

GEOL 1101. Physical Geology. (SCI-L; 4 cr; fall, spring, every year) Introduction to the materials that make up the Earth and the structures, surface features, and geologic processes involved in its origin and development. Lab work includes study of the major constituents of the Earth's crust, including the important rocks and minerals; study of surface and geologic features using aerial photographs, topographic maps, and satellite imagery. (3 hrs lect, 3 hrs lab)
University of Minnesota Morris 2013-15 Catalog

GEOL 2001. Natural and Unnatural Geologic Hazards. (ENVT; 4 cr; fall, offered periodically) Examination of the more significant interactions between humans and geologic environments and processes. Earthquake and volcanic hazards, river flooding, mass movements and slope stability, coastal hazards, and water resources and pollution. Lectures and problems sets emphasize the quantitative approaches used to determine the likelihood and frequency of natural hazards, assess associated risks, and mitigate damage.

GEOL 2161. GIS and Remote Sensing. (SCI; 4 cr; prereq 1101 or Biol 1101 or Biol 1111 or #; spring, every year) Introduction to design, development, and application of Geographic Information Systems (GIS); overview of acquisition and utility of satellite data and imagery; emphasis on applications in Earth and environmental sciences; lab component focuses on practical aspects of GIS development and use and involves original semester projects designed and implemented by individual students.

GEOL 3501. Hydrology. (SCI; 4 cr; prereq Math 1101 or #; fall, every year) An examination of the hydrological cycle; evapotranspiration and precipitation; processes of infiltration; rainfall-runoff relationships and the generation of overland flow; response of the drainage basin to storm events; flood-frequency analysis; elements of groundwater flow and evaluation of aquifer characteristics; water quality, contamination, and contaminant transport. (4 hrs lect)

HIST 1701. Global Indigenous History. (IP; 4 cr; =HIST 1813, AMIN 1701; fall, offered periodically) Same as AMin 1701. Modern technology has transformed our world and has encouraged global nations to become increasingly connected. These international connections contain a unique and exciting history that complicates and enriches our worldview. The movement to gain recognition in the United Nations has prompted Indigenous peoples into a new political awareness of Intertribalism. Acquire an introductory knowledge about Indigenous histories beyond the borders of the United States. Navigating the globe, learn about the Maori of New Zealand, Aboriginal rights in Australia, the great Polynesian, Asian, and African Empires. Debate complex issues of colonization, gender, sustainability, urbanization, science, law, economics, race, and nationalism. Also investigate contemporary political movements, activism, and art forms employed by Indigenous communities to maintain their life-ways and sovereignty.

HIST 1812. FIRE!: An Introductory Seminar to American Environmental History. (IC; 4 cr; prereq new college student in their first semester of enrollment at UMM; fall, offered periodically) One of the primary ways in which people have manipulated their environment has been through the burning of fossil fuels. Indigenous people, for instance, used fire to clear land, to improve soil quality, and to drive game. Coal powered the Industrial Revolution and oil provided the energy necessary for the Automobile Age. The impact of using energy in this way is today obvious. This course is organized around the topic of fire and uses this theme to examine core issues in American Environmental History. Topics might include: American Indian peoples and fire, burning and early agriculture, coal and industrialization, the Age of the Automobile, incineration and the problem of waste, and forest arson as a mode of political protest.

HIST 2451. The American West. (HIST; 4 cr; =HIST 3451; fall, every year) Overview of the history of the American West up to the 21st century. While many scholars have argued that the “West” was merely a necessary process of national expansion, others argue that it is a very significant region—the most culturally and ecologically diverse region in the country. Discussion of these major historical interpretations of the American West and examination of how people have understood this vast region as a cultural icon of national identity. Work through various definitions of the West and identify how political issues of the environment, international borders, and gender and race relations have significantly influenced the United States for many generations. Through lectures, readings, and discussion, examine Western history chronologically while also covering other major themes including federalism, the mythic West, tourism, ranching and agriculture, urban and suburban areas, film, and religion.

HIST 3361. An Environmental and Geographic History of the United States. (ENVT; 4 cr; no credit for students who have received credit for Hist 2361; fall, spring, offered periodically) A broad examination of how humans interacted with their natural world throughout American history. Combined emphasis on cultural ecology (the study of how various cultural groups shaped the American landscape) with political ecology (the role of the nation’s political economy in driving environmental change). Possible topics include: the Columbian Exchange, European and American Indian conflict, Thoreau and the creation of an environmental ethic, the slaughter of the bison as an ecological tragedy, urbanization and environmental racism, conservation as a political movement and the development of environmental policy, eco-feminism, American religion and the environment, the politics of global climate change.

HIST 3381. History of American Indian Nationalism and Red Power, 1920-Present. (HIST; 4 cr; A-F only; spring, every year) Documents the history of American Indian Nationalism and the origins of the Red Power Movement in the late 1960s. Explores the rise of the Society of American Indians, the Indian Defense Association, National Congress of American Indians, and the rise of the Red Power Movement. Students learn about the changing nature of how the U.S. Government and Native Nations developed into a globalized transnational and intertribal political debate in the 20th century. Provides students with a critical overview of the peoples, places, and events that have impacted Tribal and U.S. relations.

PHIL 2114 Environmental Ethics (ENVT; 4 cr; spring, offered periodically) Survey of fundamental theoretical debates in environmental ethics. General moral approaches are canvassed, as are the major positions in environmental ethics: anthropocentrism, sentientism, biocentric individualism, holism. Specific topics include: speciesism, the environmentalism-animal liberation debate, and the predation problem.

PHYS 2301. Atmospheric Physics. (ENVT; 4 cr; prereq 1092 or 1102, Math 1102; fall, odd years) Introduction to atmospheric physics with an emphasis on thermodynamics. Atmospheric thermodynamics including gas laws, phase transitions, laws of thermodynamics, two-component systems, atmospheric stability; radiative transfer including atmospheric optics and remote sensing; some aspects of atmospheric chemistry such as aerosols, chemical cycles, traces gases; cloud microphysics including nucleation and growth; and atmospheric dynamics including equations of motion for fluid flow; applications to weather systems. (4 hrs lect)

POL 1201. American Government and Politics. (E/CR; 4 cr; fall, spring, every year) Analysis of principles, organization, procedures, and powers of government in the United States. The federal system, national constitution, civil and political rights, party system; nature, structure, government in the United States. The federal system, national constitution, civil and political rights, party system; nature, structure, powers, and procedures of legislative, executive, and judicial departments of the national government.

POL 3272. Making Environmental Public Policy. (ENVT; 4 cr; prereq 1101 or 1201 or 1401; spring, even years) Exploration of the domestic and international politics of environmental and energy policy making. Focus on theoretical frameworks for policy making and political behaviors surrounding development of environmental and energy policies. Includes the applications of political dynamics and principles to specific areas of environmental and energy policy. Emphasis also given to politics of policy implementation.

POL 3355. Environmental Political Theory. (ENVT; 4 cr; fall, odd years) An examination of political understandings of the relationship between humans and the natural environment. Topics include Western and non-Western perspectives on the natural environment, technological optimism and survivalism, the tragedy of the commons, environmental direct action movements, the environmental justice movement, and theories of green democracy and citizenship. Readings cover a variety of political perspectives and ideologies including neoconservatism, libertarianism, ecoanarchism, ecofeminism, ecofeminism, social ecology, deep ecology, and postmodernism.
POL 3514. Pyramids and Politics on the Nile. (IP; 4 cr; prereq #; summer, offered periodically) Four-week study-abroad course on Egyptian political history with an emphasis on the environmental challenges of the Nile River Valley. Guided excursions, guest speakers, and individual exploration at significant political, historical, and cultural sites in the Cairo area and along the Nile Valley from Aswan to Alexandria.

SOC 3112. Sociology of the Environment and Social Development. (ENVT; 4 cr; prereq 1101 or #; fall, odd years) Introduces students to the sociological study of the environment and social development. Examines the impact of international environmental and development efforts on individuals at the local level. Focuses on grassroots environmental activism and social development work. Explores and discusses power relations and systems of inequality within the context of environmental and social development efforts.

SOC 3131. World Population. (ENVT; 4 cr; prereq 1101 or #; fall, every year) Population theory and demographic method. Dynamics of fertility and mortality as the basis of population forecasting and its policy implications. Emphasis on the tie between Third World demographic trends and population issues in the rest of the world.

SOC 3204. Culture, Food, and Agriculture. (ENVT; 4 cr; =ANTH 3204; prereq 1101 or Anth 1111 or #; spring, every year) Same as Anth 3204. Examines the globalization of food systems utilizing a political ecology perspective to understand global and local dimensions of production, marketing, and consumption. Emphasis on connections between food production and national identity, relations of power, genetic engineering, environmental destruction, the politics of world hunger, and local efforts to achieve sustainability.

SPAN 3623. Seminar: Ecology and Native in Latin American Literature. (ENVT; 4 cr; prereq 3012, 3112 or #; fall, offered periodically) Study of Latin American texts where authors create characters that read or misread Nature and its preservation or extinction. How globalization is making this issue more relevant in the Latin American context.

STAT 1601. Introduction to Statistics. (M/SR; 4 cr; prereq high school higher algebra; fall, spring, every year) Scope, nature, tools, language, and interpretation of elementary statistics. Descriptive statistics; graphical and numerical representation of information; measures of location, dispersion, position, and dependence; exploratory data analysis. Elementary probability theory, discrete and continuous probability models. Inferential statistics, point and interval estimation, tests of statistical hypotheses. Inferences involving one and two populations, ANOVA, regression analysis, and chi-squared tests; use of statistical computer packages.

STAT 2601. Statistical Methods. (M/SR; 4 cr; prereq Math 1101 or Math 1021; fall, every year) Descriptive statistics, elementary probability theory; laws of probability, random variables, discrete and continuous probability models, functions of random variables, mathematical expectation. Statistical inference; point estimation, interval estimation, tests of hypotheses. Other statistical methods; linear regression and correlation, ANOVA, nonparametric statistics, statistical quality control, use of statistical computer packages.

French (Fren)

Division of the Humanities

French is an important language of diplomacy, commerce, and health care and is used in research across the globe and in many disciplines, such as music, art, linguistics, history, law, political science, anthropology, biology, chemistry, mathematics, and philosophy. The French discipline gives students the language and analytic skills necessary to engage intellectually with these interconnected fields in French and to appreciate the cultures of France and Francophone countries throughout the world.

Objectives—The French discipline teaches the skills necessary for communicating with a variety of French-speaking peoples and for understanding their rich cultures, ideas, institutions, and writings past and present. We invite students to think critically about French and Francophone cultures, and prepare them for graduate school or to enter a bilingual professional world.

STUDY ABROAD

In light of today’s increasingly interdependent world, the UMM French faculty endorses study abroad in combination with a French major or minor as the most effective means by which to

* improve language abilities;
* broaden academic horizons;
* globalize one’s world view;
* expand career opportunities;
* advance cross-cultural and problem-solving skills; and
* gain confidence in oneself personally and professionally.

CERTIFICATE PROGRAM IN FRENCH

The certificate program in French responds to the growing demand for individuals who can communicate successfully in a global environment and is intended for students whose other academic commitments prevent them from completing either a major or minor in French. To earn a certificate, a student must:

a) complete a minimum of 12 credits in French at UMM at the 2xxx and/or 3xxx level. All courses for the certificate must be taken on campus at UMM. Students are encouraged to study abroad, but the UMM French faculty need to assess the skills and progress of the student. Therefore, classes taken abroad (including July in Paris) do not count for the certificate.

b) earn at least a B in each of the three courses (S-N grades will not be accepted for the certificate).

No courses in English may count toward the French certificate program. Students who complete a major or minor in French are not eligible for the certificate program.

A student who has met the above requirements will receive a reference letter from the UMM French faculty certifying completion of the certificate program as well as language competence based on guidelines published by the American Council on the Teaching of Foreign Languages (ACTFL).

French Major

Courses for Admission

Beginning French

Beginning French I and II or equivalent previous language experience required to take intermediate French.

Program Requirements

Students are strongly encouraged to study abroad, but should also plan to complete a significant amount of coursework in French at UMM. Up to 9 credits for one semester abroad or 16 credits for a year abroad may count towards the French major. Students may count FREN 3060—July in Paris I: French Language and Culture in Paris toward the major as an on-campus course. Transfer students may apply up to 9 credits from another institution towards the French major. Students who wish to apply both transfer and study abroad credits must petition the French faculty for approval.

Students majoring in French are strongly encouraged to take at least one year of instruction in another world language.

One cross-listed French course taught in English (such as Fren 1031, 1302, 1311 or 1312) may be counted towards the French major, provided that students complete written work for the class in French.

No grades below C- are allowed. Courses may not be taken S-N unless offered S-N only.
A minimum GPA of 2.00 is required in the major to graduate. The GPA includes all, and only, University of Minnesota coursework. Grades of “F” are included in GPA calculation until they are replaced.

Required Courses
- FREN 2001 - Intermediate French I [IP] (4 cr)
- FREN 2002 - Intermediate French II [IP] (4 cr)
- FREN 3001 - Conversation and Composition [IP] (4 cr)
- FREN 3011 - Reading and Analysis of Texts [HUM] (4 cr)

Early Modern Studies (EMS)
These courses fall within the period that encompasses the Middle Ages through French classicism. Students gain familiarity with the history, cultures, and literatures of France from its beginnings in early feudal society through the seventeenth century.

Take 4 or more credits from the following:
- FREN 3402 - Early Modern Studies: Pre-Enlightenment Culture in France [HIST] (4 cr)
- FREN 3406 - Early Modern Studies: Representations of Suicide and the Death Wish in the Middle Ages and Today [HUM] (4 cr)

Modern Studies (MOS)
These courses cover a wide range of historical, literary, and cultural moments and movements that have marked France’s development since the dawn of the French Enlightenment.

Take 4 or more credits from the following:
- FREN 1031 - Modern Studies: The Modern Body in France [SS] (4 cr)
- FREN 1302 - French Cinema [IP] (4 cr)
- FREN 3502 - Modern Studies: Revolution, Romanticism, Modernity [HUM] (4 cr)
- FREN 3503 - Modern Studies: Avant-Garde, Existentialism, Experimentation [HUM] (4 cr)
- FREN 3505 - Modern Studies: The Old Regime and New Ideas: The French Enlightenment [HIST] (4 cr)
- FREN 3506 - Modern Studies: Media Representation(s), Immigration, and Identity in Migrant Literature [HIST] (4 cr)

Francophone Studies (FRS)
These courses examine the literature, film, history and cultures of French-speaking populations living in Africa, North America, the Caribbean, South America, Europe, and Asia.

Take 4 or more credits from the following:
- FREN 1311 - Sub-Saharan Francophone Cinema [IP] (4 cr)
- FREN 1312 - Morocco: History, Story, Myth [IP] (4 cr)
- FREN 3602 - Francophone Studies: Francophone Worlds [IP] (4 cr)
- FREN 3603 - Francophone Studies: Contes francophones [IP] (4 cr)
- FREN 3604 - Francophone Studies: L’Amerique francophone [HUM] (4 cr)
- FREN 3605 - Francophone Studies: Le Cinema du Maghreb [IP] (4 cr)
- FREN 3606 - Francophone Studies: Sub-Saharan Francophone Cinema [IP] (4 cr)

Compilation of the French Major Portfolio
The portfolio is a collection of work charting students’ intellectual progress from FREN 3001 throughout the French major. Beginning in FREN 3001, students keep all syllabi, papers, and exams—including work completed abroad—in one 3-ring binder. Senior year, students write a brief paper summarizing their intellectual history in the French major and present their portfolio to the French faculty.

French Major Portfolio

Senior Seminar
FREN 4901 must be taken on campus and the final seminar presentation must be given in French.

FREN 4901 - Senior Seminar (4 cr)

Elective Courses
An additional 8 credits of FREN 3xxx or above, exclusive of those used to fulfill required cluster courses. FREN 3112 may also be used to satisfy this elective requirement. Students may take up to 4 credits from FREN 1031, FREN 1302, FREN 1311, FREN 1312 towards these elective credits.

Electives can be chosen from the cluster courses or the following:
- FREN 1031 - Modern Studies: The Modern Body in France [SS] (4 cr)
- FREN 1302 - French Cinema [IP] (4 cr)

FREN 1311 - Sub-Saharan Francophone Cinema [IP] (4 cr)
FREN 1312 - Morocco: History, Story, Myth [IP] (4 cr)
FREN 3112 - Advanced Language Studies: Introduction to French Phonetics [HUM] (4 cr)
FREN 3xxx, 4xxx

French Minor

Courses for Admission

Beginning French
Beginning French I and II or equivalent previous language experience required to take intermediate French.

Minor Requirements
Students are required to take 4 semester(s) of French. Students are strongly encouraged to study abroad. Up to 6 credits towards a French minor may be earned abroad and/or transferred from another college/university. Students who wish to apply more than 6 such credits to the French minor must petition the French faculty for approval. Decisions will be made on an individual basis.

No courses taught in English may count toward the French minor.

No grades below C- are allowed. Courses may not be taken S-N unless offered S-N only.

A minimum GPA of 2.00 is required in the minor to graduate. The GPA includes all, and only, University of Minnesota coursework.

Grades of “F” are included in GPA calculation until they are replaced.

Required Courses
- FREN 3001 - Conversation and Composition [IP] (4 cr)
- FREN 3011 - Reading and Analysis of Texts [HUM] (4 cr)

Elective Courses
Take 16 or more credits from the following:
- FREN 2001 - Intermediate French I [IP] (4 cr)
- FREN 2002 - Intermediate French II [IP] (4 cr)
- FREN 3112 - Advanced Language Studies: Introduction to French Phonetics [HUM] (4 cr)
- FREN 3402 - Early Modern Studies: Pre-Enlightenment Culture in France [HIST] (4 cr)
- FREN 3502 - Modern Studies: Revolution, Romanticism, Modernity [HUM] (4 cr)
- FREN 3503 - Modern Studies: Avant-Garde, Existentialism, Experimentation [HUM] (4 cr)
- FREN 3505 - Modern Studies: The Old Regime and New Ideas: The French Enlightenment [HIST] (4 cr)
- FREN 3506 - Modern Studies: Media Representation(s), Immigration, and Identity in Migrant Literature [HIST] (4 cr)

Francophone Studies (FRS)
These courses examine the literature, film, history and cultures of French-speaking populations living in Africa, North America, the Caribbean, South America, Europe, and Asia.

Take 4 or more credits from the following:
- FREN 1311 - Sub-Saharan Francophone Cinema [IP] (4 cr)
- FREN 1312 - Morocco: History, Story, Myth [IP] (4 cr)
- FREN 3602 - Francophone Studies: Francophone Worlds [IP] (4 cr)
- FREN 3603 - Francophone Studies: Contes francophones [IP] (4 cr)
- FREN 3604 - Francophone Studies: L’Amerique francophone [HUM] (4 cr)
- FREN 3605 - Francophone Studies: Le Cinema du Maghreb [IP] (4 cr)
- FREN 3606 - Francophone Studies: Sub-Saharan Francophone Cinema [IP] (4 cr)

FREN 3xxx, 4xxx

Teacher Preparation Requirements
Students seeking teaching licensure in French K–12 should refer to the Education, Secondary (SeEd) section of this catalog.

Required Proficiency/Placement Examination—Students who plan to complete courses in the same language they studied in high school must take the proficiency/placement examination and abide by the placement recommendation. If, after an initial exposure to the recommended course, the placement seems inappropriate, students may follow the recommendation of their language instructor as to the proper entry course.
French Course Descriptions

FREN 1001. Beginning French I. (4 cr; fall, every year)
An introduction to oral and written French, its basic structure, and to French culture.

FREN 1002. Beginning French II. (FL; 4 cr; prereq 1001 or placement or #; spring, every year)
Continuation of 1001.

FREN 1021. July in Paris I: French Language and Culture in Paris. (IP; 4 cr; A-F only; summer, odd years)
Four weeks of intensive beginning French language and culture at the Sorbonne, Paris IV; guided visits to cultural and historical sites. UMM July in Paris course for students with no French experience or less than one semester of college-level French. Does not satisfy FL Gen Ed requirement. See also Fren 1023 and 3060: July in Paris II and III: French Language and Culture in Paris.

FREN 1023. July in Paris II: French Language and Culture in Paris. (FL; 4 cr; A-F only; prereq 1001 or placement; summer, odd years)

FREN 1031. Modern Studies: The Modern Body in France. (SS; 4 cr; prereq or coreq 3011 or #; fall, spring, offered periodically)
Beginning with Vesalius, this course examines how the notions of body and mind have been shaped and reshaped in tandem with the rise of the sciences in France, with emphasis on evolving conceptions of ability and disabilities. Taught in English. Meets Modern Studies (MOS) requirement in the French major.

FREN 1302. French Cinema. (IP; 4 cr; does not count towards the Fren minor; fall, spring, offered periodically)
The history of filmmaking in France from the Lumière brothers to the present; introduction to major trends in film theory. All films have English subtitles. Taught in English. Meets Modern Studies (MOS) requirement for the French major.

FREN 1311. Sub-Saharan Francophone Cinema. (IP; 4 cr; does not count toward the Fren minor; fall, spring, offered periodically)
Introduction to the history of cinema in French-speaking West Africa. Students learn to read African films, to recognize and analyze political themes in the films, and to become sensitive to issues facing many African nations in the postcolonial world. All films have English subtitles. Taught in English. Meets Francophone Studies (FRS) requirement for the French major.

FREN 1312. Morocco: History, Story, Myth. (IP; 4 cr; A-F only; does not count toward the Fren minor; summer, offered periodically)
Study of the ways that history, myth, and storytelling intertwine to create Moroccan identity and of the different methods of telling stories through oral literature, weaving, ceramics, and music. Students learn about current concerns and successes in Moroccan society. Taught in English. Meets Francophone Studies (FRS) requirement for the French major.

FREN 1993. Directed Study. (1-5 cr [max 10 cr]; prereq approved directed study form; fall, spring, every year)
An on- or off-campus learning experience individually arranged between a student and a faculty member for academic credit in areas not covered in the regular curriculum.

FREN 2001. Intermediate French I. (IP; 4 cr; prereq 1002 or placement or #; fall, every year)
Review of the essential structural patterns of the French language; continued development of oral, aural, reading, and writing skills based on cultural and literary texts appropriate to this level.

FREN 2002. Intermediate French II. (IP; 4 cr; prereq 2001 or placement or #; spring, every year)
Review of the essential structural patterns of the French language; continued development of oral, aural, reading, and writing skills based on cultural and literary texts appropriate to this level.

FREN 2993. Directed Study. (1-5 cr [max 10 cr]; prereq approved directed study form; fall, spring, every year)
An on- or off-campus learning experience individually arranged between a student and a faculty member for academic credit in areas not covered in the regular curriculum.

FREN 3001. Conversation and Composition. (IP; 4 cr; prereq 2002 or placement or #; fall, every year)
Conversation, including work on sounds and sound patterns as well as vocabulary building and practice based on common situations; writing skills; and advanced grammar review.

FREN 3011. Reading and Analysis of Texts. (HUM; 4 cr; prereq 3001 or #; spring, every year)
Introduction to representative literary works of France and the French-speaking world. Development of ease in reading French; introduction to methods for analyzing its style and meanings.

FREN 3060. July in Paris III: French Language and Culture in Paris. (IP; 4 cr or [max 8 cr]; A-F only; prereq 1002 or equiv; summer, odd years)
Four weeks of intermediate or advanced French-language study at the Sorbonne, Paris IV; guided visits to cultural and historical sites. UMM July in Paris course for students who have had a minimum of one year of college-level French. See also Fren 1021 and Fren 1023: July in Paris I and II: French Language and Culture in Paris.

FREN 3112. Advanced Language Studies: Introduction to French Phonetics. (HUM; 4 cr; open to all students of French; no credit for students who have received cr for Fren 4011; fall, spring, offered periodically)
Training in French pronunciation through general and French phonetics geared towards speakers of American English.

FREN 3113. Advanced Language Studies: Theme et Version. (HUM; 4 cr; prereq or coreq 3011 or #; no credit for students who have received cr for Fren 4011; spring, odd years)
The art of translation applied to everyday discourse, literary texts, and a number of professional fields: journalism, international business, and political, social, and natural sciences with a particular emphasis on specialized vocabularies and advanced grammar and syntax.

FREN 3114. Advanced Language Studies: Advanced French Grammar. (HUM; 4 cr; prereq or coreq 3011 or #; no credit for students who have received cr for Fren 4012; spring, even years)
Refinement of grammar. Students gain a deeper understanding of the functionality of the French language through a study of French grammar and through applied and historical linguistics.

FREN 3402. Early Modern Studies: Pre-Enlightenment Culture in France. (HIST; 4 cr; prereq or coreq 3011 or #; no credit for students who have received cr for Fren 3022; fall, spring, offered periodically)
This course traces the history of French culture from the Middle Ages until the French Revolution; it examines the geography, language, and institutions of medieval and early modern France. Meets Early Modern Studies (EMS) requirement in French major.

FREN 3406. Early Modern Studies: Representations of Suicide and the Death Wish in the Middle Ages and Today. (HUM; 4 cr; prereq or coreq 3011; spring, offered periodically)
Theories from cultural and religious studies, anthropology, history, psychology, and sociology combine to approach suicide in society and in literature. Readings: Durkheim, Freud, Laplanche, Bataille, Chrétien's Lancelot, Partonopeus, Le Roman de Troie, troubadour lyric, Aquasain et Nicolette, Legenda Aurea, Saint Augustine, Ovid's Metamorphoses.

FREN 3501. Modern Studies: The Old Regime and New Ideas: The French Enlightenment. (HIST; 4 cr; prereq or coreq 3011 or #; no credit for students who have received cr for Fren 3039; fall, spring, offered periodically)
Explores the absolutism of Louis XIV and the rise of modern secular thinking in the French literature and philosophy of the Enlightenment, with particular attention given to shifting notions of freedom, agency, and one's place within society and relationship to others. Meets Modern Studies (MOS) requirement for the French major.

FREN 3502. Modern Studies: Revolution, Romanticism, Modernity. (HUM; 4 cr; prereq or coreq 3011 or #; no credit for students who have received cr for Fren 3037; fall, spring, offered periodically)
Examines the emergence of Romanticism, Modernity, Realism, and Naturalism in a historical context shaped by the successive
revolutions of 1789, 1815, 1830, 1848, and 1870; industrialization; the rise of a middle class; advances in technology and medicine; and the centrality of images and the popular press in daily life in France. Meets Modern Studies (MOS) requirement in French major.

FREN 3503. Modern Studies: Avant-Garde, Existentialism, Experimentation. (HUM; 4 cr; prereq or coreq 3011 or #; no credit for students who have received cr for Fren 3038; fall, spring, offered periodically)

From la belle époque through two world wars and the civil unrest of 1968; from France's efforts to come to terms with its colonial past to its role within the European Union, from Proust to Pennac, this course examines French history, culture and literary movements of the past century to the present day. Meets Modern Studies (MOS) requirement in French major.

FREN 3505. Modern Studies: Media Representation(s), Immigration, and Identity in Migrant Literature. (HIST; 4 cr; prereq or coreq 3011 or #; spring, offered periodically)

Examination of the history that gives rise to Caribbean, Maghrebi, and West African authors who address and respond to media representations of immigrant minorities in France and the effects of this dialogue on the creation of cultural, social, and national identities within these communities.

FREN 3602. Francophone Studies: Francophone Worlds. (IP; 4 cr; prereq or coreq 3011 or #; no credit for students who have received cr for Fren 3041; fall, spring, offered periodically)

Readings in a variety of cultural and literary texts from among French-language writers of Africa, the Caribbean, Asia, North America, and Europe; study of issues of national identity, race, gender, and postcolonial consciousness. Meets Francophone Studies (FRS) requirement in French major.

FREN 3603. Francophone Studies: Contes francophones. (IP; 4 cr; prereq or coreq 3011 or #; no credit for students who have received cr for Fren 3042; fall, spring, offered periodically)

Study of the oral tale in African and Caribbean cultures. Examination of the form of these tales, their thematic structure, and how these tales have been translated into written and/or cinematographic texts. Meets Francophone Studies (FRS) requirement in French major.

FREN 3604. Francophone Studies: L’Amerique francophone. (HUM; 4 cr; prereq or coreq 3011 or #; no credit for students who have received cr for Fren 3044; fall, spring, offered periodically)

Survey of literary texts and movements in Francophone North America, including Quebec and Louisiana, as well as the history of French exploration of the New World. A discussion of the cultural tensions that have threatened and continue to shape Francophone identity in North America. Meets Francophone Studies (FRS) requirement in French major.

FREN 3605. Francophone Studies: Le Cinema du Maghreb. (IP; 4 cr; prereq or coreq 3011 or #; fall, offered periodically)

A study of Algerian, Tunisian, and Moroccan history and culture as presented through the art of cinema. Examination of films produced in the francophone Maghreb thematically, focusing on topics such as colonialism, gender, Islam, childhood, and immigration. An important goal is to learn to analyze and discuss film academically. Meets Francophone Studies (FRS) requirement in French major.

FREN 3606. Francophone Studies: Sub-Saharan Francophone Cinema. (IP; 4 cr; prereq or coreq 3011 or #; fall, spring, offered periodically)

Introduction to the history of cinema in French-speaking West Africa. Students learn to read African films, to recognize and analyze political themes in the films, and to become sensitive to issues facing many African nations in the postcolonial world. Meets Francophone Studies (FRS) requirement in French major.

FREN 3993. Directed Study. (1-5 cr [max 10 cr]; prereq approved directed study form; fall, spring, every year)

An on- or off-campus learning experience individually arranged between a student and a faculty member for academic credit in areas not covered in the regular curriculum.

FREN 4901. Senior Seminar. (4 cr; prereq completion of 32 credits toward the French major; must be taken on campus; spring, every year)

A capstone experience for majors, consisting of a substantial scholarly or creative work (at the undergraduate level) within the discipline. Conducted as a seminar.

FREN 4991. Independent Study in French Abroad. (IP; 4 cr [max 12 cr]; prereq 2002 or #; 3022 or 3032 or 3041 recommended; fall, spring, offered periodically)

An independent study designed for study abroad and based on the student's research interests in French or Francophone language, culture, history, etc. The project is defined in consultation with a French faculty member before the student leaves the United States. The faculty member guides the project via email.

FREN 4993. Directed Study. (1-5 cr [max 10 cr]; prereq approved directed study form; fall, spring, every year)

An on- or off-campus learning experience individually arranged between a student and a faculty member for academic credit in areas not covered in the regular curriculum.

---

Gender, Women, and Sexuality Studies (GWSS)

Division of the Social Sciences

This is an interdisciplinary program housed in the Division of the Social Sciences. The program is administered by the Gender, Women, and Sexuality Studies (GWSS) coordinator who is a faculty member of any of the four divisions.

Gender and sexuality are urgent contemporary issues that impact the culture, politics, and economics of American and international societies. Because such issues affect nearly every professional field and avenue of inquiry, GWSS students engage critically with theoretical and practical models from across the disciplines.

Objectives—To explore the implications and intersections of gender and sexuality across disciplinary, chronological, and geographical barriers. Through diverse methodologies and critical paradigms, students explore the impact of gender and sexuality in their own lives and in the world around them.

Gender, Women, and Sexuality Studies Major

Students interested in the major should meet with their adviser before the beginning of their junior year.

Students develop a coherent program of study in consultation with their adviser. In developing an elective plan, students are also strongly encouraged to consult with faculty who teach within the GWSS program.

No grades below C- are allowed. Courses may not be taken S-N, unless offered S-N only.

A minimum GPA of 2.00 is required in the major to graduate. The GPA includes all, and only, University of Minnesota coursework. Grades of "F" are included in GPA calculation until they are replaced.

Required Courses

Note: Some of the courses required for the major carry prerequisites.

ENGL 2031 - Gender in Literature and Culture [HDIV] (4 cr)

GWSS 1101 - Introduction to Gender, Women, and Sexuality Studies [HDIV] (4 cr)

GWSS 4901 - Gender, Women, and Sexuality Studies Capstone (1 cr)

SOC 3121 - Sociology of Gender and Sexuality [HDIV] (4 cr)

Elective Requirements

Students must fill the remaining 27 credits with courses from the following lists. These courses must come from at least three different disciplines. A course not listed below may be applied to the elective requirement with the consent of the instructor and GWSS coordinator.

With the approval of the GWSS coordinator, up to 8 credits can be supplied by internship experiences.

Primarily Gender, Women, and Sexuality Content

Take 19 or more credits from the following:

AMIN 3452 - American Indian Women [HDIV] (4 cr)

ANTH 2202 - Men and Masculinities [SS] (4 cr)

ANTH 3602 - Women in Latin America [IP] (4 cr)
Primarily Gender, Women, and Sexuality Content
Take 16 or more credits from the following:

- AMIN 3452 - American Indian Women [HDIV] (4 cr)
- ANTH 2202 - Men and Masculinities [SS] (4 cr)
- ANTH 3652 - Women in Latin America [IP] (4 cr)
- ARTH 3281 - Women and Art [FA] (4 cr)
- ENGL 2031 - Gender in Literature and Culture [HDIV] (4 cr)
- ENGL 3332 - African American Women Writers [HDIV] (4 cr)
- ENGL 3414 - Feminist Theory [HDIV] (4 cr)
- GWSS 3001 - Troubling Genders in African Cinema [HUM] (4 cr)
- GWSS 3414 - Feminist Theory [HDIV] (4 cr)
- GWSS 3993 - Directed Study (1-5 cr)
- HISt 1402 - Gender, Women, and Sexuality in American History [HDIV] (4 cr)
- HISt 1815 - Women in the American West [IC] (4 cr)
- HISt 2704 - Gender, Women, and Sexuality in Medieval Europe [SS] (4 cr)
- HISt 2708 - Gender, Women, and Sexuality in Modern Europe [IP] (4 cr)
- HISt 3707 - Gender in East Asia [HDIV] (4 cr)
- PHIL 2141 - Analytic Feminism [HUM] (4 cr)
- POL 3503 - Women in Politics Worldwide [IP] (4 cr)
- PSY 3221 - Behavioral Biology of Women [SCI] (4 cr)
- PSY 3261 - Human Sexuality [SS] (4 cr)
- SOC 3252 - Women in Muslim Society [IP] (4 cr)
- SOC 3602 - Women in Latin America [IP] (4 cr)
- SPAN 3654 - Seminar: Sex, Love, and Marriage in Golden Age Spanish Literature [HUM] (4 cr)

Partial Gender, Women, and Sexuality Content
Take at most 8 credits from the following:

- ECON 4101 - Labor Economics I [HDIV] (2 cr)
- ENGL 3142 - The Rise of the Novel [HUM] (4 cr)
- ENGL 3154 - 19th-Century British Fiction [HUM] (4 cr)
- ENGL 3168 - Victorian Literature and Culture [HUM] (4 cr)
- ENGL 3301 - U.S. Multicultural Literature [HDIV] (4 cr)
- ENGL 3522 - Harlem Renaissance [HDIV] (4 cr)
- ENGL 4031 - Research Seminar: Renaissance Romance [HUM] (4 cr)
- ENGL 4034 - Research Seminar: The Adventure Novel in American and British Literature [HUM] (4 cr)
- FREN 1031 - Modern Studies: The Modern Body in France [SS] (4 cr)
- FREN 1302 - French Cinema [IP] (4 cr)
- FREN 1311 - Sub-Saharan Francophone Cinema [IP] (4 cr)
- FREN 3602 - Francophone Studies: Francophone Worlds [IP] (4 cr)
- FREN 3603 - Francophone Studies: Contes francophones [IP] (4 cr)
- PHIL 2112 - Professional Ethics [E/CR] (4 cr)
- PSY 3404 - Culture and Human Development [HDIV] (4 cr)
- PSY 3542 - Multicultural Psychology [HDIV] (4 cr)
- SOC 2101 - Systems of Oppression [HDIV] (4 cr)
- SOC 3112 - Sociology of the Environment and Social Development [ENVT] (4 cr)
- SOC 3122 - Sociology of Childhoods [HDIV] (4 cr)
- SOC 3123 - Sociology of Aging [HDIV] (4 cr)
- SOC 3141 - Sociology of Deviance [E/CR] (4 cr)

Gender, Women, and Sexuality Studies Minor
Students develop a coherent program of study in consultation with their adviser. In developing an elective plan, students are strongly encouraged to consult with faculty who teach within the GWSS program.

No grades below C- are allowed. Courses may not be taken S-N, unless offered S-N only.

A minimum GPA of 2.00 is required in the minor to graduate. The GPA includes all, and only, University of Minnesota coursework. Grades of “F” are included in GPA calculation until they are replaced.

Required Courses

- GWSS 1101 - Introduction to Gender, Women, and Sexuality Studies [HDIV] (4 cr)

Elective Requirements

Students must fill the remaining 20 credits with courses from the following lists. These courses must come from at least three different disciplines. A course not listed below may be applied to the elective requirement with the consent of the instructor and GWSS coordinator.
and networks, men’s socialization, male sexuality and fertility, male aggression and violence, the idea of machismo, intimacy and friendship among males, fatherhood, men’s experiences with sports and work, media representations of boys and men, and the social construction of masculinities in different historical and cultural contexts. Helps students understand how masculinity as a social concept affects their relationships with the people in their lives, approaching gender problems in a rational way, and developing cultural sensitivity toward masculinity issues.

ANTH 3602. Women in Latin America. (IP: 4 cr; [SOC 3602]; prereq 1111 or Soc 1101 or #; spring, every year)
Same as Soc 3602. Study of the social, economic, and political positions of women in Latin American countries. Topics include class and ethnic differences, women in the labor force, and women’s participation in political movements through the lens of feminist theory.

ARTH 3281. Women and Art. (FA; 4 cr; prereq any 1xxx ArtH course or jr status or #; fall, odd years)
A historical survey of women's roles as creators and patrons of the visual arts in Western European and American societies, from antiquity to the present.

ECON 4101. Labor Economics I. (HDIV; 2 cr; prereq 2301 or #; fall, every year)
Wage and employment determination. Distribution of earnings and earnings inequality by race and sex. Labor supply applications.

ENGL 2031. Gender in Literature and Culture. (HDIV; 4 cr; prereq 1601 (or 1011) or equiv; fall, spring, offered periodically)
Introduction to literary and cultural representations of gender. Emphasis on the intersections between power and the social relations of gender, race, class, and sexuality.

ENGL 3142. The Rise of the Novel. (HUM; 4 cr; prereq 2501 (or 1131), two from 2201, 2202, 2211, 2212; spring, offered periodically)
The 18th-century origins of the British novel: experiments with the new form, influence of earlier genres, evolution of formal realism. Authors may include Austen, Burney, Fielding, Richardson, and Sterne.

ENGL 3154. 19th-Century British Fiction. (HUM; 4 cr; prereq 2501 (or 1131), two from 2201, 2202, 2211, 2212; fall, spring, offered periodically)
The rise of the novel to respectability and prominence in Britain from the Romantics to the Victorians.

ENGL 3168. Victorian Literature and Culture. (HUM; 4 cr; prereq 2501 (or 1131), two from 2201, 2202, 2211, 2212, or #; spring, every year)
Studies an array of 19th-century literary forms, including fiction, poetry, drama, and prose, in their social and political contexts.

ENGL 3301. U.S. Multicultural Literature. (HDIV; 4 cr; prereq 2501 (or 1131), two from 2201, 2202, 2211, 2212, or #; spring, offered periodically)
Examination of literatures by African American, American Indian, Asian American, Chicana/o, U.S. Latino/a, and other under-represented peoples.

ENGL 3332. African American Women Writers. (HDIV; 4 cr; prereq 1601 (or 1011) or equiv or #; fall, offered periodically)
If African Americans struggled to achieve equality and recognition in the racist United States, the situation was even more difficult for prominent African American women. This course examines the writings of prominent African American women.

ENGL 3414. Feminist Theory. (HDIV; 4 cr; [GWSS 3414]; prereq 2501 (or 1131), two from 2201, 2202, 2211, 2212) or [GWSS 1101]; fall, spring, offered periodically)
Same as GWSS 3414. Engages students in a critical examination of several influential works participating in the elaboration of feminist theories. Readings and discussions focus on a series of themes and issues—gender, sexuality, race, class, language, bodies, etc.—and how these issues bear upon society.

ENGL 3522. Harlem Renaissance. (HDIV; 4 cr; prereq 2501 (or 1131), two from 2201, 2202, 2211, 2212; fall, even years)
During the 1920s, there was a major aesthetic outpouring in the African American community. Listen to jazz, examine African American art, and read poetry, short stories, novels and essays from Harlem Renaissance writers.

ENGL 4031. Research Seminar: Renaissance Romance. (HUM; 4 cr; prereq two from 31xx-35xx; #; fall, offered periodically)

ENGL 4034. Research Seminar: The Adventure Novel in American and British Literature. (HUM; 4 cr; prereq two from 31xx-35xx; #; fall, odd years)
Survey of adventure fiction in the Anglo-American tradition from Walter Scott through the mid 20th century, paying particular attention to themes that shaped this tradition, including imperialism and revisions of masculine identity.

FREN 1301. Modern Studies: The Modern Body in France. (SS; 4 cr; prereq or coreq 3011 or #; fall, spring, offered periodically)
Beginning with Vesalius, this course examines how the notions of body and mind have been shaped and reshaped in tandem with the rise of the sciences in France, with emphasis on evolving conceptions of ability and disabilities. Taught in English. Meets Modern Studies (MOS) requirement in the French major.

FREN 1302. French Cinema. (IP; 4 cr; does not count toward the Fren minor; fall, spring, offered periodically)
The history of filmmaking in France from the Lumiere brothers to the present; introduction to major trends in film theory. All films have English subtitles. Taught in English. Meets Modern Studies (MOS) requirement for the French major.

FREN 1311. Sub-Saharan Francophone Cinema. (IP: 4 cr; does not count toward the Fren minor; fall, spring, offered periodically)
Introduction to the history of cinema in French-speaking West Africa. Students learn to read African films, to recognize and analyze political themes in the films, and to become sensitive to issues facing many African nations in the postcolonial world. All films have English subtitles. Taught in English. Meets Francophone Studies (FRS) requirement for the French major.

FREN 3602. Francophone Studies: Francophone Worlds. (IP; 4 cr; prereq or coreq 3011 or #; no credit for students who have received cr for Fren 3041; fall, spring, offered periodically)
Readings in a variety of cultural and literary texts from among French-language writers of Africa, the Caribbean, Asia, North America, and Europe; study of issues of national identity, race, gender, and postcolonial consciousness. Meets Francophone Studies (FRS) requirement in French major.

FREN 3603. Francophone Studies: Contes francophones. (IP; 4 cr; prereq or coreq 3011 or #; no credit for students who have received cr for Fren 3042; fall, spring, offered periodically)
Study of the oral tale in African and Caribbean cultures. Examination of the form of these tales, their thematic structure, and how these tales have been translated into written and/or cinematographic texts. Meets Francophone Studies (FRS) requirement in French major.

GWSS 1101. Introduction to Gender, Women, and Sexuality Studies. (HDIV; 4 cr; fall, every year)
This course introduces students to the theoretical concepts and impact of gender and sexuality in everyday life. Various feminist, queer, and other gender-oriented theories are considered and employed as students explore how definitions of femininity, masculinity, and sexuality have been created, maintained, negotiated, and resisted. Particular attention is paid to the complicated relationships between individuals and social systems, and to the ways in which class, race, ethnicity, age, and other identity categories intersect with definitions and representations of gender and sexuality.

GWSS 3001. Troubling Genders in African Cinema. (HUM; 4 cr; fall, spring, offered periodically)
This course explores the ways in which Sub-Saharan African film directors have used cinematic arts to challenge and envision paradigms of feminine, masculine and queer identity. Students will study African models of womanist thought and how they work with, through and against various “Western” models of gender. All films have English subtitles.

GWSS 3414. Feminist Theory. (HDIV; 4 cr; [ENGL 3414]; prereq 1101) or [Engl 2501 (or 1131), two from 2201, 2202, 2211, 2212]; fall, spring, offered periodically)
Same as Engl 3414. Engages students in a critical examination of
Several influential works participating in the elaboration of feminist theories. Readings and discussions focus on a series of themes and issues—gender, sexuality, race, class, language, bodies, etc.—and how these issues bear upon society.

GWSS 3993. Directed Study. (1-5 cr [max 10 cr]; prereq approved directed study form; fall, spring, every year)

An on- or off-campus learning experience individually arranged between a student and a faculty member for academic credit in areas not covered in the regular curriculum.

GWSS 4901. Gender, Women, and Sexuality Studies Capstone . (1 cr; A-F only; prereq completion of 32 cr in women's studies; fall, spring, every year)

This course requires a theoretical analysis paper, in which students analyze and reflect on their academic coursework and own intellectual autobiography. Students are expected to consider and apply feminist, queer, and/or other gender-oriented theoretical approaches in this final paper. This course also requires a portfolio and a presentation and panel discussion. Students can work with any faculty teaching GWSS courses.

HIST 1402 Gender, Women, and Sexuality in American History (HDIV; 4 cr; fall, spring, offered periodically)

Themes and methods in the history of women in the United States. Topics may include women in the colonial era; American Indian, African American, and immigrant women; sex roles; women and work, family, politics, the law, and religion.

HIST 1815 Women in the American West (IC; 4 cr; prereq new college student in their first semester of enrollment at UMM; fall, offered periodically)

An overview of how women historically have profoundly shaped and given meaning to the development of the American frontier and the American West. Examine women of all backgrounds, representing all areas and time periods in the "frontier" regions and the American West. In addition to women, focus is on themes of gender, class, race, ethnicity, sexuality, and environment. Look at gender as a system of power relations that has been integral to the shaping of politics, public policy, and economy in the U.S. West.

HIST 2704. Gender, Women, and Sexuality in Medieval Europe. (SS; 4 cr; spring, odd years)

Analysis of the history of European women and gender systems as constructed during the Middle Ages (c. 500-1500).

HIST 2708. Gender, Women, and Sexuality in Modern Europe. (IP; 4 cr; fall, spring, offered periodically)

Examination of the forces that have shaped the lives of European women since 1600 and analysis of how changes in the structures of power and authority—religious, political, social, and familial—affected the choices available to them. Students engage critically with the question of what bringing gender to the forefront of the study of European history has to teach them. Students gain an understanding of many of the underpinnings of American society, which has been deeply affected by European patterns of thought about women and their place in the world.

HIST 3707. Gender in East Asia. (HDIV; 4 cr; fall, spring, offered periodically)

Study of the changing perceptions of gender in East Asia from its earliest written records until the present. Special emphasis on the changing role of women in East Asia. Exploration of the way gendered discourse affected broader understandings of society, politics, the economy, and culture. Background in East Asian history, while preferred, is not required.

PHIL 2112. Professional Ethics. (E/CR; 4 cr; fall, every year)

A critical examination of moral issues that arise in a person's professional life. Possible topics include affirmative action, autonomy in the workplace, ethical issues in advertising, corporate responsibility, coercive wage offers, distributive justice, and sexual harassment. Issues concerning race, gender, and women are included in selected modules.

PHIL 2141. Analytic Feminism. (HUM; 4 cr; spring, offered periodically)

Applies an analytical approach to issues discussed in feminist writings. A mixture of lecture and discussion. Requirements include essay exams, papers, attendance, service-learning projects with related reflective journals, and class participation.

POL 3503. Women in Politics Worldwide. (IP; 4 cr; prereq 1201 or #; spring, odd years)

Examines the ways gender influences politics throughout the world. Topics covered include: the "gender gap" and voter turnout, women's involvement in linkage organizations, such as parties and interest groups, and finally policy outcomes regarding women in different kinds of political systems.

PSY 3051. The Psychology of Women and Gender. (HDIV; 4 cr; prereq 1051 or #; spring, every year)

Exploration of the interactive biological, psychological, and socio-cultural processes that shape the lives of women and the experience of gender. Topics include: the psychobiology of sex; the social construction of sex and gender; socialization and development; media representations; identity and sexuality; language and communication; motivation and personality; relationships; work and family lives; mental and physical health; mid- and later life development; victimization; therapy; intersections of race, class, and gender; and feminist approaches to teaching, learning, and knowing.

PSY 3221. Behavioral Biology of Women. (SCI; 4 cr; prereq (3201 or 3211) or Biol 2111 or #; spring, odd years)

Exploration of proximate and ultimate influences on female behavior in human and nonhuman species. Topics include sexual differentiation, gender differences in cognition, biological basis of sexual orientation, female sexual selection, dominance, and other topics of interest to students. Readings consist of primary journal articles.

PSY 3261. Human Sexuality. (SS; 4 cr; prereq 1051, 2001; no credit for students who have received cr for Psy 1071; fall, every year)

Survey of aspects of human sexuality, including intimacy and communication; male and female anatomy, physiology, and response; development of sexual differentiation, gender identity, gender role, and gender orientation; varieties of sexual expression; pregnancy and child birth; contraception and disease prevention; sexual coercion and abuse; sexual dysfunctions and their treatment.

PSY 3404. Culture and Human Development. (HDIV; 4 cr; prereq 1051; spring, every year)

Examination of the role of culture in human development through current research and examples from around the world. Learn about similarities and cultural differences in human development, and the regularities that explain these variations. Topics include the concept of culture in developmental psychology, diversity in child rearing practices, enculturation, gender roles, schooling, development in multicultural contexts, and the influence of technology and cultural change on development. Students learn to think culturally about their own development and see how it applies to their future careers.

PSY 3542. Multicultural Psychology. (HDIV; 4 cr; [=PSY 3541]; prereq 1051; fall, every year)

Theoretical and methodological approaches to multicultural psychology. Multicultural psychology is the systematic study of behavior, cognition, and affect settings where people of different backgrounds interact. Exploration of these interactions both within and outside of the United States. Topics may include worldviews, communication styles, acculturation, prejudice, white privilege, identity development, physical and mental health, and multicultural competencies.

SOC 2101. Systems of Oppression. (HDIV; 4 cr; prereq 1101 or Anth 1111 or #; fall, every year)

Patterns of group dominance, exploitation, and hate in the United States and globally. Emphasis on sexism, racism, and classism with some attention to other systems of oppression such as heterosexism and ageism.

SOC 3112. Sociology of the Environment and Social Development. (ENVT; 4 cr; prereq 1101 or #; fall, odd years)

Introduces students to the sociological study of the environment and social development. Examines the impact of international environmental and development efforts on individuals at the local level. Focuses on grassroots environmental activism and social development work. Explores and discusses power relations and systems of inequality within the context of environmental and social development efforts.
SOC 3121. Sociology of Gender and Sexuality. (HDIV; 4 cr; prereq 1101 or Anth 1111 or #; spring, even years) Introduces students to the sociological study of gender and sexuality. Focuses on gender difference and gender inequality. Examines the changing roles, opportunities, and expectations of women and men as their societies (and subsequently, gender relations and power) undergo change in today's world. Following a theoretical overview, examines how gender and sexuality affect everyday experiences.

SOC 3122. Sociology of Childhoods. (HDIV; 4 cr; prereq 1101 or #; spring, even years) Introduces students to the sociological study of childhoods. Examines the interaction between societies and their youngest members—how societies shape children's lives through social institutions such as families, education, and the state. Takes a close look at children's access to privileges and resources as determined by children's experiences of race, gender, class, nationality, and sexual orientation.

SOC 3123. Sociology of Aging. (HDIV; 4 cr; prereq 1101; spring, every year) An introduction to sociology of aging. Examination of the major theories of social aging as well as the historical and cross-cultural variations in aging and differences by race, ethnicity, gender, and social class.

SOC 3141. Sociology of Deviance. (E/CRI; 4 cr; prereq 1101 or #; fall, every year) Introduces students to the sociological study of deviance. Explores the social reality of deviance within contemporary society and examines the social construction of deviant categories. Focuses on images of deviance as social constructs, rather than as intrinsic elements of human behavior. Investigates the complex relationships between individual behavior and social structure, with a focus on power, inequality, and oppression. Also, examines the socio-cultural definitions of morality and behavior.

SOC 3252. Women in Muslim Society. (IP; 4 cr; prereq 1101 or Anth 1111; spring, offered periodically) The cultures and social statuses of women in several Muslim countries are examined and placed in their political, economic, and religious contexts.

SOC 3602. Women in Latin America. (IP; 4 cr; = [ANTH 3602]; prereq 1101 or Anth 1111 or #; spring, every year) Same as Anth 3602. Study of the social, economic, and political positions of women in Latin American countries. Topics include class and ethnic differences, women in the labor force, and women's participation in political movements through the lens of feminist theory.

SPAN 3654. Seminar: Sex, Love, and Marriage in Golden Age Spanish Literature. (HUM; 4 cr; prereq 3012, 3112 or #; fall, offered periodically) The theme of sex, love, and marriage in Golden Age Spanish Literature through prose, poetry, and theatre of the Golden Age (XVI-XVII centuries) Spain. Consideration of the gender relations and gender politics reflected in the works and the socio-historical context in which these works were produced.

Geography (Geog) Division of the Social Sciences

Objectives—Geography courses focus on basic concepts of the field and deal with both societal relationships and the physical environment. Geog 2001 satisfies the geography requirement for students seeking secondary school teaching licensure in the social sciences.

Geography Course Descriptions

GEOG 2001. Problems in Geography. (ENVT; 4 cr; spring, every year) Basic concepts and questions in the field of geography. The terminology and approaches of geographical inquiry and analysis, with emphasis on the spatial patterns and arrangements of human interaction with the landscape and the production of geographical knowledge.

GEOG 3501. Geographic Information Systems. (ENVT; 4 cr; prereq any 1xxx course in social or natural sciences; fall, spring, offered periodically) The theory and practice of Geographic Information Systems. Topics include data models, spatial statistics, and cartographic modeling. Special emphasis on social and environmental applications. (two 65-minute lect, one 120-minute lab session per week)

Geology (Geol)
Division of Science and Mathematics

Geology offers courses that satisfy a variety of requirements, as well as a curriculum leading to a bachelor of arts degree in geology.

Objectives—The geology curriculum serves those interested in a broader knowledge of their natural environment and the geological sciences as part of their liberal arts education; provides a firm foundation in geology, related sciences, and mathematics for students interested in the investigation and solution of geologic problems; prepares students for graduate study in the geosciences and related areas; provides the necessary background in earth science for those who plan to teach in this field at the secondary level; and serves those in other professional or interdisciplinary programs who need geology as a related subject.

Geology Major

Up to 8 credits of coursework with a grade of D or D+ may be used to meet the major requirements if offset by an equivalent number of credits of A or B. Courses may not be taken S-N unless offered S-N only. A minimum GPA of 2.00 is required in the major to graduate. The GPA includes all, and only, University of Minnesota coursework. Grades of "F" are included in GPA calculation until they are replaced.

Students intending to pursue graduate studies in the geological sciences should take CSCI 1301, GEOL 2151, MATH 1102, and PHYS 1101.

Required Courses
CHEM 1101 - General Chemistry I [SCI-L] (4 cr)
CHEM 1102 - General Chemistry II [SCI-L] (4 cr)
GEOL 1101 - Physical Geology [SCI-L] (4 cr)
GEOL 2101 - Mineralogy and Crystallography [SCI-L] (4 cr)
GEOL 2111 - Igneous and Metamorphic Petrology [SCI-L] (4 cr)
GEOL 2121 - Sedimentology and Stratigraphy [SCI-L] (4 cr)
GEOL 3101 - Structural Geology [SCI-L] (4 cr)
GEOL 4901 - Geology Senior Seminar (1 cr)
GEOL 4902 - Geology Senior Seminar Presentations (1 cr)
MATH 1021 - Survey of Calculus [M/SR] (4 cr) or MATH 1101 - Calculus I [M/SR] (5 cr)
Completion of approved Geology Field Camp (6 cr)

Elective Courses
Take 10 or more credits from the following:
GEOL 2131 - Geomorphology [SCI] (4 cr)
GEOL 2141 - Glacial and Quaternary Geology [SCI] (4 cr)
GEOL 2161 - GIS and Remote Sensing [SCI] (4 cr)
GEOL 3001 - Global Tectonics [SCI] (4 cr)
GEOL 3111 - Introduction to Paleontology [SCI-L] (4 cr)
GEOL 3401 - Geophysics [SCI] (4 cr)
GEOL 3501 - Hydrology [SCI] (4 cr)
GEOL 4130 - Advanced Geomorphology (4 cr)
GEOL 4140 - Advanced Glacial and Quaternary Geology (4 cr)
GEOL 3993 - Directed Study (1-5 cr) or GEOG 4993 - Directed Study (1-5 cr)

Recommended for graduate studies:
GEOL 2151 - Historical Geology: Earth History and Changing Scientific Perspectives [SCI-L] (4 cr)
Additional Electives
Courses must be chosen in consultation with a geology adviser.
*Take 7 or more credits from the following:
   - BIOL 1xxx, 2xxx, 3xxx, 4xxx
   - CHEM 1xxx, 2xxx, 3xxx, 4xxx
   - CSCI 1xxx, 2xxx, 3xxx, 4xxx
   - MATH 1xxx, 2xxx, 3xxx, 4xxx
   - NSCI 1xxx, 2xxx, 3xxx, 4xxx
   - PHYS 1xxx, 2xxx, 3xxx, 4xxx
   - STAT 1xxx, 2xxx, 3xxx, 4xxx
   - ECSI 2xxx, 3xxx

Geology Minor
Up to 8 credits of coursework with a grade of D or D+ may be used to meet the minor requirements if offset by an equivalent number of credits earning a grade of A or B. The GPA in these courses must be at least 2.00.

Minor Required Courses
   - GEOL 1101 - Physical Geology [SCI-L] (4 cr)
   - GEOL 2101 - Mineralogy and Crystallography [SCI-L] (4 cr)
   - GEOL 2111 - Igneous and Metamorphic Petrology [SCI-L] (4 cr)
   - GEOL 2121 - Sedimentology and Stratigraphy [SCI-L] (4 cr)
   - CHEM 1101 - General Chemistry I [SCI-L] (4 cr)
   - CHEM 1102 - General Chemistry II [SCI-L] (4 cr)

Elective Courses
*Take 8 or more credits from the following:
   - GEOL 2131 - Geomorphology [SCI] (4 cr)
   - GEOL 2141 - Sedimentology and Stratigraphy . (4 cr; may not count toward the geol major or minor; fall, offered periodically)
   - GEOL 2151 - Historical Geology: Earth History and Changing Scientific Perspectives [SCI-L] (4 cr)
   - GEOL 2161 - GIS and Remote Sensing [SCI] (4 cr)
   - GEOL 3001 - Global Tectonics [SCI] (4 cr)
   - GEOL 3101 - Structural Geology [SCI-L] (4 cr)
   - GEOL 3111 - Introduction to Paleontology [SCI-L] (4 cr)
   - GEOL 3401 - Geophysics [SCI] (4 cr)
   - GEOL 3501 - Hydrology [SCI] (4 cr)
   - GEOL 4130 - Advanced Geomorphology (4 cr)
   - GEOL 4140 - Advanced Glacial and Quaternary Geology (4 cr)

Take at most 3 credits from the following:
   - GEOL 2993 - Directed Study (1-5 cr)
   - GEOL 3993 - Directed Study (1-5 cr)
   - GEOL 4993 - Directed Study (1-5 cr)

Teacher Preparation Requirements
Students seeking teaching licensure in earth and space science 9–12 should refer to the Education, Secondary (SeEd) section of this catalog.

Geology Course Descriptions
GEOL 1001. Environmental Geology: Geology in Daily Life. (SCI; 4 cr; may not count toward the geol major or minor; spring, every year)
- Effects of volcanoes, earthquakes, and floods on humans and civilization; geologic problems associated with rural and urban building, waste management, and waste disposal; the importance of geologic knowledge in the discovery of fossil fuels and mineral resources. (4 hrs lect)

GEOL 1011. Geology of the National Parks. (SCI; 4 cr; may not count toward the geol major or minor; fall, offered periodically)
- Exploration of the fundamental aspects of the geosciences: earth materials, geologic time, plate tectonics, and the evolution of landscapes by examining the geology and geologic history of the U.S. national parks. (4 hrs lect)

GEOL 1012. Oceanography. (SCI; 4 cr; may not count toward geol major or minor; fall, offered periodically)
- Physiography and geological evolution of ocean basins; marine sedimentation; coastal processes and environments; chemical evolution, and chemical and physical properties of seawater; ocean-atmosphere interactions; deep-ocean circulation; waves and tides; marine ecosystems. (4 hrs lect)

GEOL 1101. Physical Geology. (SCI-L; 4 cr; fall, spring, every year)
- Introduction to the materials that make up the Earth and the structures, surface features, and geologic processes involved in its origin and development. Lab work includes study of the major constituents of the Earth's crust, including the important rocks and minerals; study of surface and geologic features using aerial photographs, topographic maps, and satellite imagery. (3 hrs lect, 3 hrs lab)

GEOL 1993. Directed Study. (1-5 cr [max 10 cr]; prereq approved directed study form; fall, spring, every year)
- An on- or off-campus learning experience individually arranged between a student and a faculty member for academic credit in areas not covered in the regular curriculum.

GEOL 2001. Natural and Unnatural Geologic Hazards. (ENVT; 4 cr; spring, offered periodically)
- Examination of the more significant interactions between humans and geologic environments and processes. Earthquake and volcanic hazards, river flooding, mass movements and slope stability, coastal hazards, and water resources and pollution. Lectures and problems sets emphasize the quantitative approach used to determine the likelihood and frequency of natural hazards, assess associated risks, and mitigate damage.

GEOL 2101. Mineralogy and Crystallography. (SCI-L; 4 cr; prereq 1101, Chem 1101 or #; fall, every year)
- Classification, identification, physical and chemical properties, origin and natural occurrence of major mineral groups. Lab study of crystal systems by use of models; laboratory work on classification, composition, and mutual chemical and physical chemical testing. (3 hrs lect, 6 hrs lab and field trips)

GEOL 2111. Igneous and Metamorphic Petrology. (SCI-L; 4 cr; prereq 2101; spring, every year)
- Classification, composition, genesis, and natural occurrence of igneous and metamorphic rocks; lab study and identification of rocks by various macroscopic, microscopic, and chemical means. (3 hrs lect, 6 hrs lab and field trips)

GEOL 2121. Sedimentology and Stratigraphy. (SCI-L; 4 cr; prereq 2101; fall, every year)
- Processes of sedimentation, including origin, transportation, and deposition of sediments; interpretation of sedimentary environments. Principles of stratigraphy and their applications. Lab work includes sedimentary particle analysis; stratigraphic sections; and interpretation of ancient sedimentary environments based on stratified sequences of sedimentary rock. (3 hrs lect, 3 hrs lab and field trips)

GEOL 2131. Geomorphology. (SCI; 4 cr; prereq 1101; fall, every year)
- Study of the Earth's surface and surficial processes; weathering, erosion, and deposition, and the resulting landforms and products; the history of the study of landforms in the United States. (3 hrs lect, 3 hrs lab and field trips)

GEOL 2141. Glacial and Quaternary Geology. (SCI; 4 cr; prereq 1101; spring, odd years)
- Glaciers, glaciology, glacial deposition, glacial erosion; climatic change and the growth and advance of ice sheets; effect of glaciations on flora and fauna. (3 hrs lect, 3 hrs lab and field trips)

GEOL 2151. Historical Geology: Earth History and Changing Scientific Perspectives. (SCI-L; 4 cr; fall, odd years)
- Development of fundamental theories and principles of geology, including stratigraphy, uniformitarianism, geologic time, evolution, and plate tectonics. Emphasis on how geological thought has evolved through time as the scientific, religious, and political climate has changed. Discussion of the Earth's history and science's changing views of the Earth; continental movements, mountain building, and the evolution and development of organisms and ecosystems. Lab experience on methods of interpreting Earth's history from rocks, fossils, and structures and solving geological problems. (3 hrs lect, 3 hrs lab)

GEOL 2161. GIS and Remote Sensing. (SCI; 4 cr; prereq 1101 or Biol 1101 or Biol 1111 or #; spring, every year)
- Introduction to design, development, and application of Geographic Information Systems (GIS); overview of acquisition and utility of satellite data and imagery; emphasis on applications in Earth and environmental sciences; lab component focuses on practical aspects of GIS development and use and involves original semester projects designed and implemented by individual students.
University of Minnesota Morris 2013-15 Catalog

GEOL 2301. Geology of Minnesota. (SCI-L; 4 cr; summer, offered periodically)
Active, hands-on learning both in class and on class field trips to selected localities throughout the state. Field trips include: Pipestone National Monument; glacial geology of west-central Minnesota; geology of the Minnesota River Valley; and St. Cloud Quarry Park.

GEOL 2993. Directed Study. (1-5 cr [max 10 cr]; prereq approved directed study form; fall, spring, every year)
An on- or off-campus learning experience individually arranged between a student and a faculty member for academic credit in areas not covered in the regular curriculum.

GEOL 3001. Global Tectonics. (SCI; 4 cr; prereq #; fall, spring, offered periodically)
Internal structure and composition of the earth; geometry and motion of lithospheric plates; geological and geophysical processes at plate boundaries; evolution of mountain belts; heat flow, thermal convection, and the driving mechanism for plate movement.

GEOL 3006. X-ray Diffraction Techniques for the Identification of Clay Minerals in Geologic Environments. (2 cr; prereq 1101; spring, offered periodically)
Introduction to clay mineralogy, discussion of the significance of clay minerals in physicochemical and biological processes that occur in terrestrial and marine environments, and the application of X-ray diffraction in the identification and analysis of clays in different geologic environments.

GEOL 3011. Earth Resources. (ENVT; 4 cr; prereq any 1xxx or 2xxx Geol course or #; fall, offered periodically)
Geology of mineral (base metals, precious metals, and non-metals), energy (fossil fuels, uranium, and alternatives), and other (water and soil) resources; overview of techniques for resource identification, delineation, and extraction; discussion of issues (e.g., environmental, political, and social) surrounding resource identification, extraction, and use; global resource distribution, historical trends, and future outlook.

GEOL 3101. Structural Geology. (SCI-L; 4 cr; prereq 2111 or #; spring, every year)
Elementary concepts of stress and strain, theory of rock deformation; description and classification of structures in the Earth’s crust; application of geometric, analytical, and map interpretation techniques to solving structural problems; field mapping problems. (3 hrs lect, 3 hrs lab and field trips)

GEOL 3111. Introduction to Paleontology. (SCI-L; 4 cr; prereq 2151 or Biol 2101 or EnSt 2101 or #; fall, even years)
An introduction to the study of the evolutionary history of life on earth as revealed in the fossil and geologic record. Laboratory focuses on study of the classification, morphology, and paleoecology of invertebrate fossils. (two 65-min lect, one 3-hr lab, and weekend collecting trip required)

GEOL 3401. Geophysics. (SCI; 4 cr; prereq Math 1101, Phys 1101 or #; fall, odd years)
Propagation of seismic waves, earthquake seismology, and the structure of the Earth; the origin and nature of the Earth’s magnetic and gravitational fields; the Earth’s internal production and flow of heat; composition, state, and rheology of the Earth’s interior; plate tectonics and elementary geodynamics. (4 hrs lect)

GEOL 3501. Hydrology. (SCI; 4 cr; prereq Math 1101 or #; fall, every year)
An examination of the hydrological cycle; evapotranspiration and precipitation; processes of infiltration; rainfall-runoff relationships and the generation of overland flow; response of the drainage basin to storm events; flood-frequency analysis; elements of groundwater flow and evaluation of aquifer characteristics; water quality, contamination, and contaminant transport. (4 hrs lect)

GEOL 3502. Groundwater. (ENVT; 4 cr; prereq 1101 or #; spring, odd years)
The origin, occurrence, and availability of groundwater, aquifer geology and groundwater resources, chemical character of groundwater and groundwater pollution, groundwater wells and well design, and groundwater as a geologic agent. (3 hrs lect, 3 hrs lab and field trips)

GEOL 3993. Directed Study. (1-5 cr [max 10 cr]; prereq approved directed study form; fall, spring, every year)
An on- or off-campus learning experience individually arranged between a student and a faculty member for academic credit in areas not covered in the regular curriculum.

GEOL 4130. Advanced Geomorphology. (4 cr [max 8 cr]; prereq 2131; spring, offered periodically)
Surficial processes and the resulting landforms; may include catastrophic events, large lakes, arid regions geomorphology or the evolution of the Badlands. (3 hrs lect, 3 hrs lab and field trips)

GEOL 4140. Advanced Glacial and Quaternary Geology. (4 cr [max 8 cr]; prereq 2141; fall, odd years)
Glacial geology and glacial history; may include pre-paleoistocene glaciations, quaternary stratigraphy, or subglacial processes. (3 hrs lect, 3 hrs lab and field trips)

GEOL 4901. Geology Senior Seminar. (1 cr; prereq #; required for geol major; fall, every year)
Capstone experience in Geology. Discussion of selected topics of geologic interest.

GEOL 4902. Geology Senior Seminar Presentations. (1 cr; prereq #; required for geol major; spring, every year)
Capstone experience in geology. Presentations of research projects.

GEOL 4993. Directed Study. (1-5 cr [max 10 cr]; prereq approved directed study form; fall, spring, every year)
An on- or off-campus learning experience individually arranged between a student and a faculty member for academic credit in areas not covered in the regular curriculum.

German Studies (Ger)
Division of the Humanities
This is an interdisciplinary program housed in the Division of the Humanities. The program is administered by the German studies coordinator and the chair of the Division of the Humanities.

The German studies curriculum includes the language, literature, and culture of German-speaking countries. The courses are designed to promote a global perspective by encouraging students to take a close look at another culture and in this way become aware of both the diversity and similarity among all people. The courses satisfy general education and major/minor requirements and prepare students for graduate study and future careers.

Objectives—In the core courses for the German studies major, students develop a number of skills in German—including comprehension and speaking, and reading and writing—which prepare them to communicate effectively in German about everyday situations, literature, and culture. On all levels, students gain an awareness of the structure of languages and facility with the German idiom, enabling them to read and write reports and papers. In literature courses, students learn aesthetic appreciation through the interpretation of texts and to organize their thoughts for effective argumentation. Elective courses in German studies give students an interdisciplinary perspective, complementing the core courses in German with courses in history, art history, architecture, economics, music, film, and other fields relevant to German culture. Study abroad is strongly recommended to increase fluency and proficiency in the German language. The German studies program prepares its graduates for careers in business, history, political science, medicine, music, art history, psychology, philosophy, theology, and law, among others. Several courses in the natural sciences, if supplemented with readings in German, may also be applied toward the German studies major.
Study Abroad
In light of today's increasingly interdependent world, the UMM German faculty strongly encourages study abroad in combination with a German Studies major or minor, as the most effective means by which to:

* improve language abilities
* broaden academic horizons
* globalize one's world view
* expand career opportunities
* advance cross-cultural and problem-solving skills
* gain confidence in oneself personally and professionally

Study in Austria and Germany—Students interested in a foreign study experience may spend a semester or a full year in Berlin (Humboldt University), Vienna (Center for Central European Studies), or Freiburg (University of Freiburg) through the Institute of European Studies. Language prerequisites vary for individual programs. Internships are available at all of them. Through the Learning Abroad Center, students may also participate in bilateral exchanges to Austria and Karl Franzens University in Graz and with the University of Salzburg.

German Studies Major
Selection of electives must be intentional and done in close consultation with a German studies adviser. Students must submit an elective plan (preferably by the end of sophomore year), to be reviewed and approved by the German studies coordinator and the chair of the Division of the Humanities.

Selection of electives must be intentional and done in close consultation with a German studies adviser. Students must submit an elective plan (preferably by the end of sophomore year), to be reviewed and approved by the German studies coordinator and the chair of the Division of the Humanities.

Elective plans must be designed to ensure that there is sufficient depth of coverage in the chosen German studies electives. For many students, a double-major (or minor) in a closely related disciplinary major is desirable. For some majors, electives can be selected in such a way that many of the courses in a coherent German studies elective plan also count toward the second major. An advising sheet is recommended for course combinations and areas of focus will be available to students and faculty involved.

In addition to the requirements for the major, students are encouraged to complete at least one year of instruction in another foreign language.

No grades below C- are allowed. Courses may not be taken S-N unless offered S-N only.

A minimum GPA of 2.00 is required in the major to graduate. The GPA includes all, and only, University of Minnesota coursework.

Required Courses
GER 2001 - Intermediate German I [IP] (4 cr)
GER 2002 - Intermediate German II: German Culture and Civilization [IP] (4 cr)
GER 2011 - Intermediate German II: German Conversation and Composition [IP] (4 cr)
GER 3011 - Readings in German [IP] (4 cr)
GER 3010 - Survey of German Literature and Culture I [HUM] (4 cr)
GER 3012 - Survey of German Literature and Culture II [HUM] (4 cr)

Selection of Elective Courses
Other elective courses, not listed below, may be appropriate to add depth and provide more theoretical context for the German studies coursework (requires written approval of the course instructor and the program coordinator).

At least 12 of the 16 elective credits must be from upper division (3xxx or 4xxx) courses and 4 or more upper division elective credits must be either in German courses or in courses where some work is done in German (3xxx-4xxx German or Partial German Electives).

Elective Courses
Courses listed under the "3xxx-4xxx German and Partial GermanElectives" heading that are outside of the German discipline (e.g., ARTH 3132) require written approval of the course instructor and the program coordinator prior to registration.

Take 16 or more credits from the following:

1xxx-2xxx Electives
Take at most 4 credits from the following:

ENGL 3444 - Holocaust Literature and Film [IP] (4 cr)
HIST 2103 - Medieval Europe [HIST] (4 cr)

3xxx-4xxx German and Partial German Electives
Take 4 or more credits from the following:

ARTH 3101 - Art and Archaeology of Ancient Greece [FA] (4 cr)
ARTH 3111 - Art and Archaeology of Ancient Rome [FA] (4 cr)
ARTH 3132 - Castles and Cathedrals [FA] (4 cr)
GER 3041 - New German Cinema [IP] (4 cr)
GER 3201 - Periods: German Classicism [HUM] (4 cr)
GER 3202 - Periods: German Romanticism [HUM] (4 cr)
GER 3203 - Periods: German Modernism [IP] (4 cr)
GER 3601 - Studies in German Literature [HUM] (4 cr)
GER 3611 - Austrian Studies [HUM] (4 cr)
HIST 3101 - Renaissance and Reformation [HIST] (4 cr)
HIST 3204 - Nazi Germany [HIST] (4 cr)
HIST 3209 - Modern Germany [HIST] (4 cr)

German-related Content Electives
Exclusive of those used above
Take at most 8 credits from the following:

ECON 3009 - Political Economy [SS] (4 cr)
ECON 3211 - History of Economic Thought I [HIST] (2 cr)
ECON 3212 - History of Economic Thought II [HIST] (2 cr)
ENGL 4004 - Research Seminar: Old English Literature and Language [HUM] (4 cr)
HIST 3101 - Renaissance and Reformation [HIST] (4 cr)
HIST 3204 - Nazi Germany [HIST] (4 cr)
HIST 3209 - Modern Germany [HIST] (4 cr)
PHIL 4002 - Existentialism [HIST] (4 cr)

Supplemental Electives
Take at most 4 credits from the following:

ARTH 3211 - Early Modernist Art: Symbolism to Surrealism [FA] (4 cr)
ARTH 3281 - Women and Art [FA] (4 cr)
ENGL 3021 - Grammar and Language [HUM] (4 cr)
ENGL 3411 - Critical Approaches to Literature [HUM] (4 cr)
MUS 3101 - Core Studies III: Medieval, Renaissance, and Baroque Music [HIST] (4 cr)
MUS 3102 - Core Studies III: Classical, Romantic, and 20th-Century Music [FA] (4 cr)

German Studies Minor
Required Courses
GER 2001 - Intermediate German I [IP] (4 cr)
GER 2002 - Intermediate German II: German Culture and Civilization [IP] (4 cr)
GER 2011 - German Conversation and Composition [IP] (4 cr)
GER 3011 - Readings in German [IP] (4 cr)
GER 3012 - Survey of German Literature and Culture I [HUM] (4 cr)
GER 3010 - Survey of German Literature and Culture II [HUM] (4 cr)

Selection of Elective Courses
Other elective courses, not listed below, may be appropriate to add depth and provide more theoretical context for the German studies coursework (requires written approval of the course instructor and the program coordinator).

At least 4 of the 8 elective credits must be upper division German courses or in courses where some work is done in German (3xxx-4xxx German or Partial German Electives).

Elective Courses
Courses listed under the "3xxx-4xxx German and Partial German Electives" heading that are outside of the German discipline (e.g.,
ARTh 3132) require written approval of the course instructor and the program coordinator prior to registration.

Take 8 or more credits from the following:

3xxx-4xxx German and Partial German Electives

Take 4 or more credits from the following:

ARTh 3101 - Art and Archaeology of Ancient Greece [FA] (4 cr)
ARTh 3111 - Art and Archaeology of Ancient Rome [FA] (4 cr)
ARTh 3132 - Castles and Cathedrals [FA] (4 cr)

HIST 3209 - Modern Germany [HIST] (4 cr)

German-related Content Electives

Exclusive of those used above:

Take at most 4 credits from the following:

ARTh 1121 - Renaissance to Modern Art [FA] (4 cr)
ECON 3009 - Political Economy [SS] (4 cr)
ECON 3211 - History of Economic Thought I [HIST] (2 cr)
ECON 3212 - History of Economic Thought II [HIST] (2 cr)
ENGL 3444 - Holocaust Literature and Film [IP] (4 cr)
ENGL 4004 - Research Seminar: Old English Literature and Language [HUM] (4 cr)
HIST 2103 - Medieval Europe [HIST] (4 cr)
HIST 3101 - Renaissance and Reformation [HIST] (4 cr)
HIST 3204 - Nazi Germany [HIST] (4 cr)
HIST 3209 - Modern Germany [HIST] (4 cr)
PHIL 4002 - Existentialism [HIST] (4 cr)

Required Proficiency/Placement Examination—Students who plan to complete courses in the same language they studied in high school must take the proficiency/placement examination and abide by the placement recommendation. If, after an initial exposure to the recommended course, the placement seems inappropriate, students may follow the recommendation of their language instructor as to the proper entry course.

German Studies Course Descriptions

ARTh 1121. Renaissance to Modern Art. (FA; 4 cr; spring, every year)
Survey of the major works of art of western Europe and the United States from 1400 to the present.

ARTh 3101. Art and Archaeology of Ancient Greece. (FA; 4 cr; prereq any 1xxx ArtH course or jr status or #; fall, odd years)
Beginning with the Bronze Age civilizations of the Aegean (Minoan, Cycladic, and Mycenaean), this course follows the development of the painting, sculpture, and architecture of ancient Greece, concentrating on the classical period in Athens and the Hellenistic period in the Mediterranean.

ARTh 3111. Art and Archaeology of Ancient Rome. (FA; 4 cr; prereq any 1xxx ArtH course or jr status or #; spring, odd years)
An in-depth study of Roman art and archaeology beginning with the Villanovans and Etruscans who preceded the Romans and ending with the rise of Early Christian art. Concentration on the public and political art of the various emperors.

ARTh 3132. Castles and Cathedrals. (FA; 4 cr; prereq any 1xxx ArtH course or jr status or #; spring, odd years)
An investigation of the two major forms of architectural construction in the Middle Ages. Exploration of the development of the cathedral and castle as architectural forms and examination of the circumstances surrounding their evolution through the medieval period. Examples are drawn from continental Europe, the British Isles, and the Levant.

ARTh 3201. 19th-Century European Art through Post-Impressionism. (FA; 4 cr; prereq any 1xxx ArtH course or jr status or #; fall, odd years)
Survey of major movements from Neoclassicism through Romanticism, Realism, and Impressionism to Post-Impressionism. Attention is given to iconographical and formal analysis as well as to the social conditions in which artists lived and worked.

ARTh 3211. Early Modernist Art: Symbolism to Surrealism. (FA; 4 cr; prereq any 1xxx ArtH course or jr status or #; spring, odd years)
Survey of the major early modernist movements from Symbolism through Cubism, Futurism, Expressionism, Constructivism, De Stijl, and the Bauhaus to Surrealism. Attention is given to theories of modern art as well as to formal and iconographical analyses and to the social conditions in which modern art was created and experienced.

ARTh 3281. Women and Art. (FA; 4 cr; prereq any 1xxx ArtH course or jr status or #; fall, odd years)
A historical survey of women's roles as creators and patrons of the visual arts in Western European and American societies, from antiquity to the present.

ECON 3009. Political Economy. (SS; 4 cr; #[ECON 3004, ECON 3003]; prereq 1111, 1112 or #; spring, offered periodically)
The historical evolution, methodological relevance, and basic structure of the modern capitalist economy, including the dynamics of capital accumulation, economic crisis, transformation and regulating mechanism of contemporary capitalism, and hegemonic tendency of economy over polity and other aspects of life in contemporary society.

ECON 3211. History of Economic Thought I. (HIST; 2 cr; prereq 1111, 1112; fall, every year)
The origin and development of economic thought from Mercantilism through the classical school. Among others, Adam Smith and Karl Marx are featured. Nature of economics as a social science through the study of its historical development.

ECON 3212. History of Economic Thought II. (HIST; 2 cr; prereq 3211 or #; fall, every year)
The development of economic thought from Marx and the end of the classical school, through the development of more modern approaches. In addition to the demise of classical thought, a selection from the thinkers who contributed to the foundations of modern microeconomics and/or macroeconomics is covered. Nature of economics as a social science, through the study of its historical development.

ENGL 3411. Critical Approaches to Literature. (HUM; 4 cr; #prereq 2501 (or 1131), two from 2201, 2202, 2211, 2212; fall, offered periodically)
An introduction to the major schools of literary theory and cultural analysis; particular attention to the ways in which the dialogue and debate between these approaches define the discipline of literary criticism.

ENGL 3444. Holocaust Literature and Film. (IP; 4 cr; prereq 1011 or equiv; fall, even years)
Survey of Holocaust literature and film, focusing on works that clarify the political ideology that led so many to participate in the murder of two-thirds of Europe's Jews and that articulated what Jews suffered during the Nazi era.

ENGL 4004. Research Seminar: Old English Literature and Language. (HUM; 4 cr; prereq two from 31xx-35xx. #; fall, spring, offered periodically)
Prose and poetry of early medieval England (650-1100) in translation and in Old English (which is studied), with attention to material (manuscripts) and cultural contexts and to reception history.

GER 1001. Beginning German I. (4 cr; fall, every year)
Introduction to German as it is spoken and written presently. The course acquaints students with the basic sounds, structures, and vocabulary of German and enables them to understand, read, and write the language and to communicate in German about everyday situations. It makes them aware of the relationship between culture and language.

GER 1002. Beginning German II. (FL; 4 cr; prereq 1001 or placement or #; spring, every year)
Continuation of 1001.
GER 1993. Directed Study. (1-5 cr [max 10 cr]; prereq approved directed study form; fall, spring, every year)
An on- or off-campus learning experience individually arranged between a student and a faculty member for academic credit in areas not covered in the regular curriculum.

GER 2001. Intermediate German I. (IP; 4 cr; prereq 1002 or placement or #; fall, every year)
The skills of listening, reading, and writing are enforced through grammar review and discussion of modern texts.

GER 2002. Intermediate German II: German Culture and Civilization. (IP; 4 cr; prereq 2001 or #; spring, every year)
A variety of readings in German to examine the historical and contemporary aspects of the culture of German-speaking countries. Students give oral reports and write papers about art, architecture, literature, philosophy, or music. They keep a journal of visits to sites on the World Wide Web relevant to topics such as geography, history, and culture.

GER 2011. German Conversation and Composition. (IP; 4 cr; prereq 1002 or #; may enroll concurrently with 2001; fall, every year)
This course builds on grammar and structure learned in the beginning sequence. Students engage in discussions about daily activities and topics of their interest. Models for writing and speaking are provided in the form of short stories, newspaper articles, and literary excerpts. Visual materials serve as points of departure for conversation and composition.

GER 2993. Directed Study. (1-5 cr [max 10 cr]; prereq approved directed study form; fall, spring, every year)
An on- or off-campus learning experience individually arranged between a student and a faculty member for academic credit in areas not covered in the regular curriculum.

GER 3011. Readings in German. (IP; 4 cr; prereq 2011 or #; may enroll concurrently with 2002; soph or higher recommended; spring, every year)
Students read and analyze modern texts in order to advance their ability to comprehend and discuss various literary styles. This course is a prerequisite for more advanced courses in the major and minor.

GER 3021. German Play. (ART/IP; 4 cr; prereq 2001 or #; fall, spring, offered periodically)
Reading, study, and presentation of a short contemporary play. Enhances fluency and familiarity with the modern German idiom.

GER 3041. New German Cinema. (IP; 4 cr; =HUM 3041; prereq 3011; fall, offered periodically)
Same as Hum 3041. Traces the development of New German Cinema, which began in the 1960s, and continues in the post-unification period. Introduction to films by both East and West German directors who define this national cinema; the cultural, political, and economic context of its production; reference to theories and critiques to provide an overview of German film and culture of the period. Film presentations are in German with English subtitles. Readings and lectures are in English. Final papers are either in German (for German credit) or English (for Humanities credit).

GER 3042. Weimar Film. (IP; 4 cr; =HUM 3042; prereq 3011; spring, offered periodically)
Same as Hum 3042. Development of the German film as expressionist art form. Film as text, film as history, film as aesthetic expression. Film presentations are in German but with English subtitles in most cases. Readings and lectures are in English. Final papers either in German (for German credit) or English (for Humanities credit).

GER 3101. Survey of German Literature and Culture I. (HUM; 4 cr; prereq 3011 or #; fall, every year)
Chronological study of German literature and its cultural background from the early beginnings through the 18th century. Selected representative works are read and analyzed.

GER 3102. Survey of German Literature and Culture II. (HUM; 4 cr; prereq 3011 or #; spring, every year)
Chronological study of German literature and its cultural background from the 18th century to the 20th century. Selected representative works are read and analyzed.

GER 3201. Periods: German Classicism. (HUM; 4 cr; prereq 3101, 3102 or #; spring, odd years)
Readings in aesthetic theory and exemplary works by writers of the period. Texts by Goethe and Schiller are read and analyzed in conjunction with opera librettos based on their works. Modern films and videos of theater performances supplement the readings.

GER 3202. Periods: German Romanticism. (HUM; 4 cr; prereq 3101, 3102 or #; spring, even years)
Readings in Romantic theory and works by important authors of the period: Wackenroder, Tieck, Novalis, Eichendorff, and E.T.A. Hoffmann. Other art forms, such as music and painting, supplement the literary discussions.

GER 3203. Periods: German Modernism. (IP; 4 cr; prereq 3101, 3102 or #; fall, spring, offered periodically)
Explores the culture of German-speaking countries around the turn of the 20th century (1890-1933) through literature, music, and the visual arts, especially as manifested in Symbolism, Secession (Art Nouveau), Expressionism, Dada, and New Objectivity.

GER 3501. Women's Issues in Contemporary German Culture. (IP; 4 cr; =HUM 3501; prereq 3011 or #; spring, offered periodically)
Same as Hum 3501. Focus is on the German women's movement during the 20th century, historical relationship of gender and class, and lives of women from various ethnic backgrounds in Germany and Austria. Short stories, essays, and poems document the evolution of feminist literary theory in German studies. Readings and lectures are in English. Final papers either in German (for German credit) or English (for Humanities credit).

GER 3601. Studies in German Literature. (HUM; 4 cr; prereq 3011; fall, odd years)
Selected readings in German reflecting modern literary trends. The course examines the cultural politics in the evolution of the literature in the former divided Germany, using plays, novels, biography, and documentary reports. It deals with questions of literary theory, history, and socio-political structures.

GER 3611. Austrian Studies. (HUM; 4 cr; prereq 3011 or #; fall, every year)
Selected readings in Austrian Literature from 1875 to 1925, including Marie von Ebner-Eschenbach, Rainer Maria Rilke, Arthur Schnitzler, and Hugo von Hofmannsthal. Historical background for the period through Brigitte Hamann's biography of Empress Elisabeth and/or Rudolph von Habsburg, the modern musical "Elisabeth," as well as the operetta "Die Fledermaus" and Istvan Szabo's film "Oberst Redl."

GER 3993. Directed Study. (1-5 cr [max 10 cr]; prereq approved directed study form; fall, spring, every year)
An on- or off-campus learning experience individually arranged between a student and a faculty member for academic credit in areas not covered in the regular curriculum.

GER 4901. Senior Project. (1-5 cr [max 10 cr]; prereq 3011 or #; fall, spring, every year)
A substantial scholarly or creative work (at the undergraduate level) in conjunction with or upon the completion of another course within the discipline. The senior project is recommended for German majors.

GER 4993. Directed Study. (1-5 cr [max 10 cr]; prereq approved directed study form; fall, spring, every year)
An on- or off-campus learning experience individually arranged between a student and a faculty member for academic credit in areas not covered in the regular curriculum.

HIST 2103. Medieval Europe. (HIST; 4 cr; fall, spring, offered periodically)
Survey of historical developments in Europe from about 500 to 1500.

HIST 3101. Renaissance and Reformation. (HIST; 4 cr; spring, odd years)
Examination of western European history and historiography between 1350 and 1600 with emphasis on cultural "renaissances" and religious "reformations."

HIST 3204. Nazi Germany. (HIST; 4 cr; fall, odd years)
History of Nazi Germany. Social and political origins, Nazi rule in the 1930s, the "final solution," World War II, and Germany's attempt to assess this era in its history.

HIST 3209. Modern Germany. (HIST; 4 cr; spring, odd years)
Examination of German history from the development of German national ideas through unification and consolidation of the modern
History (Hist)
Division of the Social Sciences

Objectives—The history curriculum is designed to introduce students to the study of the human past. Students majoring in history learn to approach decision-making with an awareness of a broad range of choices, learn to think critically and communicate their ideas effectively, learn to integrate their academic study with their intellectual and ethical development, and understand the construction of historical knowledge. The curriculum emphasizes the role of the student as an active learner and encourages individualized learning experiences, including those outside of established coursework, and the development of close working relationships between students and faculty.

History Major

Students should develop a coherent program of study in consultation with their major adviser. The student and adviser must meet to plan the student's course of study and ensure the major encompasses breadth across regions and time periods. The student's plan must involve at least one course prior to 1750, and at least one course each from three of the following areas: Asia, Europe, Middle East/Africa, Latin America, Native America/Indigenous, and United States.

When the student applies for graduation, the adviser reviews the student's course of study to document that the student has successfully demonstrated breadth across regions and time periods in the major.

Prior to the end of the second week of the student's last semester before graduation, the student completes an anonymous online assessment of how well the program of study has enhanced the student's:

* familiarity with range of historical periods and cultures sufficiently broad to allow meaningful exploration of the human experience in varied times and places;
* ability to critically analyze, interpret, and synthesize various types of historical materials;
* insight into the construction of historical knowledge as reflective of personal and social contexts; and
* ability to initiate and pursue a course of historical inquiry.

No grades below C- are allowed. Courses may not be taken S-N, unless offered S-N only.

A minimum GPA of 2.00 is required in the major to graduate. The GPA includes all, and only, University of Minnesota coursework. Grades of "F" are included in GPA calculation until they are replaced.

Required Courses
HIST 1111 - Introduction to World History [HIST] (4 cr)
HIST 3161 - The Study of History: Schools, Rules, and Tools [HIST] (4 cr)
HIST 4501 - Senior Research Seminar in History (4 cr)

Electives
Students must complete 28 credits choosing at least one course prior to 1750, and at least one course each from three of the following areas: Asia, Europe, Middle East/Africa, Latin America, Native America/Indigenous, and United States. Directed Studies (X993) may be used in any of the areas if content is appropriate and approved by their major adviser.

Take 28 or more credits from the following:

History Prior to 1750
These courses fulfill the history prior to 1750 course requirement: Hist 1501, Hist 1601, Hist 2103, Hist 2704, Hist 3006, Hist 3101, Hist 3102, Hist 3207, Hist 3559, Hist 3614, Hist 3704, Hist 3707

Geographical Areas
Take 28 or more credits including exactly 3 sub-requirements(s) from the following:

Asia
HIST 1501 - Introduction to East Asian History: China, Japan, and Korea before 1800. [HIST] (4 cr)
or HIST 2551 - Modern Japan [HIST] (4 cr)
or HIST 2552 - History of Modern China [HIST] (4 cr)
or HIST 3558 - Shanghai: China’s Model of Modernity [IP] (4 cr)
or HIST 3559 - History of Religion in China [HIST] (4 cr)
or HIST 3707 - Gender in East Asia [HDIV] (4 cr)

Europe
HIST 2103 - Medieval Europe [HIST] (4 cr)
or HIST 2151 - Modern Europe [HIST] (4 cr)
or HIST 2704 - Gender, Women, and Sexuality in Medieval Europe [SS] (4 cr)
or HIST 2708 - Gender, Women, and Sexuality in Modern Europe [IP] (4 cr)
or HIST 3101 - Renaissance and Reformation [HIST] (4 cr)
or HIST 3102 - Early Modern Europe [HIST] (4 cr)
or HIST 3161 - The Enlightenment [HIST] (4 cr)
or HIST 3176 - Berlin as a Site of History [HIST] (4 cr)
or HIST 3204 - Nazi Germany [HIST] (4 cr)
or HIST 3207 - The Crusades [IP] (4 cr)
or HIST 3209 - Modern Germany [HIST] (4 cr)
or HIST 3211 - Modern France [HIST] (4 cr)

Middle East/Africa
HIST 3008 - The Making of the Islamic World [HDIV] (4 cr)

Latin America
HIST 1601 - Latin American History: A Basic Introduction [IP] (4 cr)
or HIST 2608 - History of Cuba: From Colony to Revolutionary State [HIST] (4 cr)
or HIST 3601 - Great Books in Latin American History [IP] (4 cr)
or HIST 3612 - Social Revolution in 20th-Century Latin America [HIST] (4 cr)
or HIST 3613 - U.S.-Latin American Relations in Historical Perspective [IP] (4 cr)
or HIST 3614 - Race and Ethnicity in Latin America [HDIV] (4 cr)

Native American/Indigenous
ANTH 3402 - Representations from the Field: American Indian Ethnography and Ethnohistory [HDIV] (4 cr)
or HIST 2251 - American Indians and the United States: A History [HDIV] (4 cr)
or HIST 2451 - The American West [HIST] (4 cr)
or HIST 3359 - Native Strategies for Survival, 1880-1920 [HDIV] (4 cr)
or HIST 3381 - History of American Indian Nationalism and Red Power, 1920-Present [HIST] (4 cr)
or HIST 3402 - Representations from the Field: American Indian Ethnography and Ethnohistory [HDIV] (4 cr)
United States
HIST 1301 - Introduction to U.S. History [HIST] (4 cr)
or HIST 1402 - Gender, Women, and Sexuality in American History [HDIV] (4 cr)
or HIST 2352 - The U.S. 1960s [HIST] (4 cr)
or HIST 2452 - Minnesota History [HIST] (4 cr)
or HIST 3303 - Creation of the American Republic [HIST] (4 cr)
or HIST 3304 - Race, Class, and Gender in American History [HIST] (4 cr)
or HIST 3351 - The U.S. Presidency Since 1900 [SS] (4 cr)
or HIST 3353 - World War II [HIST] (4 cr)
or HIST 3355 - United States in Transition, 1877-1920 [HIST] (4 cr)
or HIST 3356 - Civil Rights Movement, 1954-1974 [HIST] (4 cr)
or HIST 3358 - Civil War and Reconstruction [HIST] (4 cr)
or HIST 3361 - An Environmental and Geographic History of the United States [ENVT] (4 cr)
or HIST 3453 - The American Presidency, 1789-1900 [HIST] (4 cr)
or HIST 3455 - American Immigration [HIST] (4 cr)
or HIST 3456 - History of Religion in America [HIST] (4 cr)
or HIST 3457 - American Biography and Autobiography [HIST] (4 cr)
or HIST 3463 - America's National Landmarks [HIST] (4 cr)

History Minor
No grades below C- are allowed. Courses may not be offered S-N only.
A minimum GPA of 2.00 is required in the minor to graduate. The GPA includes all, and only, University of Minnesota coursework. Grades of "F" are included in GPA calculation until they are replaced.

Required Courses
HIST 1111 - Introduction to World History [HIST] (4 cr)

Electives
An additional 16 credits in history of which 12 credits are at 2xxx or above. There should be evidence of work in at least three (3) of the following areas: Asia, Europe, Middle East/Africa, Latin America, Native America/Indigenous, and United States. Directed Studies (X963) may be used in any of the areas if content is appropriate and approved by their major adviser.

Take 16 or more credits including exactly 3 sub-requirements(s) from the following:

Geographical Areas – 1xxx
Take at most 4 credits from the following:

Asia
HIST 1501 - Introduction to East Asian History; China, Japan, and Korea before 1800. [HIST] (4 cr)

Latin America
HIST 1601 - Latin American History: A Basic Introduction [IP] (4 cr)

United States
HIST 1301 - Introduction to U.S. History [HIST] (4 cr)
or HIST 1402 - Gender, Women, and Sexuality in American History [HDIV] (4 cr)

Geographical Areas – 2xxx or above
Take 16 or more credits from the following:

Asia
HIST 2551 - Modern Japan [HIST] (4 cr)
or HIST 2552 - History of Modern China [HIST] (4 cr)
or HIST 3558 - Shanghai: China's Model of Modernity [IP] (4 cr)
or HIST 3559 - History of Religion in China [HIST] (4 cr)
or HIST 3707 - Gender in East Asia [HDIV] (4 cr)

Europe
HIST 2103 - Medieval Europe [HIST] (4 cr)
or HIST 2151 - Modern Europe [HIST] (4 cr)
or HIST 2704 - Gender, Women, and Sexuality in Medieval Europe [SS] (4 cr)
or HIST 2708 - Gender, Women, and Sexuality in Modern Europe [IP] (4 cr)
or HIST 3101 - Renaissance and Reformation [HIST] (4 cr)
or HIST 3102 - Early Modern Europe [HIST] (4 cr)
or HIST 3161 - The Enlightenment [HIST] (4 cr)
or HIST 3176 - Berlin as a Site of History [HIST] (4 cr)
or HIST 3204 - Nazi Germany [HIST] (4 cr)
or HIST 3207 - The Crusades [IP] (4 cr)
or HIST 3209 - Modern Germany [HIST] (4 cr)
or HIST 3211 - Modern France [HIST] (4 cr)

Middle East/Africa
HIST 3008 - The Making of the Islamic World [HDIV] (4 cr)

Latin America
HIST 2608 - History of Cuba: From Colony to Revolutionary State [HIST] (4 cr)
or HIST 3601 - Great Books in Latin American History [IP] (4 cr)
or HIST 3612 - Social Revolution in 20th-Century Latin America [HIST] (4 cr)
or HIST 3613 - U.S.-Latin American Relations in Historical Perspective [IP] (4 cr)
or HIST 3614 - Race and Ethnicity in Latin America [HDIV] (4 cr)

Native American/Indigenous
ANTH 3402 - Representations from the Field: American Indian Ethnography and Ethnohistory [HDIV] (4 cr)
or HIST 2251 - American Indians and the United States: A History [HIST] (4 cr)
or HIST 2451 - The American West [HIST] (4 cr)
or HIST 3359 - Native Strategies for Survival, 1880-1920 [HDIV] (4 cr)
or HIST 3381 - History of American Indian Nationalism and Red Power, 1920-Present [HIST] (4 cr)
or HIST 3402 - Representations from the Field: American Indian Ethnography and Ethnohistory [HDIV] (4 cr)

United States
HIST 2352 - The U.S. 1960s [HIST] (4 cr)
or HIST 2452 - Minnesota History [HIST] (4 cr)
or HIST 3303 - Creation of the American Republic [HIST] (4 cr)
or HIST 3304 - Race, Class, and Gender in American History [HDIV] (4 cr)
or HIST 3351 - The U.S. Presidency Since 1900 [SS] (4 cr)
or HIST 3353 - World War II [HIST] (4 cr)
or HIST 3355 - United States in Transition, 1877-1920 [HIST] (4 cr)
or HIST 3356 - Civil Rights Movement, 1954-1974 [HIST] (4 cr)
or HIST 3358 - Civil War and Reconstruction [HIST] (4 cr)
or HIST 3361 - An Environmental and Geographic History of the United States [ENVT] (4 cr)
or HIST 3453 - The American Presidency, 1789-1900 [HIST] (4 cr)
or HIST 3455 - American Immigration [HIST] (4 cr)
or HIST 3456 - History of Religion in America [HIST] (4 cr)
or HIST 3457 - American Biography and Autobiography [HIST] (4 cr)
or HIST 3463 - America's National Landmarks [HIST] (4 cr)

Teacher Preparation Requirements
Students seeking teaching licensure in social studies 5–12 should refer to the Education, Secondary (SeEd) section of this catalog.

History Course Descriptions
HIST 1015. Topics and Problems in World History. (HIST; 4 cr [max 8 cr]; A-F only; prerequisite participation in College in the Schools program; fall, spring, every year) Examination of special topics in world history designed for the "College in the Schools" program offered at Morris Area Schools. Course is built around specific topics, such as genocide in the 20th century or global approaches to environmental history, and emphasizes how historians work, pose questions, use sources, and engage in debate.

HIST 1111. Introduction to World History. (HIST; 4 cr [max 8 cr]; A-F only; prerequisite participation in College in the Schools program; fall, spring, every year) Examination of special topics in world history designed for the "College in the Schools" program offered at Morris Area Schools. Course is built around specific topics, such as genocide in the 20th century or global approaches to environmental history, and emphasizes how historians work, pose questions, use sources, and engage in debate.

HIST 1101. Introduction to U.S. History. (HIST; 4 cr; fall, every year) Methods, themes, and problems in the study of American history.
HIST 1402. Gender, Women, and Sexuality in American History. (HDIV; 4 cr; fall, offered periodically) Themes and methods in the history of women in the United States. Topics may include women in the colonial era; American Indian, African American, and immigrant women; sex roles; women and work, family, politics, the law, and religion.

HIST 1501. Introduction to East Asian History: China, Japan, and Korea before 1800. (HIST; 4 cr; fall, offered periodically) Examination of the social, political, economic, technological, and cultural changes in East Asia before 1800. Possible sub-themes include the rise of the Confucian world order, the spread of Buddhism, and East Asian interactions with the outside world. Discussion of changing perceptions of gender.

HIST 1601. Latin American History: A Basic Introduction. (IP; 4 cr; spring, odd years) Methods, themes, and problems in the study of Latin American history.

HIST 1701. Global Indigenous History. (IP; 4 cr; =HIST 1813, AMIN 1701); fall, offered periodically) Same as Amin 1701. Modern technology has transformed our world and has encouraged global nations to become increasingly connected. These international connections contain a unique and exciting history that complicates and enriches our worldview. The movement to gain recognition in the United Nations has prompted Indigenous peoples into a new political awareness of Intertribalism. Acquire an introductory knowledge about Indigenous histories beyond the borders of the United States. Navigating the globe, learn about the Maori of New Zealand, Aboriginal rights in Australia, the great Polynesian, American, and African Empires. Debate complex issues of colonization, gender, sustainability, urbanization, science, law, economics, race, and nationalism. Also investigate contemporary political movements, activism, and art forms employed by Indigenous communities to maintain their life-ways and sovereignty.

HIST 1811. A History of You(th). (IC; 4 cr; =HIST; 4 cr; prereq new college student in their first semester of enrollment at UMM; fall, offered periodically) Why does the behavior of young people attract so much attention and anxiety? Why does the stage between childhood and a fully recognized adulthood carry such significance in our collective consciousness? Engage in a historical analysis of what youth has signified, using source materials from Plato to pop culture. Along the way, engage chronologically with the emergence of the categories of childhood and youth and thematically with the relationship between youth and a multitude of social categories and phenomena (for example, politics, media, consumption, and sexuality). Requires extensive reading, active classroom participation, and the completion of a research project and presentation with both individual and group components.

HIST 1812. FIRE!: An Introductory Seminar to American Environmental History. (IC; 4 cr; =HIST; 4 cr; fall, offered periodically) One of the primary ways in which people have manipulated their environments has been through the burning of fossil fuels. Indigenous people, for instance, used fire to clear land, to improve soil quality, and to drive game. Coal powered the Industrial Revolution and oil provided the energy necessary for the Automobile Age. The impact of using energy in this way is today obvious. This course is organized around the topic of fire and uses this theme to examine core issues in American Environmental History. Topics might include: American Indian peoples and fire, burning and early agriculture, coal and industrialization, the Age of the Automobile, incineration and the problem of waste, and forest arson as a mode of political protest.

HIST 1813. World Indigenous History. (IC; 4 cr; =AMIN 1701, HIST 1701); prereq new college student in their first semester of enrollment at UMM; fall, offered periodically) On September 13, 2007, after sixty years of advocacy, the United Nations General Assembly passed the Declaration on Rights of Indigenous People. This resolution acknowledges the vital role that Indigenous Nations hold in our global community. It is a strict policy for the protection of human rights of over 60 million peoples. This resolution requires United Nations protections and prohibits discrimination against Indigenous populations. Finally, this declaration promotes a controversial first step toward the formal world recognition of Indigenous sovereignty. This new political referendum provides the context for this course, as each week students strive to define and understand World Indigenous History. Throughout the semester students are introduced to the rich and diverse societies, cultures, politics, and histories of global Indigenous communities.

HIST 1815. Women in the American West. (IC; 4 cr; =HIST; 4 cr; fall, offered periodically) An overview of how women historically have profoundly shaped and given meaning to the development of the American frontier and the American West. Examine women of all backgrounds, representing all areas and time periods in the "frontier" regions and the American West. In addition to women, focus is on the themes of gender, class, race, ethnicity, sexuality, and environment. Look at gender as a system of power relations that has been integral to the shaping of politics, public policy, and economy in the U.S. West.

HIST 1816. Explaining the Inexplicable: 20th Century Genocides. (IC; 2 cr; prereq new college student in their first semester of enrollment at UMM; fall, offered periodically) Examination of a couple of the contemporary world's largest and most important dilemmas. Why did we see all the now familiar campaigns of mass murder based on racial and ethnic hatred in the last century, a tide of incredible scientific progress? Why, in addition, have we been so slow to learn from this experience? Why, in short, have we been so unsuccessful in honoring our pledge of "never again"? Through history, memoir, and film, examine these questions and try to understand and answer them from both an historical and a moral perspective.

HIST 2003. Public History. (HIST; 4 cr; spring, offered periodically) Introduction to the many ways historians conduct research and present historical topics to public audiences. Public historians, who typically come from a traditional academic discipline, utilize their knowledge in such public settings as museums, archives, historic sites, historical societies, and federal agencies. Examine a number of themes ranging from oral histories and historical reenactments to websites and electronic media. Explore what is public history, who practices it, the role of audience, the tension between history and memory, and the ethical concerns that influence public history practice. A particular emphasis is the representation of racial and ethnic communities and the controversies that have emerged in public history practice and scholarship about the representation of "the other."

HIST 2103. Medieval Europe. (HIST; 4 cr; fall, spring, offered periodically) Survey of historical developments in Europe from about 500 to 1500.

HIST 2151. Modern Europe. (HIST; 4 cr; fall, spring, offered periodically) History of modern Europe emphasizing political, economic, social, and intellectual developments since 1789.

HIST 2251. American Indians and the United States: A History. (HDIV; 4 cr; spring, every year) The experience of the original Americans and their interaction with later immigrants.

HIST 2352. The U.S. 1960s. (HIST; 4 cr; fall, even years) History of the United States in the 1960s. Backgrounds to the 1960s; political and cultural issues of the decade; the Kennedy promise, civil rights and other movements, Vietnam war, counterculture, conservative backlash, and legacy.

HIST 2451. The American West. (HIST; 4 cr; =HIST 3451; fall, even years) Overview of the history of the American West up to the 21st century. While many scholars have argued that the "West" was merely a necessary process of national expansion, others argue that it is a very significant region--the most culturally and ecologically diverse region in the country. Discussion of these major historical interpretations of the American West and examination of how people have understood this vast region as a cultural icon of national identity. Work through various definitions of the West and identify how political issues of the environment, international borderlands, and gender and race relations have significantly influenced the United States for many generations. Through lectures, readings, and discussion, examine Western history chronologically while also covering other major themes including federalism, the mythic West, tourism, ranching and agriculture, urban and suburban areas, film, and religion.
HIST 2452. Minnesota History. (HIST; 4 cr; fall, spring, offered periodically) Examination of the social, cultural, and political history of Minnesota with emphases on American Indian and European-American conflict, immigration and ethnicity, the development of political culture, and the changing nature of regional identity.

HIST 2551. Modern Japan. (HIST; 4 cr; fall, spring, offered periodically) The history of Japan from the foundation of the Tokugawa Shogunate until the present. Special attention to issues of gender, nationalism, and modernity.

HIST 2552. History of Modern China. (HIST; 4 cr; spring, offered periodically) Study of the history of China from the foundation of the Qing dynasty in the 1600s until the present. Special attention to issues of gender, nationalism, and modernity.

HIST 2608. History of Cuba: From Colony to Revolutionary State. (HIST; 4 cr; fall, spring, offered periodically) A survey of the history of Cuba from Spanish colonization to the present, with emphasis on the 19th and 20th centuries. Topics include colonization, slavery, imperialism, nationalism, and the Cuban Revolution.

HIST 2704. Gender, Women, and Sexuality in Medieval Europe. (SS; 4 cr; spring, odd years) Analysis of the history of European women and gender systems as constructed during the Middle Ages (c. 500-1500).

HIST 2708. Gender, Women, and Sexuality in Modern Europe. (IP; 4 cr; fall, spring, offered periodically) Examination of the forces that have shaped the lives of European women since 1600 and analysis of how changes in the structures of power and authority--religious, political, social, familial--affected the choices available to them. Students engage critically with the question of what bringing gender to the forefront of the study of European history has to teach them. Students gain an understanding of many of the underpinnings of American society, which has been deeply affected by European patterns of thought about women and their place in the world.

HIST 3008. The Making of the Islamic World. (HDIV; 4 cr; fall, even years) Examines the origins, spread, and impact of Islamic civilization from the 6th through 15th centuries with particular emphasis upon political, religious, and intellectual developments.

HIST 3101. Renaissance and Reformation. (HIST; 4 cr; spring, odd years) Examination of western European history and historiography between 1350 and 1600 with emphasis on cultural "renaissances" and religious "reformations."

HIST 3102. Early Modern Europe. (HIST; 4 cr; fall, spring, offered periodically) Survey of historical developments in Europe from about 1350 through the 18th century.

HIST 3161. The Enlightenment. (HIST; 4 cr; spring, odd years) The intellectual ferment of the Enlightenment has been given the credit and the blame for all things modern—from the concept of human rights and the democracies it has engendered to the subversion of those rights in the totalitarian regimes of the 20th century. Exploration of the ideas of the Enlightenment and their political context and attempt to answer the question of how such an important development in human history can be viewed in such contradictory ways.

HIST 3162. The Scottish Enlightenment: Markets, Minds, and Morals. (IP; 4 cr; [PHIL 3162]; summer, offered periodically) Same as Phil 3162. Study of the philosophy and history of the Scottish Enlightenment. Focus on its original setting through analysis and discussion of primary texts and scholarly interpretations, guest lectures, and small-group discussions with recognized experts in the study of the Scottish Enlightenment. Includes visits to historically significant cities and sites.

HIST 3176. Berlin as a Site of History. (HIST; 4 cr; A-F only; summer, offered periodically) A study abroad course focusing on the intersection of space and history in the vibrant city of Berlin, Germany. Themes include Berlin in flows of capital and power, Berlin as a site of everyday life, and Berlin as a site of historical memory and contests over it. No knowledge of German is necessary.

HIST 3181. The Study of History: Schools, Rules, and Tools. (HIST; 4 cr; prereq #: no credit for students who have received cr for Hist 2001; spring, every year) Introduction to historical research methods and 20th-century historiography. How to evaluate and employ primary and secondary sources, to cite evidence, and to develop critical historical arguments in a research project. Exploration of key transformations within the field of history, surveying various schools of thought, and assessing the specific advantages and challenges of the approaches. Topics may include Freudian and Marxist interpretations, the Annales school, quantitative analysis, anthropological and sociological approaches, and gender and postcolonial theory.

HIST 3204. Nazi Germany. (HIST; 4 cr; fall, odd years) History of Nazi Germany. Social and political origins, Nazi rule in the 1930s, the "final solution," World War II, and Germany's attempt to assess this era in its history.

HIST 3207. The Crusades. (IP; 4 cr; spring, even years) Explores the historical contexts and consequences of the European Crusades between the 11th century and early modern period, including the perspective of European Jews, Turkish and Arabic Muslims, and Byzantine and Near Eastern Christians.

HIST 3209. Modern Germany. (HIST; 4 cr; spring, odd years) Examination of German history from the development of German national ideas through unification and consolidation of the modern German state in 1871 and through its re-unification at the end of the 20th century. Examines one of the most fascinating and tumultuous periods in German and European history, why the attempt to understand the German past has occupied so many historians, and why the debates surrounding that attempt have been so contentious. Sources include writings by established historians of Germany, novels, films, and music.

HIST 3211. Modern France. (HIST; 4 cr; fall, even years) Examination of French culture and history from the Revolution (1789) to the present. The ways in which successive governments, from Napoleon's empire through the Fifth Republic, have come to terms with legacies of the Revolution such as national citizenship, individual rights, and the politicization of women.

HIST 3303. Creation of the American Republic. (HIST; 4 cr; fall, spring, offered periodically) Examination of the history of the United States from the beginning of the Seven Years' War in 1754 to the end of the War of 1812. The origins of the nation and the political, cultural, and social changes that accompanied the birth and early years of the American Republic. Focus on the political and social history of the American Revolution. Other topics include women in revolutionary America, the retrenchment of slavery, indigenous people and early Indian policy, religion and revivalism, the constitutional crisis, and the early presidencies.

HIST 3304. Race, Class, and Gender in American History. (HDIV; 4 cr; fall, spring, offered periodically) The themes of race, class, and gender are explored in-depth throughout the semester. Students gain a new awareness about historiography and theories that highlight this growing subfield of American history. Prominent topics covered in lecture and readings include colonization, slavery, suffrage, immigration, sovereignty, labor, ghettoization, art, literature, culture, and the rise of self-determination. Study the intersection of race, class, and gender relations through multiple perspectives of region, ideology, political-economic, and religion.
HIST 3351. The U.S. Presidency Since 1900. (SS; 4 cr; fall, even years) History of the 20th-century U.S. presidency. Brief consideration of the Presidency before 1900, analysis of performance of presidents since 1910 in roles of chief executive, commander-in-chief, chief diplomat, and chief of state during an era of enlarged governmental functions at home and worldwide abroad.

HIST 3353. World War II. (HIST; 4 cr; fall, spring, offered periodically) Origins, political and military aspects of the war in Europe and Asia, domestic mobilization, the Holocaust and Atomic Bomb, aftermath.

HIST 3355. United States in Transition, 1877-1920. (HIST; 4 cr; spring, odd years) Topics, themes, and problems in U.S. history, 1877 to 1920.

HIST 3356. Civil Rights Movement, 1954-1974. (HIST; 4 cr; fall, spring, offered periodically) Background of the Civil Rights movement, emergence of the theory and practice of nonviolence, various Civil Rights groups, role of women, legislative and other accomplishments of the movement, its aftermath and influence.

HIST 3358. Civil War and Reconstruction. (HIST; 4 cr; fall, spring, offered periodically) Origin, context, and significance of the Civil War and Reconstruction.

HIST 3359. Native Strategies for Survival, 1880-1920. (HDIV; 4 cr; fall, odd years) Exploration of the events and policies that sought to eliminate American Indian communities and cultures and the strategies that American Indians developed to survive. Students gain insight into a pivotal time for the "incorporation" of the United States and ongoing tensions between unity and diversity that characterize the nation's political economy and social structure. Paradoxes under scrutiny include the degree to which policies claiming to emancipate actually imprisoned and devolved became homelands.

HIST 3360. American Experience in World War II. (HIST; 4 cr; prereq jr or sr or #; spring, offered periodically) Seven former American Presidents were veterans of World War II and over 175,000 books have been published on this subject alone. Arguably this one event has commanded more attention by writers, filmmakers, and academics than any other modern historical event. For decades historians have also debated the significance of World War II. After the conclusion of the war, the worldwide devastation and loss of life had reached apocalyptic proportions and new military technologies, like the atom bomb, forever altered the American experience. Scientists and intellectuals, such as Albert Einstein, emerged as new celebrities. Literally every sector of American society and culture had been transformed by World War II. Investigate these questions and more throughout the semester. It is important to note that this course is not a strict military history of the European and Pacific campaigns. Instead, the purpose of this class is to challenge students to grapple with the historic origins and legacies of the war.

HIST 3361. An Environmental and Geographic History of the United States. (ENVT; 4 cr; no credit for students who have received cr for Hist 2361; fall, spring, offered periodically) A broad examination of how humans interacted with their natural world throughout American history. Combined emphasis on cultural ecology (the study of how various cultural groups shaped the American landscape) with political ecology (the role of the nation's political economy in driving environmental change). Possible topics include: the Columbian Exchange, European and American Indian conflict, Thoreau and the creation of an environmental ethic, the slaughter of the bison as an ecological tragedy, urbanization and environmental racism, conservation as a political movement and the development of environmental policy, eco-feminism, American religion and the environment, the politics of global climate change.

HIST 3381. History of American Indian Nationalism and Red Power, 1920-Present. (HIST; 4 cr; A-F only; spring, even years) Documents the history of American Indian Nationalism and the origins of the Red Power Movement in the late 1960s. Explores the rise of the Society of American Indians, the Indian Defense Association, National Congress of American Indians, and the rise of the Red Power Movement. Students learn about the changing nature of how the U.S. Government and Native Nations developed into a globalized transnational and intertribal political debate in the 20th century. Provides students with a critical overview of the peoples, places, and events that have impacted Tribal and U.S. relations.

HIST 3402. Representations from the Field: American Indian Ethnography and Ethnohistory. (HDIV; 4 cr; [ANTH 3402]; fall, offered periodically) Same as Anth 3402. An analysis of ethnographic and ethnohistoric materials focusing on specific American Indian cultures.

HIST 3451. Facing West. (HDIV; 4 cr; [HIST 2451]); fall, spring, offered periodically) History of the American West. What is the West to the United States? Examination of the meaning of the West as both place and process for U.S. history; exploring the distinctive role that the West has played in the development of the United States from 1790 to the 21st century. Special emphasis on the interplay between different peoples in the vast and varied region.

HIST 3453. The American Presidency, 1789-1900. (HIST; 4 cr; fall, spring, offered periodically) Growth and development of the U.S. presidency during its first century. Emphasis on selected presidencies such as those of George Washington, Thomas Jefferson, Andrew Jackson, James K. Polk, Abraham Lincoln, and William McKinley.

HIST 3455. American Immigration. (HIST; 4 cr; spring, every year) The role of voluntary migration in U.S. history from the late 18th century to the present. Emphasizes on settlement, ethnicity, nativism, transnational issues, and immigration law. Possible topics include: European immigrants and "whiteness," restriction of immigration from Asia, ethnicity and U.S. foreign and military policy, and the varieties of immigration, legal and undocumented, since 1965.

HIST 3456. History of Religion in America. (HIST; 4 cr; fall, spring, offered periodically) The history of religion in American life from the perspective of ordinary Americans. Religious diversity and special emphasis. Topics may include New England witchcraft, the First and Second Great Awakenings, American Indian belief systems, nativism and Anti-Catholicism, religion and politics, immigrant religion and new fundamentalist movements.

HIST 3457. American Biography and Autobiography. (HIST; 4 cr; fall, spring, offered periodically) Seminar and readings in biography and autobiography; a long paper on an aspect of the biography of an American of the student's choice.

HIST 3463. America's National Landmarks. (HIST; 4 cr; spring, offered periodically) Examines the politics surrounding land preservation and commemoration throughout American history. Discuss how landmarks, landscapes, sacred places, monuments, and memorials have become central to the ways that Americans remember the country's past. Readings and lectures focus on particular environmental movements, the tourism industry, the complexities of the National Park Service and U.S. Forest Service, issues in understanding culture and ecology, and the differences between land management strategies practiced at the local, state, tribal, and federal levels. The class draws conclusions as to how landmarks shape the public's views and understanding of the intersections among environment, race, and gender in American history.

HIST 3464. History of Suburban America. (HIST; 4 cr; fall, spring, offered periodically) Overview of the development of the suburban landscape within the United States, from the beginning of the 19th century to the present, with primary focus on post-World War II development. Topics include the importance of nature to the idea of a suburb, the role played by technology (such as streetcars and automobiles) in development, racial and ethnic diversity and exclusion within the landscape, the effect of suburbs on gender roles, and the political and cultural relationship between the city and the suburb. Examine how the suburb is depicted within popular culture, including films, television programming, music, and literature of the past and present.

HIST 3557. East Asia Since 1800. (IP; 4 cr; fall, spring, offered periodically) Examination of the social, political, economic, technological, and cultural changes in East Asia [China, Japan, and Korea] since 1800.
HIST 3558. Shanghai: China’s Model of Modernity. (IP; 4 cr; fall, offered periodically) Exploration of the role of Shanghai, China’s greatest metropolis, in the emergence and dissemination of a distinctively Chinese modernity since the nineteenth century. Particular attention is paid to the interplay of global and local forces in the transformation of society and culture. Other topics may include the impact of international commerce, the rise of new social classes, leisure and entertainment, consumer culture and everyday life, crime and order, cosmopolitanism and national identity.

HIST 3559. History of Religion in China. (HIST; 4 cr; spring, even years) Introduction to religion in pre-modern and modern China. Emphasis on the place of religion in society and culture. Topics may include Confucianism, Buddhism, Daoism, and Christianity; ancestor worship and death ritual; popular cults and religious rebellion; modern reform movements and religion under socialism.

HIST 3561. The Pacific War in East Asia. (HIST; 4 cr; fall, offered periodically) Political, military, social, and cultural history of the Pacific War in East Asia. Exploration of different perspectives and wartime experiences in China, Japan, and the Japanese empire (including Korea). Emphasis on the impact of the war as a watershed period in the history of East Asia. Topics may include the Rape of Nanjing, the bombing of Hiroshima, the Manchurian Incident, and the creation of Manchukuo, collaboration, and resistance, wartime mobilization and propaganda, Zen nationalism, and comparisons with Nazi Germany and Vichy France. Films, memoirs, and fiction will augment academic texts.

HIST 3601. Great Books in Latin American History. (IP; 4 cr; fall, every year) A look at Latin American history through great books.

HIST 3612. Social Revolution in 20th-Century Latin America. (HIST; 4 cr; fall, offered periodically) Examination of social revolution in 20th-century Latin America. Particular attention paid to social revolution in Mexico, Bolivia, Cuba, and Nicaragua. Populism, democratic attempts at social revolution, and counterrevolution in other parts of Latin America also considered. Key issues include imperialism, capitalism, communism, nationalism, and the Cold War.

HIST 3613. U.S.-Latin American Relations in Historical Perspective. (IP; 4 cr; fall, spring, offered periodically) Examination of the history of U.S.-Latin American relations from U.S independence to the present. Focuses on the political, economic, social, and cultural relationships between the two.

HIST 3614. Race and Ethnicity in Latin America. (HDIV; 4 cr; fall, spring, offered periodically) Explore issues of race and ethnicity in Latin America from a historical perspective. Covering the colonial and national periods, examine how ideas of race and ethnicity have intersected with political, economic, and socio-cultural developments in the region. Consider the ways in which race, class, and gender have intersected in Latin America.

HIST 3707. Gender in East Asia. (HDIV; 4 cr; fall, spring, offered periodically) Study of the changing perceptions of gender in East Asia from its earliest written records until the present. Special emphasis on the changing role of women in East Asia. Exploration of the way gendered discourse affected broader understandings of society, politics, the economy, and culture. Background in East Asian history, while preferred, is not required.

HIST 3993. Directed Study. (1-5 cr [max 10 cr]; prereq approved directed study form; fall, spring, every year) An on- or off-campus learning experience individually arranged between a student and a faculty member for academic credit in areas not covered in the regular curriculum.

Honors Program

Interdisciplinary Studies—Academic Dean
The Honors Program represents an opportunity for UMM students to pursue an interdisciplinary and interdivisional curriculum and work toward graduation “with honors.” All UMM students are eligible to participate in the Honors Program.

Honors courses are limited to a class size of 20. The elective courses examine a particular topic from an interdisciplinary perspective. The courses are often team-taught by faculty from different UMM academic divisions and concern subjects of special interest to the faculty who design them. Further information about the Honors Program may be obtained from the Academic Center for Enrichment (ACE) office at www.morris.umn.edu/ACE.

Admission Requirements
Students normally apply to the program in spring semester of their freshman year and begin coursework sophomore year. While everyone may apply, academic success in the fall semester, faculty recommendations, and a short essay may be used to limit the number of students to those with the proven motivation and ability to likely succeed in the program. Applications are available at the Academic Center for Enrichment, 5 Student Center.

Program Requirements

Honors Capstone Project: It is the responsibility of the student to secure a project adviser for the honors capstone project, identify two other faculty for the panel in consultation with the project adviser, and register for at least 2 credits of IS 4994H–Honors Capstone Project. Students should submit the completed project to the Honors Program director and panel members by April 1 and arrange for the defense.

To qualify for a degree with honors, a student must have completed 60 or more semester credits at the University. A minimum GPA of 3.50 in all University of Minnesota, Morris courses is required. Grades of "F" are included in GPA calculation until they are replaced.

Courses for the Program

Required Courses
IS 2001H is usually completed in fall of the sophomore year.
IS 2001H—Honors: Traditions in Human Thought, Hum, H (2 cr)
IS 4994H—Honors Capstone Project, H (1–4 cr)

Elective Courses
Any fully-approved IS 3xxxH course may be used to fulfill the 8 credit elective requirement. Two of the eight elective credits may also be completed by writing an interdisciplinary paper related to co-curricular engagement, such as an internship or study abroad experience. Students complete an Honors Co-Curricular Independent Study form and register for IS 3991H. These projects are subject to assessment by a committee of faculty members.

Take 8 or more credits(s) from the following:

- IS 3111H—Honors: The End of the World as We’ve Known It: The Apocalypse Then and Now [SS] (2 cr)
- IS 3203H—Honors: A Cross-Section of the Enlightenment [HIST] (2 cr)
- IS 3204H—Honors: Ecological Health and the Sustainability of Common-Property Resources [ENVT] (2 cr)
- IS 3206H—Honors: Introduction to Game Theory [MSIR] (2 cr)
- IS 3209H—Honors: Apocalypse Now? The Science and Policy of Preparing for a Catastrophe [ENVT] (2 cr)
- IS 3211H—Honors: Republic or Empire? The American 1890s [HIST] (2 cr)
against Spain and the Philippines represent only the surface of a decade which altered aspects of race, class, gender, and literary sensibility.

IS 3212H: Honors: Global Encounters and the Making of the Contemporary World, 1450 to the Present. (HDIV; 2-4 cr; prereq high school higher algebra, participation in Honors Program or #; spring, offered periodically) An exploration of the initial interaction among the indigenous people of Africa and the Americas with the people of Europe. Parallel immediate and long-term effects of these initial encounters are identified and discussed.

IS 3214H: Honors: Evolution and Culture of Human Aggression. (HUM; 2 cr; prereq participation in Honors Program or #; offered periodically) Exploration of aggression in medieval literature and culture and theorization about the adaptiveness of aggression. Group and individual aggression expressed by humans living under current conditions is explored from a cultural and evolutionary perspective.

IS 3215H: Honors: Sagas before the Fall: Culture, Climate, and Collapse in Medieval Iceland. (ENVT; 2 cr; prereq participation in Honors Program or #; fall, offered periodically) Exploration of the literary and physical record of society in Viking-age Iceland and from its settlement during the Medieval Warm Period, through centuries of environmental degradation and changing religion, to the onset of the Little Ice Age and the end of the Icelandic free state.

IS 3216H: Honors: Perspectives on Disability in Contemporary American Life. (HDIV; 2 cr; prereq participation in Honors Program or #; fall, offered periodically) Introduction to the interdisciplinary field of disability studies, which favors a social rather than medical approach to understanding difference. History and struggle for civil rights, identity issues, contemporary controversies, and exploring the frontiers of one’s own interest in disability by means of a service learning project.

IS 3217H. Honors: The Trial of Galileo. (HIST; 2 cr; prereq participation in Honors Program or #; spring, offered periodically) The dispute between Galileo and the Inquisition produced one of history’s most notorious trials. The trial is symbol of the struggle between science and religion. Study of the complicated history behind the myth by re-enacting the trial and learning about the theology, science, and cultural politics of this tumultuous period.

IS 3234H. Honors: Intersections of Art and Science. (FA; 2 cr; prereq participation in Honors Program or #; spring, offered periodically) Explores the intersection of scientific discovery and aesthetic innovation, especially the ways in which scientists and artists have influenced one another’s work. Examines the ways in which these different pursuits value notions of creativity.

IS 3235H. Honors: Politics and Film. (HUM; 2 cr; prereq participation in Honors Program or #; spring, offered periodically) Explores age-old questions of political science and philosophy—what is the good life, what does citizenship mean, what is power, how do we relate to the “other”—through the lens of film. Examines American and foreign films and a variety of filmmakers to analyze effects of different cinematic and narrative techniques on our interpretations.

IS 3236H. Honors: Representations of Writers and Artists. (HUM; 2 cr; prereq participation in the Honors Program or #; fall, offered periodically) An interdisciplinary approach is used in exploring the varied ways writers and artists are represented in books, television, film, and other media, comparing these representations with the lives and experiences of contemporary working writers and artists.

IS 3237H. Honors: The Power of Place: An Interdisciplinary Approach to Where We Live. (ENVT; 2 cr; prereq participation in the Honors Program or #; spring, offered periodically) Goes beyond the image and myth of Lake Wobegon in examining the past and present of West Central Minnesota. An intensely interdisciplinary focus on environmental, social, political, and economic change and how modern global forces play out in this specific setting. Community leaders and experts play an active role in lecture and discussion.

IS 3238H. Honors: In Search of Nietzsche. (IP; 4 cr; prereq participation in Honors Program or #; offered periodically) In this interdisciplinary course, read some books by and novels about
Nietzsche in order to discover who this remarkable man was. Authors to be discussed: Nietzsche, D.H. Lawrence, Richard Wright, Milan Kundera, Nicholas Mosley, and Irvin D. Yalom.

**IS 3239H. Honors: The Anatomy of Development and the "Common Good": Sardar Sarovar Dam in Gujarat, India.** (SS; 2 cr; prereq participation in the Honors Program or #; summer, offered periodically)

In the Global South, the unspoken basis of development projects is that they represent an attempt to serve the "common good." This assumption masks a torrent of disagreement and conflict about whose common good is served and how a particular project in question (e.g., dams, irrigation, introduction of new farming techniques) "develops" the nation.

**IS 3240H. Honors: Proud Decade or Dark Age? The American 1950s.** (HIST; 2 cr; prereq participation in Honors Program or #; fall, spring, offered periodically)

Many old enough to remember the American 1950s look back on them with nostalgia. Some do not. This seminar studies several aspects of the decade: the Cold War at home and abroad, American society, literature, and popular culture. Student presentations focus on biographical research.

**IS 3241H. Honors: Worldviews.** (SCI; 4 cr; prereq participation in the Honors Program or #; fall, spring, offered periodically)

The Copernican Revolution, culminating in Newton's System of the World, and modern cosmology beginning with the work of Einstein, Hubble, Friedmann, Lemaître, and Gamow, culminating in the contemporary theory of the universe's accelerated expansion.

**IS 3242H. Honors: Two Cosmological Poets: Dante and Lucretius.** (IP; 2 cr; prereq participation in the Honors Program or #; fall, offered periodically)

Explore, compare, and contrast the cosmological poems "On the Nature of Things" (De Rerum Natura, DRN) of Titus Lucretius Carus (ca. 99-55 BCE) and "The Divine Comedy" (Commedia) of Dante Alighieri (1265-1321 CE). The two poets diverge on almost every aspect of cosmological outlook and notion of the moral life and right living.

**IS 3991H. Honors Co-Curricular Independent Study.** (1-2 cr; A-F only; prereq approved co-curricular honors independent study form; fall, spring, every year)

Co-curricular honors credits may be earned by writing a paper that explores a co-curricular experience such as study abroad, off-campus internship, national student exchange, service-learning, or directed research. Students pursuing this option must seek pre-approval. Projects are directed and assessed by the Honors Director.

**IS 4994H. Honors Capstone Project.** (1-4 cr [max 8 cr]; prereq approved Honors capstone project form, participation in Honors Program; fall, spring, every year)

A substantial scholarly or creative interdisciplinary work designed by the student working cooperatively with a project adviser. Upon completion, the project is defended before a panel of faculty from different disciplines. Successful completion of the honors capstone project is one of the requirements for graduating from UMM "with honors."

**Humanities (Hum)  
Division of the Humanities**

This is an interdisciplinary group of courses under the authority of the vice chancellor for academic affairs and dean.

**Objectives**—Humanities courses are designed to introduce students to their cultural heritage. This interdisciplinary area explores the literatures and other art forms of the world. Advanced courses in the Division of the Humanities supplement the introductory courses.

**Humanities Course Descriptions**

**HUM 1001. Contesting Visions of the American West.** (HDIV; 4 cr; fall, offered periodically)

Examines literary and cultural representations of the American West from a range of perspectives, including those of Asian and European immigrants, explorers, and American Indians.

**HUM 1002. Norse Saga.** (HUM; 4 cr; fall, spring, offered periodically)

Study of medieval sagas, in translation, from Iceland and Norway, and the culture that produced them.

**HUM 1003. The King James Bible.** (HUM; 4 cr; fall, spring, offered periodically)

Some of the ways that language and themes of the King James Bible have shaped the themes, language, and values in English and American literature.

**HUM 1005. Myth and Literature.** (HUM; 4 cr; fall, spring, offered periodically)

How classical mythology has been used in literature, poetry, drama, and fiction.

**HUM 1051. Greek Drama.** (HUM; 4 cr; spring, offered periodically)

Study of Greek drama.

**HUM 1054. Backgrounds to Literature: Classical Mythology.** (IP; 4 cr; fall, spring, offered periodically)

A look at primary texts in Greek and Roman myth and at the ways English and American writers have made use of those myths from the Renaissance to the present.

**HUM 1101. The European Novel.** (HUM; 4 cr; fall, offered periodically)

Readings in major continental novelists of the 19th and 20th centuries.

**HUM 1552. Literature and History of Jewish and Muslim Spain.** (IP; 4 cr; summer, offered periodically)

Introduction to representative works of literature (taught in English and translated from Spanish, Hebrew, and Arabic) written by or about Spanish Jews and Muslims from the middle ages to the periods of the expulsion of these people from Spain (Jews in 1492 and Muslims in 1609). Comprehension of these works in light of their socio-historical contexts.

**HUM 1561. Hispanic Film.** (IP; 4 cr; fall, offered periodically)

Viewing, study, and discussion of the most representative Hispanic cinema coming out of Spain, the United States, and Latin America. The form of the cinema and its specific cultural and political context.

**HUM 1805. Myth: From the Page to the Stage.** (JC; 2 cr; prereq new college student in their first semester of enrollment at UMM; fall, spring, offered periodically)

Grab a thunderbolt and explore the rich tapestry of world mythologies by reading, researching, discussing, creating, and acting. Students familiarize themselves with important myths from various cultures around the world. Students use theatre techniques to creatively engage in classroom role-playing activities as well as projects such as a myth mask, future myth, and a myth collage. At the end of the semester, students perform a short original play focusing on one of the myths studied in class.

**HUM 1993. Directed Study.** (1-5 cr [max 10 cr]; prereq approved directed study form; fall, spring, every year)

An on- or off-campus learning experience individually arranged between a student and a faculty member for academic credit in areas not covered in the regular curriculum.

**HUM 2011. On War: History, Ethics, and Representations of Modern Warfare.** (HUM; 4 cr; prereq Engl 1601 (or 1011) or equiv; fall, offered periodically)

Explores accounts of several 20th-century American wars. Includes a wide range of course materials (film, journalistic accounts, philosophical essays, and literary texts) and perspectives on war—from the generals to the "grunts" and nurses, from American and non-American perspectives, and from scholarship to oral narratives.

**HUM 2301. Intercultural Understanding Through Film.** (IP; 2 cr; fall, offered periodically)

Exploration of understanding of other cultures can be enhanced by viewing foreign films, with an emphasis on topics such as personal relationships, societal taboos, religion, and political leadership.

**HUM 2993. Directed Study.** (1-5 cr [max 10 cr]; prereq approved directed study form; fall, spring, every year)

An on- or off-campus learning experience individually arranged between a student and a faculty member for academic credit in areas not covered in the regular curriculum.
HUM 3041. New German Cinema. (IP; 4 cr; =GER 3041; fall, offered periodically)
Same as Ger 3041. Traces the development of New German Cinema, which began in the 1960s, and continues in the post-unification period. Introduction to films by both East and West German directors who define this national cinema; the cultural, political, and economic context of its production; reference to theories and critiques to provide an overview of German film and culture of the period. Film presentations are in German with English subtitles. Readings and lectures are in English. Final papers are either in German (for German credit) or English (for Humanities credit).

HUM 3042. Weimar Film. (IP; 4 cr; =GER 3042; spring, offered periodically)
Same as Ger 3042. Development of the German film as expressionistic art form. Film as text, film as history, film as aesthetic expression. Film presentations are in German but with English subtitles in most cases. Readings and lectures are in English. Final papers either in German (for German credit) or English (for Humanities credit).

HUM 3501. Russian Literature. (HUM; 4 cr; spring, offered periodically)
Study of Russian literature in translation. Special attention to the works of Dostoyevsky, Tolstoy, and Chekhov.

HUM 3501. Women's Issues in Contemporary German Culture. (IP; 4 cr; =GER 3501; spring, offered periodically)
Same as Ger 3501. Focus is on the German women's movement during the 20th century, historical relationship of gender and class, and lives of women from various ethnic backgrounds in Germany and Austria. Short stories, essays, and poems document the evolution of feminist literary theory in German studies. Readings and lectures are in English. Final papers either in German (for German credit) or English (for Humanities credit).

HUM 3993. Directed Study. (1-5 cr; max 10 cr; prereq approved directed study form; fall, spring, every year)
An on- or off-campus learning experience individually arranged between a student and a faculty member for academic credit in areas not covered in the regular curriculum.

HUM 4993. Directed Study. (1-5 cr; max 10 cr; prereq approved directed study form; fall, spring, every year)
An on- or off-campus learning experience individually arranged between a student and a faculty member for academic credit in areas not covered in the regular curriculum.

Interdisciplinary Studies (IS)

Interdisciplinary Studies—Academic Dean
This is an interdisciplinary group of courses under the authority of the vice chancellor for academic affairs and dean.

Objectives—Through interdisciplinary studies, students may investigate subjects viewed from the perspectives of two or more traditional academic disciplines. Interdisciplinary studies may take the form of well-structured internships or regular classroom courses, or directed study projects that stimulate close student-faculty relationships.

Students interested in interdisciplinary internships or directed study projects should consult with their advisers and appropriate division chairs concerning a course prospectus, proposed study activities, and proposed criteria and methods for evaluating their work. In the case of internships, students should discuss their plans with the director of the Career Center, who assists with internship placements. A signed Directed Study Approval form or Internship Approval form (available on the academic affairs website) is required in order to register for an interdisciplinary directed study or internship. The approval of the vice chancellor for academic affairs and dean is necessary to register for an interdisciplinary studies directed study or an internship.

Interdisciplinary Studies Course Descriptions

IS 1041. Health Sciences Terminology. (2 cr; fall, summer, every year)
A self-study course that has been designed to provide students with a working knowledge of the terminology utilized in the health sciences. There are no formal class sessions. Students take four tests during the term.

IS 1051. Introduction to College Learning Skills. (4 cr; S-N or Audit; prereq participation in Gateway Program or # counts toward the 60-credit general ed requirements; summer, every year)
Essential skills for success in higher education. Introduction to computing technology, writing, and math skills. Academic and social skills needed for transition from high school to college.

IS 1061. Mastering Skills for College Success. (2 cr; S-N only; prereq #; fall, spring, every year)
Practical assistance to develop efficient, effective learning/academic performance skills. Improve reading, memorization, test-taking, critical thinking; identify academic and career learning styles, motivation, life skills, and their relation to successful academic performance.

IS 1071. Systematic Introduction to the Art and Science of Emergency Medical Care. (4 cr; S-N only; prereq registration with the Stevens County Ambulance Services; arrangements must be made by contacting them at 320-589-7421; fall, spring, every year)
Introduction to emergency medical care. Develops skills and knowledge to respond appropriately to a medical emergency. (The Stevens County Ambulance Service sets and requires an independent fee.)

IS 1091. Ethical and Social Implications of Technology. (E/CR; 2 cr; fall, spring, every year)
Description of appropriate technological advances. Historical development related to technology and its development cycle. Discussion of the ethical and social implications of technology.

IS 1802. Music, Education, and the Liberal Arts. (IC; 2 cr; prereq new college student in their first semester of enrollment at UMM; fall, offered periodically)
What is a liberal arts education, and how does music fit into this idea? How does one succeed in such an environment? Explore the liberal arts approach and the role of music in education. This course also helps students to develop skills that are crucial to success in a liberal arts college environment.

IS 1803. Dangerous Minds: Images of Education in Popular Culture. (IC; 4 cr; prereq new college student in their first semester of enrollment at UMM; fall, offered periodically)
Are college students always drunk? Do faculty members routinely have affairs with students? Can marginalized students triumph over adversity in high school? Should a college education be free for anyone who wants to attend? Are sports overemphasized in schools? These are only a sampling of the questions the class will explore by putting a critical lens up to representations of education in popular culture. Through the use of books, film, television, and news stories, students determine if they are being properly represented in today's society or if college really is "Animal House."

IS 1804. Community Engagement: From Volunteerism to Social Justice. (IC; 4 cr; prereq new college student in their first semester of enrollment at UMM; requires off-site meeting times to be arranged; fall, offered periodically)
Introduction through readings and discussion to multiple frameworks for community engagement, ranging from meeting individual people's and agency's needs through direct volunteerism to engaging in research and direct action intended to create systematic change. In the process of studying these frameworks, students are exposed to a variety of controversies in the service-learning field. Students are also introduced to Stevens County through field trips to community agencies. Students complete a community engagement project that reflects their academic and professional goals and meets community needs. Projects can range from volunteering directly at an agency to planning a fundraiser or educational event with a partner to completing a manageable community-based research project. Requires off-site meeting times to be arranged.
an interdisciplinary context are emphasized. Writings to the present day. Critical reading, writing, and discussion in philosophy, science, and religion across continents from the earliest

A study of a selection of significant works from history, literature, and cultural traditions. Includes tours of the city: Buckingham Palace, Westminster, St. Paul's Cathedral, Abbey Road, Carnaby Street, and Portobello Road. Provides tickets for a variety of theatrical performances: Shakespeare's Globe Theatre, the National Theatre, and the West End. Museum entry covers: the British Museum, National Portrait Gallery, Hayward Gallery, Tate Modern, Victoria and Albert Museum, and Tate Britain.

IS 2035. Aging in Greece: Comparative Cultural Practices and Social Policy. (IP; 4 cr; spring, offered periodically)

International service-learning course in Athens and the island of Ikaria that explores cross-cultural differences between Greece and the United States in the meaning and experience of aging, as well as in the social and institutional supports for the aging population. Focus on the role of the community and public sector in promoting optimal aging. Students spend two hours per day in the classroom and 4-6 hours per day at a nursing home.

IS 2993. Directed Study. (1-5 cr [max 10 cr]; prereg approved directed study form; fall, spring, every year)

An on- or off-campus learning experience individually arranged between a student and a faculty member for academic credit in areas not covered in the regular curriculum.

IS 3011. English Language Teaching Assistant Program for Majors. (IP; 6-13 cr; S-N only; = [IS 2011]; prereg jr status, #; fall, spring, summer, every year)

Students assist teachers of English in countries where English is not the primary language. Cultural and school experiences are linked to a major area of study. Students are encouraged to consult with their adviser regarding how this course might fit within their major. Assignments require students to demonstrate how the ELTAP experience connects to the content major.

IS 3110. Rural Community Field Project: Center for Small Towns. (SS; 1-6 cr; S-N only; prereg; SS [if taken for 2 or more cr]; fall, spring, offered periodically)

An educational experience in a rural learning environment that focuses on rural issues of community life, demography, culture, environment, and policy. A collaborative effort between Center for Small Towns and a public rural entity provides a structured environment in which civic engagement objectives are achieved and grounded in a practical setting. Students gain a valuable understanding about the historical social structures of rural society and witness these structures firsthand.

IS 3111H. Honors: The End of the World as We've Known It: The Apocalypse Then and Now. (SS; 2 cr; prereg participation in Honors Program or #; spring, offered periodically)

Exploration of the occasions and representations of apocalyptic views, focusing on the historical, political, and psychological implications. Antecedents and effects of end-of-the-world prophecies are explored through the use of popular culture (e.g., music, science fiction, other media), writings from across cultural and religious frames of reference, and various historical, political, and psychological resources.

IS 3203H. Honors: A Cross-Section of the Enlightenment. (HIST; 2 cr; prereg participation in Honors Program or #; fall, spring, offered periodically)

A cross-section of the cultural and intellectual history of the 18th century. Figures to be studied may include Descartes, Newton, Locke, Hume, Hobbes, Rousseau, Voltaire, Lavoisier, d'Holbach, and Blake.

IS 3204H. Honors: Ecological Health and the Sustainability of Common-Property Resources. (ENVT; 2 cr; prereg participation in Honors Program or #; fall, spring, offered periodically)

Exploration of "sustainability" from the perspective of economics and ecology. Examples might include ocean fisheries, the rain forest, the introduction of alien species, and the global climate.

IS 3206. Bottom Dwellers in an Ocean of Air. (IC; 2 cr; prereq new college student in their first semester of enrollment at UMM; fall, odd years)

We live on the bottom of an ocean of a mix of gases and vapors which is kept in constant, chaotic motion by uneven heating and planetary rotation, thus evading our control. We, as humans, are often on the defense or in a role of passive adaptation with regard to weather. Are human beings victims or actors on the stage of global atmospheric dynamics? Striving to assemble an answer to this question, students in the course: (1) mine human history for cases in which significant interaction between human society and climate was found; (2) study individual events in which history and weather were intertwined; (3) learn about palaeoclimate research; and (4) pay particular attention on how this interaction between society and atmosphere is shaped in the modern world. The physical principles of weather and climate are introduced as needed for meaningful discussion.

IS 1807. Drugged Society: Humanity's Long-term Relationship with Mind-altering Substances. (IC; 2 cr; prereq new college student in their first semester of enrollment at UMM; fall, offered periodically)

Mind-altering substances have been part of the human experience since before written history. This seminar/discussion-based course explores the many ways drugs and drug trade have impacted human societies and cultures. Examples of topics include the role of drug trade in European colonization, the connections between drugs and religion and spirituality, development of legal restrictions, the influence of drugs on arts and literature, and the like. This interdisciplinary course requires active classroom participation and the completion of a research project and presentation with both individual and group components.

IS 1808. Agents and Agency: Modeling Emergence in the Social Sciences. (IC; 2 cr; prereq new college student in their first semester of enrollment at UMM; fall, offered periodically)

Agent-based modeling is a computer-based technique for investigating how complex systems can emerge from the behaviors of the people (or other agents) that form the system. Agency is the ability to act according to one's own will, rather than following social and cultural rules of behavior. Can aspects of human societies "emerge" from many simple interactions between agents, constantly repeated? Or are human choices responsible for the structure and attributes of human societies? Is there really a difference, or are these two ways of looking at the same phenomenon? Explore the potential and pitfalls of agent-based modeling as a technique for understanding human societies, through a mixture of readings, discussion, and the hands-on development of small-scale computer models. No previous technical or programming experience necessary.

IS 1809. Working It. (IC; 2 cr; prereq new college student in their first semester of enrollment at UMM; fall, offered periodically)

Explore the role of work in everyday life--how it shapes our identity, impacts our relationships, and brings us closer to (or further from) our hopes and dreams. Course activities focus on the development of skills that are crucial to success in a liberal arts college environment.

IS 1993. Directed Study. (1-5 cr [max 10 cr]; prereg approved directed study form; fall, spring, every year)

An on- or off-campus learning experience individually arranged between a student and a faculty member for academic credit in areas not covered in the regular curriculum.

IS 2001H. Honors: Traditions in Human Thought. (HUM; 2 cr; prereq participation in the Honors Program)

A study of a selection of significant works from history, literature, philosophy, science, and religion across continents from the earliest writings to the present day. Critical reading, writing, and discussion in an interdisciplinary context are emphasized.

IS 2011. English Language Teaching Assistant Program. (IP; 6-13 cr; S-N only; = [IS 3011]; prereg; #; fall, spring, summer, every year)

Students assist teachers of English in countries where English is not the primary language.

IS 2033. London Arts Tour. (1 cr [max 3 cr]; summer, offered periodically)

A 10-day arts and culture tour of London. Admission to major museums and theatres highlights the diversity of London's arts and cultural traditions. Includes tours of the city: Buckingham Palace, Westminster, St. Paul's Cathedral, Abbey Road, Carnaby Street, and
IS 3209H. Honors: Apocalypse Now? The Science and Policy of Preparing for a Catastrophe. (ENV2; 2 cr; prereq participation in Honors Program or #; fall, spring, offered periodically) Popular visions, policy response, and scientific underpinnings of potentially catastrophic societal problems past and present. Do we worry about the right things? How do scientists, politicians, and purveyors of popular culture assess which threats warrant attention? (two 50-min lectures plus multiple evening film screenings)

IS 3211H. Honors: Republic or Empire? The American 1890s. (HIST; 2 cr; prereq participation in the Honors Program or #; fall, spring, offered periodically) The 1890s are often seen as a cultural watershed for the United States. Depression, political movements, and a "splendid little war" against Spain and the Philippines represent only the surface of a decade which altered aspects of race, class, gender, and literary sensibility.

IS 3212H. Honors: Global Encounters and the Making of the Contemporary World, 1450 to the Present. (HDIV; 2-4 cr; prereq high school higher algebra, participation in Honors Program or #; spring, offered periodically) An exploration of the initial interaction among the indigenous people of Africa and the Americas with the people of Europe. Parallel immediate and long-term effects of these initial encounters are identified and discussed.

IS 3214H. Honors: Evolution and Culture of Human Aggression. (HUM; 2 cr; prereq participation in Honors Program or #; fall, offered periodically) Exploration of aggression in medieval literature and culture and theorization about the adaptiveness of aggression. Group and individual aggression expressed by humans living under current conditions is explored from a cultural and evolutionary perspective.

IS 3215H. Honors: Sagas before the Fall: Culture, Climate, and Collapse in Medieval Iceland. (ENV2; 2 cr; prereq participation in Honors Program or #; fall, offered periodically) Exploration of the literary and physical record of society in Viking-age Iceland from its settlement through the Medieval Warm Period, through centuries of environmental degradation and changing religion, to the onset of the Little Ice Age and the end of the Icelandic free state.

IS 3216H. Honors: Perspectives on Disability in Contemporary American Life. (HDIV; 2 cr; prereq participation in Honors Program or #; fall, offered periodically) Introduction to the interdisciplinary field of disability studies, which favors a social rather than medical approach to understanding difference. History and struggle for civil rights, identity issues, contemporary controversies, and exploring the frontiers of one’s own interest in disability by means of a service learning project.

IS 3217H. Honors: The Trial of Galileo. (HIST; 2 cr; prereq participation in Honors Program or #; spring, offered periodically) The dispute between Galileo and the Inquisition produced one of history’s most notorious trials, an enduring symbol of the struggle between science and religion. Study of the complicated history behind the myth by re-enacting the trial and learning about the theology, science, and cultural politics of this tumultuous period.

IS 3234H. Honors: Intersections of Art and Science. (FA; 2 cr; prereq participation in Honors Program or #; spring, offered periodically) Explores the intersection of scientific discovery and aesthetic innovation, especially the ways in which scientists and artists have influenced one another’s work. Examines the ways in which these different pursuits value notions of creativity.

IS 3235H. Honors: Politics and Film. (HUM; 2 cr; prereq participation in Honors Program or #; spring, offered periodically) Explores age-old questions of political science and philosophy—what is justice, what does citizenship mean, what is power, how do we relate to the "other"—through the lens of film. Examines American and foreign films and a variety of filmmakers to analyze effects of different cinematic and narrative techniques in our interpretations.

IS 3236H. Honors: Representations of Writers and Artists. (HUM; 2 cr; prereq participation in the Honors Program or #; fall, offered periodically) An interdisciplinary approach is used in exploring the varied ways writers and artists are represented in books, television, film, and other media, comparing these representations with the lives and experiences of contemporary working writers and artists.

IS 3237H. Honors: The Power of Place: An Interdisciplinary Approach to Where We Live. (ENV2; 2 cr; prereq participation in the Honors Program or #; spring, offered periodically) Goes beyond the image and myth of Lake Wobegon in examining the past and present of West Central Minnesota. An intensely interdisciplinary focus on environmental, social, political, and economic change and how modern global forces play out in this specific setting. Community leaders and experts play an active role in lecture and discussion.

IS 3238H. Honors: In Search of Nietzsche. (IP; 4 cr; prereq participation in Honors Program or #; fall, offered periodically) In this interdisciplinary course, read some books by and novels about Nietzsche in order to discover who this remarkable man was. Authors to be discussed: Nietzsche, D.H. Lawrence, Richard Wright, Milan Kundera, Nicholas Mosley, and Irvin D. Yalom.

IS 3239H. Honors: The Anatomy of Development and the "Common Good": Sardar Sarovar Dam in Gujarat, India. (SS; 2 cr; prereq participation in the Honors Program or #; summer, offered periodically) In the Global South, the unsung basis of development projects is that they represent an attempt to serve the "common good." This assumption masks a torrent of disagreement and conflict about whose common good is served and how a particular project in question (e.g., dams, irrigation, introduction of new farming techniques) "develops" the nation.

IS 3240H. Honors: Proud Decade or Dark Age? The American 1950s. (HIST; 2 cr; prereq participation in Honors Program or #; fall, spring, offered periodically) Many old enough to remember the American 1950s look back on them with nostalgia. Some do not. This seminar studies several aspects of the decade: the Cold War at home and abroad, American society, literature, and popular culture. Student presentations focus on biographical research.

IS 3241H. Honors: Worldviews. (SCI; 4 cr; prereq participation in the Honors Program or #; fall, spring, offered periodically) The Copernican Revolution, culminating in Newton’s System of the World, and modern cosmology beginning with the work of Einstein, Hubble, Friedmann, Lemaître, and Gamow, culminating in the contemporary theory of the universe’s accelerated expansion.

IS 3242H. Honors: Two Cosmological Poets: Dante and Lucretius. (IP; 2 cr; prereq participation in the Honors Program or #; fall, offered periodically) Explore, compare, and contrast the cosmological poems “On the Nature of Things” (De Rerum Natura, DRN) of Titus Lucretius Carus (ca. 99-55 BCE) and "The Divine Comedy" (Commedia) of Dante Alighieri (1265-1321 CE). The two poets diverge on almost every aspect of cosmological outlook and notion of the moral life and right living.

IS 3710. Peer Tutoring in College. (1 cr [max 3 cr]; S-N only; fall, every year) Tutor students in selected courses.

IS 3720. Tutoring Writing Across the Disciplines. (1-2 cr [max 6 cr]; S-N only; prereq Engl 1601 (or 1011) or equiv, soph standing, #, coreq Engl 3005 for students in their first sem at the Writing Room; fall, spring, every year) Tutor student writers at the Writing Room; meet regularly with other tutors for ongoing training in peer writing tutoring.

IS 3796. Interdisciplinary Internship in the Helping Professions. (1-16 cr [max 32 cr]; S-N only; prereq Psy 4102, approved internship form; Psy 4101 recommended; fall, spring, summer, every year) One-semester educational experience providing field applications in the helping professions (social work, counseling, casework, child protection services, educational settings, human resource counseling, and the like) for the student’s theoretical classroom learning experiences.

IS 3800. Practicum in Social Sciences. (1-2 cr [max 4 cr]; S-N only; prereq #; fall, spring, every year) Supervised experience of selected learning activities such as discussion group leader, lab assistant, research assistant, or other teaching-related activities.
IS 3810. Practicum in the Humanities. (1-2 cr [max 4 cr]; S-N only; prereq #: fall, spring, every year)
Supervised experience of selected learning activities such as discussion group leader, test review leader, research assistant, or other teaching-related activities.

IS 3893. Prior Learning Directed Study. (1-4 cr [max 10 cr]; prereq approved directed study form; fall, spring, every year)
Individualized learning project combining prior learning with faculty-directed new learning, awarding academic credit for both. (When content is discipline-related, discipline designation will appear on transcript and credit may count toward appropriate general education requirement category.)

IS 3896. Prior Learning Internship. (1-16 cr [max 32 cr]; S-N only; prereq approved internship form; fall, spring, every year)
An educational experience in a work environment providing field application for the student's theoretical classroom learning experiences. The prior learning internship, such as in social service or business settings, occurred prior to the student's matriculation. The prior learning is documented and combined with faculty-directed new learning, with credit awarded for both.

IS 3991H. Honors Co-Curricular Independent Study. (1-2 cr; A-F only; prereq approved co-curricular honors independent study form; fall, spring, every year)
Co-curricular honors credits may be earned by writing a paper that explores a co-curricular experience such as study abroad, off-campus internship, national student exchange, service-learning, or directed research. Students pursuing this option must seek pre-approval.

IS 3993. Directed Study. (1-5 cr [max 10 cr]; prereq approved directed study form; fall, spring, every year)
An on- or off-campus learning experience individually arranged between a student and a faculty member for academic credit in areas not covered in the regular curriculum.

IS 3996. Interdisciplinary Internship. (1-16 cr [max 32 cr]; S-N only; prereq approved internship form; fall, spring, summer, every year)
One-semester educational experience in a work environment providing field applications for the student's theoretical classroom learning experiences.

IS 4993. Directed Study. (1-5 cr [max 10 cr]; prereq approved directed study form; fall, spring, every year)
An on- or off-campus learning experience individually arranged between a student and a faculty member for academic credit in areas not covered in the regular curriculum.

IS 4994H. Honors Capstone Project. (1-4 cr [max 8 cr]; prereq approved Honors capstone project form; participation in Honors Program; fall, spring, every year)
A substantial scholarly or creative interdisciplinary work designed by the student working cooperatively with a project adviser. Upon completion, the project is defended before a panel of faculty from different disciplines. Successful completion of the honors capstone project is one of the requirements for graduating from UMM "with honors."

Italian (Ital)
Division of the Humanities
Courses in Italian introduce students to the study of the language, literature, and culture of Italy. The courses satisfy foreign language and other general education requirements.

Objectives—Courses are designed to help students develop a number of skills in Italian, including comprehension and speaking, reading, and writing, in order to communicate effectively in Italian on a broad range of topics. The courses are designed to help students develop critical insight into the philosophy and values of another culture as they increase their competence in a second language.

Study Abroad
In light of today's increasingly interdependent world, the UMM Italian discipline endorses study abroad as the most effective means by which to

- improve language abilities
- broaden academic horizons
- globalize one's world view
- expand career opportunities
- advance cross-cultural and problem-solving skills
- gain confidence in oneself personally and professionally.

Italian Course Descriptions
ITAL 1001. Beginning Italian I. (4 cr; fall, every year)
Introduction to Italian as it is presently spoken and written. Basic sounds, structures, and vocabulary of Italian. Understanding, reading, and writing the language and communicating in Italian about everyday situations. Relationship between culture and language.

ITAL 1002. Beginning Italian II. (FL; 4 cr; prereq 1001 or placement #; spring, every year)
Continuation of 1001.

ITAL 1104. Major Works of Italian Literature in Translation from the Middle Ages to the Present. (HUM; 4 cr; spring, offered periodically)
Survey of Italian literature from the Middle Ages to the present. Attention given to major works of narrative, poetry, and drama of various periods. Emphasis on ground-breaking works that constituted a challenge to prevailing literary and cultural values. This course is conducted in English; all texts will be read in English translation.

ITAL 1105. Italian Cinema. (IP; 4 cr; spring, offered periodically)
Study of Italian cinema from the silent era to the present, focusing on significant genres and directors, as well as on critical approaches to film studies. Taught in English; all films have English subtitles.

ITAL 1311. Modern Italy through Literature and Film. (HUM; 4 cr; spring, offered periodically)
The political, social, and cultural transformations of Italy from 19th-century unification to contemporary issues of immigration and multiculturalism as reflected in literature and film. Topics include forging a national identity; Fascism, the Resistance and post-war period; the "southern question"; the "economic miracle"; current cultural issues.

ITAL 1331. The Eternal City: The Language and Culture of Rome I. (FL; 4 cr; summer, offered periodically)
Beginning course for UMM study abroad in Rome, Italy. Four weeks of Italian language together with the art and literature of Rome. Emphasis on works of art, literature, and film belonging to several periods and addressing the history and character of the city. Excursions to relevant sites in and near Rome. No previous experience in Italian required.

ITAL 1801. Rome: The City in Literature and Film. (IC; 2 cr; prereq new college student in their first semester of enrollment at UMM; fall, offered periodically)
Study of representations of the city of Rome in significant works of Italian literature and film. Topics include the rhetorical construction of national and cultural identities, the individual's relationship to fictional and lived space, the city as stage for major cultural and political preoccupations of contemporary Italy. Conducted in English.

ITAL 1993. Directed Study. (1-5 cr [max 10 cr]; prereq approved directed study form; fall, spring, summer, every year)
An on- or off-campus learning experience individually arranged between a student and a faculty member for academic credit in areas not covered in the regular curriculum.

ITAL 2001. Intermediate Italian I. (IP; 4 cr; prereq 1002 or #; fall, spring, offered periodically)
Continued development of listening, reading, writing, and speaking skills; review of the fundamental elements of the Italian language. Emphasis on authentic cultural and literary texts appropriate to this level.

ITAL 2993. Directed Study. (1-5 cr [max 10 cr]; prereq approved directed study form; fall, spring, summer, every year)
An on- or off-campus learning experience individually arranged between a student and a faculty member for academic credit in areas not covered in the regular curriculum.

ITAL 3331. The Eternal City: The Language and Culture of Rome II. (IP; 4 cr; prereq 1302 or equiv; summer, offered periodically)
Advanced course for UMM study abroad in Rome, Italy. Four weeks of Italian language together with the art and literature of Rome.

University of Minnesota Morris 2013-15 Catalog
147
Emphasis on works of art, literature, and film belonging to several periods and addressing the history and character of the city. Excursions to relevant sites in and near Rome.

**ITAL 3993. Directed Study.** (1-5 cr [max 10 cr]; prereq approved directed study form; fall, spring, summer, every year)
An on- or off-campus learning experience individually arranged between a student and a faculty member for academic credit in areas not covered in the regular curriculum.

**ITAL 4993. Directed Study.** (1-5 cr [max 10 cr]; prereq approved directed study form; fall, spring, summer, every year)
An on- or off-campus learning experience individually arranged between a student and a faculty member for academic credit in areas not covered in the regular curriculum.

---

**Language (Lang)**

*Division of the Humanities*

Language courses support and help develop the academic language skills of non-native speakers of English.

**Objectives**—“Lang” courses are designed to support the academic language demands found in American higher education. Courses focus on the development of writing, reading, and oral skills proficiency in English as well as the cultural norms and expectations of American education.

**Language Course Descriptions**

**LANG 1061. Writing in the American University.** (3 cr [max 6 cr]; S-N only; prereq non-native speaker of English, #; fall, spring, every year)
Writing course for non-native speakers of English at the advanced level, emphasizing competency in standard written English with a focus on development of paragraphs, exploration of the writing process, and experience with various rhetorical styles of essays in preparation for the demands of classroom writing.

**LANG 1062. Reading in the American University.** (2 cr [max 4 cr]; S-N only; prereq non-native speaker of English, #; fall, spring, every year)
For non-native speakers of English. Course focuses on developing and reinforcing essential reading skills including vocabulary strategies/word studies, identifying elements of the text to support comprehension; critical thinking and analysis; and more micro-skills such as predicting, skimming, scanning and inferring.

**LANG 1063. Academic Culture and Oral Skills in the American University.** (2 cr [max 4 cr]; S-N only; prereq non-native speaker of English, #; fall, spring, every year)
For non-native speakers of English. Designed to assist international students with the transition from the social/educational systems in their own cultures to the social/educational systems in the United States. Primary focus on oral skills; coursework focuses on class participation, discussion, note-taking, and critical thinking.

**LANG 1064. Preparing for the American Liberal Arts Classroom.** (1 cr; S-N only; prereq non-native speaker of English; admission to UMM, #; summer, every year)
Prepares international students for norms and rigors of an English-language, liberal arts college classroom. Includes preparation in language/academic skills of reading, writing, oral skills; exposure to disciplines that compose liberal arts; development of familiarity with cultural norms of a U.S. classroom; contextualization of topics through field trips.

---

**Latin (Lat)**

*Division of the Humanities*

Latin is an essential language in Western history and is used in research to read texts and to create terminology across the globe and in many disciplines, such as music, art, English literature, linguistics, history, law, political science, anthropology, biology, chemistry, mathematics, foreign languages and literature, and philosophy. Latin courses give students the language and analytic skills necessary to engage with texts written in Latin, as well as to better understand their native language.

**Objectives**—The Latin discipline teaches the skills necessary for approaching any Latin text and for understanding the rich cultures, ideas, institutions, and writings from ancient Rome through the Middle Ages, Renaissance, and up to the present day. This prepares students to think critically about language and texts and provides a strong language background for many graduate programs.

**Study Abroad**
In order to connect students as closely as possible to the ancient Roman world, the discipline encourages study abroad as a means to:
- improve language abilities;
- broaden academic horizons;
- globalize and historicize one’s world view;
- expand career opportunities;
- advance cross-cultural and problem-solving skills; and
- gain confidence in oneself personally and professionally.

**Latin Course Descriptions**

**LAT 1001. Beginning Latin I.** (4 cr; fall, every year)
Study of Latin vocabulary and structures in order to attain basic reading and writing competence; practice in oral recitations and compositions. Introduction to ancient Roman history and culture.

**LAT 1002. Beginning Latin II.** (FL; 4 cr; prereq 1001 or placement or #; spring, every year)
Continuation of 1001.

---

**Latin American Area Studies (LAAS)**

*Interdisciplinary Studies—Academic Dean*

**Objectives**—To provide a basic introduction to the cultures and societies of Latin America, to provide the means essential to gain an understanding of Latin America and its diverse peoples, and to place Latin America in a comparative perspective.

**Latin American Area Studies Major**

Students are required to take 4 semester(s) of Spanish.

Students must enroll through the LAAS coordinator.

Students are encouraged to use elective credits to acquaint themselves with as many academic fields of Latin American studies as possible.

Students may have up to a two-course overlap with any other major. Additional overlap must be approved by the LAAS coordinator.

No grades below C- are allowed. Courses may not be taken S-N, unless offered S-N only.

A minimum GPA of 2.00 is required in the major to graduate. The GPA includes all, and only, University of Minnesota coursework. Grades of "F" are included in GPA calculation until they are replaced.

**Required Courses**

After enrolling in the major and when in residence, 1 credit per semester in LAAS 3100; up to 4 credits can be applied to the 20-credit elective requirement for the major. With approval of the LAAS coordinator and another faculty member, a capstone experience in a different discipline that contains primarily Latin American content may be wholly or partially substituted for LAAS 4901, but requires completion of four total credits.
HIST 1601 - Latin American History: A Basic Introduction [IP] (4 cr)
LAAS 3100 - Contemporary Latin America (1 cr)
LAAS 3201 - Bibliographical Tools and Journals in Latin American Area Studies (2 cr)
LAAS 4901 - Senior Capstone in Latin American Area Studies (2-4 cr)

Elective Courses
These courses must come from at least three different academic disciplines, not including LAAS. Courses and directed studies not listed below may be approved by the LAAS coordinator, provided the subject matter is appropriate for the major.

Take 20 or more credits from the following:
ANTH 3601 - Social Justice and Human Rights in Latin America [IP] (4 cr)
ANTH 3602 - Women in Latin America [IP] (4 cr)
ANTH 3603 - Latin American Archaeology [SS] (4 cr)
HIST 2608 - History of Cuba: From Colony to Revolutionary State [HIST] (4 cr)
HIST 3601 - Great Books in Latin American History [IP] (4 cr)
HIST 3612 - Social Revolution in 20th-Century Latin America [HIST] (4 cr)
HIST 3613 - U.S.-Latin American Relations in Historical Perspective [IP] (4 cr)
HIST 3614 - Race and Ethnicity in Latin America [HDIV] (4 cr)
LAAS 1993 - Directed Study (1-5 cr)
LAAS 2993 - Directed Study (1-5 cr)
LAAS 3993 - Directed Study (1-5 cr)
LAAS 4993 - Directed Study (1-5 cr)
POL 3475 - International Human Rights [IP] (4 cr)
POL 3504 - Latin American Politics [IP] (4 cr)
SOC 3601 - Social Justice and Human Rights in Latin America [IP] (4 cr)
SOC 3602 - Women in Latin America [IP] (4 cr)
SPAN 2121 - Associated Languages: Intensive Portuguese [IP] (4 cr)
SPAN 3011 - Conversation, Composition, and Culture [IP] (2 cr)
SPAN 3012 - Spanish Grammar in Practice [IP] (2 cr)
SPAN 3111 - Readings in Spanish I [HUM] (2 cr)
SPAN 3112 - Readings in Spanish II [HUM] (2 cr)
SPAN 3211 - Literature and Culture of Latin America [HUM] (4 cr)
SPAN 3212 - Literature and Culture of Spain [HUM] (4 cr)
SPAN 3621 - Seminar: Confessions and Letters in Latin American Fiction [HUM] (4 cr)
SPAN 3622 - Seminar: Exile and Emigration in Latin American Fiction [IP] (4 cr)
SPAN 3623 - Seminar: Ecology and Nature in Latin American Literature [ENVT] (4 cr)
SPAN 3651 - Seminar: Miguel de Cervantes Saavedra’s “El ingenioso hidalgo Don Quijote de la Mancha” [HUM] (4 cr)
SPAN 3652 - Seminar: Literary Minorities in Early Modern Spain [HUM] (4 cr)
SPAN 3654 - Seminar: Sex, Love, and Marriage in Golden Age Spanish Literature [HUM] (4 cr)
SPAN 3681 - Seminar: Romanticism and Revolution in 19th-Century Spain [HUM] (4 cr)
SPAN 3682 - Seminar: Realism and Reform in 19th-Century Spain [HUM] (4 cr)
SPAN 3683 - Seminar: Modernity and Identity in Spain, 1900-1930 [HUM] (4 cr)
SPAN 3684 - Seminar: Hispanic Film [HUM] (4 cr)
SPAN 4001 - Research Symposium [HUM] (4 cr)

Latin American Area Studies Course Descriptions
ANTH 3601. Social Justice and Human Rights in Latin America. (IP; 4 cr; [SOC 3601]; prereq 1111 or Soc 1101 or #; fall, every year)
Same as Soc 3601. Examination of social, economic, and political transformations in Latin America with an emphasis on social justice and human rights. Critical approaches to understand U.S.-Latin American relations, labor struggles, rebellions to define alternative development, indigenous resistance to encroachment on resources and ways of life, civil war and genocide, and efforts to create a more environmentally and socially sustainable development.

ANTH 3602. Women in Latin America. (IP; 4 cr; [SOC 3602]; prereq 1111 or Soc 1101 or #; spring, every year)
Same as Soc 3602. Study of the social, economic, and political positions of women in Latin American countries. Topics include class and ethnic differences, women in the labor force, and women’s participation in political movements through the lens of feminist theory.

ANTH 3603. Latin American Archaeology. (SS; 4 cr; prereq 1111 or 2103; fall, spring, offered periodically)
Latin America from the earliest human colonization to European contact. Includes societies from northern Mexico through Tierra del Fuego, as well as the Caribbean. Covers early hunting gathering societies, origins of agriculture, the rise of powerful states and empires, and their influence on later Colonial-period societies.

HIST 1601. Latin American History: A Basic Introduction. (IP; 4 cr; spring, odd years)
Methods, themes, and problems in the study of Latin American history.

HIST 2608. History of Cuba: From Colony to Revolutionary State. (HIST; 4 cr; fall, spring, offered periodically)
A survey of the history of Cuba from Spanish colonization to the present, with emphasis on the 19th and 20th centuries. Topics include colonization, slavery, imperialism, nationalism, and the Cuban Revolution.

HIST 3601. Great Books in Latin American History. (IP; 4 cr; fall, every year)
A look at Latin American history through great books.

HIST 3612. Social Revolution in 20th-Century Latin America. (HIST; 4 cr; fall, offered periodically)
Examination of social revolution in 20th-century Latin America. Particular attention paid to social revolution in Mexico, Bolivia, Cuba, and Nicaragua. Populism, democratic attempts at social revolution, and counterrevolution in other parts of Latin America also considered. Key issues include imperialism, capitalism, communism, nationalism, and the Cold War.

HIST 3613. U.S.-Latin American Relations in Historical Perspective. (IP; 4 cr; fall, spring, offered periodically)
Explore issues of race and ethnicity in Latin America from a historical perspective. Covering the colonial and national periods, examine how ideas of race and ethnicity have intersected with political, economic, and socio-cultural developments in the region. Consider the ways in which race, class, and gender have interacted in Latin America.

LAAS 1993. Directed Study. (1-5 cr [max 10 cr]; prereq approved directed study form; fall, spring, every year)
An on- or off-campus learning experience individually arranged between a student and a faculty member for academic credit in areas not covered in the regular curriculum.

LAAS 2993. Directed Study. (1-5 cr [max 10 cr]; prereq approved directed study form; fall, spring, every year)
An on- or off-campus learning experience individually arranged between a student and a faculty member for academic credit in areas not covered in the regular curriculum.

LAAS 3100. Contemporary Latin America. (1 cr [max 8 cr]; prereq LAAS major; to be repeated each sem a student is in residence; only 4 cr may apply to LAAS major; fall, spring, every year)
Opportunity for LAAS majors to read about and discuss in historical and cultural contexts the most important contemporary developments in Latin America.

LAAS 3201. Bibliographical Tools and Journals in Latin American Area Studies. (2 cr; prereq LAAS major; fall, spring, offered periodically)
For the student new to the major. Introduction to the standard bibliographical tools and journals in Latin American area studies.
LAAS 3993. Directed Study. (1-5 cr [max 10 cr]; prereq approved directed study form; fall, spring, every year) An on- or off-campus learning experience individually arranged between a student and a faculty member for academic credit in areas not covered in the regular curriculum.

LAAS 4901. Senior Capstone in Latin American Area Studies. (2-4 cr; A-F only; prereq 3201, sr LAAS major; #; fall, spring, offered periodically) A capstone experience for LAAS majors. Individual reading and development of an original research paper in consultation with the LAAS coordinator. With approval of the LAAS major and another faculty member, a capstone experience in a different discipline that contains primarily Latin American content may be wholly or partially substituted for LAAS 4901, but requires completion of four total credits.

LAAS 4993. Directed Study. (1-5 cr [max 10 cr]; prereq approved directed study form; fall, spring, every year) An on- or off-campus learning experience individually arranged between a student and a faculty member for academic credit in areas not covered in the regular curriculum.

POL 3475. International Human Rights. (IP; 4 cr; prereq 1401 or #; spring, odd years) Explores the historical and philosophical development of concepts of human rights and the contemporary international political and legal frameworks to address rights. Analyzes contemporary concerns about political, economic, and social rights, as well as specific human rights topics like human trafficking and war crimes. Compares American, European, Asian, and Developing World conceptions and rights topics like human trafficking and war crimes. Compares

POL 3504. Latin American Politics. (IP; 4 cr; prereq 1401 or #; spring, every year) A comparative examination of central issues in and components of Latin American political life, with a particular focus on economic development, political development of democratic regimes, political violence and human rights, and the region’s role in the world. Countries analyzed may include Argentina, Brazil, Chile, Colombia, El Salvador, Mexico, Peru, and Cuba.

SOC 3601. Social Justice and Human Rights in Latin America. (IP; 4 cr; =ANTH 3601; prereq 1101 or Anth 1111 or #; fall, every year) Same as Anth 3601. Examination of social, economic, and political transformations in Latin America with an emphasis on social justice and human rights. Critical approaches to understand U.S.-Latin American relations, labor struggles, rebellions to define alternative development, indigenous resistance to encroachment on resources and ways of life, civil war and genocide, and efforts to create a more environmental and socially sustainable development.

SOC 3602. Women in Latin America. (IP; 4 cr; =ANTH 3602; prereq 1101 or Anth 1111 or #; spring, every year) Same as Anth 3602. Study of the social, economic, and political positions of women in Latin American countries. Topics include class and ethnic differences, women in the labor force, and women’s participation in political movements through the lens of feminist theory.

SPAN 2121. Associated Languages: Intensive Portuguese. (IP; 4 cr; prereq 2002 or Fren 2002 or #; fall, spring, offered periodically) Intensive, accelerated study of the basic skills of Brazilian Portuguese (reading, writing, listening, and speaking) with emphasis on oral competency.

SPAN 3011. Conversation, Composition, and Culture. (IP; 2 cr; prereq 2002 or #; fall, every year) Practice in effective oral and written communication in Spanish for advanced students, with an emphasis on the diversity of contemporary Hispanic cultures and a review of basic grammatical concepts.

SPAN 3012. Spanish Grammar in Practice. (IP; 2 cr; prereq 3011 or #; spring, every year) A review of advanced Spanish grammar, with emphasis on areas of concern and challenge for the non-native speaker, and on strengthening academic writing skills in Spanish.

SPAN 3111. Readings in Spanish I. (HUM; 2 cr; prereq 3011 or #; fall, every year) Introduction to representative works of contemporary Hispanic literature from diverse genres and cultural contexts, with emphasis on strategies for comprehension and interpretation.

SPAN 3112. Readings in Spanish II. (HUM; 2 cr; prereq 3012, 3111 or #; spring, every year) Further examination of representative works of Hispanic literature from diverse genres, time periods, and cultural contexts, with emphasis on literary concepts and terminology, analysis, research and writing practices, and interpretation.

SPAN 3211. Literature and Culture of Latin America. (HUM; 4 cr; prereq 3012, 3112, or #; spring, offered periodically) Study of important exemplary works of Latin American literary and cultural production through major historical periods. Texts are examined in light of multiple contexts, such as artistic, political, historical, and philosophical.

SPAN 3212. Literature and Culture of Spain. (HUM; 4 cr; prereq 3012, 3112, or #; spring, offered periodically) Study of important exemplary works of Spanish (peninsular) literary and cultural production through major historical periods. Texts are examined in light of multiple contexts, such as artistic, political, historical, and philosophical.

SPAN 3621. Seminar: Confessions and Letters in Latin American Fiction. (HUM; 4 cr; prereq 3012, 3112 or #; spring, offered periodically) Study of confessions and letters in Latin American fiction. Fiction is seen as a combination of texts within other texts. The combination becomes part of the fictional game which imitates and enhances reality.

SPAN 3622. Seminar: Exile and Emigration in Latin American Fiction. (IP; 4 cr; prereq 3012, 3112 or #; fall, offered periodically) Study of contemporary Latin American literary texts where characters face forms of exile, abandonment, and displacement as a result of emigration to Europe and the United States.

SPAN 3623. Seminar: Ecology and Nature in Latin American Literature. (ENVT; 4 cr; prereq 3012, 3112 or #; fall, offered periodically) Study of Latin American texts where authors create characters that read or misread Nature and its preservation or extinction. How globalization is making this issue more relevant in the Latin American context.

SPAN 3651. Seminar: Miguel de Cervantes Saavedra’s “El ingenioso hidalgo Don Quijote de la Mancha”. (HUM; 4 cr; prereq 3012, 3112 or #; fall, offered periodically) Study of Miguel de Cervantes Saavedra’s novel “El ingenioso hidalgo Don Quijote de la Mancha” in light of its socio-historical context.

SPAN 3652. Seminar: Literary Minorities in Early Modern Spain. (HUM; 4 cr; prereq 3012, 3112 or #; fall, offered periodically) Study of the representative literary works written by or about Spanish Jewish and Muslim minorities in light of their respective socio-historical contexts.

SPAN 3654. Seminar: Sex, Love, and Marriage in Golden Age Spanish Literature. (HUM; 4 cr; prereq 3012, 3112 or #; fall, offered periodically) The theme of sex, love, and marriage in Golden Age Spanish Literature through prose, poetry, and theatre of the Golden Age (XVI-XVII centuries) Spain. Consideration of the gender relations and gender politics reflected in the works and the socio-historical context in which these works were produced.

SPAN 3681. Seminar: Romanticism and Revolution in 19th-Century Spain. (HUM; 4 cr; prereq 3012, 3112 or #; fall, offered periodically) Study of representative texts (prose and poetry) from the first half of the 19th century in Spain, with emphasis on the expression of the Romantic vision within the particular political context of the period, marked by tensions between liberal reform and traditional conservatism.

SPAN 3682. Seminar: Realism and Reform in 19th-Century Spain. (HUM; 4 cr; prereq 3012, 3112 or #; fall, offered periodically) Study of representative texts (novels, stories, and essays) from the second half of the 19th century in Spain, with emphasis on the rise of
realism as an exploration of the socio-political reality of the era and the need for reform. The focus is on general trends in Western cultures (e.g., industrialization, positivism, secularization).

SPAN 3683. Seminar: Modernity and Identity in Spain, 1900-1930. (HUM; 4 cr; prereq 3012, 3112, or #; fall, offered periodically) Study of representative texts (prose and poetry) from the early decades of the 20th century in Spain with particular emphasis on their responses to changes brought by modernity: advancing technology, modern psychology, political experimentation, spiritual exploration, and artistic innovation.

SPAN 3684. Seminar: Hispanic Film. (HUM; 4 cr; prereq 3012, 3112 or #; fall, offered periodically) View, study, and discuss relevant Hispanic films from Spain, Latin America, and the U.S.A. Consider the films' cinematic techniques and their specific socio-cultural and socio-political contexts.

SPAN 4001. Research Symposium. (HUM; 4 cr; A-F only; prereq #; spring, every year) A capstone experience for majors, consisting of an introduction to research methods and critical approaches to literature, as well as development of an independent research project and presentation. Spanish majors are required to complete a minimum of 16 of the 20 required credits at the 32xx and 36xx levels prior to registering for Span 4001. It is recommended to have all 20 of these credits completed prior to taking Span 4001.

**Liberal Arts for the Human Services (LAHS)**

*Division of the Social Sciences*

**Objectives**—This program's three main purposes are to provide a firm liberal arts basis for understanding individual human behavior in its social context; provide the liberal arts foundation for professional work in baccalaureate-level human services occupations, such as counseling, casework, personnel work, criminal justice, and administration of human services in federal and state agencies, private businesses, or professional organizations; and prepare students for graduate work in the human services professions.

**Liberal Arts for the Human Services Major**

Students develop a coherent program of study in consultation with their major advisers generally no later than the spring semester of their sophomore year. Advisers normally are faculty with a background or specialties related to the human services area (anthropology, psychology, sociology).

Because LAHS students pursue varied careers, they are advised to include in their programs courses appropriate to their career plans. In all instances, students should consult with their advisers when designing their programs.

Students should discuss the arrangement of their field experience with the LAHS internship adviser no later than the fall semester of their junior year. Information concerning specific field placements can be obtained from the directory of the Career Services or the LAHS internship adviser.

No grades below C- are allowed. Courses may not be taken S-N, unless offered S-N only.

A minimum GPA of 2.00 is required in the major to graduate. The GPA includes all, and only, University of Minnesota coursework. Grades of "F" are included in GPA calculation until they are replaced.

**Required Courses**

Courses and directed studies not listed below may be considered for addition to the LAHS major, provided the subject matter is appropriate for the program of study. Contact LAHS coordinator.

Students should complete Psy 4102 during the year before their internship (PSY 4896 or IS 3796 or IS 3996).

</table>
developed by anthropologists to explain both the unity and diversity of comparative study of cultures throughout the world. Concepts Varieties and range of human behavior as revealed through the spring, every year)

ANTH 2103. Archaeology. (SS; 4 cr; fall, every year) Survey of prehistoric and early historic cultures from around the world. Covers the development of hunting and gathering societies, origins of agriculture, and growth of urbanization and state-level societies. (two 65-minute lectures, one 120-minute lab session)

ANTH 2202. Men and Masculinities. (SS; 4 cr; prereq some academic background or knowledge about gender and sexuality is recommended; fall, offered periodically) Introduction to the field of men and masculinity. Examines cultural construction of masculinity in sports, family, work, media, and other social realms, with a focus on contemporary American, Chinese, Mexican, and Japanese societies. Highlights the multiple masculinities that exist, showing which are privileged and what effects this hierarchy of masculinities has. Topics include men’s movements and networks, men’s socialization, male sexuality and fertility, male aggression and violence, the idea of machismo, intimacy and friendship among males, fatherhood, men’s experiences with sports and work, media representations of boys and men, and the social construction of masculinities in different historical and cultural contexts. Helps students understand how masculinity as a social concept affects their relationships with the people in their lives, approaching gender problems in a rational way, and developing cultural sensitivity toward masculinity issues.

ANTH 2604. China in the Era of Globalization. (IP; 4 cr; spring, offered periodically) A seminar exploring the multifaceted nature of contemporary globalization and the transnational forces that have greatly contributed to the social, cultural, political, and economic changes in post-reform (1978-present) China and the diasporic Chinese communities. Examines the key concepts and theoretical frameworks of globalization, transnationalism, and economic development. Major topics include the interconnected relationship between the global economy and China’s domestic labor migration; increasing social stratification and gender inequality in mainland China; the rise of consumerism and the emergence of a global market for Chinese cultural media; cross-cultural romance, marriages, and families; nationalism and collective identity in China and the Chinese diaspora, and so on. Offers important bases for a critical evaluation of the significant roles that contemporary Chinese economy and society play in the era of globalization.

ANTH 2605. Anthropology of Globalization. (SS; 4 cr; prereq knowledge about or background in anthropology or behavioral sciences is recommended; spring, offered periodically) Globalization is one of the fundamental keywords of contemporary human life, yet there is a substantial debate about its nature, impact, trajectory, and future. Explore some of the most important aspects of globalization and seek to understand how various peoples around the world have experienced the process of globalization. Introduction to three interconnected frameworks on globalization: 1) take an initial economic approach to globalization, and examine how globalization reshapes local, regional, and national economies; 2) explore how globalization is also a cultural process, affecting ideas of citizenship and identity; 3) look into the impact of globalization on other areas of social, political, and ecological life and explore alternative approaches to large-scale development and globalization.

ANTH 3204. Culture, Food, and Agriculture. (ENVT; 4 cr; =SOC 3204; prereq 1111 or Soc 1101 or #; spring, every year) Same as Soc 3204. Examines the globalization of food systems utilizing a political ecology perspective to understand global and local dimensions of production, marketing, and consumption. Emphasis on connections between food production and national identity, relations of power, genetic engineering, environmental destruction, the politics of world hunger, and local efforts to achieve sustainability.

ANTH 3206. Ecological Anthropology. (ENVT; 4 cr; prereq 1111 or 2101 or 2103; fall, every year) Exploration of human ecology and the causes and effects of environmental change, using data from archaeology, biological anthropology, and cultural anthropology. Emphasis on understanding the social and economic context of human adaptations to the environment. Examination of cultures worldwide and through time that have (or have failed to) live sustainably.

ANTH 3352. Representation and Power in Contemporary China. (SS; 4 cr; prereq some knowledge or background about Chinese history, and Chinese society is recommended; spring, offered periodically) Look into contemporary Chinese society and culture, along with recent debates in social theory and theories of representation. Critically examine the categories and assumptions we bring to the study of contemporary China and how we might rethink them. Explore a wide range of topics, including the "birth" of middle-class
subjectivity, the varied modes of nostalgia about the socialist past, the
discourse of "quality" (suzhi) as a marker of modernity, the
constitution of gendered identities, the signifying economy of the
everyday, the commodification of the body, and so on. Overall, study the
complicated politics of representation in relation to China's consistent pursuit of modernity and drastic social transformation in the past few
decades.

ANTH 3402. Representations from the Field: American Indian Ethnography and Ethnohistory. (HDIV; 4 cr; =HIST 3402; fall, offered periodically)
Same as Hist 3402. An analysis of ethnographic and ethnohistoric materials focusing on specific American Indian cultures.

ANTH 3455. North American Archaeology. (SS; 4 cr; prereq 1111 or 2103; fall, spring, offered periodically)
The archaeology of the societies located in the current United States and Canada prior to European colonization. Includes the earliest human colonization of North America (circa 12,000 years ago), early hunting and gathering societies, the development of agriculture, and the formation of complex chiefdoms. Emphasis on the diversity of cultures, languages, economies, and environments found throughout precontact North America.

ANTH 3601. Social Justice and Human Rights in Latin America. (IP; 4 cr; =SOC 3601; prereq 1111 or Soc 1101 or #; fall, every year)
Same as Soc 3601. Examination of social, economic, and political transformations in Latin America with an emphasis on social justice and human rights. Critical approaches to understand U.S.-Latin American relations, labor struggles, rebellions to define alternative development, indigenous resistance to encroachment on resources and ways of life, civil war and genocide, and efforts to create a more environmentally and socially sustainable development.

ANTH 3602. Women in Latin America. (IP; 4 cr; =SOC 3602; prereq 1111 or Soc 1101 or #; spring, every year)
Same as Soc 3602. Study of the social, economic, and political positions of women in Latin American countries. Topics include class and ethnic differences, women in the labor force, and women's participation in political movements through the lens of feminist theory.

ANTH 3603. Latin American Archaeology. (SS; 4 cr; prereq 1111 or 2103; fall, spring, offered periodically)
Latin America from the earliest human colonization to European contact. Includes societies from northern Mexico through Tierra del Fuego, as well as the Caribbean. Covers early hunting gathering societies, origins of agriculture, the rise of powerful states and empires, and their influence on later Colonial-period societies.

ANTH 3701. Forensic Anthropology. (SCH-L; 4 cr; prereq 2101 or Biol 2102; fall, odd years)
Recovery, identification, and analysis of human skeletal remains, including investigation techniques, identification of age, sex, ancestry, and cause of death. Two 65-min lectures and one 2-hour lab weekly.

CMR 2411 Health Communication (HUM; 4 cr; fall, offered periodically)
A survey of the critical role communication plays in health promotion, specifically in the area of doctor-patient interaction and health campaigns. Communicative issues include the social construction of health, the role of culture in health and healing, and social support.

CMR 2421 Business and Professional Communication (E/CR; 4 cr; prereq 1052, 1062 or #; spring, offered periodically)
Developing proficiency in communication skills in business and professional contexts. Preparing, selecting, organizing, designing, and delivering messages in business situations. Analyzing meeting/group facilitation, interviewing, and professional presentations.

CMR 3401. Communication Theory. (SS; 4 cr; prereq 1101 or #; fall, every year)
Detailed study of the theoretical tradition of human communication. Focuses on social scientific and humanities theories used to explain social interaction. Provides general foundation on various traditions of inquiry as well as qualitative and quantitative methods.

CMR 3411. Intercultural Communication Theory and Research. (HDIV; 4 cr; prereq 1101 or #; fall, offered periodically)
Study of intercultural communication from an interpersonal and group perspective.

CMR 3421. Organizational Communication Theory and Research. (SS; 4 cr; prereq 1101 or #; spring, offered periodically)
Study of organizational communication, including small group perspectives.

ECON 1111. Principles of Microeconomics. (SS; 4 cr; prereq high school algebra or #; fall, spring, every year)

ECON 1112. Principles of Macroeconomics. (SS; 4 cr; prereq high school algebra or #; fall, spring, every year)
Introduction to basic economic problems, concepts, and theoretical models. U.S. economic institutions and the economic organization of society. The role of markets in the production and distribution of societal resources. Measurement of economic performance; national income, inflation, and unemployment; competing macroeconomic theories and stabilization policies.

ECON 3201. Microeconomic Theory. (SS; 4 cr; prereq 1111, Math 1101 or #; fall, every year)
Analytical approach to decision making by individual economic units in the output and input markets, under perfect and imperfect market conditions. Externalities and rule of government.

ECON 3202. Macroeconomic Theory. (SS; 4 cr; prereq 1112, Math 1101 or #; spring, every year)
The theory of national income determination; inflation, unemployment, and economic growth in alternative models of the national economy.

HIST 2704. Gender, Women, and Sexuality in Medieval Europe. (SS; 4 cr; spring, odd years)
Analysis of the history of European women and gender systems as constructed during the Middle Ages (c. 500-1500).

HIST 3402. Representations from the Field: American Indian Ethnography and Ethnohistory. (HDIV; 4 cr; =ANTH 3402; fall, offered periodically)
Same as Anth 3402. An analysis of ethnographic and ethnohistoric materials focusing on specific American Indian cultures.

HIST 3613. U.S.-Latin American Relations in Historical Perspective. (IP; 4 cr; fall, spring, offered periodically)
Examination of the history of U.S.-Latin American relations from U.S. independence to the present. Focuses on the political, economic, social, and cultural relationships between the two.

HIST 3614. Race and Ethnicity in Latin America. (HDIV; 4 cr; fall, spring, offered periodically)
Explore issues of race and ethnicity in Latin America from a historical perspective. Covering the colonial and national periods, examine how ideas of race and ethnicity have intersected with political, economic, and socio-cultural developments in the region. Consider the ways in which race, class, and gender have intersected in Latin America.

IS 3796. Interdisciplinary Internship in the Helping Professions. (1-16 cr [max 32 cr]; S-N only; prereq Psy 4102, approved internship form; Psy 4101 recommended; fall, spring, summer, every year)
One-semester educational experience providing field applications in the helping professions (social work, counseling, casework, child protection services, educational settings, human resource counseling, and the like) for the student's theoretical classroom learning experiences.

IS 3996. Interdisciplinary Internship. (1-16 cr [max 32 cr]; S-N only; prereq approved internship form; fall, spring, summer, every year)
One-semester educational experience in a work environment providing field applications for the student's theoretical classroom learning experiences.

MGMT 3151. Human Resources Management I. (E/CR; 2 cr; prereq 2101 or #; spring, every year)
An introduction to the functional areas of human resource management through the use of case studies. Topics include legal issues, planning, recruitment, training, evaluation, compensation, and benefits.

MGMT 3152. Human Resources Management II. (HDIV; 2 cr; prereq 2101 or #; fall, spring, offered periodically)
Topics in human resource management: evaluating employee performance, training, safety, labor relations, international human resource management.
MGMT 3171. Leadership in Organizations. (SS; 2 cr; prereq Stat 1601 or Stat 2601 or #; spring, every year)
Leadership is the ability to influence a group of people towards a goal. Examination of leadership qualities and theories as they apply to leading an organization. Ethics, social responsibility, team work, motivation, and conflict resolution skills from the perspective of a leader. International and culturally diverse aspects of leadership and leadership development. Students have the opportunity to practice leadership skills during the course.

MGMT 3513. Negotiation. (SS; 4 cr; =[PSY 3513]; prereq 3221 or Psy 3501 or Psy/Mgmt 3701; spring, offered periodically)
Same as Psy 3513. Examines the theoretical and applied aspects of negotiation. Topics include negotiation theory, strategy, skills and tactics, communication processes, global negotiation, and ethics. Use of negotiation simulations.

MGMT 3701. Organizational Behavior. (SS; 4 cr; =[PSY 3701]; prereq Stat 1601 or Stat 2601, jr or sr; fall, spring, offered periodically)
Same as Psy 3701. Uses the theories and research of the behavioral sciences to understand how organizations function at the individual, group, and organizational levels. Topics include stress in the workplace; group dynamics; power, leadership, and attribution theory.

POL 3201. Legislative Process. (SS; 4 cr; prereq 1201 or #; Stat 1601 or Stat 2601 recommended; fall, odd years)
The internal organization of Congress and state legislatures, with emphasis on how rules and organizational changes affect the policy process. Topics include the evolution of the modern Congress and state legislatures, the committee system, the role of party leadership, and competing theories of congressional organization and behavior.

POL 3233. Civil Liberties and American Politics. (E/CR; 4 cr; prereq 1201; spring, even years)
Overview of the contested history of civil liberties in the United States. Topics include a discussion of the role of civil liberties in American political culture and the theoretical foundations of civil liberties as a concept. Survey of changing Supreme Court interpretations of the Bill of Rights and when and why its opinions on such subjects as freedom of speech have varied over time. Also examined are factors which have contributed to support and opposition to civil liberties throughout the history of the United States within the public as a whole.

POL 3234. Race, Class, and Power: Social Movements and Interest Groups in U.S. Politics. (HDIV; 4 cr; prereq 1201; fall, even years)
A broad overview of social movements and interest groups. Using a case study approach, the class considers the question of when and why social movements and interest groups in American politics arise and what makes them more or less successful.

POL 3263. Political Psychology. (SS; 4 cr; prereq 1201; Psy 1051 or # recommended; fall, odd years)
Examines the utility of concepts from personality and social psychology for conducting political analysis and understanding political behavior. Explores the role of the individual, group processes, and the political context in political decision making by both leaders and nonleaders.

POL 3354. Political Ethics. (E/CR; 4 cr; prereq 1101 or #; fall, even years)
Examination of the strengths, weaknesses, and implications of moral arguments in political decision making. Ethical frameworks drawn from theoretical traditions are applied to a range of contemporary U.S. case studies such as state use of violence, interrogation in times of war, governmental secrecy and deceit, official disobedience, health care access, welfare reform, and environmental regulation and protection.

POL 3503. Women in Politics Worldwide. (IP; 4 cr; prereq 1201 or #; spring, odd years)
Examines how gender influences politics throughout the world. Topics covered include: the "gender gap" and voter turnout, women's involvement in linkage organizations, such as parties and interest groups, and finally policy outcomes regarding women in different kinds of political systems.

PSY 1051. Introduction to Psychology. (SS; 4 cr; fall, spring, every year)
An introduction to the science of mind and behavior. Topics include history of psychology, research methods, biological bases for behavior, life span development, sensation and perception, learning, cognitive and social processes, personality, psychopathology, and applications of psychology.

PSY 2001. Research Methods in Psychology. (SS; 4 cr; prereq 1051, Stat 1601 or Stat 2601, psy major or minor, or #; fall, spring, every year)
Design, analysis, and interpretation of research in psychology. Instruction on different research techniques and ethics in research. Students conduct, analyze, and evaluate empirical research and gain experience preparing APA-style research reports. Includes laboratory/discussion sessions.

PSY 2411. Introduction to Lifespan Developmental Psychology. (SS; 4 cr; prereq 1051; fall, every year)
An introduction to theory, data, and research approaches in development from the prenatal period through childhood, adolescence, adulthood, and aging until the cessation of life. Includes physical, perceptual, cognitive, language, moral, personality, socio-emotional, family, and career development and changes over time, as well as issues of death, dying, and bereavement. Includes a multicultural focus.

PSY 2581. Drugs and Human Behavior. (SS; 2 cr; prereq 1051 or #; no credit for students who have received credit for Psy 1081; spring, every year)
Survey of psychoactive drugs, their effects on mind and behavior, and prevention and treatment of drug abuse.

PSY 3051. The Psychology of Women and Gender. (HDIV; 4 cr; prereq 1051 or #; spring, every year)
Exploration of the interactive biological, psychological, and socio-cultural processes that shape the lives of women and the experience of gender. Topics include: the psychobiology of sex; the social construction of sex and gender; socialization and development; media representations; identity and sexuality; language and communication; motivation and personality; relationships; work and family lives; mental and physical health; mid- and later life development; victimization; therapy; intersections of race, class, and gender; and feminist approaches to teaching, learning, and knowing.

PSY 3101. Learning Theory and Behavior Modification. (SS; 4 cr; prereq 2001 or #; fall, every year)
Major theories of learning and their importance for understanding human and nonhuman behavior. Classical and operant conditioning, generalization, discrimination, stimulus control, animal cognition. Behavior modification theories and techniques and their application to clinical populations. Lab projects demonstrate learning and behavior modification theories, concepts, and techniques and illustrate research methods and theory testing. Includes lab.

PSY 3111. Sensation and Perception. (SS; 4 cr; prereq 2001 or #; fall, every year)
Empirical study of sensory processes and perceptual organization with emphasis on vision and audition. Anatomy and physiology of sense organs, psychophysics, signal detection theory, attention, search perception, and perceptual-motor coordination. Includes lab.

PSY 3112. Cognition. (SS; 4 cr; prereq 2001 or #; spring, every year)
Empirical study of memory, language behaviors, representation of knowledge, judgment, decision making, problem solving, and creative thinking. Includes lab.

PSY 3211. Biological Psychology. (SCI-L; 5 cr; prereq [1051, 2001] or Biol 1101 or Biol 1111; fall, every year)
Brain organization and function; an emphasis on an understanding of the neural processes that underlie human and nonhuman behavior. Incorporates information from psychology, neuroscience, endocrinology, physiology, chemistry, neurology, and zoology to investigate the physiological bases of behavior. Topics include sensory processes, drugs and addiction, biological rhythms, sexual differentiation, reproduction, methods in neuroscience, neuropsychological disorders, and clinical assessment. Lab projects focus on neuroanatomical organization and function of the brain. (4 hrs lect, 1 hr lab)

PSY 3221. Behavioral Biology of Women. (SCI; 4 cr; prereq (3201 or Biol 2111) or Biol 2111 or #; spring, odd years)
Exploration of proximate and ultimate influences on female behavior in human and nonhuman species. Topics include sexual differentiation, gender differences in cognition, biological basis of sexual orientation, female sexual selection, dominance, and other
topics of interest to students. Readings consist of primary journal articles.

PSY 3261. Human Sexuality. (SS; 4 cr; prereq 1051, 2001; no credit for students who have received cr for Psy 1071; fall, every year)
Survey of aspects of human sexuality, including intimacy and communication; male and female anatomy, physiology, and reproduction; development of sexual differentiation, gender identity, gender role, and gender orientation; varieties of sexual expression; pregnancy and child birth; contraception and disease prevention; sexual coercion and abuse; sexual dysfunctions and their treatment.

PSY 3302. Personality. (SS; 4 cr; prereq 1051 or #; spring, every year)
Nature of personality constructs and theories. Conscious vs. nonconscious processes; emotion and motivation; nature and measurement of personal traits; their dimensional structure, stability, development, and heritability.

PSY 3313. Psychopathology. (SS; 4 cr; prereq 1051 or #; spring, every year)
Psychological disorders and their treatment, including anxiety, personality, mood, schizophrenia, eating, substance and other recognized disorders of adults.

PSY 3314. Child and Adolescent Psychopathology. (SS; 4 cr; A-F only; prereq 1051 or #; fall, every year)
Broad overview of child and adolescent psychopathology—initially focusing on understanding basic concepts, historical context, developmental influences, theoretical perspectives, research methodology, and issues related to classification and assessment—followed by comprehensive information concerning the major childhood disorders (e.g., ADHD, depression, anxiety, pervasive developmental disorders).

PSY 3315. Parenting and Family Therapy. (SS; 4 cr; prereq 1051; spring, every year)
Examination of the effects of parenting on the growth and development of children. Emphasizes specific parenting styles and practices and their effects on the social/emotional development and functioning of children at each stage of life. Provides an overview of the theory and practice of family counseling/therapy. Major systemic theoretical orientations are explored.

PSY 3401. Developmental Psychology I: Child Psychology. (SS; 4 cr; prereq 1051 or #; fall, every year)
Theory, data, and research in development from conception to adolescence. Prenatal and physical development as well as perceptual, cognitive, personality, and social development. Language acquisition and Piaget's theory of cognitive development.

PSY 3402. Developmental Psychology II: Adolescence. (SS; 2 cr; prereq 1051 or #; spring, every year)
Theory, data, and research in adolescent development with emphasis on physical, cognitive, and social development.

PSY 3403. Developmental Psychology III: Adulthood and Aging. (E/CR; 4 cr; prereq 1051 or #; fall, every year)
An overview of current concepts, theories, and methods in the study of adult development and aging.

PSY 3404. Culture and Human Development. (HDIV; 4 cr; prereq 1051; spring, every year)
Examination of the role of culture in human development through current research and examples from around the world. Learn about similarities and cultural differences in human development, and the regularities that explain these variations. Topics include the concept of culture in developmental psychology, diversity in child rearing practices, enculturation, gender roles, schooling, development in multicultural contexts, and the influence of technology and cultural change on development. Students learn to think culturally about their own development and see how it applies to their future careers.

PSY 3501. Social Psychology. (SS; 4 cr; prereq 1051 or Soc 1101 or #; fall, every year)
Theories and research in the study of interpersonal behavior. Topics include aggression, prejudice, altruism, persuasion, group dynamics, and social influence.

PSY 3502. Psychology and Law. (SS; 4 cr; prereq 1051; spring, even years)
A psychological perspective to the law and to the legal system. Topics include jury decision making, forensic psychology, trial processes, eyewitness testimony, and sentencing.

PSY 3503. Consumer Psychology. (SS; 4 cr; prereq Stat 1601 or Stat 2601 or #; spring, odd years)
Psychological basis for understanding consumers. Some of the topics include consumer behavior, consumer cognitive processes, and consumer judgments and decisions.

PSY 3504. Educational Psychology. (SS; 4 cr; prereq 1051; spring, offered periodically)
Discussion of psychological principles/theories in relation to learning in academic settings. Topics may include: a consideration of developmental and social issues that are likely to impact the learner; a discussion of individual differences in learning; an examination of different theoretical approaches to learning applied specifically to educational settings; an analysis of factors related to student motivation and behavior; and a discussion of issues related to testing and measurement in academic settings.

PSY 3513. Negotiation. (SS; 4 cr; #; spring, offered periodically)
Same as Mgmt 3513. Examines the theoretical and applied aspects of negotiation. Topics include negotiation theory, strategy, skills and tactics, communication processes, global negotiation, and ethics. Use of negotiation simulations.

PSY 3521. Health Psychology. (SS; 4 cr; prereq 1051; spring, every year)
Health implications of interactions among behavioral, environmental, and physiological states. Physiological bases of behavior and health; stress and coping; behavioral antecedents of disease; psychoneuroimmunology; disease prevention and health promotion.

PSY 3542. Multicultural Psychology. (HDIV; 4 cr; #; PSY 3541; prereq 1051; fall, every year)
Theoretical and methodological approaches to multicultural psychology. Multicultural psychology is the systematic study of behavior, cognition, and affect settings where people of different backgrounds interact. Exploration of these interactions both within and outside of the United States. Topics may include worldviews, communication styles, acculturation, prejudice, white privilege, identity development, physical and mental health, and multicultural competencies.

PSY 3701. Organizational Behavior. (SS; 4 cr; #; Mgmt 3701; prereq Stat 1601 or Stat 2601, jr or sr; fall, offered periodically)
Same as Mgmt 3701. Uses the theories and research of the behavioral sciences to understand how organizations function at the individual, group, and organizational levels. Topics include stress in the workplace; group dynamics; power, leadership, and attribution theory.

PSY 4101. Helping Relationships. (4 cr; prereq 3302 or 3313; fall, spring, every year)
Approaches to counseling and psychotherapy. Theories of helping relationships. Acquisition of helping skills, including attending behavior, reflection of feeling, paraphrasing, confrontation, and summarization. Major humanistic, cognitive, and behavioral approaches. Didactic instruction, observation of counseling and psychotherapeutic techniques, and practical experiences.

PSY 4102. Intro to Prof Conduct, Legal Constraints, Ethics in Human Services. (E/CR; 2 cr; prereq jr, 8 cr 3xxx or 4xxx human services courses or #; no credit for students who have received credit for IS 4101; fall, spring, every year)
Concepts of professional ethics in human services professions; ethically relevant legal mandates and constraints on professional practice; practical problems in the application of ethical principles.

PSY 4301. Clinical Assessment and Therapeutic Interventions. (4 cr; prereq 3313 or 4101; spring, every year)
Evaluation of psychological assessments and interventions from different perspectives. Topic examples: structured and unstructured assessments; career counseling and assessment; motivational interviewing; family and couples therapy; interpersonal therapy; group therapy; and solution-focused therapy.
and social class) within society have different access to power and resources, which affects groups on people's lives, careers, hopes, fears, and personalities. By actively thinking about issues facing societies today, students can develop a deeper understanding of how societies operate. Sociology broadens social insights, fosters critical thinking, and guides analytical thinking, and develops writing skills. It introduces students to the sociological study of deviance. Explores the emergence and function of law through the lens of social theory. The course assumes law is embodied in the social structure of society, including the role of law in maintaining and reproducing social order, class, race, and gender inequalities. The course is interdisciplinary and comparative in its scope and integrates jurisprudence and various social science theories.

SOC 1101. Introductory Sociology. (SS; 4 cr; fall, spring, every year) Introduction to the field of sociology, the exploration of societies, and how societies operate. Sociology broadens social insights, fosters critical thinking, guides analytical thinking, and develops writing skills. By actively thinking about issues facing societies today, students learn to examine life situations and the influence of sociology and groups on people's lives, careers, hopes, fears, and personalities. Emphasis on how society is stratified: how organizations and institutions influence the way people think, talk, feel, and act and how different groups (e.g., racial and ethnic) and divisions (e.g., gender and social class) within society have different access to power and privilege. People live their lives in relation to social and physical environments; sociologists study these environments and their effects on people's experiences and behavior.

SOC 2101. Systems of Oppression. (HDIV; 4 cr; prereq 1101 or Anh 1111 or #; fall, every year) Introduction to research procedures used in sociology. Developing a research design and applying it to a concrete problem. Questions of validity and reliability examined in the context of research projects developed by the students.

SOC 3111. Sociology of Modernization. (IP; 4 cr; prereq 1101 or Anh 1111 or #; spring, every year) Process of modernization in non-Western societies. Social, economic, and political impact of modernization from different theoretical perspectives. Assessment of those theoretical perspectives as a means to understand dynamics of change in Third World countries.

SOC 3112. Sociology of the Environment and Social Development. (ENVT; 4 cr; prereq 1101 or #; fall, odd years) Introduces students to the sociological study of the environment and social development. Examines the impact of international environmental and development efforts on individuals at the local level. Focuses on grassroots environmental activism and social development work. Explores and discusses power relations and systems of inequality within the context of environmental and social development efforts.

SOC 3121. Sociology of Gender and Sexuality. (HDIV; 4 cr; prereq 1101 or Anh 1111 or #; fall, every year) Introduces students to the sociological study of gender and sexuality. Focuses on gender differences and gender inequality. Analyzes the changing roles, opportunities, and expectations of women and men as their societies (and subsequently, gender relations and power) undergo change in today's world. Following a theoretical overview, examines how gender and sexuality affect everyday experiences.

SOC 3122. Sociology of Childhoods. (HDIV; 4 cr; prereq 1101 or #; spring, even years) Introduces students to the sociological study of childhoods. Examines the interaction between societies and their youngest members—how societies shape children's lives through social institutions such as families, education, and the state. Takes a close look at children's access to privileges and resources as determined by children's experiences of race, gender, class, nationality, and sexual orientation.

SOC 3123. Sociology of Aging. (HDIV; 4 cr; prereq 1101 or #; spring, every year) An introduction to sociology of aging. Examination of the major theories of social aging as well as the historical and cross-cultural variations in aging and differences by race, ethnicity, gender, and social class.

SOC 3124. Sociology of Law. (SS; 4 cr; prereq 1101; spring, every year) Explores the emergence and function of law through the lens of social theories. The course assumes law is embodied in the social structure of society; hence, it is the product of social interaction. Based on this assumption, it examines the role of law in maintaining and reproducing social order, class, race, and gender inequalities. The course is interdisciplinary and comparative in its scope and integrates jurisprudence and various social science theories.

SOC 3131. World Population. (ENVT; 4 cr; prereq 1101 or #; fall, every year) Population theory and demographic method. Dynamics of fertility and mortality as the basis of population forecasting and its policy implications. Emphasis on the tie between Third World demographic trends and population issues in the rest of the world.

SOC 3141. Sociology of Deviance. (E/CR; 4 cr; prereq 1101 or #; fall, even years) Introduces students to the sociological study of deviance. Explores the social reality of deviance within contemporary society and examines the social construction of deviant categories. Focuses on images of deviance as social constructs, rather than as intrinsic elements of human behavior. Investigates the complex relationships of deviance in contemporary society.
between individual behavior and social structure, with a focus on power, inequality, and oppression. Also, examines the socio-cultural definitions of morality and behavior.

**SOC 3204. Culture, Food, and Agriculture.** (ENVT; 4 cr; =ANTH 3204); prereq 1101 or Anth 1111 or #; spring, every year
Same as Anth 3204. Examines the globalization of food systems using a political ecology perspective to understand global and local dimensions of production, marketing, and consumption. Emphasis on connections between food production and national identity, relations of power, genetic engineering, environmental destruction, the politics of world hunger, and local efforts to achieve sustainability.

**SOC 3251. African Americans.** (HDIV; 4 cr; prereq 1101 or Anth 1111; fall, spring, offered periodically)
Examination of African American religious, economic, political, family, and kinship institutions in the context of the greater American society. Struggles to overcome problems and the degree of success or failure of these struggles are examined and placed in historical context.

**SOC 3252. Women in Muslim Society.** (IP; 4 cr; prereq 1101 or Anth 1111; spring, offered periodically)
The cultures and social statuses of women in several Muslim countries are examined and placed in their political, economic, and religious contexts.

**SOC 3601. Social Justice and Human Rights in Latin America.** (IP; 4 cr; =ANTH 3601); prereq 1101 or Anth 1111 or #; fall, every year)
Same as Anth 3601. Examination of social, economic, and political transformations in Latin America with an emphasis on social justice and human rights. Critical approaches to understand U.S.-Latin American relations, labor struggles, rebellions to define alternative development, indigenous resistance to encroachment on resources and ways of life, civil war and genocide, and efforts to create a more environmental and socially sustainable development.

**SOC 3602. Women in Latin America.** (IP; 4 cr; =ANTH 3602); prereq 1101 or Anth 1111 or #; spring, every year)
Same as Anth 3602. Study of the social, economic, and political positions of women in Latin American countries. Topics include class and ethnic differences, women in the labor force, and women's participation in political movements through the lens of feminist theory.

**STAT 1601. Introduction to Statistics.** (M/SR; 4 cr; prereq high school higher algebra; fall, spring, every year)
Scope, nature, tools, language, and interpretation of elementary statistics. Descriptive statistics; graphical and numerical representation of information; measures of location, dispersion, position, and dependence; exploratory data analysis. Elementary probability theory, discrete and continuous probability models. Inferential statistics, point and interval estimation, tests of statistical hypotheses. Inferences involving one and two populations, ANOVA regression analysis, and chi-squared tests; use of statistical computer packages.

**STAT 2601. Statistical Methods.** (M/SR; 4 cr; prereq Math 1101 or Math 1021; fall, every year)
Descriptive statistics, elementary probability theory; laws of probability, random variables, discrete and continuous probability models, functions of random variables, mathematical expectation. Statistical inference: point estimation, interval estimation, tests of hypotheses. Other statistical methods; linear regression and correlation, ANOVA, nonparametric statistics, statistical quality control, use of statistical computer packages.

---

### Management (Mgmt)

**Division of the Social Sciences**

This discipline offers a multidisciplinary liberal arts-based program that allows students to enter the field of management as a professional, or proceed to graduate studies.

**Objectives**—The management curriculum focuses on areas of human knowledge that concern the operation and control of business and nonprofit organizations. In addition to developing competence in analytical and core business areas, students majoring in the field are expected to learn to critically examine business and other institutions from a liberal arts perspective. Specifically, management students:

1. understand and use a variety of techniques to manage financial, human, and material resources
2. are able to critically conceptualize business problems and to develop appropriate strategies for problem solving
3. understand and use a variety of quantitative analysis techniques appropriate for business
4. develop collaborative skills
5. be competent in written and oral communication
6. develop competence in computer skills
7. are prepared for professional careers in business or public service, or for graduate study
8. are able to see relationships between management and other liberal arts disciplines.

### Management Major

Students intending on going to graduate school are strongly recommended to take MATH 1101-1102. Students are also recommended to take PHIL 2112, if not required to do so. Prospective majors should see a management faculty member before registering for classes. Consultation with an adviser is essential to program planning.

Requirements for the major include successful completion of each of the following four elements:
1) the management core
2) the 3000-level elective management block
3) the elective management capstone block
4) a program sub-plan in either Financial and Organizational Management (F&OM) or Global Business (GB)

Grades of D or D+ in MGMT 2101-2102, ECON 1111-1112, STAT 1601 or 2601 may not be used to meet the major requirements. Up to 4 credits of other coursework with a grade of D or D+ may be used to meet the major requirements if offset by an equivalent number of credits of A or B. No coursework for the major may be taken S-N unless offered S-N only.

A minimum GPA of 2.00 is required in the major to graduate. The GPA includes all, and only, University of Minnesota coursework. Grades of “F” are included in GPA calculation until they are replaced.

No more than 4 credits from each of the following can be applied to the major: ECON 4501—Senior Research Seminar in Economics and Management, MGMT x993—Directed Study.

**Element 1: The Management Core**

Students must successfully complete all of the courses below in order to satisfy this element of the major.

Students should complete all but ECON 3113 and MGMT 3601 during their first two years.

- **CMR 1052**—Introduction to Public Speaking [E/CR] (2 cr)
- **ECON 1111**—Principles of Microeconomics [SS] (4 cr)
- **ECON 1112**—Principles of Macroeconomics [SS] (4 cr)
- **ECON 3113**—Money, Banking, and Financial Markets [SS] (4 cr)
- **MGMT 2101**—Principles of Accounting I (4 cr)
- **MGMT 3601**—Transnational Enterprise [IP] (4 cr)
- **STAT 1601**—Introduction to Statistics [M/SR] (4 cr)
- **STAT 2601**—Statistical Methods [M/SR] (4 cr)

**Element 2: 3000-level Elective Management Block**

Students must successfully complete 8 or more credits from the list below, exclusive of coursework used to satisfy sub-plan requirements.

- **ECON 3005**—Experimental and Behavioral Economics I [SS] (2 cr)
- **ECON 3006**—Experimental and Behavioral Economics II [SS] (2 cr)
- **ECON 3007**—Environmental and Natural Resource Economics I [ENVT] (2 cr)
- **ECON 3008**—Environmental and Natural Resource Economics II [ENVT] (2 cr)
- **ECON 3009**—Political Economy [SS] (4 cr)
- **ECON 3014**—Game Theory: The Theory of Strategic Behavior I [SS] (2 cr)
Global Business
The Global Business (GB) Sub-Plan requires completion of the following elements:
1. the GB Language Block
2. the GB Skills and Perspectives Block
3. the GB General Electives Block

GB Sub-Plan Element 1: The GB Language Block
Students must complete 8 credits of French, German, Spanish, or other approved language of international commerce at 2xxx-level or above.

GB Sub-Plan Element 2: The Skills and Perspectives Block
*Take 8 or more credits from the following:
CSCI 1251 - Computational Data Management and Manipulation [M/SR] (4 cr)
MATH 1021 - Survey of Calculus [M/SR] (4 cr)
or MATH 1101 - Calculus I [M/SR] (5 cr)
PHIL 2112 - Professional Ethics [E/CR] (4 cr)

GB Sub-Plan Element 3: The GB General Electives Block
*Take 6 or more credits from the following:
ECON 3131 - Comparative Economic Systems [IP] (2 cr)
ECON 3141 - Economic Development and Growth I [IP] (2 cr)
ECON 3142 - Economic Development and Growth II [IP] (2 cr)
ECON 3153 - Contemporary Global Economic Issues [IP] (2 cr)
ECON 3351 - Globalization: Examining India's Social and Economic Development [IP] (4 cr)
ECON 3501 - Introduction to Econometrics [M/SR] (2 cr)
ECON 3531 - Game Theory: The Theory of Strategic Behavior II [SS] (2 cr)
ECON 3551 - Globalization: Examining India's Social and Economic Development [IP] (4 cr)
MGMT 3015 - Game Theory: The Theory of Strategic Behavior II [SS] (2 cr)
MGMT 3151 - Human Resources Management I [E/CR] (2 cr)
MGMT 3152 - Human Resources Management II [HDIV] (2 cr)
MGMT 3161 - Labor Management Relations I [E/CR] (2 cr)
MGMT 3162 - Labor Management Relations II [SS] (2 cr)
MGMT 3171 - Leadership in Organizations [SS] (2 cr)
MGMT 3201 - Marketing Principles and Strategy [SS] (4 cr)
MGMT 3221 - Management and Organization Theory [SS] (4 cr)
MGMT 3351 - Globalization: Examining India's Social and Economic Development [IP] (4 cr)
MGMT 3501 - Applied Deterministic Modeling for Management Science [M/SR] (2 cr)
MGMT 3513 - Managerial Accounting (4 cr)
MGMT 3514 - Cooperative Business Model [SS] (2 cr)
MGMT 3514 - Business Law I [SS] (2 cr)
MGMT 3542 - Business Law II [SS] (2 cr)
MGMT 3551 - Human Resources Management I [E/CR] (2 cr)
MGMT 3552 - Human Resources Management II [HDIV] (2 cr)
MGMT 3611 - Labor Management Relations I [E/CR] (2 cr)
MGMT 3612 - Labor Management Relations II [SS] (2 cr)
MGMT 3617 - Leadership in Organizations [SS] (2 cr)
MGMT 3621 - Marketing Principles and Strategy [SS] (4 cr)
MGMT 3651 - Globalization: Examining India's Social and Economic Development [IP] (4 cr)
MGMT 3652 - Emerging Markets in Asia [IP] (4 cr)
MGMT 4501 - Globalization and Business Strategy [IP] (2 cr)
MGMT 4502 - Technological Change, Labor Market, and Skill Formation [IP] (2 cr)

Financial and Organizational Management
The Financial and Organizational Management (F&OM) Sub-Plan requires completion of the following elements:
1. the F&OM Required Courses Block
2. the F&OM Elective Courses Block

F&OM Sub-Plan Element 1: The F&OM Required Courses Block
Students must successfully complete the list of courses below.
MGMT 2101 - Principles of Accounting I (4 cr)
MGMT 2102 - Principles of Accounting II (2 cr)
MGMT 3101 - Financial Management [SS] (4 cr)
MGMT 3103 - Managerial Accounting (4 cr)
MGMT 3134 - Cooperative Business Model [SS] (2 cr)
MGMT 3141 - Business Law I [SS] (2 cr)
MGMT 3142 - Business Law II [SS] (2 cr)
MGMT 3151 - Human Resources Management I [E/CR] (2 cr)
MGMT 3152 - Human Resources Management II [HDIV] (2 cr)
MGMT 3161 - Labor Management Relations I [E/CR] (2 cr)
MGMT 3162 - Labor Management Relations II [SS] (2 cr)
MGMT 3171 - Leadership in Organizations [SS] (2 cr)
MGMT 3201 - Marketing Principles and Strategy [SS] (4 cr)
MGMT 3221 - Management and Organization Theory [SS] (4 cr)
MGMT 3351 - Globalization: Examining India's Social and Economic Development [IP] (4 cr)
MGMT 3501 - Applied Deterministic Modeling for Management Science [M/SR] (2 cr)
MGMT 3513 - Managerial Accounting (4 cr)
MGMT 3514 - Cooperative Business Model [SS] (2 cr)
MGMT 3514 - Business Law I [SS] (2 cr)
MGMT 3542 - Business Law II [SS] (2 cr)
MGMT 3551 - Human Resources Management I [E/CR] (2 cr)
MGMT 3552 - Human Resources Management II [HDIV] (2 cr)
MGMT 3611 - Labor Management Relations I [E/CR] (2 cr)
MGMT 3612 - Labor Management Relations II [SS] (2 cr)
MGMT 3617 - Leadership in Organizations [SS] (2 cr)
MGMT 3621 - Marketing Principles and Strategy [SS] (4 cr)
MGMT 3651 - Globalization: Examining India's Social and Economic Development [IP] (4 cr)
MGMT 3652 - Emerging Markets in Asia [IP] (4 cr)
MGMT 4501 - Globalization and Business Strategy [IP] (2 cr)
MGMT 4502 - Technological Change, Labor Market, and Skill Formation [IP] (2 cr)

F&OM Sub-Plan Element 2: The F&OM Elective Courses Block
*Take 4 or more credits from the following:
CSCI 1251 - Computational Data Management and Manipulation [M/SR] (4 cr)
MGMT 4502 - Technological Change, Labor Market, and Skill Formation [IP] (2 cr)

Management Minor
Courses may not be taken S-N unless offered S-N only.
A minimum GPA of 2.00 is required in the minor to graduate. The GPA includes all, and only, University of Minnesota coursework. Grades of "F" are included in GPA calculation until they are replaced.

Required Courses
Grades of D or D+ in MGMT 2101-2102 or ECON 1111-1112 may not be used to meet minor requirements.
ECON 1111 - Principles of Microeconomics [SS] (4 cr)
ECON 1112 - Principles of Macroeconomics [SS] (4 cr)
MGMT 2101 - Principles of Accounting I (4 cr)
MGMT 2102 - Principles of Accounting II (2 cr)
Information and the financial statements for a proprietorship.

Procedural framework of the accounting processes. Emphasis is on understanding the issues unique to partnerships, corporations, and cooperatives, have made significant contributions to economic growth and development. Identify the unique economic, legal, and social insurance vehicles including social security, Medicare, defined contribution, and defined benefit plans along with various individual retirement accounts. A way of thinking about personal finance that incorporates knowledge of current financial institutions, structures, and markets; time value of money; risk analysis; and available budgeting tools.

Directed Study.

An on- or off-campus learning experience individually arranged between a student and a faculty member for academic credit in areas not covered in the regular curriculum.

Financial Management. (SS; 4 cr; prereq 2102, Econ 1111; Econ 1112; Stat 1601; fall, every year)

Financial Institutions. (SS; 2 cr; prereq 2101, Econ 1111, Econ 1112; spring, offered periodically)

An introduction to the functioning and management of financial institutions such as: the banking industry, mutual fund industry, insurance companies, pension funds, investment banks, and venture capital firms.

Managerial Economics. (SS; 4 cr; prereq 2101, Econ 1111, Math 1011 or Math 1021, Stat 1601 or Stat 2601 or #; no credit for students who have received credit for Econ 3201; spring, every year)

Development of the basic concepts of the microeconomic theories of consumer behavior, the firm, and market structure, in application to managerial decision-making contexts in the operation and control of business and non-profit organizations.

Managerial Accounting. (4 cr; prereq 2102; fall, spring, offered periodically)

Managerial accounting is designed to help managers assess needed information to carry out three essential functions in an organization: planning operations, controlling activities, and making decisions. The emphasis of this course is placed on cost behaviors, various product costing methods, cost- volume-profit relationships, budgeting and control through standard costs, and other quantitative techniques used by management.

Managerial Economics. (SS; 2 cr; = [ECON 3134]; prereq Econ 1111 or #; spring, every year)

Same as Econ 3134. In the northern plains of the United States, cooperative businesses, including consumer, producer, and worker cooperatives, have made significant contributions to economic growth and development. Identify the unique economic, legal, and organizational characteristics of these firms and their role in the economy. Special attention is given to the potential role of cooperative business organizations in community development.

Business Law I. (SS; 2 cr; prereq 2101 or #; fall, spring, offered periodically)

Law as it relates to the commercial world, including the legal environment, federal regulation, contracts, agency, sales.

Business Law II. (SS; 2 cr; prereq 2101 or #; fall, spring, offered periodically)

Law as it relates to the commercial world, including the legal environment, commercial paper, corporations, secured transactions, bankruptcy, anti-trust law, and selected employment statutes.

Human Resources Management I. (E/CR; 2 cr; prereq Econ 3201 or #; spring, every year)

An introduction to the functional areas of human resource management through the use of case studies. Topics include legal issues, planning, recruitment, training, evaluation, compensation, and benefits.

Human Resources Management II. (HDIV; 2 cr; prereq 2101 or #; fall, spring, offered periodically)

Topics in human resource management: evaluating employee performance, training, safety, labor relations, international human resource management.

Labor Management Relations I. (E/CR; 2 cr; prereq Econ 3201 or #; fall, spring, offered periodically)

Historical development of labor relations and the legal framework governing collective bargaining. Labor relations law reform. Case studies from labor relations law.

Labor Management Relations II. (SS; 2 cr; prereq 3161 or #; spring, offered periodically)

Issues in labor-management negotiation, grievances, wages and economic security plans, public policies toward collective bargaining. Case studies from labor arbitration.

Management Course Descriptions

MGMT 2993. Directed Study. (1-5 cr; [max 10 cr]; prereq approved directed study form; fall, spring, every year)

An on- or off-campus learning experience individually arranged between a student and a faculty member for academic credit in areas not covered in the regular curriculum.

MGMT 3101. Financial Management [SS] (4 cr)

An introductory course in accounting principles and practices. The students develop an understanding of both the conceptual and procedural framework of the accounting processes. Emphasis is placed on the preparation and communication of accounting information and the financial statements for a proprietorship.

MGMT 3102. Principles of Accounting II. (2 cr; prereq 2101; spring, every year)

A continuation of Principles of Accounting I. Students develop an understanding of the issues unique to partnerships, corporations, and organizational financing. Cash flow statements and performance analysis are also emphasized.

MGMT 3101. Fundamentals of Personal Finance. (SS; 2 cr; spring, offered periodically)

An application-based personal finance course to help students with lifetime financial planning and decision making. Focus on personal responsibility with respect to understanding financial instruments and their functions including: stocks, bonds, money markets, mutual funds, and derivatives. Also learn about savings, retirement, and social insurance vehicles including social security, Medicare, defined contribution, and defined benefit plans along with various individual retirement accounts. A way of thinking about personal finance that incorporates knowledge of current financial institutions, structures, and markets; time value of money; risk analysis; and available budgeting tools.

MGMT 3101. Principles of Accounting I. (4 cr; fall, every year)

An introductory course in accounting principles and practices. The students develop an understanding of both the conceptual and procedural framework of the accounting processes. Emphasis is placed on the preparation and communication of accounting information and the financial statements for a proprietorship.

MGMT 3102. Principles of Accounting II. (2 cr; prereq 2101; spring, every year)

A continuation of Principles of Accounting I. Students develop an understanding of the issues unique to partnerships, corporations, and organizational financing. Cash flow statements and performance analysis are also emphasized.
MGMT 3171. Leadership in Organizations. (SS; 2 cr; prereq Stat 1601 or Stat 2601 or #; spring, every year)
Leadership is the ability to influence a group of people towards a goal. Examines leadership qualities and theories as they apply to leading an organization. Ethics, motivation, and conflict resolution skills from the perspective of a leader. International and culturally diverse aspects of leadership and leadership development. Students have the opportunity to practice leadership skills during the course.

MGMT 3201. Marketing Principles and Strategy. (SS; 4 cr; prereq 2102, Stat 1601 or #; spring, offered periodically)
Basic factors affecting policy and strategy issues in marketing. Economic, legal, behavioral, environmental, competitive, and technological factors as they affect product, pricing, promotion, and marketing-channel decisions.

MGMT 3221. Management and Organization Theory. (SS; 4 cr; prereq 2101, Econ 1111 or #; fall, spring, offered periodically)

MGMT 3351. Globalization: Examining India's Social and Economic Development. (IP; 4 cr; =ECON 3351; prereq Econ 1111 or Eco 1112 or #; spring, offered periodically)
Same as Econ 3351. Observes and studies the impact of globalization on the Indian economy. Examines the growing class divide between the middle and upper middle class and the lower class. Studies the problem of mass poverty in India and its various ramifications such as child labor, lack of education and basic health care, and the inherent gender bias. Examines sustainable grass roots efforts to combat some of these problems.

MGMT 3352. Emerging Markets in Asia. (IP; 4 cr; prereq Econ 1111, Econ 1112, Stat 1601 or Stat 2601 or #; fall, every year)
An overview of the largest and fastest-growing markets in the world, the Asian markets. Examines topics such as business strategy and organization, marketing strategies, and business-State relations in Asia. Theory is balanced with practice by including comparative studies and business case studies.

MGMT 3501. Applied Deterministic Modeling for Management Science. (M/SR; 2 cr; =MATH 3501; prereq 2102, Math 1101 or Stat 1601 or Stat 2601 or #; spring, every year)
Same as Math 3501. Formulations of real-world problems as Linear Programming or Integer Linear Programming models; graphical solutions of some LP-models. Linear Programming: the Simplex method, intuitive ideas behind the Simplex method. Using software to solve LP problems; interpreting optimal solutions; sensitivity analysis; duality. Network diagram representation; critical path method (CPM-PERT); transportation problem.

MGMT 3502. Applied Probabilistic Modeling for Management Science. (M/SR; 2 cr; =MATH 3502; prereq 2102, Math 1101 or Stat 1601 or Stat 2601 or #; spring, every year)
Same as Math 3502. Short review of probability and statistics; mean and variance of a data set; discrete and continuous random variables (especially the exponential distribution and the Poisson distribution). Decision and game theory. Decision trees, types of decision criteria. Queueing models, birth- and death processes; Markovian; Poisson arrivals and exponential service times; MM/K and M/M/8 queues; Statistical Quality Control; inventory control system.

MGMT 3513. Negotiation. (SS; 4 cr; =PSY 3513; prereq 2321 or Psy 3501 or Psy/Mgmt 3701; spring, offered periodically)
Same as Psy 3513. Examines the theoretical and applied aspects of negotiation. Topics include negotiation theory, strategy, skills and tactics, communication processes, global negotiation, and ethics. Use of negotiation simulations.

MGMT 3601. Transnational Enterprise. (IP; 4 cr; prereq 2101, Econ 1111, Econ 1112 or #; spring, every year)
Development and transformation of business enterprise within the global economy emerging from time and motion studies, mergers, "corporate revolution," Fordism through to multi-plant manufacturing beyond national boundaries. Includes the basic impact of structural, institutional, and organizational change upon the dynamics of the firm and industry in the contemporary hyper-competitive, technology-driven, fast-paced, global environment.

MGMT 3701. Organizational Behavior. (SS; 4 cr; =PSY 3701; prereq Stat 1601 or Stat 2601, jr or sr; fall, spring, offered periodically)
Same as Psy 3701. Uses the theories and research of the behavioral sciences to understand how organizations function at the individual, group, and organizational levels. Topics include stress in the workplace; group dynamics; power, leadership, and attribution theory.

MGMT 3993. Directed Study. (1-5 cr [max 10 cr]; prereq approved directed study form; fall, spring, every year)
An on- or off-campus learning experience individually arranged between a student and a faculty member for academic credit in areas not covered in the regular curriculum.

MGMT 4101. Investment and Portfolio Analysis. (4 cr; prereq 2101, 2102, 3101; spring, every year)
The institutional environment of investment, techniques used to price financial products, and how to design a portfolio of many assets.

MGMT 4201. The Economics of Corporate Strategy I. (2 cr; prereq 3123 or Econ 3201, Math 1021 or Math 1101 or #; fall, spring, offered periodically)
Setting the horizontal boundaries (e.g., which lines of business) and vertical boundaries (whether to make or buy inputs and outputs) of the firm, considered as strategic decisions. The different types of competition associated with distinct market structures.

MGMT 4202. The Economics of Corporate Strategy II. (2 cr; prereq 4201; fall, spring, offered periodically)
Tools for analyzing business strategies: credible strategic commitments, pricing, entry and exit, Porter's five forces framework, and the relationship between value creation and market structure positioning.

MGMT 4501. Globalization and Business Strategy. (2 cr; prereq 3601 or #; fall, spring, offered periodically)
The change of technology in relation to the formation of skills and transformation of regional labor markets throughout the world. The intimate relationship between "skilling" and "deskilling" of labor and the transformation of technology.

MGMT 4505. International Managerial Finance. (2 cr; prereq 3101 or #; spring, offered periodically)
An introduction to the international dimensions of corporate financing, investment, and risk management decisions. Foreign exchange markets, international financial systems, foreign exchange rate determination, measuring/managing currency risk, multinational capital budgeting, cost of capital in emerging economies, international taxation policies, and transfer pricing.

MGMT 4506. Advanced Topics in Financial Economics. (2 cr; prereq 3101 or #; fall, spring, offered periodically)
Continuation of Mgmt 3101. Topics include dividend policy, hybrid financing, derivatives, and mergers.

MGMT 4602. Long-Term Financing. (2 cr; prereq 3101 or #; fall, offered periodically)
Application of the fundamental financial theories acquired in Mgmt 3101 to long-term financing in corporations. The primary focus is on issuing securities to the public, financial leverage, capital structure policy, dividend policy, and leasing.

MGMT 4603. Working Capital Management. (2 cr; prereq 3101 or #; fall, offered periodically)
Application of the fundamental financial theories acquired in Mgmt 3101 to working capital management in corporations. The primary focus is on financial planning, cash management, credit management, and risk management.

MGMT 4896. Internship. (1-4 cr; S-N only; prereq 2102, 2 cr may be applied to major or minor; fall, spring, every year)
Supervised educational experience and field application relevant to student's major. Written analysis appropriate to the application is required.
MGMT 4993. Directed Study. (1-5 cr [max 10 cr]; prereq approved directed study form; fall, spring, every year)
An on- or off-campus learning experience individually arranged between a student and a faculty member for academic credit in areas not covered in the regular curriculum.

**Mathematics (Math)**

**Division of Science and Mathematics**

**Objectives**—The mission of the discipline is to advance knowledge of mathematics by teaching mathematics and its processes, by research in mathematics and mathematical pedagogy, and by dissemination of this knowledge to students and the community we serve.

Historically, the study of mathematics has been central to a liberal arts education. The mathematics curriculum serves as an integral part of students’ active pursuit of a liberal arts education. The mathematics program serves students who major or minor in mathematics, seek secondary mathematics teaching licensure, major or minor in programs that require a mathematical background, or wish to fulfill components of a general education.

The mathematics curriculum is designed to help students develop competence in mathematical techniques and methods; to sharpen students’ mathematical intuition and abstract reasoning, as well as their reasoning from numerical data; to encourage and stimulate the type of independent thinking required for research beyond the confines of the textbook; and to provide students with the basic knowledge and skills to make mathematical contributions to modern society. The program seeks to enable students to see and communicate how the development of mathematics has been part of the development of several civilizations and is intimately interwoven with the cultural and scientific development of these societies. The curriculum prepares students to enter graduate school, pursue careers in applied mathematics, or teach mathematics.

**Mathematics Major**

A minimum GPA of 2.00 is required in the major to graduate. The GPA includes all, and only, University of Minnesota coursework. Grades of “F” are included in GPA calculation until they are replaced. Courses may not be taken S-N unless offered S-N only. Up to 5 credits of coursework with a grade of D or D+ may be used to meet the major requirements if offset by an equivalent number of credits of B- or above in courses at or above 2xxx. Exceptions to requirements may be granted on an individual basis, after consulting with the math faculty.

Majors should begin with MATH 1012– PreCalculus I or MATH 1013– PreCalculus II or MATH 1101– Calculus I. Students with questions about placement are encouraged to discuss them with members of the mathematics faculty.

Recommended electives for students planning to pursue graduate work in pure mathematics:
- MATH 4201– Complex Analysis
- MATH 4211– Real Analysis
- MATH 4221– Topology
- MATH 4231– Abstract Algebra II
- MATH 4241– Number Theory
- MATH 4252– Differential Geometry
- MATH 4253 – Combinatorics

Recommended electives for students planning to work or pursue graduate work in applied mathematics or related fields:
- MATH 2401– Differential Equations
- MATH 3401– Operations Research
- MATH 3411– Discrete and Combinatorial Mathematics

**Mathematical Applications Course**

Take 1 or more course(s) from the following:
- CHEM 3501 - Physical Chemistry I [SCI] (4 cr)
- ECON 3201 - Microeconomic Theory [SS] (4 cr)
- ECON 3202 - Macroeconomic Theory [SS] (4 cr)
- ECON 3411 - Mathematical Economics I (2 cr)
- ECON 4112 - Mathematical Economics II (2 cr)
- GEOL 3401 - Geophysics [SCI] (4 cr)
- GEOL 4001 - Hydrology [SCI] (4 cr)
- MATH 3501 - Applied Deterministic Modeling for Management Science [M/SR] (4 cr)

**Mathematics Minor**

Courses may not be taken S-N unless offered S-N only. Up to 5 credits of coursework with a grade of D or D+ may be used to meet the minor requirements if offset by an equivalent number of credits of B- or above in courses at or above the 2XXX level. The GPA in these courses must be at least 2.00.

**Required Courses**
- MATH 1101 - Calculus I [M/SR] (5 cr)
- MATH 1102 - Calculus II [M/SR] (5 cr)
- MATH 2101 - Calculus III [M/SR] (4 cr)
- MATH 2111 - Linear Algebra [M/SR] (4 cr)
- MATH 2202 - Mathematical Perspectives [M/SR] (4 cr)
- MATH 3221 - Analysis [M/SR] (4 cr)
- MATH 3231 - Abstract Algebra I [M/SR] (4 cr)
- MATH 4901 - Senior Seminar (2 cr)
- STAT 2611 - Mathematical Statistics [M/SR] (4 cr)

Take 1 or more course(s) from the following:
- MATH 2401 - Differential Equations [M/SR] (4 cr)
- MATH 3401 - Operations Research [M/SR] (4 cr)
- MATH 3411 - Discrete and Combinatorial Mathematics [M/SR] (4 cr)
- MATH 4401 - Numerical Methods with Applications in Mathematical Modeling (4 cr)
- MATH 4452 - Mathematical Modeling (4 cr)

Take 4 or more credits from the following:
- MATH 2xxx, 3xxx, 4xxx

Mathematical Applications Course

Take 1 or more course(s) from the following:
- CHEM 3501 - Physical Chemistry I [SCI] (4 cr)
- ECON 3201 - Microeconomic Theory [SS] (4 cr)
- ECON 3202 - Macroeconomic Theory [SS] (4 cr)
- ECON 4111 - Mathematical Economics I (2 cr)
- ECON 4112 - Mathematical Economics II (2 cr)
- GEOL 3401 - Geophysics [SCI] (4 cr)
- GEOL 4001 - Hydrology [SCI] (4 cr)
- MATH 3501 - Applied Deterministic Modeling for Management Science [M/SR] (2 cr)
- NSCI 3201 - Relativity and Cosmology [SCI] (4 cr)
- PHYS 1101 - General Physics I [SCI-L] (5 cr)
- PHYS 1102 - General Physics II [SCI-L] (5 cr)
- PHYS 2101 - Modern Physics [SCI-L] (4 cr)
- PHYS 3101 - Classical Mechanics [SCI] (4 cr)
- PHYS 4201 - Optics [SCI-L] (4 cr)
- PHYS 4201 - Electromagnetism (4 cr)
- PHYS 4201 - Quantum Mechanics (4 cr)
- STAT 2601 - Statistical Methods [M/SR] (4 cr)
- CSCI 2101 - Data Structures [M/SR] (5 cr)
- CSCI 3501 - Algorithms and Computability [M/SR] (5 cr)
- CSCI 3601 - Software Design and Development [M/SR] (5 cr)
- PHIL 2101 - Introduction to Symbolic Logic [M/SR] (4 cr)
- STAT 3601 - Data Analysis [M/SR] (4 cr)
- STAT 3611 - Multivariate Statistical Analysis [M/SR] (4 cr)
- STAT 4601 - Biostatistics (4 cr)

Mathematics Minor

Recommended Courses
- MATH 1101 - Calculus I [M/SR] (5 cr)
- MATH 1102 - Calculus II [M/SR] (5 cr)
- MATH 2111 - Linear Algebra [M/SR] (4 cr)

Elective Courses

Take 12 or more credits from the following:
- MATH 2101 - Calculus III [M/SR] (4 cr)
- MATH 2202 - Mathematical Perspectives [M/SR] (4 cr)
MATH 2211 - History of Mathematics (4 cr)
MATH 2401 - Differential Equations [M/SR] (4 cr)
MATH 2501 - Probability and Stochastic Processes [M/SR] (4 cr)
MATH 3211 - Geometry [M/SR] (4 cr)
MATH 3221 - Analysis [M/SR] (4 cr)
MATH 3231 - Abstract Algebra I [M/SR] (4 cr)
MATH 3401 - Operations Research [M/SR] (4 cr)
MATH 3411 - Discrete and Combinatorial Mathematics [M/SR] (4 cr)
MATH 3501 - Applied Deterministic Modeling for Management Science [M/SR] (2 cr)
MATH 4201 - Complex Analysis (2 cr)
MATH 4211 - Real Analysis (2 cr)
MATH 4221 - Topology (2 cr)
MATH 4231 - Abstract Algebra II (2 cr)
MATH 4241 - Number Theory (2 cr)
MATH 4252 - Differential Geometry (2 cr)
MATH 4253 - Combinatorics (2 cr)
MATH 4401 - Numerical Methods with Applications in Mathematical Modeling (4 cr)
MATH 4452 - Mathematical Modeling (4 cr)

One of the courses below can be chosen to fulfill 4 elective credits for the math minor

MATH 2101 - Calculus I. (M/SR; 4 cr; prereq 2 yrs high school math; fall, every year)
MATH 2202. Mathematical Perspectives. (M/SR; 4 cr; prereq Math course placement; spring, every year)
MATH 2111. Linear Algebra. (M/SR; 4 cr; prereq Math course placement; fall, spring, every year)
MATH 2211. History of Mathematics. (4 cr; prereq Math course above 1100 or #; fall, even years)

MATH 2401. Differential Equations. (M/SR; 4 cr; prereq Math for Math 1014; fall, spring, every year)
MATH 2402. Numerical Methods with Applications in Mathematical Science. (M/SR; 4 cr; prereq 1012 or #; fall, even years)

MATH 2501. Probability and Stochastic Processes. (M/SR; 4 cr; same as Stat 2501; prereq Math 1101 or #; fall, every year)

MATH 3502. Calculus II. (M/SR; 5 cr; prereq 1012, 1013 or placement; fall, spring, every year)
MATH 3503. Calculus III. (M/SR; 5 cr; prereq Math 1014; fall, spring, every year)
MATH 4212. Number Theory. (4 cr; prereq Math 2211; fall, spring, every year)

MATH 4252. Differential Geometry. (2 cr; prereq Math 2211; spring, every year)
MATH 4253. Combinatorics. (2 cr; prereq Math 2211; spring, every year)

MATH 4401. Numerical Methods with Applications in Mathematical Modeling (4 cr)
MATH 4452 - Mathematical Modeling (4 cr)

One of the courses below can be chosen to fulfill 4 elective credits for the math minor

STAT 2601 - Statistical Methods [M/SR] (4 cr)
STAT 2611 - Mathematical Statistics [M/SR] (4 cr)

Teacher Preparation Requirements
Students seeking teaching licensure in mathematics 5-12 should refer to the Education, Secondary (SeEd) section of this catalog.

Mathematics Course Descriptions

MATH 0901. Basic Algebra. (0 cr [max 4 cr]; 0 cr toward graduation, 4 cr toward financial aid; fall, every year)
Sets, absolute values, linear equations and inequalities, functions and graphs, arithmetic of complex numbers, quadratics, radicals, exponents and logarithms, and linear systems of equations.

MATH 1001. Survey of Math. (M/SR; 4 cr; prereq 2 yrs high school math; fall, every year)
Introductory topics in mathematics, such as number system, geometry, algebra, discrete mathematics, statistics, logic, and the history of mathematics, including applications in today's world.

MATH 1012. PreCalculus I: Functions. (4 cr; prereq placement; no credit for students who have received credit for Math 1014; fall, spring, every year)
Linear and quadratic functions, power functions with modeling; polynomial functions of higher degree with modeling; real zeros of polynomial functions; rational functions; solving equations in one variable; solving systems of equations; exponential and logarithmic functions, and the graphs of these functions.

MATH 1013. PreCalculus II: Trigonometry. (M/SR; 2 cr; prereq placement; no credit for students who have received credit for Math 1014; fall, spring, every year)
Angles and their measures; trigonometric functions; the circular functions of trigonometry; graphs of sine, cosine, tangent, cosecant, secant, and cotangent functions; algebra of trigonometric functions; inverse trigonometric functions; solving problems with trigonometry; analytic trigonometry; fundamental trig identities; proving trigonometric identities; sum and difference identities; multiple-angle identities; the Law of Sines; the Law of Cosines.

MATH 1014. Intensive Pre-Calculus. (M/SR; 4 cr; prereq second year of high school algebra, @; offered periodically)
Offered online only. Linear and quadratic functions, power functions with modeling; polynomial functions of higher degree with modeling; real zeros of polynomial functions; rational functions; solving equations in one variable; solving systems of equations; exponential and logarithmic functions, and the graphs of these functions. Angles and their measures; trigonometric functions; the circular functions of trigonometry; graphs of sine, cosine, tangent, cosecant, secant, and cotangent functions; algebra of trigonometric functions; inverse trigonometric functions; solving problems with trigonometry; analytic trigonometry; fundamental trig identities; proving trigonometric identities; sum and difference identities; multiple-angle identities; the Law of Sines; the Law of Cosines.

MATH 1021. Survey of Calculus. (M/SR; 4 cr; prereq 1012 or placement; spring, every year)
Short course for students in social sciences, biological sciences, and other areas requiring a minimal amount of calculus. Topics include basic concepts of functions, derivatives and integrals, exponential and logarithmic functions, maxima and minima, partial derivatives; applications.

MATH 1101. Calculus I. (M/SR; 5 cr; prereq 1012, 1013 or placement; fall, spring, every year)
Limits and continuity; the concepts, properties, and some techniques of differentiation, antidifferentiation, and definite integration and their connection by the Fundamental Theorem. Partial differentiation. Some applications. Students learn the basics of a computer algebra system.

MATH 1102. Calculus II. (M/SR; 5 cr; prereq 1101; fall, spring, every year)

MATH 1993. Directed Study. (1-5 cr [max 10 cr]; prereq approved directed study form; fall, spring, every year)
An on- or off-campus learning experience individually arranged between a student and a faculty member for academic credit in areas not covered in the regular curriculum. In particular, students are encouraged to take at least one credit of a directed study in problem solving in mathematics. Such courses, at different levels, are available each term.

MATH 2101. Calculus III. (M/SR; 4 cr; prereq 1102 or #; fall, spring, every year)
Multivariable and vector calculus. Three-dimensional analytic geometry; partial differentiation; multiple integration; gradient, divergence, and curl; line and surface integrals; divergence theorem; Green and Stokes theorems; applications.

MATH 2111. Linear Algebra. (M/SR; 4 cr; prereq 1101 or #; fall, spring, every year)
Matrix algebra, systems of linear equations, finite dimensional vector spaces, linear transformations, determinants, inner-product spaces, characteristic values and polynomials, eigenspaces, minimal polynomials, diagonalization of matrices, related topics; applications.

MATH 2202. Mathematical Perspectives. (M/SR; 4 cr; prereq 1101; spring, every year)
Introduction to the methodology and subject matter of modern mathematics. Logic, sets, functions, relations, cardinality, and induction. Introductory number theory. Roots of complex polynomials. Other selected topics.

MATH 2211. History of Mathematics. (4 cr; prereq Math course above 1100 or #; fall, even years)
Historical development of various areas in mathematics and important figures in mathematics from ancient to modern times.

MATH 2401. Differential Equations. (M/SR; 4 cr; prereq 1102 or #; fall, every year)
First-order and second-order differential equations with methods of solution and applications. Laplace transforms, systems of equations, series solutions, existence and uniqueness theorems, the qualitative theory of differential equations.

MATH 2501. Probability and Stochastic Processes. (M/SR; 4 cr; same as Stat 2501; prereq 1101 or #; fall, every year)

MATH 2993. Directed Study. (1-5 cr [max 25]; prereq approved directed study form; fall, spring, every year)
An on- or off-campus learning experience individually arranged between a student and a faculty member for academic credit in areas...
not covered in the regular curriculum. In particular, students are encouraged to take at least one credit of a directed study in problem solving in mathematics. Such courses, at different levels, are available each term.

MATH 3211. Geometry. (M/SR; 4 cr; prereq Math course above 1100; fall, odd years)
Synthetic approach to Euclidean and non-Euclidean geometries. Selected topics from affine, hyperbolic, spherical, projective geometries. Possible comparisons of analytic and synthetic approaches. May include other related topics or use of computer software for geometry.

MATH 3221. Analysis. (M/SR; 4 cr; prereq 1102, 2202 or #; fall, every year)
Introduction to real and complex analysis. The main topics of calculus-convergence, continuity, differentiation, integration, and series-are applied and extended in advanced settings with emphasis on precise statements and rigorous proofs. Concept of metric space. Other topics and applications.

MATH 3231. Abstract Algebra I. (M/SR; 4 cr; prereq 2111, 2202 or #; spring, every year)
Systematic study of groups and rings, making use of linear algebra. Groups as codifying symmetry throughout mathematics and its applications. The Euclidean algorithm and its consequences, both for integers and polynomials. Other selected topics and applications.

MATH 3401. Operations Research. (M/SR; 4 cr; prereq 1100 or higher or #; spring, every year)
Topics include, but not limited to, linear and integer linear programming formulations, sensitivity analysis and duality, network models and applications.

MATH 3411. Discrete and Combinatorial Mathematics. (M/SR; 4 cr; prereq 1100 or higher or #; fall, every year)
Propositional logic; equivalence relations; recurrence equations; structures and properties of undirected and directed graphs; applications of the aforementioned topics.

MATH 3501. Applied Deterministic Modeling for Management Science. (M/SR; 2 cr; =MGMT 3501; prereq 1101 or Stat 1601 or Stat 2601 or Stat 2611, Mgmt 2102 or #; spring, every year)
Same as Mgmt 3501. Formulations of real-world problems as Linear Programming or Integer Linear Programming models; graphical solutions of some LP models. Linear Programming: the Simplex method, intuitive ideas behind the Simplex method. Using software to solve LP problems; interpreting optimal solutions; sensitivity analysis; duality. Network diagram representation; critical path method (CPM-PERT); transportation problem.

MATH 3502. Applied Probabilistic Modeling for Management Science. (M/SR; 2 cr; =MGMT 3502; prereq 1101 or Stat 1601 or Stat 2601 or Stat 2611, Mgmt 2102 or #; spring, every year)
Same as Mgmt 3502. Short review of probability and statistics; mean and variance of a data set; discrete and continuous random variables (especially the exponential distribution and the Poisson distribution). Decision and game theory. Decision trees, types of decision criteria. Queueing models, birth- and death processes; Markovian or Poisson arrivals and exponential service times; M/M/k and M/M/8 queues; Statistical Quality Control; inventory control system.

MATH 3993. Directed Study. (1-5 cr [max 25]; prereq approved directed study form; fall, spring, every year)
An on- or off-campus learning experience individually arranged between a student and a faculty member for academic credit in areas not covered in the regular curriculum. In particular, students are encouraged to take at least one credit of a directed study in problem solving in mathematics. Such courses, at different levels, are available each term.

MATH 4201. Complex Analysis. (2 cr; prereq 3221 or #; fall, spring, offered periodically)
Differentiable and analytic functions of a complex variable. Contour integral theorems. Laurent expansions. Other topics optional.

MATH 4211. Real Analysis. (2 cr; prereq 3221 or #; fall, spring, offered periodically)
Differentiation of functions of several variables. The extension of integration to other forms of integrals. Introduction to measure theory. Other optional topics.

MATH 4221. Topology. (2 cr; prereq 2202 or #; fall, spring, offered periodically)
Selected topics from point set topology and/or algebraic topology.

MATH 4231. Abstract Algebra II. (2 cr; prereq 3231 or #; fall, spring, offered periodically)
Selected topics from the theory of finite groups, Galois theory of fields, and/or the theory of rings.

MATH 4241. Number Theory. (2 cr; prereq 2202 or #; fall, spring, offered periodically)
Selected topics from modular congruences, theory of primes, classical Diophantine equations, and the connections with algebraic curves.

MATH 4252. Differential Geometry. (2 cr; prereq #; fall, spring, offered periodically)
Geometry of curves and surfaces. Frames, curvature, torsion, orientation, differential forms, topological properties of surfaces. The notion of differentiable manifold. Selected applications.

MATH 4253. Combinatorics. (2 cr; prereq #; fall, spring, offered periodically)
Selected topics from graph theory, the theory of ordered sets, and/or enumerative combinatorics.

MATH 4401. Numerical Methods with Applications in Mathematical Modeling. (4 cr; prereq 2111, 2401 or #; fall, spring, offered periodically)
Finite differences; interpolation; numerical integration; numerical solutions of differential, algebraic, and transcendental equations; continuous mathematical models.

MATH 4452. Mathematical Modeling. (4 cr; prereq #; fall, spring, offered periodically)
Mathematical topics include, but are not limited to, differential and difference equations, discrete and continuous dynamical systems, predator-prey models, discrete and continuous optimization models, probabilistic models, stochastic and Poisson processes, and queueing models. Applications are drawn from different areas in the sciences and social sciences.

MATH 4901. Senior Seminar. (2 cr; prereq sr; full year course begins fall sem; fall, every year)
This is a full-year course, required for all mathematics majors in their senior year. Students must attend year round and present one of the seminars.

MATH 4993. Directed Study. (1-5 cr [max 25]; prereq approved directed study form; fall, spring, every year)
An on- or off-campus learning experience individually arranged between a student and a faculty member for academic credit in areas not covered in the regular curriculum. In particular, students are encouraged to take at least one credit of a directed study in problem solving in mathematics. Such courses, at different levels, are available each term.

Music (Mus)

Division of the Humanities

The music curriculum offers a wide range of courses for the music major. It also has strong appeal to the general student, especially in the activities of the instrumental and vocal ensembles.

Objectives—Students become familiar with the traditions of Western and non-Western music through theoretical analysis, research, performance, and historical survey. The curriculum fosters the development of the critical ability necessary to understand those traditions. Students experience the unique relationship between research and performance in music. Theoretical and practical courses that provide a sound academic background in music are available for those who intend to pursue graduate study, teach, or fulfill general education requirements.

Music Major

No grades below C- are allowed. Courses may not be taken S-N, unless offered S-N only.
A minimum GPA of 2.00 is required in the major to graduate. The GPA includes all, and only, University of Minnesota coursework. Grades of "F" are included in GPA calculation until they are replaced.

The music major requires an assessment prior to a student's first day of classes in order to assist them with planning their future at UMM through suggested class placement. Details about the assessment are outlined on the music discipline website. Students with advisers in other disciplines are strongly encouraged to consult regularly with a music faculty adviser.

Required Courses
Music theory courses (1101, 1102, 2101, 2102) are taken concurrently with piano lessons or functional keyboard for the Music Major, Mus 1111, 1112, 2111, 2112 until the piano proficiency test is passed.

Students must enroll in MUS 1000 seven times.
MUS 1000 - Concert Attendance (0.5 cr)
MUS 1101 - Core Studies I: Music Theory I [M/SR] (4 cr)
MUS 1102 - Core Studies I: Music Theory II [M/SR] (4 cr)
MUS 2101 - Core Studies II: Music Theory III [HUM] (4 cr)
MUS 2102 - Core Studies II: Music Theory IV [HUM] (4 cr)
MUS 3101 - Core Studies III: Medieval, Renaissance, and Baroque Music [HIST] (4 cr)
MUS 3102 - Core Studies III: Classical, Romantic, and 20th-Century Music [FA] (4 cr)
MUS 4901 - Senior Project and Portfolio (1 cr)
Piano proficiency
7 credits in individual performance studies in the applied area, of which a minimum of two semesters must be in the MUS 32XX-Advanced Individual Performance Studies series.

Elective Courses
Take 6 or more credits from the following:
MUS 3051 - Piano Pedagogy I [ART/P] (2 cr)
MUS 3052 - Piano Pedagogy II [ART/P] (2 cr)
MUS 3161 - Introduction to World Music [IP] (4 cr)
MUS 3102 - Core Studies I: Music Theory II [M/SR] (4 cr)
MUS 3161 - Introduction to World Music [IP] (4 cr)
MUS 3351 - Instrumental Arranging [ART/P] (2 cr)
MUS 3352 - Instrumental Conducting and Materials (2 cr)
MUS 3353 - Choral Conducting and Materials (2 cr)
MUS 3351 - Instrumental Arranging [ART/P] (2 cr)
MUS 3352 - Choral Arranging [ART/P] (2 cr)
MUS 3393 - Directed Study (1-5 cr)
MUS 4101 - Form and Analysis (4 cr)
MUS 4102 - Counterpoint [FA] (4 cr)
MUS 4103 - Seminar: Topics in Music History [HIST] (4 cr)
MUS 3xxx, 4xxx

Music Minor
Required Courses
Concert Attendance
Four successful completions of MUS 1000
MUS 1000 - Concert Attendance (0.5 cr)

Individual Performance Studies
Applied Music Area
4 cr from MUS 12xx, all must be from the same instrument.

Piano Proficiency
4 cr in MUS 1200 or MUS 1111-1112, 2111-2112 sequence unless it is the main applied instrument area. If so, additional requirements are necessary, see Music faculty or discipline website.
MUS 1101 - Core Studies I: Music Theory I [M/SR] (4 cr)
MUS 1102 - Core Studies I: Music Theory II [M/SR] (4 cr)
Any two of the following three courses
MUS 3101 - Core Studies II: Medieval, Renaissance, and Baroque Music [HIST] (4 cr)
MUS 3102 - Core Studies II: Classical, Romantic, and 20th-Century Music [FA] (4 cr)
MUS 3161 - Introduction to World Music [IP] (4 cr)

Teacher Preparation Requirements
Students seeking teaching licensure in instrumental music K–12 or vocal music K–12 should refer to the Education, Secondary (SeEd) section of this catalog.

Music Course Descriptions

MUS 1000. Concert Attendance. (0.5 cr [max 3.5 cr]; S-N only; prereq major or minor; fall, spring, every year)
To be taken by all music majors; involves attending at least 15 music concert offerings during the semester, both as a participant and as part of the audience.

MUS 1041. Introduction to Music. (FA: 4 cr; fall, every year)
Survey emphasizing development of an intelligent understanding and appreciation of music. For non-music majors.

MUS 1042. Fundamentals of Music. (FA: 4 cr; spring, odd years)
The rudiments of music including note and rhythmic reading, scales, chords, beginning chord progressions, and practical keyboard work in the piano lab.

MUS 1043. American Jazz Styles. (FA; 4 cr; fall, spring, offered periodically)
Development and analysis of the New Orleans dixieland, ragtime, stride, boogie-woogie, Chicago dixieland, swing, bop, cool, funky, progressive, third- stream, free form, and fusion jazz styles. Introductory course to help non-music majors become familiar with and appreciate this art form.

MUS 1044. Class Piano for the Non-Music Major. (ART/P; 1 cr; special fee required; fall, spring, every year)
Introduction to piano performance for students with no previous piano training. Students will learn basic keyboard skills including note reading, fingering, and counting. Study beginning piano technique and learn to perform elementary-level solos and ensembles.

MUS 1045. Class Guitar. (ART/P; 1 cr; special fee required; fall, spring, every year)
Introduction to guitar performance for students with no previous guitar experience. Students learn basic guitar skills, study beginning guitar technique, and learn to perform music. This class is not for students who have played guitar before.

MUS 1049. Introduction to American Popular Music. (HUM; 4 cr; =MUS 1801; spring, even years)
Survey of popular musical styles in America from the early 20th century to today.

MUS 1050. Accompanying. (ART/P; 1 cr [max 8 cr]; S-N only; prereq #; fall, spring, every year)
Students who accompany private lessons and recitalists may receive credit. Accompanying assignments are made through consultation with the piano faculty.

MUS 1061. Introduction to World Music. (IP; 4 cr; =MUS 3161); non-music major enrollment only; music majors, minors should register for 3161; fall, every year)
Survey of primarily non-Western music cultures, emphasizing the development of an appreciation for the music and an understanding of its significance in its culture of origin. For non-music majors.

MUS 1070. Instrumental Chamber Ensemble. (ART/P; 1 cr [max 8 cr]; S-N only; prereq #; fall, spring, every year) Performance of instrumental chamber music. Groups are formed according to the interests of students and availability of materials.

MUS 1080. Jazz Combo. (ART/P; 1 cr [max 8 cr]; S-N only; prereq #; fall, spring, every year)
Performance of instrumental jazz music with emphasis on improvisation.

MUS 1081. Jazz Improvisation. (ART/P; 2 cr; prereq #; spring, offered periodically)
Introduction to the art of jazz improvisation for instrumentalists and vocalists. Topics, including practice techniques, jazz theory, jazz harmony, and improvisational techniques, are discussed through solo analysis, transcriptions, listening assignments, live performances, and instructor demonstration.

MUS 1090. Vocal Chamber Ensemble. (ART/P; 1 cr [max 8 cr]; S-N only; prereq #; fall, spring, every year)
Performance of vocal ensemble music especially written for smaller groups.

MUS 1101. Core Studies I: Music Theory I. (M/SR: 4 cr; prereq major or minor or #, concurrent enrollment in piano class/lessons until piano proficiency is passed for majors and minors; fall, every year) First course in a series of four. Basic harmonic techniques, initial
MUS 102. Core Studies I: Music Theory II. (M/SCR; 4 cr; prereq 1101, major or minor or #, concurrent enrollment in piano class/lessons until piano proficiency is passed for majors and minors; spring, every year)
Harmonic progression and modulation, seventh chords, secondary dominants and sevenths, analysis of scores with attention to two- and three-part forms.
MUS 111. Functional Keyboard for the Music Major I. (ART/P; 1 cr; prereq coreq 1101, #; special fee required; fall, every year)
Beginning instruction for music majors and minors whose principal performing medium is voice or non-keyboard instrument; skill development in sight reading, technique, harmonization, simple literature.
MUS 112. Functional Keyboard for the Music Major II. (ART/P; 1 cr; prereq 1111, coreq 1102, #; special fee required; spring, every year)
Continued beginning instruction begun in Mus 1111 for music majors and minors whose principal performing medium is voice or non-keyboard instrument; includes sight reading, technique, harmonization, transposition, improvisation, simple literature.
MUS 1200-1223. Individual Performance Studies. (ART/P; 1 cr per sem for each [max 8 cr]; prereq #; special fee required; fall, spring, every year)
Private instruction in the following areas is open to all students. It is recommended that music majors fulfill their requirement of 7 credits in successive enrollments in order to maintain continuous emphasis recommended that music majors fulfill their requirement of 7 credits in successive enrollments in order to maintain continuous emphasis in sight reading, technique, harmonization, transcription, improvisation, simple literature.
MUS 1300. UMM Symphonic Winds. (ART/P; 1 cr [max 8 cr]; S-N only; major or minor or #, concurrent enrollment in piano class/lessons until piano proficiency is passed for majors and minors; fall, spring, every year)
Preparation of choral works for at least one public concert each semester and other special events. Emphasis on basic choral singing techniques.
MUS 1520. Concert Choir. (ART/P; 1 cr [max 8 cr]; S-N only; prereq #; fall, spring, every year)
Preparation of choral works from all major periods of music literature with emphasis on concert performance. Several public concerts and appearances scheduled each semester in addition to a spring concert tour.
MUS 1521. Chamber Choir. (ART/P; 1 cr [max 8 cr]; S-N only; prereq #; fall, spring, every year)
Directed preparation of works composed specifically for small chamber choir and ensembles. Works from all major periods of music literature, with emphasis on stylistic performance. Several public concerts and appearances scheduled each semester.
MUS 1530. Jazz Ensemble. (ART/P; 1 cr [max 8 cr]; S-N only; fall, spring, every year)
Rehearsals and concerts cover the literature for this medium.
MUS 1531. Brass Ensemble. (ART/P; 1 cr [max 8 cr]; S-N only; prereq #; fall, spring, every year)
A small directed ensemble for brass (and occasionally percussion) players, performing standard brass literature in various styles and from all historical periods.
MUS 1540. Orchestra. (ART/P; 1 cr [max 8 cr]; S-N only; fall, spring, every year)
The study and preparation of standard orchestral works for performance at several public concerts and appearances each semester in addition to a concert tour. The study of basic orchestral procedure.
MUS 1560. Concert Choir Tour. (0.5 cr [max 2 cr]; S-N only; prereq coreq 1320, #; a program fee is attached to this course to cover the expenses of the concert tour; spring, every year)
Participation in the spring concert tours undertaken by the UMM Concert Choir. A program fee is attached to this course to cover the expenses of the concert tour.
MUS 1570. Chamber Orchestra. (ART/P; 1 cr [max 8 cr]; S-N only; fall, spring, every year)
The study and preparation of standard string orchestral works for performance at several public concerts and appearances each semester. Wind and percussion players need special permission to enroll. The study of basic orchestral procedure.
MUS 1580. Voice and Instrumental Ensemble. (ART/P; 1 cr [max 8 cr]; S-N only; fall, spring, every year)
The study and preparation of standard string orchestral works for performance at several public concerts and appearances each semester. Wind and percussion players need special permission to enroll. The study of basic orchestral procedure.
MUS 1590. Conducting. (ART/P; 1 cr; prereq #; fall, spring, offered periodically)
Practical training in conducting techniques with attention to conducting style and the musical elements of conducting.
MUS 1591. Choral Conducting. (ART/P; 1 cr; prereq #; fall, spring, offered periodically)
Practical training in conducting techniques with attention to conducting style and the musical elements of conducting.
MUS 1592. Orchestral Conducting. (ART/P; 1 cr; prereq #; fall, spring, offered periodically)
Practical training in conducting techniques with attention to conducting style and the musical elements of conducting.
MUS 1593. Band Conducting. (ART/P; 1 cr; prereq #; fall, spring, offered periodically)
Practical training in conducting techniques with attention to conducting style and the musical elements of conducting.
MUS 1700. UMM Wind Ensemble. (ART/P; 1 cr [max 8 cr]; S-N only; fall, spring, every year)
Preparation of choral works from all major periods of music literature, with emphasis on concert performance. Several public concerts and appearances scheduled each semester in addition to a spring concert tour.
MUS 1710. University Choir. (ART/P; 1 cr; prereq #; fall, spring, every year)
Preparation of choral works for at least one public concert each semester and other special events. Emphasis on basic choral singing techniques.
MUS 1720. Concert Choir. (ART/P; 1 cr [max 8 cr]; S-N only; prereq #; fall, spring, every year)
Preparation of choral works from all major periods of music literature with emphasis on concert performance. Several public concerts and appearances scheduled each semester in addition to a spring concert tour.
MUS 1721. Chamber Choir. (ART/P; 1 cr [max 8 cr]; S-N only; prereq #; fall, spring, every year)
Directed preparation of works composed specifically for small chamber choir and ensembles. Works from all major periods of music literature, with emphasis on stylistic performance. Several public concerts and appearances scheduled each semester.
MUS 1730. Jazz Ensemble. (ART/P; 1 cr [max 8 cr]; S-N only; fall, spring, every year)
Rehearsals and concerts cover the literature for this medium.
MUS 1731. Brass Ensemble. (ART/P; 1 cr [max 8 cr]; S-N only; prereq #; fall, spring, every year)
A small directed ensemble for brass (and occasionally percussion) players, performing standard brass literature in various styles and from all historical periods.
MUS 1740. Orchestra. (ART/P; 1 cr [max 8 cr]; S-N only; fall, spring, every year)
The study and preparation of standard orchestral works for performance at several public concerts and appearances each semester in addition to a concert tour. The study of basic orchestral procedure.
MUS 1760. Concert Choir Tour. (0.5 cr [max 2 cr]; S-N only; prereq coreq 1320, #; a program fee is attached to this course to cover the expenses of the concert tour; spring, every year)
Participation in the spring concert tours undertaken by the UMM Concert Choir. A program fee is attached to this course to cover the expenses of the concert tour.
MUS 1770. Chamber Orchestra. (ART/P; 1 cr [max 8 cr]; S-N only; fall, spring, every year)
The study and preparation of standard string orchestral works for performance at several public concerts and appearances each semester. Wind and percussion players need special permission to enroll. The study of basic orchestral procedure.
MUS 1780. Voice and Instrumental Ensemble. (ART/P; 1 cr [max 8 cr]; S-N only; fall, spring, offered periodically)
Practical training in conducting techniques with attention to conducting style and the musical elements of conducting.
MUS 1790. Conducting. (ART/P; 1 cr; prereq #; fall, spring, offered periodically)
Practical training in conducting techniques with attention to conducting style and the musical elements of conducting.
MUS 1800. Introduction to American Popular Music. (IC; 4 cr; =MUS 1049; prereq new college student in their first semester of enrollment at UMM; fall, offered periodically)
Survey of popular musical styles in America from the early 20th century to today. An emphasis on classroom discussion and activities, and written assignments designed to encourage critical analysis of American popular music and its social contexts.
MUS 2001. Close Studies I: Music Theory III. (HUM; 4 cr; prereq 1102, major or minor or #, concurrent enrollment in piano class/lessons until piano proficiency is passed for majors and minors; fall, every year)
Chromatic harmony of the Classical Period; borrowed chords, Neapolitan and augmented sixths; harmonic and formal analysis of scores including variation, sonata, and rondo forms.
MUS 2102. Core Studies II: Music Theory IV. (HUM; 4 cr; prereq 2101, major or minor or #; concurrent enrollment in piano class/lessons until piano proficiency is passed for majors and minors; spring, every year) Extended chromatic harmony of the Romantic and later eras--ninth, eleventh, and thirteenth chords; altered dominants and chromatic mediant; analysis of scores including nonfunctional harmony; and twelve-tone techniques.

MUS 2111. Functional Keyboard for the Music Major III. (ART/P; 1 cr; prereq 2111, coreq 2101; #; special fee required; fall, every year) Elementary to early intermediate instruction for music majors and minors whose principal performing medium is voice or non-keyboard instrument; continued skill development begun in MUS 2111; introduction of easy solo and ensemble literature.

MUS 2112. Functional Keyboard for the Music Major IV. (ART/P; 1 cr; prereq 2111, coreq 2102; #; special fee required; spring, every year) Intermediate instruction for music majors and minors whose principal performing medium is voice or non-keyboard instrument; continued skill development begun in MUS 2111; introduction of intermediate solo and ensemble literature.

MUS 2301. Instrumental Techniques--Woodwind. (1 cr; prereq major or minor or #; spring, offered periodically) Practical study to develop elementary skills as well as a basic teaching knowledge and understanding of performance problems of the woodwind instruments.

MUS 2302. Instrumental Techniques--Brass. (1 cr; prereq major or minor or #; spring, offered periodically) Practical study to develop elementary skills as well as a basic teaching knowledge and understanding of performance problems of the brass instruments.

MUS 2303. Instrumental Techniques--Strings. (1 cr; prereq major or minor or #; fall, offered periodically) Practical study to develop elementary skills as well as a basic teaching knowledge and understanding of performance problems of the string instruments.

MUS 2304. Vocal Techniques. (1 cr; prereq major or minor or #; spring, odd years) Practical study to develop elementary skills as well as a basic teaching knowledge and understanding of performance problems of the voice.

MUS 2305. Instrumental Techniques--Percussion. (1 cr; prereq major or minor or #; spring, offered periodically) Practical study to develop elementary skills as well as a basic teaching knowledge and understanding of performance problems of the percussion instruments.

MUS 3051. Piano Pedagogy I. (ART/P; 2 cr; prereq 1200 or #; fall, even years) This course is a study, demonstration, and discussion about the various elements of piano teaching methods, techniques, and materials for elementary and early intermediate levels. This includes analysis of various piano courses and piano literature, discussion of technical regimes, ideas for private and group lessons, and planning for the practical business aspect of teaching. Recommended for piano majors.

MUS 3052. Piano Pedagogy II. (ART/P; 2 cr; prereq 1200 or #; fall, odd years) This course covers much intermediate literature from each of the four major periods of music with practical ideas to put into immediate use by current teachers. Piano literature to motivate and retain students as well as the study of performance practices as they relate to each musical style are emphasized.

MUS 3061. Guitar Pedagogy. (ART/P; 2 cr; prereq 1221 or #; fall, spring, every year) Discussions and readings on guitar pedagogy, private and group lessons, instructing young students, practice methods and business issues associated with self-employment in teaching music. Instruction of beginners in a one-on-one situation and classroom presentation of lessons.

MUS 3101. Core Studies III: Medieval, Renaissance, and Baroque Music. (HIST; 4 cr; prereq 1102, major or minor or #; fall, odd years) Historical development of Western music and representative literature of the various periods and styles.

MUS 3102. Core Studies III: Classical, Romantic, and 20th-Century Music. (FA; 4 cr; prereq 1102, major or minor or #; spring, odd years) Historical development of Western music and representative literature of the various periods and styles.

MUS 3161. Introduction to World Music. (IP; 4 cr; =MUS 1061; prereq major or minor; non-music majors or minors should register for 1061; fall, every year) Survey of primarily non-Western music cultures, emphasizing the development of an appreciation for the music and an understanding of its significance in its culture of origin. For music majors.

MUS 3200-3223. Advanced Individual Performance Studies. (ART/P; 1 cr per sem for each [max 8 cr]; prereq #; fall, spring, every year) Private instruction in the major performance area for music students at an advanced level of performance. A jury examination is required for advanced performance study. For listing of performance areas, see MUS 1200 above. Note: Applied music instructors are not expected to make up sessions for absences from scheduled lessons.

MUS 3311. Conducting Techniques. (2 cr; prereq major or minor or #; fall, every year) Development of basic ensemble conducting skills.

MUS 3321. Instrumental Conducting and Materials. (2 cr; prereq 3311, major or minor or #; spring, every year) Specialization of instrumental conducting and a survey of ensemble materials for various levels of ability and maturity.

MUS 3331. Choral Conducting and Materials. (2 cr; prereq 3311, major or minor or #; spring, every year) Specialization of choral conducting and a survey of ensemble materials for various levels of ability and maturity.

MUS 3351. Instrumental Arranging. (ART/P; 2 cr; A-F only; prereq 1102 or #; spring, offered periodically) Theoretical study of orchestral and band instruments and special problems of scoring and arranging for small and large instrumental ensembles.

MUS 3352. Choral Arranging. (ART/P; 2 cr; A-F only; prereq 1102 or #; spring, offered periodically) Practical study of arranging for vocal ensembles and for vocal ensembles with instruments; exercises dealing with special problems and limitations of different age and ability groups.

MUS 3393. Directed Study. (1-5 cr [max 10 cr]; prereq approved directed study form; fall, spring, every year) An on- or off-campus learning experience individually arranged between a student and a faculty member for academic credit in areas not covered in the regular curriculum.

MUS 4101. Form and Analysis. (4 cr; prereq 2102, major or minor or #; fall, even years) Analysis of musical forms, including harmonic and melodic structure of the phrase, the binary principle, the ternary principle, sonata allegro, rondo, and later alterations of the forms.

MUS 4102. Counterpoint. (FA; 4 cr; prereq 2102 or #; fall, odd years) Counterpuntal techniques of the 18th century with references to earlier 16th century species counterpoint.

MUS 4103. Seminar: Topics in Music History. (HIST; 4 cr; prereq 1102, major or minor or #; spring, odd years) A small, discussion-oriented seminar emphasizing a multi-faceted approach to an advanced musical topic. Topics vary each semester the course is offered and are determined by the instructor. Student work culminates in a semester-long research project and presentation.

MUS 4110. Seminar: Advanced Music Theory and Analysis. (FA; 4 cr [max 8 cr]; prereq 2102, major or minor or #; fall, odd years) A discussion-oriented seminar on an advanced aspect or aspects of music theory and analysis. Repertoire and techniques vary each semester the course is offered and are determined by the instructor. Student work culminates in a semester-long research project and presentation.
MUS 4901 - Senior Project and Portfolio. (1 cr; S-N only; prereq major; #; fall, spring, every year)
Culminating activity that allows a graduating student to demonstrate competence as a musician. Projects may take the form of a solo recital, lecture-recital, research paper, chamber music recital, or other major study. Project should be determined in the student’s junior year and approved by the music faculty. Majors taking MUS 3200 through 3223 normally satisfy this requirement with a senior recital.

Natural Science (NSci)
Division of Science and Mathematics

Objectives—Courses in this group give students the opportunity to study scientific topics that reach across the boundaries of the traditional disciplines.

Natural Science Course Descriptions

NSCI 1061. The State of the Planet. (ENVT; 4 cr; spring, offered periodically)
An investigation of the present physical state of the soil, water, and atmosphere of the earth and how these important systems are changing. Soil generation and erosion, desertification, the hydrologic cycle, global climate change, ozone depletion.

NSCI 1062. Salmon in Endangered Ecosystems. (ENVT; 4 cr; includes an intensive 2.5 week field component; summer, offered periodically)
The natural history of salmon and the rivers they inhabit. Examination of how practices such as timber harvest, grazing of domestic livestock, and construction of hydropower dams have impacted river ecosystems and have contributed to the historic decline of salmon populations in the Pacific Northwest. There is an intensive field component to this course (about 2.5 weeks) in addition to in-class preparation and introduction of relevant concepts and background material.

NSCI 2061. Arctic Field Ecology and Geology. (ENVT; 4 cr; summer, offered periodically)
Interdisciplinary study of the ecological systems and geologic processes of arctic and alpine environments, including discussion of the human ecology of the arctic and the response of biological and physical systems to global climate change. Taught in northern Sweden.

NSCI 2102. Field Experience in Natural History: The Italian Alps. (SCI; 4 cr; summer, offered periodically)
Study of the geology, soils, vegetation, and glaciers of the Italian Alps. Understanding the geologic history, paleozoic evolution and extinction, mountain building, climate change; the "iceman" and early human habitation of the region; influence of the natural setting on humans and environmental problems associated with human development.

NSCI 3100. Scientific Biography and Autobiography. (2 cr [max 4 cr]; prereq #: fall, spring, offered periodically) The life, work, and time of eminent scientists through biography and autobiography.

NSCI 3301. Relativity and Cosmology. (SCI; 4 cr; prereq Math 1102, Phys 1102 or #: fall, spring, offered periodically)

Philosophy (Phil)
Division of the Humanities

The philosophy program provides an environment in which students receive rich, well-rounded instruction in philosophy whose pursuit is essential to a liberal arts education.

Objectives—The philosophy program offers students the opportunity to study the works of significant figures in philosophy; investigate the fundamental problems and systems of thought that frame philosophical inquiry; develop the ability to think and write critically and effectively; and cultivate the logical, analytical, and conversational skills necessary for stimulating and fruitful philosophical inquiry.

Philosophy Major

No grades below C- are allowed. Courses may not be taken S-N, unless offered S-N only.
A minimum GPA of 2.00 is required in the major to graduate. The GPA includes all, and only, University of Minnesota coursework. Grades of “F” are included in GPA calculation until they are replaced.

Required Courses

PHIL 1101 - Introduction to Philosophy [HUM] (4 cr) or PHIL 1801 - THINK: An Introduction to Philosophy [IC] (4 cr)
PHIL 2101 - Introduction to Symbolic Logic [M/ISR] (4 cr)
PHIL 4901 - Senior Philosophical Defense (2 cr)
PHIL 2111 - Introductory Ethics [HUM] (4 cr)

Core Courses

Take 12 or more credits from the following:
PHIL 3101 - Metaphysics [HUM] (4 cr)
PHIL 3121 - Political Philosophy [SS] (4 cr)
PHIL 3141 - The Theory of Knowledge [HUM] (4 cr)
PHIL 3151 - History of Ancient Philosophy [HIST] (4 cr)
PHIL 3171 - History of Modern Philosophy [HIST] (4 cr)
PHIL 4111 - Ethical Theory [HUM] (4 cr)

Elective Courses

Take 8 or more credits from the following:
PHIL 2112 - Professional Ethics [E/CR] (4 cr)
PHIL 2113 - International and Biomedical Ethics [HUM] (4 cr)
PHIL 2114 - Environmental Ethics [ENVT] (4 cr)
PHIL 2121 - Philosophy of Religion [HUM] (4 cr)
PHIL 2141 - Analytic Feminism [HUM] (4 cr)
PHIL 2151 - Philosophy of Mind [HUM] (4 cr)
PHIL 2161 - Philosophy and Film [HUM] (4 cr)
PHIL 3112 - Free Will [HUM] (4 cr)
PHIL 3131 - Philosophy of Law [SS] (4 cr)
PHIL 3162 - The Scottish Enlightenment: Markets, Minds, and Morals [IP] (4 cr)
PHIL 4000 - History of Philosophy Seminar [HIST] (4 cr)
PHIL 4002 - Existentialism [HIST] (4 cr)
PHIL 4100 - Moral Issues and Theories [HUM] (4 cr)
PHIL 4121 - Philosophy of Language [HUM] (4 cr)
PHIL 4130 - Contemporary Issues in Philosophy [HUM] (4 cr)
PHIL 4131 - Personal Identity, Proper Names, and Essences [HUM] (4 cr)

Additional 4xxx Elective
One additional 4xxx course exclusive of those used to meet other major requirements or electives.
Take 4 or more credits from the following:
PHIL 4xxx

Philosophy Minor

No grades below C- are allowed. Courses may not be taken S-N, unless offered S-N only.
A minimum GPA of 2.00 is required in the minor to graduate. The GPA includes all, and only, University of Minnesota coursework. Grades of "F" are included in GPA calculation until they are replaced.

Required Courses

Take 8 or more credits from the following:
PHIL 2101 - Introduction to Symbolic Logic [M/ISR] (4 cr)
PHIL 2111 - Introductory Ethics [HUM] (4 cr)
PHIL 1101 - Introduction to Philosophy [HUM] (4 cr)
or PHIL 1801 - THINK: An Introduction to Philosophy [IC] (4 cr)

Core Courses

Take 8 or more credits from the following:
PHIL 3101 - Metaphysics [HUM] (4 cr)
PHIL 3121 - Political Philosophy [SS] (4 cr)
PHIL 3141 - The Theory of Knowledge [HUM] (4 cr)
PHIL 2111. Introductory Ethics. (HUM; 4 cr; =PHIL 1101; fall, spring, offered periodically)
An introduction to fundamental philosophical problems in areas such as metaphysics (what exists?), epistemology (what can we know? and how can we know it?), and ethics (what actions are moral and immoral? and what is the good life?), with an emphasis on developing the reading, writing, and analytical skills required for philosophical investigation.

PHIL 1993. Directed Study. (1-5 cr [max 10 cr]; prerequisite approved directed study form; fall, spring, every year)
An on- or off-campus learning experience individually arranged between a student and a faculty member for academic credit in areas not covered in the regular curriculum.

PHIL 2101. Introduction to Symbolic Logic. (M/SCI; 4 cr; fall, every year)
An introduction to formal or deductive logic, including basic concepts of logical terminology; Aristotelian logic; and symbolic translations, truth tables, and theory of deduction. Samples from political speeches, philosophical essays as well as original LSAT questions are analyzed.

PHIL 2111. Introductory Ethics. (HUM; 4 cr; spring, every year)
An introduction to philosophical accounts of what makes right acts right and wrong acts wrong, issues involving the concept of goodness, and arguments or debates about moral responsibility.

PHIL 2112. Professional Ethics. (E/CR; 4 cr; fall, every year)
A critical examination of moral issues that arise in a person's professional life. Possible topics include affirmative action, autonomy in the workplace, ethical issues in advertising, corporate responsibility, coercive wage offers, distributive justice, and sexual harassment. Issues concerning race, gender, and women are included in selected modules.

PHIL 2113. International and Biomedical Ethics. (HUM; 4 cr; spring, offered periodically)
A general survey of topics in international and biomedical ethics. Topics may include: nuclear deterrence, humanitarian intervention, just war theory, famine relief, global justice, abortion, euthanasia, doctor-patient relationships, clinical trials, animal experimentation, and genetic engineering.

PHIL 2114. Environmental Ethics. (ENVT; 4 cr; spring, odd years)
Survey of fundamental theoretical debates in environmental ethics. General moral approaches are canvassed, as are the major positions in environmental ethics: anthropocentrism, sentientism, biocentric individualism, holism. Specific topics include: speciesism, the environmentalism-animal liberation debate, and the predestination problem.

PHIL 3101. Metaphysics. (HUM; 4 cr; =PHIL 1101 or 2101 or 2111 or #; fall, every even year)
Explores fundamental metaphysical issues such as the nature of reality, the notion of personal identity, the relationship between language, thought, minds, and the world. Philosophical works of both classic and contemporary philosophers such as Plato, Aristotle, Locke, Putnam, and Kripke are discussed.

PHIL 2112. Philosophy of Religion. (HUM; 4 cr; spring, offered periodically)
An introduction to several problems in the philosophy of mind, such as the mind-body problem, consciousness, and psychological explanation.

PHIL 2161. Philosophy and Film. (HUM; 4 cr; spring, every year)
Addresses some traditional aesthetic questions about the status of film as well as examining film to be a form of philosophy. Also, the role of film as social commentary is discussed.

PHIL 3171. History of Modern Philosophy. (HUM; 4 cr; =PHIL 2101 or 2111 or #; spring, odd years)
A selection of main philosophical issues concerning religion such as the notion of a divinity, the attempts to prove or refute the existence of a divine being, the relationship between faith and reason, the link between religion and morality, the knowledge of a divinity.

PHIL 2151. Philosophy of Mind. (HUM; 4 cr; fall, spring, offered periodically)
An introduction to several problems in the philosophy of mind, such as the mind-body problem, consciousness, and psychological explanation.

PHIL 3131. Philosophy of Law. (SS; 4 cr; spring, odd years)
A critical examination of theoretical and practical normative issues in the philosophy of law, especially questions regarding the justification of punishment.

PHIL 2141. Analytic Feminism. (HUM; 4 cr; spring, offered periodically)
Applies an analytical approach to issues discussed in feminist writings. A mixture of lecture and discussion. Requirements include essay exams, papers, attendance, service-learning projects with related reflective journals, and class participation.

PHIL 2151. Philosophy of Mind. (HUM; 4 cr; fall, spring, offered periodically)
An introduction to fundamental philosophical problems in areas such as metaphysics (what exists?), epistemology (what can we know? and how can we know it?), and ethics (what actions are moral and immoral? and what is the good life?), with an emphasis on developing the reading, writing, and analytical skills required for philosophical investigation.

PHIL 1801. THINK: An Introduction to Philosophy. (IC; 4 cr; =PHIL 1101; prerequisite new college student in their first semester of enrollment at UMM; fall, offered periodically)
How should we live our lives? What happens after death? What is the relationship between the mind and body? Does God exist? Why do bad things happen to good people? Examine classical works in philosophy that address these big questions about human nature and its place in the universe. Authors include: Plato, Aristotle, Epictetus, Lucretius, Sextus Empiricus, Descartes, and Hume. Work on the development of philosophical writing, reading, and speaking skills.

PHIL 1802. Philosophy and Pop Culture. (IC; 4 cr; prerequisite new college student in their first semester of enrollment at UMM; fall, offered periodically)
An introduction to traditional issues in philosophy through the lens of characters presented in various popular cultural media.

PHIL 2101. Introduction to Symbolic Logic. (M/SCI; 4 cr; fall, every year)
An introduction to formal or deductive logic, including basic concepts of logical terminology; Aristotelian logic; and symbolic translations, truth tables, and theory of deduction. Samples from political speeches, philosophical essays as well as original LSAT questions are analyzed.

PHIL 2111. Introductory Ethics. (HUM; 4 cr; spring, every year)
An introduction to philosophical accounts of what makes right acts right and wrong acts wrong, issues involving the concept of goodness, and arguments or debates about moral responsibility.

PHIL 2112. Professional Ethics. (E/CR; 4 cr; fall, every year)
A critical examination of moral issues that arise in a person's professional life. Possible topics include affirmative action, autonomy in the workplace, ethical issues in advertising, corporate responsibility, coercive wage offers, distributive justice, and sexual harassment. Issues concerning race, gender, and women are included in selected modules.

PHIL 2113. International and Biomedical Ethics. (HUM; 4 cr; spring, offered periodically)
A general survey of topics in international and biomedical ethics. Topics may include: nuclear deterrence, humanitarian intervention, just war theory, famine relief, global justice, abortion, euthanasia, doctor-patient relationships, clinical trials, animal experimentation, and genetic engineering.

PHIL 2114. Environmental Ethics. (ENVT; 4 cr; spring, odd years)
Survey of fundamental theoretical debates in environmental ethics. General moral approaches are canvassed, as are the major positions in environmental ethics: anthropocentrism, sentientism, biocentric individualism, holism. Specific topics include: speciesism, the environmentalism-animal liberation debate, and the predestination problem.

PHIL 2121. Philosophy of Religion. (HUM; 4 cr; spring, offered periodically)
A selection of main philosophical issues concerning religion such as the notion of a divinity, the attempts to prove or refute the existence of a divine being, the relationship between faith and reason, the link between religion and morality, the knowledge of a divinity.

PHIL 2141. Analytic Feminism. (HUM; 4 cr; spring, offered periodically)
Applies an analytical approach to issues discussed in feminist writings. A mixture of lecture and discussion. Requirements include essay exams, papers, attendance, service-learning projects with related reflective journals, and class participation.

PHIL 2151. Philosophy of Mind. (HUM; 4 cr; fall, spring, offered periodically)
An introduction to several problems in the philosophy of mind, such as the mind-body problem, consciousness, and psychological explanation.

PHIL 2161. Philosophy and Film. (HUM; 4 cr; spring, every year)
Addresses some traditional aesthetic questions about the status of film as well as examining film to be a form of philosophy. Also, the role of film as social commentary is discussed.

PHIL 2993. Directed Study. (1-5 cr [max 10 cr]; prerequisite approved directed study form; fall, spring, every year)
An on- or off-campus learning experience individually arranged between a student and a faculty member for academic credit in areas not covered in the regular curriculum.

PHIL 3101. Metaphysics. (HUM; 4 cr; =PHIL 1101 or 2101 or 2111 or #; spring, offered periodically)
Explores fundamental metaphysical issues such as the nature of reality, the notion of personal identity, the relationship between language, thought, minds, and the world. Philosophical works of both classic and contemporary philosophers such as Plato, Aristotle, Locke, Putnam, and Kripke are discussed.

PHIL 3112. Free Will. (HUM; 4 cr; =PHIL 1101 or 2101 or 2111 or #; spring, offered periodically)
Explores the notion of personal identity, the relationship between language, thought, minds, and the world. Philosophical works of both classic and contemporary philosophers such as Plato, Aristotle, Locke, Putnam, and Kripke are discussed.

PHIL 3111. Philosophy of Law. (SS; 4 cr; spring, odd years)
Critical examination of theoretical and practical normative issues in the philosophy of law, especially questions regarding the justification of punishment.

PHIL 3141. The Theory of Knowledge. (HUM; 4 cr; =PHIL 1101 or 2101 or 2111 or #; fall, every even year)
Explores historical and contemporary views on the limits, justification, and nature of human knowledge. Topics include experiential versus a priori knowledge, the nature of belief, skepticism, and different theories of justification.
PHIL 3151. History of Ancient Philosophy. (HIST; 4 cr; prereq 1101 or 2101 or 2111 or #; fall, even years)
Explores the views of philosophers such as Plato, Aristotle, Epicurus, and the Stoics. Possible topics include ancient views on the nature and possibility of knowledge, the relationship of the soul to the body, and what the good life is for a human being.

PHIL 3162. The Scottish Enlightenment: Markets, Minds, and Morals. (IP; 4 cr; =HIST 3162; prereq 3000; summer, offered periodically)
Same as Hist 3162. Study of the philosophy and history of the Scottish Enlightenment. Focus on its original setting through analysis and discussion of primary texts and scholarly interpretations, guest lectures, and small-group discussions with recognized experts in the study of the Scottish Enlightenment. Includes visits to historically significant cities and sites.

PHIL 3171. History of Modern Philosophy. (HIST; 4 cr; prereq 1101 or 2101 or 2111 or #; spring, odd years)
Explores views of philosophers such as Descartes, Leibniz, Berkeley, Hume, and Kant. Possible topics include the relationship of the mind to the body, and whether and how it is possible to have knowledge of the external world.

PHIL 3993. Directed Study. (1-5 cr [max 10 cr]; prereq approved directed study form; fall, spring, every year)
An on- or off-campus learning experience individually arranged between a student and a faculty member for academic credit in areas not covered in the regular curriculum.

PHIL 4000. History of Philosophy Seminar. (HIST; 4 cr [max 8 cr]; prereq 1101 or 2101 or 2111 or #; fall, every year)
Intensive investigation of a particular philosophical problem, area, or work of a philosopher. Topics vary.

PHIL 4002. Existentialism. (HIST; 4 cr; prereq any 1xxx or 2xxx or #; fall, spring, offered periodically)
Examination of some prominent thinkers often classified as "existentialists": Kierkegaard, Dostoevsky, Nietzsche, Sartre, and Camus. Topics include what human freedom is, what makes a life authentic (or inauthentic), what role passion and choice should play in acquiring our beliefs and values, and what difference (if any) God's existence or non-existence makes on the significance of our lives.

PHIL 4100. Moral Issues and Theories. (HUM; 4 cr [max 8 cr]; prereq 2111 or #; fall, even years)
Intensive investigation of a particular problem, area, issue, or theory in moral philosophy. Possible topics include moral responsibility, autonomy, weakness of will, and self-deception. Topics vary.

PHIL 4111. Ethical Theory. (HUM; 4 cr; prereq 2111 or #; spring, odd years)
This course in metaethics focuses on the nature of moral obligation. Topics include: Can moral obligations change with the passage of time? Are genuine moral dilemmas possible? Does "ought" imply "can"? Is moral obligation overriding? Is there a genuine distinction between "subjective" and "objective" moral obligation?

PHIL 4121. Philosophy of Language. (HUM; 4 cr; prereq 2101 or #; spring, even years)
Traditional and contemporary discussions of philosophical problems such as the nature of language, its relationships to the world, to human thought, and to truth; the nature of logical reasoning; metalinguistic problems. Readings from philosophers such as Frege, Russell, Quine, Putnam, Goodman, Wittgenstein, and Kripke.

PHIL 4130. Contemporary Issues in Philosophy. (HUM; 4 cr [max 8 cr]; prereq 1101 or 2101 or 2111 or #; fall, odd years)
Exposure to, and critical examination of, philosophical issues of special contemporary interest. Topics may include the nature of analytic philosophy and its relationship to other philosophical traditions such as continental or feminist philosophy, the debate on realism and anti-realism, the notion of objectivity.

PHIL 4131. Personal Identity, Proper Names, and Essences. (HUM; 4 cr; prereq 1101 or 2101 or 2111 or #; fall, spring, offered periodically)
A seminar primarily devoted to the discussion of readings, i.e., Naming and Necessity by Saul Kripke and Reasons and Persons by Derek Parfit. Questions such as: How do proper names function? Are there essential features of persons or objects? What makes each of us the same particular individual over time?

PHIL 4901. Senior Philosophical Defense. (2 cr; A-F only; prereq phil major; fall, spring, every year)
Writing and defending a senior philosophical thesis is the culminating experience for UMM philosophy majors. Majors develop a piece of their philosophical writing, producing multiple drafts in response to comments from a variety of philosophical viewpoints, and then orally defend their thesis.

PHIL 4993. Directed Study. (1-5 cr [max 10 cr]; prereq approved directed study form; fall, spring, every year)
An on- or off-campus learning experience individually arranged between a student and a faculty member for academic credit in areas not covered in the regular curriculum.

**Physical Education and Athletics**

(See Sport Management Major and Sport Studies and Athletics.)

**Physics (Phys)**

**Division of Science and Mathematics**

**Objectives**—The physics program is designed to help students understand the concepts of classical and modern physics while also developing their ability to solve quantitative problems in these areas. It provides the opportunity for students to acquire the skills necessary to perform experimental work. The program develops students’ ability to communicate, in form and content, both orally and in writing, the results of scientific work.

The physics program offers a background suitable for students planning to pursue graduate study or careers in industry, research, or teaching. It also provides a solid foundation for any career requiring analytical reasoning.

**Physics Major**

Courses may not be taken S-N. A minimum GPA of 2.00 is required in the major to graduate. The GPA includes all, and only, University of Minnesota coursework. Grades of F are included in GPA calculation until they are replaced. No grades below C- are allowed.

**Required Courses**

- PHYS 1101 - Calculus I [M/SR] (5 cr)
- PHYS 1102 - Calculus II [M/SR] (5 cr)
- PHYS 2101 - Calculus III [M/SR] (4 cr)
- PHYS 2301 - Atmospheric Physics [ENVT] (4 cr)
- PHYS 2401 - Optics [SCI-L] (4 cr)
- PHYS 3101 - Classical Mechanics [SCI] (4 cr)
- PHYS 3151 - Quantum Physics [SCI] (4 cr)
- PHYS 3201 - Modern Physics [SCI-L] (4 cr)
- PHYS 3401 - Statistical Physics [SCI] (4 cr)
- PHYS 3993 - Directed Study (1-5 cr)
- PHYS 4002 - Senior Thesis II (1 cr)
- PHYS 4901 - Senior Thesis I (1 cr)
- PHYS 4993 - Directed Study (1-5 cr)
**Physics Minor**

Courses may not be taken S-N. The GPA in these courses must be at least 2.00. Courses with a grade lower than C- may not be used to meet the minor requirements.

**Minor Requirements**

**Elective Courses**

Take 4 or more credits from the following:

- PHYS 2201 - Circuits and Electronic Devices [SCI-L] (4 cr)
- PHYS 2301 - Atmospheric Physics [ENVT] (4 cr)
- PHYS 2401 - Optics [SCI-L] (4 cr)
- PHYS 2993 - Directed Study (1-5 cr)
- PHYS 3101 - Classical Mechanics [SCI] (4 cr)
- PHYS 3401 - Experimental Physics [SCI-L] (4 cr)
- PHYS 3501 - Statistical Physics [SCI] (4 cr)
- PHYS 3993 - Directed Study (1-5 cr)
- PHYS 4101 - Electromagnetism (4 cr)
- PHYS 4201 - Quantum Mechanics (4 cr)
- PHYS 4993 - Directed Study (1-5 cr)
- PHYS 3151 - Solid State Physics (2 cr)
- PHYS 3152 - Particle and Nuclear Physics (2 cr)
- PHYS 3153 - Cosmology (2 cr)

**Teacher Preparation Requirements**

Students seeking teaching licensure in physics 9–12 should refer to the Education, Secondary (SeEd) section of this catalog.

**Physics Course Descriptions**

**PHYS 1005. Journal Club.** (1 cr [max 4 cr]; S-N only; fall, every year)

Students learn about a wide variety of current topics in physics by reading and discussing recent journal articles.

**PHYS 1052. The Solar System.** (SCI-L; 5 cr; no cr for students who have received cr for Phys 1051; fall, every year)

History of astronomy: motions of celestial objects; gravity and electromagnetic radiation; the Earth and Moon; the planets and their moons; comets and asteroids; the Sun; telescopes and other astronomical instruments. Stars and constellations of the fall sky. Night viewing sessions required. (4 hrs lect, 2 hrs lab)

**PHYS 1053. Introduction to Stars, Galaxies, and Cosmology.** (SCI; 4 cr; spring, every year)

Gravity and electromagnetic radiation; nuclear physics; stellar properties; stellar evolution; galaxies; quasars; and cosmology. Stars and constellations of the winter sky. Night viewing sessions required. (4 hrs lect)

**PHYS 1063. Physics of Weather.** (ENVT; 4 cr; fall, every year)

Structure and dynamics of the atmosphere, global energy balance, various atmospheric phenomena from the global scale to the local scale including global wind systems, cyclones, fronts and air masses, thunderstorms, tornadoes, past and present climate, weather forecasting, problems concerning the interaction between civilization and the atmosphere. Some observation and field work required.

**PHYS 1064. High Altitude Ballooning: An Exploration of Near Space.** (IC; 2 cr; A-F only; prereq new college student in their first semester of enrollment at UMM; launch and recovery is a required class activity tentatively scheduled for a Saturday about two thirds of the way through the semester; fall, offered periodically)

A hands-on study of atmospheric and experimental physics. Laboratory experience with microcontrollers and electronics are developed and used to design and build a mini-spacecraft. High-altitude balloons carry the spacecraft into near-space, up to an altitude of about 90,000 feet. The launch and recovery are required class activities tentatively scheduled for a Saturday about two thirds of the way through the semester. The remainder of the semester involves data analysis from the balloon mission.

**PHYS 1091. Principles of Physics I.** (SCI-L; 5 cr; prereq high school higher algebra; fall, every year)

Introduction to physics without the use of calculus. Vectors, kinematics, Newton's laws of motion, work and energy, momentum, torque, fluids, thermal physics, laws of thermodynamics, oscillations and waves. (4 hrs lect, 2 hrs lab)

**PHYS 1092. Principles of Physics II.** (SCI-L; 5 cr; prereq 1091; spring, every year)

Coulomb's law, electric fields, electric potential, capacitance, electric current, resistance, DC circuits, magnetism, induction, reflection and refraction of light, mirrors and lenses, interference and diffraction, optical instruments, radioactivity (4 hrs lect, 2 hrs lab)

**PHYS 1101. General Physics I.** (SCI-L; 5 cr; prereq Math 1101 or #; spring, every year)

Vectors, kinematics, laws of motion, circular motion, work-energy theorem, conservation principles, rotational motion, gravitation, simple harmonic oscillations, wave phenomena, fluid mechanics, thermal properties of matter, kinetic theory, laws of thermodynamics. (4 hrs lect and rec, 2 hrs lab)

**PHYS 1102. General Physics II.** (SCI-L; 5 cr; prereq 1101, Math 1102 or #; fall, every year)

Coulomb's law, electric field, Gauss's law, electric potential, capacitance, dielectrics, current, resistance, circuits, magnetic field, Ampere's law, inductance, Faraday's law, AC circuits, Maxwell's equations, electromagnetic waves, nature of light, reflection, refraction, optical instruments, interference, diffraction. (4 hrs lect and rec, 2 hrs lab)

**PHYS 1801. Energy Science.** (IC; 2 cr; prereq new college student in their first semester of enrollment at UMM; fall, offered periodically)

A scientific and quantitative look at the production and consumption of energy. Examination of the scientific foundations of numerous sources of energy and evaluation of the potential for each to satisfy the world's appetite for energy.

**PHYS 1993. Directed Study.** (1-5 cr [max 10 cr]; prereq approved directed study form; fall, spring, every year)

An on- or off-campus learning experience individually arranged between a student and a faculty member for academic credit in areas not covered in the regular curriculum.

**PHYS 2101. Modern Physics.** (SCI-L; 4 cr; prereq 1102, Math 2401 or #; spring, every year)

Special relativity, quantum nature of matter and radiation, Bohr-Sommerfeld atom, atomic spectra, uncertainty principle, Schrodinger equation, hydrogen atom, electron spin, Pauli principle, and periodic table. (3 hrs lect, 3 hrs lab)

**PHYS 2201. Circuits and Electronic Devices.** (SCI-L; 4 cr; prereq 1102 or #; spring, every years)

A hands-on practical course in electronics. Analog electronics including AC and DC circuit analysis, passive circuit elements, pn junctions, transistors, and op-amp circuits. Digital electronics including combinational logic, sequential logic, and microprocessors. (3 hrs lect, 3 hrs lab)

**PHYS 2301. Atmospheric Physics.** (ENV; 4 cr; prereq 1092 or 1102, Math 1102; fall, odd years)

Introduction to atmospheric physics with an emphasis on thermodynamics. Atmospheric thermodynamics including gas laws, phase transitions, laws of thermodynamics, two-component systems, atmospheric stability; radiative transfer including atmospheric optics and remote sensing; some aspects of atmospheric chemistry such as aerosols, chemical cycles, traces gases; cloud microphysics including nucleation and growth; and atmospheric dynamics including equations of motion for fluid flow; applications to weather systems. (4 hrs lect)

**PHYS 2401. Optics.** (SCI-L; 4 cr; prereq 1102; spring, odd years)

Light as a wave phenomenon, electromagnetic nature of light, Huygens' principle, interference, diffraction--Fraunhofer and Fresnel, polarization, dispersion, absorption and scattering. (4 hrs lect, lab TBA)

**PHYS 2993. Directed Study.** (1-5 cr [max 10 cr]; prereq approved directed study form; fall, spring, every year)

An on- or off-campus learning experience individually arranged between a student and a faculty member for academic credit in areas not covered in the regular curriculum.
PHYS 3003. Computer Modeling of Materials. (SCI; 2 cr; prereq 1102; fall, every year)
Focus on the description of materials as assemblies of microscopic particles, covering aspects of molecular dynamics simulations in various statistical ensembles. Skills in scientific programming, visualization and parallel programming are developed through a semester-long project in which students develop a series of molecular dynamics modules.

PHYS 3101. Classical Mechanics. (SCI; 4 cr; prereq 2101, Math 2101 or #; fall, every year)
Kinematics and dynamics of a particle, oscillations, central-force motion, systems of particles, rigid-body rotations, gravitation, non-inertial coordinate systems, Lagrangian and Hamiltonian formulations, dynamics of rigid bodies. (4 hrs lect)

PHYS 3151. Solid State Physics. (2 cr; prereq 2101, Math 2101; fall, odd years)
An introduction to crystal lattices, Bravais lattices, electronic band structure in metals and semi-metals, cohesive energy of solids, phonon structure, magnetic properties.

PHYS 3152. Particle and Nuclear Physics. (2 cr; prereq 2101, Math 2101; spring, odd years)
Leptons, baryons, quarks, the weak interaction, the strong interaction, the Standard Model, Feynman diagrams, nuclear stability, the shell model, decay modes, nuclear reactions.

PHYS 3153. Cosmology. (2 cr; prereq 2101; spring, odd years)
The geometry of the universe, cosmological models, observational parameters, the age of the universe, dark matter, the cosmic microwave background, nucleosynthesis, inflation, dark energy.

PHYS 3401. Experimental Physics. (SCI-L; 4 cr; prereq 2101; fall, even years)
An introduction to modern experimental methods. (3 hrs lect, 3 hrs lab)

PHYS 3501. Statistical Physics. (SCI; 4 cr; prereq 2101; spring, even years)
Probability distributions, statistical ensembles, statistical thermodynamics, ideal gases, quantum statistics, kinetic theory of transport phenomena. (4 hrs lect)

PHYS 3993. Directed Study. (1-5 cr [max 10 cr]; prereq approved directed study form; fall, spring, every year)
An on- or off-campus learning experience individually arranged between a student and a faculty member for academic credit in areas not covered in the regular curriculum.

PHYS 4101. Electromagnetism. (4 cr; prereq 2101, Math 2101 or #; fall, odd years)
Vector calculus, electrostatics, Laplace and Poisson equations, dielectrics, magnetostatics, magnetic properties of matter, electromagnetic induction, Maxwell's equations, electrodynamics, electromagnetic waves. (4 hrs lect)

PHYS 4201. Quantum Mechanics. (4 cr; prereq 2101, Math 2101; spring, every year)
Uncertainty principle, Schroedinger equation, commutation relations, momentum space wave functions, Dirac notation, applications to problems in one dimension and the hydrogen atom, angular momentum. (4 hrs lect)

PHYS 4901. Senior Thesis I. (1 cr; prereq sr; fall, every year)
Capstone experience in physics. Students work with recent journal articles in physics, practice technical writing, and identify a thesis topic.

PHYS 4902. Senior Thesis II. (1 cr; prereq 4901; spring, every year)
Students develop and present their senior theses orally and in writing.

PHYS 4993. Directed Study. (1-5 cr [max 10 cr]; prereq approved directed study form; fall, spring, every year)
An on- or off-campus learning experience individually arranged between a student and a faculty member for academic credit in areas not covered in the regular curriculum.

Political Science (Pol)
Division of the Social Sciences
This discipline is in the Division of the Social Sciences.

Objectives—Political science is the comprehensive study of the behaviors, organizations, institutions, and philosophical foundations of political life at the individual, state, national, and international settings. The major program is designed to prepare students for lifelong civic engagement and leadership in democratic society, as well as intercultural competence as global citizens. The political science major curriculum stresses the development of strong analytical skills and critical thinking and prepares students for further academic training in political science, law, public administration, and other graduate programs as well as for work in public affairs, business, journalism, interest groups, and a wide range of other careers.

Students who complete the political science major are able to critically analyze and interpret political processes, problems, and challenges; understand, synthesize, and contribute imaginatively to the major research and theoretical debates prevalent in the study of American and comparative politics, international relations, and political thought; present their evidence and arguments in clear, precise language; and participate thoughtfully, knowledgeably, and ethically in civic life.

Political Science Major
The political science discipline strongly recommends that students take advantage of opportunities in internships, field studies, and study abroad.

Students are also strongly encouraged to take advantage of courses in other disciplines such as economics, history, psychology, philosophy, and statistics that will complement and enrich their political science coursework.

No grades below C- are allowed. Courses may not be taken S-N, unless offered S-N only.

A minimum GPA of 2.00 is required in the major to graduate. The GPA includes all, and only, University of Minnesota coursework. Grades of "F" are included in GPA calculation until they are replaced.

Required Courses
Take 2 or more of the 1xxx courses PLUS POL 2001 AND POL 4905 and STAT 1601 or (STAT 2601).

Take 2 or more course(s) from the following:
POLL 1101 - Introduction to Political Theory [E/CR] (4 cr)
POLL 1201 - American Government and Politics [E/CR] (4 cr)
POLL 1401 - World Politics [IP] (4 cr)

Take all of the following courses:
POLL 2001 - Political Science Research Methods [SS] (4 cr)
POLL 4905 - Senior Research Seminar in Political Science (2 cr)
or STAT 2601 - Introduction to Statistics [MISR] (4 cr)
or STAT 2601 - Statistical Methods [MISR] (4 cr)

Electives
Of the 24 additional credits, at least one course must be a 4xxx course.

Directed studies and field studies may count toward the 24 credits, but they do not replace the requirement to take at least one course from each area or the requirement for one 4xxx political science course. No more than 12 credits can be directed studies and field studies.

Take 24 or more credits from the following:

American Politics
Take 4 or more credits from the following:
POLL 3201 - Legislative Process [SS] (4 cr)
POLL 3211 - The American Presidency [SS] (4 cr)
POLL 3233 - Civil Liberties and American Politics [E/CR] (4 cr)
POLL 3234 - Race, Class, and Power: Social Movements and Interest Groups in U.S. Politics [HDIV] (4 cr)
POL 3211 - The American Presidency [SS] (4 cr)
POL 3263 - Political Psychology [SS] (4 cr)
POL 3272 - Making Environmental Public Policy [ENVT] (4 cr)
POL 4251 - Political Participation and Voting Behavior [SS] (4 cr)
POL 4266 - Media and Politics (4 cr)

International and Comparative Politics
Take 4 or more credits from the following:
POL 3401 - U.S. Foreign Policy [SS] (4 cr)
POL 3411 - International Law [E/CR] (4 cr)
POL 3453 - Russian Politics and Foreign Policy [IP] (4 cr)
POL 3461 - Diplomatic Negotiation [IP] (4 cr)
POL 3475 - International Human Rights [IP] (4 cr)
POL 3501 - Government and Politics of Asia [SS] (4 cr)
POL 3503 - Women in Politics Worldwide [IP] (4 cr)
POL 3504 - Latin American Politics [IP] (4 cr)
POL 3514 - Pyramids and Politics on the Nile [IP] (4 cr)
POL 4451 - Comparative Foreign Policy (4 cr)
POL 4452 - International Relations (4 cr)

Political Theory
Take 4 or more credits from the following:
POL 3351 - Ancient and Medieval Political Thought [HUM] (4 cr)
POL 3352 - Modern Political Thought [HUM] (4 cr)
POL 3354 - Political Ethics [E/CR] (4 cr)
POL 3355 - Environmental Political Theory [ENVT] (4 cr)
POL 4301 - Contemporary Political Thought [HUM] (4 cr)
POL 4302 - International Comparative Political Theory [IP] (4 cr)

4xxx Elective
Take 4 or more credits from the following:
POL 4xxx

Political Science Minor
No grades below C- are allowed. Courses may not be taken S-N, unless offered S-N only.
A minimum GPA of 2.00 is required in the minor to graduate. The GPA includes all, and only, University of Minnesota coursework. Grades of "F" are included in GPA calculation until they are replaced.

Required Courses
Take 1 or more course(s) from the following:
POL 1201 - American Government and Politics [E/CR] (4 cr)
POL 1401 - World Politics [IP] (4 cr)

Elective Courses
Take at most 8 credits from the following:
POL 1101 - Introduction to Political Theory [E/CR] (4 cr)
POL 1201 - American Government and Politics [E/CR] (4 cr)
POL 1401 - World Politics [IP] (4 cr)
POL 1xxx, 2xxx

Take 8 or more credits from the following:
POL 3201 - Legislative Process [SS] (4 cr)
POL 3211 - The American Presidency [SS] (4 cr)
POL 3233 - Civil Liberties and American Politics [E/CR] (4 cr)
POL 3234 - Race, Class, and Power: Social Movements and Interest Groups in U.S. Politics [HDIV] (4 cr)
POL 3261 - State and Local Politics [SS] (4 cr)
POL 3263 - Political Psychology [SS] (4 cr)
POL 3272 - Making Environmental Public Policy [ENVT] (4 cr)
POL 3351 - Ancient and Medieval Political Thought [HUM] (4 cr)
POL 3352 - Modern Political Thought [HUM] (4 cr)
POL 3354 - Political Ethics [E/CR] (4 cr)
POL 3355 - Environmental Political Theory [ENVT] (4 cr)
POL 3401 - U.S. Foreign Policy [SS] (4 cr)
POL 3411 - International Law [E/CR] (4 cr)
POL 3453 - Russian Politics and Foreign Policy [IP] (4 cr)
POL 3461 - Diplomatic Negotiation [IP] (4 cr)
POL 3475 - International Human Rights [IP] (4 cr)
POL 3501 - Government and Politics of Asia [SS] (4 cr)
POL 3503 - Women in Politics Worldwide [IP] (4 cr)
POL 3504 - Latin American Politics [IP] (4 cr)
POL 3996 - Field Study in Political Science (1-16 cr)
POL 4251 - Political Participation and Voting Behavior [SS] (4 cr)

POL 4266 - Media and Politics (4 cr)
POL 4301 - Contemporary Political Thought [HUM] (4 cr)
POL 4302 - International Comparative Political Theory [IP] (4 cr)
POL 4451 - Comparative Foreign Policy (4 cr)
POL 4452 - International Relations (4 cr)
POL 3xxx, 4xxx

Teacher Preparation Requirements
Students seeking teaching licensure in social studies 5–12 should refer to the Education, Secondary (SeEd) section of this catalog.

Political Science Course Descriptions

POL 1101. Introduction to Political Theory. (E/CR; 4 cr; spring, every year)
An introduction to key political concepts, questions, and ideologies through the writings of major thinkers of Western political theory and examination of contemporary debates about political life.

POL 1201. American Government and Politics. (E/CR; 4 cr; fall, spring, every year)
Analysis of principles, organization, procedures, and powers of government in the United States. The federal system, national constitution, civil and political rights, party system; nature, structure, powers, and procedures of legislative, executive, and judicial departments of the national government.

POL 1401. World Politics. (IP; 4 cr; fall, every year)
The contemporary international system, including nationalism, international political economy, foreign policy formulation, and global concerns such as the environment and conflict. North/South debate, definitions of power, the new world order, regional vs. global conflicts, and avenues of cooperation.

POL 1811. War and Terrorism. (IC; 2 cr; prereq new college student in their first semester of enrollment at UMM; fall, offered periodically)
An in-depth look into war and terrorism from 1914 to the present. Why do nations go to war? Why do people resort to terrorism? How do we prevent war/terrorism and preserve peace? Grapple with these questions and by the end of the term, acquire a rich, sophisticated understanding of war/terrorism and independent, critical thinking skills on international conflicts as a whole.

POL 1993. Directed Study. (1-5 cr [max 10 cr]; prereq approved directed study form; fall, spring, every year)
An on- or off-campus learning experience individually arranged between a student and a faculty member for academic credit in areas not covered in the regular curriculum.

POL 2001. Political Science Research Methods. (SS; 4 cr; prereq any 1xxx-level UMM Pol course, major or minor or #; fall, every year)
Students conceive and develop research questions and hypotheses; collect and critically review published research on their topic; analyze empirical evidence using statistical software; and write clearly, forcefully, and logically about their research. Examination of the philosophy and critiques of social-science methods.

POL 2993. Directed Study. (1-5 cr [max 10 cr]; prereq approved directed study form; fall, spring, every year)
An on- or off-campus learning experience individually arranged between a student and a faculty member for academic credit in areas not covered in the regular curriculum.

POL 3201. Legislative Process. (SS; 4 cr; prereq 1201 or #; Stat 1601 or Stat 2601 recommended; fall, odd years)
The internal organization of Congress and state legislatures, with emphasis on how rules and organizational changes affect the policy process. Topics include the evolution of the modern Congress and state legislatures, the committee system, the role of party leadership, and competing theories of congressional organization and behavior.

POL 3211. The American Presidency. (SS; 4 cr; prereq 1201 or #; Stat 1601 or Stat 2601 recommended; fall, even years)
Traces the development of the American presidency over time. Major theories of presidential behavior and success are examined, as well as the literature on presidential popularity and executive/congressional relations.

POL 3233. Civil Liberties and American Politics. (E/CR; 4 cr; prereq 1201; spring, even years)
Overview of the contested history of civil liberties in the United States. Topics include a discussion of the role of civil liberties in American
political culture and the theoretical foundations of civil liberties as a concept. Survey of changing Supreme Court interpretations of the Bill of Rights and when and why its opinions on such subjects as freedom of speech have varied over time. Also examined are factors which have contributed to support and opposition to civil liberties throughout the history of the United States within the public as a whole.

POL 3234. Race, Class, and Power: Social Movements and Interest Groups in U.S. Politics. (HDIV; 4 cr; prereq 1201; fall, even years)
A broad overview of social movements and interest groups. Using a case study approach, the class considers the question of when and why social movements and interest groups in American politics arise and what makes them more or less successful.

POL 3261. State and Local Politics. (SS; 4 cr; prereq 1201 or #; spring, odd years)
Examination of the ways American democracy functions on the subnational level in states, rural communities, and urban centers. Analysis of principles, organizations, procedures, and functions of state and local government, both urban and rural, in the United States, with particular emphasis on comparing state politics and policy outcomes.

POL 3263. Political Psychology. (SS; 4 cr; prereq 1201; Psy 1051 or # recommended; fall, odd years)
Examines the utility of concepts from personality and social psychology for conducting political analysis and understanding political behavior. Explores the role of the individual, group processes, and the political context in political decision making by both leaders and nonleaders.

POL 3272. Making Environmental Public Policy. (ENV’T; 4 cr; prereq 1101 or 1201 or 1401; spring, even years)
Exploration of the domestic and international politics of environmental and energy policy making. Focus on theoretical frameworks for policy making and political behaviors surrounding development of environmental and energy policies. Includes the applications of political dynamics and principles to specific areas of environmental and energy policy. Emphasis also given to policies of policy implementation.

POL 3351. Ancient and Medieval Political Thought. (HUM; 4 cr; prereq 1101 or #; spring, odd years)
A survey of Western social and political thought from 5th century BCE through the 15th century.

POL 3352. Modern Political Thought. (HUM; 4 cr; prereq 1101 or #; spring, even years)
A survey of Western social and political thought from the 16th through the 19th centuries.

POL 3354. Political Ethics. (E/CR; 4 cr; prereq 1101 or #; fall, even years)
Examination of the strengths, weaknesses, and implications of moral arguments in political decision making. Ethical frameworks drawn from theoretical readings are applied to a range of contemporary U.S. case studies such as state use of violence, interrogation in times of war, governmental secrecy and deceit, official disobedience, healthcare access, welfare reform, and environmental regulation and protection.

POL 3355. Environmental Political Theory. (ENV’T; 4 cr; fall, odd years)
An examination of political understandings of the relationship between humans and the natural environment. Topics include Western and non-Western perspectives on the natural environment, technological optimism and survivalism, the tragedy of the commons, environmental direct action movements, the environmental justice movement, and theories of green democracy and citizenship. Readings cover a variety of political perspectives and ideologies including neoconservatism, libertarianism, ecocommunism, ecocentrism, social ecology, deep ecology, and postmodernism.

POL 3401. U.S. Foreign Policy. (SS; 4 cr; prereq 1201 or 1401 or #; spring, even years)
Institutions and processes of American foreign policy. Major factors to be considered and levels of analysis that allow for the examination and dissection of foreign policy decisions.

POL 3411. International Law. (E/CR; 4 cr; prereq 1401 or #; spring, even years)
Relations of international law to individuals, states, the international community, jurisdictional problems, survey of principles developed by diplomatic agents and consuls, treaties, arbitration, treatment of aliens, pacific settlement. War, military occupation, war crimes, neutrality.

POL 3453. Russian Politics and Foreign Policy. (IP; 4 cr; prereq 1401, 2001 or #; no credit for students who have received credit for Pol 4453; spring, odd years)
Domestic and foreign policies of Russia and the former Soviet Union from the Bolshevik Revolution to the present. Nature of the Soviet empire, Russian Federalism, democratic and market reforms, Russian foreign relations, and diplomatic style.

POL 3461. Diplomatic Negotiation. (IP; 4 cr; summer, every year)
This course focuses on the art of diplomatic negotiation. The course consists of three components: (1) the theory and practice of diplomatic negotiation; (2) negotiating styles; and (3) simulation of diplomatic negotiations (bilateral and multilateral negotiations, international conference, summitry, and mediation). This course is unique in that it is devoted to simulations/mock conferences. Students gain first-hand knowledge and skills of negotiation through simulation.

POL 3475. International Human Rights. (IP; 4 cr; prereq 1401 or #; spring, odd years)
Explores the historical and philosophical development of concepts of human rights and the contemporary international political and legal frameworks to address rights. Analyzes contemporary concerns about political, economic, and social rights, as well as specific human rights topics like human trafficking and war crimes. Compares American, European, Asian, and Developing World conceptions and critiques of human rights.

POL 3501. Government and Politics of Asia. (SS; 4 cr; prereq 1101 or 1201 or 1401 or #; fall, odd years)
Examination of governments, political and leadership changes, and economic developments in China, Japan, and Korea. Modernization, democratization, political pluralism, revolution, authoritarianism, and civil-military relations.

POL 3503. Women in Politics Worldwide. (IP; 4 cr; prereq 1201 or #; spring, odd years)
Examines the ways gender influences politics throughout the world. Topics covered include the "gender gap" and voter turnout, women's involvement in linkage organizations, such as parties and interest groups, and finally policy outcomes regarding women in different kinds of political systems.

POL 3504. Latin American Politics. (IP; 4 cr; prereq 1401 or #; spring, even years)
A comparative examination of central issues in and components of Latin American political life, with a particular focus on economic development, political development of democratic regimes, political violence and human rights, and the region's role in the world. Countries analyzed may include Argentina, Brazil, Chile, Colombia, El Salvador, Mexico, Peru, and Cuba.

POL 3514. Pyramids and Politics on the Nile . (IP; 4 cr; prereq #; summer, offered periodically)
Four-week study-abroad course on Egyptian political history with an emphasis on the environmental challenges of the Nile River Valley. Guided excursions, guest speakers, and individual exploration at significant political, historical, and cultural sites in the Cairo area and along the Nile Valley from Aswan to Alexandria.

POL 3993. Directed Study. (1-5 cr [max 10 cr]; prereq approved directed study form; fall, spring, every year)
An on- or off-campus learning experience individually arranged between a student and a faculty member for academic credit in areas not covered in the regular curriculum.

POL 3996. Field Study in Political Science. (1-16 cr; prereq #; max of 4 cr may be applied to the major or minor; fall, spring, every year)
Field study of governmental organization; internship with legislature, a state or local administrative office, lobbying group, or other position involving direct experience with government, governmental officials, or political organizations and environment.
POL 4251. Political Participation and Voting Behavior. (SS; 4 cr; prereq 1201 or #; fall, every year)
A broad overview of factors influencing the political behavior of groups and individuals both within and outside institutions. Particular emphasis on examining issues such as voter turnout, economic influences on voting patterns, and social movement mobilization.

POL 4266. Media and Politics. (4 cr; prereq 1201, 2001 or #; spring, odd years)

POL 4301. Contemporary Political Thought. (HUM; 4 cr; prereq 1101, 2001 or #; fall, odd years)
A survey of social and political thought in the 20th and 21st centuries.

POL 4302. International Comparative Political Theory. (IP; 4 cr; prereq 1101, 2001 or #; fall, even years)
Examination of international political thought beyond the canon of Western political theory. Topics include modernity, democracy, legitimacy, justice, nonviolence, and nationalism, with an emphasis on the Islamic world, the Indian subcontinent, sub-Saharan Africa, and East Asia.

POL 4451. Comparative Foreign Policy. (4 cr; prereq 1401, 2001 or #; fall, even years)
Comparative examinations of foreign policies of selected countries, i.e., the United States, China, the two Koreas, and Japan. U.S. foreign policy toward Northeast Asia, the triangular relationship between Washington, Beijing, and Moscow; China's rise, North Korea's future, and Japan-U.S. military alliance.

POL 4452. International Relations. (4 cr; prereq 1401, 2001 or #; fall, odd years)
Theory and practice of contemporary international relations. Realism and idealism, national power, systems theory, integration theory, war and peace, conflict resolution, and the world government.

POL 4905. Senior Research Seminar in Political Science. (2 cr; prereq 2001, Stat 1601 or Stat 2601, at least one Pol 4XXX course; fall, spring, every year)
Guided research in political science. Requires the refinement and expansion of a research paper previously completed in a 4000-level political science course. The end result of this revision and expansion is an original, significant research paper of a substantial length. Also requires that the student make an oral presentation of the final work to the discipline faculty and graduating seniors. With faculty approval, the student may produce such a paper based on a research paper previously completed in a 3000-level political science course.

POL 4993. Directed Study. (1-5 cr [max 10 cr]; prereq approved directed study form; fall, spring, every year)
An on- or off-campus learning experience individually arranged between a student and a faculty member for academic credit in areas not covered in the regular curriculum.

Psychology (Psy)

Division of the Social Sciences

The psychology curriculum focuses on understanding scientific methods and applying them to the problems of the behavioral sciences and individual and social human behavior. It provides students with basic methodological skills, practice in applying these skills, and an introduction to core areas of psychology. Courses meet the needs of liberal arts students, as well as students planning to specialize in one of the fields of psychology at the graduate level.

Objectives:
* awareness of the range of knowledge in psychology
* competency in translating behavioral questions into the terms of scientific inquiry
* competency in reading and critically synthesizing the technical literature in psychology
* competency in quantifying and statistically analyzing behavior
* awareness of ethical issues in psychology

Psychology Major

No grades below C- are allowed. Courses may not be taken S-N, unless offered S-N only. A minimum GPA of 2.00 is required in the major to graduate. The GPA includes all, and only, University of Minnesota coursework. Grades of "F" are included in GPA calculation until they are replaced.

Take at least one course from each of the following areas. One course must be a designated lab course.

Learning and Cognition

Take 1 or more course(s) from the following:
- PSY 3101 - Learning Theory and Behavior Modification [SS] (4 cr)
- PSY 3111 - Sensation and Perception [SS] (4 cr)
- PSY 3112 - Cognition [SS] (4 cr)

Biological and Comparative Psychology

Take 1 or more course(s) from the following:
- PSY 3201 - Comparative Psychology [SCI-L] (4 cr)
- PSY 3211 - Biological Psychology [SCI-L] (5 cr)
- PSY 3221 - Behavioral Biology of Women [SCI] (4 cr)
- PSY 3521 - Health Psychology [SS] (4 cr)

Personality and Clinical Psychology

Take 1 or more course(s) from the following:
- PSY 3302 - Personality [SS] (4 cr)
- PSY 3313 - Psychopathology [SS] (4 cr)
- PSY 3314 - Child and Adolescent Psychopathology [SS] (4 cr)
- PSY 4101 - Helping Relationships (4 cr)
- PSY 4301 - Clinical Assessment and Therapeutic Interventions (4 cr)

Developmental Psychology

Take 1 or more course(s) from the following:
- PSY 2411 - Introduction to Lifespan Developmental Psychology [SS] (4 cr)
- PSY 3051 - The Psychology of Women and Gender [HDIV] (4 cr)
- PSY 3401 - Developmental Psychology I: Child Psychology [SS] (4 cr)
- PSY 3402 - Developmental Psychology II: Adolescence [SS] (2 cr)
- PSY 3403 - Developmental Psychology III: Adulthood and Aging [E/CR] (4 cr)
- PSY 3404 - Culture and Human Development [HDIV] (4 cr)

Social and Applied Psychology

Take 1 or more course(s) from the following:
- PSY 3501 - Social Psychology [SS] (4 cr)
- PSY 3502 - Psychology and Law [SS] (4 cr)
- PSY 3503 - Consumer Psychology [SS] (4 cr)
- PSY 3504 - Educational Psychology [SS] (4 cr)
- PSY 3513 - Negotiation [SS] (4 cr)
- PSY 3542 - Multicultural Psychology [HDIV] (4 cr)
- PSY 3701 - Organizational Behavior [SS] (4 cr)

Advanced Seminar in Psychology

Take exactly 1 course(s) from the following:
- PSY 4910 - Advanced Seminar in Cognitive Psychology (4 cr)
- PSY 4920 - Advanced Seminar in Biological or Comparative Psychology (4 cr)
- PSY 4930 - Advanced Seminar in Personality or Clinical Psychology (4 cr)
- PSY 4940 - Advanced Seminar in Developmental Psychology (4 cr)
- PSY 4950 - Advanced Seminar in Social Psychology (4 cr)
- PSY 4960 - Advanced Seminar in Health Psychology (4 cr)
Elective Courses
Additional elective credits to total at least 42 credits in the major (including required courses). Electives may be selected from any category above (except advanced seminars), and the following:

Take 1 or more course(s) from the following:
- IS 3800 - Practicum in Social Sciences (1-2 cr)
- POL 3263 - Political Psychology [SS] (4 cr)
- PSY 2112 - Psycholinguistics [SS] (4 cr)
- PSY 2581 - Drugs and Human Behavior [SS] (2 cr)
- PSY 2993 - Directed Study (1-5 cr)
- PSY 3261 - Human Sexuality [SS] (4 cr)
- PSY 3315 - Parenting and Family Therapy [SS] (4 cr)
- PSY 3611 - History and Philosophy of Psychology [HIST] (4 cr)
- PSY 3800 - Research Practicum (1-12 cr)
- PSY 3993 - Directed Study (1-5 cr)
- PSY 4102 - Intro to Prof Conduct, Legal Constraints, Ethics in Human Services [E/CR] (2 cr)
- PSY 4770 - Empirical Investigations in Psychology (1-6 cr)
- PSY 4896 - Field Experiences in Psychology (1-4 cr)
- PSY 4993 - Directed Study (1-5 cr)
- STAT 3601 - Data Analysis [M/SR] (4 cr)
- STAT 3611 - Multivariate Statistical Analysis [M/SR] (4 cr)

Psychology Minor

No grades below C- are allowed. Courses may not be taken S-N, unless offered S-N only.

A minimum GPA of 2.00 is required in the minor to graduate. The GPA includes all, and only, University of Minnesota coursework. Grades of "F" are included in GPA calculation until they are replaced.

Required Courses
- PSY 1051 - Introduction to Psychology [SS] (4 cr)
- PSY 2001 - Research Methods in Psychology [SS] (4 cr)
- STAT 1601 - Introduction to Statistics [M/SR] (4 cr)
- or STAT 2601 - Statistical Methods [M/SR] (4 cr)

At least one course from four of the five following areas. One must be designated lab course.

Learning and Cognition
Take 0–1 course(s) from the following:
- PSY 3101 - Learning Theory and Behavior Modification [SS] (4 cr)
- PSY 3111 - Sensation and Perception [SS] (4 cr)
- PSY 3112 - Cognition [SS] (4 cr)

Biological and Comparative Psychology
Take 0–1 course(s) from the following:
- PSY 3201 - Comparative Psychology [SCI-L] (4 cr)
- PSY 3211 - Biological Psychology [SCI-L] (5 cr)
- PSY 3221 - Behavioral Biology of Women [SCI] (4 cr)
- PSY 3521 - Health Psychology [SS] (4 cr)

Personality and Clinical Psychology
Take 0–1 course(s) from the following:
- PSY 3302 - Personality [SS] (4 cr)
- PSY 3313 - Psychopathology [SS] (4 cr)
- PSY 3314 - Child and Adolescent Psychopathology [SS] (4 cr)
- PSY 4101 - Helping Relationships (4 cr)
- PSY 4301 - Clinical Assessment and Therapeutic Interventions (4 cr)

Developmental Psychology
Take 0–1 course(s) from the following:
- PSY 2411 - Introduction to Lifespan Developmental Psychology [SS] (4 cr)
- PSY 3051 - The Psychology of Women and Gender [HDIV] (4 cr)
- PSY 3401 - Developmental Psychology I: Child Psychology [SS] (4 cr)
- PSY 3402 - Developmental Psychology II: Adolescence [SS] (2 cr)
- PSY 3403 - Developmental Psychology III: Adulthood and Aging [E/CR] (4 cr)
- PSY 3404 - Culture and Human Development [HDIV] (4 cr)

Social and Applied Psychology
Take 0–1 course(s) from the following:
- PSY 3501 - Social Psychology [SS] (4 cr)
- PSY 3502 - Psychology and Law [SS] (4 cr)
- PSY 3503 - Consumer Psychology [SS] (4 cr)
- PSY 3504 - Educational Psychology [SS] (4 cr)
PSY 2112. Psycholinguistics. (SS; 4 cr; A-F only; prereq 1051; spring, offered periodically) An introduction to the crossroads of psychology and linguistics. Topics include: introduction to linguistics, language production and comprehension at various levels, dialogue, language development, reading, and language abnormalities. Specific methods are discussed throughout.

PSY 2411. Introduction to Lifespan Developmental Psychology. (SS; 4 cr; prereq 1051; fall, every year) An introduction to theory, data, and research approaches in development from the prenatal period through childhood, adolescence, adulthood, and aging until the cessation of life. Includes physical, perceptual, cognitive, language, moral, personality, socio-emotional, family, and career development and changes over time, as well as issues of death, dying, and bereavement. Includes a multicultural focus.

PSY 2581. Drugs and Human Behavior. (SS; 2 cr; prereq 1051 or #; no credit for students who have received credit for Psy 1081; spring, every year) Survey of psychoactive drugs, their effects on mind and behavior, and prevention and treatment of drug abuse.

PSY 2993. Directed Study. (1-5 cr [max 10 cr]; prereq approved directed study form; fall, spring, every year) An on- or off-campus learning experience individually arranged between a student and a faculty member for academic credit in areas not covered in the regular curriculum.

PSY 3051. The Psychology of Women and Gender. (HDIV; 4 cr; prereq 1051 or #; spring, every year) Exploration of the interactive biological, psychological, and socio-cultural processes that shape the lives of women and the experience of gender. Topics include: the psychobiology of sex; the social construction of sex and gender; socialization and development; media representations; identity and sexuality; language and communication; motivation and personality; relationships; work and family lives; mental and physical health; mid- and later life development; victimizations of rape; intersections of race, class, and gender; and feminist approaches to teaching, learning, and knowing.

PSY 3101. Learning Theory and Behavior Modification. (SS; 4 cr; prereq 2001 or #; fall, every year) Major theories of learning and their importance for understanding human and nonhuman behavior. Classical and operant conditioning, generalization, discrimination, stimulus control, animal cognition. Behavior modification theories and techniques and their application to clinical populations. Lab projects demonstrate learning and behavior modification theories, concepts, and techniques and illustrate research methods and theory testing. Includes lab.

PSY 3111. Sensation and Perception. (SS; 4 cr; prereq 2001 or #; fall, every year) Empirical study of sensory processes and perceptual organization with emphasis on vision and audition. Analyzes anatomy and physiology of sense organs, psychophysics, signal detection theory, attention, speech perception, and perceptual-motor coordination. Includes lab.

PSY 3112. Cognition. (SS; 4 cr; prereq 2001 or #; spring, every year) Empirical study of memory, language behaviors, representation of knowledge, judgment, decision making, problem solving, and creative thinking. Includes lab.

PSY 3201. Comparative Psychology. (SCI-L; 4 cr; prereq [1051, 2001] or Biol 2111; spring, every year) Comparison of the causations of human and non-human animal behavior from both an evolutionary and biological point of view. The contributions of evolutionary selection pressures, genetics, environment, learning, and culture on the expression of behavior in a wide variety of species, through topics such as adaptation, fitness, altruism, social behavior, parental care, reproductive behavior, mating systems, and aggression. Focus on explaining modern human behavior as informed by non-human behavior. Includes lab component.

PSY 3211. Biological Psychology. (SCI-L; 5 cr; prereq [1051, 2001] or Biol 1101 or Biol 1111; fall, every year) Brain organization and function; an emphasis on an understanding of the neural processes that underlie human and nonhuman behavior. Incorporates information from psychology, neuroscience, endocrinology, physiology, chemistry, neurology, and zoology to investigate the physiological bases of behavior. Topics include sensory processes, drugs and addiction, biological rhythms, sexual differentiation, reproduction, methods in neuroscience, neuropsychological disorders, and clinical assessment. Lab projects focus on neuroanatomical organization and function of the brain. (4 hrs lect, 1 hr lab)

PSY 3281. Behavioral Biology of Women. (SCI; 4 cr; prereq [3201 or 3211] or Biol 2111 or #; spring, odd years) Exploration of proximate and ultimate influences on female behavior in human and nonhuman species. Topics include sexual differentiation, gender differences in cognition, biological basis of sexual orientation, female sexual selection, dominance, and other topics of interest to students. Readings consist of primary journal articles.

PSY 3261. Human Sexuality. (SS; 4 cr; prereq 1051, 2001; no credit for students who have received cr for Psy 1071; fall, every year) Survey of aspects of human sexuality, including intimacy and communication; male and female anatomy, physiology, and response; development of sexual differentiation, gender identity, gender role, and gender orientation; varieties of sexual expression; pregnancy and child birth; contraception and disease prevention; sexual coercion and abuse; sexual dysfunctions and their treatment.

PSY 3302. Personality. (SS; 4 cr; prereq 1051 or #; spring, every year) Nature of personality constructs and theories. Conscious vs. nonconscious processes; emotion and motivation; nature and measurement of personal traits; their dimensional structure, stability, development, and heritability.

PSY 3313. Psychopathology. (SS; 4 cr; prereq 1051 or #; spring, every year) Psychological disorders and their treatment, including anxiety, personality, mood, schizophrenia, eating, substance and other recognized disorders of adults.

PSY 3314. Child and Adolescent Psychopathology. (SS; 4 cr; A-F only; prereq 1051 or #; fall, every year) Broad overview of child and adolescent psychopathology—initially focusing on understanding basic concepts, historical context, developmental influences, theoretical perspectives, research methodology, and issues related to classification and assessment—followed by comprehensive information concerning the major childhood disorders (e.g., ADHD, depression, anxiety, pervasive developmental disorders).

PSY 3315. Parenting and Family Therapy. (SS; 4 cr; prereq 1051; spring, every year) Examination of the effects of parenting on the growth and development of children. Emphasizes specific parenting styles and practices and their effects on the social/emotional development and functioning of children at each stage of life. Provides an overview of the theory and practice of family counseling/therapy. Major systemic theoretical orientations are explored.

PSY 3401. Developmental Psychology I: Child Psychology. (SS; 4 cr; prereq 1051 or #; fall, every year) Theory, data, and research in development from conception to adolescence. Prenatal and physical development as well as perceptual, cognitive, personality, and social development. Language acquisition and Piaget's theory of cognitive development.

PSY 3402. Developmental Psychology II: Adolescence. (SS; 2 cr; prereq 1051 or #; spring, every year) Theory, data, and research in adolescent development with emphasis on physical, cognitive, and social development.

PSY 3403. Developmental Psychology III: Adulthood and Aging. (E/CR; 4 cr; prereq 1051 or #; fall, every year) An overview of current concepts, theories, and methods in the study of adult development and aging.

PSY 3404. Culture and Human Development. (HDIV; 4 cr; prereq 1051; spring, every year) Examination of the role of culture in human development through current research and examples from around the world. Learn about similarities and cultural differences in human development, and the regularities that explain these variations. Topics include the concept of culture in developmental psychology, diversity in child rearing.
practices, enculturation, gender roles, schooling, development in multicultural contexts, and the influence of technology and cultural change on development. Students learn to think culturally about their own development and see how it applies to their future careers.

**PSY 3501. Social Psychology.** (SS; 4 cr; prereq 1051 or Soc 1101 or #; fall, every year)

Theories and research in the study of interpersonal behavior. Topics include aggression, prejudice, altruism, persuasion, group dynamics, and social influence.

**PSY 3502. Psychology and Law.** (SS; 4 cr; prereq 1051; spring, even years)

A psychological perspective to the law and to the legal system. Topics include jury decision making, forensic psychology, trial processes, eyewitness testimony, and sentencing.

**PSY 3503. Consumer Psychology.** (SS; 4 cr; prereq Stat 1601 or Stat 2601 or #; spring, odd years)

Psychological basis for understanding consumers. Some of the topics include consumer behavior, consumer cognitive processes, and consumer judgments and decisions.

**PSY 3504. Educational Psychology.** (SS; 4 cr; prereq 1051; spring, offered periodically)

Discussion of psychological principles/theories in relation to learning in academic settings. Topics may include: a consideration of developmental and social issues that are likely to impact the learner; a discussion of individual differences in learning; an examination of different theoretical approaches to learning applied specifically to educational settings; an analysis of factors related to student motivation and behavior; and a discussion of issues related to testing and measurement in academic settings.

**PSY 3513. Negotiation.** (SS; 4 cr; [MGMT 3513]; prereq 3501 or Mgmt 3211 or Psych 3701; spring, offered periodically)

Same as Mgmt 3513. Examines the theoretical and applied aspects of negotiation. Topics include negotiation theory, strategy, skills and tactics, communication processes, global negotiation, and ethics. Use of negotiation simulations.

**PSY 3521. Health Psychology.** (SS; 4 cr; prereq 1051; spring, every year)

Health implications of interactions among behavioral, environmental, and physiological states. Physiological bases of behavior and health; stress and coping; behavioral antecedents of disease; psychoneuroimmunology; disease prevention and health promotion.

**PSY 3542. Multicultural Psychology.** (HDIV; 4 cr; [PSY 3541]; prereq 1051; fall, every year)

Theoretical and methodological approaches to multicultural psychology. Multicultural psychology is the systematic study of behavior, cognition, and affect settings where people of different backgrounds interact. Exploration of these interactions both within and outside of the United States. Topics may include worldviews, communication styles, acculturation, prejudice, white privilege, identity development, physical and mental health, and multicultural competencies.

**PSY 3611. History and Philosophy of Psychology.** (HIST; 4 cr; prereq 1051 or #; spring, even years)

Historical roots and comparative features of major theoretical systems in psychology, including scientific methodology, research interests, and techniques. Movements within psychology that are discussed include: structuralism, functionalism, behaviorism, Gestaltism, psychoanalytic, and existential movements and their modern syntheses, as well as other topics of interest to students.

**PSY 3701. Organizational Behavior.** (SS; 4 cr; [MGMT 3701]; prereq Stat 1601 or Stat 2601, jr or sr; fall, offered periodically)

Same as Mgmt 3701. Uses the theories and research of the behavioral sciences to understand how organizations function at the individual, group, and organizational levels. Topics include stress in the workplace; group dynamics; power, leadership, and attribution theory.

**PSY 3800. Research Practicum.** (1-12 cr; S-N only; prereq #; fall, spring, every year)

Research activity carried out under the supervision of a psychology faculty member.

**PSY 3993. Directed Study.** (1-5 cr [max 10 cr]; prereq approved directed study form; fall, spring, every year)

An on- or off-campus learning experience individually arranged between a student and a faculty member for academic credit in areas not covered in the regular curriculum.

**PSY 4101. Helping Relationships.** (4 cr; prereq 3302 or 3313; fall, spring, every year)

Approaches to counseling and psychotherapy. Theories of helping relationships. Acquisition of helping skills, including attending behavior, reflection of feeling, paraphrasing, confrontation, and summarization. Major humanistic, cognitive, and behavioral approaches. Didactic instruction, observation of counseling and psychotherapeutic techniques, and practical experiences.

**PSY 4102. Intro to Prof Conduct, Legal Constraints, Ethics in Human Services.** (E/CR; 2 cr; prereq jr, 8 cr 3xxx or 4xxx human services courses or #; no credit for students who have received credit for 1S 4101; fall, spring, every year)

Concepts of professional ethics in human services professions; ethically relevant legal mandates and constraints on professional practice; practical problems in the application of ethical principles.

**PSY 4301. Clinical Assessment and Therapeutic Interventions.** (4 cr; prereq 3313 or 4101; spring, every year)

Evaluation of psychological assessments and interventions from different perspectives. Topic examples: structured and unstructured assessments; career counseling and assessment; motivational interviewing; family and couples therapy; interpersonal therapy; group therapy; and solution-focused therapy.

**PSY 4770. Empirical Investigations in Psychology.** (1-6 cr [max 12 cr]; prereq 2001; #; only 12 cr may be applied to the BA or the Psy major; fall, spring, every year)

Independent research study by a student in any area of psychology. A research proposal may be required by a faculty member prior to approval to enroll in the course.

**PSY 4896. Field Experiences in Psychology.** (1-4 cr; S-N only; prereq #, which normally requires 4101, 4102, other courses appropriate to field experience; only 4 cr may be applied to the BA or the Psy major; fall, spring, every year)

Individually arranged, supervised observation of and assistance with activities of professional psychologists in schools, clinics, hospitals, and other field settings.

**PSY 4910. Advanced Seminar in Cognitive Psychology.** (4 cr; A-F only; [PSY 4710]; prereq 2001, 3111 or 3112, sr status, #; fall, every year)

Advanced seminar on selected topics in the area of Cognitive Psychology. Members of the seminar read and discuss primary source material on a topic of common interest. In addition, each student investigates a related topic in greater depth. The student writes a paper and gives a public presentation based on the in-depth investigation.

**PSY 4920. Advanced Seminar in Biological or Comparative Psychology.** (4 cr; A-F only; [PSY 4720]; prereq 2001, 3201 or 3211, sr status, #; spring, every year)

Advanced seminar on selected topics in the area of Biological and Comparative Psychology. Members of the seminar read and discuss primary source material on a topic of common interest. In addition, each student investigates a related topic in greater depth. The student writes a paper and gives a public presentation based on the in-depth investigation.

**PSY 4930. Advanced Seminar in Personality or Clinical Psychology.** (4 cr; A-F only; [PSY 4730]; prereq 2001, 3302 or 3313, sr status, #; spring, every year)

Advanced seminar on selected topics in the area of Personality or Clinical Psychology. Members of the seminar read and discuss primary source material on a topic of common interest. In addition, each student investigates a related topic in greater depth. The student writes a paper and gives a public presentation based on the in-depth investigation.

**PSY 4940. Advanced Seminar in Developmental Psychology.** (4 cr; A-F only; [PSY 4740]; prereq 2001, 3401 or 3402 or 3403, sr status, #; fall, every year)

Advanced seminar on selected topics in the area of Developmental Psychology. Members of the seminar read and discuss primary source material on a topic of common interest. In addition, each student investigates a related topic in greater depth. The student
writes a paper and gives a public presentation based on the in-depth investigation.

**PSY 4950. Advanced Seminar in Social Psychology.** (4 cr; A-F only; [PSY 4750]; prereq 2001, 3501, sr status, #; spring, every year)
Advanced seminar on selected topics in the area of Social Psychology. Members of the seminar read and discuss primary source material on a topic of common interest. In addition, each student investigates a related topic in greater depth. The student writes a paper and gives a public presentation based on the in-depth investigation.

**PSY 4960. Advanced Seminar in Health Psychology.** (4 cr; A-F only; [PSY 4760]; prereq 2001, 3521 (or 3201 and 3211), sr status, #; fall, every year)
Advanced seminar on selected topics in the area of Health Psychology. Members of the seminar read and discuss primary source material on a topic of common interest. In addition, each student investigates a related topic in greater depth. The student writes a paper and gives a public presentation based on the in-depth investigation.

**PSY 4993. Directed Study.** (1-5 cr [max 10 cr]; prereq approved directed study form; fall, spring, every year)
An on- or off-campus learning experience individually arranged between a student and a faculty member for academic credit in areas not covered in the regular curriculum.

## Social Science Major

### Division of the Social Sciences

**Objectives**—Students will understand how each social science discipline structures and advances knowledge, raises and answers analytical questions, and deals with competing theories and the changing nature of the field. Students develop a sub-plan in a single discipline or an interdisciplinary social science area within the major.

### Program Requirements

Students work closely with their advisers to plan a program that satisfies the required competencies in a chosen sub-plan and in the social science disciplines. The sub-plan most often is demonstrated by completing the minor in that discipline. Program plans must be on file with the Social Sciences Division Office by the completion of a student's junior year.

No grades below C- are allowed. Courses for the major and in the social science disciplines. The sub-plan most often is demonstrated by completing the minor in that discipline. Program plans must be on file with the Social Sciences Division Office by the completion of a student's junior year.

A minimum GPA of 2.00 is required in the major to graduate. The GPA includes all, and only, University of Minnesota coursework. Grades of "F" are included in GPA calculation until they are replaced.

### Required Courses

While the programs of individual students may vary, based upon arrangements approved by the divisional committee for the social science major, the minimum competencies required for each discipline normally may be achieved by completion of the following courses and a sub-plan:

- **ANTH 1111** - Introductory Cultural Anthropology [SS] (4 cr)
- **ECON 1111** - Principles of Macroeconomics [SS] (4 cr)
- **ECON 1112** - Principles of Microeconomics [SS] (4 cr)
- **GEOG 2001** - Problems in Geography [ENVT] (4 cr)
- **HIST 1301** - Introduction to U.S. History [HIST] (4 cr)
- **POL 1201** - American Government and Politics [E/CR] (4 cr)
- **PSY 1051** - Introduction to Psychology [SS] (4 cr)
- **SOC 1101** - Introductory Sociology [SS] (4 cr)
- **STAT 1601** - Introduction to Statistics [M/SR] (4 cr)
- **or STAT 2601** - Statistical Methods [M/SR] (4 cr)

Equivalent proficiency in statistics approved by the divisional committee for the social science major.

### Program Sub-plans

Students are required to complete one of the following sub-plans. (Note: The honors sub-plan does not meet this requirement. Honors students are required to complete one sub-plan plus the honors sub-plan. Please see an adviser if no honors sub-plan is listed for the program.)

#### Anthropology Sub-plan

This sub-plan requires a total of 20 credits.

**Required Courses**

- **ANTH 2101** - Physical Anthropology [SCI-L] (4 cr)
- **ANTH 2103** - Archaeology [SS] (4 cr)
- **ANTH 4411** - Seminar in Anthropological Methodology [E/CR] (4 cr)

**Elective Courses**

An additional 8 credits (exclusive of those used to complete required courses) in anthropology and sociology; 4 of which must be in courses above 1xxx. No more than 4 credits can be from SOC courses.

**Take at most 4 credits from the following:**

- **ANTH 1811** - Contemporary Chinese Culture and Society [IC] (4 cr)
- **ANTH 1812** - Human Societies: Past and Present, Fact and Fiction [IC] (4 cr)
- **SOC 1811** - Global Sociology: Migration, Economic Globalization, Class, and Gender Inequality [IC] (2 cr)
- **SOC 1812** - Human Rights in the Age of Globalization [IC] (2 cr)
- **SOC 1813** - Political Economy of "Natural" Disaster [IC] (2 cr)
- **ANTH 2202** - Men and Masculinities [SS] (4 cr)
- **ANTH 2604** - China in the Era of Globalization [IP] (4 cr)
- **ANTH 2805** - Anthropology of Globalization [SS] (4 cr)
- **ANTH 1xxx**

**SOC 1xxx**

**Take 4 or more credits from the following:**

- **AMIN 3452** - American Indian Women [HDIV] (4 cr)
- **ANTH 3204** - Culture, Food, and Agriculture [ENVT] (4 cr)
- **ANTH 3206** - Ecological Anthropology [ENVT] (4 cr)
- **ANTH 3352** - Representation and Power in Contemporary China [SS] (4 cr)
- **ANTH 3402** - Representations from the Field: American Indian Ethnography and Ethnohistory [HDIV] (4 cr)
- **ANTH 3455** - North American Archaeology [SS] (4 cr)
- **ANTH 3601** - Social Justice and Human Rights in Latin America [IP] (4 cr)
- **ANTH 3602** - Women in Latin America [IP] (4 cr)
- **ANTH 3603** - Latin American Archaeology [SS] (4 cr)
- **ANTH 3701** - Forensic Anthropology [SCI-L] (4 cr)
- **ANTH 4501** - Archaeological Fieldschool [SS] (4 cr)
- **HIST 3402** - Representations from the Field: American Indian Ethnography and Ethnohistory [HDIV] (4 cr)

**ANTH 3xxx, 4xxx**

### Sociology Electives

**Take at most 4 credits from the following:**

- **SOC 2101** - Systems of Oppression [HDIV] (4 cr)
- **SOC 3103** - Research Methodology in Sociology [SS] (4 cr)
- **SOC 3111** - Sociology of Modernization [IP] (4 cr)
- **SOC 3112** - Sociology of the Environment and Social Development [IP] (4 cr)
- **SOC 3121** - Sociology of Gender and Sexuality [HDIV] (4 cr)
- **SOC 3122** - Sociology of Childhoods [HDIV] (4 cr)
- **SOC 3123** - Sociology of Aging [HDIV] (4 cr)
- **SOC 3124** - Sociology of Law [SS] (4 cr)
- **SOC 3131** - World Population [ENVT] (4 cr)
- **SOC 3141** - Sociology of Deviance [E/CR] (4 cr)
- **SOC 3204** - Culture, Food, and Agriculture [ENVT] (4 cr)
- **SOC 3251** - African Americans [HDIV] (4 cr)
- **SOC 3252** - Women in Muslim Society [IP] (4 cr)
- **SOC 3403** - Sociological Theory [SS] (4 cr)
- **SOC 3601** - Social Justice and Human Rights in Latin America [IP] (4 cr)
- **SOC 3602** - Women in Latin America [IP] (4 cr)

**SOC 2xxx, 3xxx, 4xxx**
Economics Sub-plan
This sub-plan requires a total of 19 credits.

**Required Courses**
- ECON 3201 - Microeconomic Theory [SS] (4 cr)
- ECON 3202 - Macroeconomic Theory [SS] (4 cr)
- MATH 1101 - Calculus I [M/SR] (5 cr)

**Elective Courses**
No more than 4 credits from each of the following can be applied to the sub-plan:
- ECON x993 - Directed Study
- ECON 4501 - Senior Research Seminar in Economics and Management

Take 6 or more credits from the following:
- ECON 3005 - Experimental and Behavioral Economics I [SS] (2 cr)
- ECON 3006 - Experimental and Behavioral Economics II [SS] (2 cr)
- ECON 3007 - Environmental and Natural Resource Economics I [ENVT] (2 cr)
- ECON 3008 - Environmental and Natural Resource Economics II [ENVT] (2 cr)
- ECON 3009 - Political Economy [SS] (4 cr)
- ECON 3014 - Game Theory: The Theory of Strategic Behavior I [SS] (2 cr)
- ECON 3015 - Game Theory: The Theory of Strategic Behavior II [SS] (2 cr)
- ECON 3113 - Money, Banking, and Financial Markets [SS] (4 cr)
- ECON 3121 - Public Economics I [SS] (2 cr)
- ECON 3122 - Public Economics II [SS] (2 cr)
- ECON 3131 - Comparative Economic Systems [IP] (2 cr)
- ECON 3133 - Economics of China [IP] (2 cr)
- ECON 3134 - Cooperative Business Model [SS] (2 cr)
- ECON 3141 - Economic Development and Growth I [IP] (2 cr)
- ECON 3142 - Economic Development and Growth II [IP] (2 cr)
- ECON 3153 - Contemporary Global Economic Issues [IP] (2 cr)
- ECON 3211 - History of Economic Thought I [HIST] (2 cr)
- ECON 3212 - History of Economic Thought II [HIST] (2 cr)
- ECON 3351 - Globalization: Examining India’s Social and Economic Development [IP] (4 cr)
- ECON 3501 - Introduction to Econometrics [M/SR] (4 cr)
- ECON 3993 - Directed Study (1-5 cr)
- ECON 4101 - Labor Economics I [HDIV] (2 cr)
- ECON 4102 - Labor Economics II [HDIV] (2 cr)
- ECON 4111 - Mathematical Economics I (2 cr)
- ECON 4112 - Mathematical Economics II (2 cr)
- ECON 4121 - International Trade Theory (2 cr)
- ECON 4131 - International Finance (2 cr)
- ECON 4501 - Senior Research Seminar in Economics and Management (2 cr)
- ECON 4993 - Directed Study (1-5 cr)
- ECON 5XXX, 4XXX

**Gender, Women, and Sexuality Studies Sub-plan**
This sub-plan requires a total of 24 credits.

**Required Courses**
- GWSS 1101 - Introduction to Gender, Women, and Sexuality Studies [HDIV] (4 cr)

**Elective Courses**
An additional 16 more credits from primary GWSS content courses, and up to 4 credits from partial GWSS content courses. Courses must be drawn from at least three different disciplines.

Note: Some of the courses carry prerequisites.

**Primarily Gender, Women, and Sexuality Content**
Take 16 or more credits from the following:
- AMIN 3452 - American Indian Women [HDIV] (4 cr)
- ANTH 2202 - Men and Masculinities [SS] (4 cr)
- ANTH 3602 - Women in Latin America [IP] (4 cr)
- ARTH 3281 - Women and Art [FA] (4 cr)
- ENGL 2031 - Gender in Literature and Culture [HDIV] (4 cr)
- ENGL 3332 - African American Women Writers [HDIV] (4 cr)
- ENGL 3414 - Feminist Theory [HDIV] (4 cr)
- GWSS 3001 - Troubling Genders in African Cinema [HUM] (4 cr)
- GWSS 3414 - Feminist Theory [HDIV] (4 cr)
- GWSS 3993 - Directed Study (1-5 cr)

**History Sub-plan**
This sub-plan requires a total of 20 credits.

**Required Courses**
- HIST 1111 - Introduction to World History [HIST] (4 cr)

**Electives**
An additional 16 credits in history of which 12 credits are at 2xxx or above. There should be evidence of work in at least three (3) of the following areas: Asia, Europe, Middle East/Africa, Latin America, Native America/Indigenous, and United States. Directed Studies (X993) may be used in any of the areas if content is appropriate and approved by their major adviser.

Take 16 or more credits including 3 or more sub-requirements(s) from the following:

**Geographical Areas- 1xxx**
Take at most 4 credits from the following:
- Asia
  - HIST 1501 - Introduction to East Asian History: China, Japan, and Korea before 1800. [HIST] (4 cr)
- Latin America
  - HIST 1601 - Latin American History: A Basic Introduction [IP] (4 cr)

University of Minnesota Morris 2013-15 Catalog

179
United States
HIST 1402 - Gender, Women, and Sexuality in American History [HDIV] (4 cr)

Geographical Areas – 2xxx or above
Take 12 or more credits from the following:

Asia
HIST 2551 - Modern Japan [HIST] (4 cr)
or HIST 2552 - History of Modern China [HIST] (4 cr)
or HIST 3558 - Shanghai: China’s Model of Modernity [IP] (4 cr)
or HIST 3559 - History of Religion in China [HIST] (4 cr)
or HIST 3707 - Gender in East Asia [HDIV] (4 cr)

Europe
HIST 2103 - Medieval Europe [HIST] (4 cr)
or HIST 2151 - Modern Europe [HIST] (4 cr)
or HIST 2708 - Gender, Women, and Sexuality in Modern Europe [IP] (4 cr)
or HIST 3101 - Renaissance and Reformation [HIST] (4 cr)
or HIST 3102 - Early Modern Europe [HIST] (4 cr)
or HIST 3161 - The Enlightenment [HIST] (4 cr)
or HIST 3176 - Berlin as a Site of History [HIST] (4 cr)
or HIST 3204 - Nazi Germany [HIST] (4 cr)
or HIST 3207 - The Crusades [IP] (4 cr)
or HIST 3208 - Modern Germany [HIST] (4 cr)
or HIST 3211 - Modern France [HIST] (4 cr)

Middle East/Africa
HIST 3008 - The Making of the Islamic World [HDIV] (4 cr)

Latin America
HIST 2608 - History of Cuba: From Colony to Revolutionary State [HIST] (4 cr)
or HIST 3601 - Great Books in Latin American History [IP] (4 cr)
or HIST 3612 - Social Revolution in 20th-Century Latin America [HIST] (4 cr)
or HIST 3613 - U.S.-Latin American Relations in Historical Perspective [IP] (4 cr)
or HIST 3614 - Race and Ethnicity in Latin America [HDIV] (4 cr)

Native American/Indigenous
HIST 2251 - American Indians and the United States: A History [HDIV] (4 cr)
or HIST 2451 - The American West [HIST] (4 cr)
or HIST 3359 - Native Strategies for Survival, 1880-1920 [HDIV] (4 cr)
or HIST 3381 - History of American Indian Nationalism and Red Power, 1920-Present [HIST] (4 cr)

Elective Courses
No more than 4 credits from each of the following can be applied to the sub-plan: ECON 4501 – Senior Research Seminar in Economics and Management
MGMT x993 – Directed Study

Take 12 or more credits from the following:

MGMT 3101 - Financial Management [SS] (4 cr)
MGMT 3123 - Managerial Economics [SS] (4 cr)
MGMT 3133 - Managerial Accounting (4 cr)
MGMT 3134 - Cooperative Business Model [SS] (2 cr)
MGMT 3141 - Business Law I [SS] (2 cr)
MGMT 3142 - Business Law II [SS] (2 cr)
MGMT 3151 - Human Resources Management I [E/CR] (2 cr)
MGMT 3152 - Human Resources Management II [HDIV] (2 cr)
MGMT 3161 - Labor Management Relations I [E/CR] (2 cr)
MGMT 3162 - Labor Management Relations II [SS] (2 cr)
MGMT 3171 - Leadership in Organizations [SS] (2 cr)
MGMT 3201 - Marketing Principles and Strategy [SS] (4 cr)
MGMT 3221 - Management and Organization Theory [SS] (4 cr)
MGMT 3351 - Globalization: Examining India’s Social and Economic Development [IP] (4 cr)
MGMT 3501 - Applied Deterministic Modeling for Management Science [M/ISR] (2 cr)
MGMT 3502 - Applied Probabilistic Modeling for Management Science [M/ISR] (2 cr)
MGMT 3513 - Negotiation [SS] (4 cr)
MGMT 3601 - Transnational Enterprise [IP] (4 cr)
MGMT 3701 - Organizational Behavior [SS] (4 cr)
MGMT 3993 - Directed Study (1-5 cr)
MGMT 4101 - Investment and Portfolio Analysis (4 cr)
MGMT 4201 - The Economics of Corporate Strategy I (2 cr)
MGMT 4202 - The Economics of Corporate Strategy II (2 cr)
MGMT 4501 - Globalization and Business Strategy (2 cr)
MGMT 4502 - Technological Change, Labor Market, and Skill Formation (2 cr)
MGMT 4601 - Advanced Topics in Financial Economics (2 cr)
MGMT 4602 - Long-Term Financing (2 cr)
MGMT 4603 - Working Capital Management (2 cr)
MGMT 4896 - Internship (1-6 cr)
MGMT 4993 - Directed Study (1-5 cr)
MGMT 3xxx, 4xxx

Political Science Sub-plan
This sub-plan requires a total of 20 credits.

Elective Courses
An additional 16 credits (exclusive of those used to complete required courses); 8 of which must be in courses above 2xxx.

Elective Courses – 1xxx-2xxx
Take at most 8 credits from the following:

POL 1101 - Introduction to Political Theory [E/CR] (4 cr)
POL 1401 - World Politics [IP] (4 cr)
POL 1xxx, 2xxx

Elective Courses – 3xxx or above
Take 8 or more credits from the following:

POL 3201 - Legislative Process [SS] (4 cr)
POL 3211 - The American Presidency [SS] (4 cr)
POL 3233 - Civil Liberties and American Politics [E/CR] (4 cr)
POL 3234 - Race, Class, and Power: Social Movements and Interest Groups in U.S. Politics [HDIV] (4 cr)
POL 3261 - State and Local Politics [SS] (4 cr)
POL 3263 - Political Psychology [SS] (4 cr)
POL 3272 - Making Environmental Public Policy [ENVT] (4 cr)
POL 3351 - Ancient and Medieval Political Thought [HUM] (4 cr)
POL 3352 - Modern Political Thought [HUM] (4 cr)
POL 3354 - Political Ethics [E/CR] (4 cr)
POL 3355 - Environmental Political Theory [ENVT] (4 cr)
POL 3401 - U.S. Foreign Policy [SS] (4 cr)
POL 3411 - International Law [E/CR] (4 cr)
POL 3453 - Russian Politics and Foreign Policy [IP] (4 cr)
POL 3461 - Diplomatic Negotiation [IP] (4 cr)
POL 3475 - International Human Rights [IP] (4 cr)
POL 3501 - Government and Politics of Asia [SS] (4 cr)
POL 3503 - Women in Politics Worldwide [IP] (4 cr)
POL 3504 - Latin American Politics [IP] (4 cr)
This sub-plan requires a total of 22 credits.

**Required Courses for the Sub-plan**
In addition to PSY 2001, students must complete at least one course from four of the five areas. One must be a designated lab course.

*PSY 2001 - Research Methods in Psychology [SS] (4 cr)*

**Learning and Cognition**

*Take 0 or more course(s) from the following:*

*PSY 3011 - Learning Theory and Behavior Modification [SS] (4 cr)*

**Comparative Psychology**

*Take 0 or more course(s) from the following:*

*PSY 3201 - Comparative Psychology [SCI-L] (4 cr)*

**Personality and Clinical Psychology**

*Take 0 or more course(s) from the following:*

*PSY 3302 - Personality [SS] (4 cr)*

**Developmental Psychology**

*Take 0 or more course(s) from the following:*

*PSY 2411 - Introduction to Lifespan Developmental Psychology [SS] (4 cr)*

*PSY 3051 - The Psychology of Women and Gender [HDIV] (4 cr)*

*PSY 3401 - Developmental Psychology I: Child Psychology [SS] (4 cr)*

*PSY 3402 - Developmental Psychology II: Adolescence [SS] (2 cr)*

*PSY 3403 - Developmental Psychology III: Adulthood and Aging [E/CR] (4 cr)*

*PSY 3404 - Culture and Human Development [HDIV] (4 cr)*

**Social and Applied Psychology**

*Take 0 or more course(s) from the following:*

*PSY 3501 - Social Psychology [SS] (4 cr)*

*PSY 3502 - Psychology and Law [SS] (4 cr)*

*PSY 3503 - Consumer Psychology [SS] (4 cr)*

*PSY 3504 - Educational Psychology [SS] (4 cr)*

*PSY 3513 - Negotiation [SS] (4 cr)*

*PSY 3542 - Multicultural Psychology [HDIV] (4 cr)*

*PSY 3701 - Organizational Behavior [SS] (4 cr)*

**Elective Courses**

Additional elective credits to total at least 22 credits in the psychology sub-plan (including required courses). Electives may be selected from any category above and the following:

*Take 0 or more course(s) from the following:*

*IS 3800 - Practicum in Social Sciences (1-2 cr)*

**Sociology**

This sub-plan requires a total of 20 credits.

**Required Courses**

*SOC 3103 - Research Methodology in Sociology [SS] (4 cr)*

*SOC 3403 - Sociological Theory [SS] (4 cr)*

**Elective Courses**

No more than 4 credits of the 12 elective credits required for the sub-plan can be from ANTH courses. SOC 4991 is strongly recommended.

*Take at most 4 credits from the following:*

*AMIN 3452 - American Indian Women [HDIV] (4 cr)*

*ANTH 2101 - Physical Anthropology [SCI-L] (4 cr)*

*ANTH 2103 - Archaeology [SS] (4 cr)*

*ANTH 2202 - Men and Masculinities [SS] (4 cr)*

*ANTH 3204 - Culture, Food, and Agriculture [ENVT] (4 cr)*

*ANTH 3206 - Ecological Anthropology [ENVT] (4 cr)*

*ANTH 3402 - Representations from the Field: American Indian Ethnography and Ethnohistory [HDIV] (4 cr)*

*ANTH 3455 - North American Archaeology [SS] (4 cr)*

*ANTH 3601 - Social Justice and Human Rights in Latin America [IP] (4 cr)*

*ANTH 3602 - Women in Latin America [IP] (4 cr)*

**Social Science Major Course Descriptions**

*ANTH 1111. Introductory Cultural Anthropology. (SS; 4 cr; fall, spring, every year)*

Varieties and range of human behavior as revealed through the comparative study of cultures throughout the world. Concepts developed by anthropologists to explain both the unity and diversity of human kind.

*ECON 1111. Principles of Microeconomics. (SS; 4 cr; prereq high school algebra or #; fall, spring, every year)*

*ECON 1112. Principles of Macroeconomics. (SS; 4 cr; prereq high school algebra or #; fall, spring, every year)*

Introduction to basic economic problems, concepts, and theoretical models. U.S. economic institutions and the economic organization of society. The role of markets in the production and distribution of societal resources. Measurement of economic performance; national income, inflation, and unemployment; competing macroeconomic theories and stabilization policies.

*GEOG 2001. Problems in Geography. (ENVT; 4 cr; spring, every year)*

Basic concepts and questions in the field of geography. The terminology and approaches of geographical inquiry and analysis, with emphasis on the spatial patterns and arrangements of human interaction with the landscape and the production of geographical knowledge.
HIST 1301. Introduction to U.S. History. (HIST; 4 cr; fall, every year)
Methods, themes, and problems in the study of the history of the United States.

POL 1201. American Government and Politics. (E/CR; 4 cr; fall, spring, every year)
Analysis of principles, organization, procedures, and powers of government in the United States. The federal system, national constitution, civil and political rights, party system; nature, structure, powers, and procedures of legislative, executive, and judicial departments of the national government.

PSY 1051. Introduction to Psychology. (SS; 4 cr; fall, spring, every year)
An introduction to the science of mind and behavior. Topics include history of psychology, research methods, biological bases for behavior, life span development, sensation and perception, learning, cognitive and social processes, personality, psychopathology, and applications of psychology.

SOC 1101. Introductory Sociology. (SS; 4 cr; fall, spring, every year)
Introduction to the field of sociology, the exploration of societies, and how societies operate. Sociology broadens social insights, fosters critical thinking, guides analytical thinking, and develops writing skills. By actively thinking about issues facing societies today, students learn to examine life situations and the influence of social and cultural forces on people's lives, careers, hopes, fears, and personalities. Emphasis on how society is stratified: how organizations and institutions influence the way people think, talk, feel, and act and how different groups (e.g., racial and ethnic) and divisions (e.g., gender and social class) within society have different access to power and privilege. People live their lives in relation to social and physical environments; sociologists study these environments and their effects on people's experiences and behavior.

STAT 1601. Introduction to Statistics. (M/SR; 4 cr; prereq high school higher algebra; fall, spring, every year)
Scope, nature, tools, language, and interpretation of elementary statistics. Descriptive statistics: graphical and numerical representation of information; measures of location, dispersion, position, and dependence; exploratory data analysis. Elementary probability theory, discrete and continuous probability models. Inferential statistics, point and interval estimation, tests of statistical hypotheses. Inferences involving one and two populations, ANOVA, regression analysis, and chi-squared tests; use of statistical computer packages.

STAT 2601. Statistical Methods. (M/SR; 4 cr; prereq Math 1101 or Math 1021; fall, every year)
Descriptive statistics, elementary probability theory; laws of probability, random variables, discrete and continuous probability models, functions of random variables, mathematical expectation. Statistical inference: point estimation, interval estimation, tests of hypotheses. Other statistical methods; linear regression and correlation, ANOVA, nonparametric statistics, statistical quality control, use of statistical computer packages.

Sociology (Soc)
Division of the Social Sciences

Objectives—The sociology curriculum (with support from anthropology courses) is designed to acquaint students with the concerns, theories, and methods of the science that deals with groups, culture, and interpersonal relations of human beings. In addition to an introduction to sociology as a science, an effort is made to relate human values to the theories, methods, and data of sociology. Courses are designed to meet the needs of liberal arts students, as well as students preparing for graduate school.

Sociology Major
Students develop a coherent program of study in consultation with their major adviser generally no later than the spring semester of their sophomore year.

Up to 4 credits of coursework with a grade of D or D+ may be used to meet the major requirements if offset by an equivalent number of credits of A or B. Courses may not be taken S-N, unless offered S-N only.

A minimum GPA of 2.00 is required in the major to graduate. The GPA includes all, and only, University of Minnesota coursework. Grades of "F" are included in GPA calculation until they are replaced.

Required Courses
The discipline strongly recommends STAT 1601.
SOC 1101 - Introductory Sociology [SS] (4 cr)
SOC 3103 - Research Methodology in Sociology [SS] (4 cr)
SOC 3403 - Sociological Theory [SS] (4 cr)
SOC 4991 - Sociology Independent Project Seminar (4 cr)

Elective Courses
No more than 8 credits of the 20 elective credits required for the major can be from ANTH courses.

Take 20 or more credits from the following:
SOC 1811 - Global Sociology: Migration, Economic Globalization, Class, and Gender Inequality [IC] (2 cr)
SOC 1812 - Human Rights in the Age of Globalization [IC] (2 cr)
SOC 1813 - Political Economy of "Natural" Disaster [IC] (2 cr)
SOC 2101 - Systems of Oppression [HDIV] (4 cr)
SOC 3111 - Sociology of Modernization [IP] (4 cr)
SOC 3112 - Sociology of the Environment and Social Development [ENV] (4 cr)
SOC 3121 - Sociology of Gender and Sexuality [HDIV] (4 cr)
SOC 3122 - Sociology of Childhoods [HDIV] (4 cr)
SOC 3123 - Sociology of Aging [HDIV] (4 cr)
SOC 3124 - Sociology of Law [SS] (4 cr)
SOC 3131 - World Population [ENV] (4 cr)
SOC 3141 - Sociology of Deviance [E/CR] (4 cr)
SOC 3204 - Culture, Food, and Agriculture [ENV] (4 cr)
SOC 3251 - African Americans [HDIV] (4 cr)
SOC 3252 - Women in Muslim Society [IP] (4 cr)
SOC 3601 - Social Justice and Human Rights in Latin America [IP] (4 cr)
SOC 3602 - Women in Latin America [IP] (4 cr)
SOC 3603 - Latin American Archaeology [SS] (4 cr)
SOC 3701 - Forensic Anthropology [SCI-L] (4 cr)
SOC 4411 - Seminar in Anthropological Methodology [E/CR] (4 cr)
SOC 4901 - Seminar in Anthropological Theory [E/CR] (4 cr)
SOC 3402 - Representations from the Field: American Indian Ethnography and Ethnohistory [HDIV] (4 cr)
SOC 3455 - North American Archaeology [SS] (4 cr)
SOC 3601 - Social Justice and Human Rights in Latin America [IP] (4 cr)
SOC 3602 - Women in Latin America [IP] (4 cr)
SOC 3603 - Latin American Archaeology [SS] (4 cr)
SOC 3701 - Forensic Anthropology [SCI-L] (4 cr)
SOC 4411 - Seminar in Anthropological Methodology [E/CR] (4 cr)
SOC 4901 - Seminar in Anthropological Theory [E/CR] (4 cr)
HIST 3402 - Representations from the Field: American Indian Ethnography and Ethnohistory [HDIV] (4 cr)
ANTH 2xxx, 3xxx, 4xxx

Take at most 8 credits from the following:

Take 12 or more credits from the following:
SOC 1811 - Global Sociology: Migration, Economic Globalization, Class, and Gender Inequality [IC] (2 cr)
SOC 1812 - Human Rights in the Age of Globalization [IC] (2 cr)
SOC 1813 - Political Economy of "Natural" Disaster [IC] (2 cr)
SOC 2101 - Systems of Oppression [HDIV] (4 cr)
SOC 3111 - Sociology of Modernization [IP] (4 cr)
SOC 3112 - Sociology of the Environment and Social Development [ENV] (4 cr)
SOC 3121 - Sociology of Gender and Sexuality [HDIV] (4 cr)
SOC 3122 - Sociology of Childhoods [HDIV] (4 cr)
SOC 3123 - Sociology of Aging [HDIV] (4 cr)
SOC 3124 - Sociology of Law [SS] (4 cr)
SOC 3131 - World Population [ENV] (4 cr)
SOC 3141 - Sociology of Deviance [E/CR] (4 cr)
SOC 3204 - Culture, Food, and Agriculture [ENV] (4 cr)
SOC 3251 - African Americans [HDIV] (4 cr)
SOC 3252 - Women in Muslim Society [IP] (4 cr)
SOC 3601 - Social Justice and Human Rights in Latin America [IP] (4 cr)
SOC 3602 - Women in Latin America [IP] (4 cr)
SOC 3603 - Latin American Archaeology [SS] (4 cr)
SOC 3701 - Forensic Anthropology [SCI-L] (4 cr)
SOC 4411 - Seminar in Anthropological Methodology [E/CR] (4 cr)
SOC 4901 - Seminar in Anthropological Theory [E/CR] (4 cr)
SOC 3402 - Representations from the Field: American Indian Ethnography and Ethnohistory [HDIV] (4 cr)
SOC 3455 - North American Archaeology [SS] (4 cr)

Take at most 8 credits from the following:

Take at most 8 credits from the following:

Sociology Minor
Up to 4 credits of coursework with a grade of D or D+ may be used to meet the minor requirements if offset by an equivalent number of credits of A or B. Courses may not be taken S-N, unless offered S-N only.

A minimum GPA of 2.00 is required in the minor to graduate.
SOC 2101 - Systems of Oppression [HDIV] (4 cr)
Introduction to the field of sociology, the exploration of societies, and different systems of inequality and their effects on people’s lives and behavior.

SOC 1811 - Global Sociology: Migration, Economic Globalization, Class, and Gender Inequality. (IC; 2 cr; prereq new college student in their first semester of enrollment at UMM; fall, offered periodically) Examination of the global impact of migration on both societies receiving immigrants and societies from which people emigrate, the effect of economic globalization, class and gender inequality. A major goal of the course is to provide students with a systematic way of making sense of a rapidly changing and complex world. Learn from sociological perspectives what it means to live in an interdependent world.

SOC 1812. Human Rights in the Age of Globalization. (IC; 2 cr; prereq new college student in their first semester of enrollment at UMM; spring, offered periodically) Exploration of the relationship between globalization and human rights. Globalization as the driving force of capitalism has produced both positive and negative impacts on human rights. Optimists argue that integration into the global world of the free market will foster democracy and human rights, while critics challenge this optimism. Explores these contradictory views and processes. The course is interdisciplinary and integrates perspectives and concepts from different academic fields.

SOC 1813. Political Economy of "Natural" Disaster. (IC; 2 cr; prereq new college student in their first semester of enrollment at UMM; fall, offered periodically) Examines the political economy of natural disasters through a survey of events drawn from around the world. Disasters can be viewed from multiple social perspectives (economic, political, ecological, and personal) and each of these carries implicit and explicit political judgments about how the environment should be managed. The following events offer rich documentation (academic and popular media) about the impact of governmental decisions prior to and in the aftermath of each event: famine-South Asian famine of 1770s, earthquake-Haiti 2010, deforestation/erosion-Nepal 1970s, hurricane-Katrina 2005, flood-Johnstown Flood of 1889, tsunami-South Asian tsunami of 2004.

SOC 1993. Directed Study. (1-5 cr [max 10 cr]; prereq approved directed study form; fall, spring, every year) Individualized on- or off-campus research project or other learning activity not covered in the regular Sociology curriculum. Topic determined by the student and instructor.

SOC 2101. Systems of Oppression. (HDIV; 4 cr; prereq 1101 or Anth 1111 or #; fall, every year) Patterns of group dominance, exploitation, and hate in the United States and globally. Focuses on sexism, racism, and classism with some attention to other systems of oppression such as heterosexism and ageism.

SOC 2993. Directed Study. (1-5 cr [max 10 cr]; prereq approved directed study form; fall, spring, every year) Individualized on- or off-campus research project or other learning activity not covered in the regular Sociology curriculum. Topic determined by the student and instructor.

SOC 3103. Research Methodology in Sociology. (SS; 4 cr; prereq 1101; fall, every year) An introduction to research procedures used in sociology. Developing a research design and applying it to a concrete problem. Questions of validity and reliability examined in the context of research projects developed by the students.

SOC 3111. Sociology of Modernization. (IP; 4 cr; prereq 1101 or Anth 1111 or #; spring, every year) Process of modernization in non-Western societies. Social, economic, and political impact of modernization from different theoretical perspectives. Assessment of those theoretical perspectives as a means to understand dynamics of change in Third World countries.

SOC 3112. Sociology of the Environment and Social Development. (ENVT; 4 cr; prereq 1101 or #; fall, odd years) Introduces students to the sociological study of the environment and social development. Examines the impact of international environmental and development efforts on individuals at the local level. Focuses on grassroots environmental activism and social development work. Explores and discusses power relations and systems of inequality within the context of environmental and social development efforts.
SOC 3121. Sociology of Gender and Sexuality. (HDIV; 4 cr; prereq 1101 or Anth 1111 or #; fall, every year)
Introduces students to the sociological study of gender and sexuality. Focuses on gender difference and gender inequality. Analyzes the changing roles, opportunities, and expectations of women and men as their societies (and subsequently, gender relations and power) undergo change in today's world. Following a theoretical overview, examines how gender and sexuality affect everyday experiences.

SOC 3122. Sociology of Childhoods. (HDIV; 4 cr; prereq 1101 or #; spring, every year)
Introduces students to the sociological study of childhoods. Examines the interaction between societies and their youngest members—how societies shape children's lives through social institutions such as families, education, and the state. Takes a close look at children's access to privileges and resources as determined by children's experiences of race, gender, class, nationality, and sexual orientation.

SOC 3123. Sociology of Aging. (HDIV; 4 cr; prereq 1101; spring, every year)
An introduction to sociology of aging. Examination of the major theories of social aging as well as the historical and cross-cultural variations in aging and differences by race, ethnicity, gender, and social class.

SOC 3124. Sociology of Law. (SS; 4 cr; prereq 1101; spring, every year)
Explore the emergence and function of law through the lens of social theories. The course assumes law is embodied in the social structure of society; hence, it is the product of social interaction. Based on this assumption, it examines the role of law in maintaining and reproducing social order, class, race, and gender inequalities. The course is interdisciplinary and comparative in its scope and integrates jurisprudence and various social science theories.

SOC 3131. World Population. (ENVT; 4 cr; prereq 1101 or #; fall, every year)
Population theory and demographic method. Dynamics of fertility and mortality as the basis of population forecasting and its policy implications. Emphasis on the tie between Third World demographic trends and population issues in the rest of the world.

SOC 3141. Sociology of Deviance. (E/CR; 4 cr; prereq 1101 or #; fall, every year)
Introduces students to the sociological study of deviance. Explores the social reality of deviance within contemporary society and examines the social construction of deviant categories. Focuses on images of deviance as social constructs, rather than as intrinsic elements of human behavior. Investigates the complex relationships between individual behavior and social structure, with a focus on power, inequality, and oppression. Also, examines the socio-cultural definitions of morality and behavior.

SOC 3204. Culture, Food, and Agriculture. (ENVT; 4 cr; =ANTH 3204; prereq 1101 or Anth 1111 or #; spring, every year)
Same as Anth 3204. Examines the globalization of food systems utilizing a holistic sociological perspective to understand global and local dimensions of production, marketing, and consumption. Emphasis on connections between food production and national identity, relations of power, genetic engineering, environmental destruction, the politics of world hunger, and local efforts to achieve sustainability.

SOC 3251. African Americans. (HDIV; 4 cr; prereq 1101 or Anth 1111; fall, spring, offered periodically)
Examination of African American religious, economic, political, family, and kinship institutions in the context of the greater American society. Struggles to overcome problems and the degree of success or failure of these struggles are examined and placed in historical context.

SOC 3252. Women in Muslim Society. (IP; 4 cr; prereq 1101 or Anth 1111; spring, offered periodically)
The cultures and social statuses of women in several Muslim countries are examined and placed in their political, economic, and religious contexts.

SOC 3403. Sociological Theory. (SS; 4 cr; prereq 1101; 4 addtl cr in Soc recommended; fall, every year)
Survey of major developments in sociological theory, with attention to both classical and contemporary variants. Emphasis on sociological ideas in relation to the principal intellectual currents of European society, American society, and non-Western thought.

SOC 3601. Social Justice and Human Rights in Latin America. (IP; 14 cr; =ANTH 3601; prereq 1101 or Anth 1111 or #; fall, every year)
Same as Anth 3601. Examination of social, economic, and political transformations in Latin America with an emphasis on social justice and human rights. Critical approaches to understand U.S.-Latin American relations, labor struggles, rebellions to define alternative development, indigenous resistance to encroachment on resources and ways of life, civil war and genocide, and efforts to create a more environmental and socially sustainable development.

SOC 3602. Women in Latin America. (IP; 4 cr; =ANTH 3602; prereq 1101 or Anth 1111 or #; spring, every year)
Same as Anth 3602. Study of the social, economic, and political positions of women in Latin American countries. Topics include class and ethnic differences, women in the labor force, and women's participation in political movements through the lens of feminist theory.

SOC 3993. Directed Study. (1-5 cr [max 10 cr]; prereq approved directed study form; fall, spring, every year)
Individualized on- or off-campus research project or other learning activity not covered in the regular Sociology curriculum. Topic determined by the student and instructor.

SOC 4991. Sociology Independent Project Seminar. (4 cr; =SOC 4902, SOC 4901; prereq 3103, 3403; spring, every year)
A capstone seminar to guide sociology majors in the completion of an independent study project, including selection and definition of a research project, designing and planning its execution, developing a literature review and bibliography, applying relevant theoretical perspectives to research materials, and organizing and writing a research paper.

SOC 4993. Directed Study. (1-5 cr [max 10 cr]; prereq approved directed study form; fall, spring, every year)
Individualized on- or off-campus research project or other learning activity not covered in the regular Sociology curriculum. Topic determined by the student and instructor.

Spanish (Span)
Division of the Humanities
Spanish is spoken by many people—more than 28 million in the U.S., 132,000 in Minnesota, and more than 300,000,000 worldwide. With a rich and diverse history, it is also a language essential to the contemporary world in areas such as education, business, health care, international relations, and law. The Spanish discipline offers courses that emphasize the richness and diversity of Hispanic culture, and prepares students with a range of linguistic and critical skills applicable to a wide variety of potential careers or further advanced study in a range of fields.

Objectives—The Spanish curriculum offers coursework in Hispanic culture, language, and literature. The courses are designed to help students develop critical insight into the philosophy and values of another culture, proficiency in a second language, and sensitivity toward literature that reflects the experience of the Spanish-speaking world. The curriculum accommodates liberal arts students interested in a cross-cultural perspective, language study, secondary school teaching, or preparation for graduate study in Spanish and related fields.

STUDY ABROAD
In light of today's increasingly interdependent world, the UMM Spanish faculty endorses study abroad, in combination with a Spanish major or minor, as the most effective means by which to
* improve language abilities
* broaden academic horizons
* globalize one's world view
* expand career opportunities
* advance cross-cultural and problem-solving skills
* gain confidence in oneself personally and professionally
Students Not Majoring or Minoring in Spanish
For an in-depth cultural emphasis, students should complete:
SPAN 1001-Beginning Spanish I
SPAN 1002-Beginning Spanish II or equivalent
SPAN 2001-Intermediate Spanish I
SPAN 2002-Intermediate Spanish II
Two additional courses from LAAS and/or HUM courses offered by Spanish discipline faculty. A foreign study experience, special projects in language, and regular use of the Language Teaching Center are recommended to maintain language skills.
For an in-depth language emphasis, students should complete:
SPAN 1001-Beginning Spanish I
SPAN 1002-Beginning Spanish II or equivalent
SPAN 2001-Intermediate Spanish I
SPAN 2002-Intermediate Spanish II
SPAN 3011-Composition, Conversation and Culture
SPAN 3012-Spanish Grammar in Practice
SPAN 3111-Readings in Spanish I
SPAN 3112-Readings in Spanish II
A foreign study experience, special projects in language, and regular use of the Language Teaching Center are recommended to maintain language skills.

ADVISING FOR THE SPANISH MAJOR
It is strongly recommended that students majoring or minoring in Spanish meet with a Spanish faculty member to plan for a timely and successful completion of their program, even if their primary academic adviser is in another discipline.

Courses for Admission
Beginning Spanish
Beginning Spanish I and II or equivalent previous language experience required to take intermediate Spanish.

Spanish Major
No grades below C- are allowed. Courses may not be taken S-N unless offered S-N only.
A minimum GPA of 2.00 is required in the major to graduate. The GPA includes all, and only, University of Minnesota coursework. Grades of “F” are included in GPA calculation until they are replaced.
A foreign study experience and regular use of the Language Teaching Center are strongly recommended to maintain language skills. Students majoring in Spanish are encouraged to take at least one year of instruction in another foreign language.
Latin American Area Studies courses are also recommended as a complement to courses in the Spanish discipline.

Required Courses
SPAN 2001 - Intermediate Spanish I [IP] (4 cr)
SPAN 2002 - Intermediate Spanish II [IP] (4 cr)
SPAN 3011 - Conversation, Composition, and Culture [IP] (2 cr)
SPAN 3012 - Spanish Grammar in Practice [IP] (2 cr)
SPAN 3111 - Readings in Spanish I [HUM] (2 cr)
SPAN 3112 - Readings in Spanish II [HUM] (2 cr)
SPAN 3211 - Literature and Culture of Latin America [HUM] (4 cr)
SPAN 3212 - Literature and Culture of Spain [HUM] (4 cr)
SPAN 4001 - Research Symposium [HUM] (4 cr)

Elective Courses
Take 8 or more credits from the following:
SPAN 3621 - Seminar: Confessions and Letters in Latin American Fiction [HUM] (4 cr)
SPAN 3622 - Seminar: Exile and Emigration in Latin American Fiction [IP] (4 cr)
SPAN 3623 - Seminar: Ecology and Nature in Latin American Literature [ENVT] (4 cr)
SPAN 3651 - Seminar: Miguel de Cervantes Saavedra’s “El ingenioso hidalgo Don Quijote de la Mancha” [HUM] (4 cr)
SPAN 3652 - Seminar: Literary Minorities in Early Modern Spain [HUM] (4 cr)
SPAN 3654 - Seminar: Sex, Love, and Marriage in Golden Age Spanish Literature [HUM] (4 cr)
SPAN 3681 - Seminar: Romanticism and Revolution in 19th-Century Spain [HUM] (4 cr)
SPAN 3682 - Seminar: Realism and Reform in 19th-Century Spain [HUM] (4 cr)
SPAN 3683 - Seminar: Modernity and Identity in Spain, 1900-1930 [HUM] (4 cr)
SPAN 3684 - Seminar: Hispanic Film [HUM] (4 cr)

Spanish Course Descriptions
SPAN 1001. Beginning Spanish I. (4 cr; fall, summer, every year)
Development of basic skills of Spanish (reading, speaking, writing, and listening) and an introduction to the cultural contexts of Latin America and Spain.
SPAN 1002. Beginning Spanish II. (FL; 4 cr; prereq 1001 or placement or #; fall, spring, summer, every year)
Continuation of the sequence beginning with 1001.
SPAN 1003. Accelerated Beginning Spanish. (FL; 4 cr; prereq placement or #; fall, spring, every year)
An accelerated introductory Spanish course for students with prior experience and appropriate placement exam score to allow completion of the FL GER requirement with one semester of coursework. Development of basic skills of Spanish (reading, speaking, writing, listening) and an introduction to the cultural contexts of Latin America and Spain.
An introduction to contemporary films from Spain and Latin America, showcasing innovative filmmakers from the Hispanic world, their representations of Hispanic societies through film, and their relationships to other international cinemas, with an emphasis on the medium as an art form rather than a commercial proposition. Study of contemporary Latin American literary texts where characters face forms of exile, abandonment, and displacement as a result of emigration to Europe and the United States.

Study of Latin American texts where authors create characters that read or misread Nature and its preservation or extinction. How globalization is making this issue more relevant in the Latin American context.

Study of Miguel de Cervantes Saavedra's "El ingenioso hidalgo Don Quijote de la Mancha" in light of its socio-historical context. Study of Miguel de Cervantes Saavedra's novel "El ingenioso hidalgo Don Quijote de la Mancha" in light of its socio-historical context. Study of the representative literary works written by or about Spanish Jewish and Muslim minorities in light of their respective socio-historical contexts.

The theme of sex, love, and marriage in Golden Age Spanish Literature. Study of the representative literary works written by or about Spanish Jewish and Muslim minorities in light of their respective socio-historical contexts.

Study of the representative literary works written by or about Spanish Jewish and Muslim minorities in light of their respective socio-historical contexts.

Study of the representative literary works written by or about Spanish Jewish and Muslim minorities in light of their respective socio-historical contexts.
SPAN 4993. Directed Study. (1-5 cr; max 10 cr; prereq approved directed study form; fall, spring, every year)

An on- or off-campus learning experience individually arranged between a student and a faculty member for academic credit in areas not covered in the regular curriculum.

Sport Management
Division of Education

This is an interdisciplinary program housed in the Division of Education. The program is administered by the sport management coordinator. Core courses in sport studies and athletics and in management build a foundation of knowledge and skills related to managing, planning, organizing, budgeting, leading, marketing, and evaluating within the context of an organization or department whose primary product or service is related to sport or physical activity. Carefully selected elective courses prepare students for graduate study (e.g., in business, law, or sport management) or a career in the sport or fitness industry (e.g., athletic director, sport agent, sport marketing, sport media, and managing professional and amateur sport organizations, parks and recreation areas, or sport governing bodies).

Sport Management Major

No grades below C- are allowed. Required courses including electives must be taken A-F, unless they are offered S-N only.

A minimum GPA of 2.00 is required in the major to graduate. The GPA includes all, and only, University of Minnesota coursework. Grades of "F" are included in GPA calculation until they are replaced.

Foundational Courses

PHIL 2112 - Professional Ethics [E/CR] (4 cr)
STAT 1601 - Introduction to Statistics [M/SR] (4 cr) or STAT 2601 - Statistical Methods [M/SR] (4 cr)
CMR 1052 - Introduction to Public Speaking [E/CR] (2 cr) or CMR 1062 - Introduction to Interpersonal and Group Communication [HUM] (4 cr)

Sport Management Core

ECON 1111 - Principles of Microeconomics [SS] (4 cr)
MGMT 2101 - Principles of Accounting I (4 cr)
MGMT 3171 - Leadership in Organizations [SS] (2 cr)
SSA 2302 - Introduction to Sport Management (2 cr)
SSA 2401 - Sociological Aspects of Sports [SS] (2 cr)
SSA 2402 - Psychological Aspects of Sports [SS] (2 cr)
SSA 3101 - Sport Industry Analysis [SS] (4 cr)
SSA 4101 - Planning and Programming of Athletic Facilities (4 cr) or SSA 4102 - Organization and Administration of Athletics and Recreation (4 cr)

Elective Courses

Take an additional 12 or more credits from the courses listed below. At least 8 credits must be in management at the 3xxx level or above. Students interested in earning a management minor should see the management section of the catalog for additional information.

Take 12 or more credits from the following:

- MGMT 3101 - Financial Management [SS] (4 cr)
- MGMT 3123 - Managerial Economics [SS] (4 cr)
- MGMT 3133 - Managerial Accounting (4 cr)
- MGMT 3141 - Business Law I [SS] (2 cr)
- MGMT 3142 - Business Law II [SS] (2 cr)
- MGMT 3151 - Human Resources Management I [E/CR] (2 cr)
- MGMT 3152 - Human Resources Management II [HDIV] (2 cr)
- MGMT 3161 - Labor Management Relations I [E/CR] (2 cr)
- MGMT 3162 - Labor Management Relations II [SS] (2 cr)
- MGMT 3201 - Marketing Principles and Strategy [SS] (4 cr)
- MGMT 3221 - Management and Organization Theory [SS] (4 cr)
- MGMT 3513 - Negotiation [SS] (4 cr)
- MGMT 3701 - Organizational Behavior [SS] (4 cr)

Take at most 4 credits from the following:

BIOL 2102 - Human Anatomy (3 cr)
ECON 4101 - Labor Economics I [HDIV] (2 cr)
ECON 4102 - Labor Economics II (2 cr)
MGMT 2102 - Principles of Accounting II (2 cr)
PSY 2001 - Research Methods in Psychology [SS] (4 cr)
SOC 3103 - Research Methodology in Sociology [SS] (4 cr)
PSY 3701 - Organizational Behavior [SS] (4 cr)
SSA 2102 - Human Anatomy (3 cr)
SSA 2111 - Kinesiology [SCI] (2 cr)
SSA 2112 - Exercise Physiology (2 cr)
SSA 3172 - Leadership in Sport Organizations [SS] (2 cr)
SSA 3201 - Coaching Practicum (1 cr)

Sport Management Minor

No grades below C- are allowed. Required courses including electives must be taken A-F, unless they are offered S-N only.

Sport Management Core

ECON 1111 - Principles of Microeconomics [SS] (4 cr)
MGMT 2101 - Principles of Accounting I (4 cr)
SSA 2302 - Introduction to Sport Management (2 cr)
SSA 2401 - Sociological Aspects of Sports [SS] (2 cr)
SSA 2402 - Psychological Aspects of Sports [SS] (2 cr)
SSA 3101 - Sport Industry Analysis [SS] (4 cr)
SSA 4101 - Planning and Programming of Athletic Facilities (4 cr) or SSA 4102 - Organization and Administration of Athletics and Recreation (4 cr)

Elective Courses

Take four additional credits from MGMT 3xxx or above. Students interested in earning a management minor should see the management section of the catalog for additional information.

Take 4 or more credits from the following:

- MGMT 3101 - Financial Management [SS] (4 cr)
- MGMT 3123 - Managerial Economics [SS] (4 cr)
- MGMT 3133 - Managerial Accounting (4 cr)
- MGMT 3141 - Business Law I [SS] (2 cr)
- MGMT 3142 - Business Law II [SS] (2 cr)
- MGMT 3151 - Human Resources Management I [E/CR] (2 cr)
- MGMT 3152 - Human Resources Management II [HDIV] (2 cr)
- MGMT 3161 - Labor Management Relations I [E/CR] (2 cr)
- MGMT 3162 - Labor Management Relations II [SS] (2 cr)
- MGMT 3171 - Leadership in Organizations [SS] (2 cr)
- MGMT 3201 - Marketing Principles and Strategy [SS] (4 cr)
- MGMT 3221 - Management and Organization Theory [SS] (4 cr)
- MGMT 3513 - Negotiation [SS] (4 cr)
- MGMT 3701 - Organizational Behavior [SS] (4 cr)

Sport Management Course Descriptions

BIOL 2102. Human Anatomy. (3 cr; [SSA 2102]; prereq soph; no elective cr for biol majors or minors; fall, every year)

Same as SSA 2102. Structure of human systems at their organ and cellular level. (two 65-min lect, one 120-min lab)

CMR 1052. Introduction to Public Speaking. (E/CRI; 2 cr; fall, spring, every year)

Activities, assignments, and exercises related to public address/public speaking in a variety of speech settings.

CMR 1062. Introduction to Interpersonal and Group Communication. (HUM; 4 cr; fall, every year)

Activities, assignments, and exercises related to interpersonal and group communication in private and public settings including dating, family, and work.
ECON 1111. Principles of Microeconomics. (SS; 4 cr; prereq high school algebra or #; fall, spring, offered periodically)
ECON 4101. Labor Economics I. (HDIV; 2 cr; prereq 3201 or #; fall, every year)
Wage and employment determination. Distribution of earnings and earnings inequality by race and sex. Labor supply applications.
ECON 4102. Labor Economics II. (2 cr; prereq 3201 or #; fall, every year)
Functioning and performance of the labor market. Heterodox explanations of labor market behavior. Labor demand applications.

MGMT 2101. Principles of Accounting I. (4 cr; fall, every year)
An introductory course in accounting principles and practices. The students develop an understanding of both the conceptual and procedural framework of the accounting processes. Emphasis is placed on the preparation and communication of accounting information and the financial statements for a proprietorship.

MGMT 2102. Principles of Accounting II. (2 cr; prereq 2101; spring, every year)
A continuation of Principles of Accounting I. Students develop an understanding of the issues unique to partnerships, corporations, and organizational financing. Cash flow statements and performance analysis are also emphasized.

MGMT 3101. Financial Management. (SS; 4 cr; prereq 2102, Econ 1111, Econ 1112, Stat 1601; fall, every year)

MGMT 3123. Managerial Economics. (SS; 4 cr; prereq 2101, Econ 1111, Math 1101 or Math 1021, Stat 1601 or Stat 2601 or #; no credit for students who have received credit for Econ 3201; spring, every year)
Development of the basic concepts of the microeconomic theories of consumer behavior, the firm, and market structure, in application to managerial decision-making contexts in the operation and control of business and non-profit organizations.

MGMT 3133. Managerial Accounting. (4 cr; prereq 2102; fall, spring, offered periodically)
Managerial accounting is designed to help managers assess needed information to carry out three essential functions in an organization: planning operations, controlling activities, and making decisions. The emphasis of this course is placed on cost behaviors, various product costing methods, cost-volume-profit relationships, budgeting and control through standard costs, and other quantitative techniques used by management.

MGMT 3141. Business Law I. (SS; 2 cr; prereq 2101 or #; fall, spring, offered periodically)
Law as it relates to the commercial world, including the legal environment, federal regulation, contracts, agency, sales.

MGMT 3142. Business Law II. (SS; 2 cr; prereq 2101 or #; fall, spring, offered periodically)
Law as it relates to the commercial world, including the legal environment, commercial paper, corporations, secured transactions, bankruptcy, anti-trust law, and selected employment statutes.

MGMT 3151. Human Resources Management I. (E/CR; 2 cr; prereq 2101 or #; spring, every year)
An introduction to the functional areas of human resource management through the use of case studies. Topics include legal issues, planning, recruitment, training, evaluation, compensation, and benefits.

MGMT 3152. Human Resources Management II. (HDIV; 2 cr; prereq 2101 or #; fall, spring, offered periodically)
Topics in human resource management: evaluating employee performance, training, safety, labor relations, international human resource management.

MGMT 3161. Labor Management Relations I. (E/CR; 2 cr; prereq Econ 1111 or #; fall, spring, offered periodically)
Historical development of labor relations and the legal framework governing collective bargaining. Labor relations law reform. Case studies from labor relations law.

MGMT 3162. Labor Management Relations II. (SS; 2 cr; prereq 3161 or #; spring, offered periodically)
Issues in labor-management negotiation, grievances, wages and economic security plans, public policies toward collective bargaining. Case studies from labor arbitration.

MGMT 3171. Leadership in Organizations. (SS; 2 cr; prereq Stat 1601 or Stat 2601 or #; spring, every year)
Leadership is the ability to influence a group of people towards a goal. Examination of leadership qualities and theories as they apply to leading an organization. Ethics, social responsibility, team work, motivation, and conflict resolution skills from the perspective of a leader. International and culturally diverse aspects of leadership and leadership development. Students have the opportunity to practice leadership skills during the course.

MGMT 3201. Marketing Principles and Strategy. (SS; 4 cr; prereq 2102, Stat 1601 or #; spring, offered periodically)
Basic factors affecting policy and strategy issues in marketing. Economic, legal, behavioral, environmental, competitive, and technological factors as they affect product, pricing, promotion, and marketing-channel decisions.

MGMT 3221. Management and Organization Theory. (SS; 4 cr; prereq Econ 1111 or #; fall, spring, offered periodically)

MGMT 3513. Negotiation. (SS; 4 cr; =PSY 3513; prereq 3221 or Psy 3501 or Psy/Mgmt 3701; spring, offered periodically)
Same as Psy 3513. Examines the theoretical and applied aspects of negotiation. Topics include negotiation theory, strategy, skills and tactics, communication processes, global negotiation, and ethics. Use of negotiation simulations.

MGMT 3701. Organizational Behavior. (SS; 4 cr; =PSY 3701; prereq Stat 1601 or Stat 2601, jr or sr; fall, spring, offered periodically)
Same as Psy 3701. Uses the theories and research of the behavioral sciences to understand how organizations function at the individual, group, and organizational levels. Topics include stress in the workplace, group dynamics, power, leadership, and attribution theory.

PHIL 2112. Professional Ethics. (E/CR; 4 cr; fall, every year)
A critical examination of moral issues that arise in a person's professional life. Possible topics include affirmative action, autonomy in the workplace, ethical issues in advertising, corporate responsibility, coercive wage offers, distributive justice, and sexual harassment. Issues concerning race, gender, and women are included in selected modules.

PSY 2001. Research Methods in Psychology. (SS; 4 cr; prereq 1051, Stat 1601 or Stat 2601, psy major or minor, or #; fall, spring, every year)
Design, analysis, and interpretation of research in psychology. Instruction on different research techniques and ethics in research. Students conduct, analyze, and evaluate empirical research and gain experience preparing APA-style research reports. Includes laboratory/discussion sessions.

PSY 3701. Organizational Behavior. (SS; 4 cr; =MGMT 3701; prereq Stat 1601 or Stat 2601, jr or sr; fall, offered periodically)
Same as Mgmt 3701. Uses the theories and research of the behavioral sciences to understand how organizations function at the individual, group, and organizational levels. Topics include stress in the workplace; group dynamics; power, leadership, and attribution theory.

SOC 3103. Research Methodology in Sociology. (SS; 4 cr; prereq 1101; fall, every year)
An introduction to research procedures used in sociology. Developing a research design and applying it to a concrete problem. Questions of validity and reliability examined in the context of research projects developed by the students.
SSA 2102. Human Anatomy. (3 cr; =BIOL 2102; prereq soph; fall, every year)
Same as Biol 2102. Structure of human systems at their organ and cellular levels. (two 65-min lect, one 120-min lab)

SSA 2111. Kinesiology. (SCI; 2 cr; prereq 2102; fall, every year)
Scientific principles of movement and tissue responses to force; analysis of basic movement in sports and other physical activities.

SSA 2112. Exercise Physiology. (2 cr; fall, every year)
Human physiological adaptations resulting from activity/exercise.

SSA 2302. Introduction to Sport Management. (2 cr; A-F only; fall, spring, every year)
Provides students with an overview of and a foundation in sport management. Topics include the history of sport management, the relevance of managerial concepts to sport, typical settings for sport managers, areas of study within sport management, sustainability in sport, and globalization and sport, among others.

SSA 2401. Sociological Aspects of Sports. (SS; 2 cr; spring, every year)
Sociological aspects of physical education, sports, and recreation and the implications this knowledge has for effective teaching, coaching, and athletic training.

SSA 2402. Psychological Aspects of Sports. (SS; 2 cr; prereq 2401; spring, every year)
Psychological aspects of physical education, sports, and recreation and the implications this knowledge has for effective teaching, coaching, and athletic training.

SSA 3101. Sport Industry Analysis. (SS; 4 cr; prereq 2302, Stat 1601 or Stat 2601 or #; spring, every year)
An examination of the rapidly developing sports industry from a promotional and sales management perspective. Focus on sport promotion, sport consumers, sales, sponsorship, licensing, and e-commerce.

SSA 3172. Leadership in Sport Organizations. (SS; 2 cr; A-F only; prereq 2302, Mgmt 3171; no cr for students who have received cr for Mgmt 3172; fall, offered periodically)
Examination of theories and case studies of organizational leadership within sport. Students learn about additional theories and models of sport leadership and practice and develop their leadership skills.

SSA 3201. Coaching Practicum. (1 cr; S-N only; prereq #; fall, spring, every year)
Supervised field experience in coaching, consisting of no fewer than 40 hours.

SSA 4101. Planning and Programming of Athletic Facilities. (4 cr; prereq 3101; spring, every year)
Theories/techniques in administration/management of sport enterprises including the steps in planning/building facilities for athletics, physical education, and sport for college, professional, and public use.

SSA 4102. Organization and Administration of Athletics and Recreation. (4 cr; prereq 2302, 4101; fall, every year)
Comprehensive analysis of organization and management of athletics and recreation.

SSA 4201. Sport Governance: Legal and Ethical Issues. (E/CR; 4 cr; A-F only; prereq 2302, 2401, 2402, 4101, 4102; spring, every year)
An integrative capstone for students in sport management. In addition to emphases in legal and ethical issues, it integrates knowledge from key areas of study in sport management. Includes an independent research project and a public presentation.

STAT 1601. Introduction to Statistics. (M/SPR; 4 cr; prereq high school higher algebra; fall, spring, every year)
Scope, nature, tools, language, and interpretation of elementary statistics. Descriptive statistics; graphical and numerical representation of information; measures of location, dispersion, position, and dependence; exploratory data analysis. Elementary probability theory, discrete and continuous probability models. Inferential statistics, point and interval estimation, tests of statistical hypotheses. Inferences involving one and two populations, ANOVA, regression analysis, and chi-squared tests; use of statistical computer packages.

STAT 2601. Statistical Methods. (M/SPR; 4 cr; prereq Math 1101 or Math 1021; fall, every year)
Descriptive statistics, elementary probability theory; laws of probability, random variables, discrete and continuous probability models, functions of random variables, mathematical expectation. Statistical inference; point estimation, interval estimation, tests of hypotheses. Other statistical methods; linear regression and correlation, ANOVA, nonparametric statistics, statistical quality control, use of statistical computer packages.

Sport Studies and Athletics (SSA) Division of Education

Objectives—This curriculum helps students develop and maintain a healthy lifestyle and prepares them for a lifetime of service as sports management and coaching professionals. The Sport Studies and Athletics discipline contributes to the Sport Management major, an interdisciplinary major that draws from SSA, Management, and other disciplines. For more information, see Sport Management Major.

The statement, “Varsity coaching requirements completed,” is added to the transcript of students who complete:

Coaching
SSA 1101—First Aid
SSA 2102—Human Anatomy
SSA 2111—Kinesiology
SSA 2112—Exercise Physiology
SSA 2121—Prevention and Care of Injuries
SSA 3201—Coaching Practicum

One of the following courses:
SSA 2201—Baseball Coaching
SSA 2202—Basketball Coaching
SSA 2203—Football Coaching
SSA 2204—Softball Coaching
SSA 2205—Track and Field Coaching
SSA 2206—Volleyball Coaching
SSA 2208—Soccer Coaching

Sport Studies and Athletics Course Descriptions

SSA 1052. Societal Issues in Health and Wellness. (SS; 2 cr; fall, spring, every year)
A study of how perceptions of society's health and wellness issues affect our individual health/fitness choices.

SSA 1101. First Aid. (1 cr; fall, spring, every year)
Lectures, demonstrations, practical work in emergencies and first aid. Emphasis on accident prevention. Completion of the course prepares students for National Safety Council First Aid and CPR Certification.

Skills Courses: The lifetime fitness skills development courses carry 0.5 credit each, are graded S-N only, and are repeatable to a limited number of credits. No more than 4 credits in SSA 12xx skills may be applied to the 120-credit degree requirement.

SSA 1213. Golf. (0.5 cr [max 1 cr]; S-N only; fall, every year)
Introductory instruction in the skills and techniques of golf.

SSA 1219. Strength Training. (0.5 cr [max 1 cr]; S-N only; fall, spring, every year)
Introductory instruction in the skills and techniques of strength training.

SSA 1224. Wellness Skills: R.A.D.-Basic Self-Defense System. (0.5 cr [max 1 cr]; S-N only; fall, spring, every year)
A comprehensive program of realistic, self-defense tactics and techniques for women. Includes awareness, prevention, risk reduction and avoidance, progressing to the basics of hands-on defense training. Utilizes nationally approved/recognized curriculum.
SSA 1231. Beginning Taekwondo. (0.5 cr [max 1 cr]; S-N only; fall, spring, every year) Philosophy of the martial arts. Basic stances and blocking, kicking, and striking techniques, terminology, footwork and sparring fundamentals.

SSA 1233. Advanced Taekwondo. (0.5 cr [max 1 cr]; S-N only; prereq 1231 or #; fall, spring, every year) Advanced stances and blocking, kicking, and striking techniques, terminology, footwork and sparring fundamentals.

Varsity Athletics: All varsity athletics courses carry 0.5 credit, are repeatable to a total of 2 credits, and are graded S-N only. No more than 4 credits in SSA 1401-1412 may be applied to the 120-credit degree requirement.

SSA 1401. Varsity Baseball (M). (0.5 cr [max 2 cr]; S-N only; spring, every year)

SSA 1402. Varsity Basketball. (0.5 cr [max 2 cr]; S-N only; spring, every year)

SSA 1403. Varsity Cross Country. (0.5 cr [max 2 cr]; S-N only; fall, every year)

SSA 1404. Varsity Football (M). (0.5 cr [max 2 cr]; S-N only; fall, every year)

SSA 1405. Varsity Golf. (0.5 cr [max 2 cr]; S-N only; fall, every year)

SSA 1406. Varsity Softball (W). (0.5 cr [max 2 cr]; S-N only; spring, every year)

SSA 1407. Varsity Tennis. (0.5 cr [max 2 cr]; S-N only; spring, every year)

SSA 1408. Varsity Track and Field. (0.5 cr [max 2 cr]; S-N only; spring, every year)

SSA 1410. Varsity Volleyball (W). (0.5 cr [max 2 cr]; S-N only; fall, every year)

SSA 1411. Varsity Soccer. (0.5 cr [max 2 cr]; S-N only; fall, every year)

SSA 1412. Varsity Swimming & Diving (W). (0.5 cr [max 2 cr]; S-N only; fall, every year)

SSA 1801. Mind and Body: Mental Skills and Martial Arts. (IC: 2 cr; prereq new college student in their first semester of enrollment at UMM; fall, spring, offered periodically) Mental skills such as stress management, imagery, and concentration have been practiced for centuries by martial artists and more recently by elite performers in a variety of fields (e.g., athletics, artistic and dramatic performance, medicine, and business). These skills and more are introduced through readings, analyzed during discussions, emphasized via the practice of martial arts skills and techniques, and applied to students' individual needs. Readings come from current sport psychology literature as well as traditional Asian martial arts passages. Students engage in physical activity.

SSA 1993. Directed Study. (1-5 cr [max 10 cr]; prereq approved directed study form; fall, spring, every year) An on- or off-campus learning experience individually arranged between a student and a faculty member for academic credit in areas not covered in the regular curriculum.

SSA 2101. Human Anatomy. (3 cr; =Biol 2102; prereq soph; fall, every year) Same as Biol 2102. Structure of human systems at their organ and cellular levels. (two 65-min lect, one 120-min lab)

SSA 2111. Kinesiology. (SCI; 2 cr; prereq 2102; fall, every year) Scientific principles of movement and tissue responses to force; analysis of basic movement in sports and other physical activities.

SSA 2112. Exercise Physiology. (2 cr; fall, every year) Human physiological adaptations resulting from activity/exercise.

SSA 2121. Prevention and Care of Injuries. (4 cr; prereq 2111; spring, every year) Introduction to safety measures, care, prevention, and rehabilitation of injuries in sports and other physical activities. (three 65-min lect, one 65-min lab)

SSA 2201. Baseball Coaching. (2 cr; spring, odd years) History, psychology, and theory of the game, techniques of coaching each position, rules, batting, practice and game organization, strategy, officiating.

SSA 2202. Basketball Coaching. (2 cr; fall, every year) History, psychology, and theory of the game, offensive and defensive formations, strategy, practice and game organization, officiating, rules, and techniques of coaching each position.

SSA 2203. Football Coaching. (2 cr; fall, every year) History, psychology, and theory of the game, offensive and defensive formations, strategy, practice and game organization, officiating, rules, techniques of coaching each position.

SSA 2204. Softball Coaching. (2 cr; spring, even years) History, psychology, and theory of the game, techniques of coaching each position, rules, batting, practice and game organization, strategy, officiating.

SSA 2205. Track and Field Coaching. (2 cr; spring, every year) History, psychology, and theory of the game, techniques for all track and field events, methods of coaching, practice and meet organization, strategy, rules, officiating.

SSA 2206. Volleyball Coaching. (2 cr; fall, even years) History, psychology, and theory of the game, offensive and defensive formations, strategy, practice and game organization, officiating, rules.

SSA 2208. Soccer Coaching. (2 cr; fall, odd years) History, psychology, and theory of the game, offensive and defensive formations, strategy, practice and game organization, officiating, rules.

SSA 2302. Introduction to Sport Management. (2 cr; A-F only; fall, spring, every year) Provides students with an overview of and a foundation in sport management. Topics include the history of sport management, the relevance of managerial concepts to sport, typical settings for sport managers, areas of study within sport management, sustainability in sport, and globalization and sport, among others.

SSA 2311. Sports Officiating. (2 cr; summer, offered periodically) Knowledge of the rules, techniques, and mechanics for officiating basketball, baseball, and softball at the high school level.

SSA 2324. Advanced R.A.D. (Rape Aggression Defense System). (1 cr; S-N only; prereq 1224; fall, every year) Builds on self-defense techniques and awareness, prevention and avoidance strategies learned in basic R.A.D., adding defenses against the edged weapon and firearm. Covers more prone defense strategies, multiple subject encounters, and low and diffused light simulation exercises.

SSA 2331. Personal Training Preparation. (2 cr; S-N only; fall, spring, offered periodically) Concepts, theory, practice, and research in personal training and conditioning. Basic anatomy and physiology, principles of strength training, overview of training equipment, fitness assessments, designing individual exercise programs, legal liabilities, national certifications, and review of research. Preparation for national certification examinations in the areas of personal training and strength conditioning.

SSA 2333. The Story of Sports. (SS; 4 cr; summer, offered periodically) Sports have become an important way to view and understand the broad developments of society in the 20th century. Many of these developments have been presented in the form of movies, music, poetry, short stories, novels, and stories handed down through the generations. Study these developments, how they are told through stories, and how sports can be useful for examining 20th century society and culture.

SSA 2401. Sociological Aspects of Sports. (SS; 2 cr; spring, every year) Sociological aspects of physical education, sports, and recreation and the implications this knowledge has for effective teaching, coaching, and athletic training.

SSA 2402. Psychological Aspects of Sports. (SS; 2 cr; prereq 2401: spring, every year) Psychological aspects of physical education, sports, and recreation and the implications this knowledge has for effective teaching, coaching, and athletic training.
SSA 2501. Sports in Media I. (SS; 2 cr; A-F only; spring, every year)
An introduction to the relationship between the media and sports in America. A broad range of topics include broadcast, print, and social media, as well as promotion and public relations and their roles as vehicles for promoting sports.

SSA 2502. Sports in Media II. (SS; 2 cr; A-F only; prereq 2501; spring, every year)
A continuation of Sports in Media I that will dissect and analyze the relationship between sports and media. Topics include the development, organization, and implementation of media tactics and associated historical social, cultural, and legal issues.

SSA 2993. Directed Study. (1-5 cr [max 10 cr]; prereq approved directed study form; fall, spring, every year)
An on- or off-campus learning experience individually arranged between a student and a faculty member for academic credit in areas not covered in the regular curriculum.

SSA 3101. Sport Industry Analysis. (SS; 4 cr; prereq 2302, Stat 1601 or Stat 2601 or #; spring, every year)
An examination of the rapidly developing sports industry from a promotional and sales management perspective. Focus on sport promotion, sport consumers, sales, sponsorship, licensing, and e-commerce.

SSA 3172. Leadership in Sport Organizations. (SS; 2 cr; A-F only; prereq 2302, Mgmt 3171; no cr for students who have received cr for Mgmt 3172; fall, offered periodically)
Examination of theories and case studies of organizational leadership within sport. Students learn about additional theories and models of sport leadership and practice and develop their leadership skills.

SSA 3201. Coaching Practicum. (1 cr; S-N only; prereq #; fall, spring, every year)
Supervised field experience in coaching, consisting of no fewer than 40 hours.

SSA 3210. Internship in Sport Studies and Athletics. (1-12 cr [max 24 cr]; S-N only; fall, spring, every year)
An educational experience in a work environment providing field applications for the student's theoretical classroom learning experiences. Learning contract approved by instructor prior to registration.

SSA 3993. Directed Study. (1-5 cr [max 10 cr]; prereq approved directed study form; fall, spring, every year)
An on- or off-campus learning experience individually arranged between a student and a faculty member for academic credit in areas not covered in the regular curriculum.

SSA 4101. Planning and Programming of Athletic Facilities. (4 cr; prereq 3101; spring, every year)
Supervised field experience in coaching, consisting of no fewer than 40 hours.

SSA 4102. Organization and Administration of Athletics and Recreation. (4 cr; prereq 2302, 4101; fall, every year)
A continuation of Sports in Media I that will dissect and analyze the relationship between sports and media. Topics include the development, organization, and implementation of media tactics and associated historical social, cultural, and legal issues.

SSA 4201. Sport Governance: Legal and Ethical Issues. (E/CR; 4 cr; A-F only; prereq 2302, 2401, 2402, 4101, 4102; spring, every year)
An integrative capstone for students in sport management. In addition to emphases in legal and ethical issues, it integrates knowledge from key areas of study in sport management. Includes an independent research project and a public presentation.

SSA 4993. Directed Study. (1-5 cr [max 10 cr]; prereq approved directed study form; fall, spring, every year)
An on- or off-campus learning experience individually arranged between a student and a faculty member for academic credit in areas not covered in the regular curriculum.

Statistics (Stat)

Division of Science and Mathematics

The mission of the discipline is to create and apply statistical methods/techniques for collecting, exploring, analyzing, and communicating qualitative/quantitative information and to disseminate this knowledge through teaching, scholarly activity, and outreach.

Statistics is the science and art of enhancing knowledge in the face of uncertainty by modeling, predictions, and decisions. It is central to solutions of problems in the environment, medicine, law, industry, technology, finance, business, public policy, computing, and science in general. The need for statistics applies to almost every area of our lives.

Objectives—The statistics program provides an effective operational knowledge of the theory and methods of statistics and the application of statistical methods in a liberal arts environment. It seeks to enhance students' critical thinking in making judgments based on data and provides students with the basic knowledge and skills to make contributions to modern society. Students learn to communicate and collaborate effectively with people in other fields and, in the process, to understand the substance of these fields. The curriculum prepares students to enter graduate school or pursue careers in statistical fields at research institutions and in the industry.

Statistics Major

The GPA in these courses must be at least 2.00. Courses may not be taken S-N, unless offered S-N only.

Students planning to pursue graduate work in statistics or biostatistics should complete MATH 2101—Calculus III and consider taking MATH 2202—Mathematical Perspectives and MATH 3211—Analysis for Ph.D. preparation.

Required Courses

MATH 1101 - Calculus I [M/SR] (5 cr)
MATH 1102 - Calculus II [M/SR] (5 cr)
STAT 2501 - Probability and Stochastic Processes [M/SR] (4 cr)
STAT 2611 - Mathematical Statistics [M/SR] (4 cr)
STAT 3601 - Data Analysis [M/SR] (4 cr)
STAT 4901 - Senior Seminar (1 cr)
STAT 1601 - Introduction to Statistics [M/SR] (4 cr)
or
STAT 2601 - Statistical Methods [M/SR] (4 cr)

Elective Courses

Take 8 or more credits from the following:

STAT 1993 - Directed Study (1-5 cr)
STAT 2993 - Directed Study (1-5 cr)
STAT 3501 - Survey Sampling [M/SR] (4 cr)
STAT 3611 - Multivariate Statistical Analysis [M/SR] (4 cr)
STAT 3993 - Directed Study (1-5 cr)
STAT 4601 - Biostatistics (4 cr)
STAT 4611 - Statistical Consulting (4 cr)
STAT 4631 - Design and Analysis of Experiments (4 cr)
STAT 4651 - Applied Nonparametric Statistics (4 cr)
STAT 4671 - Statistical Computing (4 cr)
STAT 4681 - Introduction to Time Series Analysis (4 cr)
STAT 4993 - Directed Study (1-5 cr)

Additional Elective Courses

Choose from the list below or from courses with faculty approval.

Take 4 or more credits from the following:

CSCI 1201 - Introduction to Digital Media Computation [M/SR] (4 cr)
CSCI 1251 - Computational Data Management and Manipulation [M/SR] (4 cr)
CSCI 1301 - Problem Solving and Algorithm Development [M/SR] (4 cr)
CSCI 1302 - Foundations of Computer Science [M/SR] (4 cr)
CSCI 4403 - Systems: Data Mining (2 cr)
CSCI 4458 - Systems: Bioinformatic Systems (4 cr)
CSCI 4555 - Theory: Neural Networks and Machine Learning (4 cr)
ECON 3501 - Introduction to Econometrics [M/SR] (4 cr)
### Minor Requirements

- **STAT 1601** - Introduction to Statistics ([M/SR]; 4 cr)
- **STAT 1601 - Introduction to Statistics** ([M/SR]; 4 cr)
- **Minor Elective Courses**
  - Take 16 or more credits from the following:
  - **STAT courses**
    - Take 1 or more course(s) from the following:
    - **STAT 1993** - Directed Study (1-5 cr)
    - **STAT 2501** - Probability and Stochastic Processes ([M/SR]; 4 cr)
    - **STAT 2611** - Mathematical Statistics ([M/SR]; 4 cr)
    - **STAT 2993** - Directed Study (1-5 cr)
    - **STAT 3601** - Data Analysis ([M/SR]; 4 cr)
    - **STAT 3611** - Multivariate Statistical Analysis ([M/SR]; 4 cr)
    - **STAT 3993** - Directed Study (1-5 cr)
    - **STAT 4601** - Biostatistics (4 cr)
    - **STAT 4611** - Statistical Consulting (4 cr)
    - **STAT 4631** - Design and Analysis of Experiments (4 cr)
    - **STAT 4651** - Applied Nonparametric Statistics (4 cr)
    - **STAT 4671** - Statistical Computing (4 cr)
    - **STAT 4681** - Introduction to Time Series Analysis (4 cr)
    - **STAT 4993** - Directed Study (1-5 cr)
  - **Non-stat courses**
    - **CSCI 1251** - Computational Data Management and Manipulation ([M/SR]; 4 cr)
    - **CSCI 1301** - Problem Solving and Algorithm Development ([M/SR]; 4 cr)
    - **CSCI 1302** - Foundations of Computer Science ([M/SR]; 4 cr)
    - **CSCI 4003** - Systems: Data Mining (2 cr)
    - **CSCI 4458** - Systems: Bioinformatic Systems (4 cr)
    - **CSCI 4555** - Theory: Neural Networks and Machine Learning (4 cr)
    - **ECON 3501** - Introduction to Econometrics ([M/SR]; 4 cr)
    - **MATH 2101** - Calculus III ([M/SR]; 4 cr)
    - **MATH 2111** - Linear Algebra ([M/SR]; 4 cr)
    - **MATH 2202** - Mathematical Perspectives ([M/SR]; 4 cr)
    - **MATH 3221** - Analysis ([M/SR]; 4 cr)
    - **MATH 3401** - Operations Research ([M/SR]; 4 cr)
    - **MATH 3501** - Applied Deterministic Modeling for Management Science ([M/SR]; 2 cr)
    - **MATH 3901** - Survey Sampling ([M/SR]; 4 cr)
    - **MATH 4001** - Mathematical Perspectives ([M/SR]; 4 cr)
    - **MATH 4201** - Analysis ([M/SR]; 4 cr)
    - **MATH 4401** - Operations Research ([M/SR]; 4 cr)
    - **MATH 4501** - Survey Sampling ([M/SR]; 4 cr)
    - **MATH 4601** - Biostatistics (4 cr)
    - **MATH 4611** - Statistical Consulting (4 cr)
    - **MATH 4631** - Design and Analysis of Experiments (4 cr)
    - **MATH 4651** - Applied Nonparametric Statistics (4 cr)
    - **MATH 4671** - Statistical Computing (4 cr)
    - **MATH 4681** - Introduction to Time Series Analysis (4 cr)
    - **MATH 4993** - Directed Study (1-5 cr)
  - **STAT 1993. Directed Study.** (1-5 cr; max 10 cr; prereq approved directed study form; fall, spring, every year)
  - **STAT 2601. Statistical Methods.** ([M/SR]; 4 cr; prereq Math 1101 or Math 1021; fall, every year)
  - **STAT 3501. Survey Sampling.** ([M/SR]; 4 cr; prereq 1601 or 2601 or #; fall, spring, every year)
  - **STAT 3601. Data Analysis.** ([M/SR]; 4 cr; prerequisite high school algebra; fall, spring, every year)
  - **STAT 3611. Multivariate Statistical Analysis.** ([M/SR]; 4 cr; prerequisite high school algebra; fall, spring, every year)
  - **STAT 3993. Directed Study.** (1-5 cr; max 10 cr; prereq approved directed study form; fall, spring, every year)
STAT 4601. Biostatistics. (4 cr; prereq 1601 or 2601 or 2611 or #; spring, offered periodically) Design and analysis of biological studies: biological assays, case-control studies, randomized clinical trials, factorial designs, repeated measures designs, observational studies, and infectious disease data. Analysis of survival data: basic concepts in survival analysis, group comparisons, and Cox regression model. Use of statistical computer packages.

STAT 4611. Statistical Consulting. (4 cr; prereq 3601, 3611; fall, spring, offered periodically) Statistical consulting skills needed to deal effectively with clients or project teams, formulate statistical models, explain analyses, use standard statistical computer packages, and write reports in language understandable to non-statisticians.

STAT 4631. Design and Analysis of Experiments. (4 cr; prereq 3601 or #; fall, spring, offered periodically) Design and analysis of experimental designs; blocking, randomization, replication, and interaction; complete and incomplete block designs; factorial experiments; crossed and nested effects; repeated measures; confounding factors.

STAT 4651. Applied Nonparametric Statistics. (4 cr; prereq 1601 or 2601 or 2611 or #; fall, spring, offered periodically) Application of nonparametric statistical methods. Examples use real data, gleaned primarily from research published in various journals. Nonparametric inference for single samples, paired samples, and independent samples, correlation and concordance, nonparametric regression, goodness-of-fit tests, and robust estimation.

STAT 4671. Statistical Computing. (4 cr; prereq 1601 or 2601 or 2611 or #; summer, offered periodically) Entering, exploring, modifying, managing, and analyzing data by using selected statistical software packages such as R or SAS. The use of statistical software is illustrated with applications of common statistical techniques and methods. Designed for students who have a basic understanding of statistics and want to learn the computing tools needed to carry out an effective statistical analysis.

STAT 4681. Introduction to Time Series Analysis. (4 cr; prereq 3601 or #; fall, odd years) Introduction to the analysis of time series including those with a connection to environment such as spatial and spatio-temporal statistics. Randomness test, ARMA, ARIMA, spectral analysis, models for stationary and non-stationary time series, seasonal time series models, conditional heteroscedastic models, spatial random processes, covariance functions and variograms, interpolation and kriging.

STAT 4901. Senior Seminar. (1 cr; prereq sr; fall, every year) Full-year course. Required for all statistics majors. Students must attend year round and present one of the seminars.

STAT 4993. Directed Study. (1-5 cr [max 10 cr]; prereq approved directed study form; fall, spring, every year) An on- or off-campus learning experience individually arranged between a student and a faculty member for academic credit in areas not covered in the regular curriculum.

Theatre Arts (Th)
Division of the Humanities

The discipline encompasses theatre as an artistic form and as a social and cultural institution. The study of theatre arts enables the individual to develop a creative imagination, an inquiring mind, a sense of social responsibility, professional discipline, a collaborative attitude, artistic standards and judgment, and a respect for the art form.

Objectives—The curriculum provides sound academic and practical training in theatre arts for undergraduate liberal arts students, for those wishing to pursue graduate studies in the field, and for those preparing to teach. It is designed to help students develop an appreciation for and ability to produce quality theatre.

Theatre Arts Major

Up to 4 credits of coursework with a grade of D or D+ may be used to meet the major requirements if offset by an equivalent number of credits of A or B. Courses may not be taken S-N unless offered S-N only.

A minimum GPA of 2.00 is required in the major to graduate. The GPA includes all, and only, University of Minnesota coursework. Grades of “F” are included in GPA calculation until they are replaced.

Other Requirements

At least one para-programmatic theatre experience that is arranged through a theatre arts faculty member and may take any number of forms, e.g., internship with a theatre company, study abroad, or theatre tour to New York (TH 1040) or London (TH 1050).

Portfolio review in the third year.

Six major production responsibilities (four of which must be in a faculty-directed production, all others must be pre-approved by faculty, and three must be in the junior and senior years).

Theatre Arts Minor

Up to 4 credits of coursework with a grade of D or D+ may be used to meet the minor requirements if offset by an equivalent number of credits of A or B. Courses may not be taken S-N unless offered S-N only.

A minimum GPA of 2.00 is required in the minor to graduate. The GPA includes all, and only, University of Minnesota coursework. Grades of “F” are included in GPA calculation until they are replaced.
Required Courses

TH 1101 - The Theatre Experience: An Introduction [FA] (4 cr)
TH 1111 - Fundamentals of Acting [ART/P] (4 cr)
TH 1301 - Fundamentals of Design [ART/P] (4 cr)
TH 2101 - Fundamentals of Directing [ART/P] (4 cr)
TH 2301 - Stagecraft [ART/P] (4 cr)

Elective Courses

Take 12 or more credits from the following:

TH 2111 - Creative Drama with Children [ART/P] (4 cr)
TH 2201 - Voice and Movement [ART/P] (4 cr)
TH 2211 - Oral Interpretation [ART/P] (4 cr)
TH 2221 - Readers' Theatre [ART/P] (4 cr)
TH 3001 - Theatre Scene Painting Studio [FA] (4 cr)
TH 3003 - Stage Management [ART/P] (4 cr)
TH 3101 - World Theatre: History and Literature I [FA] (4 cr)
TH 3102 - World Theatre: History and Literature II [FA] (4 cr)
TH 3301 - Stage Lighting [ART/P] (4 cr)
TH 3302 - Stage Costuming [FA] (4 cr)
TH 3303 - Computer-Assisted Drawing [ART/P] (4 cr)
TH 4301 - Scenic Design [FA] (4 cr)
TH 3201 - Advanced Acting [ART/P] (4 cr)
TH 3202 - Advanced Directing [ART/P] (4 cr)

Production Requirement

Three major production responsibilities (at least one of which must be in a faculty-directed production, and at least two must be completed in the junior and senior years).

Theatre Arts Course Descriptions

TH 1040. Backstage on Broadway. (1 cr [max 4 cr]; S-N only; prereq #; fall, spring, offered periodically)
Supervised field trip to New York; attending selected professional theatre productions; backstage tours; discussions with theatre professionals.

TH 1050. London Theatre Tour. (1 cr [max 4 cr]; S-N only; prereq #; fall, spring, offered periodically)
Supervised field trip to London, England; attending selected professional theatre productions; backstage tours; discussions with theatre professionals.

TH 1060. Production Experience. (1 cr [max 8 cr]; S-N only; prereq #; fall, spring, every year)
Participation in some aspect of theatre production other than performing (e.g., scenery, props, costumes, lighting). An interview and approval from theatre faculty is required.

TH 1070. Performance Experience. (ART/P; 1 cr [max 8 cr]; S-N only; prereq #; fall, spring, every year)
Participation in theatrical production as a performer. A production audition is required with approval from the theatre faculty.

TH 1101. The Theatre Experience: An Introduction. (FA; 4 cr; practicum two hours per week, selected from M-Th from 2:00-5:00 p.m.; fall, every year)
Fundamental examination and practical application of the theory, history, and practice of theatrical performance as a reflection of society. Focus is on the theatre event as a collaborative effort and transitory art form. (lect, 2 hrs practicum).

TH 1111. Fundamentals of Acting. (ART/P; 4 cr; prereq 1101, theatre arts major or minor or #; spring, every year)
Approaches characterization from a physical and psychological view. Focus is on use of imagination, text analysis, body and voice to develop characters from modern realistic dramatic literature.

TH 1301. Fundamentals of Design. (ART/P; 4 cr; fall, every year)
Problem-solving approach to elements, principles, and functions of design; their place in the theatre and elsewhere.

TH 1993. Directed Study. (1-5 cr [max 10 cr]; prereq approved directed study form; fall, spring, every year)
An on- or off-campus learning experience individually arranged between a student and a faculty member for academic credit in areas not covered in the regular curriculum.

TH 2101. Fundamentals of Directing. (ART/P; 4 cr; prereq 1111, theatre arts major or minor or #; fall, every year)
Introduces the practical components of the director as artist, teacher, and collaborator. Focus is on the craft of directing modern realistic dramatic literature through text analysis, communication of concepts, and stylistic techniques.

TH 2111. Creative Drama with Children. (ART/P; 4 cr; prereq 1101 or theatre or elem ed major or #; fall, spring, offered periodically)
Development of classroom skills in the use of dramatic techniques to teach a broad range of subjects to children. Exercises, presentations, and experiential learning techniques are modeled and practiced in class.

TH 2201. Voice and Movement. (ART/P; 4 cr; prereq 1111, theatre arts major or minor or #; spring, every year)
Explores the use of the voice and the body as means for expression in performance and everyday communication. Focus is on expansion and enhancement of vocal and physical skills through release of tension, posture, vocal exercises, and muscle extension.

TH 2211. Oral Interpretation. (ART/P; 4 cr; offered alternate yrs; fall, spring, offered periodically)
Introduces the study of literature through text analysis and performance. Focus is on the student's discovery of the aesthetic, communicative, and performative elements of a variety of personal narratives, prose, and poetry.

TH 2221. Readers' Theatre. (ART/P; 4 cr; prereq 2211; fall, spring, offered periodically)
Explores the theory and practice of adapting literature into group performance. Focus is on text analysis, script development, directing, and performing both dramatic and non-dramatic literary texts.

TH 2222. Creating Live Radio Theatre from Script to Performance. (ART/P; 1 cr; S-N only; prereq #; students will audition/interview to be on radio; spring, offered periodically)
Provides an opportunity to develop a radio theater show from script through broadcast performance. Parts are assigned through audition. Involves significant research and rehearsal time in various capacities for all students enrolled.

TH 2231. Playwriting. (ART/P; 4 cr; fall, spring, offered periodically)
Introduces the process for writing and revising an original play. Focus is on writing, revising, and presenting a short play, including idea generation, invention, drafting, and peer response.

TH 2301. Stagecraft. (ART/P; 4 cr; spring, every year)
Development of stagecraft from the Greeks to the present. Basic forms of stage scenery and their functions in the theatre. Tools, materials, and techniques employed in creating the visual environment of the stage. (3 hrs lect, 3 hrs practicum)

TH 2993. Directed Study. (1-5 cr [max 10 cr]; prereq approved directed study form; fall, spring, every year)
An on- or off-campus learning experience individually arranged between a student and a faculty member for academic credit in areas not covered in the regular curriculum.

TH 3001. Theatre Scene Painting Studio. (FA; 4 cr; prereq #; fall, odd years)
Instruction in a systematic approach to painting theatrical scenery. Traditional techniques and the tools and paints that have been developed to support those techniques.

TH 3003. Stage Management. (ART/P; 4 cr; prereq #; fall, spring, offered periodically)
Introduces the principles of theatrical stage management; explores the stage manager's functions and duties through all phases of the production process including pre-production, rehearsal, and performance.

TH 3004. Fabrication and Scenic Painting for Film and Stage. (FA; 4 cr; spring, offered periodically)
Delve into the entertainment industry's production techniques. Leave with a knowledge of styrofoam carving, texturing skills, how to paint 3D and 2D props and set pieces. Covers a variety of industry standard aspects of production.
TH 3101. World Theatre: History and Literature I. (FA; 4 cr; fall, every year)
Theatrical practice and dramatic literature from origins through late
17th century, tracing the roots leading to, and influences on, early
modern European theatre practice and dramatic literature, as well as
examining select Asian, African, and/or pre-Columbian American
theatrical practice.

TH 3102. World Theatre: History and Literature II. (FA; 4 cr; spring, every year)
Theatrical practice and dramatic literature from the late 17th century
to the present, examining select Asian, African, and/or Western
Hemisphere theatrical practice, as well as tracing the roots leading to,
and influences on, current world theatre practice and dramatic
literature.

TH 3201. Advanced Acting. (ART/P; 4 cr; prereq 1101, 1111, 2101; fall, spring, offered periodically)
Begins with advanced acting techniques based in psychological
realism and moves to an exploration of select classical and non-
realistic forms. Styles to be examined are chosen from a list, including
ancient Greek, Elizabethan, comedy of manners, absurdism, postmodernism, musical theatre, etc.

TH 3202. Advanced Directing. (ART/P; 4 cr; prereq 1101, 1111, 2101; fall, spring, offered periodically)
Begins with advanced directing techniques based in psychological
realism and moves to an exploration of select classical and non-
realistic forms. Styles to be examined are chosen from a list, including
ancient Greek, Elizabethan, comedy of manners, absurdism, postmodernism, musical theatre, etc.

TH 3301. Stage Lighting. (ART/P; 4 cr; prereq 1301, 2301; fall, even years)
History and development of lighting for the stage. Theory and
concepts of lighting as a visual art and its function in the theatre.
Lighting design as a creative process and practical solution of lighting
design problems. Lighting equipment and its use.

TH 3302. Stage Costuming. (FA; 4 cr; prereq 1301, 2301; fall, odd years)
History and development of stage costume. Theory and concepts of
stage costuming as a visual art and its function in the theatre.
Costume design as a creative process. Practical demonstrations of
knowledge of design, history, and functions of stage costume.

TH 3303. Computer-Assisted Drawing. (ART/P; 4 cr; fall, offered periodically)
Theory, concepts, and practice of using a computer as a drawing and
drafting tool.

TH 3304. Art Direction for Film and Television. (FA; 4 cr; fall, spring, offered periodically)
Introduction of art direction for film and television. The roles and
duties of the production designer and art director for fictional film and
television series.

TH 3305. Stage Make-Up. (ART/P; 4 cr; fall, spring, offered periodically)
Systematic approach to stage make-up application. Includes history,
safety, product, design, and application, with heavy emphasis on
hands-on experience.

TH 3450. Irish Drama: Print, Culture, and Performance. (IP; 4 cr [max 8 cr]; some course readings expected before departure; summer, offered periodically)
Includes theatre performances and tours, workshops, and seminars from leading Irish scholars and actors; class sessions; cultural visits and exploration of Irish cities, landscapes, and historical sites throughout Ireland.

TH 3993. Directed Study. (1-5 cr [max 10 cr]; prereq approved directed study form; fall, spring, every year)
An on- or off-campus learning experience individually arranged
between a student and a faculty member for academic credit in areas not covered in the regular curriculum.

TH 4301. Scenic Design. (FA; 4 cr; prereq 1301, 2301; fall, odd years)
Designing scenery as an expressive environment for the theatre.
Elements and functions of design and principles of composition.
Problems in coordination and execution of design in the interpretation
of dramatic literature using a variety of staging techniques. Study of
various styles of historical and contemporary stage productions and
theatre architecture through the writings and designs of such artists
and theorists as Appia, Craig, Meyerhold, Jones, and Svoboda.

TH 4901. Senior Project. (2-4 cr; prereq theatre arts major; #; fall, spring, every year)
Culminating activity to demonstrate the student's competence in
some area of theatre arts. Projects may be completed independently
(e.g., a research paper, a solo acting performance) or as part of a
group effort. Acting, scenery, lighting, costume design, playwriting,
and theatre history are some areas in which the project may be
undertaken.

TH 4993. Directed Study. (1-5 cr [max 10 cr]; prereq approved directed study form; fall, spring, every year)
An on- or off-campus learning experience individually arranged
between a student and a faculty member for academic credit in areas not covered in the regular curriculum.
Administration and Faculty

University Regents
Linda Cohen, At Large, Chair
David Larson, Congressional District 3, Vice Chair
Clyde Allen, Congressional District 7
Richard Beeson, Congressional District 4
Laura Brod, At Large
Thomas Devine, Congressional District 2
John Frobenius, Congressional District 6
Venora Hung, Congressional District 5
Dean Johnson, At Large
David McMillan, Congressional District 8
Maureen Ramirez, At Large
Patricia Simmons, Congressional District 1

University Administrators
Eric W. Kaler, President
Aaron Friedman, Vice President for Health Sciences and Dean, Medical School
Kathryn F. Brown, Vice President for Human Resources
Karen Hanson, Senior Vice President for Academic Affairs and Provost
Gail Klatt, Associate Vice President for Internal Audits
Brian Herman, Vice President for Research
Richard Pfutzenreuter, Vice President and Chief Financial Officer
Amy Phenix, Chief of Staff
Jason Rohloff, Special Assistant, Government and Community Relations
Mark B. Rotenberg, General Counsel
Scott Studham, Vice President and Chief Information Officer
Pamela Wheelock, Vice President for University Services

Morris Campus
Administrative Officers
Jacqueline Johnson (2006), Chancellor; B.A., Macalester College; M.S., Ph.D., Purdue University
Bart Finzel (1989), Vice Chancellor for Academic Affairs and Dean; B.A., Valparaiso University; M.A., Ph.D., Cornell University
Sandra K. Olson-Loy (1985), Vice Chancellor for Student Affairs; B.S., Moorhead State University; M.A., University of Wisconsin, Madison
Lowell Rasmussen (1993), Vice Chancellor for Facilities and Finance; B.S., M.S., Mankato State University
Madeline Maxeiner (1976), Vice Chancellor for External Relations and Director of Fund Development; B.A., University of Minnesota, Morris; M.A., Saint Mary's University of Minnesota
Gwen Rudney (1991), Chair, Division of Education; B.A., M.A., Ph.D., University of California, Riverside
Pieranna Garavaso (1985), Chair, Division of the Humanities; B.A., M.A., University of Padova, Italy; Ph.D., University of Nebraska, Lincoln
Peh Ng (1995), Chair, Division of Science and Mathematics; B.S., Adrian College; M.S., Ph.D., Purdue University
Leslie Meek (1995), Chair, Division of the Social Sciences; B.A., University of Minnesota, Morris; Ph.D., University of Michigan

UMM Alumni Association
Board of Directors
Tony Schuster, '02, Mound, President
Dennis Gimmestad, '73, St. Louis Park, Immediate Past President
Suzanne Basiago, '87, Bloomington, First Vice President
Donnay Green, '05, Minneapolis, Second Vice President
Kyle Berget, '90, Morris
Amy Doll-Wohlers, '90, Morris
Gretchen Alms Garrick, '04, St. Paul
Beverly Mahoney Harren, '66, Minneapolis
Howard Hecht, '92, Boston, MA
Reid LeBeau, '02, Andover
Jeffery Stewart, '02, Chicago, IL
Curt Teberg, '70, Duluth
Administrative Directors

Jill Beauregard (1993), Director, Financial Aid; B.A., University of Minnesota, Morris; M.Ed., University of Minnesota, Duluth
Roger Boelem (1966), Director, Instructional and Media Technologies; B.A., M.L.S., University of Minnesota, Twin Cities
LeAnn Dean (1991), Director, Library; B.A., Concordia College; M.A., University of Minnesota, Twin Cities; M.A., University of South Dakota
Clare Dingley (1990), Director, Office of the Registrar; B.A., University of Minnesota, Morris
Gary Donovan (1973), Coordinator, Career Center; B.A., M.S., Mankato State University
Mark Fohl (1985), Athletic Director; B.S., Dickinson State University; M.S., University of North Dakota
Henry Fulda (2002), Assistant Vice Chancellor for Student Life; B.A., Lamar University; M.S., M.B.A., Ed.D., Texas A&M University
James Hall (2010), Director, Computing Services; B.S., University of Wisconsin-River Falls
Nancy Helsper (1977), Director, Institutional Research; B.A., University of Minnesota, Morris; M.L.S., University of Minnesota, Twin Cities
Bryan Herrmann (2001), Director, Admissions; B.A., University of Minnesota, Morris; M.B.A., University of Minnesota, Duluth
Jennifer Zych Herrmann (2000), Coordinator, Retention; B.A., University of Minnesota, Morris; M.A., University of Minnesota, Twin Cities
Hilda Ladner (2007), Assistant to the Chancellor for Equity and Diversity and Director of the Multi-Ethnic Student Program; B.A., M.Ed., Northern Arizona University
Corrine Larson (1999), Director, Health Services; R.N., St. Barnabas School of Nursing
Jennifer Lund (1990), Lieutenant; B.S., Mankato State University
Sarah Mattson (1995), Director, Human Resources; B.S., Southwest State University
Colleen Miller (2008), Director, Finance; B.A., College of St. Catherine
Jeffrey Ratliff-Crain (1989), Director, Academic Center for Enrichment; B.S., Ohio State University; Ph.D., Uniformed Services University of the Health Services
Carla Riley (2003), Director, Alumni Relations and Annual Giving; B.A., University of Minnesota, Morris; M.A., University of St. Thomas
Thomas Ross (2003), Associate Director, Residential Life; B.S., University of South Dakota
David Swenson (2004), Director, Student Activities; B.A., Missouri Southern State College; M.S., Pittsburg State University
Roger Wareham (2009), Director, Grants Development; B.S., Southern Utah University; M.F.A., Wayne State University
Melissa Weber (2007), Director, Communications; B.S., North Dakota State University

Morris Campus Faculty

*Recipient of the Horace T. Morse-Minnesota Alumni Association Award for Outstanding Contributions to Undergraduate Education.

Division of Education

Gwen Rudney, Chair

Elementary and Secondary Education

Professor

*Gwen Rudney (1991), B.A., M.A., Ph.D., University of California, Riverside
Carol Cook (1992), B.S., St. Cloud State University; M.Ed., University of Minnesota, Twin Cities

Associate Professor

Judy Kuechle (1988), B.S., St. Cloud State University; M.S., Mankato State University; Ph.D., University of Minnesota, Twin Cities
*Michelle Page (2000), B.A., Concordia College; M.S., Ph.D., University of Wisconsin, Madison

Assistant Professor

Kenneth Emo (2012), B.S., M.Ed., University of California, Davis; Ph.D., University of Colorado, Boulder

Wendy Emo (2012), B.A., University of California, Davis; M.Ed., South Dakota State University; Ph.D., University of York, England

Sport Studies and Athletics

Coaches and Instructional Staff

Raven Battle (2005), Assistant Football Coach; B.A., Buena Vista College; M.A., Minnesota State University, Mankato
Raymond Bowman (2001), Head Athletic Trainer; B.S., Idaho State University
Chad Braegelmann (2008), Head Women’s Volleyball, Athletics Director; B.A., University of Minnesota, Morris; M.A., Northern State University
Mark Fohl (1985), Athletics Director, Head Men’s Golf; B.S., Dickinson State College; M.S., University of North Dakota
Paul Grove (2002), Assistant Athletics Director, Head Men’s Basketball; B.A., Gustavus Adolphus College; M.S., Augusta College
Timothy Grove (2006), Head Women’s Basketball; A.A., Fergus Falls Community College; B.S., Mayville State University; M.A., University of North Dakota, Grand Forks
Matthew Johnson (2004), Assistant Athletics Director, Assistant Football; B.A., University of Minnesota, Morris; M.Ed., University of Minnesota, Duluth
Grant Harding (2007), Head Men’s Baseball; B.S., Hamline University
Rich Hardy (2002), Athletic Trainer; B.S., Northern State University; M.A., University of Nebraska at Kearney
Todd Hickman (1998), Head Football; B.S., St. Cloud State University; M.Ed., University of Nebraska at Kearney
Jeremy Karger-Gatzow (2004), Head Track and Cross Country; B.A., Hamline University; M.A., University of Illinois at Chicago
Jana Koehler (2000), Head Women’s Golf; B.A., University of Minnesota, Morris
Dan Magner (2006), Head Women’s Soccer; B.A., Eastern Nazarene College
David Molesworth (2004), Head Swimming; B.S., M.A., University of South Dakota
Heather Pennie (1998), Head Women’s Softball; B.A., University of Minnesota, Morris; M.A., Northern State University
Elijah Starzl (2008), Head Tennis; B.S., M.S., Southwest Minnesota State University
Scott Turnbull (2007), Head Men’s Soccer; B.A., University of Minnesota, Morris

Division of the Humanities
Pieranna Garavaso, Chair

Art History
Associate Professor
Julia Dabbs (2000), A.B., University of Michigan, Ann Arbor; M.A., Ph.D., University of Maryland College Park
Joel Eisinger (1989), B.A., Indiana University; M.A., Stanford University; M.F.A., Ph.D., Indiana University
James Schryver (2005), B.A., Boston University; M.A., Ph.D., Cornell University

Art, Studio
Professor
Jessica Larson (1995), B.A., University of Minnesota, Morris; M.F.A., University of Colorado
Associate Professor
Michael Ebler (2003), B.F.A., University of Louisiana; M.F.A., University of Mississippi
Theresa Otten (2001), B.S., North Dakota State University; M.F.A., University of South Dakota, Vermillion

Instructional Staff
Kevin Flicker (1986), B.A., University of Minnesota, Morris

Communication, Media, and Rhetoric
Professor
Mary Elizabeth Bezanson (1987), B.S., B.A., University of Minnesota, Twin Cities; M.A., Ph.D., University of Washington
Associate Professor
Barbara Burke (1996), M.A., University of Michigan; B.S., B.A., M.A., Ph.D., Purdue University

Instructional Staff
Anthony Ocaña (2011), B.A., University of California, Santa Barbara; Ph.D., North Dakota State University, Fargo

English
Professor
Vicki Graham (1989), B.A., San Francisco State University; M.L.S., M.A., Ph.D., University of California, Berkeley
Associate Professor
Bradley Deane (2002), B.A., University of Michigan; M.A., Ph.D., Northwestern University

Julie Eckerle (2007), B.A., Franklin College; M.A., University of Kentucky; Ph.D., University of Minnesota, Twin Cities
*Janet Schrunk Erickson (1998), B.A., University of Kansas, Lawrence; M.A., Ph.D., University of Illinois, Urbana-Champaign
Becca Gercken (2002), B.A., Slippery Rock University; M.A., Ph.D., University of Miami
Michael Lackey (2007), B.A., University of St. Thomas; M.A., Ph.D., University of Kentucky, Lexington
C. Brook Miller (2006), B.A., Dartmouth College; M.A., Ph.D., Indiana University
Tisha Turk (2005), B.A., Oberlin College; M.A., Ph.D., University of Wisconsin, Madison

Instructional Staff
David Erickson (1998), B.A., Carleton College; M.A., Ph.D., University of Illinois at Urbana-Champaign
Athena Kildegaard (2006), B.A., Gustavus Adolphus College; M.A.T., University of Chicago
Christine Kolaya (2008), B.A., Loyola University, Chicago; M.F.A., Indiana University, Bloomington

French
Associate Professor
Tammy Berberi (2002), B.A., Colorado College; M.A., University of North Carolina, Chapel Hill; Ph.D., Indiana University, Bloomington
Sarah Buchanan (2000), B.A., St. Olaf College; M.A. University of Utah; Ph.D., University of Minnesota, Twin Cities

Instructional Staff
Lisa Bevevino (2012), B.A., University of North Carolina at Chapel Hill; M.A., Ph.D., Ohio State University

German Studies
Assistant Professor
Steven Mark Carey (2012), B.A., St. Joseph’s University; M.A., Ph.D., Washington University in St. Louis

Languages
Instructional Staff
Viktor Berberi (2002), B.A., University of Notre Dame; M.A., Ph.D., Indiana University
Gabriel Desrosiers (2010), B.A., University of Minnesota, Morris; M.Ed., University of Minnesota, Duluth
Nancy Pederson (2009), B.S., Moorhead State University; M.A., University of Minnesota, Twin Cities

Music
Assistant Professor
John Wesley (Wes) Flinn (2012), B.M., Morehead State University; M.M., Ph.D., University of Cincinnati College-Conservatory of Music
Denise Odello (2008), B.M., University of California, Irvine; M.A., Ph.D., University of California, Santa Barbara
Jason Squinobal (2012), B.A., Berklee College of Music; M.A., Ph.D., University of Pittsburgh

Instructional Staff
Ann DuHamel (2009), B.A., College of St. Benedict; M.M., University of Notre Dame

199
Melissa Hanson (2009), B.A., Macalester College; M.M., D.M.A., New England Conservatory of Music

Philosophy

Professor
*Pieranna Garavaso (1985), B.A., M.A., University of Padova, Italy; Ph.D., University of Nebraska, Lincoln

Associate Professor
Mark Collier (2005), B.A., Columbia University; Ph.D., University of California, San Diego

Assistant Professor
Daniel Demetriou (2009), B.A., Ambassador University; M.A., Texas A&M University; Ph.D., University of Colorado at Boulder

Spanish

Professor
Vicente Cabrera (1987), B.A., Universidad Catolica del Ecuador; M.A., Ph.D., University of Massachusetts, Amherst

Associate Professor
Stacey Parker Aronson (1991), B.A., Ohio Wesleyan University; M.A., University of Kansas; Ph.D., University of Minnesota, Twin Cities
James Wojtaszek (1999), B.A., M.A., Kent State University; Ph.D., Rutgers, The State University of New Jersey

Instructional Staff
Windy Roberts (2005), B.S., Lesley University, Cambridge, MA; M.Ed., Concordia College

Theatre Arts

Associate Professor
Siobhan Bremer (2001), B.S., Winona State University; M.F.A., Minnesota State University, Mankato
Ray Schultz (2000), B.A., New York University; M.A., Ph.D., Wayne State University

Division of Science and Mathematics

Peh Ng, Chair

Biology

Professor
Christopher Cole (1989), B.A., Brown University; M.S., Ph.D., University of Minnesota, Twin Cities

Associate Professor
Tracey Anderson (1997), B.A., Gustavus Adolphus College; M.A., University of Kansas; Ph.D., Oregon State University
Margaret Kuchenreuther (1991), B.A., University of Northern Iowa; M.S., University of Wisconsin, Milwaukee; Ph.D., University of Wisconsin, Madison
Paul Myers (2000), B.S., University of Washington, Seattle; Ph.D., University of Oregon
Peter Wyckoff (2001), B.A., Drew University; Ph.D., Duke University
Timma Wyckoff (2001), B.A., University of Minnesota, Morris; Ph.D., Duke University

Assistant Professor
Ruben Michael Ceballos (2012), B.S., University of Alabama in Huntsville; M.A., University of Alabama at Birmingham; Ph.D., University of Montana
Heather Waye (2008), B.Sc., M.Sc, University of Victoria; Ph.D., Oregon State University

Chemistry

Professor
*Nancy Carpenter (1989), B.S., Elmhurst College; Ph.D., Northwestern University
*James Togeas (1961), B.A., St. Olaf College; M.A., University of Minnesota, Twin Cities

Associate Professor
Joseph Alia (2002), B.A., New College of Florida; Ph.D., Yale University
Jennifer Goodnough (2002), B.S., Saint Francis College, Pennsylvania; Ph.D., University of Wisconsin, Madison
Ted Pappenfus (2003), B.A., Saint John’s University; Ph.D., University of Minnesota, Twin Cities
Timothy Soderberg (2000), B.A., Amherst College; Ph.D., University of Utah

Computer Science

Professor
Nicholas McPhee (1991), B.A., Reed College; M.S., Ph.D., University of Texas, Austin

Assistant Professor
Kristin Lamberty (2005), B.A., University of Minnesota, Morris; M.S., Ph.D., Georgia Institute of Technology
Elena Machkasova (2003), M.S., Moscow Oil and Gas Institute; M.S., University of Southern Maine; Ph.D., Boston University

Geology

Professor
Keith Brugger (1993), B.S., M.S., Lehigh University; Ph.D., University of Minnesota, Twin Cities
*James Cotter (1984), B.A., Franklin and Marshall College; M.S., Ph.D., Lehigh University

Assistant Professor
Stephen Crabtree (2012), B.A., Franklin and Marshall College; Ph.D., University of Michigan, Ann Arbor

Mathematics

Professor
*Peh Ng (1995), B.S., Adrian College; M.S., Ph.D., Purdue University
David Roberts (1999), B.A., Princeton University; Ph.D., Harvard University

Associate Professor
Mark Logan (2002), B.A., Carleton College; Ph.D., University of Wisconsin, Madison
*Barry McQuarrie (2000), B.S., University of Winnipeg; M.M., University of Waterloo; Ph.D., University of Manitoba

Assistant Professor
Christopher Atkinson (2012), B.S., Ph.D., University of Illinois at Chicago
Laura Mercred (Merc) Chasman (2011), B.S., California Institute of Technology; M.S., Ph.D., University of Illinois at Urbana-Champaign

Physics
Professor
Gordon McIntosh (1992), B.S., Westminster College, Pennsylvania; M.S., West Virginia University; Ph.D., University of Massachusetts, Amherst
Associate Professor
Sylke Boyd (2004), M.A., Ph.D., University of Technology in Chemnitz, Germany
Michael Korth (1984), B.A., University of Minnesota, Morris; M.S., Ph.D., University of Maryland

Statistics
Professor
*Jon Anderson (1994), B.S., M.S., Ph.D., University of Minnesota, Twin Cities
Jong-Min Kim (2002), B.S., Chongju University, South Korea; M.S., Chung-Ang University, South Korea; Ph.D., Oklahoma State University
*Engin Sungur (1990), B.C.P., M.S., Middle East Technical University, Turkey; M.S., Ph.D., Carnegie Mellon University

Division of the Social Sciences
Leslie Meek, Chair

Anthropology
Associate Professor
Donna Chollett (1995), B.S., M.A., Iowa State University; Ph.D., Michigan State University
Assistant Professor
Rebecca Dean (2007), B.A., University of Michigan; M.A., Ph.D., University of Arizona

Economics/Management
Professor
Cyrus Bina (2000), B.S., Institute of Advanced Accounting, Tehran; M.A., Ball State University; American University
*Bart Finzel (1989), B.A., Valparaiso University; M.A., Ph.D., Cornell University
Arne Kildegaard (2001), B.A., Gustavus Adolphus College; M.A., University of Chicago; Ph.D., University of Texas, Austin

Associate Professor
Stephen Burks (1999), B.A., Reed College; M.A., Indiana University; Ph.D., University of Massachusetts
Assistant Professor
Bibudutta Panda (2012), B.A., Utkal University, India; M.A., Gokhale Institute of Politics and Economics, India; M.Phil., Delhi School of Economics, India; M.S., Ph.D., Louisiana State University
Sheng Xiao (2009), B.A., M.A., Sichuan University, China; Ph.D., Vanderbilt University

Instructional Staff
Hiroyuki Imai (2010), B.A., Keio University, Tokyo; M.A., The University of Michigan; Ph.D., The Johns Hopkins University

History
Professor
*Roland Guyotte (1969), A.B., Brown University; M.A., Ph.D., Northwestern University
Associate Professor
Jennifer Kolpacoff Deane (2005), B.A., University of Washington, Seattle; Ph.D., Northwestern University
Stephen Gross (1998), B.A., Ph.D., University of Minnesota, Twin Cities
Marynel Ryan Van Zee (2005), B.A., University of Illinois, Chicago; Ph.D., University of Minnesota, Twin Cities

Assistant Professor
Kent Blansett (2010), B.A., University of Missouri, Columbia; M.A., Ph.D., University of New Mexico, Albuquerque
J. Brooks Jessup (2010), B.A., Hamilton College; M.A., Ph.D., University of California, Berkeley

Political Science
Professor
Seung-Ho Joo (1995), B.A., Yonsei University, Korea; M.A., Eastern Kentucky University; Ph.D., Pennsylvania State University
Associate Professor
Roger Rose (2009), B.A., Occidental College; M.A., Ph.D., University of California, Davis

Assistant Professor
Sheri Breen (2007), B.A., Ph.D., University of Minnesota, Twin Cities

Psychology
Professor
*Leslie Meek (1995), B.A., University of Minnesota, Morris; Ph.D., University of Michigan
*Jeffrey Ratliff-Crain (1989), B.S., Ohio State University; Ph.D., Uniformed Services University of the Health Sciences

Associate Professor
Thomas Johnson (1986), B.A., St. Olaf College; Ph.D., University of Minnesota, Twin Cities
Dennis Stewart (2002), B.S., University of Illinois at Urbana-Champaign; M.A., Ph.D., Miami University

Assistant Professor
Oscar Baldegomar (2012), B.A., M.A., Ph.D., California State University, Los Angeles
Heather Peters (2007), B.A., B.S., University of Minnesota, Twin Cities; M.A., University of Arizona; Ph.D., University of California, Davis
Instructional Staff
Nicholas Leonard (2011), B.A., St. John’s University; M.A., Ph.D., University of Minnesota, Twin Cities
Cheryl Stewart (2004), B.S., George Mason University, Fairfax, Virginia; M.A., Ph.D., Miami University, Oxford, Ohio

Sociology
Associate Professor
Donna Chollett (1995), B.S., M.A., Iowa State University; Ph.D., Michigan State University
Solomon Gashaw (1986), B.A., Haile Selassie I University, Ethiopia; M.L.I., S.J.D., Ph.D., University of Wisconsin, Madison
Farah Gilanshah (1988), B.A., National University of Iran; M.A., Ph.D., University of Minnesota, Twin Cities
Jennifer Rothchild (2003), B.A., Miami University; M.A., Georgia State University; Ph.D., American University

Interdisciplinary Studies
American Indian Studies
Faculty from numerous disciplines, including anthropology, English, and history.

Environmental Science
Faculty from numerous disciplines, including biology, chemistry, and geology.

Environmental Studies
Assistant Professor
Edwin Brands (2011), B.A., Grinnell College; M.A., Ph.D., University of Iowa
Faculty from numerous disciplines, including biology, economics, English, and political science.

Gender, Women, and Sexuality Studies
Faculty from numerous disciplines, including English, history, philosophy, and sociology.

Latin American Area Studies
Faculty from numerous disciplines, including anthropology, history, political science, sociology, and Spanish.

Liberal Arts for the Human Services
Faculty from numerous disciplines, including psychology and sociology.

Sport Management
Assistant Professor
Kevin Stefanek (2007), B.A., University of California, Berkeley; M.S., Boise State University; M.S., Ph.D., Michigan State University
Faculty from numerous disciplines, including sport studies and athletics and management.
The University of Minnesota is an equal opportunity employer and educator.
